**Activities Relevant to Northern, Rural, and Remote Living**

This section allows you to demonstrate your connection to northern, rural, and remote living through activities, which further helps capture your suitability for rural and/or northern education. You may include both Canadian and non-Canadian locations for this section. These activities can include non-traditional activities (e.g., farming or tree-planting), outdoor, leisure, hobbies, volunteer or community-based work, and employment activities. For each activity, please include a short description. If the activity was performed on an irregular schedule, or if there is something else you wish to clarify about your participation in the activity, please explain in the clarification box provided. Please note that you may be asked to provide the contact information of a person who can confirm the details of each activity listed.

**Lived Experiences in Canadian Rural/Remote/Northern/Aboriginal Settings**

In this section, you will list the Canadian locations you have lived from birth until the most recent December. Please include all the places you have lived in Canada, even if the location was not rural, remote, or northern. Do not enter places you have lived for less than three months.

*If you were born in Canada*

- Enter the city and province where you were born. The start date for Age 0-4 (Birth to Pre-School) is your month and year of birth.
- If you were still living in the same location when you turned 5, the end date is the month of your 5<sup>th</sup> birthday.
- If you moved one time before you turned 5, the end date is the last month you lived in your place of birth. You would then create a location entry, in the Age 0-4 (Birth to Pre-School) row, with a start date of the month you moved to the new location. The end date for this entry would be the month of your 5<sup>th</sup> birthday.
- Fill out the other ages in a similar manner. You might have more than one entry per age, depending on how many places you have lived. The end date of your last entry should be the most recent December unless you are currently living abroad. If you are currently living abroad, then your last entry should be the last date you were residing in Canada.

*If you were born outside Canada*

- Determine how old you were the month you started living in Canada and select the appropriate “age” category. The start date will be the month you started living in Canada. Enter the city and province where you first resided in Canada.
