**EDUC 642-3 Personal and Career Planning for Students with Special Needs** This course is an evaluative survey of theories and practices employed to facilitate career decision making for students with special needs.

**S-201002.29**

**New Course Approval — EDUC 796-3**

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course EDUC 796-3 Portfolio be approved as proposed.

Proposed Semester of First Offering: January 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**EDUC 796-3 Portfolio** The portfolio route requires the successful completion of a professional portfolio that demonstrates a candidate's knowledge of education research, theory, and practice in his/her field of study (Special Education). This course enhances and reinforces a student's knowledge of educational research, theory, and practice as well as their interrelationship as evidenced by selected artifacts and accompanying rationales.

An Executive Summary of the Proposed New Minor in Soils and the Environment was included for information.

**S-201002.30**

**New Course Approval — ENSC 635-3**

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course ENSC 635-3 Soil Biological Processes and the Environment be approved as proposed.

Proposed Semester of First Offering: January 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**ENSC 635-3 Soil Biological Processes and the Environment** Processes at the interface between the biosphere, atmosphere, hydrosphere and lithosphere are critical to the regulation of environmental quality on Earth. This course provides an overview of the soil habitat from a biological perspective and of how soil organisms and the processes they mediate play critical roles in a sustainable planet.

**Preclusions:** FSTY 455-3; NREM 655-3; ENSC 435-3

**S-201002.31**

**New Course Approval — ENSC 660-3**

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course ENSC 660-3 Soil Chemical Processes and the Environment be approved as proposed.

Proposed Semester of First Offering: January 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**ENSC 660-3 Soil Chemical Processes and the Environment** Reactions at the interface of the atmosphere, biosphere, hydrosphere and lithosphere play key roles in regulating environmental quality on Earth. This course focuses on the key chemical processes in soils, in the Earth's "Critical Zone." The fundamental concepts of chemistry and mineralogy are applied

to help students understand the soil system and its relevance to processes in natural ecosystems and environments impacted by human activity.

**Preclusions:** FSTY 455-3; NREM 655-3; ENSC 660-3

**S-201002.32**

**Course Deletion — NREM 655-3**

That, on the recommendation of the Senate Committee on Research and Graduate Studies, NREM 655-3 Biogeochemical Processes in Soil Systems be deleted as a course offering.

Effective date: January 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~**NREM 655 – Biogeochemical Processes in Soil Systems** Principles, components and measurement of physical, chemical and biological processes in soils. Biogeochemical processes will be related to forest fertility and environmental quality concerns such as pollution of soil and water.~~

**S-201002.33**

**New Course Approval — NREM 615-3**

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course NREM 615-3 Forest Soils be approved as proposed.

Proposed Semester of First Offering: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NREM 615-3 Forest Soils** This course examines the distinctive physical, chemical and biological properties of forest soils from an ecological perspective, emphasizing western Canadian examples. Major themes include the role of soils in forest site classifications, carbon and nutrient cycling in forests, soil determinants of forest productivity, and the responses of soils to forest management practices. Field trips and laboratory exercises provide experience in techniques used to assess forest soil properties and management impacts.

**Prerequisites:** none (FSTY 205-3 or equivalent is recommended)

**Preclusions:** FSTY 315-3 or FSTY 415-3

**Course Equivalencies:** FSTY 415-3 (proposed title and course number change for FSTY 315-3)

An Executive Summary of the proposed revisions to the School of Social Work curriculum was included for information.

**S-201002.34**

**Change to Program Requirements and Calendar Description — School of Social Work**

Adamick / Jeffery

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the UNBC Academic Calendar Description for Social Work be approved as proposed.

Effective date: September 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Social Work (MSW Program)

Dawn Hemingway, Associate Professor, and Chair  
Gerard Bellefeuille, Associate Professor  
Bruce Bidgood, Associate Professor  
Glen Schmidt, Associate Professor  
Si Transken, Associate Professor  
Heather Peters, Assistant Professor  
Joanna Pierce, Assistant Professor  
Michele A. Sam, Assistant Professor  
Dave Sangha, Assistant Professor  
Eleanor Wint, Assistant Professor, and MSW Coordinator  
Kwong Leung Tang, Adjunct Professor

Website: [www.unbc.ca/socialwork](http://www.unbc.ca/socialwork)

The Master of Social Work program is available on a full- or part-time basis, and can be completed through a thesis or practicum route. The MSW builds on the BSW by offering students an integrated research/policy/practice concentration in one of the key thematic areas: social work in northern and remote areas, First Nations, women and the human services, and community practice and research. The aim of the MSW is to provide students with advanced social work research, policy, and practice skills. It is designed to enable students to pursue independent studies that will help them undertake a variety of responsibilities in management, policy formulation, program consultation, planning, advanced social work, clinical practice, and research within the human services.

### Admission

Enrollment in the MSW is strictly limited.

In addition to the admission application requirements outlined in Section 1.0 of the Graduate Academic Calendar, applicants are required to undergo a criminal records search, and provide evidence of this prior to being considered for admission. Completion of the MSW Supplementary Application form is also required in order to be considered for admission. The MSW Supplementary Application form is included with the application material for this program. Two academic letters of reference and one professional letter of reference must be submitted.

Application deadlines are found in this calendar under “Semester Dates” or ~~online at:~~ online at [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under “Semester Dates.” The Social Work MSW Program accepts students for the September Semester.

For additional information about graduate admissions or to download application materials, go to the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

The MSW program at UNBC emphasizes a pro-active orientation that aims to provide informed theoretical, empirical, and substantive choices for improvements in human service programs, policies, education, and social work practice. This approach to social work and social policy is known as social administration.

The key elements in this social administration approach as they relate to the thematic areas of the MSW at UNBC consist of the following:

- the description and analysis of the operation of human services in northern and remote regions;
- the study of social policies and social work practices, and their individual and social consequences for the people and communities in the interior and northern British Columbia;
- the examination of global, historical, social, and economic changes, and the way these affect the living conditions and the people served by human service agencies and organizations in northern and remote areas; and
- the recognition of the values central to the responsibility of human service professionals to work with socially disadvantaged and powerless groups, and to expand the power and resources of these groups through social work practice.

Within this social administration approach courses are arranged so students develop skills that integrate the research/policy/practice domains of social work. A major emphasis of the MSW is to foster critical intervention skills that link the domains of social policy, social work research, and social work practice. For example, if one chooses to develop a speciality in community practice and research, or social policy, the program of studies will emphasize the linkages between these domains or dimensions of social work.

### Requirements

The MSW consists of a practicum or thesis option, and clusters of courses that provide for a research/policy/practice concentration in one of the key focus areas: social work in northern and remote areas, First Nations, women and the human services, and community practice and research.

Human service experience is required before candidates can be considered for the MSW program. Please see descriptions for Entry Routes 1 and 2 (below). To be admitted, a grade point average of at least 3.00 (“B”) in the work of the last 60 credit hours (approximately the last two years) leading to the Baccalaureate degree ~~a minimum academic standing of B- (70%) in the undergraduate degree is normally~~ required. Letters of reference, as well as a written statement of the candidate’s research and practice interests and reasons for pursuing a MSW, are also required. A personal interview may be requested. Applicants who do not meet the above requirements may still be admitted under the provisions of affirmative action.

### Taking a MSW at UNBC

There are two entry routes into the MSW.

**~~MSW:~~ Entry from a Bachelor of Social Work, and one year (12 months full-time equivalent) post-BSW human service experience.**

Entry at this level leads directly into the MSW Program.

For full-time students entering from a BSW, this MSW program will consist of 33 credit hours, including completion of a thesis or practicum report.

This program requires the successful completion of a minimum course work of 27 credit hours for practicum students, and 21 credit hours for thesis students. The program comprises an integrated core of five required courses, two elective courses, and a thesis, OR five required courses, four electives, and a practicum.

**~~MSW Foundation Year:~~ Entry with a Bachelor degree in a related field or discipline, and two years (24 months full-time equivalent) human service experience (66 credit hours).** Entry at this level begins with an MSW Foundation Year of studies.

For full-time students entering from a Bachelor degree in a related field, this MSW program will consist of a minimum two years (24 months) program of course and practica. A thesis or practicum report is required following completion of course work. An oral defense is required for the thesis. This route normally includes 66 credit hours, consisting of 33 credit hours in each of the two years.

## MSW

### Requirements

Thesis students must take the following required courses:

SOCW 609-3 Advanced Quantitative Research  
HHSC 703-3 Advanced Qualitative Research Approaches in Health and Human Sciences  
SOCW 704-3 MSW Integrative Seminar  
SOCW 700-12 MSW Thesis

Practicum students must take the following required courses:

SOCW 609-3 Advanced Quantitative Research  
HHSC 703-3 Advanced Qualitative Research Approaches in Health and Human Sciences  
SOCW 704-3 MSW Integrative Seminar  
SOCW 732-6 MSW Practicum II

All students are required to must take at least two of the following courses, and may take the other two courses as electives:

SOCW 601-3 Current Issues in Northern/Remote Social Work  
SOCW 602-3 First Nations: Advanced Social Work Practice  
SOCW 603-3 Women: Policy/Practice Issues  
SOCW 605-3 Community Work/Politics of Change

### Electives

SOCW 604-3\* Directed Readings/Electives  
SOCW 610-3 ~~Addictions and Mental Health~~ Wellness: Alternate Approaches

SOCW 613-3 Clinical Social Work Practice  
SOCW 615-3 Multi-Cultural Social Work Practice  
SOCW 620-3 Policy Making/Human Services  
SOCW 621-3 Comparative Welfare Analysis  
SOCW 651-3 Legal Issues for Women  
SOCW 698-3 Special Topics  
SOCW 701-3 ~~Thesis Practicum~~ Research Practicum

Thesis students are required to take a total of two electives. Those two electives may be taken from the two lists immediately above ~~above list~~, and/or from other UNBC graduate programs, and/or from other accredited Canadian universities via approved transfer agreements (e.g., the Western Deans' Agreement).

Practicum students are required to take a total of four electives, two of which must come from the two lists of courses immediately above ~~above list of courses~~. The two other electives ~~which do not~~ may come from the above lists and/or ~~may be~~ taken from other UNBC graduate programs and/or from other accredited Canadian universities via approved transfer agreements (e.g., the Western Deans' Agreement).

\* Students may only take SOCW 604-3 Directed Readings/Electives course once for 3 credits.

## MSW Foundation Year

For those with baccalaureate degrees in related areas and two years of full-time previous human service experience, the MSW will normally consist of 66 credit hours (two years) of study. The foundation year will consist of 600-level courses, six 600-level electives, plus a Practicum (SOCW 632-9).

The 600-level courses are:

SOCW 630-3 Communication Skills  
SOCW 631-3 Critical Social Work Practice  
SOCW 632-9 MSW Practicum I  
SOCW 633-3 Critical Social Policy  
SOCW 634-3 Social Work Research/Policy/Practice  
SOCW 635-3 Social Work Philosophy and Ethics  
SOCW 637-3 Advanced Practice

### **"For Information" Items:**

#### **SCRGS201001.11**

##### **Addition of Course Preclusion — HHSC 604-3**

That the addition of a preclusion (NURS 604-3) for HHSC 604-3 The Health of First Nations People be approved as proposed.

Effective date: Upon Senate approval  
CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

HHSC 604-3 The Health of First Nations People This course provides a detailed review of the health status and its determinants of the First Nations peoples. Emphasis ~~will be~~ is placed not only on biological determinants but also on those factors that are derived from the status of the First Nations in the larger population including evolving lifestyles, dominant government and social policies, and environmental influences.

### **Precluded: NURS 604-3**

#### **SCRGS201001.13**

##### **Course Title and Description Change — SOCW 610-3**

That the changes to the course title and course description for SOCW 610-3 Addictions and Mental Health, on page 128 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: September 2010  
CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Wellness: Alternate Approaches

~~Alternative Approaches in Social Work Practice: Addictions and Mental Health~~ This course will introduce and explore a variety of techniques in expressive arts, movement and process-oriented therapeutic approaches in working with individuals, couples, families and groups. Themes and exercises will focus on addictive behaviours, mental health and wellness. Exercises will be interwoven throughout the course. These will incorporate the materials taught and will provide students with the opportunity to practice the different techniques examined in this course.

**SCRGS201001.14**

**Course Title and Description Change — SOCW 701-3**

That the changes to the course title and course description for SOCW 701-3 Thesis Practicum on page 130 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

SOCW 701-3 Thesis Practicum Research Practicum

~~This field placement requires students to perform in a social work role or organizational setting two days per week through the September Semester. Field education will provide students with an opportunity to enhance and refine their social work skills and focus on an area of particular interest.~~

This course is a research-based practicum that provides students with the opportunity to enhance and refine their research skills. It normally takes place two days per week over one semester. This elective is available to both practicum and thesis route students.

**SCRGS201001.15**

**Calendar Course Description Change — SOCW 732-6**

That the change to the calendar course description for SOCW 732-6 MSW Practicum II, on page 130 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

SOCW 732-6 MSW Practicum II This field placement requires students to perform in a social work role or organizational setting ~~three days per week through the September and January Semesters.~~ Field education will provide students with an opportunity to enhance and refine their social work skills and focus on an area of particular interest. ~~Students should be~~ normally are placed in an agency or organizational setting that matches their specific learning needs.

*Prerequisites:* admission to the MSW program

**8.3 Senate Committee on Scholarships and Bursaries**

**Madak**

**“For Information” Items:**

**S-201002.35**

**Revisions to Entrance Awards Procedures**

Donker / Ellis

That the revisions to the Entrance Awards procedures be approved as presented.

Effective Date: 2010 – 2011 Academic Year

CARRIED.

**S-201002.36**

**Revisions to Maximum Ceilings for Graduate and PhD Awards**

Hartley / Beeler

That, on the recommendation of the Senate Committee on Scholarships and Bursaries, Graduate Award recipients may receive one or more UNBC financed awards as listed in the Graduate Academic Calendar to a maximum ceiling of \$15,000 in an academic year and PhD Award recipients may receive awards to a maximum ceiling of \$20,000 in an academic year. The following awards are not included in the awards ceiling: a) Teaching Assistantships, b) Research Assistantships and/or Faculty stipends, and c) Tuition Scholarships.

Effective Date: May 2010

CARRIED.

**SCSB20100120.03**

**New Terms and Conditions — Notary Foundation of BC Scholarship**

That the new Terms and Conditions for the Notary Foundation of BC Scholarship be approved.

Effective Date: 2010 – 2011 Academic Year

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Category:** Open

**Award Name:** Notary Foundation of BC Scholarship

**Calendar Description/Intent:**

**Donor:** Notary Foundation of BC

**Value:** \$1,750

**Number:** One

**Placement in which Calendar:** Undergraduate

**Award Type:** Scholarship

**Eligibility:** Available to a full time undergraduate student who is in his/her 3<sup>rd</sup> or 4<sup>th</sup> year of the History Program or the Political Science Program and who has completed two of the following courses: Introduction to Law in Canada (POLS 255); Philosophy of Science (POLS 205); Canadian Law & Aboriginal Peoples (POLS 220) or Law & Municipal Government (POLS 250). First preference to go to a student who has a strong interest in pursuing his/her studies in the field of law.

**Criteria:** Academic proficiency.

**Application Instructions:** Fill out all sections of the Awards Application form and attach a letter outlining your interest in legal studies.

**Effective Date:** Endowed 2009

**Recipient Selection:** Senate Committee on Scholarships and Bursaries on recommendation by the UNBC Awards Office.

**SCSB20100120.04**

**New Terms and Conditions — BCIC Young Innovator Matching Grant**

That the new Terms and Conditions for the BCIC Young Innovator Matching Grant be approved.

Effective Date: May 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Category:** Entrance

**Award Name:** BCIC Young Innovator Scholarship Matching Grant

**Value:** \$1,000, renewable for up to three additional consecutive years.

**Number:** Variable

**Eligibility:** Available to new students who have been selected to receive a BCIC Young Innovator Scholarship through the British Columbia Innovation Council. Students must meet UNBC admission requirements and enroll as full-time students at UNBC in the year immediately following the granting of the award.

**Criteria:** Satisfactory academic standing.

**Application Instructions:** Complete the undergraduate awards application form.

**Recipient Selection:** Senate Committee on Scholarships and Bursaries upon recommendation from the Awards and Financial Aid Office.

**SCSB20100120.05**

**Revised Terms and Conditions — Canadian Federation of University Women — Prince George — Beryl McMurray Award**

That the revised Terms and Conditions for the Canadian Federation of University Women — Prince George — Beryl McMurray Award be approved.

Effective Date: 2010 – 2011 Academic Year

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Value:** ~~\$1500~~ \$1000

**Note:** Should there be no qualified candidate enrolled in the Bachelor of Education programme who applies for the award, the award may be made to a student enrolled in the Bachelor of Social Work or Bachelor of Science in Nursing. ~~or Northern Medical Program.~~

**SCSB20100120.06**

**Revised Terms and Conditions — Canadian Federation of University Women — Prince George Scholarship**

That the revised Terms and Conditions for the Canadian Federation of University Women — Prince George Scholarship be approved.

Effective Date: 2010 – 2011 Academic Year

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Value:** ~~\$1500~~ \$1,000

**8.4 Senate Committee on Admissions and Degrees**

**Dickson**

**“For Approval” Items:**

**S-201002.37**

**Revisions to English Language Requirements**

Hutchings / Donker

That, on the recommendation of the Senate Committee on Admissions and Degrees, the change(s) to the Calendar Sections headed “English Language Requirements” on p. 34 of the 2009-2010 Undergraduate Calendar, and pp. 37-38 of the 2009-2010 Graduate Calendar, be approved as proposed.

Effective date: For admissions with first registration beginning with the September 2010 semester.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Undergraduate Calendar Text:**

[Closely similar changes are proposed for both the Undergraduate and the Graduate Calendars.]

### English Language Requirements

English is the primary language of instruction and communication at UNBC. Consequently, it is expected that an applicant ~~should~~ be able to demonstrate an acceptable level of proficiency in the use of English in order to receive and participate in classroom instruction and discussion as well as to complete written assignments.

Applicants whose first language is not English, regardless of citizenship or country of origin, must submit evidence of English language proficiency prior to admission. French-speaking Canadians and Canadian First Nations language speakers are exempted from this requirement. Students who completed five consecutive years of instruction and examination entirely in the English language immediately before admission are exempted from this requirement.

[French, along with English, is an official language of Canada, and traditionally Canadian Universities do not demand language proficiency between the two. Instead, Canadian students from the other official language are invited, and expected, to self-limit in respect of their course selection until they feel comfortable working in the language of instruction. The experience at UNBC and at other institutions has been that students who receive at least their secondary school education entirely in English do not have English language fluency problems at university.]

Acceptable evidence of English language proficiency may be any one of the following:

- TOEFL (Test of English as a Foreign Language) score ~~at least 570 in the paper-based test and at least 230 in the computer-based test. UNBC's institutional TOEFL code is 0320. Note: Applicants taking the new TOEFL exam (September 2005 and beyond) must score at least 88. of 88 or higher in the internet-based test, with not less than 20 in any of the Reading, Listening, Writing or Speaking components; or equivalent other TOEFL score.~~ UNBC's institutional TOEFL code is 0320.

[The change proposed will demand an acceptable level of proficiency in all four competency areas. Without the proposed change, applicants will continue to be able, for example, to begin studies at UNBC with acceptable English reading and writing skills, for example, but with serious deficiencies in understanding spoken English or in speaking the language clearly.]

- IELTS (International English Language Testing System) score of at least 6.5 overall, with not less than 6.0 in any of the four modules.
- LPI (Language Proficiency Index) score of at least 5.
- ~~CAEL (Canadian Academic English Language) Assessment score of at least 70.~~

• ~~University of Cambridge ESOL grade of B on the Certificate of Advanced English (CAE).~~

• Comparable results in any other internationally recognized English Language Assessment test considered as equivalent to TOEFL or IELTS.

[In addition to CAEL and CAE, possibilities include the Michigan Lab Test (MELab), CanTest, and Common European Framework (CEF); but UNBC almost never receives results from any of these.]

• A final grade of 2.00 (C) or better in the UNBC English Language Studies 50 Component 1 and 2.

[The UNBC experience has been that about 60 per cent of its ELS graduates go on to earn GPAs of 3.00 or higher. "ELS 50" recently was articulated by BCCAT at their most advanced level.

• A final grade of ~~75% (B)~~ 70% or better in English 12 from the British Columbia secondary system.

["B" is a grade range rather than a grade, and so is proposed to be dropped. 70% is proposed in order to bring UNBC into conformity Canadian institution practices generally.]

• A final grade of 75% (B) or better in a University Transferable English course.

In order to be considered valid, these scores must be sent directly from the testing agency/institution to the Office of the Registrar.

## **Graduate Calendar Text:**

### 1.1 English Language Requirements

English is the primary language of instruction and communication at UNBC. Consequently, it is expected that an applicant ~~should~~ be able to demonstrate an acceptable level of proficiency in the use of English in order to receive and participate in classroom instruction and discussion as well as to complete written assignments.

Applicants whose first language is not English, regardless of citizenship or country of origin, must submit evidence of English language proficiency prior to admission. French-speaking Canadians and Canadians First Nations language speakers are exempted from this requirement. Students who completed their undergraduate degree program entirely in the English language are exempted from this requirement.

[French, along with English, is an official language of Canada, and traditionally Canadian Universities do not demand language proficiency between the two. Instead, Canadian students from the other official language are invited, and expected, to self-limit in respect of their course selection until they feel comfortable working in the language of instruction. The exemption in respect of undergraduate education in the English Language parallels the Undergraduate regulation.]

Acceptable evidence of English language proficiency may be any one of the following:

- ~~TOEFL (Test of English as a Foreign Language) score at least 570 in the paper-based test and at least 230 in the computer-based test. UNBC's institutional TOEFL code is 0320. Note: Applicants taking the new TOEFL exam (September 2005 and beyond) must score at least 88. of 88 or higher in the internet-based test, with not less than 20 in any of the Reading, Listening, Writing or Speaking components; or equivalent other TOEFL score.~~ UNBC's institutional TOEFL code is 0320.

[The change proposed will demand an acceptable level of proficiency in all four competency areas. Without the proposed change, applicants will continue to be able, for example, to begin studies at UNBC with acceptable English reading and writing skills, for example, but with serious deficiencies in understanding spoken English or in speaking the language clearly.]

- IELTS (International English Language Testing System) score of at least 6.5 overall, with not less than 6.0 in any of the four modules.

- LPI (Language Proficiency Index) score of at least 5.

- ~~CAEL (Canadian Academic English Language) Assessment score of at least 70.~~

- ~~University of Cambridge ESOL grade of B on the Certificate of Advanced English (CAE).~~

- Comparable results in any other internationally recognized English Language Assessment test considered as equivalent to TOEFL or IELTS.

[In addition to CAEL and CAE, possibilities include the Michigan Lab Test (MELab), CanTest, and Common European Framework (CEF); but UNBC almost never receives results from any of these.]

~~1.2 A final grade of 75% (B) or better in English 12 from the British Columbia secondary system. In order to be considered valid, these scores must be sent directly from the testing agency/institution to the Office of the Registrar.~~

- A final grade of 2.00 (C) or better in the UNBC English Language Studies 50 Component 1 and 2, obtained prior to application for Graduate admission.

[Graduate Studies has no provision for ESL bridging programs.]

In order to be considered valid, these scores must be sent directly from the testing agency/institution to the Office of the Registrar.

### **S-201002.38**

#### **Calendar Description Change — Bachelor of Education (Program Preamble and Admission Requirements)**

That, on the recommendation of the Senate Committee on Admissions and Degrees, the changes to the program preamble and the admission requirements for the Bachelor of Education Program be approved as proposed.

Effective date: March 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

UNBC's Bachelor of Education degree (BEd) program and Bachelor of Education degree completion program are offered at the Prince George and Terrace campuses. At the Prince George campus, the BEd program offers both the Elementary

(Grades K-7) and Secondary (Grades 8-12) streams. At the Terrace campus, only the Elementary Stream is offered. The BEd degree is a two-year program that consists of 73 credit hours in Education course work, of which 20 credit hours is classroom experience. The BEd degree completion program is available only to applicants who have completed a UNBC Education Diploma in a First Nations Language and Culture and consists of an additional 53 credit hours of Education course work, of which 17 credit hours is classroom experience. All Education courses within the BEd degree program and the BEd degree completion program are required; there are no elective courses offered.

Subject to the admission requirements for Elementary (Grades K-7), students may apply to enter the BEd Elementary program with, as described in the Admission Requirements, one of the following: (a) an acceptable three- or four-year bachelor's degree or (b) a minimum 90 credit hours of undergraduate course work or (c) a UNBC Education Diploma in a First Nations Language and Culture (minimum 92 credit hours). Students applying for admission under item (c) will be admitted to the BEd Elementary degree completion program and must complete, prior to graduation, the required Education courses not taken as part of the Education Diploma program and sufficient additional credit hours in a teachable field to attain a minimum 150 credit hours of combined academic, Education Diploma and BEd course work. Upon completion of the two-year BEd program or the two-year BEd degree completion program, students graduate with a Bachelor of Education degree.

Subject to the admission requirements for Secondary (Grades 8-12), students may apply to enter the Secondary program after having completed a four-year Bachelor of Arts, Bachelor of Science, or Bachelor of Commerce degree (120 credit hours) or the equivalent as described in the Admission Requirements. Upon completion of the two-year BEd program, students will graduate with a BEd degree.

UNBC's BEd program provides students with the course work and classroom experience to prepare them to be qualified teachers. Upon successful completion of the program, graduates are recommended to the British Columbia College of Teachers (BCCT) for professional certification. Certification by the BCCT is required for employment in the British Columbia public school system.

The Elementary and Secondary programs in Prince George begin in September of each year. The Elementary program in Terrace begins in September of each odd-numbered year. The application deadline for all Education programs is **March 15** of the year in which students intend to begin their program. Students needing advice about the application process or about admission requirements are encouraged to contact either the Student Recruitment and Advising Centre or the School Experience Office in the School of Education. Students who are interested in applying to the BEd program at the Terrace campus may also contact the Northwest Regional campus for information.

## Elementary (Grades K-7)

The Elementary stream prepares teacher candidates to work with the unique learning needs of children who are beginning their school years. This model reflects current thinking about optimizing the match between educational theory and children's levels of cognitive and social development. The Elementary stream is designed to educate teachers to combine pedagogical excellence across disciplinary areas with a learner-centered approach to practice. Philosophically, the program is designed around constructivist principles, and it emphasizes approaches to practice such as inquiry-based learning, strategies for instruction, integration of language across the curriculum, inclusion of diverse learners and perspectives, the development of caring and respectful communities of learners, and reflective practice. Successful applicants to the Elementary stream are assigned to a cohort group of students and normally take their Education courses with that cohort group over the two years.

### Admission Requirements

Applicants to the BEd degree Elementary stream must have completed (with a minimum grade point average of C+ on the most recent 60 credit hours of university credit hours completed) one of the following:

- (a) an acceptable three- or four-year bachelor's degree of which 60 credit hours, including 30 senior level credit hours, must be in Arts, Science, or other teachable fields relevant to the BC School system or

- (b) a minimum of ninety (90) credit hours of undergraduate course work, of which sixty (60) credit hours, including 30 senior level credit hours, must be in Arts, Science, or other teachable fields relevant to the BC School system.

Applicants to the BEd degree completion program must have completed a UNBC Education Diploma in a First Nations Language and Culture (minimum 92 credit hours).

Transfer credit for course work relating to the ninety (90) credit hours that has been completed prior to UNBC registration shall not be subject to the ten-year provision in the university calendar regulation regarding *Time Limit for Transfer Credit* but shall be determined by the School of Education.

In addition to the admission requirements described above, the following requirements must be met (see note following):

1. Successful completion, with a C+ average, of six (6) credit hours of acceptable English literature and composition at any level (one of the following: (a) three (3) credit hours of English literature and three (3) credit hours of English composition or (b) six (6) credit hours of acceptable English literature). Courses in linguistics, language study, grammar, technical or business writing, communication, or English as a second language are not acceptable to meet the English requirement.
2. Three (3) credit hours in mathematics (not including Statistics).
3. Three (3) credit hours in a laboratory science. Laboratory science credit hours are normally selected from Biology, Chemistry, Physical Geography, or Physics.
4. Six (6) credit hours of approved Canadian Studies, at any level, applicable to teaching in the British Columbia school curriculum. Credit hours will normally be selected from Anthropology, First Nations Studies, Geography, History, Northern Studies, or Political Science courses that contain significant Canadian content (upon review, credit hours from other disciplines may be recognized as meeting the Canadian content requirement).
5. Submission of the completed application forms including the Experience with Children and Youth statement, three (3) Confidential Reference Forms, and the Personal Statement.

Note: Applicants who do not meet the requirements in items 1-4 above but who otherwise meet the admission requirements may be admitted provisionally to the BEd program with the approval of the Chair if they have completed a minimum of 12 credit hours of the required course work. Applicants admitted provisionally to the program under this section will not be recommended to the British Columbia College of Teachers for certification until they successfully complete the course work requirements.

## Program Requirements

Entry route, with 60 credit hours of acceptable undergraduate course work in a teachable field, via one of (a) an acceptable three- or four-year Bachelor's degree or (b) a minimum 90 credit hours of acceptable course work:

**[NOTE: The list of course requirements has been removed from the document]**

## Secondary (Grades 8-12)

The Secondary program is a two-year after-degree program that prepares individuals to teach in grades 8 through 12 in specialty areas. This model reflects current thinking about optimizing the match between educational theory and children's levels of cognitive and social development. The Secondary stream is designed to educate teachers to combine pedagogical excellence across disciplinary areas with a learner-centered approach to practice. Philosophically, the program is designed around constructivist principles, and it emphasizes approaches to practice such as inquiry-based learning, strategies for instruction, integration of language across the curriculum, inclusion of diverse learners and perspectives, the development of

caring and respectful communities of learners, and reflective practice. Successful applicants to the Secondary stream are assigned to a cohort group of approximately 35 students and normally take all of their courses with that cohort group.

## Admission Requirements

Applicants to the Secondary stream must have completed, with a minimum grade point average of C+ on the most recent 60 credit hours of university credit hours completed, a four-year Bachelor of Arts, Bachelor of Science, or Bachelor of Commerce degree (120 credit hours) or the equivalent (i.e., a three-year Bachelor's degree with a teachable major plus 30 additional university credits) with a minimum of ninety (90) credit hours in Arts, Science, or Business Administration or in other teachable fields relevant to teaching in the BC School system. The remaining credit hours may come from any discipline.

In addition to the entry requirements described above, the following requirements must be met (see note following):

1. Successful completion, with a C+ average, of six (6) credit hours of acceptable English literature and composition at any level (one of the following: (a) three (3) credit hours of English literature and three (3) credit hours of English composition or (b) six (6) credit hours of acceptable English literature). Courses in linguistics, language study, grammar, technical or business writing, communication, or English as a second language are not acceptable to meet the English requirement.
2. One of the following:
  1. One teachable major and one teachable minor, or
  2. Two (2) teachable minors, or
  3. One teachable major
3. Submission of the completed application forms that include the Experience with Children and Youth statement, three (3) Confidential Reference Forms, and the Personal Statement.

Note: Applicants who do not meet the English requirement in item 1 above but who otherwise meet the admission requirements may be admitted provisionally to the BEd program with the approval of the Chair. Applicants admitted provisionally to the program under this section will not be recommended to the British Columbia College of Teachers for certification until they successfully complete the English requirements.

### **S-201002.39**

#### **Calendar Change — Admission Requirements by Degree Groups: Approved Grade 12 Courses**

That, on the recommendation of the Senate Committee on Admissions and Degrees, the changes to the "Admission Requirements by Degree Groups: Approved Grade 12 Courses," on page 27 of the 2009-2010 undergraduate academic calendar, be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

- \* **Approved Grade 12 Courses:** Applications of Mathematics, BC First Nations Studies, Biology, Calculus, Chemistry, Comparative Civilizations, English Literature, French, German, Geography, Geology, History, Japanese, Latin, Law, Mandarin, Math Foundations, Physics, Pre-calculus, Principles of Mathematics, Punjabi, Spanish, Technical and Professional Communications, Writing. Approved Advanced Placement courses: AP History of Art; AP General Biology; AP Calculus AB or BC; AP Chemistry; AP Computer Science A or AB; AP Microeconomics/Macroeconomics; AP English; AP Environmental Science; AP French; AP German; AP United States History; AP European History; AP Human Geography; AP Latin; AP Music Theory; AP Physics B and/or Physics C; AP Psychology; AP Spanish Language; AP Spanish Literature; AP Statistics; AP US Government and Politics; AP World History. Approved International Baccalaureate Courses: IB Biology; IB Chemistry; IB Computer Science; IB Economics; IB English Language A; IB Environmental Systems; IB French Language A and/or French Language B; IB Geography; IB German; IB History; IB History-Asian; IB History-

**9.0 Other Business**

**9.1 Report of the Registrar**

**DeGrace**

The Registrar had nothing to report.

**10.0 Information**

**10.1 Budget Presentation**

**Bray**

Vice President Bray gave a presentation with regard to the UNBC budget (attached to these minutes as Appendix II). She noted specifically that the presentation did not focus on budget numbers but, rather, the budget planning process. Some of the highlights of the report were that there are no UNBC operating budget increases or decreases at this time, that the government will be reducing the University's annual capital allowance by approximately one third but providing a rebate for the HST, and that the carbon tax will cost the University approximately \$100,000. Ms. Bray added that the Strategic Investment Fund would continue to fund multi-year projects begun in previous years but that no new initiatives would be financed from this Fund. In addition, the capital equipment replacement (CER) fund of \$800,000 was inadequate, so funds were being used from reserves to subsidize the CER, which would be depleted if the CER was not increased in the near future. Finally, Vice President Bray presented a timeline of the budget approval process, noting that the process would culminate in a balanced budget being presented to Senate on March 24 and to the Board of Governors for approval on March 27.

Several questions were asked in response to the presentation, including whether there was any risk of the Province reducing UNBC's funding as a result of it not having met enrolment targets. Dr. Iwama replied that other universities are at 110-115% of funded seats, while UNBC is at 80%, but that he hoped the government would realize that any reduction would be a severe blow to UNBC's operations. He added that UNBC must attempt to be strategic in its recruitment efforts, and that this matter does trouble the Board of Governors.

A Senator noted that UNBC previously received Northern Allowance funding, which has since been terminated. He was of the opinion that UNBC had not pursued the discontinuation of this funding vigorously enough.

**11.0 S-201002.40**

**Adjournment**

Hartley / Hyndman

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 5:15 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

March 10, 2010  
3:30 – 5:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

E. Annis, G. Ashoughian, S. Beeler, T. Binnema, C. Bock, D. Casperson, C. Chasteauneuf, M. Dale (Vice Chair), A. Dayanandan, J. DeGrace (Secretary of Senate), S. Déry, H. Donker, R. Ellis, G. Fondahl, R. Hoffman, K. Hutchings, J. Hyndman, G. Iwama (Chair), R. Lazenby, D. Macknak, W. McGill, S. McKenzie, C. Myers (Recording), C. O'Callaghan, M. Reid, S. Rennebohm, R. Robinson, I. Uche-Ezeala, K. Vandersteen, S. Wagner, J. Young, S. Zahir

**Regrets:**

U. Eka, W. Haque, I. Hartley, E. Jensen, A. Jacob, J. Jeffery, D. Nyce, A. Yakemchuk

---

The meeting commenced at 3:30 p.m.

Dr. Iwama noted that Senator Hyndman had received the Canadian Mathematical Society's 2010 CMS Excellence in Teaching Award, and congratulated her on this prestigious award. Senators applauded.

Dr. Iwama also reminded Senators of the special Senate budget meeting to be held on March 24, 2010.

- 1.0**      **S-201003.01**  
**Approval of the Agenda** †  
Hutchings / Hyndman  
That the Agenda for the March 10, 2010 Public Session of Senate be approved as presented.  
CARRIED.
- 2.0**      **S-201003.02**  
**Approval of Senate Minutes**  
Casperson / Adamick  
That the Minutes of the February 10, 2010 Public Session of Senate be approved as presented.  
CARRIED.
- 3.0**      **Business Arising from Previous Minutes of Senate**
- 3.1**      **List of University Committees**
- Dr. Iwama thanked Tim Thomas for providing the list of University committees. It was noted that there are some omissions from the list, namely the University Promotion and Tenure Committee, the University Promotion and Tenure Appeals Committee, and the Convocation committee. The Research Advisory Committee and the Publication Grants Committee were also identified as being absent from
-

the list. Senators asked if the terms of reference and vacancies on these committees could be posted so people interested in serving on the committees would have this information available to them. Mr. Thomas responded that he planned to add this information to the UNBC website, but indicated that terms of reference were not available for all the committees.

(3:40 p.m.) The President was called away from the meeting on an urgent business call, so the Provost assumed the Chair. Dr. Dale asked that the President's report be postponed until the President returned to the meeting. The Provost thus gave his report while waiting for the President to return.

## 5.0 Report of the Provost

Dale

The Provost reported that the Wood Innovation and Design Centre had been mentioned in three throne speeches now, but that the University was currently attempting to determine the Province's expectations and the resources available in this regard. Dr. Dale added that he had been asked to give a presentation on a discussion topic, and that he looked forward to Senators' comments during this discussion.

## 6.0 Question Period

A Senator asked about the status of the breadth requirement. The Registrar reported that a motion had been drafted reflecting a report that was presented to the Senate Committee on Academic Policy and Planning, which was currently sitting with SCAPP as a result of lack of quorum at the last meeting of that committee. Another Senator asked when the course schedule would be posted, and the Registrar responded that it had been posted that morning

It was questioned whether the space allocation committee report was available yet, with regard to classroom space. Again, the Registrar responded, noting that summary information had been given to the committee but that he did not believe any action had yet been taken. A Senator asked what the rationale was for the new classroom change request form, suggesting that it now takes 3 days to complete a room change and by that time students are registering and the class cannot be moved. Mr. DeGrace responded that he did not have that information readily available, but that he would respond at the next Senate meeting, and to the Senator who raised the question as soon as possible.

<b>Action:</b> Mr. DeGrace to provide information about the classroom change request form at the next Senate meeting.
---

Finally, a Senator asked what role Senate would play in discussing and approving the University Plan and associated Action Plans. Dr. Dale suggested that the President be invited to respond to this question after he gave his report.

In the continuing absence of the President, Dr. Dale suggested that Senators proceed to deal with the agenda items following the President's Report.

## 7.0 S-201003.03 Approval of Motions on the Consent Agenda

Casperson / Hyndman

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

There were no requests to remove motions from the consent agenda and place them on the regular agenda.

CARRIED.

## 8.0 Committee Reports

### 8.1 Senate Committee on Academic Policy and Planning

Dale

#### "For Approval" Items:

##### **S-201003.04**

##### **Amendment of Memorandum of Understanding and Cooperation — Maple Leaf Education Systems and UNBC**

Zahir / Adamick

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the amended memorandum of understanding and cooperation between the Maple Leaf Education Systems and its Schools, China and the University of Northern British Columbia be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

##### **S-201003.05**

##### **Approval of Student Exchange Agreement Between Massey University, New Zealand, and the University of Northern British Columbia**

Adamick / Annis

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the student exchange agreement between Massey University, New Zealand and the University of Northern British Columbia be approved as proposed.

Effective date: May 2010

CARRIED.

##### **S-201003.06**

##### **Change to Academic Regulations 21 (Declaring a Major), 22 (Double Majors), and 23 (Minors)**

Hutchings / Annis

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to Academic Regulations 21 (Declaring a Major), 22 (Double Majors), and 23 (Minors) be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **21. Declaring a Major**

All undergraduate students other than students enrolled in ~~all undergraduate programs other than in professional programs~~ programs leading to the degrees of BASc, BEd, BFA, BSW or General/Integrated degrees, or the Bachelor of Fine Arts program (for ~~whom~~ which Majors do not apply), are required to declare a Major before the end of the semester in which they will complete 30 credit hours (See Academic Regulation 2). Majors do not apply in the degree of BScN. Students intending to pursue a General or Integrated degree program must declare this intent before the end of the semester in which they will complete 30 credit hours. A student who transfers into the University must declare a Major at the time of application unless the transfer is to any of the degree programs indicated above. Declaration forms are available from the ~~Office of the Registrar~~ Student Recruitment and Advising Centre.

Students must contact a Student Advisor in their area of study to declare or to change a Major.

#### **22. Double Majors**

~~Graduation with a Double Majors from either the College of Arts, Social and Health Sciences or~~

~~the College of Science and Management requires Double Majors are permitted in the BA, BComm, and BSc degree programs. Within the College of Science and Management, students pursuing the BPI degree are permitted to double major only within the degree program. Completion of the double major entails completion of the requirements for each Major. Any courses that are included in the requirements for both Majors may be counted for both. Note: If double majors fall between two degrees, students must select only one degree: or the other, i.e. BA or BSe BA, BComm or BSc. They do not qualify for ~~both~~ more than one.~~

### 23. Minors

Minors are permitted in all undergraduate programs other than in ~~professional programs programs leading to the degrees of BAsc, BEd, BFA, or BScN, or the Bachelor of Fine Arts program.~~ Minors are not required except in the Forest Ecology and Management major. Except as specified in Program regulations, a minor must be in a different discipline than that of the major. A minor requires a minimum of 18 credit hours, at least 12 of which must be upper division. In most cases, the upper limit requirement for a minor is 27 credit hours, at least 12 of which must be upper division. Normally, a maximum of two courses (six to eight credit hours) used to fulfill requirements for a major (or another minor) may also be used to fulfill requirements for a minor. In all minors in the College of Science and Management (See Academic Structure pages) that require a minimum of 24 credits, the 100-level credits used to fulfill requirements for a major (or another minor) may also be used to fulfill requirements for a minor, and in some such minors further credits used to fulfill requirements for a major (or another minor) may also be used to fulfill requirements for a minor. Please refer to the program pages for specific details. Students are not permitted to include more than two minors in the same degree program.

(3:50 p.m.) The President returned to the meeting room and reassumed the Chair. He then proceeded to give his report.

#### 4.0 President's Report

Iwama

Dr. Iwama congratulated the UNBC basketball teams on their excellent seasons.

He then spoke about the Wood Innovation and Design Centre (WIDC), noting that a telephone call in this regard was what had taken him away from the meeting. Dr. Iwama indicated that an Assistant Deputy Minister had been dedicated to the WIDC, and that she would be visiting UNBC next week.

The President noted that budget preparation was taking up a substantial amount of time at the moment, and that the budget would be presented to Senate and the Board on March 24 and 27 respectively.

With regard to the University Plan, Dr. Iwama reported that he would be dedicating time in the coming weeks to articulating the Plan, which would then come to Senate for consideration and approval. He also noted that a draft of the Plan would be posted, that input from stakeholders would be sought with regard to the draft, and that the Plan would be open to approval by Senate at the appropriate time. A Senator asked whether Senate would play a role in discussing the Plan. Dr. Iwama responded in the affirmative, as he viewed Senate's input as crucial. A Senator indicated that a faculty member had asked her when they would be able to provide input into what the Deans and VP's are contributing to the Plan. The President replied that he had asked the VP's to construct Action Plans in support of the University Plan, and that input would be solicited for those Plans, which would be debated and discussed. He told Senators to expect this to happen over the spring and summer months.

### **S-201003.07**

#### **Calendar Description Change — Continuing Studies for Credit**

Donker / Zahir

That, on the recommendation of the Senate Committee on Academic Policy and Planning, Senate approve the following:

1. That Senate approve directly all Continuing Studies courses offered for Academic Credit (CSAC); and
2. That all passing grades earned by CSAC be recorded on students' academic transcripts in the context of admission to the University; and
3. That, in cases in which there otherwise would be a substantial overlap between Academic Credits and CSAC credits, Continuing Studies offer the academic courses on an extension basis; and
4. That *ad hoc* requirements set by Continuing Studies in consultation with the relevant academic units determine admission to extension courses; and
5. That Senate endorse the administrative changes that will govern the delivery of academic credits through Continuing Education in future as set out under the "rationale" section of this Motion.

Effective date: All new Continuing Studies offerings effective upon approval by Senate.

Senators discussed the proposed motion. It was asked whether any procedures or forms were being put into place to ensure that library resources were adequate for the courses being mounted. Senator Macknak responded that a form was in place, and that cases in which the form was not used to obtain this information were oversights. A Senator expressed a lack of comfort with Pass/Fail grading. The Registrar and Senator Macknak responded that they were considering reviewing the courses already approved by Senate to look at the grade mode, and that some of these courses were no longer offered. It was asked whether it was not already the practice to remove from the books courses that had not been taught in five years. Mr. DeGrace replied that there was no such University policy, but that he had heard that it may be a policy of the College of Arts, Social and Health Sciences.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **Undergraduate Calendar**

Continuing Studies courses are ~~primarily short in duration and~~ designed to meet the needs of ~~both~~ professional development and/or personal interest. Certain Continuing Studies courses are clearly designated as potentially earning academic credit at UNBC. Credit earned in this manner is unspecified, and is treated as elective credit hours. University admission requirements do not apply to these courses, and students are advised that they will be registered for them on a credit basis unless they direct otherwise at the beginning of the course. Unless otherwise designated, credits earned in this manner are recorded on a Pass basis upon successful completion. Unsuccessful attempts are not recorded. Whether taken for-credit or not-for-credit, the content and requirements of these courses are the same. Continuing Studies also offers certain UNBC academic courses on an extension basis. Permission to attempt these courses is arranged directly with Continuing Studies and does not constitute general admission to University studies.

## Graduate Calendar

Continuing Studies courses are ~~primarily short in duration and~~ designed to meet the needs of ~~both~~ professional development and/or personal interest. Certain Continuing Studies courses are clearly designated as potentially earning academic credit at UNBC. Credit earned in this manner is unspecified, and is treated as elective credit hours. University admission requirements do not apply to these courses, and students are advised that they will be registered for them on a credit basis unless they direct otherwise at the beginning of the course. Unless otherwise designated, credits earned in this manner are recorded on a Pass basis upon successful completion. Unsuccessful attempts are not recorded. Whether taken for-credit or not-for-credit, the content and requirements of these courses are the same. Continuing Studies also offers certain UNBC academic courses on an extension basis. Permission to attempt these courses is arranged directly with Continuing Studies and does not constitute general admission to University studies.

Graduate students are reminded that, as with all other academic credits, credits earned in this manner may not be applied to their degree programs without the express permission of their Supervisory Committee and approval by the Dean of Graduate Studies. Graduate Students are further reminded that fees for Continuing Studies Courses, whether approved for their academic program of study or not, are additional to the tuition fee units for their academic programs.

### **S-201003.08**

#### **Change to Program Requirements — Mathematics Program**

McGill / Casperson

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to Mathematics Program Requirements, on pages 145-146, and Preamble to Course Description for Mathematics, on page 235 in the print calendar of 2009/2010, be approved as proposed.

Effective date: September 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Program Requirements [page 145]

**Note:** Unless otherwise stated, students enrolling in any Mathematics courses with prerequisites are required to have completed all prerequisite courses for that course with a "C- or better, or have permission to enrol from the Program Chair.

Literacy Requirement

One of:

ENGL 170-3 Writing and Communication Skills

ENGL 270-3 Expository Writing

Lower-Division Requirement

100 Level

CPSC 100-4	Computer Programming I
CPSC 141-3	Discrete Computational Mathematics
MATH 100-3	Calculus I
or MATH	Enriched Calculus
105-3	
MATH 101-3	Calculus II

200 Level

MATH 200-3	Calculus III
MATH 201-3	Introduction to Complex Analysis
MATH 220-3	Linear Algebra
MATH 224-3	Foundations of Modern Mathematics
MATH 226-3	Advanced Linear Algebra
MATH 230-3	Linear Differential Equations and Boundary Value Problems

Recommended [page 146]

CPSC 101-4	Computer Programming II
<del>CPSC 142-3</del>	<del>Discrete Computational Mathematics II</del>
<u>CPSC 242-3</u>	<u>Mathematical Topics for Computer Science</u>

General Science Requirement

Two of:

BIOL 101-4	Introductory Biology I
BIOL 102-4	Introductory Biology II
CHEM 100-3	General Chemistry I
and CHEM 120-1	General Chemistry Lab I
CHEM 101-3	General Chemistry II
and CHEM 121-1	General Chemistry Lab II
PHYS 100-4	Introduction to Physics I
or PHYS 110-4*	Introductory Physics I:
PHYS 111-4*	Introductory Physics II: Waves and Electricity

**\*Note:** PHYS 110-4 (Introductory Physics I: Mechanics) and PHYS 111-4 (Introductory Physics II: Waves and Electricity) are strongly recommended for all majors.

## Upper\_Division Requirement

### 300 Level

MATH 302-3	Theory of Metric Spaces
MATH 320-3	Survey of Algebra
MATH 321-3	Topology
MATH 336-3	Intermediate Differential Equations
or MATH 335-3	Numerical Analysis I
MATH 371-3	Probability and Statistics for Scientists and Engineers
MATH 372-3	Mathematical Statistics

### 400 Level

Twelve credit hours of 400-level Mathematics courses.

### Elective Requirement

Elective credit hours as necessary to ensure completion of a minimum of 120 credit hours.

*Mathematics [page 235]*

~~Unless otherwise stated, a student may enroll in any Mathematics course with permission of the Program Chair.~~

*Note that BC Introductory Mathematics 11, Applications of Mathematics 11, Essentials of Mathematics 11, Applications of Mathematics 12, and Essentials of Mathematics 12 are not considered prerequisites for any Mathematics courses as currently taught.*

~~A student may enroll in any Mathematics course with permission of the Program Chair. Unless otherwise stated, students enrolling in any Mathematics courses with prerequisites are required to have completed all prerequisite courses for that course with a C- or better, or have permission to enroll from the Program Chair.~~

#### **S-201003.09**

#### **Change to Program Requirements — Major in Mathematics (BSc Program)**

Casperson / Hutchings

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the Major in Mathematics (BSc Program) be revised and approved as proposed.

Effective date: May 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Major in Mathematics

A major in Mathematics requires ~~48~~ 17 mathematics courses (~~54~~ 51 credit hours), at least 30 credit hours of which must be upper-division courses and of those upper-division credits, at least 12 must be taken at the 400 level.

MATH 342-3 (Biostatistics) may not be used for credit towards any Mathematics major, minor, or joint major.

MATH 150-3 (Finite Mathematics for Business and Economics) may not be used for credit towards any Mathematics major or joint major. The minimum requirement for completion of a Bachelor of Science with a major in Mathematics is 120 credit hours.

## Program Requirements

Note: Students enrolling in any Mathematics courses with prerequisites are required to have completed all prerequisite courses for that course with a “C-“ C- or better, or have permission to enroll from the Program Chair.

## Literacy Requirement

One of:

ENGL 170-3 Writing and Communication Skills

ENGL 270-3 Expository Writing

## Lower-Division Requirement

### 100 Level

CPSC 100-4 Computer Programming I

CPSC 141-3 Discrete Computational Mathematics

MATH 100-3 Calculus I

or MATH 105-3 Enriched Calculus

MATH 101-3 Calculus II

### 200 Level

## “For Information” Items:

### SCAPP201002.06

#### **Course Preclusion Change — ENPL 208-3**

That the change to the course preclusions for ENPL 208-3 First Nations Community and Environmental Planning, on page 210 of the 2009/2010 undergraduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### ENPL 208 - First Nations Community and Environmental Planning

First Nations are involved in a broad array of environmental and community planning processes. Some of these processes originate in First Nations communities. Others are established as federal and provincial government or business initiatives. This course lays a foundation ~~of~~ for student understanding of these planning processes and their future development.

Prerequisites: none

Preclusions: FNST 249 Aboriginal Resource Planning

**SCAPP201002.08**

**Course Number Change — MATH 226-3**

That the course number of MATH 226-3 Advanced Linear Algebra be changed to MATH 326-3.  
Effective date: May 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**~~MATH 226-3~~ 326-3 **Advanced Linear Algebra**** This is a second course in linear algebra. Topics include vector spaces, eigenvalues and diagonalization, linear transformations, and inner product spaces.

**SCAPP201002.10**

**Course Preclusion Change — MATH 371-3**

That the change(s) to the course preclusions for MATH 371-3 Probability and Statistics for Scientists and Engineers, on page 238 in the print calendar of 2009/2010, be approved as proposed.  
Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Preclusions: MATH 340-3, and MATH 341-3 if both taken

**SCAPP201002.11**

**Course Preclusion Change — MATH 372-3**

That the change(s) to the course preclusions for MATH 372-3 Mathematical Statistics, on page 238 in the print calendar of 2009/2010, be approved as proposed.  
Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Preclusions: MATH 340-3, and MATH 341-3 if both taken

**8.2 Senate Committee on Research and Graduate Studies**

**Fondahl / Hartley**

**“For Approval” Items:**

**S-201003.10**

**Changes to Calendar Description — Psychology Master’s Degree**

Adamick / Casperson

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the calendar description for the Master’s psychology degree, on page 91 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Admission

**Applicants must have an Honours degree in Psychology or an undergraduate degree in Psychology (or a related field) with research experience.**

Students interested in applying for the MSc in Psychology are responsible for ensuring that all application materials are received at UNBC by the application deadline:

- a completed application form,
- a letter of interest,
- official transcripts from all post-secondary institutions,
- scores on the Graduate Record Examination General and Advanced Psychology tests,
- three letters of reference from academic referees, and
- a copy of a thesis or paper submitted for course work.

Application deadlines are found in this calendar under "Semester Dates" or online at: [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under "Semester Dates." The Psychology MSc Program accepts students for the September Semester.

For additional information about graduate admissions or to download application materials, go to the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

## Requirements

Students in the MSc Program are required to complete a minimum of 23 credit hours of course work consisting of two quantitative methods courses:

PSYC 600-4 Quantitative Methods I

PSYC 605-4 Quantitative Methods II

an ethics course:

PSYC 740-3 Ethical and Legal Issues in Psychology

and four courses, two of which must be from among the following:

PSYC 610-3 Cognitive Neuroscience

PSYC 615-3 Social Psychology

PSYC 620-3 Health Psychology

PSYC 631-3 Psychopathology

PSYC 635-3 Cognition and Learning

PSYC 645-3 Developmental Psychology

### **Required graduate courses in Psychology are offered on a two-year schedule.**

These courses will provide students with the basic foundations upon which to build their MSc research. In addition, all MSc students are required to successfully complete an MSc thesis (PSYC 690-12). Students must have a cumulative GPA of B+ or greater by the end of their second semester of registration, and maintain it at B+ or ~~greater~~ better thereafter.

Students may be required to address deficiencies within their background preparation in Psychology or in their area of concentration that are identified by the Psychology Graduate Committee. Additional courses may be required.

Normally, a student will present an acceptable thesis proposal to their supervisory committee by the end of their first year in the program. It is expected that defence of the Master's thesis will take place within two years of acceptance into the program.

### **S-201003.11**

#### **Changes to Calendar Description — Psychology PhD Degree**

Adamick / Déry

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the calendar description for the PhD psychology degree, on page 92 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Admission

**Applicants must have both a Bachelor's and Master's degree, at least one of which must be in Psychology with a research-based thesis.**

Students interested in applying for the PhD in Psychology are responsible for ensuring that all application materials are received at UNBC by the application deadline:

- a letter of interest,
- official transcripts from all post-secondary institutions,
- three letters of reference from academic referees, and
- a copy of a thesis or paper submitted for course work.

In addition to the above, applicants who do not have ~~at least one prior~~ **a Master's** degree in Psychology must submit scores on the Graduate Record Examination Advanced Psychology test by the application deadline. Application deadlines are found in this calendar under "Semester Dates" or online at: [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under "Semester Dates." The Psychology PhD Program accepts students for ~~the~~ September ~~S~~semester admission.

For additional information about graduate admissions or to download application materials, go to the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

## Requirements

Students in the PhD program are required to complete a minimum of 16 credit hours of course work consisting of two graduate seminars:

PSYC 800-2 Graduate Seminar I

PSYC 801-2 Graduate Seminar II

6 credits of research practica:

PSYC 860-(3-6) Research Practicum

and two courses from:

PSYC 610-3 Cognitive Neuroscience

PSYC 615-3 Social Psychology

PSYC 620-3 Health Psychology

PSYC 631-3 Psychopathology

PSYC 635-3 Cognition and Learning

PSYC 645-3 Developmental Psychology

PSYC 720-3 Cross-Cultural Communication in Health Care

Settings

PSYC 725-3 Cognitive Neuropsychological Assessment

PSYC 726-3 Personality Assessment

PSYC 730-3 Psychological Interventions

PSYC 805-3 Advanced Topics in Quantitative Psychology

### **Required courses in Psychology are offered on a two-year schedule.**

These courses provide students with the basic foundations upon which to build their PhD research. In addition, all students are required to ~~successfully complete~~ complete successfully a comprehensive examination and a PhD dissertation (PSYC 890-12). The comprehensive examination is tailored to ensure ~~the~~ each student is adequately prepared to begin work on the PhD dissertation.

Students must have a cumulative GPA of 'B+' B+ or ~~greater~~ better by the end of their second semester of registration, and maintain it at 'B+' B+ or ~~greater~~ better thereafter.

Students may be required to address deficiencies within their background preparation in Psychology or in their area of concentration that are identified by the Psychology Graduate Committee. Additional courses may be required.

Normally, students take a comprehensive examination by the end of the first year in the program (or 12 credit hours for part-time students).

Upon successfully completing the comprehensive examination, and presenting an acceptable dissertation proposal to their supervisory committee, a student is granted PhD Candidate status, and embarks upon completion of the dissertation under the supervision of a Faculty Academic Supervisor. Normally, it is expected that the defence of the dissertation by full-time PhD Candidates will take place within three

years of acceptance into the program.

**“For Information” Items:**

**SCRGS201002.05**

**Course Prerequisite Change — SOCW 630-3**

That the change to the course prerequisite for SOCW 630-3 Communication Skills, on page 129 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

SOCW 630-3 Communication Skills This ~~course is an~~ introductory course that aims to increase skills and analysis in the diverse cultural settings that are appropriate to social work among First Nations and remote, northern and rural communities. Learning to recognize the contradictions in people's experiences and to maximize the possibilities, resources and strengths in their lives are critical aspects of a social worker's practice. Emphasis is placed on integration of interpersonal and analytic skills in learning effective helping strategies within a structural framework that acknowledges the influence of class, race and gender in shaping personal and social well-being. This course includes a Skills Laboratory.

Prerequisites: admission to the ~~Two-Year MSW program~~ MSW Program Foundation Year

**SCRGS201002.06**

**Course Prerequisite Change — SOCW 631-3**

That the change to the course prerequisite for SOCW 631-3 Critical Social Work Practice, on page 129 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

SOCW 631-3 Critical Social Work Practice This course critically examines the historical origins, values, methods and applications of various social work practice approaches. With an emphasis on structural, feminist, and First Nations social work strategies, the focus includes the application of these approaches to women, minority groups, First Nations, and residents of northern and remote communities. These ~~will be~~ are contrasted with other models of social work practice including general systems theory, ecological theory, and case management.

Prerequisites: admission to the ~~Two-Year MSW program~~ MSW Program Foundation Year

**SCRGS201002.07**

**Course Prerequisite Change — SOCW 632-9**

That the change to the course prerequisite for SOCW 632-9 MSW Practicum I, on page 129 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

SOCW 632-9 MSW Practicum I This field placement requires students to perform in a social work role or organizational setting three days per week through the September and January terms. Field education ~~will provides~~ students with an opportunity to enhance and refine their social work skills. As much as possible, the assigned field education setting will broadly match the particular type of social work experience that the student wishes to pursue.

Prerequisites: admission to the ~~Two-Year MSW program~~ MSW Program Foundation Year

Co-requisites: SOCW 637-3

**SCRGS201002.08**

**Course Prerequisite Change — SOCW 633-3**

That the change to the course prerequisite for SOCW 633-3 Critical Social Policy, on page 129 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

SOCW 633-3 Critical Social Policy This course examines the development of social policy in Canada, including current debates from conventional and critical perspectives, and invites ~~inviting~~ students to consider the relationship between research, policy and social work practice. The course ~~will reviews~~ ideologies of social welfare policy, its formulation and implementation and consequences for people in need. Policy formulation ~~will be~~ is analyzed from a critical perspective that examines the role of power and privilege in the construction of social policy. Alternative social arrangements and models of policy and practice ~~will be~~ are explored.

Prerequisites: admission to the ~~Two-Year MSW program~~ MSW Program Foundation Year

**SCRGS201002.09**

**Course Prerequisite Change — SOCW 634-3**

That the change to the course prerequisite for SOCW 634-3 Social Work Research/Policy/Practice, on page 129 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

SOCW 634-3 Social Work Research/Policy/Practice This course introduces research methods and analysis techniques that are used to examine issues in the policy and practice of social work and social welfare. It reviews qualitative and quantitative approaches with an emphasis on community needs research, participatory research

and the development of interview schedules and questionnaires. The methods examined in this course ~~will be~~ are linked to substantive policy and practice issues that reflect the economic, social and personal circumstances of people and communities in northern, remote and First Nation communities.

Prerequisites: admission to the ~~Two Year MSW program~~ MSW Program Foundation Year

**SCRGS201002.10**

**Course Prerequisite Change — SOCW 635-3**

That the change to the course prerequisite for SOCW 635-3 Social Work Philosophy and Ethics, on page 129 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Prerequisites: admission to the ~~Two Year MSW program~~ MSW Program Foundation Year

**SCRGS201002.11**

**Course Prerequisite Change — SOCW 637-3**

That the change to the course prerequisite for SOCW 637-3 Advanced Practice, on page 129 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

SOCW 637-3 Advanced Practice This course is designed for graduate students who have worked in social work practice settings but who do not have formal social work training. ~~This~~ The historical and cultural development of social work practice models is surveyed with emphasis on contemporary models of practice such as anti-oppressive practice, constructivism, feminist practice, First Nations practice approaches and structural practice. Key components of practice such as assessment, intervention planning, advocacy, organizing, recording, confidentiality, evaluation, case management, interdisciplinary and termination are studied.

Prerequisites: admission to the ~~Two Year MSW program~~ MSW Program Foundation Year

Co-requisites: SOCW 632-9

Dr. Iwama thanked Senators whose terms of office were ending for their contributions and commitment to serving the UNBC Senate.

**9.0 Other Business**

**9.1 Report of the Registrar**

**DeGrace**

The Registrar had nothing to report.

**10.0 Information**

**10.1 Recruitment, Retention, and Student Success (*presentation*)**

**Dale**

Dr. Dale prefaced his presentation (attached to these minutes as Appendix I) with the comment that he would be speaking about recruitment, retention and student success in the context of how they are affected by academic practice. He added that recruitment, retention and student success are “everybody’s business.” Dr. Dale thus asked what Senators can do to contribute to recruitment and retention. With regard to recruitment, the Provost suggested that we needed to determine how we distinguish ourselves from our competitors and how we can enhance that distinction. He also was of the opinion that the process for incoming students needed to be eased, that the academic calendar was difficult for students to understand based on UNBC’s current Program structure, that ease of comparison and transfer should be examined and that our use of the word “Program” was confusing.

Regarding retention, Dr. Dale focused on the quality of the first-year experience, the quality of experience in upper years (including whether courses were available, the schedule was predictable, and enrichment opportunities were provided), whether a foundation year would be useful, the potential for using block teaching structures (which would allow different modes of teaching and research time blocks), and enrichment and engagement.

In relation to academic practice, Dr. Dale suggested that course offerings need to be simple and consistent, that UNBC should adopt criteria and a mechanism for letting go of offerings, and that new approaches should be considered. At the conclusion of his presentation, Dr. Dale invited comment and discussion.

In his presentation, Dr. Dale had recommended the incorporation of an integrative approach, and a Senator asked about this approach. Dr. Dale responded that UNBC was founded on the concept of interdisciplinarity. The intent, which had been lost, was complementarity between two or more disciplines. Dr. Iwama added that students need to have a grasp of specific disciplines and learning outcomes need to be paramount, but that integrative learning comes in the form of such things as the linking of traditional knowledge with Western knowledge.

It was suggested that UNBC needs to start with retention of first-year students, and that a process of early monitoring and detection of students with problems would be useful. Dr. Iwama agreed that this approach can be very helpful and provided some suggestions as to how these students could be offered assistance.

A Senator was of the opinion that the academic calendar is an important marketing and recruitment tool, and that the course descriptions contained in the calendar are too short to be of good use and may be out of date. He added that, in order to change the calendar course descriptions, changes needed to be submitted through seven committees, and that more flexibility in this regard was needed.

Another Senator suggested that student orientation could be undertaken in initial classes, when students were often let out of class early. For instance, information about the library and other student services could be provided. She added that, as a student, it would be beneficial for her to see in the calendar course descriptions some mention of how the course could help her in the “real world,” beyond simply the course content.

Dr. Iwama advised Senators that he would be giving a presentation on the block teaching format and added that it behooves UNBC to advertise the session so that input can be solicited.

The Librarian recommended that an integrative approach also be taken toward academic support services, as the ability to properly study and undertake research affects a student’s writing and final product.

The Registrar responded to a previous comment, noting that academic calendars are legal documents and are not intended to be recruitment tools, and that UNBC will be moving away from a print calendar. He added that the SCAPP and SCRGs Subcommittee on Curriculum and Calendar edits calendar course descriptions whenever they come forward, and that he would like to see the creation of a position for a full-time calendar editor who works under the direction of Senate in order to provide the best possible document.

Dr. Iwama was asked several questions regarding the block teaching format, to which he responded. He noted that a project of this nature needs to be undertaken apart from the current teaching and learning structure.

A Senator reminded Senators that retention problems are found not only with poor students but with students in the B-grade level, and that we need to understand that. He added that he would like to see the implementation of a planned replacement process for instructors, and that the Advisors, since they had been moved away from the Programs, needed to be better integrated with the Programs.

Another Senator suggested that first-year students be utilized as mentors for grade 12 students. It was also suggested that online or distance learning be expanded so that students can complete their degrees at satellite campuses, and that more Programs offer Honours degrees.

A Senator was of the opinion that the current incentive structure for faculty members does not support the utilization of a block teaching structure, as they have a vested interest in maintaining the status quo. He added that UNBC would need to lean on seasoned faculty members to make such a structure work, and that as a result of UNBC’s size, we may need to go “all in” in order to use a block teaching format. The President responded that in his experience, many faculty members are passionate and like to try something new, and that one of the block teaching pilot programs he was involved with was run at Acadia University which had approximately 2900 students at the time.

A Senator indicated that she appreciated that it was being recommended that the “best” teachers would be used in first-year courses, as tenured faculty members are not necessarily the best teachers for first-year students. She added that it is important to also encourage good students, and that her Program sends out letters of congratulations to students who receive a grade of A+. On the flip side, she noted that she had wanted to contact students in her Program who received F grades, but that she was unable to get a list containing this information.

A Senator indicated that she had difficulty finding information in the online calendar, and she liked the idea of having a PDF version of the calendar section for her Program. She added that, although the calendar only permits course descriptions of seven lines of text, Programs could put expanded course descriptions on their web pages.

A member of the gallery requested permission to speak, and once granted, she reported that she was attempting to identify and assist students in trouble. As the chair of a curriculum committee, she had been asked to call such students in and ask them if they were having problems, and she could then connect them with student services. She suggested that the Centre for Teaching, Learning and Technology offer a workshop on how to assist students who are experiencing academic difficulty. Another Senator recommended that the Academic Advisors watch for these students.

At the conclusion of the discussion, Dr. Dale asked Senators to think about what UNBC’s top priority should be in terms of improving recruitment, retention and student success. He added that he knew

there were still many good ideas that have yet to be pursued, and that he would like to have these ideas identified and prioritized.

**11.0**

**S-201003.14**

**Adjournment**

Déry / Ashoughian

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 5:25 p.m.

**SPECIAL SENATE BUDGET MEETING  
PUBLIC SESSION  
MINUTES**

March 24, 2010

3:30 – 5:30 PM

Room 7-172 Bentley Centre - Prince George Campus

---

**Present:**

E. Annis, G. Ashoughian, S. Beeler, T. Binnema, D. Casperson, C. Chasteauneuf, S. Déry, H. Donker, G. Fondahl, M. Green, W. Haque, I. Hartley, R. Hoffman, K. Hutchings, J. Hyndman, G. Iwama (Chair), J. Jeffery, E. Jensen, D. Leighton-Stephens, R. Lazenby, D. Macknak, S. McKenzie, C. Myers (Recording and Acting Secretary of Senate), D. Nyce, C. O'Callaghan, M. Reid, S. Rennebohm, R. Robinson, I. Uche-Ezeala, S. Wagner, A. Yakemchuk, S. Zahir

**Regrets:**

**Absent:**

C. Bock, A. Dayanandan, A. Jacob, K. Vandersteen

---

The meeting commenced at 3:30 p.m.

**1.0 S-20100324.01**

**Approval of the Agenda**

Annis / Déry

That the Agenda for the March 24, 2010 Public Session of Senate be approved as presented.

CARRIED.

**2.0 2010 / 2011 Budget Review and Discussion**

**2.1 Presentation of Preliminary 2010 / 2011 Budget Information**

**Iwama**

Dr. Iwama gave a presentation regarding the budget (attached to the minutes as Appendix I). Prior to making his presentation, he noted that the research-intensive universities in British Columbia expressed thanks to the provincial government for maintaining the universities' operating budgets during a challenging fiscal situation. The budget was maintained in its entirety other than funding for the annual capital allowance. He also acknowledged that good fiscal practice at UNBC is what allows the university to maintain current resourcing levels and not make cuts in this situation. Finally, Dr. Iwama indicated that this is the proposed budget, and that a Town Hall meeting would be held next week after the budget had been approved by the Board of Governors.

Major points in Dr. Iwama's presentation were that the budget would focus on maintaining stability and balancing needs, the provincial operating grant had increased by 2.2% since the 2009/10 budget year, federal funding for indirect costs of research had increased by 1.5%, tuition fees would increase by 2%, and zero growth in FTEs had been assumed for the upcoming year. Identified areas of risk were the provincial operating grant (as the amount allocated was relative to FTE targets), salary and benefit increases (because benefit costs may be higher than estimated), and inflation and foreign exchange (which might be higher than the budgeted amount). Dr. Iwama pointed out that maintaining stability would actually result in increased costs with regard to library acquisitions, the capital equipment replacement reserve, greenhouse gas emissions charges, and contractual obligations and other required expenses. He added that there would be one-time allocations in the amount of approximately \$500,000 for several projects, as well as for a few new administrative positions and commitments from the Strategic Investment Fund. Dr. Iwama concluded his presentation by noting that the budget was balanced at approximately \$66.33 million.

Rather than take questions at this point in the meeting, Dr. Iwama requested that Senators hold their questions until after the report from the Senate Committee on the University Budget was delivered.

## **2.2 S-20100324.02**

**Donker**

### **2010 Report from the Senate Committee on the University Budget (SCUB)**

That the 2010 Annual Report from the Senate Committee on the University Budget be received.

Senator Donker, Chair of the Senate Committee on the University Budget (SCUB), presented the report from the committee. He expressed his appreciation for the risk-identification approach to the budget. He noted some of the recommendations that the committee had made in their report, namely that the budget should support the strategic goals of the University and guide the setting of departmental budgets, that communication between budget holders would be useful to ensure there is no overlap of requests, that an entrepreneurial approach be taken to the budget (such as providing undergraduate students with the option of an annualized tuition fee), and that adjunct professors be sought from the community to offset funding requirements for faculty positions. With regard to internal University operations, Senator Donker suggested that turn-around times for applications and other internal mechanisms for increasing student numbers should be improved if possible, particularly since the University appears to be in a negative FTE growth period.

Dr. Iwama thanked Senator Donker for his presentation. He acknowledged the committee's comments and expressed a commitment to working with SCUB, Senate, and the University community with regard to SCUB's recommendations. He also thanked SCUB members for their work.

Once the presentations were complete, Dr. Iwama opened the floor for discussion. A Senator asked how priorities were addressed, as the Program in which she worked was growing rapidly but they were unable to secure funding for an additional faculty member. The President responded that, although he was certainly sensitive to this request, the only additional faculty positions that could be funded in this budget were those that resulted from past contractual obligations. He added that priorities were presented by each unit to the Deans and Vice Presidents, who then ranked the priorities and presented them to President's Executive Council for consideration. The Senator thanked Dr. Iwama for providing clarification.

The President was asked if funding would be available to support the Canadian Interuniversity Sport (CIS) designation should UNBC be granted member status. Dr. Iwama responded that the University should receive word by approximately May 5 about their application status. He indicated that the costs associated with becoming a member of CIS would be about \$400,000 for increased travel and promotion, but that this would not take effect until the following year, during which time the University would need to begin working with the community to raise the funds. Dr. Iwama added that the Wolf Club (Timberwolves Athletic Association) had committed to working on raising the required funds.

A Senator asked about the SCUB recommendation that faculty members be obtained for little or no cost by hiring adjunct faculty members, wanting to know how this worked. Senator Donker responded that, in

the university for which he worked previously, partners in accounting and legal firms taught as adjunct professors. Dr. Iwama commented that there were many examples of this model in the United States, and that many business schools have people who are owners and champions of industry teaching for them. Another Senator asked how she would go about securing this type of arrangement. Dr. Iwama suggested the Office of External Relations could provide assistance in this regard and that he would discuss it with the Senator.

A Senator requested that, in future years, more details be provided in the budget with regard to transfers between funds. He added that he had also made this request in previous years but had not yet seen this detail presented in the budget. Dr. Iwama responded that he could bring this information to the Town Hall meeting this year and to Senate next year.

Dr. Iwama was asked whether the University had any plans in the future of becoming a net producer of electricity. He responded that this was a possibility, and since the University was currently involved with talks to have a presence in downtown Prince George, this was a timely matter to bring up in planning for the future.

It was noted that the figure on page 12 of the budget documents was missing. Ms. Smith replied that an error must have occurred in the file transfer, and agreed to provide this figure to Senators.

Some questions were raised with regard to information technology priorities. It was clarified that several software projects required implementation. When asked about projections for next year in this regard, Vice President Bray responded that she did not know what they were, and Dr. Iwama indicated that this information would be useful.

Dr. Iwama was asked to what extent UNBC has Chairs funded by industry. He responded that he was aware of these top-priority needs, that a Leading Edge Endowment Fund (LEEF) Chair was coming to Prince George for which matching funds were required, and that he had discussed this matter as recently as this morning. The President added that he would welcome ideas on how to generate conversation on this topic, as entrepreneurship would play an increasingly important part in expanding UNBC's faculty complement.

A question was asked about the costs associated with printing and photocopying, specifically how they can be verified when they are not tracked. Vice President Bray responded that she had been discussing this matter with the Director of Information Technology Services.

Videoconferencing and its associated costs, and the potential for using other less costly resources for teaching remotely, were discussed.

### **3.0 S-20100324.03**

#### **Adjournment**

Hutchings / Annis

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 5:10 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

April 21, 2010  
3:30 – 5:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

O. Adegbite, J. Alec, S. Beeler, S. Bennett, T. Binnema, R. Brouwer, C. Carriere, D. Casperson, M. Dale (Vice Chair), A. Dayanandan, J. DeGrace (Secretary of Senate), S. Déry, H. Donker, G. Fondahl, M. Green, I. Hartley, M. Hatcher, R. Hoffman, K. Hutchings, J. Hyndman, G. Iwama Chair), E. Jensen, E. Kim, M. Kizhakkeniyil, D. Leighton-Stephens, W. McGill, S. McKenzie, C. Myers (Recording), D. Nyce, C. O'Callaghan, M. Reid, R. Robinson, J. Van Barneveld, S. Wagner, S. Zahir

**Regrets:**

E. Annis, G. Ashoughian, R. Ellis, W. Haque, R. Lazenby, D. Macknak, I. Uche-Ezeala, A. Yakemchuk, J. Young

**Absent:**

C. Chasteauneuf

---

The meeting commenced at 3:30 p.m. The President introduced and welcomed new student Senators. He also asked those present at Senate to encourage staff members in their units to volunteer for Convocation.

**1.0 S-201004.01**

**Approval of the Agenda**

Déry / Binnema

That the Agenda for the April 21, 2010 Public Session of Senate be approved as presented.

CARRIED.

**2.0 Approval of Senate Minutes**

**S-201004.02**

**Approval of Minutes of Special Senate Budget Meeting of March 24, 2010**

Hutchings / Zahir

That the Minutes of the Special Senate Budget Meeting of March 24, 2010 be approved as presented.

CARRIED.

**S-201004.03**

**Approval of Minutes of March 10, 2010**

Zahir / Donker

That the Minutes of the March 10, 2010 Public Session of Senate be approved as presented.

CARRIED.

### **3.0 Business Arising from Previous Minutes of Senate**

#### **3.1 Response from the Registrar Regarding Classroom Change Form**

Mr. DeGrace provided Senators the rationale for the creation of this form. A Senator commented that the form was not as useful as it could be had there been consultation with those who need to complete the form. The Registrar welcomed feedback regarding the form.

#### **3.2 Input Regarding Consent Agendas**

Dr. Iwama asked Senators for their feedback regarding the use of a consent agenda. He indicated that the Steering Committee of Senate had suggested the trial period for using a consent agenda be extended until the end of August, and that a decision be made in September about whether to continue with using the consent agenda. There was general agreement to proceeding in this manner.

#### **S-201004.04**

##### **University Plan**

Dale / McGill

That The University Plan be recommended to the Board of Governors for approval.

Effective date: April 21, 2010

Dr. Iwama provided a general overview to the University Plan. Senators suggested several revisions. Dr. Iwama thanked Senators for their recommendations and agreed to take these under advisement. He added that he hoped Senators would view this document as a living document that would be kept fresh. The President was asked whether the comments received at this meeting would be incorporated into the Plan prior to it being advanced to the Board of Governors for approval. Dr. Iwama responded that he would place a revised version of the Plan on the website for comment prior to seeking Board approval, and welcomed comments on the revised version.

CARRIED.

### **4.0 President's Report**

**Iwama**

Dr. Iwama reported that there were celebrations today for both staff and faculty, and that building community relies upon continuing to celebrate contributions of UNBC employees. He added that it had been suggested to him that some form of recognition event be held once per month, with different units planning the events. Dr. Iwama concluded with the statement that these events had significant meaning to him.

With regard to the Wood Innovation and Design Centre, the President reminded Senators that this was a complex initiative that was still in the early planning stages with the involvement of three Ministries. He asked Senators for their patience until the details of this initiative became clearer, which he expected to happen in the coming weeks.

Finally, Dr. Iwama congratulated Senators on completing another term of teaching.

### **5.0 Report of the Provost**

**Dale**

Dr. Dale reported on the status of the search for the new Dean of the College of Science and Management, noting that a candidate would be on campus next week to make a presentation. On a separate subject, the Provost indicated there had been discussions about a "Full Service University" and what that would entail, adding that a lawyer in Terrace had suggested that a law school focusing on Indigenous issues would become vital within the next five years or so. Dr. Dale asked Senators to think about this.

## 6.0 Question Period

A question was raised regarding the external review of graduate programs, particularly why people were not informed that this review was ongoing. The Provost replied that it was not his intention that people not be informed. The Dean of Graduate Programs added that the objective is not to review individual programs, but the processes associated with, and delivery of, graduate programs. A member of the gallery requested permission to speak, and when permission was granted, expressed that, as a member of a graduate committee, she was concerned about the process used for this review, as she had been unable to obtain copies of documentation outlining procedures.

With regard to external reviews in general, a Senator asked whether the Provost could provide him with information about how many programs in the College of Arts, Social and Health Sciences (CASHS) had been reviewed in the last five years and how many would be reviewed in the next two years. He added that he had this information with regard to the College of Science and Management because the Program in which he teaches is located in that College, but would like to have the same information for CASHS. The Provost responded that he would undertake to have this information put up on the website.

## 7.0 S-201004.05 Approval of Motions on the Consent Agenda

Donker / Zahir

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

No motions were removed from the consent agenda.

## 8.0 Committee Reports

### 8.1 Senate Committee on Academic Policy and Planning

Dale

#### "For Approval" Items:

Regular S-201004.06  
Page 56 **University Breadth Requirement, Addition of Academic Regulation 15**  
That SCAPP recommend to Senate:

1. That a new undergraduate Calendar entry headed "University Breadth Requirement" be approved as proposed for placement at the beginning of the Undergraduate Programs section, and
2. That a new undergraduate Academic Regulation 15, "Academic Breadth" be approved as proposed, with subsequent Regulations to be renumbered accordingly, and
3. That the sentence under the heading "Electives" under every applicable major as set out below be amended to read, "Elective and Academic Breadth", and the text follow amended to read "Elective credit hours necessary to ensure completion of a minimum of XX credit hours, including any additional credits necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

Effective date: For all students admitted or readmitted to the University beginning September Semester 2010.

The Registrar noted that a sentence in the calendar text for this motion had been removed by the Senate Committee on Academic Policy and Planning, but because he was not at the meeting, he had been unable to defend his reasoning for including this sentence. He advised Senators why the sentence had been included initially, and asked that it be returned to the calendar text prior to this motion being voted upon.

**Amendment:**

Hutchings / Jensen

That SCAPP recommend to Senate:

1. That a new undergraduate Calendar entry headed "University Breadth Requirement" be approved as proposed for placement at the beginning of the Undergraduate Programs section, and
2. That a new undergraduate Academic Regulation 15, "Academic Breadth" be approved as proposed, with the addition of a sentence ("This requirement applies to all students admitted or readmitted to UNBC for studies beginning with the September 2010 Semester or later.") in two places in the calendar text, and with subsequent Regulations to be renumbered accordingly, and
3. That the sentence under the heading "Electives" under every applicable major as set out below be amended to read, "Elective and Academic Breadth", and the text follow amended to read "Elective credit hours necessary to ensure completion of a minimum of XX credit hours, including any additional credits necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15)."

Effective date: For all students admitted or readmitted to the University beginning September Semester 2010.

It was suggested that the breadth requirement as proposed by this motion, although better than what is currently in place, does not go far enough toward addressing breadth. The Forestry Program was identified as a Program that should be exempted from the breadth requirements as the program requirements are very prescriptive and it would be difficult to incorporate additional courses into the requirements for purposes of meeting a breadth requirement. A Senator commented that the use of a prefix to characterize courses qualified to meet breadth requirements could be misleading, as the course content is what is important. Finally, a Senator was of the opinion that it might be difficult for students from outside a particular Program to get into a particular course for purposes of meeting breadth requirements. The Registrar responded that one of the reasons this proposal evolved in this way was that the breadth requirement needs to be implementable. In his opinion, the proposed breadth requirement provided a decent measure of breadth and would allow for degrees to be audited smoothly.

The motion, as amended, was CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

For placement at the beginning of the "Undergraduate Programs" section:

**Academic Breadth Requirement**

The University of Northern British Columbia encourages all of its students to embrace Academic Breadth in both knowledge and skills. The ideal graduate has demonstrated literacy and numeracy in study, has acquired breadth of knowledge outside the chosen discipline(s) of study, and has developed the habit of analytical and critical thought. Certain degree programs lend themselves to a formal requirement for Academic Breadth in study. Students pursuing the degrees of BA, BComm, BHSc, and BSc are required to meet the University's Breadth requirement, as set out below, as a condition of graduation. Each graduate is required to have completed successfully at least one course from each of the four Quadrants, or to have transferred to UNBC from another institution acceptable course(s) such that the requirement is met.

This requirement applies to all students admitted or readmitted to UNBC for studies beginning with the September 2010 Semester or later.

<b><u>Arts and Humanities</u></b>	<b><u>Social Science</u></b>
-----------------------------------	------------------------------

<u>At least one course with the prefix ENGL, HIST, PHIL, WMST</u>	<u>At least one course with the prefix ANTH, COMM, ECON, EDUC, ENPL, FNST, INTS, NORS, ORTM, POLS, PSYC, RRT</u>
<b><u>Natural Science</u></b>	<b><u>Physical Science</u></b>
<u>At least one course with the prefix BIOL, GEOG, ENSC, ENVS, FSTY, HHSC, NREM</u>	<u>At least one course with the prefix CHEM, CPSC, MATH, PHYS, STAT</u>

New Academic Regulation 15:

**15. Academic Breadth**

Students pursuing the degrees of BA, BComm, BHSc, and BSc are required to meet the University's Academic Breadth requirement as a condition of graduation. Each graduate is required to have completed successfully at least one course from each of the following four areas, or to have transferred to UNBC from another institution acceptable course(s) such that the requirement is met:

Arts and Humanities: At least one course with the prefix ENGL, HIST, PHIL, WMST.

Social Science: At least one course with the prefix ANTH, COMM, ECON, EDUC, ENPL, FNST, INTS, NORS, ORTM, POLS, PSYC, RRT.

Natural Science: At least one course with the prefix BIOL, GEOG, ENSC, ENVS, FSTY, HHSC, NREM.

Physical Science: At least one course with the prefix CHEM, CPSC, MATH, PHYS, STAT.

This requirement applies to all students admitted or readmitted to UNBC for studies beginning with the September 2010 Semester or later.

**8.2 Senate Committee on Research and Graduate Studies**

**Fondahl / Hartley**

**"For Approval" Items:**

**S-201004.07**

**New Course Approval — ECON 635-3**

That the Senate Committee on Research and Graduate Studies recommend to Senate that the new course ECON 635-3 Financial Economics and Quantitative Methods be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course explores the theoretical and conceptual foundations of financial economics. The course also includes quantitative methods for testing some of the basic financial propositions in finance.

**Prerequisites:** Graduate student standing and permission of the Chair.

**Preclusions:** ECON435-3

"For Information" Items:**SCSB20100310.03****Approval of New Terms and Conditions — McGregor Action Group Environmental Leadership Award**

That the new Terms and Conditions for the McGregor Action Group Environmental Leadership Award be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Award Category: Open

Award Name: McGregor Action Group Environmental Leadership Award

Calendar Description/Intent: The McGregor Action Group was formed in 1976 to raise public concern about the environmental, social and economic impact of a proposed dam on the McGregor River that would divert water from the Fraser River watershed into the Parsnip/Peace River watershed. The project was suspended indefinitely by BC Hydro in 1978.

Donor: McGregor Action Group

Value: \$1,500

Number: One

Placement in which Calendar: Undergraduate

Award Type: Award

Eligibility: Available to a full time undergraduate student who is involved in environmental initiatives.

Criteria: Academic proficiency.

Conditions: Interested applicants must submit a 500 word essay outlining their environmental involvement and leadership. The essay should include previous involvement and goals for future environmental initiatives at UNBC and/or the community.

Note: The UNBC Awards Office will forward all essays to the Green University Planning Committee who will then review the essays and make a recommendation to the UNBC Awards Office.

Application Instructions: Fill out all sections of the Awards Application form and attach your Resume and essay outlining your environmental involvement.

Effective Date: Established 2010

Recipient Selection: Senate Committee on Scholarships and Bursaries on recommendation by the Green University Planning Committee and the UNBC Awards Office.

**SCSB20100310.04****Deletion of Terms and Conditions — Co-op Student of the Year Awards**

That the Terms and Conditions of the Co-op Student of the Year Awards (3 total, valued at \$1000 each) be deleted from the UNBC Calendar.

Effective Date: May 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**~~Co-op Student of the Year Awards~~**

~~Each year, the UNBC Co-op office will award three Co-op Student of the Year Awards. In addition to the monetary award, the winners may be nominated for the Canadian Association for Co-operative Education's (CAFCE) Student of the Year Award. Students applying for the award will be considered on the basis of their academic merit, their job achievement, and overall contribution to Co-op Education, the University and the external community.~~

~~Donor Co-operative Education~~

**Value** \$1,000

**Number** Three

**Eligibility** Available to qualified Co-op students, as defined in the Academic calendar, who have satisfactorily completed a Co-op work term within the previous calendar year (qualifying semesters include Winter, Summer and Fall). The three awards will be allocated as follows: one award will be made to a Co-op student in Business and Computer Science, one to a Co-op student from the other programs in the College of Science and Management (CSAM) and one award will be made to a Co-op student in the College of Arts, Social and Health Sciences (CASHS). Students who receive the award in one year will be eligible to be considered in future years.

**Criteria** Academic excellence, job achievement, contribution to co-operative education, contribution to extracurricular activities at school and/or community. From this criteria, each Co-op Coordinator will recommend a maximum of three student applicants from their portfolios for the award.

**Note** Students must apply directly to the Office of Co-operative Education. The application deadline is January 15 of each year.

**Application Instructions** Read the application guidelines on the Co-op website or Co-op student handbook. Submit your full application package, including the following: application form, signed employer statement on company letterhead, signed Co-op Coordinator statement on University letterhead, signed personal statement, current academic transcript, resume and learning portfolio. **Recipient Selection** Senate Committee on Scholarships and Bursaries, on recommendation of a committee comprised of the Director of Co-operative Education, a faculty representative from CSAM, a faculty representative from CASHS, and an employer representative who will review the applications recommended by the Co-operative Education Coordinators.

**Established** 2005

#### 8.4 Senate Committee on Nominations

Reid

##### S-201004.08

##### **Membership Changes to Senate and/or Senate Committees**

Reid / Hyndman

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate and/or Senate committees as indicated, be appointed as proposed.

Senator Reid requested Senate's permission to add another name to this list, namely Michael Archie for the position of Regional Representative from the South-Central Region. There was no opposition to this request.

##### **SENATE OR SENATE COMMITTEE POSITION TO BE FILLED** *(except when otherwise noted, all terms begin immediately)*

##### **CANDIDATE**

##### **Senate**

Regional Representative — South-Central Region  
(until March 31, 2011)

Michael Archie

##### **Steering Committee of Senate**

Student Senator (until March 31, 2011)

Chantal Carriere (undergraduate)

##### **Senate Committee on Nominations**

Student Senator (until March 31, 2011)

Stephen Bennett (undergraduate)

##### **Senate Committee on Academic Appeals**

Student Senator (Aboriginal if possible — until March 31, 2011)  
Undergraduate Student Senator (until March 31, 2011)  
Graduate Student Senator (until March 31, 2011)  
Lay Senator (until March 31, 2013)

Johnathan Alec (undergraduate)  
Oluwafisayo Adegbite  
Ijeoma Uche-Ezeala (2<sup>nd</sup> term)  
Carmen O'Callaghan (2<sup>nd</sup> term)

##### **Senate Committee on Admissions and Degrees**

Undergraduate Student (until March 31, 2011)  
Graduate Student (until March 31, 2011)

Oluwafisayo Adegbite  
Eunice Kim

**Senate Committee on Academic Policy and Planning**

Student Senator (until March 31, 2011)  
Undergraduate Student (until March 31, 2011)  
Regional Senator (until March 31, 2013)

Manoj Kizhakkeniyil  
Jeff Kormos  
Moira Green

**Senate Committee on Research and Graduate Studies**

Graduate Student — CASHS (until March 31, 2011)  
Graduate Student — CSAM (until March 31, 2011)

Ijeoma Uche-Ezeala  
Titi Kunkel

**SCAPP and SCRGs Continuing Studies Credit Committee**

Graduate Student (until March 31, 2011)

Narek Nalbandyan

**Senate Committee on First Nations and Aboriginal Peoples**

Full-time Aboriginal Student (until March 31, 2011)  
First Nations Representative — Member at Large (until March 31, 2011)

Johnathan Alec  
Debbie Leighton-Stephens

**Senate Committee on Honorary Degrees and  
Other Forms of Special Recognition**

Student Senator (until March 31, 2011)

Meghan Hatcher (undergraduate)

**Senate Committee on Regional Policy and  
Inter-Institutional Relations**

Student Senator (until March 31, 2011)  
Regional Senator (until March 31, 2013)  
Regional Senator (until March 31, 2012)

Chantal Carriere (undergraduate)  
Moira Green  
Rick Brouwer

**Senate Committee on Scholarships and Bursaries**

Graduate Student (until March 31, 2011)  
Student Senator (until March 31, 2011)

Narek Nalbandyan  
Meghan Hatcher (undergraduate)

**Senate Committee on the University Budget**

Undergraduate Student (until March 31, 2011)

Garrett Dobson

**Senate Committee on Student Discipline Appeals**

Undergraduate Student (until March 31, 2011)

Jeff Kormos

Senator Reid called for further nominations three times. There being no further nominations, nominee Michael Archie was elected by acclamation and other candidates were appointed as proposed.

**9.0 Other Business**

**9.1 Report of the Registrar**

**DeGrace**

Mr. DeGrace provided Senators with information about the course schedule, noting that its release had been delayed by a number of factors. He added that a thorough review would be performed to ascertain whether the schedule could be produced earlier. There is only one university in BC in which registration opens sooner than it does at UNBC. Most universities open registration between June and August, once grades have been posted. In this way, it can be determined if students have met prerequisites prior to registration, rather than having to de-register those who have not met prerequisites, as is the practice at UNBC. The Registrar added that the process of de-registration is not a simple process. In his opinion, the ideal situation would be that the timetable is released in March or April (as early as possible) for planning and advisement purposes, and that registration opens the first week in June, on a graduated basis. He suggested that dealing with the schedule and registration in this manner would help with wait lists and smooth the process. He indicated that he would welcome feedback on this recommendation.

**10.0 Information**

**10.1 Building External Relations at UNBC: What That Means for Me and You (presentation)**

**van Adrichem**

Vice President van Adrichem provided a presentation (attached as Appendix I) to Senators with regard to External Relations at UNBC. He noted that the Office of External Relations, which was created in 2009, brought together a number of units, that the Plan for the Office of External Relations was being built from scratch, and that they had been focusing on several key projects.

At 5:30 p.m., the President asked Senators if they were willing to extend the Senate meeting so that Mr. van Adrichem could complete his presentation.

**Motion:**

Casperson / Hutchings

That the Senate meeting be extended beyond 5:30 p.m.

CARRIED.

Vice President van Adrichem showed Senators “The Marketing Statement” and noted that, recently, this statement had been revised slightly to align with the University Plan. Mr. van Adrichem concluded his presentation with a list of initiatives for which the Office of External Relations could use the assistance of University community members, including forwarding Alumni and other information regarding successes and awards to the Office of External Relations, and strengthening the University brand. Dr. Iwama thanked Vice President van Adrichem for his presentation and apologized for the time constraints. He added that this was a conversation he would like to see continued in the future.

**11.0 S-201004.09**

**Adjournment**

Casperson / Robinson

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 5:40 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

May 12, 2010  
3:30 – 5:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

O. Adegbite, J. Alec, E. Annis, M. Archie, S. Beeler, S. Bennett, R. Brouwer, C. Carriere, D. Casperson, C. Chasteauneuf, M. Dale (Vice Chair), A. Dayanandan, J. DeGrace (Secretary of Senate), H. Donker, G. Fondahl, M. Hatcher, R. Hoffman, K. Hutchings, J. Hyndman, G. Iwama (Chair), E. Jensen, E. Kim, M. Kizhakkeniyil, R. Lazenby, W. McGill, C. Myers (Recording), C. O'Callaghan, R. Robinson, J. Van Barneveld, S. Wagner, A. Yakemchuk, S. Zahir

**Regrets:**

G. Ashoughian, T. Binnema, S. Déry, R. Ellis, M. Green, W. Haque, I. Hartley, D. Leighton-Stephens, D. Macknak, S. McKenzie, D. Nyce, M. Reid, I. Uche-Ezeala, J. Young

---

The meeting commenced at 3:30 p.m. When a new Senator, Chief Michael Archie, joined the meeting by teleconference, he was introduced by Dr. Iwama.

**1.0 S-201005.01**

**Approval of the Agenda**

Annis / Alec

That the Agenda for the May12, 2010 Public Session of Senate be approved as presented.  
CARRIED.

**2.0 S-201005.02**

**Approval of Senate Minutes**

Hutchings / Zahir

That the Minutes of the April 21, 2010 Public Session of Senate be approved as presented.  
CARRIED.

**3.0 Business Arising from Previous Minutes of Senate**

A Senator asked when the schedule of external reviews, which he had asked about at the previous meeting, would be posted. The Provost responded that the information had been compiled and that if it was not posted already, he would ensure that it was.

**4.0 President's Report**

**Iwama**

President Iwama reported that he had visited the regional campuses and met with the regional advisory councils. He added that it was a privilege to hear about the campuses' opportunities and challenges, and

---

that he would be attending the regional graduation ceremonies in June. The President attended a meeting, in Smithers, of the North Central Local Government Association, and delivered a presentation on the New North Foundation at a meeting of the Northern Medical Program Trust.

Dr. Iwama reported that, with regard to UNBC not being accepted into the Canadian Interuniversity Sport (CIS) organization, he was disappointed but planned to continue to pursue this. He added that he was present at the meeting in Smithers when he received this news, and that the mayors in attendance immediately drafted a resolution in response to the news. Dr. Iwama noted that this was but one demonstration of the tremendous support from the regions for UNBC's inclusion in the CIS.

Dr. Iwama concluded his report with an update on the progress of the Wood Innovation and Design Centre, noting that the project now has a new coordinator.

## 5.0 Report of the Provost

Dale

With regard to the Wood Innovation and Design Centre and the potential expansion of UNBC's engineering programs as a result, Dr. Dale reported that it seems less likely that the programs will be expanded in the near future or in conjunction with the opening of the Wood Innovation and Design Centre. He added that he anticipated the expansion coming to fruition, but not as quickly as he had hoped.

With regard to position searches, Dr. Dale asked Senators to expect an announcement regarding the Dean of the College of Science and Management within the next week or so. He added that, with regard to the Athletics Director position, UNBC had received applications from several qualified candidates and would be proceeding to conduct telephone interviews.

## 6.0 Question Period

A Senator asked whether enrolment numbers for the fall were available yet. Dean Madak responded that they were not, but a recent application snapshot shows that undergraduate applications have decreased by 3% and graduate applications have increased by 20% in comparison with figures from the same time last year. The Senator asked whether there was a retention plan in place for the coming year. Dr. Dale responded that he had received an action plan from Dean Madak in relation to both recruitment and retention, but that no action had yet been taken.

## 7.0 S-201005.03

### **Approval of Motions on the Consent Agenda** (*no material*)

Annis / Hutchings

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

## 8.0 Committee Reports

### 8.1 Senate Committee on Academic Policy and Planning

Dale

#### "For Approval" Items:

### S-201005.04

#### **Renewal of Student Exchange Agreement Between the Pôle ESG (France) and the University of Northern British Columbia**

Donker / Zahir

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the renewal of the student exchange agreement between the Pôle ESG (France) and the University of Northern British Columbia be approved as proposed.

Effective date: September 2010

CARRIED.

**S-201005.05**

**Approval of New Joint Major — Economics and International Studies**

Donker / Dayanandan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new Joint Major in Economics and International Studies be approved as proposed.

Effective date: September 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**General Calendar Description:** Joint majors are designed for students interested in a combination of two related fields of study. They normally involve a specific set of course requirements selected to provide solid specialization in each of the two fields. The graduation requirements for a Joint Major can normally be met in four years of study.

**Curriculum:**

The minimum requirement for completion of a Bachelor of Arts with a Joint Major in Economics and International Studies is 120 credit hours.

**Lower Division Requirement**

ECON 100-3 Microeconomics

ECON 101-3 Macroeconomics

ECON 120-3 Globalization and World Economies

ECON 202-3 History of Economic Thought

or ECON 203-3 Canadian Economic History

ECON 205-3 Statistics for the Social and Management Sciences

INTS 101-3 Canada and the World

INTS 205-3 Introduction to International Studies

One of:

INTS 200-3 Contemporary Russia

INTS 202-3 Contemporary United States

INTS 203-3 Contemporary Japan

INTS 204-3 Contemporary China

INTS 240-3 Contemporary Circumpolar North

**Upper Division Requirement\***

INTS 310-3 Origins and Evolution of International Studies

ECON 308-3 International Economic Relations

ECON 310-3 Intermediate Microeconomic Theory

ECON 311-3 Intermediate Macroeconomic Theory

ECON 321-3 Economics of Developing Countries

Fifteen additional credit hours of 300- or 400-level International Studies courses.

Six additional credit hours of 300- or 400-level Economics courses.

\* Students must ensure that all prerequisites are fulfilled prior to registering in any courses. Note that MATH 152 is a prerequisite for ECON 310.

## Language Requirement

Twelve credit hours of International Studies language courses. At least two courses must be in one language.

## Elective Requirement

Electives at any level in any subject sufficient to ensure completion of a minimum of 120 credit hours.

### **S-201005.06**

#### **Change to BSW Program Requirements**

Zahir / Donker

That, on the recommendation of the Senate Committee on Academic Policy and Planning, students enrolling in any required course in the BSW Program must have completed all prerequisites with a grade of C or better.

Effective date: May 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Qualification for Degree

It is the responsibility of the student to ensure that his/her degree requirements are met. Graduation requirements are found in the Regulations and Policies section of this Calendar. To fulfill the requirements of graduation, the student must also:

- attain a minimum cumulative GPA of 2.33 (~~"C+"~~) (C+) on courses for credit towards the Social Work degree.
- obtain a minimum passing grade of 2.00 (~~"C"~~) (C) in every Social Work course for credit towards the degree- (note: Students enrolling in any required course must have completed all prerequisites with a grade of C or better); and
- complete all requirements for the BSW program within eight years of admission into the program or from the first Social Work course used for credit towards the degree.

### **S-201005.07**

#### **Addition of Paragraph Prior to NOLS Course Descriptions**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the following paragraph be approved as proposed and be posted above the NOLS course descriptions:

The National Outdoor Leadership School (NOLS) is a not for profit educational institution that offers courses in outdoor leadership and wilderness education throughout Canada and around the world. Courses with NOLS prefixes are taught through a partnership agreement with NOLS and are not physically taught at UNBC. Students need to enroll in a NOLS field-based program in order to access these courses/credits, and there are additional tuition costs for such a program. Information about NOLS courses and how to register is available from the ORTM program or from the student advisors.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Major in NRM-Outdoor Recreation and Conservation

See Calendar entry under Natural Resources Management

## Minor in Forest Recreation

The Minor in Forest Recreation provides natural resource management students and others with an opportunity to gain a foundation and expertise in the specialized aspects of forest recreation while pursuing another major. The minor requires students to take a total of 18 credit hours. The minor has three required courses basic to the field of Forest Recreation (nine credit hours) and a set of elective courses (minimum of nine credit hours).

### Required Courses

ORTM 100-3	Leisure in Life
ORTM 200-3	Sustainable Recreation and Tourism
ORTM 300-3	Recreation and Tourism Impacts

### Elective Courses

Nine credit hours from the following list with a minimum of three credit hours at the 400 level:

ORTM 301-3	Environmental Interpretation
ORTM 305-3	Protected Area Planning and Management
ORTM 306-3	Indigenous Tourism and Recreation
<u>ORTM 332-3</u>	<u>Outdoor Education and Leadership</u>
<del>ORTM 333-3</del>	<del>Field Experience</del>
ORTM 400-3	Recreation and Tourism Ecology, Management and Design
ORTM 407-3	Recreation, Tourism and Communities
<del>ORTM 410-3</del>	<del>Research Methods and Analysis</del>
ORTM 412-3	Issues and Trends in Outdoor Recreation and Tourism
<del>ORTM 440-(2-6)</del>	<del>Internship</del>
ORTM 498-(1-3)	Special Topics
ORTM 499-(1-6)	Independent Study

A maximum of two courses (six credit hours) used to fulfill program requirements for a major (or another minor) may also be used to fulfill requirements for this minor.

## Minor in Outdoor Recreation and Tourism Management

The minor in Outdoor Recreation and Tourism Management is designed to afford students an opportunity to gain a

foundational ~~set of~~ knowledge in tourism and recreation while pursuing another major. The minor requires students to take a total of 18 credit hours. The minor has three required courses basic to the field of Outdoor Recreation and Tourism Management (nine credit hours) and a set of elective courses (minimum of nine credit hours). A maximum of two courses (six credit hours) used to fulfill program requirements for a major (or another minor) may also be used to fulfill requirements for this minor.

## Required Courses

ORTM 100-3 Leisure in Life

### One of:

ORTM 200-3 Sustainable Recreation and Tourism  
ORTM 202-3 Ecotourism and Adventure Tourism  
ORTM 204-3 Visitor Behavior

ORTM 414-3 Polar Tourism and Recreation

### **S-201005.09**

#### **Change to Program Requirements — Major in Outdoor Recreation and Conservation**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the Program Requirements for the Major in Outdoor Recreation and Conservation be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Major in Outdoor Recreation and Conservation

This BSc Major in Outdoor Recreation and Conservation focuses on the natural and social dimensions of outdoor recreation and conservation planning and management, ~~using~~ within an integrated natural resource management framework. Emphasis in this major is placed on planning and managing environmentally and culturally sensitive recreation opportunities in natural environment settings.

Northern British Columbia provides an unparalleled setting for learning, teaching, and researching the various aspects of outdoor recreation and conservation management. British Columbia has a large land base and a range of natural environments that support a vast array of dispersed and concentrated outdoor recreation opportunities. The program examines the components of planning and managing recreation opportunities through the study of such subject areas as ecology, integrated resource management, planning, protected areas management, tourism management, environmental studies and geography (e.g., GIS).

Undergraduate students are required to take 12 Outdoor Recreation and Tourism Management courses (36 credit hours). Of these, 9 courses are upper division. The minimum requirement for the completion of a Bachelor of Science with a major in Outdoor Recreation and Conservation is 120 credit hours.

## Program Requirement

### Lower Division Requirement

#### 100 Level

BIOL 101-4	Introductory Biology I

NOLS 303-2	<u>Risk Management, Assessment and Decision Making</u>

### “For Information” Items:

#### **SCAPP201004.08**

#### **Course Preclusion Change — HHSC 330-3**

That the change to the HHSC 330-3 Health Information Management Technology preclusion statement be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

HHSC 330-3 Health Information Management Technology  
This course examines the birth and evolution of Health Information

Management Technology (HIMT) within the health care system. Topics include the nature of data gathering and analysis in evidence based practice, the determination of health resource needs, and the application of HIMT in risk management, epidemiology and demographics. It is strongly recommended that students have a working knowledge of spreadsheets and familiarity with databases before taking this course.

*Prerequisites:* Upper-level standing in the BHSc program, or permission of the instructor.  
*Precluded:* COMM 351-3

## 9.0 Other Business

### 9.1 Report of the Registrar

DeGrace

The Registrar had nothing to report.

## 10.0 Information

### 10.1 Information Technology Services (*presentation*)

Stokes

Mr. Paul Stokes, UNBC's Chief Information Officer, delivered a presentation regarding Information Technology Services at UNBC (attached as Appendix I). He indicated that there were successes and failures over the years that have facilitated learning, that a lack of planning with regard to the merger between UNBC's two distinct computing services led to problems that he does not want to see repeated, that 10-15% of the computing infrastructure remains to be replaced, that ITS has a large portfolio, and that there are competing goals to be considered in decision-making, although it is becoming easier to align these competing goals as a result of work that has been done in the unit. When his presentation was finished, Mr. Stokes invited questions.

In response to Senators' questions, Mr. Stokes noted that there are 43 employees in the ITS department, that a governance body will be struck to allow a coordinated approach to decision-making, and that outsourcing does not necessarily produce cost-savings. In addition, Mr. Stokes reported that recent upgrades have been made to computing services for students, storage capacity has been substantially increased, and that UNBC e-mail addresses will be changed to incorporate first and last names. He added that he would seek consultation with regard to a request to change defaults for student printers to double-sided printing and explore whether a process could be instituted to allow UNBC faculty members to retain their UNBC e-mail addresses upon leaving UNBC.

### 11.0 S-201005.10 **Move to In Camera Session**

Donker / Zahir

That the meeting move In Camera.

CARRIED.

### 12.0 S-201005.17 **Adjournment**

Donker / Zahir

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 4:30 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

August 25, 2010  
3:30 – 5:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

O. Adegbite, J. Alec, E. Annis, M. Archie, G. Ashoughian, S. Beeler, S. Bennett, T. Binnema, R. Brouwer, C. Carriere, D. Casperson, C. Chasteauneuf, L. Chen, M. Dale (Vice Chair), A. Dayanandan, B. DeWiel (Acting Dean of CASHS), J. DeGrace (Secretary of Senate), H. Donker, G. Fondahl, M. Green, R. Hoffman, K. Hutchings, G. Iwama (Chair), E. Jensen, E. Kim, M. Kizhakkeniyil, R. Lazenby, D. Leighton-Stephens, J. Li, J. MacDonald, D. Macknak, F. MacPhail, S. McKenzie, C. Myers (Recording), D. Nyce, C. O'Callaghan, M. Reid, R. Robinson, S. Wagner, A. Yakemchuk, S. Zahir

**Regrets:**

S. Déry, W. Haque, M. Hatcher, D. Ryan, J. Young, J. Van Barneveld

**Absent:**

I. Uche-Ezeala

---

The meeting commenced at 3:30 p.m. As Chancellor MacDonald, Dean MacPhail, and Senator Chen were attending their inaugural meetings of Senate, Dr. Iwama introduced and welcomed them.

**1.0 S-201008.01**

**Approval of the Agenda**

Hutchings / Annis

That the Agenda for the August 25, 2010 Public Session of Senate be approved as presented.

CARRIED.

**2.0 S-201008.02**

**Approval of Senate Minutes**

Hutchings / Hoffman

That the Minutes of the May 12, 2010 Public Session of Senate be approved as presented.

CARRIED.

**3.0 Business Arising from Previous Minutes of Senate**

No business arising was identified.

#### 4.0 President's Report

Iwama

Dr. Iwama reported that the Vice Presidents are currently working on Action Plans in support of the University Plan. He added that the timeline for completion of the Action Plans was the end of September, and he encouraged Senators to visit the website and engage in discussions regarding these Plans.

The President indicated he would be attending a meeting on September 2 of UNBC's Vancouver Advisory Board, and outlined the role of the Board.

Dr. Iwama reported that the Wood Innovation and Design Centre discussions are still ongoing.

Finally, Dr. Iwama commented that he looked forward to students arriving over the next few weeks, and invited Senators to join him and Mrs. Iwama to welcome the students at the "Residence Move In" event. He added that a community member had kindly offered to put on a barbecue for everyone attending that event.

#### 5.0 Report of the Provost

Dale

Dr. Dale indicated that the Wood Innovation and Design Centre was, as Dr. Iwama had mentioned, an ongoing project with a great amount of background swirl, and that nothing had yet been settled. He asked Senators to stay tuned, as he was optimistic that the discussions would reach a successful conclusion.

#### 6.0 Question Period

A Senator asked if current enrolment data was available. The Provost responded that, as a result of changing parameters for reporting, there is no direct comparison data for the same time last year, but that it appeared that enrolment had either remained flat or decreased slightly. Another Senator asked if this information could be provided at the September Senate meeting. Dr. Dale responded that it could, and that a presentation regarding enrolment would likely also be undertaken at that meeting.

<b>Action:</b> Ms. Myers to add "Enrolment Report" to the September Senate meeting agenda.
--

A Senator commented about the fact that graduates and their guests were required to pay for food provided at Convocation this year, while they had been fed in previous years, and asked why this change had been made. The Registrar responded that the change was partly budgetary but also that people from off-campus had previously taken advantage of the luncheon put out for graduates and their guests. Mr. DeGrace added that he understood the Senator's concern and would take the comment into account in planning future Convocation events. Dr. Iwama agreed with Mr. DeGrace, noting that the Convocation debriefing session had taken place earlier that afternoon and that the University was committed to retaining the positive aspects of Convocation in a sustainable manner.

A Senator reported that he had heard the Ministry of Advanced Education and Labour Market Development had placed a six-month moratorium on the approval of any new academic programs, and asked if this would have an effect on programs currently in the process of being approved and what the future held in this regard. Dr. Dale responded that the moratorium did not affect programs already submitted for assessment and was only for six months. He added that Ministry representatives had also indicated that during this period they would continue to accept applications for programs they view as being high priority.

A Senator asked about the status of the Physical Therapy program. Dr. Dale responded that discussions were ongoing and that there was not enough funding for UNBC to host a stand-alone program, so it would likely be undertaken in conjunction with UBC.

With regard to enrolment, a Senator expressed interest in statistics regarding Aboriginal student enrolment. The Provost replied that he did not have that information available, but would include it in the report being provided at the September Senate meeting.

7.0 **S-201008.03**  
**Approval of Motions on the Consent Agenda**

Donker / Reid

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

8.0 **Committee Reports**

8.1 **Senate Committee on Academic Policy and Planning**

**Dale**

**“For Approval” Items:**

An Executive Summary of the proposed changes to the Social Work curriculum was included for information.

**S-201008.04**

**Change to BSW Program Requirements — Course Titles of SOCW 302-6 and SOCW 402-15**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the title of SOCW 302-6 Social Work Field Education and SOCW 402-15 Social Work Field Education 2 in the program requirements sections of the undergraduate calendar, pg 172-173, be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## School of Social Work (BSW Program)

### Program Requirements

#### Lower-Division Requirement

100 and 200 Level

SOCW 200-3 Introduction to Social Work Practice

SOCW 201-3 Introduction to Social Welfare

FNST 100-3 The Aboriginal Peoples of Canada

WMST 100-3 Introduction to Women's Studies

#### Upper-Division Requirement

300 Level

SOCW 300-3 Social Work Communication Skills

SOCW 301-3 Critical Social Work Practice

SOCW 302-6 Social Work Field Education I

SOCW 310-3 First Nations Social Work Issues

SOCW 320-3 Critical Social Policy

SOCW 330-3 Social Work Research/Policy/Practice

SOCW 336-3 Social Work Philosophy and Ethics

400 Level

SOCW 401-3 Northern/Remote Social Work Practice

SOCW 402-15 Social Work Field Education 2 II

SOCW 420-3 Family/Child Welfare Policy

SOCW 421-3\* Human Growth and Development

\*Please see note on SOCW 421-3 in the course description listings in

this calendar.

## Undergraduate Programs: Social Work

### Elective Courses

Fifteen (15) credit hours of Social Work electives. The elective courses are numbered in the 400 ranges, but may be taken by students enrolled in their third or fourth year of studies.

SOCW 422-3 Child Welfare Practice  
SOCW 424-3 Child Welfare/Sites of Resistance  
SOCW 426-3 Current Issues in Child Welfare Practice  
SOCW 432-3 Unemployment and Social Work  
SOCW 433-3 Women in the Human Services  
SOCW 435-3 Community Social Policy  
SOCW 437-3 Social Work with Groups and Communities  
SOCW 438-3 Comparative Welfare Analysis  
SOCW 439-3 Social Work/Law and the Justice System  
SOCW 440-3 Social Work in Mental Health  
SOCW 441-3 Social Work and Substance Abuse  
SOCW 442-3 Social Work with Victims of Abuse  
SOCW 443-3 Medical Social Work  
SOCW 444-3 Social Work Critical Issues in Aging  
SOCW 445-3 Social Work and Cross-Cultural Practice  
SOCW 448-3 Inequality and Income Security  
SOCW 449-3 Gender and Sexuality  
SOCW 450-3 Social Work and Family Practice  
SOCW 452-3 Social Work/Crisis Intervention  
SOCW 454-3 Disability Issues  
SOCW 455-3 First Nations Governance and Social Policy  
SOCW 456-3 Family Caring Systems  
SOCW 457-3 Individual and Community Wellness  
SOCW 498-(3-6) Special Topics  
SOCW 499-3 Directed Readings

### Elective Requirement

Electives at any level in any subject sufficient to ensure completion of a minimum of 120 credit hours.

## BSW: Child Welfare Specialization

The Child Welfare Specialization ~~is designed to provide~~ a program of studies that prepares students for practice in child welfare, while also satisfying the general practice criteria required for BSW accreditation and for designation as a Registered Social Worker (RSW).

Students must meet all prerequisites for entry into the UNBC BSW program, ~~at UNBC~~ and must be accepted into the program. The fourth-year practicum takes place in a government child welfare service (BC Ministry for Children and Families, ~~or~~ a fully delegated First Nations child welfare Agency, or an approved government agency in another province). Completion of the specialization is noted on the student's graduating transcript.

The Child Welfare Specialization is designed to provide a social work degree that prepares students for social work practice in all child and family serving agencies. In addition, the program is designed to meet the BC Ministry for Children and Families entry level expectations for child protection positions.

### Program Requirement

SOCW 300-3 Communication Skills in Social Work Practice  
SOCW 301-3 Critical Social Work Practice

SOCW 302-6 Social Work Field Education I  
SOCW 310-3 First Nations Social Work Issues  
SOCW 320-3 Critical Social Policy  
SOCW 330-3 Social Work Research, Policy and Practice  
SOCW 336-3 Social Work Philosophy and Ethics  
SOCW 401-3 Northern and Remote Social Work Practice  
SOCW 402-15 Social Work Field Education 2 II  
SOCW 410-3 First Nations Social Work Issues  
SOCW 420-3 Family/Child Welfare Policy  
SOCW 421-3 Human Growth and Development  
SOCW 422-3 Child Welfare Practice  
SOCW 426-3 Current Issues in Child Welfare Practice  
SOCW 439-3 Social Work/Law and the Justice System

## Elective Courses

One Social Work Elective.

## BSW: First Nations Specialization

The First Nations Specialization ~~is designed to~~ provides a program of studies that prepares students for practice with First Nations people, while also satisfying the general practice criteria required for BSW accreditation and for designation as a Registered Social Worker (RSW). Students must meet all prerequisites for entry into the UNBC BSW program, ~~at UNBC and~~ must be accepted into the program. The fourth-year practicum takes place with a First Nations organization.

Completion of the specialization is noted on the student's transcript.

### Program Requirement

SOCW 300-3 Communication Skills in Social Work Practice  
SOCW 301-3 Critical Social Work Practice  
SOCW 302-6 Social Work Field Education I  
SOCW 310-3 First Nations Social Work Issues  
SOCW 320-3 Critical Social Policy  
SOCW 330-3 Social Work Research, Policy and Practice  
SOCW 336-3 Social Work Philosophy and Ethics  
SOCW 401-3 Northern and Remote Social Work Practice  
SOCW 402-15 Social Work Field Education 2 II  
SOCW 421-3 Human Growth and Development  
SOCW 455-3 First Nations Governance and Social Policy  
SOCW 456-3 Family Caring Systems  
SOCW 457-3 Individual and Community Wellness

### **S-201008.05**

#### **Change to BSW First Nations Specialization**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the BSW First Nations Specialization program description be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## BSW: First Nations Specialization

The First Nations Specialization provides a program of study that prepares students for practice with First Nations people, while also satisfying the general practice criteria required for BSW accreditation

and for designation as a Registered Social Worker (RSW).

Students must meet all prerequisites for entry into the UNBC BSW program, ~~at UNBC~~ and must be accepted into the program. The fourth year practicum takes place ~~with~~ in a First Nations organization setting.

Completion of the specialization is noted on the student's transcript.

#### **S-201008.06**

##### **Changes to Calendar Description — Aboriginal Child and Youth Mental Health Certificate**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the UNBC Academic Calendar Description for the Aboriginal Child and Youth Mental Health Certificate, on page 177 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The Aboriginal Child and Youth Mental Health Certificate program is open to Bachelor of Social Work and Bachelor of Child & and Youth Care graduates. Those with related Bachelor-level degrees may also be eligible to apply, subject to the approval of the Chair of the School of Social Work. Those with a Master of Social Work or related Masters-level degree are also eligible to apply. The Certificate is designed for students who seek to practice in the area of Aboriginal child and youth mental health with a focus on working in northern and remote communities. In particular, this Certificate will provide the education and skills necessary to work with children and youth who are experiencing significant mental health issues or are at high risk. The certificate consists of 18 credit hours of 500-level course work. Admission into the Certificate program is limited and requires approval of the Chair of the School of Social Work. Students must establish their course of study with approval from the Chair of the School of Social Work.

Students wishing to audit coursework in the Certificate program may do so subject to the approval of the Chair of the School of Social Work and to UNBC admitting and auditing regulations and policies set out in the undergraduate academic calendar. Note: Courses taken for audit only do not earn academic credit.

Students are required to undergo a criminal records search prior to being admitted. (Refer to Academic Regulation ~~#19~~. 19.)

#### Standards of Professional Conduct

All students are expected to abide by professional standards as set forth by the Canadian Association of Schools of Social Work (CASSW) and the relevant Social Work Codes of Ethics. Violation of professional standards may result in suspension or dismissal from the program or the educational institution.

#### Qualification for Certificate

To fulfill the requirements of graduation, the student must:

- attain a minimum cumulative GPA of 2.33 (C+) on courses for credit towards the Certificate
- complete all course requirements for the Certificate

### Certificate Requirements

SOCW 501-3	Aboriginal Peoples in Canada: Past/Present/Future
SOCW 502-3	Reflections on Practice: Child/Youth Mental Health
SOCW 503-3	Social Work/Counselling Skills with Children/Youth
SOCW 504-3	Mental Illness and Addictions Among Children/Youth
SOCW 505-3	Crisis Work With Children/Youth: Restoring Balance
SOCW 506-3	Community-based Prevention: Creating Balance

#### **S-201008.07**

#### **Calendar Entry Revision — Bachelor of Planning, Deletion of Major in Natural Resource Planning-Energy Specialization**

Donker / Chasteauneuf

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the calendar entry for the Bachelor of Planning Major in Natural Resource Planning-Energy Specialization, on page 114 of the 2009/2010 undergraduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### ~~Major in Natural Resource Planning-Energy Specialization~~

~~An energy specialization is offered at the UNBC Fort St. John campus. This specialization deals with energy and energy alternatives including oil and gas exploration, production, transportation, and site remediation within the context of energy planning. For further information, contact the Chair of Planning in Prince George or staff at the Fort St. John campus.~~

#### **S-201008.08**

#### **Change to Program Requirements — Integrated Science, Removal of CPSC 142-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the removal of CPSC 142-3 Discrete Computational Mathematics II from the recommended first year courses for Integrated Science, on page 71 of the 2009/10 undergraduate academic calendar, be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **Eligible courses for the Computer Science concentration**

**All Upper Division CPSC courses except CPSC 311-3.**

**Students considering this area of concentration should include in the first year:**

CPSC 100-4	Computer Programming I
CPSC 141-3	Discrete Computational Mathematics
CPSC 101-4	Computer Programming II

**S-201008.09****Change in Designation of Mathematics Program to Department of Mathematics and Statistics**

Reid / Beeler

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change in designation of the Mathematics Program to Department of Mathematics and Statistics, on pages 145 and 242 of the 2009/10 undergraduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Mathematics (BSc Program)**Jennifer Hyndman, Professor; ~~and Program~~ Department Chair

Iliya Bluskov, Professor

Sam Walters, Professor

Lee Keener, Professor

Pranesh Kumar, Professor

Kevin Keen, Associate Professor

Rob Fry, Adjunct Professor

Cristian Ivanescu, Adjunct Professor

Patrick Montgomery, Adjunct Professor

Anamaria Savu, Adjunct Professor

Website: [www.unbc.ca/math](http://www.unbc.ca/math)

The ~~Mathematics Program~~ Department of Mathematics and Statistics provides undergraduate and postgraduate instruction and training in pure mathematics, applied mathematics, and statistics. A Bachelor of Science degree is available in Mathematics; as well as joint BSc degrees in Mathematics and Physics, Economics and Mathematics, Chemistry and Mathematics, and Computer Science and Mathematics.

In addition, there ~~are~~ is a ~~minors~~ minor in Mathematics and a minor in Statistics.

A graduate degree (MSc—Mathematical, Computer, and Physical Sciences) is also supported by the ~~mathematics program.~~ Department of Mathematics and Statistics. Students interested in graduate studies are advised to consult the UNBC Graduate Calendar for further information.

The ~~Mathematics Program~~ Department of Mathematics and Statistics offers Mathematics and Statistics service courses to students in the biological sciences, health sciences, management, economics, social sciences, and other areas. Some sections of introductory calculus are enhanced through the use of computer software which provides exceptional computational power and high-quality graphical display. Introductory statistics courses teach the use of statistical analysis software to analyze data. An important feature of the Mathematics degree program is the early emphasis on the development of abstract reasoning and the relation of the abstract to the concrete. The degree requirements have been chosen so as to provide students with a broad background in Mathematics while still leaving them room to pursue individual interests.

For more information please visit our website at [www.unbc.ca/math](http://www.unbc.ca/math).

(Page 242)

**Mathematics**

Unless otherwise stated, a student may enroll in any Mathematics

course with permission of the ~~Program~~ Department Chair.  
Note that BC Introductory Mathematics 11, Applications of Mathematics 11, Essentials of Mathematics 11, Applications of Mathematics 12, and Essentials of Mathematics 12 are not considered prerequisites for any Mathematics courses as currently taught. Students enrolling in any Mathematics course with prerequisites are required to have completed all prerequisite courses for that course with a C- or better, or have permission to enroll from the ~~Program~~ Department Chair.

### **S-201008.10**

#### **Change in Designation of Physics Program to Physics Department**

Jensen / Reid

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change in designation of the Physics Program to Physics Department, on pages 165 and 166 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

(page 165)

Physics (BSc Program)

Ahmed Hussein, Professor Emeritus

Erik Jensen, Associate Professor, and ~~Program~~ Department Chair

Elie Korkmaz, Professor

Mark Shegelski, Professor

Matthew Reid, Assistant Professor

Jamie Sanchez-Fortun, Instructor

Christine Domning, Senior Lab

(page 166)

Minor in Physics

Students interested in obtaining a minor in Physics must complete 27 credit hours of Physics, of which 12 must be at the upper level.

A maximum of four courses (consisting of two 100-level courses plus two courses at the 200 level or beyond to a maximum of 15 credit hours) which are used to fulfill requirements for a major (or another minor) may also be used to fulfill requirements for a minor in Physics.

The following courses are required:

PHYS 110-4	Introductory Physics I: Mechanics
PHYS 111-4	Introductory Physics II: Waves and Electricity
PHYS 202-4	Electromagnetism and Optics
PHYS 205-3	Modern Physics I

Twelve credit hours of 300 or 400 level PHYS.

The upper division courses are selected in consultation with an advisor from the Physics program Department to reflect the student's specific interests. PHYS 307-3 (Selected Topics in Environmental Physics) may not be used as Physics credit toward any Physics major, minor, or joint major.

### **S-201008.11**

#### **Change to Suggested MATH Elective for the BSc Physics**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the suggested MATH elective in the BSc Physics, on pages 168-9 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Major in Physics

A major in Physics requires students to complete 49 credit hours of Physics; 27 credit hours of these must be at the upper-division level.

PHYS 307-3 (Selected Topics in Environmental Physics) may not be used as Physics credit toward any Physics major, minor, or joint major.

The minimum requirement for completion of a Bachelor of Science degree with a major in Physics is 120 credit hours.

## Program Requirements

### Lower Division Requirement

#### 100 Level

CHEM 100-3 General Chemistry I

MATH 100-3 Calculus I

or MATH 105-3 Enriched Calculus

MATH 101-3 Calculus II

PHYS 110-4 Introductory Physics I: Mechanics

PHYS 111-4 Introductory Physics II: Waves and Electricity

CPSC 100-4 Computer Programming I

or CPSC 110-3 Introduction to Computer Systems and Programming

#### 200 Level

MATH 200-3 Calculus III

MATH 201-3 Introduction to Complex Analysis

MATH 220-3 Linear Algebra

MATH 230-3 Linear Differential Equations and Boundary Value Problems

PHYS 200-3 Thermal Physics

PHYS 202-4 Electromagnetism and Optics

PHYS 205-3 Modern Physics I

Four additional credit hours of Physics at the 200 level [other than PHYS 215-3 (Energy, Physics and the Environment)].

### Upper-Division Requirement

#### 300 Level

MATH 336-3 Intermediate Differential Equations

PHYS 300-3 Classical Mechanics

PHYS 302-3 Quantum Mechanics I

PHYS 310-3 Classic Electromagnetism I

#### 400 Level

PHYS 400-3 Quantum Mechanics II  
PHYS 401-3 Seminar on Contemporary Topics in Physics  
PHYS 407-3 Statistical Mechanics  
Nine additional credit hours of Physics at the 300 or 400 level.

### Elective Requirement

Elective credit hours as necessary to ensure completion of a minimum of 120 credit hours.

Recommended electives include:

CPSC 101-4 Computer Programming II  
or CPSC 311-3 Computer Applications Programming  
CHEM 101-3 General Chemistry II  
CHEM 200-3 Physical Chemistry I  
MATH 335-3 Numerical Analysis I  
~~MATH 340-3 Introduction to Probability~~  
MATH 371-3 Probability and Statistics for Scientists and Engineers

### **S-201008.12**

#### **Change to Program Requirements — Minor in Soils and the Environment**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the required courses and credit hours for the Minor in Soils and the Environment on page 120-121 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **Minor in Soils and the Environment**

Processes and their dynamics at the interface between the biosphere, atmosphere, hydrosphere and lithosphere are critical to the regulation of environmental quality from the micro-scale of millimetres to macro-scale climatic conditions. The minor in Soils and the Environment provides students with an opportunity to focus on the Earth's "Critical Zone", the thin outer layer which supports terrestrial life on the planet. The emphasis is on key biological, chemical, and physical processes active in soils, and how they influence environmental conditions.

Students are required to take ~~26~~ 34 credit hours. Of these, ~~8~~ 16 credit hours are prerequisites to FSTY 205 and ENSC 435, 15 credit hours are required soils courses, and 3 credit hours are selected from a list of suggested elective courses. In addition to the ~~8~~ 16 credit hours of prerequisite courses at the 100 level, an additional 6 credit hours can also be used to meet the requirements of a major or another minor.

### **Required Courses**

BIOL 101-4 Introductory Biology I

BIOL 102-4 Introductory Biology II

CHEM 100-3 General Chemistry I

CHEM 101-3 General Chemistry II

CHEM 120-1 General Chemistry Lab I

CHEM 121-1 General Chemistry Lab II

FSTY 205-3 Introductory Soil Science

ENSC 325-3 Soil Physical Processes and the Environment

FSTY 425-3 Soil Formation and Classification

ENSC 435-3 Soil Biological Processes and the Environment

ENSC 460-3 Soil Chemical Processes and the Environment

## **Elective Courses\***

Three credit hours from the following list:

ENSC 404-3 Waste Management  
ENSC 451-3 Groundwater Hydrology  
ENSC 452-3 Reclamation and Remediation of Disturbed Environments  
FSTY 415-3 Forest Soils

\* Students must ensure they have the appropriate prerequisites to take these courses.

### **S-201008.13**

#### **Changes to Information Placed on UNBC Academic Transcripts**

Hutchings / Chasteauneuf

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the information placed on UNBC academic transcripts be amended by including – in addition to the letter grade and Grade Point attached to a course outcome – the number of students in the class and, where the number of letter grades assigned is five or greater, the median grade in the class.

Effective date: September 2010

Mr. DeGrace presented background information in relation to this proposed revision to the information included on the UNBC transcript. He clarified that, although the effective date for this motion is September 2010, the change applies to all transcripts issued by the University after that date, for consistency in transcript presentation. The Registrar noted that the changes were being proposed in order to give the transcript reader a better understanding of the grade being assigned, and that other universities, such as UBC, were adopting this approach. In addition, Mr. DeGrace reported that the grade size of five was chosen as the cut-off point for issues of privacy and because it is the universal practice of other institutions to use that number. The median was chosen as the metric for displaying this data because the mean cannot be calculated with letter grades and because grade changes would have minimal effect on the median. Finally, Mr. DeGrace explained that this motion applied only to the inclusion of the median grade and class size on the transcript, as the redesign of the transcript layout was an administrative matter not requiring Senate approval.

The proposed motion was discussed at some length. Several concerns were expressed, including that this revision would disadvantage some students, that students should be consulted on this proposed change, that students may choose courses with lenient grading in response to this revision, that the class size limit of five may still present issues of privacy, that the median can sometimes be a misleading indicator, and that this motion will not address grade inflation. On the other hand, several Senators spoke in favour of the motion, noting that this revision would be helpful in terms of both admission and awards application for outstanding graduate students, that the College Councils had no objections to the proposed revision and thought that more information was better than less information, and that for every student who may be disadvantaged by this change there is one who is advantaged. One Senator noted that employers and admissions committees find this information incredibly valuable.

The Registrar agreed that the use of letter grades leads to a choppy presentation of information, but unless the grading system is changed, the median grade is the only indicator that can be used. He added that Deans' Council has asked him to look into moving to the use of percent grades which would address this concern.

It was also clarified that this motion would not, and was not intended to, address grade inflation, and that the changes being proposed did not amount to a change in grading practices, but were rather a change to the way grade information is displayed.

After a substantial amount of discussion, it was moved that the motion be tabled.

**Motion to Table Senate Motion S-201008.13:**

Carriere / Chen

That Senate motion S-201008.13 (Changes to Information Placed on UNBC Academic Transcripts) be tabled.

CARRIED.

**“For Information” Items:**

An Executive Summary of the proposed changes to the Anthropology Program curriculum was included for information.

**SCAPP201006.04**

**Changes to Course Description and Prerequisite — ANTH 298-(3-6)**

That the change(s) to the course description and prerequisite for ANTH 298-(3-6) Topics in Anthropology, on page 182 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**ANTH 298-(3-6) Topics in Anthropology**

This course ~~will cover~~ covers particular aspects of anthropology selected by the instructor. ~~May~~ It may be repeated for credit (maximum ~~six 6~~ 6 credit hours) with the permission of ~~the instructor and~~ the Program Chair (permission to be given only when the subject matter differs substantially).

~~Prerequisites: permission of the Program Chair~~

**SCAPP201006.05**

**Changes to Credit Hours, Course Title, Course Description and Prerequisite — ANTH 380-3**

That the changes to the credit hours, course title, course description and prerequisite for ANTH 380-3 Special Topics in Archaeology, on page 183 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**ANTH 380-3 (3-6) Special Topics in Archaeology**

This is an Occasional course offering to enable existing or visiting faculty to teach courses not normally offered in the program. Each course ~~will reflect~~ reflects the geographic and topical interests of the instructor; and ~~will~~ is only be offered at any given time depending on availability of an instructor. ~~May~~ This course may be repeated for credit (maximum 6 credit hours) with the permission of the program chair (permission to be given only when the subject matter differs substantially).

~~Prerequisites: p~~Permission of the instructor Program Chair

**SCAPP201006.06**

**Changes to Course Title and Course Description — ANTH 400-3**

That the changes to the course title and course description for ANTH 400-3 Topics in Anthropological Theory, on page 183 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **ANTH 400-3 ~~Topics in~~ Advanced Anthropological Theory**

~~The~~ This course will survey and critique surveys and critiques selected contemporary approaches to cultural and social theory.

Prerequisites: ANTH 210-3 or permission of the instructor

#### **SCAPP201006.07**

##### **Changes to Course Title and Course Description — ANTH 407-3**

That the changes to the course title and course description for ANTH 407-3 Topics in British Columbia Ethnography, on page 183 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **ANTH 407-3 ~~Topics in~~ British Columbia Ethnography**

A This course is a comparative critique of contemporary ethnographic research of selected cultures or regions.

Prerequisites: ~~u~~Upper-division standing

Recommended: ~~p~~Prior course(s) in sociocultural anthropology

#### **SCAPP201006.08**

##### **Changes to Course Title and Course Description — ANTH 409-3**

That the changes to the course title and course description for ANTH 409-3 Topics in British Columbia Ethnography, on page 183 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **ANTH 409-3 ~~Topics in~~ British Columbia Archaeology**

A This course is a problem-based seminar in which selected issues ~~will be~~ are examined from several points of view.

Prerequisites: ~~a~~Any prior archaeology course or permission of the instructor

#### **SCAPP201006.09**

##### **Changes to Credit Hours, Course Description and Prerequisite — ANTH 411-3**

That the changes to the credit hours, course description, and prerequisite for ANTH 411-3 Topics in Biological Anthropology, on page 183 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **ANTH 411-3 (3-6) Topics in Biological Anthropology**

A This course is a problem-oriented and project-based seminar in which one (or more) selected topics in biological anthropology ~~will be~~ are examined. This course may be repeated for credit (maximum 6 credit hours) with the permission of the Program Chair (permission to be given only when the subject matter differs substantially).

Prerequisites: ANTH 200-3 or permission of the instructor

#### **SCAPP201006.10**

##### **Changes to Course Title and Course Description — ANTH 413-3**

That the changes to the course title and course description for ANTH 413-3 Topics in Environmental Anthropology, on page 183 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **ANTH 413-3 ~~Topics in Environmental Anthropology~~**

~~An~~ This course is an examination of the anthropological literature on ecology and environmental practices in which contemporary ~~Contemporary~~ issues and examples relevant to indigenous practices and northern peoples ~~will be~~ are developed.

~~Prerequisites:~~ Upper-division standing

~~Recommended:~~ prior course(s) in anthropology

### **SCAPP201006.11**

#### **Changes to Course Prerequisite — ANTH 418-3**

That the change to the course prerequisite for ANTH 418-3 Archaeology and First Nations, on page 184 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **ANTH 418 - Archaeology and First Nations**

~~Introduces~~ This course introduces students to the value of ethnographic information (including oral history, place names documentation, traditional technology, subsistence, and traditional use activities), the interpretation of archaeological data, and construction of First Nations (pre)history. ANTH 418-3 is normally taken in conjunction with ANTH 416-6 and ANTH 417-(3-6).

<b>Level:</b>	Undergraduate
---------------	---------------

<b>Credit Hours:</b>	3.000
----------------------	-------

~~Prerequisites:~~ permission of ~~Program Chair~~ the instructor

**Co-requisites:** ANTH 416-6 and 417-(3-6)

### **SCAPP201006.12**

#### **Course Prerequisite Change — HHSC 351-3**

That the change to the course prerequisites for HHSC 351-3 Research Design and Methods for Health Sciences be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **HHSC 351-3 Research Design and Methods for Health Sciences**

This course examines qualitative and quantitative research methods and design in the health field and the ethical and legal issues associated with health care research.

~~Prerequisites:~~ ~~MATH 242-3~~ MATH 240-3 or ECON 205-3, Upper-level standing in the BHSc program, or permission of the instructor.

### **SCAPP201006.13**

#### **Change to Course Title and Calendar Course Description — SOCW 302-6**

That the changes to the course title and calendar description for SOCW 302-6 Social Work Field Education be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**SOCW 302-6 Social Work Field Education I** An initial three-day per week field placement, which includes a bi-weekly integrative seminar, is required of all students. Students are involved in a wide range of practice roles and responsibilities at the individual, family, group and community levels. The course provides an initial opportunity for students to link social work concepts and theory with practice skills. It also introduces students to the structure, goals and operation of different human service agencies. Field practice objectives and details are worked out among the student, the agency field supervisor and the faculty ~~practicum advisor~~ field instructor.

*Prerequisites:* SOCW 300-3, 301-3, 310-3 and 320-3; enrollment is limited to students admitted to the Social Work program

#### **SCAPP201006.14**

##### **Course Title Change — SOCW 402-15**

That the change to the course title of SOCW 402-15 Social Work Field Education be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**SOCW 402-15 Social Work Field Education 2 II** This field placement requires students to perform in a social work role or organizational setting five days per week throughout the ~~entire~~ term. Field education provides undergraduate students with an opportunity to enhance and refine their social work skills. As much as possible, the assigned field education setting will broadly match the particular type of social work experience that the student wishes to pursue. The course includes three one-day seminars as part of the field education placement.

*Prerequisites:* all 100, 200, and 300 level requirements, SOCW 401-3, enrollment limited to students admitted to the Social Work program

#### **SCAPP201006.17**

##### **Course Prerequisite Change — CPSC 100-4**

That the prerequisites for CPSC 100-4 Computer Programming be changed to include new high school mathematics courses as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**CPSC 100-4 Computer Programming:** This course introduces the fundamental concepts of programming from an object-oriented perspective. Topics include fundamentals of programming style, syntax, data types, arithmetic and logical expressions, assignments, control structures, arrays, functions, file i/o, classes, inheritance, and dynamic storage allocation. The course emphasizes the development of problem solving and programming skills, including

testing techniques and the use of debugging tools. Students must also register in a lab and in a tutorial section.

Prerequisites: Principles of Math 12 or Precalculus 12 or MATH 115-3

Precluded: Credit will not be awarded for both CPSC 110-3 and CPSC 100-4. Refer to major for required courses.

#### **SCAPP201006.18**

##### **Course Prerequisite Change — CPSC 110-3**

That the changes to the prerequisites for CPSC 110-3 Introduction to Computer Systems and Programming be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

CPSC 110-3 Introduction to Computer Systems and Programming This course provides an introduction to computer systems and programming, concepts in computer architecture including the central processing unit, buses, memory units, input/output and communication devices. The introduction to operating systems emphasizes the file system and program development utilities. Programming concepts and techniques include problem analysis, program design, coding, and testing, as well as language elements such as data types, variables and assignment statements, expressions, mixed-mode arithmetic, input/output operations, basic data structures and control structures, procedures and abstract data types. Basic database management concepts will are also be introduced. Students will develop small applications programs. CPSC 110-3 is a first course in computer science and computer programming. CPSC 110-3 cannot be counted as a computer science course by computer science majors.

Prerequisites: Principles of Math 12 or MATH 115-3 or Precalculus 12 or Math Foundations 12.

Precluded: Credit will not be awarded for both CPSC 110-3 & CPSC 100-4. Refer to major for required course.

#### **SCAPP201006.19**

##### **Course Prerequisite Change — CPSC 126-3**

That the prerequisites for CPSC 126-3 Introduction to Computing be changed to include new high school mathematics courses as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**CPSC 126-3 Introduction to Computing** This course is an introduction to computer science. ~~This course~~ It introduces and exposes the student to the many facets and fields of computer science. Topics discussed include: history of computing; algorithms, the hardware and software models of the computer, computer security, problem solving using computers and computer programming; basic and emerging concepts and applications of computer science; and the basics of computer networking, and the Internet.

*Prerequisites:* Math 12 or Principles of Math 12 or Math 115-3 or Precalculus 12 or Math Foundations 12.

#### **SCAPP201006.21**

##### **Course Preclusion Change — CPSC 222-3**

That the preclusion CPSC 322-3 be added to the course CPSC 222-3 Introduction to Concurrent and Distributed Programming.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**CPSC 222-3 Introduction to Concurrent and Distributed Programming** This course introduces the core concepts, techniques, and tools for concurrent and distributed programming. It covers concurrent programming in shared memory systems and distributed programming in message passing systems. After introducing the necessary concepts, various coordination problems are discussed and then solved using different synchronization mechanisms. Relevant programming environments are introduced, and the students will gain hands-on experience through programming assignments in both shared memory systems and message passing systems.

*Prerequisites:* CPSC 101-4

*Precluded:* CPSC 322-3

#### **SCAPP201008.05**

##### **Changes to Course Description — MATH 115-3**

That that changes to the course description for MATH 115-3 Precalculus be approved as proposed.  
Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH 115-3 Precalculus** This course examines algebraic manipulation, solutions of algebraic equations, functions, inverses, graphing, and analytic geometry. It is not normally open to students with credit in ~~Grade 12 Math~~, Principles of Math 12, Precalculus 12, MATH 100, MATH 105, MATH 150, MATH 152 or equivalents, except by permission of the chair.

*Prerequisites:* Principles of Math 11 or Pre-calculus 11

#### **SCAPP201008.06**

##### **Changes to Course Description and Preclusions — PHYS 205-3**

That the changes to the course description and preclusions for PHYS 205-3 Modern Physics I, on page 257 of the 2010/2011 undergraduate calendar, be approved as proposed.  
Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**PHYS 205-3 Modern Physics I** This is the first part of a two-semester course in modern physics, introduction to the theories of relativity and quantum mechanics providing an introduction to the theories of quantum mechanics and their applications. Topics include: Lorentz transformations, relativistic kinematics, relativistic dynamics, roots of the quantum theory, quantum theory of light, particle and wave nature of matter, Schrodinger equation in one and three dimensions, tunneling phenomena, atomic structure. Topics include foundations of quantum theory, the quantum theory of light, the particle and wave nature of matter, the Schrodinger equation in one and three dimensions, tunneling phenomena, atomic structure and spectroscopy, and molecules and molecular spectroscopy.

*Prerequisites:* PHYS 111-4

*Precluded:* ~~PHYS 203-3~~

### **SCAPP201008.07**

#### **Changes to Course Description and Preclusions — PHYS 206-4**

That the changes to the course description and preclusions for PHYS 206-4 Modern Physics II, on page 257 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**PHYS 206-4 Modern Physics II** This is the sSecond part of a two-semester course in modern physics, ~~applications of quantum physics and relativity. providing an introduction to the theories of quantum mechanics and relativity and their applications.~~ Topics include: ~~statistical physics, molecular structure, the solid state of matter, structure of crystals, semiconductors and superconductors, lasers, nuclear structure, radioactivity, nuclear reactions, applications of nuclear physics, elementary particles, elements of cosmology.~~ Lorentz transformations, relativistic kinematics, relativistic dynamics, statistical physics, the solid state of matter, structure of crystals, semiconductors and superconductors, nuclear structure, radioactivity, nuclear reactions, applications of nuclear physics, elementary particles, and elements of cosmology.

Prerequisites: PHYS 205-3

Precluded: ~~PHYS 204-4~~

## **8.2 Senate Committee on Research and Graduate Studies**

**Fondahl / MacPhail**

### **"For Approval" Items:**

It was proposed that Senate motions S-201008.14 and S-201008.15 be dealt with as an omnibus motion, and in the absence of opposition, Senate proceeded in this manner.

#### **S-201008.14**

##### **Change to Semester Dates — Application Deadline for Master of Business Administration**

McKenzie / Zahir

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change(s) to the Semester Dates (Application Deadline for Master of Business Administration) in the 2010-2011 Graduate Academic Calendar be approved as proposed.

Effective date: September 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Academic Year**

The academic year extends from September 1 to August 31. Most of the University course offerings are ~~available~~ delivered during the day, and courses are available in the evening during the September and January Semesters. ~~In each~~ Each 12-month academic year ~~beginnings~~ beginning in September and is composed of the following semesters:

- September Semester - September to December
- January Semester - January to April
- May Semester - May to August

## **2010-2011 Semester Dates**

## 2010 September Semester

### September

6	Monday	Labour Day, University closed
8	Wednesday	First day of classes, September Semester All September Semester fees due
15	Wednesday	Application deadline for Graduate Studies for January Semester 2011 for: <del>Business Administration (MBA—Canadian applicants)</del> , Development Economics (MA), First Nations Studies (MA), Gender Studies (MA), History (MA), International Studies (MA), Mathematical, Computer, and Physical Sciences (MSc), Natural Resources and Environmental Studies (MA, MSc, MNRES), Political Science (MA)
20	Monday	Last day to register or revise registration for the September Semester Last day to withdraw from program without financial penalty Last day to change September Semester courses from audit to credit and credit to audit

### October

11	Monday	Thanksgiving Day, University closed
19	Tuesday	*Last day to withdraw from September Semester courses without a academic penalty

### November

11	Thursday	Remembrance Day, University closed
15	Monday	Application deadline for non-degree status for January Semester 2011

### December

3	Friday	Last day of classes
6	Monday	First day of exam period
17	Friday	Last day of exam period
25 – 31	Sat. to Fri.	University closed
27	Monday	Maintenance Shutdown

## 2011 January Semester

### January

1-2	Sat. – Sun.	University closed
5	Wednesday	First day of classes, January Semester All January Semester fees due
14	Friday	Last day to register or revise registration for the January Semester Last day to withdraw from program without financial penalty Last day to change January Semester courses from audit to credit and credit to audit Application deadline for Graduate Studies September Semester 2011 for: English (MA), Psychology (MSc) and (PhD)

### February

1	Tuesday	<u>Application deadline for Master of Business Administration</u>
11	Friday	*Last day to withdraw from January Semester courses without academic penalty
14	Monday	Beginning of Mid-Semester Break (no classes February 14-18)
15	Tuesday	Application deadline for UNBC administered Graduate Awards Application deadline for Graduate Studies for May Semester 2011 for: Interdisciplinary Studies (MA and MSc) Application deadline for Graduate Studies September Semester 2011 for: Community Health Science (MSc), Development Economics (MA), Disability Management (MA), Education (MEd),

First Nations Studies (MA), Gender Studies (MA), History (MA), Interdisciplinary Studies (MA), International Studies (MA), Mathematical, Computer, and Physical Sciences (MSc), Natural Resources and Environmental Studies (MA, MSc, MNRES) and (PhD), Nursing (MScN, MScN:FNP), Political Science (MA), Social Work

### March

1 Tuesday Deadline for application to graduate in 2011

### April

6 Wednesday Last day of classes  
 9 Saturday First day of exam period  
 15 Friday Application deadline for non-degree status for the May Semester 2011  
~~Application deadline for Master of Business Administration (International applicants) for the September Semester 2011~~  
 21 Thursday Last day of exam period  
 22 Friday Good Friday, University closed  
 25 Monday Easter Monday, University closed  
 29 Friday Deadline to complete all requirements for Master's and PhD programs for graduation

### 2011 May Semester

#### May

2 Monday First day of classes, May Semester and Spring Intersession All May Semester fees due, including Spring/Summer Intersessions  
 6 Friday Last day to register or revise registration for the Spring Intersession courses without financial penalty  
~~13 Friday Application deadline for Master of Business Administration (Canadian applicants) for the September Semester 2011~~  
 16 Monday Last day to register or revise registration for the May Semester Last day to withdraw from program without financial penalty Last day to change May Semester courses from audit to credit and credit to audit  
 20 Friday Last day to withdraw from Spring Intersession without academic penalty  
 23 Monday Victoria Day, University closed  
 27 Friday Convocation

#### June

10 Friday Last day of classes, Spring Intersession  
 \*Last day to withdraw from May Semester courses without academic penalty  
 13 Monday First day of exam period, Spring Intersession  
 17 Friday Last day of exam period, Spring Intersession  
 20 Monday Summer break begins for May Semester (no classes June 20-30)

#### July

1 Friday Canada Day, University closed  
 2 Saturday University closed (maintenance shutdown)  
 4 Monday Classes resume for May Semester First day of classes, Summer Intersession  
 8 Friday Last day to register or revise registration for Summer Intersession courses without financial penalty  
~~15 Friday Application deadline for Master of Business Administration (International applicants) for the January Semester~~

22 Friday Last day to withdraw from Summer Intersession courses without academic penalty

## August

1 Monday BC Day, University closed  
12 Friday Last day of classes, Summer Intersession and May Semester  
15 Monday Application deadline for non-degree status for the September Semester  
First day of exam period, Summer Intersession and May Semester  
29 Friday Last day of exam period, Summer Intersession and May Semester

For condensed courses, the last day to revise registration is indicated in the course-specific documentation.

\*Graduate Students must have permission of their supervisor to alter their registration and must maintain continuous enrolment in order to maintain their position in Graduate Studies.

### **S-201008.15**

#### **Change to General Admission Section — Deadline for Applications to the Master of Business Administration Degree Program**

McKenzie / Zahir

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change(s) to the General Admission section (deadline for applications to the Master of Business Administration degree program) in the graduate calendar be approved as proposed.

Effective date: September 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **1.0 General Admission**

Application material is available from the Office of the Registrar or from the website, at [www.unbc.ca/graduateprograms/](http://www.unbc.ca/graduateprograms/). The requirements for admissibility include, but are not limited to, an acceptable academic standing (see 1.3.2), acceptable letters of reference, the availability of a supervisor within the program concerned, and the availability of adequate space and facilities.

All documents submitted to the Office of the Registrar must be in the original language in which they were produced. Documents not produced in the English language must be accompanied by a notarized translation into English. Documents submitted in support of an application become the property of the University of Northern British Columbia and will not subsequently be released.

Application deadlines are February 15 for September Semester and May Semester admission, and September 15 for January Semester admission. Individual graduate programs may set other deadlines.

The deadline for application to the English Program is January 15 for September Semester admission.

The deadline for application to the Psychology Program is January 15 for September Semester admission.

The deadlines for application to the Interdisciplinary Studies (MA and MSc) Program are February 15 for September Semester admission, and September 15 for January Semester admission.

The deadline for application to the Disability Management Program is March 15 for September Semester admission.

The deadlines for ~~Canadian~~ applications to the Master of Business Administration degree program ~~are May 15~~ is February 1 for September Semester admission, ~~and September 15 for January Semester admission.~~ The deadlines for international applications to the Master of Business Administration degree program are April 15 for September Semester admission and ~~July 15 for January Semester admission.~~

Applications for admission should be submitted as early as possible to the Office of the Registrar. Applications received after the deadlines may not be processed in time to permit admission.

Intake to Graduate Programs is in the September Semester. However, some programs have intake in the January Semester as well.

Admission to a Graduate Program is valid only for the semester indicated in the letter of offer of admission.

The University of Northern British Columbia specifically reserves the right to exercise its sole, absolute, and unfettered discretion in admitting individuals to the University, its programs, or courses.

Applicants who have been offered admission to a graduate program must indicate, in writing, their intention to accept or decline the offer of admission within ~~thirty~~ 30 days. Failure to notify the University may result in cancellation of the offer of admission.

In order to be considered for admission to Graduate Programs, all applicants must provide the following to the Office of the Registrar by the deadlines noted above:

1. Application form for admission to Graduate Programs.
2. Application fee.
3. Three assessment reports (letters of reference) sent directly to UNBC from the referees.
4. Official transcripts (one copy) from all post-secondary institutions attended.
5. Statement of Academic Interests (letter of intent).

The following programs require the submission of additional application material in order to complete the application: Business Administration; Community Health Science; Disability Management; Education (Counselling); English; History; Interdisciplinary Studies; International Studies; Mathematical, Computer, and Physical Sciences; Natural Resources and Environmental Studies; Nursing and Family Nurse Practitioner; Psychology; and Social Work. See individual program listings for further information.

**S-201008.16**

**Change to Graduate Programs Admissions and Regulations, Regulation 4.5.1 (Final Oral Examinations and Examining Committees — General Regulations)**

Hoffman / Donker

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change(s) to Graduate Programs Admissions and Regulations, Regulation 4.5.1 (Final Oral Examinations and Examining Committees — General Regulations), on page 44 of the 2010-11 graduate academic calendar, be approved as proposed.

Effective date: September 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**4.5 Final Oral Examinations and Examining Committees**

**4.5.1 General Regulations**

- a. Master's degrees require a final oral examination. Master's Ddegrees by with project, etc., comprehensive examination, or practicum completion routes may shall be examined and certified in a manner agreed upon by the Program and the Dean of Graduate Programs.
- b. Students may proceed to an oral examination when the supervisory committee is satisfied that the thesis, project or other scholarly work represents an examinable document for the degree requirements. The supervisory committee confirms this by signing the *Request for Oral Examination and Appointment of an External Examiner* form. This form must be submitted to the Dean of Graduate Programs at least six weeks before the anticipated date of oral examination. Two copies of the document ~~will be~~ are required by the Office of Research and Graduate Programs upon submission of the *Request for Oral Examination and Appointment of an External Examiner* form. One copy of the document ~~will be~~ is forwarded to the External Examiner by the Office of Research and Graduate Programs.
- c. Before proceeding to the oral examination, all courses taken for credit in Graduate Programs must be completed with a cumulative grade point average of not less than 3.00 ("B") and with no grade in any course less than "B-" (or the higher standard set by the individual program). Any language requirement must be met before the student proceeds to the oral examination.
- d. The Dean of Graduate Programs (or designate) will act as Chair at the final oral examination. Any tenured member of the faculty at the Associate Professor level or higher with extensive experience in Graduate Programs is eligible to serve as the Dean's nominee.
- e. The MBA Program schedules its project defences in the final semester concurrent with course work.

**S-201008.17**

**Changes to Admission Deadline Dates — School of Education**

Donker / Annis

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the revisions to the graduate calendar regulations regarding admission, to include changes to School of Education semesters of admission, be approved as proposed.

Effective date: Retroactive to January 2010

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## 1.0 General Admission

.....

Application deadlines are **February 15** for September Semester and May Semester admission, and **September 15** for January Semester admission. Individual graduate programs may set other deadlines.

### ADDITION

The deadline for application to the School of Education MEd Counselling Specialization is February 15 for September Semester admission.

The deadline for application to the School of Education MEd Multidisciplinary Leadership Specialization is February 15 for May and September admissions.

Applications are accepted for one semester only. Applicants must indicate whether they are applying to the May or September Semester.

The deadline for application to the English Program is January 15 for September Semester admission.

### **S-201008.18**

#### **Changes to Calendar Description — English MA**

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change(s) to the Calendar Description for the English MA Degree requirements on page 70-1 of the 2009/2010 graduate calendar be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### English (MA Program)

Stan Beeler, Associate Professor, ~~and Program Chair~~

Dee Horne, Professor

Karin Beeler, ~~Associate Professor;~~ Chair

Robert Budde, Associate Professor

Lisa Dickson, Associate Professor

Kristen Guest, Associate Professor

Kevin Hutchings, Associate Professor; ~~and Canada Research Chair, Romantic Studies-  
Environment, Culture and Representation~~ in Literature, Culture, and Environmental  
Studies

Maryna Romanets, Associate Professor

Blanca Schorcht, Associate Professor, and Regional Chair, South-Central Region

~~Linda MacKinley Hay, Assistant Professor~~

**Website:** <http://www.unbc.ca/english>

Literary representations both reflect and help to create our views of the world, including our social theories and practices; thus, the study of literature can provide

students with insights concerning past and present concepts of personal and social identity, cultural traditions and beliefs, and interpersonal and cross-cultural relationships. Since the time of Aristotle, moreover, literary commentators have analyzed “setting” as an important formal aspect of literary writing; literary study can therefore help us to investigate, and perhaps to reconsider, our relationships ~~to~~ with both our human and non-human environments. In today’s world, where efforts to resolve intercultural conflicts and environmental problems have taken on a profound sense of urgency, literary study provides a crucial forum for intellectual and ethical debate leading to the revision of cultural practice.

The study of English literature provides students with critical skills of analysis and synthesis, helping them to identify and understand complex problems, and encouraging them to conceptualize viable resolutions and alternative understandings. Perhaps more than any other academic discipline, English literature also emphasizes the importance of literacy, including the development of effective writing and oral presentation skills, thereby providing students with the communications skills so highly valued in the professional world.

The Master of Arts degree in English is a two-year program, available on a full-time or part-time basis, involving course work and the mandatory completion of a graduate thesis. Upon admission into the English MA program, each student will be assigned a supervisor, who will work closely with the student to monitor his or her program of study and progress. In consultation with supervisors and supervisory committee members, each student will choose courses designed to complement and inform the proposed thesis research, completing most of the course work during the first year of the program. The second year will be devoted primarily to the production of the thesis.

### Admission

~~Applicants to the UNBC English MA program must follow the admission requirements outlined in Section 1.0 of the Graduate Academic Calendar. In addition to these requirements, applicants must also provide a sample of written work (usually a senior-level undergraduate research paper) as part of their application. Entrance to the MA will be competitive; only applicants with a record of excellence in undergraduate work, strong letters of academic recommendation, and strong letters of intent will be considered. In their research proposals, applicants should also demonstrate evidence of interest in the MA’s areas of research specialization (Literature, Culture and Place); and they should provide the name of an English faculty member who is willing to supervise their thesis work.~~

Applicants to the UNBC English MA program must follow the admission requirements outlined in Section 1.0 of the Graduate Academic Calendar. Entrance to the MA is competitive; only applicants with a record of excellence will be admitted. Therefore, applicants must provide the following information with their applications:

- a senior-level undergraduate research paper as a writing sample;
- undergraduate transcripts;
- strong letters of academic recommendation;

- strong letter of intent;
- evidence of interest in the MA's areas of research specialization (Literature, Culture, Place);
- the name of the faculty member who is willing to supervise their thesis work (if possible).

**Application deadlines are found in this calendar under "Semester Dates" or online at: [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under "Semester Dates."** The English MA Program accepts students for the September Semester.

For additional information about graduate admissions or to download application materials, go to the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

## Requirements

The course of study ~~shall be~~ is composed of a minimum total of 27 credit hours of work. First, students ~~will be~~ are required to complete ~~5~~ five courses totaling 15 credit hours, including [ENGL 690-3](#), Bibliography, the mandatory course in research methodologies; [ENGL 700-3](#), the mandatory course in Literature, Culture and Place; and ~~3~~ three elective courses. In the required courses, students have the opportunity to engage in close intellectual dialogue and debate with fellow graduate students and professors, thereby cultivating the productive collegial relationships crucial to the development of a dynamic graduate student culture. With the exception of [ENGL 699-3](#) (Advanced Independent Study in Literature, which faculty members supervise on an individual basis), all courses are offered as seminar courses. The three elective courses conform to pedagogical models followed by all 600-level courses listed in the UNBC Graduate Calendar. Second, students ~~will be~~ are required to produce both a detailed thesis proposal and bibliography at the beginning of their second year of study, and to defend, in a formal oral examination, a 12-credit thesis of approximately 100 pages in length.

### *Creative Writing Thesis Option*

Although UNBC does not offer degrees in Creative Writing, the English Program ~~will~~ offers ~~a limited number of~~ MA candidates the opportunity to complete a 12-credit creative thesis in lieu of an academic thesis. Successful applicants who wish to pursue this option ~~will be~~ are admitted on the same basis and ~~will~~ must fulfill the same course and thesis requirements as other English MA candidates. Permission to undertake a creative thesis ~~will be~~ is at the discretion of the program, ~~and will require that students submit proposals along with a substantial portfolio of previous creative work; e.g., published writing, 8-10 pages of original poetry, 20-25 pages of prose (i.e., a short story or novel excerpt), a dramatic script or screenplay, or a combination of these genres. An applicant interested in the creative thesis option must include, in addition to their application for admission to the MA, a proposal for a creative thesis and an 8-10-page sample of previous creative work consisting of one or more of the following: original poetry or prose such as a short story or novel excerpt; a dramatic script or screenplay; or a combination of these genres. Both published and unpublished work are considered for the purpose of the application.~~ The proposal should outline the form, scope, and subject matter of the Creative Writing thesis. In addition, students must demonstrate

some critical and theoretical awareness of the approach they plan to take for the creative thesis; and, for applicants admitted to the program, the finished thesis will must include an introduction of no fewer than 15 pages delineating this critical and theoretical awareness. Because of the high standards expected for the creative project and the Program's limited faculty resources in the area of creative writing, a limited number of students will be permitted to undertake this alternative. ~~Students should therefore note that~~ Therefore, admission to the MA program in English does not guarantee permission to write a creative thesis.

### Required Courses

[ENGL 690-3](#)

Bibliography

[ENGL 700-3](#)

Studies in Literature, Culture and Place

### Required Thesis

[ENGL 799-12](#)

MA Thesis

### Elective Courses

The supervisory committee ensures the appropriate selection of elective courses. All English graduate courses approved by Senate should be considered as potential electives.

#### **S-201008.19**

##### **New Course Approval — ENGL 660-3**

Beeler / Donker

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course ENGL 660-3 Advanced Studies in Children's Literature be approved as proposed.

Effective date: January 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course offers advanced study in children's literature and culture.

An Executive Summary of the proposed changes to the Biochemistry and Molecular Biology Program was included for information.

Senate motions S-201008.20 to S-201008.31 were dealt with as an omnibus motion.

#### **S-201008.20**

##### **New Course Approval — BCMB 601-3**

Donker / Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course BCMB 601-3 Basic Science of Oncology be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This is a lecture-based course designed to provide insight into our basic understanding of the biological chemistry of cancer. Major topics include chemical carcinogenesis, genomic instability, oncogenes and tumor suppressor genes, cell growth, apoptosis, tumor progression and metastasis, tumor angiogenesis, hormones, viruses, and drug resistance. This course also provides an in-depth look at the advanced technology used in controlling the disease, including immunotherapy and therapeutic approaches in controlling gene expression.

**Prerequisites:** Permission of Instructor

**Preclusions:** BCMB 401-3 Basic Science of Oncology, CHEM 405-3 Basic Science of Oncology, CHEM 605-3 Basic Science of Oncology

#### **S-201008.21**

##### **New Course Approval — BCMB 602-3**

Donker / Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course BCMB 602-3 Macromolecular Structure be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This is a lecture-based course designed to provide students an understanding of the theory behind structural techniques used in biochemical laboratories. Topics include X-ray crystallography, nuclear magnetic resonance spectroscopy and electron microscopy; students are expected to develop an understanding of the theory and application of the techniques and technical considerations. Students also learn how to judge the quality of data.

**Prerequisites:** Permission of Instructor

**Preclusions:** BCMB 402-3 Macromolecular Structure, CHEM 405-3 Macromolecular Structure, CHEM 605-3 Macromolecular Structure

#### **S-201008.22**

##### **New Course Approval — BCMB 603-3**

Donker / Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course BCMB 603-3 Advanced Nucleic Acids be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This is a lecture-based course designed to provide in-depth knowledge on advanced topics in nucleic acid biochemistry. Topics include mechanistic analysis of nucleic acid metabolism, the RNA world hypothesis and theories of the origin of life, epigenetics, specificity and role of polymerases and repair pathways, replication and recombination mechanisms, RNA structural motifs and physical processing in gene expression,

structure and function of non-coding RNA, silencing and micro RNA, catalytic RNA molecules, and applications of RNA molecules.

**Prerequisites:** Permission of Instructor

**Preclusions:** BCMB 402-3 Advanced Nucleic Acids, CHEM 405-3 Advanced Nucleic Acids, CHEM 605-3 Advanced Nucleic Acids

**S-201008.23**

**New Course Approval — BCMB 605-3**

Donker / Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course BCMB 605-3 Topics in Biochemistry and Molecular Biology be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course considers advanced topics in biochemistry. Topics depend on instructor and student interest and normally focus on material not dealt with in other courses.

Note: Credit may be granted for both 400- and 600-level offerings of Topics in Biochemistry and Molecular Biology courses, and either the 400 or 600 level or a combination of both may be repeated to a maximum of 6 credit hours, provided the content of the independent offerings of the courses is sufficiently different (as determined by the Program Chair or College Dean).

**Prerequisites:** Permission of Instructor

**S-201008.24**

**New Course Approval — BCMB 609-3**

Donker / Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course BCMB 609-3 Enzymology be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This lecture-based course emphasizes the importance and role of enzymes in biochemistry and molecular biology. Topics include kinetic analysis, mechanisms of enzyme action, regulation of enzyme activity, and clinical aspects of enzymology.

**Prerequisites:** Permission of Instructor

**Preclusions:** BCMB 409-3 Enzymology, CHEM 409-3 Enzymology

**S-201008.25**

**New Course Approval — BCMB 701-3**

Donker / Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course BCMB 701-3 Cell Biology Theory and Techniques be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course focuses on the most advanced topics in cell biology. Students are given the opportunity to learn both the theory and practical aspects of various techniques used in cell biology, including fluorescence microscopy. Students develop relevant expertise in cell biology methods as part of the course requirement.

**Prerequisites:** Permission of instructor

**S-201008.26**

**New Course Approval — BCMB 702-3**

Donker / Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course BCMB 702-3 Chemical Biology Theory and Techniques be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course focuses on a new discipline, spanning the fields of chemistry and biology, that forms the basis of current pharmaceutical research. Chemical biology uses the techniques and tools of chemistry to study and manipulate biological systems, often using small molecules produced synthetically or derived from natural sources. Both *in vitro* and *in vivo* systems that are probed with small molecules are covered in this course. Emphasis is placed on the theoretical and experimental strategies used to design or discover molecules with useful properties, including biochemical and cell-based screens.

**Prerequisites:** Permission of instructor

**S-201008.27**

**New Course Approval — BCMB 703-3**

Donker / Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course BCMB 703-3 Molecular Biology Theory and Techniques be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course focuses on the most advanced topics in molecular biology. Emphasis is placed on the development of expertise in the relevant molecular biology techniques used to study DNA, RNA, and proteins.

**Prerequisites:** Permission of instructor

**S-201008.28**

**New Course Approval — BCMB 704-1.5**

Donker / Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course BCMB 704-1.5 Graduate Seminar be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Students investigate and present ideas and results pertaining to current research in Biochemistry and Molecular Biology. The offerings may include presentations of current

literature, research methodology, and topics related to students' own research or project work.  
This is a PASS/FAIL course.

**Prerequisites:** Permission of instructor

**S-201008.29**

**New Course Approval — BCMB 705-3**

Donker / Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course BCMB 705-3 Advanced Topics in Biochemistry and Molecular Biology be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course focuses on selected advanced topics in biochemistry and molecular biology.

**Prerequisites:** Permission of instructor

**S-201008.30**

**New Course Approval — BCMB 706-3**

Donker / Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course BCMB 706-3 Bioinformatics Tools be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course focuses on the use of bioinformatics tools in biochemistry and molecular biology research. Students are given the opportunity to learn the most widely used as well as more advanced bioinformatics tools to study bio-molecules.

**Prerequisites:** Permission of instructor

**S-201008.31**

**New Course Approval — BCMB 790-3**

Donker / Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course BCMB 790-3 Special Topics be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course focuses on selected special topics in advanced biochemistry, molecular biology and/or cell biology.

**Prerequisites:** Permission of instructor

It was proposed that motions S-201008.32 to S-201008.35 be dealt with as an omnibus motion, which was moved and seconded. Prior to proceeding with this motion, a Senator asked to return to the previous omnibus motion with regard to the new BCMB courses. The Senator was provided that opportunity by the Chair as a courtesy, and asked whether the comment on the motion forms regarding the courses being taught as an overload had been passed through the Faculty Association. Dr. Mandy, Chair of the MCPS Graduate Committee, responded that this whole degree program had been mounted without additional resources and that the Faculty Association was well aware of it. Senators proceeded to vote on the omnibus motion before them.

**S-201008.32**

**New Course Approval — CPSC 600-3**

Donker / Hoffman

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course CPSC 600-3 Software Engineering Project be approved as proposed.

Effective date: January 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course provides students, working in groups, with an opportunity to apply the principles of software engineering, learned in previous courses, in a controlled and yet realistic project environment. They gain a significant integral project experience involving various project phases, such as requirements elicitation, system design, and prototyping, as well as team organization, human factors, professionalism, and project management.

**Prerequisites:** Permission of the instructor

**Preclusions:** CPSC 400-3, CPSC 301-3

**S-201008.33**

**New Course Approval — CPSC 625-3**

Donker / Hoffman

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course CPSC 625-3 Introduction to Compiler Design be approved as proposed.

Effective date: January 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course is an introduction to programming language translation, compilers, interpreters, and other language processors. Topics include the phases of a compiler, lexical analysis and scanner design, syntax analysis and parsing techniques, semantic analysis, code generation, compiler generation tools, compile time and run time aspects of semantics, execution environment and run time support, code optimization, and testing. Students design and implement a compiler for a small language.

**Prerequisites:** Permission of the instructor

**Preclusions:** CPSC 425-3, CPSC 325-3

**S-201008.34**

**New Course Approval — CPSC 699-3**

Donker / Hoffman

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course CPSC 699-3 Special Topics be approved as proposed.

Effective date: January 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The topics for this course vary, depending on student interest and faculty availability. The course may be repeated any number of times, provided all topics are distinct from one another.

**Prerequisites:** Permission of the instructor

**Preclusions:** CPSC 499-3 on the same topic

### **S-201008.35**

#### **Course Deletion — CPSC 691-3**

Donker / Hoffman

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the course CPSC 691-3 Computing Project II be deleted from the calendar.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~This course consists of a large computing project undertaken by the students or by teams of students. Projects will be geared to industrial or research needs and designed to give the senior students first hand experience in applying their knowledge and skills to the design and implementation of medium to large software systems. Students will employ standard software engineering practices. Regular project team meetings will be held to review project milestones.~~

### **S-201008.36**

#### **Calendar Description Change — Graduate Program in Mathematical, Computer, and Physical Sciences**

Donker / Reid

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the calendar description for the Graduate Program in Mathematical, Computer, and Physical Sciences, beginning on page 78 of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Mathematical, Computer, ~~and Physical~~, and Molecular Sciences (MSc Program)**

Chair of the Mathematical, Computer, ~~and Physical~~, and Molecular Sciences Graduate Committee: Dr. Margot Mandy

### **Biochemistry**

Chow H. Lee, Associate Professor, and National Cancer Institute of Canada Research Scientist

Geoffrey Payne, Associate Professor

Stephen Rader, Associate Professor

Kerry Reimer, Associate Professor

Andrea Gorrell, Assistant Professor

Sarah Gray, Assistant Professor

Martha Stark, Adjunct Professor

### **Chemistry**

Joselito M. Arocena, Professor, and Canada Research Chair, Soil and Environmental Sciences

Ron Thring, Professor

Erik Jensen, Associate Professor

Chow H. Lee, Associate Professor, and National Cancer Institute of Canada Research Scientist

Jianbing Li, Associate Professor

Margot Mandy, Associate Professor

Guy Plourde, Associate Professor

Stephen Rader, Associate Professor

Kerry Reimer, Associate Professor

Todd Whitcombe, Associate Professor

Andrea Gorrell, Assistant Professor

Martha Stark, Adjunct Professor

## Computer Science

Liang Chen, Professor  
Waqar Haque, Professor  
Lee Keener, Professor  
Alex Aravind, Associate Professor  
Charles Brown, Associate Professor  
Jernej Polajnar, Associate Professor  
Roger Wheate, Associate Professor (Geography)  
Saif Zahir, Associate Professor  
David Casperson, Assistant Professor  
Desanka Polajnar, Adjunct Professor

## Mathematics

Lee Keener, Professor  
Iliya Bluskov, Professor  
Jennifer Hyndman, Professor  
Pranesh Kumar, Professor  
Samuel Walters, Professor  
Kevin Keen, Associate Professor  
David Casperson, Assistant Professor  
Patrick Montgomery, Adjunct Professor

## Physics

Elie Korkmaz, Professor  
Mark Shegelski, Professor  
Ian Hartley, Associate Professor  
Erik Jensen, Associate Professor  
Margot Mandy, Associate Professor  
Matthew Reid, Assistant Professor  
Patrick Montgomery, Adjunct Professor

Website: ~~[www.unbc.ca/mcps](http://www.unbc.ca/mcps)~~ [www.unbc.ca/mcpm](http://www.unbc.ca/mcpm)

Mathematical, Computer, ~~and Physical,~~ and Molecular Sciences (MCPMS) is one stream of the Master of Science degree in the College of Science and Management. Thesis and project options are available. The thesis option has, as a substantial component, the completion of an original research program, culminating in the preparation of a thesis, and prepares graduates for careers in research or for further academic study. The project option provides training across disciplines particularly suitable to individuals with more defined career objectives, as well as provides a mechanism for non-traditional students (e.g., working students, teachers, and professionals) to upgrade their skills. Students studying within the MCPMS stream will, upon successful completion of the degree requirements outlined herein, obtain a MSc with one or any combination of the following study areas noted ~~parenthetically~~ on their transcript: Mathematics, Biochemistry, Computer Science, Chemistry, and Physics ~~or any combination thereof~~.

All students must participate in a Graduate Seminar course (one of MCPSM 704-1.5, BCMB 704-1.5, NRES 704-1.5, CPSC 704-1.5, MATH 704-1.5, or CHEM 714-1.5) for at least two semesters during their course of studies. ~~Normally, students in the study area of Computer Science or a combination of study areas including Computer Science are expected to take CPSC 706-3.~~ Normally, students in the study area of Physics or a combination of study areas including Physics are expected to take PHYS 710-3.

## Thesis Option

The Master of Science thesis option is designed for candidates who wish to develop career interests related to scientific research or who intend to pursue further academic research degrees. The degree is expected to attract students from traditional science disciplines such as physics, chemistry, mathematics, and computer science. MSc students within the MCPMS stream are required to complete 3 credit hours of Graduate Seminar, a minimum of 12 credit hours of approved electives, and a 12 credit hour thesis (MCPSM 790-12). It is expected that the electives will consist of scientifically-oriented courses and that the thesis will involve an independent investigation resulting in a scientific contribution.

The 12 elective credit hours must be graduate-level study (i.e., at or above the 600 level) selected from the science courses available at UNBC. A maximum of 6 credit hours from independent studies can be counted towards the elective requirement. Specific details of course work are determined by the research area undertaken by the student. The supervisory committee ensures the appropriate selection of elective courses, and may require a student to

complete more than 12 elective credit hours if, for example, weaknesses in the student's background exist (including undergraduate prerequisites for graduate courses) or if additional courses are required for professional accreditation.

Related to the MSc thesis (MCPSM 790-12), students are required to (a) make an oral presentation of the thesis proposal to the supervisory committee; (b) write an original thesis based on the research completed (in accordance with established UNBC guidelines); (c) give a public lecture on the completed thesis; and (d) present an oral defense of the thesis to the examining committee. All course requirements must have been satisfied prior to the oral defense.

### **Summary of Thesis Option**

Graduate Seminar 3 credit hours

Elective Courses 12 credit hours

MSc Thesis 12 credit hours

Total Required 27 credit hours

### **Project Option**

The Master of Science project option is designed for candidates who wish to upgrade their skills, or who are constrained in their ability to undertake a traditional research thesis. MSc students within the MCPMS stream are required to complete 3 credit hours of Graduate Seminar, a minimum of 18 credit hours of approved electives, and a 6 credit-hour project. Given the course-intensive nature of this option, MSc projects are limited, subject to sufficient teaching resources and a critical mass of faculty within an area of defined specialization. It is expected that the electives will consist of ~~scientifically-oriented~~ scientifically oriented courses, and that the project will involve an independent investigation resulting in a scientific contribution, although this contribution need not include original research. Because of the high weighting of course offerings for this option, it is restricted to designated specializations that have been decided upon within each program area. Designation of a specialization implies that sufficient resources are available to ensure that required courses within the specialization can be offered to ensure completion of the requirements for the degree.

The 18 elective credit hours must be graduate level study (i.e., at or above the 600 level) selected from the science courses available within the designated specialization. A maximum of 6 credit hours from independent studies can be counted towards the elective requirement. ~~Normally, students in the study area of Computer Science or a combination of study areas including Computer Science are expected to take CPSC 706-3. Normally, students in the study area of Physics or a combination of study areas including Physics are expected to take PHYS 710-3.~~ Specific details of course work are determined by the nature of the project undertaken by each student. The supervisory committee ensures the appropriate selection of elective courses, and may require a student to complete more than 18 credit hours if weaknesses in the student's background exist (including undergraduate prerequisites for graduate courses) or if additional courses are required for professional accreditation.

In order to successfully to complete a MSc project, a student is required to (a) make a presentation of the project proposal to the supervisory committee; (b) write a project report; (c) give a public lecture on the completed project; and (d) pass an evaluation of the project and report with the examining committee. All core and elective course requirements must have been satisfied prior to the oral presentation of the project.

### **Summary of Project Option**

Graduate Seminar 3 credit hours

Elective Courses 18 credit hours

MSc Project 6 credit hours

Total Required 27 credit hours

### **Recommended Progression**

The normal time for completion of the MSc is two academic years. While this is the recommended time line, it may be adjusted at the discretion of the supervisory committee to suit a particular student's research and program needs.

The Graduate Seminar courses (one or more of MCPSM 704-1.5, NRES 704-1.5, BCMB 704-1.5, CPSC 704-1.5, MATH 704-1.5, CHEM 714-1.5) are offered during all September and January Semesters. Students are expected to enroll in a seminar course at least two times during their degree program.

Electives may be taken at any time during Years I and II. The sequencing of electives is determined by the student in discussion with the supervisory committee. Over the September and January Semesters of Year I, the student, under the direction of the supervisory committee, develops a thesis or project proposal. By the end of the second semester, the student should have successfully defended their proposal to the supervisory committee. This allows the student to undertake the collection of data during the Summer of Year I. It is expected that the student will have successfully defended the thesis or completed the evaluation phase of the project by the end of Year II.

# Admission, Regulations and Committee Structures

## Admission Requirements

In addition to the admission application requirements outlined in Section 1.0 of the Graduate Academic Calendar, acceptance to the MSc program ~~will be~~ is contingent upon the prospective student finding a member of the faculty to serve as her/his supervisor. Applicants must also provide a completed Teaching Assistantship Application and a completed Funding Worksheet. Both forms are included with the application material for this program. Normally, at least two of the three letters of recommendation, exclusive of any letter provided by an intended supervisor, must be from individuals who are able to comment on the applicant's academic and research potential. Application deadlines are found in this calendar under "Semester Dates" or online at: [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under "Semester Dates." The Mathematical, Computer, ~~and~~ Physical, and Molecular Sciences MSc Program accepts students for the September and January Semesters. For additional information about graduate admissions or to download application materials, go to the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

## Transfer Students

On the recommendation of the program concerned, the ~~Associate~~ Dean of Graduate Programs may accept courses taken at other institutions for credit toward a UNBC graduate program. At the time of application, it is recommended that applicants clearly state in a letter the intent to transfer courses and identify the courses to be considered for possible transfer.

## Normal Time Required for Completion

Normally, the degree should be completed in two years or less. Students may take longer to complete the degree depending on their personal circumstances and the nature of their research or Project involvement.

## Committee Structure

Students will be advised by a supervisory committee consisting of at least three members, including the academic supervisor who will normally serve as the chair of the committee. At least one of the committee members must be from outside of the student's program. The committee will be struck during the student's first term of study.

### "For Information" Items:

An Executive Summary of the proposed changes to the Anthropology Program curriculum was included for information.

#### **SCRG201006.05**

##### **Changes to Title and Course Description — ANTH 600-3**

That the changes to the title and course description for ANTH 600-3 Topics in Anthropological Theory on page 96 of the 2010/2011 graduate calendar be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

##### **ANTH 600-3 Topics in Advanced Anthropological Theory**

This course ~~will survey and critique~~ surveys and critiques elected contemporary approaches to cultural and social theory.

*Prerequisites:* pPermission of the instructor

*Precluded:* ANTH 400-3

#### **SCRG201006.06**

##### **Changes to Course Title and Course Description — ANTH 607-3**

That the changes to the course title and course description for ANTH 607-3 Topics in British Columbia Ethnography on page 96 of the 2010/2011 graduate calendar be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**ANTH 607-3 ~~Topics in~~ British Columbia Ethnography**

A This course is a comparative critique of contemporary ethnographic research of selected cultures or regions.

*Prerequisites:* pPermission of the instructor

*Precluded:* ANTH 407-3

**SCRGS201006.07**

**Changes to Course Title and Course Description — ANTH 609-3**

That the changes to the course title and course description for ANTH 609-3 Topics in British Columbia Archaeology on page 96 of the 2010/2011 graduate calendar be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**ANTH 609-3 ~~Topics in~~ Advanced British Columbia Archaeology**

A This course is a problem-based seminar in which selected issues ~~will be~~ are examined from several points of view.

*Prerequisites:* pPermission of the instructor

*Precluded:* ANTH 409-3

**SCRGS201006.08**

**Changes to Course Title and Course Description — ANTH 611-3**

That the changes to the course title and course description for ANTH 611-3 Topics in Biological Anthropology on page 96 of the 2010/2011 graduate calendar be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**ANTH 611-3 ~~Topics in~~ Biological Anthropology**

A This course is a problem-oriented and project-based seminar in which ~~one (or more) a~~ selected topic, or topics, in biological anthropology ~~will be~~ is examined. Credit is available for both ANTH 411-3 (3-6) and ANTH 611-3, provided the topic is ~~substantively~~ substantially different between offerings.

*Prerequisites:* ANTH 200-3 or permission of the instructor

**SCRGS201006.09**

**Changes to Course Title and Course Description — ANTH 613-3**

That the changes to the course title and course description for ANTH 613-3 Topics in Environmental Anthropology on page 96 of the 2010/2011 graduate calendar be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**ANTH 613-3 ~~Topics in~~ Environmental Anthropology**

~~An~~ This course is an examination of the anthropological literature on ecology and environmental practices. ~~Contemporary in which contemporary~~ issues and examples relevant to indigenous practices and northern peoples ~~will be~~ are developed.

*Prerequisites:* pPermission of the instructor

*Precluded:* ANTH 413-3

**SCRGS201008.23**

**Course Title and Calendar Description Change — CPSC 720-3**

That the changes to the course title and calendar description for CPSC 720-3 Advanced Programming Language, on page 104 (in the print calendar) of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **CPSC 720-3 - Advanced Programming Languages**

Topics for this course may include advanced study of general programming language design concepts, formal reasoning about programs and languages, pragmatic evaluation of language properties, and case studies of specific languages. The course may be used to communicate programming language theory and practice specific to students' project or thesis research needs.

#### **SCRGS201008.24**

##### **Course Title and Calendar Description Change — CPSC 791-3**

That the changes to the course title and calendar description for CPSC 791-3 Special Topics I, on page 105 (in the print calendar) of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **CPSC 791-3 Advanced Special Topics I**

This course introduces selected advanced special topics in computer science. The content may vary.

#### **SCRGS201008.25**

##### **Course Title and Calendar Description Change — CPSC 792-3**

That the changes to the course title and calendar description for CPSC 792-3 Special Topics II, on page 105 (in the print calendar) of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **CPSC 792-3 Advanced Special Topics II**

This course introduces selected advanced special topics in computer science. The content may vary.

#### **SCRGS201008.26**

##### **Course Prefix and Calendar Description Change — MCPS 704-1.5**

That the changes to the course prefix and calendar description for MCPS 704-1.5 Graduate Seminar on page 121 of the 2010/2011 graduate calendar be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MCPSM 704-1.5 Graduate Seminar** This course is comprised~~s~~s of weekly seminar sessions and ~~will be~~ is offered during both the September and January semesters. At least one of the course offerings each year ~~will~~ provides students with an opportunity to present ideas pertaining to their research proposals, or the overall research design, methodology and results of a thesis or non-thesis project. The second offering each year may follow a similar traditional seminar format, or may involve a class project related to MCPSM. Students are required to attend and participate in all seminars to get credit for the course. (All MSc students must register in a seminar course twice

during their program of studies. It is expected that all MSc students will attend the seminar each semester in which it is available.) This is a ~~pass/fail~~ PASS/FAIL course.

**SCRGS201008.27**

**Course Prefix Change — MCPS 705-3**

That the changes to the course prefix for MCPS 705-3 Research Design and Methods, on page 121 of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MCPSM 705-3 Research Design and Methods** This course ~~is designed to~~ exposes Master's students to a wide variety of research designs and methodology. Topics include: the history of science, nature of research, hypothesis formulation, experimental design, sampling, and analytical approaches to experimental and theoretical studies.

**SCRGS201008.28**

**Course Prefix, Title, and Calendar Description Change — MCPS 790-12**

That the changes to the course prefix, title, and calendar description for MCPS 790-12 MSc Thesis, on page 121 of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MCPSM 790-12 MSc Thesis** Credit for the MSc thesis results from the student making a contribution to a ~~science~~ scientific field. It requires that a student undertake original research involving a literature review and the development of a research design and methodology appropriate to the research problem. The implementation of the research methodology ~~will~~ normally includes original investigation and data collection, the analyses and discussion of which ~~will~~ constitutes the major part of the completed research thesis. The thesis may involve, but is not confined to, the testing of a specific hypothesis or hypotheses.

**SCRGS201008.29**

**Course Prefix and Calendar Description Change — MCPS 791-6**

That the changes to the course prefix and calendar description for MCPS 791-6 MSc Project, on page 121 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MCPSM 791-6 MSc Project** Credit for the MSc Project is given for the completion of an extended position paper, report, plan or program that makes a contribution to, or addresses a major problem issue in, a ~~science~~ scientific field. The development of the project requires the application of original thought to the problem or issue under investigation. The non-thesis project does not require the development of a research design or research methodology, and need not involve the collection of original data.

**SCRGS201008.30**

**Course Prefix, Calendar Description, and Prerequisite Change — MCPS 798-(1-3)**

That the changes to the course prefix, calendar description, and prerequisites for MCPS 798-(1-3) Special Topics, on page 121 of the 2010/2011 graduate calendar, be approved as proposed.  
Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MCPSM 798-(1-3) Special Topics** This course fulfils requirements for specialized instruction in the Mathematical, Computer, ~~and Physical~~, and Molecular Sciences Graduate Program. Topics chosen are dependent upon student interest and instructor availability. Topic headings and credit hours vary from year to year and from section to section. This course may be repeated for a maximum of three credit hours.

**Prerequisites:** Permission of the Chair of the Mathematical, Computer, ~~and Physical~~, and Molecular Sciences Graduate Program Committee.

**SCRGS201008.31**

**Course Prefix, Calendar Description, and Prerequisite Change — MCPS 799-(1-6)**

That the changes to the course prefix, calendar description, and prerequisites for MCPS 799-(1-6) Independent Study, on page 121 of the 2010/2011 graduate calendar, be approved as proposed.  
Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MCPSM 799-(1-6) Independent Study** This course provides a concentration on a particular topic(s) or topics agreed upon by the students and a member of the faculty in the Mathematical, Computer, ~~and Physical~~, and Molecular Sciences Graduate Program. This course may be repeated ~~for~~ to a maximum of ~~six~~ 6 credit hours.

**Prerequisites:** Permission of the Chair of the Mathematical, Computer, ~~and Physical~~, and Molecular Sciences Graduate Program Committee.

**8.3 Senate Committee on Admissions and Degrees**

**Dickson**

**“For Approval” Items:**

**S-201008.37**

**Change to “Admissions Requirements by Degree Groups” Table — Addition of “Pre-Calculus 12” and “Social Justice 12”**

That, on the recommendation of the Senate Committee on Admissions and Degrees, the change(s) to the “Admission Requirements by Degree Groups” in the undergraduate calendar be approved as proposed.

Effective date: September 2010  
CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

\*\* "A fifth Grade 12 Course": Any other of the approved Grade 12 courses, and also any Grade 12 course taught in the secondary school including locally-developed courses: e.g. (First Nations Languages), career preparation

courses (Construction 12, etc.), or others (Art 12, Band 12, Information Technology 12, Communications 12, CAPP 12, etc.) or any Advanced Placement or International Baccalaureate courses.

\*\*\*Students interested in pursuing the BHSc Biomedical Studies Major are strongly encouraged to take Pre-Calculus 12 or Principles of Mathematics 12, Chemistry 12, and Biology 12 before entering the Program.

\*\*\*\***Nursing:** UNBC's partner institutions, the College of New Caledonia (CNC) & Northwest Community College (NWCC) are processing admissions to the Northern Collaborative Baccalaureate Nursing Program. If you wish to apply to our Prince George or Quesnel campuses, please apply through CNC:

[http://www.cnc.bc.ca/Exploring/Applying\\_to\\_CNC.htm](http://www.cnc.bc.ca/Exploring/Applying_to_CNC.htm); if you wish to apply to our Terrace campus, please apply through NWCC at: [http://www.nwcc.bc.ca/AdmissionRegistration/admission\\_application.cfm](http://www.nwcc.bc.ca/AdmissionRegistration/admission_application.cfm)

♦ UNBC accepts English First Peoples 12 as an acceptable equivalent to English 12.

**Note:** Table excludes second-entry professional programs (Education, Social Work).

## 8.4 Senate Committee on Scholarships and Bursaries

Russell

### **"For Information" Items:**

#### **SCSB20100512.04**

##### **African Heritage Bursary**

That the new Terms and Conditions for the African Heritage Bursary be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Award Category: In-course

Award Name: African Heritage Bursary

Calendar Description/Intent: Marguerite Kolié was taught that education equals success regardless of race or ethnic background. She wants to give back to others in the hope that it will make a small difference in helping students achieve their dreams.

Donor: Marguerite Kolié

Value: \$500

Number: One

Placement in which Calendar: Undergraduate

Award Type: Bursary

Eligibility: Available to a full or part time undergraduate student who is African born or has resided in Africa for a minimum of 5 years and has demonstrated community involvement.

Criteria: Demonstrated financial need and satisfactory academic standing.

Application Instructions: Fill out all sections of the Awards Application form and attach a letter outlining your community involvement.

Effective Date: Established 2010

Recipient Selection: Senate Committee on Scholarships and Bursaries on recommendation by the UNBC Awards Office.

#### **SCSB20100512.05**

##### **Simon Fraser Lodge Nursing Scholarship in Honour of Thelma Meek**

That the new Terms and Conditions for the Simon Fraser Lodge Nursing Scholarship in Honour of Thelma Meek be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Award Category: In-course

Award Name: Simon Fraser Lodge Nursing Scholarship in Honour of Thelma Meek

Calendar Description/Intent: The Simon Fraser Lodge established this award to encourage all nursing students to enter the geriatric field.

Donor: Simon Fraser Lodge

Value: \$1,000

Number: One

Placement in which Calendar: Undergraduate

Award Type: Scholarship

Eligibility: Available to a full time undergraduate student enrolled in the BScN Program who has completed 60 credit hours and has a demonstrated interest in the field of geriatrics.

First preference to be given to a student involved in the community.

Criteria: Academic proficiency

Note: This is a one time award.

Application Instructions: Fill out all sections of the Awards Application form and attach a letter outlining your community involvement.

Effective Date: Established 2009

Recipient Selection: Senate Committee on Scholarships and Bursaries on recommendation by the UNBC Awards Office.

### **SCSB20100512.06**

#### **Janice and Jay Lazzarin Memorial Bursary**

That the new Terms and Conditions for the Janice and Jay Lazzarin Memorial Bursary be approved.

Effective Date: Following the passing of the donors

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Award Category: Open

Award Name: Janice and Jay Lazzarin Memorial Bursary

Calendar Description/Intent: Janice and Jay were both long time residents of Prince George. Janice was an elementary school teacher for 33 years and Jay was the first landscape architect to set up practice in Prince George, serving northern BC for 30+ years. As former university students, Janice and Jay appreciate the financial challenges students face and thank Prince George for being so kind to them.

Donor: The Estate of Janice and Jay Lazzarin

Value: \$750

Number: One

Placement in which Calendar: Undergraduate

Award Type: Bursary

Eligibility: Available to a full time undergraduate student.

Criteria: Demonstrated financial need and academic proficiency.

Application Instructions: Fill out all sections of the Awards Application form.

Effective Date: Established 2010 (Note: This award will be activated following the passing of the donors.)

Recipient Selection: Senate Committee on Scholarships and Bursaries on recommendation by the UNBC Awards Office.

### **SCSB20100512.07**

#### **Pepsi Annual Athletic Awards**

That the revised Terms and Conditions for the Pepsi Annual Athletic Awards be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Value:** ~~\$1,600~~ \$500

**Number:** ~~2 (1 male, 1 female)~~ 20 Varsity Athletic Awards as follows:

- Five (5) Men's Varsity Basketball Team student athlete
- Five (5) Women's Varsity Basketball Team student athlete
- Five (5) Men's Varsity Soccer Team student athlete
- Five (5) Women's Varsity Soccer Team student athlete

**Eligibility:** Available to a full time undergraduate or graduate student who is an active member of the Varsity Soccer and/or the Varsity Basketball Team(s).

### **SCSB20100512.08**

#### **Petro-Canada Undergraduate Bursary in Environmental Study**

That the revised Terms and Conditions for the Petro-Canada Undergraduate Bursary in Environmental Study be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Name:** Suncor Energy Foundation ~~Petro-Canada~~ Undergraduate Bursary in Environmental Study

**Calendar Description/Intent:** Suncor Energy Foundation's ~~Petro-Canada's~~ social vision focuses on the development of Canadian talent, expertise and innovation through education. A healthy environment is of central importance; it is essential for Canada's continued well-being. Suncor Energy Foundation ~~Petro-Canada~~ is proud to support students in the study of the environment.

**Donor:** Suncor Energy Foundation ~~Petro-Canada~~

### **SCSB20100512.09**

#### **Spruce Credit Union – Denie Bachand Memorial Bursary**

That the revised Terms and Conditions for the Spruce Credit Union – Denie Bachand Memorial Bursary be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Eligibility:** Available to a full time undergraduate student enrolled in the Natural Resource Management Program with a declared major in Forestry. Student recipient must have graduated from a Prince George high school. First preference will be given to a member of the Spruce Credit Union.

### **SCSB20100512.10**

#### **Alex C Michalos Award**

That the revised Terms and Conditions for the Alex C Michalos Award be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Calendar Description/Intent:** ~~Dr. Alex C. Michalos F.R.S.C. was a UNBC faculty member 1994-2001, serving as the Chair of the Political Science Program. In 2007 he was elected Chancellor of the University. Much of Dr. Michalos' scholarly work has been concerned with improving the quality of life through applications of science and technology. Dr. Michalos published 24 books, over 100 articles, founded and edits the Journal of Business Ethics and Social Indicators Research.~~

Dr. Alex C. Michalos F.R.S.C. was a Professor of Political Science at UNBC (1994-2001) and later served as Chancellor of the University (2007-2010). In 2004 he won the Social Sciences and Humanities Research Council's Gold Medal for Achievement in Research, the Council's highest honour. Dr. Michalos founded 6 scholarly journals, including the Journal of Business Ethics, which is the most highly cited journal devoted to business ethics in the world.

**Value:** ~~\$300~~600

#### **SCSB20100512.11**

##### **Chan Sisters Foundation Endowed Graduate Award**

That the revised Terms and Conditions for the Chan Sisters Foundation Endowed Graduate Award be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Name:** Chan Sisters Foundation Endowed Graduate Award ~~Program~~

**Value:** ~~\$2,500~~ \$6,000

**Eligibility:** Available to a full time graduate student enrolled in Nursing, Social Work or Education. Students must demonstrate community leadership and/or a high degree of community involvement.

#### **SCSB20100512.12**

##### **Chan Sisters Foundation Endowed Undergraduate Award**

That the revised Terms and Conditions for the Chan Sisters Foundation Endowed Undergraduate Award be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Name:** Chan Sisters Foundation Endowed Undergraduate Award ~~Program~~

**Value:** ~~\$2,500~~ \$3,500

#### **SCSB20100512.13**

##### **Talisman Energy Scholarship for Aboriginal Students**

That the revised Terms and Conditions for the Talisman Energy Scholarship for Aboriginal Students be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Eligibility:** Available to a full or part time undergraduate Aboriginal student. First preference will be given to a resident of northeast British Columbia, Alberta or Saskatchewan.

#### **SCSB20100512.14**

##### **BC Hydro Environmental Studies Award**

That the revised Terms and Conditions for the BC Hydro Environmental Studies Award be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Value:** ~~\$1,500~~ \$2,000

**Eligibility:** Available to full time undergraduate students with a declared major in Environmental Studies ~~with a minor in Global Environmental Change~~. Available only to students who are residents of Northern British Columbia. First preference to go to a student with a minor in Global Environmental Change.

**SCSB20100512.15**

**Western Chartered Financial Athletic Scholarship**

That the revised Terms and Conditions for the Western Chartered Financial Athletic Scholarship be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Number:** ~~Two~~ One

**SCSB20100512.16**

**UNBC Alumni Association Athletics Awards**

That the revised Terms and Conditions for the UNBC Alumni Association Athletics Awards be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Calendar Description/Intent:** The UNBC Alumni Association is proud of our members, who are emerging as leaders in our communities. The Alumni Association recognizes the role of competitive athletics in creating a positive public profile for the University, as well as providing a valuable learning experience for student athletes. These ~~bursaries~~ awards have been established by the Alumni Association to assist student athletes in pursuing their academic and athletic goals.

**Recipient Selection:** Candidates will be selected by the coaches of their respective teams on behalf of the UNBC Alumni Association Board of Directors. ~~The preferred candidate will be recommended by the UNBC Alumni Association Board of Directors~~ and approved by the Senate Committee on Scholarships and Bursaries.

**8.5 Senate Committee on Nominations**

**Reid**

**S-201008.38**

**Membership Changes to Senate and/or Senate Committees**

Reid / Carriere

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate and/or Senate committees as indicated, be appointed as proposed.

**SENATE OR SENATE COMMITTEE POSITION TO BE FILLED**  
*(except when otherwise noted, all terms begin immediately)*

**CANDIDATE**

**Senate Committee on Student Discipline Appeals**

Faculty Senator (until March 31, 2013)

Matt Reid

Senator Reid called for further nominations three times, and in the absence of any further nominations, was declared appointed as proposed.

CARRIED.

**9.0 Other Business**

**9.1 Report of the Registrar**

**DeGrace**

The Registrar had nothing to report.

**10.0 Information**

**10.1 Memorandum of Understanding between UNBC and Northern Health**

Dr. Iwama indicated that this MOU resulted from a meeting of the Presidents and Chairs of the respective institutions. He responded to several questions raised about the relationship, and concluded with the comment that there is good cooperation already between UNBC and Northern Health, but that both organizations wanted to formalize agreements as they felt the provincial government would view such a move favourably. Dr. Iwama added that he expected opportunities to increase as a result of this MOU, but that the organizations had not yet reached the stage where budgets were being discussed and resources dedicated to specific projects.

**10.2 Report of the Harassment and Discrimination Officer (July 1, 2009 to April 30, 2010)**

This report was provided to Senators for information.

**11.0 S-201008.39**

**Move to In Camera Session**

Zahir / Donker

That the meeting move In Camera.

CARRIED.

**12.0 S-201008.43**

**Adjournment**

Donker / Chasteauneuf

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 5:15 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

September 23, 2010  
1:00 – 2:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

O. Adegbite, E. Annis, M. Archie, G. Ashoughian, S. Beeler, T. Binnema, C. Carriere, D. Casperson, C. Chasteauneuf, L. Chen, M. Dale (Vice Chair), A. Dayanandan, J. DeGrace (Secretary of Senate), S. Déry, H. Donker, G. Fondahl, W. Haque, M. Hatcher, R. Hoffman, K. Hutchings, G. Iwama (Chair), E. Jensen, E. Kim, M. Kizhakkeniyil, J. Li, J. MacDonald, F. MacPhail, C. Myers (Recording), D. Nyce, M. Reid, D. Ryan, I. Uche-Ezeala, J. Van Barneveld, A. Yakemchuk, J. Young

**Regrets:**

J. Alec, S. Bennett, R. Brouwer, M. Green, D. Leighton-Stephens, D. Macknak, S. McKenzie, C. O'Callaghan, R. Robinson, S. Wagner

**Absent:**

R. Lazenby, S. Zahir

---

The meeting commenced at 1:00 p.m.

- 1.0**    **S-201009.01**  
**Approval of the Agenda †**  
Reid / Déry  
That the Agenda for the September 23, 2010 Public Session of Senate be approved as presented.  
CARRIED.
- 2.0**    **S-201009.02**  
**Approval of Senate Minutes**  
Kim / Donker  
That the Minutes of the August 25, 2010 Public Session of Senate be approved as presented.  
CARRIED.
- 3.0**    **Business Arising from Previous Minutes of Senate**

### 3.1 Changes to Information Placed on UNBC Academic Transcripts

#### **S-201009.03**

#### **Motion to Take From the Table — Senate Motion S-201008.13 (Changes to Information Placed on UNBC Academic Transcripts)**

Hutchings / Ryan

That motion S-201008.13 (“That, on the recommendation of the Senate Committee on Academic Policy and Planning, the information placed on UNBC academic transcripts be amended by including – in addition to the letter grade and Grade Point attached to a course outcome – the number of students in the class and, where the number of letter grades assigned is five or greater, the median grade in the class”), from the Senate meeting of August 25, 2010, be taken from the table.

Effective Date: September 23, 2010

CARRIED.

#### **S-201009.04** (formerly motion S-201008.13)

#### **Changes to Information Placed on UNBC Academic Transcripts**

Hutchings / Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the information placed on UNBC academic transcripts be amended by including – in addition to the letter grade and Grade Point attached to a course outcome – the number of students in the class and, where the number of letter grades assigned is five or greater, the median grade in the class.

Effective date: September 2010

Concerns regarding privacy issues related to recording smaller class sizes were discussed, and an amendment to the motion was proposed:

#### **Amendment:**

Casperson / Ryan

That the phrase “five or greater” be changed to “eight or greater,” so that the motion now reads:

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the information placed on UNBC academic transcripts be amended by including – in addition to the letter grade and Grade Point attached to a course outcome – the number of students in the class and, where the number of letter grades assigned is eight or greater, the median grade in the class.

Effective date: September 2010

The motion, as amended, was CARRIED.

### 4.0 President’s Report

Iwama

The President reported on the Wood Innovation and Design Centre, noting that the matter has not been discussed recently and that he was seeking an update on the status of this initiative.

Regarding enrolment and retention, President Iwama expressed that this is a very important topic, and that the assistance of everyone in the University is required to address enrolment numbers. He added that he was especially seeking input of students and that he recognizes that all members of the University community need to work together to address enrolment.

Dr. Iwama indicated that the research-intensive universities were looking into moving out of the government reporting entity (GRE), for a number of important reasons including governance, labour relations, accounting practices, and financial.

Finally, Dr. Iwama mentioned that the Steering Committee of Senate would welcome input from Senators regarding the topics for discussion to be undertaken at upcoming meetings of Senate.

### 5.0 Report of the Provost

Dale

The Provost report that he would be presenting the enrolment numbers at the next meeting of Senate, but that undergraduate enrolment was down and needs to be address. As a result, the University has advertised for the position of Assistant Provost Enrolment. Dr. Dale also reported that discussions were

taking place regarding the expansion of Engineering programs, and that the University was receiving positive signals that approval would be granted for some form of a Physical Therapy program, probably as a Clinical Education Centre rather than a complete program. With regard to the Health Sciences PhD, the proposed program had received a positive external review, and the University was awaiting results in that regard.

## 6.0 Question Period

A Senator asked whether the University had contemplated the use of external recruiters, and the matter was discussed. The President was asked about his trip to China and reported that it went very well and that a delegation from Jiangmen would be coming to UNBC in October. Some questions were asked regarding the Space Committee and the survey of classroom space that was conducted some time ago. The matter was discussed and the President suggested that, although the Space Committee is not a committee of Senate, it might be interesting to invite someone from the Committee to speak to Senate.

## 7.0 S-201009.05

### **Approval of Motions on the Consent Agenda** (*no material*)

Donker / Déry

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

## 8.0 Committee Reports

### 8.1 Senate Committee on Academic Policy and Planning

Dale

#### "For Approval" Items:

An Executive Summary of the proposed changes to the curriculum for the School of Nursing was included for information.

#### S-201009.06

### **Changes to Clinical Practica Scheduling and Expectations — Northern Collaborative Baccalaureate Nursing Program**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the Clinical Practica Scheduling and Expectations for the NCBNP, on page 163 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Clinical Practica Scheduling and Expectations**

Clinical practica may be configured and offered outside the existing timetable structure and sessional dates, such as a four or six week block. The students in the NCBNP must complete a consolidating nursing practicum following both their fourth and sixth semesters of study in the program.

~~Attendance in each nursing practicum course is mandatory. Students may only miss clinical hours for approved reasons following prior consultation with their clinical instructor. Students who miss more than 10% of their total required practicum experience hours will be considered at risk for failure and may be required to withdraw from the course.~~

Attendance in each clinical course is mandatory. Students who do not complete their total required practicum experience hours will be at risk of failure. Any time a student is unable to attend practicum due to unforeseen circumstances, the student must contact his/her clinical instructor and the clinical area with as much notice as possible. The opportunity to make up missed clinical time is not guaranteed and may only be granted for extreme extenuating circumstances.

#### **S-201009.07**

#### **Changes to Calendar Description — Removal of the Criminal Records Search, Immunization and CPR Certification sections from the Nursing General Requirements**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the removal of the Criminal Records Search, Immunization and CPR Certification sections from the Nursing General Requirements on page 162/163 of the 2010/2011 undergraduate calendar be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **General Requirements**

Nursing courses are normally restricted to students admitted into the BScN program, unless otherwise specified in a course description. Not all courses in the Calendar are offered every semester or academic year. Admission to the BScN program does not guarantee registration in any specific course; early registration is advised.

The admission criteria and general requirements set out in the Admissions section of this Calendar are applicable to this section.

## **Standards of Professional Conduct**

In addition to fulfilling all University and Program expectations, all students are expected to abide by professional standards as set forth in the current CRNBC Professional Standards for Registered Nurses and Nurse Practitioners and the Canadian Nurses Association (CNA) Code of Ethics for Registered Nurses. Violation of professional standards may result in suspension or dismissal from the program or the educational institution.

## **~~Criminal Records Search~~**

~~Students will be required to undergo a criminal records search prior to being admitted. (Refer to Academic Regulation #19 in this Calendar).~~

## **College of Registered Nurses of British Columbia Requisite Skills and Abilities**

All students who apply to the Northern Collaborative Baccalaureate Nursing Program ~~and~~ must demonstrate the capacity to meet College of Registered Nurses of British Columbia's (CRNBC) Requisite Skills and Abilities. Certain basic skills and abilities are required for a student to attain the Competencies in the Context of Entry-Level Registered Nurse Practice in British Columbia. These Requisite Skills and Abilities can be found on the CRNBC website.

## **~~Immunization and CPR Certification~~**

All students accepted into the undergraduate nursing program will be sent documentation and information regarding immunization policies. Once accepted to the NCBNP, Certificate, or Post-Diploma programs, all students must submit:

- ~~record of immunization status. Current status for the following immunizations is strongly recommended: diphtheria, tetanus, poliomyelitis, measles, mumps, rubella, hepatitis B and varicella. A Mantoux test (PPD) for tuberculosis is also strongly recommended. Completed immunization forms for the NCBNP must be submitted to the Admissions Office at the institution the student is currently attending prior to Sept 30 in the first year of attendance. Students entering the Certificate or Post-Diploma BScN must complete and submit specified immunization forms prior to commencing a course with a clinical component. Failure to do so may result in the student not being allowed to practice in the clinical setting.~~
- ~~documentation of CPR certification, level C, which must be maintained throughout the program. Proof of CPR certification must be submitted prior to commencement of classes.~~
- ~~CPR must be recertified every two years regardless of expiry date on the card.~~

#### **Changes to Calendar Description — Northern Collaborative Baccalaureate Nursing Program (Addition of Criminal Records Search, Immunization and CPR Certification Sections)**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the additions to the Northern Collaborative Baccalaureate Nursing Program calendar description, on page 164 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Northern Collaborative Baccalaureate Nursing Program

The Northern Collaborative Baccalaureate Nursing Program (NCBNP) requires students to take at least 95 credit hours of Nursing courses. The minimum requirement for completion of a Bachelor of Science in Nursing is 134 credit hours.

### Transfer Credit

Transfer credit and/or advanced standing may be awarded for course work completed at other recognized institutions. All transfer credit for course work taken prior to admission to the BScN program will be evaluated at the request of the student, and applied at the time of initial registration in the program.

The total transfer credit awarded on the basis of acceptable course work completed at non-collaborative partner institutions may not exceed 60 credit hours. Nursing courses must have been completed within five years prior to admission to be eligible for transfer credit into the nursing program.

### **Criminal Records Search**

NCBNP students are required to undergo criminal records searches prior to being admitted, as well as upon entry to third year. (Refer to Academic Regulation 19 in this Calendar.)

## Immunization and CPR Certification

All students accepted into the NCBNP are sent documentation and information regarding immunization policies. Once accepted to the Program, all students must submit:

- record of immunization status. Current status for the following immunizations is strongly recommended: diphtheria, tetanus, poliomyelitis, measles, mumps, rubella, hepatitis B and varicella. A Mantoux test (PPD) for tuberculosis is also strongly recommended. Completed immunization forms must be submitted to the Admissions Office at the institution the student is currently attending prior to Sept 30 in the first year of attendance. Failure to do so may result in the student not being allowed to practice in the clinical setting.
- documentation of CPR certification, level C, which must be maintained throughout the program. Proof of CPR certification must be submitted prior to commencement of classes.
- CPR must be recertified every two years regardless of expiry date on the card.

### S-201009.09

#### **Changes to Admission Requirements — Northern Collaborative Baccalaureate Nursing Program**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the Admission Requirements for the NCBNP, on page 164 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Applicants from BC and Yukon secondary schools must:

- meet UNBC admission requirements, and
- ~~have completed Principles of Math 11, English 12, Biology 12, Chemistry 11 with a minimum C+ (65%) in each course~~
- have completed the following courses with a minimum C+ (65%) in each course:
  - one of Foundations of Mathematics 11, Pre-calculus 11, or Principles of Math 11
  - Chemistry 11
  - English 12
- have completed Biology 12 with a minimum B (73%) within 5 years prior to the semester of admission to the NCBNP

Other applicants must:

- meet UNBC admission requirements, and
- ~~have completed the equivalent of Principles of Math 11, English 12, Biology 12, Chemistry 11 with a minimum of C+ (65%) in each course~~
- have completed the equivalent of the following courses with a minimum C+ (65%) in each course:
  - one of Foundations of Mathematics 11, Pre-calculus 11, or Principles of Math 11
  - Chemistry 11
  - English 12
- have completed the equivalent of Biology 12 with a minimum B (73%) within 5 years prior to the semester of admission to the NCBNP

### **S-201009.10**

#### **Changes to Calendar Description — Post-Diploma Baccalaureate Nursing Program**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the additions to the Post-Diploma Baccalaureate Nursing Program calendar description, on page 166 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Post-Diploma Baccalaureate Nursing Program

The minimum requirement for completion of the Post-Diploma Baccalaureate Nursing Program BScN is 45 credit hours with 24 of these required credit hours in nursing. Admission occurs in September and January. The fulfillment of admission requirements does not guarantee admission to the post-diploma program and is based on available space.

A total of 15 credit hours may be transferred from other recognized institutions into the nursing program. In order to meet the clinical concentration requirement of the nursing program, students may transfer credit from successfully completed studies at the nursing post-diploma level, provided that the certificate or diploma was completed within the five years prior to admission. Normally, the student is currently practicing in that specialty area.

### **Admission Requirements**

Applicants must:

- meet UNBC admission requirements
- submit official transcript(s) from diploma program
- provide evidence of active and continuing registration as a nurse in British Columbia. Annual documentation of current, practicing CRNBC licensure is required while enrolled in the program.

Once accepted to the Post-Diploma Baccalaureate Nursing Program, all students must complete and submit specified immunization forms prior to commencing a course with a clinical component. Failure to do so may result in the student not being allowed to practice in the clinical setting. Current status for the following immunizations is strongly recommended: diphtheria, tetanus, poliomyelitis, measles, mumps, rubella, hepatitis B and varicella. A Mantoux test (PPD) for tuberculosis is also strongly recommended.

~~A total of 15 credits may be transferred from other recognized institutions into the nursing program. In order to meet the clinical concentration requirement of the nursing program, students may transfer credit from successfully completed studies at the nursing post-diploma level, provided that the certificate or diploma was completed within the five years prior to admission. Normally, the student is currently practising in that specialty area.~~

In order to meet the graduation requirements for the BScN, the post-RN student must successfully complete the following courses:

### **Program Requirements**

### **S-201009.11**

#### **Changes to Calendar Description — Rural Nursing Certificate Program**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the additions to the Rural Nursing Certificate Program calendar description, on page 167 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Rural Nursing Certificate Program

The Rural Nursing Certificate Program provides the opportunity for Registered Nurses to pursue a concentrated program of courses in Rural Nursing. The Certificate provides students with some of the essential knowledge and clinical skills needed to provide nursing care in rural practice.

The Certificate Program has been developed as an academic program that is practice-driven, and is supported by health authorities across British Columbia. It is based upon the principles of primary health care, and provides an orientation to the needs of nurses working in rural and remote communities.

The Certificate requires successful completion of 30 credit hours. Admission occurs in September and January.

A maximum of 15 credit hours from other recognized institutions may be transferred into the Certificate and the BScN completion option.

The Certificate is designed to be completed on a part-time basis through distance education. Students can complete their BScN through the attainment of 15 additional credit hours of prescribed courses.

This Certificate does not replace the UNBC Post-Diploma BScN program as it offers a focus in one specialized area only. Other focus areas provided through the UNBC Post-Diploma BScN, notably community health, community continuing care, First Nations health and nursing, and nursing management are not included in the Certificate program.

~~Applicants must meet the admission criteria for the UNBC Post-Diploma Baccalaureate Nursing Program.~~ Nursing Program policies for Registered Nurse students pursuing a degree apply to Certificate students.

### **Admission Requirements**

Applicants must:

- meet UNBC admission requirements
- submit official transcript(s) from degree or diploma program
- provide evidence of active and continuing registration as a nurse in British Columbia. Annual documentation of current, practicing CRNBC licensure is required while enrolled in the program.

Once accepted to the Rural Nursing Certificate Program, all students must complete and submit specified immunization forms prior to commencing a course with a clinical component. Failure to do so may result in the student not being allowed to practice in the clinical setting. Current status for the

following immunizations is strongly recommended: diphtheria, tetanus, poliomyelitis, measles, mumps, rubella, hepatitis B and varicella. A Mantoux test (PPD) for tuberculosis is also strongly recommended.

## Certificate Requirements

### “For Information” Items:

#### **SCAPP201009.09**

##### **Change to Calendar Course Description — NURS 451-3**

That the change to the course description for NURS 451-3 Health Assessment and RN First Call, on page 253 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **NURS 451-3 Health Assessment and RN First Call**

This course provides students with the knowledge and skills needed to extend their ability to conduct a thorough health assessment for diverse client populations throughout the lifespan. The competencies required for RN First Call certified practice are taught. Students conduct age appropriate comprehensive health histories and physical examinations, identify health concerns and risks, taking into account culture, ethnicity and health beliefs, and make informed clinical judgments. The diagnoses and treatment of minor acute illnesses ~~and the suturing of minor wounds~~, as determined by the CRNBC approved Decision Support Tools, are included. An extended skills-building workshop is included. Upon successful completion students may apply for CRNBC RN First Call Practice Certification.

#### **SCAPP201009.10**

##### **Change to Course Prerequisite — NURS 455-6**

That the change to the course prerequisite for NURS 455-6 Critical Care, Emergency and Trauma, on page 253 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 455-6 Critical Care, Emergency and Trauma** This course provides students with the practical evidence-based information, skills and tools necessary to identify clients with critical conditions and to intervene appropriately and effectively within the context and confines of rural nursing practice. The most salient aspects of adult, geriatric and pediatric emergency and critical care encountered in rural practice are examined. The course includes a focused lab experience and a practicum. This course is restricted to registered nurses.

*Major Restriction:* Restricted to the Rural Nursing Certificate Program or Post-Diploma BScN students only, or by permission of the Chair, School of Nursing.

*Pre or co-requisite:* NURS 451-3 or equivalent

*Recommended:* NURS 451-3

*Precluded:* NURS 417-4 ~~or equivalent~~

#### **SCAPP201009.11**

##### **Addition of Course Preclusion — NURS 308-3**

That the addition of HHSC 201-3 as a course preclusion for NURS 308-3, on page 249 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 308-3 Ethics and Law in Nursing** This course examines ethical reasoning and the use of ethical theory in nursing practice decisions. Health care law as it relates to nursing practice is explored. Special focus is on the meaning and use of nursing practice acts, professional standards of practice and nursing codes of ethics.

*Prerequisites:* NURS 220-5 or permission of the Program Chair

*Precluded:* HHSC 201-3

**SCAPP201009.12**

**Addition of Course Preclusion — HHSC 201-3**

That the addition of NURS 308-3 as a course preclusion for HHSC 201-3, on page 232 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**HHSC 201-3 Ethics and Law in Health Care** This course examines ethical and legal concepts as applied to health care and health care research. Further, students explore how new technology and therapeutic practices change the parameters of ethical and moral reasoning, and the impact this has on health law. In addition, students are exposed to ethical practices and policies that form the foundation of health-related research.

*Prerequisites:* Enrolment in the BHSc program, or permission of the instructor.

*Precluded:* NURS 308-3

**SCAPP201009.13**

**Changes to Calendar Course Description, Prerequisites, and Co-Requisites — CHEM 303-3**

That the changes to the course description, prerequisites, and co-requisites for CHEM 303-3 Quantum Chemistry be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**CHEM 303-3 Quantum Chemistry** ~~Basic quantum mechanics including the origin of quantum theory, atomic models, waves, particles, Schrodinger equations, free and bound states, the hydrogen atom, atomic structure and spectra.~~ This course covers techniques of quantum mechanics and their application to problems relevant to chemistry. ~~Methods,~~ Methods such as the variation method, perturbation theory, and Hartree-Fock Self-Consistent Field theory, are applied to simple chemical systems. The extension of these to more complex systems is explored.

*Prerequisites:* PHYS 205-3 and CHEM 200-3

*Co-requisites:* MATH 201-3

*Precluded:* PHYS 302-3

**SCAPP201009.14**

**Approval of 2010 Annual Report**

That the 2010 Annual Report (September 1, 2009 to August 31, 2010) from the Senate Committee on Academic Policy and Planning be approved by the Committee and forwarded to Senate for information.  
Effective date: September 1, 2010

**8.2 Senate Committee on Scholarships and Bursaries**

**Russell**

**“For Information” Items:**

**SCSB20100811.03**

**Belford-Transken Scholarship**

That the new Terms and Conditions for the Belford-Transken Scholarship be approved.  
Effective Date: Following the passing of donors

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Category:** Open

**Award Name:** Belford-Transken Scholarship

**Calendar Description/Intent:**

**Donor:** Si Transken and Ken Belford

**Value:** \$5,000

**Number:** One

**Placement in which Calendar:** Undergraduate

**Award Type:** Scholarship

**Eligibility:** Available to a full time undergraduate student who is involved in social justice activism, especially creative writing and/or poetry.

**Criteria:** Academic proficiency

**Application Instructions:** Fill out all sections of the Awards Application form and attach a letter outlining your involvement in social justice activism.

**Effective Date:** Established 2010

**Note:** This award will be activated only in the event the donors become deceased at the same time.

**Recipient Selection:** Senate Committee on Scholarships and Bursaries on recommendation by the UNBC Awards Office.

**SCSB20100811.04**

**Gerald and Lorraine Burns Business Scholarships**

That the new Terms and Conditions for the Gerald and Lorraine Burns Business Scholarships be approved.

Effective Date: Following the passing of the donors.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Category:** Open

**Award Name:** Gerald and Lorraine Burns Business Scholarships

**Calendar Description/Intent:** Gerald and Lorraine Burns lived in Prince George from 1972-2003. Lorraine was an elementary educator (teacher and principal) and Gerald worked with Canada Manpower where he was responsible for a number of programs including training programs, both with Industry and the College of New Caledonia. Gerald and Lorraine appreciate the establishment of UNBC in Prince George and would like to support the students who choose to attend.

**Donor:** The Estate of Gerald and Lorraine Burns

**Value:** A minimum of \$1,000

**Number:** A minimum of Three

**Placement in which Calendar:** Undergraduate

**Award Type:** Scholarship

**Eligibility:** Available to full time undergraduate students enrolled in the Bachelor of Commerce Program who are residents of British Columbia. First preference will be given to students who have graduated from a secondary school within a 30 kilometre radius of the City of Prince George.

**Criteria:** Academic excellence.

**Note:** Recipients are encouraged to reflect on their good fortune as an award recipient and consider making a contribution to this fund in the future.

**Application Instructions:** Fill out all sections of the Awards Application form and attach your Resume.

**Effective Date:** Established 2010 (*Note: This award will be activated following the passing of the donors.*)

**Recipient Selection:** Senate Committee on Scholarships and Bursaries on recommendation by the UNBC Awards Office.

#### **SCSB20100811.05**

#### **Morrison Undergraduate Scholarship in History**

That the new Terms and Conditions for the Morrison Undergraduate Scholarship in History be approved.  
Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Category:** In-course

**Award Name:** Morrison Undergraduate Scholarship in History

**Calendar Description/Intent:** To mark the service to UNBC of William Morrison, founding Dean of Research and Graduate Studies, and member of the History Program. To be awarded annually to an outstanding student, not yet eligible to graduate, who has taken at least three upper division History courses.

**Donor:** William Morrison

**Value:** \$250

**Number:** One

**Placement in which Calendar:** Undergraduate

**Award Type:** Scholarship

**Eligibility:** Available to a full time undergraduate student enrolled in the BA Program, with a major in History. The recipient must have taken at least three upper division History courses, but is not yet eligible to graduate.

**Criteria:** Academic excellence.

**Note:** If there is no suitable undergraduate candidate, two graduate scholarships may be awarded (*see Morrison Graduate Scholarship in History*).

**Application Instructions:** Fill out all sections of the Awards Application form and attach your Resume.

**Effective Date:** Established 2010

**Recipient Selection:** Senate Committee on Scholarships and Bursaries on recommendation by the UNBC History Program.

**SCSB20100811.06**

**Morrison Graduate Scholarship in History**

That the new Terms and Conditions for the Morrison Graduate Scholarship in History be approved.  
Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Category:** Graduate

**Award Name:** Morrison Graduate Scholarship in History

**Calendar Description/Intent:** To mark the service to UNBC of William Morrison, founding Dean of Research and Graduate Studies, and member of the History Program. To be awarded annually to an outstanding student completing the first year of graduate studies in History.

**Donor:** William Morrison

**Value:** \$250

**Number:** One

**Placement in which Calendar:** Graduate

**Award Type:** Scholarship

**Eligibility:** Available to a full time graduate student enrolled in their first year of the MA Program in History.

**Criteria:** Academic excellence.

**Note:** If there is no suitable graduate candidate, two undergraduate scholarships may be awarded (*see Morrison Undergraduate Scholarship in History*).

**Effective Date:** Established 2010

**Recipient Selection:** Senate Committee on Scholarships and Bursaries on recommendation by the UNBC History Program.

**SCSB20100811.07**

**Transken-Belford Scholarship**

That the new Terms and Conditions for the Transken-Belford Scholarship be approved.  
Effective Date: Following the passing of donors

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Category:** Open

**Award Name:** Transken-Belford Scholarship

**Calendar Description/Intent:**

**Donor:** Si Transken and Ken Belford

**Value:** \$5,000

**Number:** One

**Placement in which Calendar:** Undergraduate

**Award Type:** Scholarship

**Eligibility:** Available to a full time undergraduate student who has a demonstrated interest in creative social justice activism, especially creative writing and/or poetry.

**Criteria:** Academic proficiency

**Application Instructions:** Fill out all sections of the Awards Application form and attach a letter outlining your interest in creative writing.

**Effective Date:** Established 2010

**Note:** This award will be activated only in the event the donors become deceased at the same time.

**Recipient Selection:** Senate Committee on Scholarships and Bursaries on recommendation by the UNBC Awards Office.

### **SCSB20100811.08**

#### **Pepsi Annual Athletic Awards**

That the revised Terms and Conditions for the Pepsi Annual Athletic Awards be approved.  
Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Calendar Description/Intent:** ~~The Pepsi Bottling Group is the world's largest manufacturer, seller and distributor of Pepsi-cola beverages some of the world's most recognized consumer brands. PBG is a publicly traded company that generates nearly \$8 billion in annual sales. It operates in the US, Canada, Spain, Greece, and Russia, accounting for about one third of the Pepsi-cola volume in the world, and employ's 38,700 people world wide.~~

~~As part of PBG's continuing support of UNBC support has been directed towards the Athletics Department. We feel that growing this area will not only enhance the University of Northern British Columbia but the Northern region as well.~~

Pepsi Beverages Company is an operating unit of PepsiCo. PBC operates in the United States, Canada and Mexico and encompasses approximately 75% of PepsiCo's North American beverage volume. PBC's diverse portfolio includes some of the world's most widely recognized beverage brands, including Pepsi, Mountain Dew , Sierra Mist, Aquafina, Gatorade, Sobe, Lipton and Amp energy. PBC also manufactures and distributes third party brands in key local markets such as Dr Pepper, Crush , Rock Star and Muscle Milk. The operating unit is head quartered in Westchester County, New York.

**Donor:** ~~The Pepsi Bottling Group~~ Pepsi Beverages Company

### **SCSB20100811.09**

#### **Marion and Lawrence de Grace Scholarship**

That the revised Terms and Conditions for the Marion and Lawrence de Grace Scholarship be approved.  
Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Name:** ~~Marion, and Lawrence and Robert~~ Marion and Lawrence and Robert de Grace Memorial Scholarship

**Calendar Description/Intent:** ~~Marion de Grace, along with her late husband Lawrence de Grace of Prince George, has held a tradition of community involvement in Prince George. Lawrence's commitment to Prince George extends from his founding of Industrial Forestry Services (IFS) in 1952, an entirely Canadian owned forestry company, currently employing approximately 70 active employees. IFS's growth has paralleled that of the British Columbia interior forest industry. Clientele consist of forest industry companies, federal, provincial and municipal governments, other resource industries, First Nations Bands and private land owners.~~

Marion and Lawrence de Grace were active members of the Prince George community. As a leader in the forest industry, Lawrence founded Industrial Forestry Services (IFS) in 1952.

Robert de Grace, son of Marion and Lawrence de Grace, lived in Prince George most of his life. A Chartered Accountant, Robert helped established the highly respected firm of Schmitz and de Grace.

**Donor:** ~~The Marion de Grace Family~~

**Value:** a minimum of \$1,000

**Eligibility:** ~~Available to a full time undergraduate student enrolled in Forestry, Education or Accounting the Bachelor of Education program. Recipient will be a resident of Northern British Columbia. Second preference will be given to a candidate enrolled in the Nursing Program who has expressed a desire to go in to Public Health.~~

### **SCSB20100811.10**

#### **Spectra Energy Transmission Bursaries for Aboriginal Students**

That the revised Terms and Conditions for the Spectra Energy Transmission Bursaries for Aboriginal Students be approved.  
Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Eligibility:** Available to full time undergraduate Aboriginal students who are residents of the Northern Rockies Regional ~~District~~ Municipality, Peace River Regional District, Regional District Fraser Fort-George, Cariboo Regional District or any municipality within those Regional Districts and who are enrolled in any of the following programs: Anthropology, Biology, Chemistry, Computer Science, Geography (Minor In GIS), BSc Geography, Natural Resource Management, Commerce, Nursing or Natural Resources Planning.

**Effective Date:** Established 2008, ~~Note: This is a one time award~~ subject to renewal on an annual basis.

### 8.3 Steering Committee of Senate

Iwama

#### S-201009.12

#### **Revision to Senate Handbook — Consent Agendas**

Hutchings / Reid

That the most recent edition of the Senate Handbook be amended to recognize formally the practice of using Consent Agendas through the following changes (commentary in Courier font):

- In Article 3(u)(i) [Order of the Agenda] insert “Approval of the Consent Agenda” between “Question Period” and “Reports of Committees”.
- In Article 3(bb) [Conduct of Meetings] add a new subsection 3(bb)(vii) that reads as follows:

The Senate may use a Consent Agenda to expedite the routine business of Senate. The Consent Agenda is an omnibus motion to approve motions that have been identified as being routine, either by Senate Committees on their own behalf, or by the Steering Committee of Senate.

The intent of using a Consent Agenda is to approve rapidly items of a routine nature, while still protecting the rights of individual Senators to engage in debate on any matter that a Senator feels to be of importance.

When a motion to adopt the Consent Agenda is on the floor the following rules apply:

- (a) As the purpose of the motion is to expedite business, the motion is undebatable.
- (b) At the request of any voting Senator, the Consent Agenda shall be amended to remove from the omnibus any motion that the Senator wishes to discuss.
- (c) Adoption of the Consent Agenda requires a simple majority vote.  
[Should adoption of the Consent Agenda fail, all motions are placed on the regular agenda.]
- (d) After the consent agenda is adopted, the items on it are considered adopted, and are consequently ignored when encountered in the normal course of business.  
[Should need arise, a motion adopted through the consent agenda may be reconsidered through a normal motion to reconsider.]

Effective date: September 23, 2010

CARRIED.

### 8.4 Senate Committee on Nominations

Reid

#### S-201009.13

#### **Membership Changes to Senate and/or Senate Committees (no material)**

Reid / Donker

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate and/or Senate committees as indicated, be appointed as proposed.

**SENATE OR SENATE COMMITTEE POSITION TO BE FILLED**  
*(except when otherwise noted, all terms begin immediately)*

**CANDIDATE**

**Senate Committee on Academic Policy and Planning**

Faculty Senator (until March 31, 2012)

Jianbing Li

**SCAPP and SCRGs Continuing Studies Credit Committee**

Undergraduate Student (until March 31, 2011)

Joyce Forson

**Senate Committee on First Nations and Aboriginal Peoples**

First Nations Representative — Member at Large (until March 31, 2013)

Nancy James

**Senate Committee on Scholarships and Bursaries**

Undergraduate Student (until March 31, 2011)

Joyce Forson

As there were no further nominations from the floor, the motion was CARRIED.

**8.4.1 Election of Vice Chair of Senate**

The Chair of the Senate Committee on Nominations, Senator Reid, thanked Dr. Dale on behalf of Senate for his service as the Vice Chair of Senate. He then opened the floor to nominations for the position of Vice Chair of Senate. Senator Dale nominated Senator Hutchings, and Senator Hutchings accepted the nomination. Senator Binnema nominated Senator Casperson, and Senator Casperson accepted the nomination. As there were two nominees, Senators voted by secret ballot, and Senator Hutchings was elected as Vice Chair of Senate for a term of one year. Senator Hutchings was congratulated on his election. Dr. Iwama noted that both Senator Casperson and Senator Hutchings were members of the Steering Committee of Senate and thanked them for standing for election for the position of Vice Chair of Senate.

**8.5 Senate Committee on Student Discipline Appeals**

**Reid**

**8.5.1 Annual Report (Verbal)**

Senator Reid provided a verbal annual report from the Senate Committee on Student Discipline Appeals. He reported that there had been no appeals to this committee, that they had met twice during the year to develop policy and procedures to be used by the committee, and the policy would be forwarded to the next meeting of Senate.

**9.0 Other Business**

**9.1 Report of the Registrar**

**DeGrace**

The Registrar had nothing to report.

**10.0 Information**

Dr. Iwama reported that attending Senate meetings was a highlight for him, and that he regretted he would be absent from the next meeting of Senate to attend a meeting of the Association of Universities and Colleges of Canada. Thus, Dr. Iwama indicated, the new Vice Chair, Senator Hutchings, would be chairing the meeting, and thanked Senator Hutchings in advance for doing so.

**11.0 S-201009.14**

**Adjournment**

Reid / Hutchings

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 2:00 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

October 27, 2010  
3:30 – 5:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

G. Ashoughian, S. Beeler, T. Binnema, R. Brouwer, C. Carriere, D. Casperson, C. Chasteauneuf, L. Chen, M. Dale, J. DeGrace (Secretary of Senate), S. Déry, H. Donker, G. Fondahl, M. Green, W. Haque, M. Hatcher, D. Hemingway (Acting Dean of CASHS), R. Hoffman, K. Hutchings (Vice Chair), E. Jensen, M. Kizhakkeniyil, J. Li, J. MacDonald, S. McKenzie, C. Myers (Recording), D. Nyce, C. O'Callaghan, M. Reid, D. Ryan, I. Uche-Ezeala, J. Van Barneveld, S. Wagner, A. Yakemchuk

**Regrets:**

O. Adegbite, J. Alec, E. Annis, M. Archie, S. Bennett, G. Iwama (Chair), E. Kim, R. Lazenby, D. Leighton-Stephens, D. Macknak, F. MacPhail, R. Robinson, J. Young, S. Zahir

**Absent:**

A. Dayanandan

---

The meeting commenced at 3:30 p.m. In the absence of Dr. Iwama, the meeting was chaired by Senator Hutchings, Vice Chair of Senate.

**1.0 S-201010.01**

**Approval of the Agenda**

Donker / Déry

That the Agenda for the October 27, 2010 Public Session of Senate be approved as presented.  
CARRIED.

**2.0 Senate Minutes**

**2.1 S-201010.02**

**Approval of Senate Minutes of September 23, 2010**

Donker / Carriere

That the minutes of the September 23, 2010 Public Session of Senate be approved as presented.  
CARRIED.

**2.2 S-201010.03**

**Approval of *REVISED* Senate Minutes of November 18, 2009**

Donker / Reid

That the revised minutes of the November 18, 2009 Public Session of Senate (add/drop dates in 2010-2011 semester dates, to reflect amendment approved by Senate) be approved as presented.  
CARRIED.

### **3.0 Business Arising from Previous Minutes of Senate**

No business arising was identified.

### **4.0 President's Report**

**Iwama**

As Dr. Iwama was absent from the meeting, he provided a written report. Senator Hutchings provided Senators with a verbal summary of the highlights contained in President Iwama's report.

### **5.0 Report of the Provost**

**Dale**

#### **5.1 Enrolment Report**

Dr. Dale provided a PowerPoint presentation and report regarding enrolment numbers. In his report, Dr. Dale noted that the most crucial point was that undergraduate enrolments have decreased by 102 students, or 3.4%. Overall, the decrease in full-time equivalents (FTE) is 1.2%. Dr. Dale added that, although international student numbers have increased, international students do not contribute to the FTE numbers for the purpose of the annual Provincial grant, so it is concerning that the University has not met the enrolment target set by the Ministry.

To deal with enrolment concerns, the University is undertaking a number of initiatives, including hiring an Assistant Provost to deal with enrolment, reviewing the University's academic practice and structure, moving some resources from international to domestic student recruitment, and mounting an advertising campaign in Vancouver and Toronto.

Dr. Dale provided Senators with information from a report of the Globe and Mail regarding student satisfaction, which was based on a survey of students. He noted that the results of the report indicate that there are actions UNBC can take to improve students' experiences, including ensuring availability of upper-division and environment-related courses.

With regard to the Wood Innovation and Design Centre, the Provost reported that, as a result of the recent change of Minister for the Ministry of Advanced Education and Labour Market Development, he was uncertain of what effect this might have on the progress of the Centre.

Several comments were made regarding the report, and Dr. Dale responded to some questions from Senators in this regard.

### **6.0 Question Period**

A Senator questioned the status of the changes to the Mathematics, Computer and Physical Sciences degree approved at the last Senate meeting, since he was aware there was a moratorium, from the Ministry's Degree Quality Assessment Board (DQAB), on approval of new degrees and programs. Dr. Dale replied that DQAB had indicated they would not review the request until the moratorium was lifted. Dr. Mandy was present at the meeting, and commented that some revised motions would be advanced to Senate in light of DQAB's response.

A Senator questioned the policy regarding scheduling of examinations, commenting that the exam schedule for first-year students contains four exams during the first four days of the schedule. The Senator felt this was a poor policy that did not facilitate retention of students, and added that he had been told the policy was to have examinations for large classes at the beginning of the examination period to provide more time for those teaching these classes to submit their grades. Mr. DeGrace responded that this was correct. The Senator replied that a day's break between the exams would be helpful. Following up on this discussion, another Senator asked whether Mr. DeGrace had information about when UNBC's exam schedule was released in relation to other universities. The Registrar responded that he did not have this information. When asked what barriers existed to releasing the exam schedule in September, the Registrar responded that he would like to consult with the Scheduling Coordinator before providing an answer to this question, but that one of the issues was that there was only one person responsible for the totality of the University's scheduling.

The Senator who had asked previously about the status of DQAB approvals asked whether the memorandum in this regard could be released to Senate, and the Provost responded that he would provide a copy.

A Senator asked for information regarding President's Executive Council (PEC), such as the membership of PEC, its role, and its place in the governance structure. The Provost responded that he would ask Mr. Tim Thomas to compile this information for Senators.

The question was raised as to whether UNBC is a member of the Alberta Council on Admissions and Transfer, and the Registrar responded that it is not.

A Senator noted that the minutes of the Board of Governors were not contained on the Board website, and asked why not. Ms. Myers responded that this was a matter of the Executive Assistant to the Board of Governors not being granted access to the content management system in order to upload the minutes. Ms. Myers added that she had previously agreed to assist with doing so, as she had access, but that access appeared to have been removed. Ms. Myers was asked to bring this concern to the Steering Committee of Senate.

Dr. Dale was asked to provide monthly enrolment reports like Dean Madak had done, and he agreed to do so.

## **7.0 S-201010.04**

### **Approval of Motions on the Consent Agenda (no material)**

Binnema / Bennett

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

A Senator indicated that motion S-201010.11 was not noted as being on either the regular or consent agenda, and Ms. Myers reported that it should be on the regular agenda.

CARRIED.

## **8.0 Committee Reports**

### **8.1 Senate Committee on Academic Policy and Planning**

**Dale**

#### **"For Approval" Items:**

#### **S-201010.05**

#### **Renewal of Student Exchange Agreement Between the University of Southern Denmark (USD), Denmark and the University of Northern BC**

Donker / Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the student exchange agreement between the University of Southern Denmark (USD), Denmark and the University of Northern BC be renewed as proposed.

Effective date: September 2010

CARRIED.

The UNBC policy entitled "'Schools' Within the University" was included for information.

#### **S-201010.06**

#### **Approval of Name Change — "Health Sciences Programs" to "School of Health Sciences"**

Reid / Jensen

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the Health Sciences Programs become the School of Health Sciences, as per the "'Schools' within the University" policy (S-200303.07).

Effective date: January 2011

A Senator noted that there were two motions of this nature and suggested that, rather than having units change their names individually, he would like to see a global change made in this regard. The Provost

responded that he would interpret this comment as a plea for consistency. He added that he has been allowing Programs to make the choice, which has been discussed at SCAPP, but feels this practice should be continued unless issues arise as a result.

CARRIED.

#### **S-201010.07**

#### **Revisions to Program Calendar Description — “Health Sciences Programs” to “School of Health Sciences”**

Jensen / Casperson

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the program description, on page 140-143 of the 2010/2011 undergraduate calendar, be revised and approved as proposed.

Effective date: January 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikerthrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The Bachelor of Health Sciences degree is a four-year program consisting of a range of courses that relate directly to the science of health, in the recognition that health is a complex entity defying a simple explanation or a single disciplinary perspective. The courses identified within the ~~Program~~ School of Health Sciences offer learning opportunities from a variety of disciplines, including the Life Sciences, Social Sciences, Behavioural Sciences, and Ethics and Law, to enable students to develop a body of knowledge and understanding relating to the dimensions of Health. Some of these courses are considered to be ‘core’ and therefore central to the basic understandings of health, while others offer the student opportunities to learn about a specific health perspective that is focused on one of three Majors: i) Biomedical Studies, (ii) Community and population Health-Environmental Health, or, (iii) Community and Population Health-Aboriginal and Rural Health. Graduation from either of the Community and Population Health Majors enables students to embark on careers or graduate programs related to health care management, administration, information systems or public health.

Students pursuing the Biomedical Studies Major are required to complete a set of courses that enables them to be prepared for application to professional programs such as medicine, nursing, pharmacy, occupational therapy, dentistry, speech pathology or physiotherapy. This major provides a foundational, multidisciplinary knowledge base that is focused on the natural, physical, and social sciences, and includes population health and research methodology.

All students graduating with the Bachelor of Health Sciences degree will have developed critical analytical skills, life-long learning skills, and the ability to work from the evidence of best practice.

## **General Requirements**

To be awarded the BHSc degree, students are required to complete 120 credit hours of University-level courses. This consists of 57 credit hours of common requirements for all BHSc students, with the remainder coming from the following majors, and electives:

**Biomedical Studies:** Students take 48 credit hours of courses from the Biomedical Studies major and 15 elective credit hours.

**Community and Population Health - Aboriginal and Rural Health:** Students take 33 credit hours from the common course requirements for both Community and Population Health Majors, as well as a minimum of 12 credit hours (6 specified, 6 with some choice) in Aboriginal and Rural Health-related courses. The remaining 18 credit hours are obtained from elective credit hours.

**Community and Population Health - Environmental Health:** Students take 33 credit hours from the common course requirements for both Community and Population Health Majors, as well as a minimum of 12 credit hours (6

specified, 6 with some choice) in Environmental Health-related courses. The remaining 18 credit hours are obtained from elective credit hours.

Students enrolling in Health Sciences courses with prerequisites are required to have completed all prerequisite courses for those courses with a C- or better, or have permission to enroll from the ~~Program~~ School Chair.

## **Bachelor of Health Sciences Honours (BHSc, Honours)**

Admission to the honours program takes place after the end of the second year (i.e., upon completion of 60 credit hours) and requires a minimum CGPA of 3.33 over the previous 30 credit hours, or permission of the School Chair. Consultation with Student Advising is highly recommended before applying. Attaining the minimum requirement does not guarantee admission to the honours program, which is at the discretion of the School Chair. To remain in the honours program, students must maintain a minimum SGPA of 3.33. All honours students complete a thesis project (HHSC 490-6 Honours Thesis) under the direct supervision of a faculty member.

### **S-201010.08**

#### **New Course Approval — COMM 352-3**

Carriere / Donker

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course COMM 352-3 e-business be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The course provides an introduction to electronic business concepts and e-business strategies. The students study various e-business models and applications, their benefits and risks, infrastructure needs, Business-to-Business and Business-to-Customer strategies, and legal and ethical issues. An introduction to business intelligence tools is also provided. Students work in teams to develop an internet business plan and implement a prototype with emphasis on form validation, security, electronic payment systems, and linkage with backend databases.

**Prerequisites:** CPSC 250 or permission of Chair

### **S-201010.09**

#### **Approval of Semester Dates for 2011-2012 and Provisional Semester Dates for 2012-2013**

Reid / Donker

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the Semester Dates for 2011-2012, and the provisional Semester Dates for 2012-2013, be approved as proposed.

Effective date: Dates for 2011-2012 to be released with the next Academic Calendars in March 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **UNDERGRADUATE SEMESTER DATES**

(16 September)

**Undergraduate Semester Dates for 2011-2012 - Final**, offered for approval by Senate in the fall of 2011:

[Note that, for each of the September and January Semesters, a day's break after the long weekend starting the semester has been inserted in advance of the first day of classes.]

## **UNDERGRADUATE CALENDAR**

### **8.2 Senate Committee on Research and Graduate Studies**

**Fondahl / MacPhail**

Dr. Fondahl reported that the PhD in Health Sciences had been approved by the Degree Quality Assessment Board, which precipitated a round of applause from Senators.

#### **“For Approval” Items:**

##### **S-201010.10**

##### **Approval of Strategic Research Plan**

Déry / Carriere

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the Strategic Research Plan be approved as proposed.

Effective date: Upon approval by Senate

CARRIED.

##### **S-201010.11**

##### **Change to Program Preambles — Health Sciences Programs**

Donker / Reid

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change(s) to the Health Sciences program preambles, on pages 62-64 of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: January 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **page 62, 2010/2011 calendar**

Community Health Science (MSc Program)

Graduate Supervisors are noted below but faculty from other programs listed in the Calendar may co-supervise students as well.

Henry Harder, Professor, and ~~Program~~ Chair of the School of Health Sciences

#### **page 63**

Transfer Credit

A maximum of two courses (six credit hours) completed with at least a B standing at a recognized University may be transferred with the approval of the advisor and the Chair of the ~~program~~ School of Health Sciences

**S-201010.12**

**Revision to Program Requirements and Calendar Description — School of Social Work**

Donker / Van Barneveld

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the UNBC Academic Calendar Description for Social Work be approved as proposed.

Effective date: January 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The Master of Social Work program is available on a full- or part-time basis, and can be completed through a thesis or practicum route. The MSW builds on the BSW by offering students an integrated research/policy/practice concentration in one of the key thematic areas: social work in northern and remote areas, First Nations, women and the human services, and community practice and research. The aim of the MSW is to provide students with advanced social work research, policy, and practice skills. It is designed to enable students to pursue independent studies that will help them undertake a variety of responsibilities in management, policy formulation, program consultation, planning, advanced social work, clinical practice, and research within the human services.

### Admission

Enrolment in the MSW is strictly limited.

In addition to the admission application requirements outlined in Section 1.0 of the [Graduate Academic Calendar](#), applicants are required to undergo a criminal records search, and provide evidence of this prior to being considered for admission. Completion of the MSW Supplementary Application form is also required in order to be considered for admission. The MSW Supplementary Application form is included with the application material for this program. Two academic letters of reference and one professional letter of reference must be submitted.

Application deadlines are found in this calendar under "Semester Dates" or online at: [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under "Semester Dates." The Social Work MSW Program accepts students for the September Semester.

For additional information about graduate admissions or to download application materials, go to the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

The MSW program at UNBC emphasizes a pro-active orientation that aims to provide informed theoretical, empirical, and substantive choices for improvements in human service programs, policies, education, and social work practice. This approach to social work and social policy is known as social administration.

The key elements in this social administration approach as they relate to the thematic areas of the MSW at UNBC consist of the following:

- the description and analysis of the operation of human services in northern and remote regions;

- the study of social policies and social work practices, and their individual and social consequences for the people and communities in the interior and northern British Columbia;
- the examination of global, historical, social, and economic changes, and the way these affect the living conditions and the people served by human service agencies and organizations in northern and remote areas; and
- the recognition of the values central to the responsibility of human service professionals to work with socially disadvantaged and powerless groups, and to expand the power and resources of these groups through social work practice.

Within this social administration approach courses are arranged so students develop skills that integrate the research/policy/practice domains of social work. A major emphasis of the MSW is to foster critical intervention skills that link the domains of social policy, social work research, and social work practice. For example, if one chooses to develop a speciality in community practice and research, or social policy, the program of studies will emphasize the linkages between these domains or dimensions of social work.

### Requirements

The MSW consists of a practicum or thesis option, and clusters of courses that provide for a research/policy/practice concentration in one of the key focus areas: social work in northern and remote areas, First Nations, women and the human services, and community practice and research.

Human service experience is required before candidates can be considered for the MSW program. Please see descriptions for Entry Routes 1 and 2 (below). To be admitted, a grade point average of at least 3.00 (“B”) in the work of the last 60 credit hours (approximately the last two years) leading to the Baccalaureate degree is required. Letters of reference, as well as a written statement of the candidate's research and practice interests and reasons for pursuing a MSW, are also required. A personal interview may be requested. Applicants who do not meet the above requirements may still be admitted under the provisions of affirmative action.

### Taking a MSW at UNBC

There are two entry routes into the MSW.

Entry from a Bachelor of Social Work, and one year (12 months full-time equivalent) post-BSW human service experience. Entry at this level leads directly into the MSW Program.

For full-time students this will consist of 33 credit hours, including completion of a thesis or practicum report.

This program requires the successful completion of a minimum course work of 27 credit hours for practicum students, and 21 credit hours for thesis students. The program comprises an integrated core of five required courses, two elective courses, and a thesis, OR five required courses, four electives, and a practicum.

Entry with a Bachelor degree in a related field or discipline, and two years (24 months full-time equivalent) human service experience. Entry at this level begins with an MSW Foundation Year of studies.

For full-time students entering from a Bachelor degree in a related field, this MSW program will consist of a minimum two years (24 months) program of course and practica. A thesis or practicum report is

required following completion of course work. An oral defense is required for the thesis. This route normally includes 66 credit hours, consisting of 33 credit hours in each of the two years.

## MSW

### Requirements

Thesis students must take the following required courses:

SOCW 609-3 Advanced Quantitative Research  
HHSC 703-3 Advanced Qualitative Research Approaches in Health and Human Sciences  
SOCW 704-3 MSW Integrative Seminar  
SOCW 700-12 MSW Thesis

Practicum students must take the following required courses:

SOCW 609-3 Advanced Quantitative Research  
HHSC 703-3 Advanced Qualitative Research Approaches in Health and Human Sciences  
SOCW 704-3 MSW Integrative Seminar  
SOCW 732-6 MSW Practicum II

All students are required to take at least two of the following courses, and may take the other two courses as electives:

SOCW 601-3 Current Issues in Northern/Remote Social Work  
SOCW 602-3 First Nations: Advanced Social Work Practice  
SOCW 603-3 Women: Policy/Practice Issues  
SOCW 605-3 Community Work/Politics of Change

### Electives

SOCW 604-3\* Directed Readings/~~Electives~~  
SOCW 610-3 Wellness: Alternate Approaches  
SOCW 613-3 Clinical Social Work Practice  
SOCW 615-3 Multi-Cultural Social Work Practice  
SOCW 620-3 Policy Making/Human Services  
SOCW 621-3 Comparative Welfare Analysis  
SOCW 651-3 Legal Issues for Women  
SOCW 698-3 Special Topics  
SOCW 701-3 Research Practicum

Thesis students are required to take a total of two electives. Those two electives may be taken from the two lists immediately above, and/or from other UNBC graduate programs, and/or from other accredited Canadian universities via approved transfer agreements (e.g., the Western Deans' Agreement).

Practicum students are required to take a total of four electives, two of which must come from the two lists of courses immediately above. The two other electives may come from the above lists and/or taken from other UNBC graduate programs and/or from other accredited Canadian universities via approved transfer agreements (e.g., the Western Deans' Agreement).

\* Students may only take SOCW 604-3 Directed Readings/~~Electives~~ course once for 3 credits.

## MSW Foundation Year

For those with baccalaureate degrees in related areas and two years of full-time previous human service experience, the MSW will normally consist of 66 credit hours (two years) of study. The foundation year will consist of six 600 level courses, two 600 level electives, plus a Practicum ([SOCW 632-9](#)).

The 600 level courses are:

SOCW 630-3 Communication Skills  
SOCW 631-3 Critical Social Work Practice  
SOCW 632-9 MSW Practicum I  
SOCW 633-3 Critical Social Policy  
SOCW 634-3 Social Work Research/Policy/Practice  
SOCW 635-3 Social Work Philosophy and Ethics  
SOCW 637-3 Advanced Practice

MSW students in their Foundation Year must successfully complete SOCW 634-3 prior to registration in SOCW 609 and HHSC 703.

### “For Information” Items:

#### **SCRGS201010.03**

##### **Changes to Course Title and Description — SOCW 604-3**

That the changes to the course title and course description for SOCW 604-3 Directed Readings/Electives, on page 131 of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: January 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### SOCW 604-3 Directed Readings/~~Electives~~

Directed Readings ~~and Electives~~ enables students to undertake an independent reading course in an area that fits a chosen MSW research/policy/practice concentration. ~~Another option is to pursue an elective that fits a chosen MSW concentration from courses offered in other faculties at UNBC. Normally s~~Students may will take a maximum of one Directed Readings ~~course and Elective~~.

### 8.3 Senate Committee on Scholarships and Bursaries

Russell

### “For Information” Items:

#### **SCSB20100922.03**

##### **Brett and Natalie Stewart Award**

That the new Terms and Conditions for the Brett and Natalie Stewart be approved.

Effective Date: 2010/2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

##### **Award Category: Open**

##### **Award Name: Brett and Natalie Stewart Award**

**Calendar Description/Intent:** Brett and Natalie Stewart are both graduates of UNBC. Brett was a four year student athlete on the UNBC Men’s Varsity Basketball team and was recognized as an Academic All-Canadian during his playing career. Brett and Natalie both feel

strongly that academics and athletics are both instrumental in developing well rounded citizens and have established an award to recognize male athletes accepting that challenge at UNBC

**Donor:** Brett and Natalie Stewart

**Value:** \$1,000

**Number:** One

**Placement in which Calendar:** Undergraduate

**Award Type:** Award

**Eligibility:** Available to a full time undergraduate student who is a member of the Men's Varsity Basketball team at UNBC.

**Criteria:** Satisfactory academic standing.

**Application Instructions:** Fill out all sections of the Awards Application form.

**Effective Date:** Established 2010

**Recipient Selection:** Senate Committee on Scholarships and Bursaries on recommendation by the men's basketball coach and the UNBC Awards Office.

#### **SCSB20100922.04**

##### **Doctoral Dissertation Completion Award**

That the new Terms and Conditions for the Doctoral Dissertation Completion Award be approved.

Effective Date: October 2010

#### **SCSB20100922.05**

##### **Edna Chesley Memorial Bursary**

That the new Terms and Conditions for the Edna Chesley Memorial Bursary be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Category:** In-course

**Award Name:** Edna Chesley Memorial Bursary

**Calendar Description/Intent:** Edna valued education and the dedication and commitment to nursing studies by those who also had primary responsibilities to their children. Edna appreciated the quality nursing care given by registered nurses and in particular, nurses in her hometown of Quesnel.

**Donor:** Carol Webber

**Value:** \$1,000

**Number:** One

**Placement in which Calendar:** Undergraduate

**Award Type:** Bursary

**Eligibility:** Available to a full time undergraduate student enrolled in the School of Nursing (BScN Program). Student must be a lone parent studying at the UNBC Quesnel campus.

**Criteria:** Demonstrated financial need and satisfactory academic standing.

**Application Instructions:** Fill out all sections of the Awards Application form.

**Effective Date:** Established 2010

**Recipient Selection:** Senate Committee on Scholarships and Bursaries on recommendation by the UNBC Awards Office.

#### **SCSB20100922.06**

##### **KJM Sales Ltd Leadership Award**

That the new Terms and Conditions for the KJM Sales Ltd Leadership Award be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Category:** Open

**Award Name:** KJM Sales Ltd. Leadership Award

**Calendar Description/Intent:** KJM Sales Ltd. Is a family owned industrial sales and steel fabricating company in Prince George. KJM Sales Ltd. is proud to help support students reach their academic goals.

**Donor:** KJM Sales Ltd.

**Value:** \$2,000

**Number:** One

**Placement in which Calendar:** Undergraduate

**Award Type:** Award

**Eligibility:** Available to a full time undergraduate student with demonstrated community involvement and leadership as well as involvement in recreational activities.

**Criteria:** Satisfactory academic standing.

**Note:** The UNBC Awards office will forward all eligible applications to KJM Sales Ltd. who will then review and make a recommendation to the UNBC Awards Office.

**Application Instructions:** Submit a letter of nomination from a third party to the Awards and Financial Aid Office. The letter must provide confirmation of your leadership activities, community and recreational involvement.

**Effective Date:** Established 2010

**Recipient Selection:** Senate Committee on Scholarships and Bursaries on recommendation by KJM Sales Ltd. and the UNBC Awards Office.

#### **SCSB20100922.07**

##### **KJM Sales Ltd Award**

That the revised Terms and Conditions for the KJM Sales Ltd Award be approved.

Effective Date: 2010-2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Category:** Open

**Award Name:** KJM Sales Ltd. Athletics Award

**Calendar Description/Intent:** KJM Sales Ltd. is a family owned industrial sales and steel fabricating company in Prince George. KJM Sales Ltd. is proud to help support students reach their academic goals.

**Value:** \$2,000

**Number:** ~~Two (2)~~ Varsity Athletic Awards as follows: Three (3)

~~– One (1) Men's Varsity Basketball Team student athlete~~

~~– One (1) Women's Varsity Basketball Team student athlete~~

**Placement in which Calendar:** Undergraduate

**Award Type:** Award

**Eligibility:** Available to full time undergraduate students who are members of the varsity basketball teams. ~~as outlined above and who are involved in other recreational activities.~~

**Criteria:** Academic Proficiency Satisfactory Academic Standing

**Note:** ~~The UNBC Awards office will select a maximum of 4 suitable eligible applicants applications and forward them to KJM Sales Ltd. who will then review and make a recommendation to the UNBC Awards Office.~~

**Application Instructions:** ~~Fill out all sections of the Awards Application form and submit a letter outlining your leadership activities, community and recreational involvement.~~ Nominations will be made by the respective coaches.

**Effective Date:** Established 2008

**Recipient Selection:** Senate Committee on Scholarships and Bursaries on recommendation by ~~KJM Sales Ltd.~~ the coaches and the UNBC Awards Office.

**S-201010.13****Approval of Policy for the Senate Committee on Student Discipline Appeals**

Reid / McKenzie

That, on the recommendation of the Steering Committee of Senate, the policy for the Senate Committee on Student Discipline Appeals be approved as proposed and put into the Undergraduate and Graduate academic calendars.

Effective date: Immediately upon approval by Senate

A Senator expressed concern over the unevenness between the University and students, as this policy does not allow for the Committee to determine that the University's decision was groundless. Senator Reid, Chair of the Senate Committee on Student Discipline Appeals, responded that the committee had discussed this point at length, and had consulted legal counsel on the matter. Committee members were of the opinion that the appropriate course of action is to send an appeal back to the decision-maker with instructions regarding how the matter can be dealt with properly, which is similar to the manner in which the Senate Committee on Academic Appeals deals with grade appeals, for instance.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

[FOR INSERTION IN THE UNDERGRADUATE ACADEMIC CALENDAR under Undergraduate Regulations and Policies, replacing item "7. Appeals", of section III – Student Conduct Statement of Principles. Current Section "8. General Matters" should be moved prior to the new Section 7, so that "8. General Matters" becomes "7. General Matters" and "7. Appeals" becomes "8. Appeal of a decision imposing discipline under the Student Conduct Statement of Principles".]

[FOR INSERTION IN THE GRADUATE ACADEMIC CALENDAR under Graduate General Regulations and Policies, replacing item "7. Appeals", of section III (incorrectly numbered II in the 2010-2011 Graduate Academic Calendar) – Student Conduct Statement of Principles. Current Section "8. General Matters" should be moved prior to the new Section 7, so that "8. General Matters" becomes "7. General Matters" and "7. Appeals" becomes "8. Appeal of a decision imposing discipline under the Student Conduct Statement of Principles".]

### **8. Appeal of a decision imposing discipline under the Student Conduct Statement of Principles**

A student who is subject to a penalty imposed by the President or Provost (or delegate) (the Decision Maker") under Regulation and Policy III, Student Conduct Statement of Principles ("Student Conduct Policy"), may appeal to the Senate Committee on Student Discipline Appeals ("SCSDA"). The SCSDA is the final adjudicator of appeals under the Student Conduct Policy.

A copy of the procedures for appeals under the Student Conduct Policy is available from the Office of the Registrar. Please note that the procedures include a 15-day time limitation for filing a notice of appeal.

Appeals of academic decisions under Regulation and Policy V: General Academic Regulations and appeals of decisions under Regulation IV: Harassment, Discrimination and Diversity Initiatives are addressed under those regulations and policies.

## **9. Grounds for an Appeal under the Student Conduct Policy**

An appeal to the SCSDA is not a full re-hearing of the decision to impose discipline. A student's appeal of the imposition of discipline under the Student Conduct Policy to the SCSDA must be made on one of more of the following bases:

- (a) The Decision Maker incorrectly applied a University policy and, as a result, the decision was unfair;
- (b) The student has material evidence that was not reasonably available prior to the time of the decision under appeal, and knowledge of that evidence would probably have led to a different decision;
- (c) During the process leading up to the imposition of discipline the student did not know the substance of the complaint and was not given, at some point in the process, a reasonable opportunity to respond, or the process was otherwise procedurally unfair.

## **10. Standards of Review**

The SCSDA will review the Decision Maker's decision on one or more of the three grounds of appeal listed above, with regard to the standards of review listed below.

- (a) Where the appeal is under 9 (a), the appropriate standard as to whether the Decision Maker misapplied a University Policy is correctness. The standard of review as to whether the decision was, as a result, unfair, is reasonableness; that is whether a reasonable person, knowledgeable about the facts, would perceive it to be unfair to let a decision based on the incorrect application of the policy stand.
- (b) Where an appeal is under paragraph 9 (b), the appropriate standard of review is reasonableness; that is whether a reasonable person, knowledgeable about the facts, would perceive it to be unfair to let a decision made without consideration of the new evidence stand.
- (c) Where an appeal is under paragraph 9 (c), the appropriate standard of review is reasonableness; that is whether a reasonable person, knowledgeable about the facts, would perceive the process to be unfair.

## **11. Outcomes**

An appeal under the Student Conduct Policy will result in one of the following three outcomes:

- (a) The Chair of the SCSDA, in consultation with the Registrar, may dismiss the appeal on a preliminary basis, on the basis that the appeal is frivolous, vexatious or an abuse of process;
- (b) The SCSDA may uphold the disciplinary decision;
- (c) The SCSDA may refer the matter back to the Decision Maker for further decision, or for further investigation and then further decision, as the Decision Maker may determine.

In all cases, where an appeal is allowed, the original penalty will remain in effect until the matter is reconsidered and a further decision is made by the Decision Maker.

**S-201010.14**

**Approval of Procedures for the Senate Committee on Student Discipline Appeals**

Reid / Carriere

That, on the recommendation of the Steering Committee of Senate, the procedures for the Senate Committee on Student Discipline Appeals be approved as proposed and be made available through the Office of the Registrar.

Effective date: Immediately upon approval by Senate

**Motion to amend Section 10 (b):**

Casperson / Van Barneveld

That Section 10 (b) be changed from:

“The SCSDA may refer the matter back to the Decision Maker for further decision, or for further investigation and then further decision, as the Decision Maker SCSDA may determine”

to read that:

“The SCSDA may refer the matter back to the Decision Maker for further decision, or for further investigation and then further decision, as the ~~Decision Maker~~ SCSDA may determine.”

Senator Reid responded that the University Act only requires that suspensions be appealable, but the SCSDA is dealing with all appeals regarding non-academic discipline. He added that, since a lawyer had reviewed the policy and procedures, he would not be comfortable changing the wording without the lawyer’s input. Finally, Senator Reid indicated that he would like to see Senate approve these procedures, as there was a potential appeal upcoming, and the Committee is currently without any approved procedures.

The proposed amendment was DEFEATED.

The main motion was CARRIED.

**8.5 Senate Committee on Nominations**

**Reid**

**S-201010.15**

**Membership Changes to Senate and/or Senate Committees**

Donker / Carriere

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate and/or Senate committees as indicated, be appointed as proposed.

**SENATE OR SENATE COMMITTEE POSITION TO BE FILLED**  
*(except when otherwise noted, all terms begin immediately)*

**CANDIDATE**

**Steering Committee of Senate**

Faculty Senator (until March 31, 2012)

Stan Beeler

**Senate Committee on Admissions and Degrees**

Faculty Member (until March 31, 2012)

Kristen Guest

**Senate Committee on Academic Policy and Planning**

Faculty Member — CASHS (until March 31, 2013)

Malinda Desjarlais

**Senate Committee on Student Discipline Appeals**

Administrative Staff Member (until March 31, 2013)

Robert Giardino

There being no further nominations from the floor, all candidates were declared appointed as proposed.

**9.0 Other Business**

**9.1 Report of the Registrar**

**DeGrace**

The Registrar had nothing to report.

**10.0 Information**

**10.1 Annual Report from the College of Science and Management**

Dean Ryan apologized for the oversight and asked that it be recorded in the minutes that there had been an omission in the report, and that the last bullet under item 4.2 should have read “Jianbing Li and Han Donker won Research award at Convocation May 2010.”

**11.0 S-201010.16**

**Move to In Camera Session**

Hemingway / Carriere

That the meeting move In Camera.

CARRIED.

**12.0 S-201010.20**

**Adjournment**

Carriere / McKenzie

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 4:55 p.m.

**RECORD OF PROCEEDINGS OF  
INFORMAL MEETING OF SENATORS  
(QUORUM NOT OBTAINED)**

November 24, 2010  
3:30 – 5:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

E. Annis, G. Ashoughian, S. Beeler, T. Binnema, C. Carriere, D. Casperson, C. Chasteauneuf, L. Chen, M. Dale, A. Dayanandan, J. DeGrace (Secretary of Senate), S. Déry, H. Donker, G. Fondahl, W. Haque, M. Hatcher, R. Hoffman, K. Hutchings (Vice Chair), G. Iwama (Chair), M. Kizhakkeniyil, R. Lazenby, D. Leighton-Stephens, J. Li, J. MacDonald, D. Macknak, F. MacPhail, C. Myers (Recording), D. Nyce, C. O'Callaghan, M. Reid, D. Ryan, J. Van Barneveld, S. Wagner

**Regrets:**

O. Adegbite, M. Archie, S. Bennett, R. Brouwer, M. Green, E. Jensen, E. Kim, S. McKenzie, R. Robinson, A. Yakemchuk, J. Young, S. Zahir

**Absent:**

J. Alec, I. Uche-Ezeala

---

The meeting commenced at 3:30 p.m.

**1.0 S-201011.01**

**Approval of the Agenda**

Déry / Ryan

That the Agenda for the November 24, 2010 Public Session of Senate be approved as presented.  
CARRIED.

**2.0 S-201011.02**

**Approval of Senate Minutes**

Donker / Reid

That the minutes of the October 27, 2010 Public Session of Senate be approved as presented.  
CARRIED.

**3.0 Business Arising from Previous Minutes of Senate**

**3.1 Memorandum from Ministry regarding moratorium on approval of new initiatives**

A Senator asked whether the moratorium would be extended beyond the initial six-month time frame. Dr. Dale responded that he did not know, but would ask the Ministry and report back to Senate.

#### **4.0 President's Report**

**Iwama**

Dr. Iwama thanked Senators for the work that has been done to secure several awards that UNBC has received lately. He indicated that he would be igniting the Bioenergy facility tomorrow, and reported on a meeting he and a group of delegates from Prince George had with several members of the renewable energy and clean technology sector. There is support for raising funds for further technology of this nature, and for initiatives like scholarships and research chairs related to renewable energy. Dr. Iwama added that the participants in the discussion imagined a larger vision in this regard, involving the full City of Prince George rather than just UNBC. The group is committed to meeting again in a few months and the Chancellor is keen to move this idea forward.

Dr. Iwama noted that the University has begun advertising in Toronto and Calgary, and has refreshed its advertisements in the Vancouver area.

He reported that there have been a number of changes in the provincial government. There is now a Ministry of Science and Universities, within which universities are governed, but the colleges fall within a new Ministry of Regional Economic Development. He added that the current Minister of Science and Universities, Ida Chong, is the first MLA on the HST recall list. Furthermore, the Minister of Regional Economic Development, Moira Stilwell, has resigned to run for the leadership of the Liberal party. Dr. Iwama raised these points to demonstrate the context in which the University is operating at the moment, noting that no further word has been received with regard to the Wood Innovation and Design Centre, for instance. In addition, representatives from the four research-intensive universities met with Colin Hansen and Ida Chong to request removal of the universities from the list of government reporting entities. Nothing has been resolved, but the university representatives were assured that they should continue to discuss this request with the government. Finally, Dr. Iwama reported that the universities have been promised an update regarding funding prior to the holiday break.

#### **5.0 Report of the Provost**

**Dale**

Dr. Dale reported that final Ministerial approval had been received with regard to the PhD in Health Sciences. He also reported that the Working Group meeting to discuss academic practice related to minors and such had provided their final report to the Senate Committee on Academic Policy and Planning (SCAPP), which would be coming to Senate in due course. Dr. Dale added that he would be asking SCAPP to strike another Working Group to look at letting go of offerings.

With regard to the presentation Dr. Dale had provided at the previous Senate meeting, he noted that the Maclean's magazine survey had not been released at that time, but was provided to the Board of Governors meeting on the weekend. He thus distributed further information to Senators regarding the Global and Mail and Maclean's surveys.

A Senator asked Dr. Dale whether UNBC was considering a mentoring program. Dr. Dale responded that this was on the list of budget items to improve retention. Concern was raised about the poor grades UNBC received in the surveys in relation to residence and food services, and it was noted that students comment on the lack of availability of food in the evenings and weekends. Dr. Iwama commented that the food services are better than they were, but there is room for improvement based on the report. He added that the staff in residence have improved the programming significantly. Food services are more complicated as a result of the fact the service is contracted, but Dr. Iwama suggested that they could be consulted about their hours of operation.

#### **6.0 Question Period**

The question was raised about whether there were any policies about the number of examinations a student should be required to write within a certain time frame, and the Registrar responded that there was as policy. The Senator expressed concern about a number of students having to write four examinations within the first four days of the examination period. Mr. DeGrace replied that this scenario fit within the examination policy, and that these types of situations arise because there is a limited time for the examination period unless the number of teaching days is shortened. The matter was discussed and Dr. Iwama suggested it would be useful to get a sense of the number of students affected by such a schedule. A Senator noted that, when the Northern Sport Centre (NSC) was being built, it had been suggested it would be available for examinations. Mr. DeGrace felt the additional space would not assist

with the schedule, but would facilitate proctoring. Dr. Iwama commented that he may discuss this matter with the Chair of the Northern Sport Centre Board, and asked Senators to think about whether securing some space in the NSC would help to alleviate this concern regarding examinations.

A Senator asked whether the enrolment report was available, and Dr. Dale circulated copies.

An update on the status of the hiring process related to the Assistant Provost was requested, and Dr. Dale replied that a candidate had been interviewed and that a decision was anticipated within the next few days.

## 7.0 **S-201011.03**

### **Approval of Motions on the Consent Agenda** (*no material*)

Déry / Beeler

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

## 8.0 **Committee Reports**

### 8.1 **Senate Committee on Academic Policy and Planning**

**Dale**

Dr. Iwama reported that, as a result of a lack of a quorum of students, the agenda items requiring approval would need to be ratified at the next Senate meeting.

#### **“For Approval” Items:**

#### **S-201011.04**

##### **Approval of General International Agreement between the University of Northern British Columbia and Wuyi University, China**

Donker / Macknak

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the General International Agreement between the University of Northern British Columbia and Wuyi University, China, be approved as proposed.

Effective date: January 1, 2011

CARRIED, contingent upon ratification at the next meeting of Senate.

#### **S-201011.05**

##### **Creation of a Master’s Degree in Cooperation with the University of Applied Sciences Northwestern Switzerland, School of Social Work (FHNW) and UNBC**

Macknak / Annis

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the creation of a Master’s degree in cooperation with the University of Applied Sciences Northwestern Switzerland, School of Social Work (FHNW) and UNBC be approved as proposed.

Effective date: January 1, 2011 to allow applications by February 15

A Senator asked whether these types of agreements contained a review mechanism to determine what has been achieved. Dr. Dale responded that he did not believe they did, and the President felt this was a good idea. He suggested that agreements should be reviewed periodically and closed if necessary.

#### **Amendment:**

Macknak / Annis

That the agreement be reviewed after five years.

CARRIED, contingent upon ratification at the next meeting of Senate.

A Senator asked whether this degree required approval by the Ministry’s Degree Quality Assessment Board, and Dr. Dale responded that the degree already exists so approval is not required. With regard to the amendment to require a review of the agreement, a Senator asked whether this requirement would be included in the motion only or in the agreement. He expressed discomfort with amending the agreement on the floor of Senate as it involved two parties. Dr. Dale responded that the amendment would be

included in the motion only, so that only UNBC would be required to review the agreement. Dr. Iwama suggested that a general policy be developed to ensure review of joint agreements.

**S-201011.06**

**Revisions to Program Calendar Description — “English Program” to “Department of English”**

Beeler / Reid

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change in designation of the English Program to the Department of English, on page 105 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: January 2011

CARRIED, contingent upon ratification at the next meeting of Senate.

**S-201011.07**

**Revisions to Program Calendar Description — “Computer Science Program” to “Department of Computer Science”**

Reid / Casperson

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change in designation of the Computer Science Program to Department of Computer Science on pages 89 and 331 of the 2010/11 undergraduate calendar be approved as proposed.

Effective date: January 2011

CARRIED, contingent upon ratification at the next meeting of Senate.

**S-201011.08**

**Course Deletion — PHYS 215-3**

Reid / Donker

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the course PHYS 215-3 Energy, Physics and the Environment be deleted from the UNBC Undergraduate Calendar as proposed.

Effective date: September 2011

CARRIED, contingent upon ratification at the next meeting of Senate.

**“For Information” Items:**

**SCAPP201011.05**

**Revisions to Course Title, Description, Prerequisite, and Preclusions — BIOL 333-3**

That the changes to the course title, course description, course prerequisite, and course preclusions for Biology 333-3 Field Camp, on page 188 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: January 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

BIOL 333-3 Field School ~~Field Camp~~ ~~Two week field course to be taken between semester six and seven or after semester eight. Field applications in integrated resource management. Open to biology majors.~~

This is an experiential course designed for students to focus on theoretical and practical skills involved in the field. Each field school is designed to incorporate the theories, models and other concepts introduced in the classroom and bring them into greater clarity by examining them in a real world setting. This course may be repeated with the permission of the instructor if the subject matter and course location differ substantially.

Prerequisites: pPermission of the instructor

Precluded: NREM 333-3 and ORTM 333-3

**SCAPP201011.07**

**Revisions to Course Description, Prerequisite, and Preclusion — NREM 333-3**

That the changes to the course description, course prerequisite, and course preclusion for NREM 333-3 Field Applications in Resource Management, on page 247 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: January 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

NREM 333-3 – Field Applications in Resource Management

~~This field course applies principles of integrated resource management.~~

This field-based course provides students with a practical understanding of principles of integrated resource management. The course focuses on the many values on a landbase through modularized lessons and an authentic case study approach. Meeting with various stakeholders and professionals working in the field allows students to explore relevant and contemporary issues in natural resource management.

~~Prerequisites: none~~ Permission of the instructor

~~Precluded: FSTY 333-3~~

**SCAPP201011.08**

**Revisions to Course Title, Description, and Prerequisites — ORTM 333-3**

That the changes to the course title, course description, and course prerequisites for ORTM 333-3 Field Experience be approved as proposed.

Effective date: May 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

ORTM 333-3 – Field Experience School

This is an experiential course designed ~~for~~ to enable ORTM students to focus on theoretical and practical skills involved in the field. Each field experience is designed to incorporate the theories, models and other concepts introduced in the classroom and bring them into greater clarity by examining them in a real world setting. The course integrates outdoor recreation and tourism perspectives. This field course applies principles of integrated resource management. This course may be repeated with the permission of the instructor if the subject matter and course location differ substantially.

Note: ORTM 333 is typically a spring/summer course and therefore the ORTM Program encourages students to take this course in their 2<sup>nd</sup> or 3<sup>rd</sup> year, prior to the fall semester of their 4<sup>th</sup> year. If a student chooses to take ORTM 333 in the spring of their 4<sup>th</sup> year there is no guarantee they will be able to graduate in May of that year.

~~Restrictions:~~

Must be enrolled in one of the following:

- ~~Fourth year~~
- ~~Third year~~

~~Precluded: RRT-333~~

Prerequisites: ~~RRT 3XX or ORTM 3XX or RRT 300 or ORTM 300 or RRT 301 or ORTM 301 or RRT 305 or ORTM 305 or RRT 306 or ORTM 306~~ none Permission of the Instructor

#### **SCAPP201011.09**

##### **Revisions to Course Title, Description, and Prerequisites — ORTM 433-(1-6)**

That the changes to the course title, course description and course prerequisites for ORTM 433-(1-6) Field Experience II be approved as proposed.

Effective date: May 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **ORTM 433-(1-6) – Field Experience School II**

This senior-level experiential course provides a combination of theoretical and practical skills in the field. The course integrates outdoor recreation and nature-based tourism perspectives, and is based in various locations in BC, and worldwide. ORTM 433 may be offered in conjunction with ORTM 333; in some years enrolment may be required in both.

Note: ORTM 433 is typically a spring/summer course and therefore the ORTM Program encourages students not to take ORTM 433 in the spring of their 4<sup>th</sup> year. If a student chooses to take ORTM 433 in the spring of their 4<sup>th</sup> year there is no guarantee they will be able to use the credit for graduation in May of that year.

#### *Restrictions:*

~~Must be enrolled in one of the following:~~

- ~~• Fourth year~~
- ~~• Third year~~

~~*Precluded:* RRT-333~~

Prerequisites: ~~RRT 3XX or ORTM 3XX or RRT 300 or ORTM 300 or RRT 301 or ORTM 301 or RRT 305 or ORTM 305 or RRT 306 or ORTM 306~~ none Permission of the Instructor

~~*Co-requisites:* ORTM 333~~

#### **SCAPP201011.11**

##### **Revisions to Course Description and Prerequisites — PHYS 110-4**

That the change(s) to the course description and course prerequisites for PHYS 110-4 Introductory Physics II: Waves and Electricity, on page 256 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **PHYS 110-4 Introductory Physics I: Mechanics**

This is the first part of the calculus-based introductory physics course for majors in physical and mathematical sciences. Covers: ~~V~~Topics include vectors, measurement, motion in one and two dimensions, the laws of motion, application of Newton's laws,

work and energy, potential energy, conservation of energy, linear momentum and collisions, rotation of rigid bodies, rolling motion, angular momentum, static equilibrium, elasticity, law of universal gravitation, and elements of thermodynamics.

Prerequisites: Physics 12 or PHYS 115-4, and Principles of Math 12 or Pre-calculus 12 or MATH 115-3

Co-requisites: MATH 100-3 or MATH 105-3

**SCAPP201011.12**

**Revisions to Course Description and Prerequisites — PHYS 120-3**

That the change(s) to the course description and course prerequisites for PHYS 120-3 Introduction to Astronomy I: The Solar System, on page 257 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PHYS 120-3 Introduction to Astronomy I: The Solar System

A This is a one-semester introductory course in Astronomy mainly for science students, but ~~of general enough nature to accommodate~~ be of interest to non-science majors with a proper background in mathematics. This course is a complementary course to PHYS 121-3. ~~After a brief introduction to the fundamentals of astronomy, including the sky at night, this course focuses on our solar system. Topics will include the following:~~ an overview of our solar system; the Sun; Earth and Moon; the inner planets: Mercury, Venus, and Mars; the gas giants: Jupiter, Saturn, Uranus, and Neptune; moons and ring structure of the gas giants; Pluto and Charon; asteroids, comets, meteors, and meteorites; the origin and evolution of our solar system; the origin and evolution of the sun. ~~This course is a self-contained course. PHYS 120 and PHYS 121 may be taken in either order.~~

Prerequisites: Principles of Math 11 or Pre-calculus 11 or Foundations of Mathematics 11

**SCAPP201011.13**

**Revisions to Course Description and Prerequisites — PHYS 121-3**

That the change(s) to the course description and course prerequisites for PHYS 121-3 Introduction to Astronomy II: The Universe, on page 257 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PHYS 121-3 Introduction to Astronomy II: The Universe

This is a one-semester introductory course in Astronomy mainly for science students, but ~~of general enough nature to accommodate~~ to be of interest to non-science majors with a proper background in mathematics. This course is ~~a complementary course to~~ PHYS 120-3. ~~After a brief introduction to the fundamentals of astronomy, including the sky at night, and summary of the main features of our solar system, this course focuses on stars, galaxies, and the universe. Topics will include the following:~~ the origins of stars

and planetary systems; ~~stars~~; the sun; properties and structures of stars; stellar interiors; the evolution of stars; stellar remnants; white dwarfs; neutron stars; black holes, worm holes and warped spacetime; ~~our galaxy~~; the Milky Way; the universe of galaxies; distance scales and indicators; active galaxies and quasars; cosmology: past, present, and future of the universe; “Is ‘Anyone’ Out There?” ~~This course is a self-contained course.~~ PHYS 121 and PHYS 120 may be taken in either order.

Prerequisites: Principles of Math 11 or Pre-calculus 11 or Foundations of Mathematics 11

## 8.2 Senate Committee on Scholarships and Bursaries

Russell

### “For Information” Items:

#### SCSB20101027.05

##### **Revised Terms and Conditions — Political Science Student Association Annual Scholarship**

That the revised Terms and Conditions for the Political Science Student Association Annual Scholarship be approved.

Effective Date: 2010/2011 Academic Year

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Application Instructions:** Fill out all sections of the Awards Application form and attach two reference letters demonstrating active involvement in the community and/or campus life. an essay not to exceed 2000 words. Applicants have a choice of three topics on which to write:

1) Discuss the election systems of Canada, and how it relates to government federally, provincially or locally, or all three.

2) Is the Governor General still a necessary position? Justify or reject the role he/she plays in Canadian culture, economics, and politics.

3) Discuss the ever changing divide between Provincial and Federal Sovereignty in Canada.

**Recipient Selection:** Senate Committee on Scholarships and Bursaries on recommendation by the UNBC Awards Office. The UNBC Awards Office will provide the Political Science Student Association Executive with the essays of the eligible applicants, who will then make a recommendation to the UNBC Awards Office.

#### SCSB20101027.06

##### **Dissolution of Terms and Conditions — Cloverdale Paint Bursary**

That the dissolution of the Terms and Conditions for the Cloverdale Paint Bursary be approved.

Effective Date: 2010-2011 Academic Year

#### SCSB20101027.07

##### **Dissolution of Terms and Conditions — Fasken Martineau DuMoulin LLP Annual Scholarship**

That the dissolution of the Terms and Conditions for the Fasken Martineau DuMoulin LLP Annual Scholarship be approved.

Effective Date: 2010-2011 Academic Year

## 8.3 Steering Committee of Senate

Iwama

#### S-201011.09

##### **Senate Handbook Revision — Terms of Reference for Senate Committee on Scholarships and Bursaries**

Beeler / Donker

That, on the recommendation of the Senate Committee on Scholarships and Bursaries, the Steering Committee of Senate recommend to Senate that the Senate Handbook be revised to include the Development Awards Officer position as a non-voting member of the Senate Committee on Scholarships and Bursaries.

Effective date: Immediately upon approval by Senate

CARRIED, contingent upon ratification at the next meeting of Senate.

**9.0 Other Business**

**9.1 Report of the Registrar**

**DeGrace**

The Registrar noted that, with regard to the request about examinations from the last meeting of Senate, he had reported under "Question Period."

**10.0 Information**

There were no items for information.

**11.0 S-201011.10  
Move to In Camera Session**

Hoffman / Déry

That the meeting move In Camera.

CARRIED.

**12.0 S-201011.14  
Adjournment**

Donker / Casperson

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 4:40 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

December 15, 2010  
2:30 – 4:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

O. Adegbite, J. Alec, E. Annis, G. Ashoughian, S. Beeler, S. Bennett, T. Binnema, R. Brouwer, C. Carriere, D. Casperson, L. Chen, M. Dale, A. Dayanandan, J. DeGrace (Secretary of Senate), H. Donker, G. Fondahl, M. Green, M. Hatcher, R. Hoffman, K. Hutchings (Vice Chair), G. Iwama (Chair), E. Kim, M. Kizhakkeniyil, R. Lazenby, D. Leighton-Stephens, J. Li, J. MacDonald, D. Macknak, F. MacPhail, S. McKenzie, C. Myers (Recording), D. Nyce, D. Ryan, S. Wagner, A. Yakemchuk, J. Young

**Regrets:**

M. Archie, C. Chasteauneuf, S. Déry, W. Haque, E. Jensen, C. O'Callaghan, M. Reid, R. Robinson, J. Van Barneveld, S. Zahir

**Absent:**

I. Uche-Ezeala

---

The meeting commenced at 2:30 p.m.

**1.0 S-201012.01**

**Approval of the Agenda**

Annis / Macknak

That the Agenda for the December 15, 2010 Public Session of Senate be approved as presented.  
CARRIED.

**2.0 S-201012.02**

**Approval of Senate Minutes**

Annis / Donker

That the minutes of the November 24, 2010 Public Session of Senate be approved as presented.

A Senator questioned the correctness of this motion, as a quorum was not obtained for the November meeting of Senate. Dr. Iwama responded that, rather than minutes, there should have been a record of proceedings of the meeting.

CARRIED.

### 3.0 Business Arising from Previous Minutes of Senate

#### 3.1 The Roles of President's Council and President's Executive Council

This document was provided for the information of Senators. A Senator asked whether Senate could be provided with information regarding the agenda items for these meetings, and Dr. Iwama replied that this information would be easier to provide with regard to President's Council (PC), as only a record of action items was maintained for President's Executive Council (PEC).

#### 3.2 **S-201012.03**

##### **Ratification of Motions from Meeting of November 24, 2010 — Report from the Senate Committee on Academic Policy and Planning (*no material*)**

Chasteaneuf / Macknak

That the motions approved at the meeting of November 24, 2010, originating from the Senate Committee on Academic Policy and Planning, be ratified. The motions as passed are presented below, details on pages 24 to 39 of the November 2010 Senate public session package.

Effective date: December 15, 2010

CARRIED.

##### 3.2.1 **Approval of General International Agreement between the University of Northern British Columbia and Wuyi University, China**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the General International Agreement between the University of Northern British Columbia and Wuyi University, China, be approved as proposed.

Effective date: January 1, 2011; formerly motion S-201011.04.

CARRIED by ratification vote (motion S-201012.03).

##### 3.2.2 **Creation of a Degree in Cooperation with the University of Applied Sciences Northwestern Switzerland, School of Social Work (FHNW) and UNBC**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the creation of a degree in cooperation with the University of Applied Sciences Northwestern Switzerland, School of Social Work (FHNW) and UNBC be approved as proposed.

Effective date: January 1, 2011 to allow applications by February 15; formerly motion S-201011.05.

##### **Amendment to motion S-201011.05:**

That the phrase "to be reviewed after five years" be included at the end of motion S-201011.05.

The motion as AMENDED was CARRIED by ratification vote (motion S-201012.03).

##### 3.2.3 **Revisions to Program Calendar Description — "English Program" to "Department of English"**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change in designation of the English Program to the Department of English, on page 105 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: January 2011; formerly motion S-201011.06.

CARRIED by ratification vote (motion S-201012.03).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

English (BA Program)

Dee Horne, Professor, ~~and Program Chair~~

Karin Beeler, Associate Professor, and Department Chair

Stan Beeler, Associate Professor

Robert Budde, Associate Professor

Lisa Dickson, Associate Professor

Kristen Guest, Associate Professor

Kevin Hutchings, Associate Professor, ~~and Canada Research Chair in Literature, Culture and Environmental Studies, Romantic Studies: Environment, Culture, and~~

## Representation

Maryna Romanets, Associate Professor

Blanca Schorcht, Associate Professor and Regional Chair, South-Central Region

~~Linda Mackinley-Hay, Assistant Professor~~

Marian Scholtmeijer, Assistant Professor

Website: <http://www.unbc.ca/english>

UNBC's English program includes course offerings in Canadian, British, American and International English literatures as well as world literature in English translation, and literary theory. Key areas include First Nations Literature, Canadian Literature, Comparative Literature, Women's Literature, Feminist Criticism and Theory, literature and media technology, and the relationship between literature and other disciplines. Creative writing and other kinds of writing courses are also available. The program encourages interdisciplinarity between literature, cultural studies, and science or technology. Computer literacy is a priority, as is the delivery of courses on the World Wide Web. The interdisciplinary perspective prepares students for a number of graduate or professional programs (e.g. English, Journalism, Creative Writing, Law, Education, Business) or employment in the public or private sectors.

## Major in English

The major in English requires students to take 18 English courses (54 credit hours), at least 30 credit hours of which must be upper-division courses (300 and 400 level) with at least nine credit hours of these at the 400 level. Students wishing to take more than 66 credit hours in English must obtain written permission from the Department Chair of the English Program.

The minimum requirement for completion of a Bachelor of Arts with a major in English is 120 credit hours.

### 3.2.4 Revisions to Program Calendar Description — “Computer Science Program” to “Department of Computer Science”

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change in designation of the Computer Science Program to Department of Computer Science on pages 89 and 331 of the 2010/11 undergraduate calendar be approved as proposed.

Effective date: January 2011; formerly motion S-201011.07.

CARRIED by ratification vote (motion S-201012.03).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

(page 89)

## Computer Science (BSc Program)

David Casperson, Assistant Professor; ~~and Program~~ Department Chair

Liang Chen, Professor

Waqar Haque, Professor

Alex Aravind, Associate Professor

Charles Brown, Associate Professor

Jernej Polajnar, Associate Professor

Saif Zahir, Associate Professor

Desanka Polajnar, Adjunct Professor

Allan Kranz, Senior Lab Instructor

**The Computer Science Entrance Award**

This award has been established to encourage and support talented students entering or transferring to undergraduate studies in Computer Science at UNBC.

**Donor** UNBC Department of Computer Science Program

**Value** \$1,000

**Number** Up to Ten

**Eligibility** Available to full or part time undergraduate students entering their first or second year level of studies in Computer Science at UNBC, or transferring from another post-secondary institution into Computer Science at UNBC at any level of undergraduate studies.

**Criteria** Academic Proficiency and with courses in mathematics and/or computer science

**Conditions** The student must officially declare Computer Science as major. Course enrolment for the year in which the award is held must be approved by the Chair of Computer Science or designate. The award can be held only once.

**Application Instructions** Attach a letter outlining your experience, interest and performance in mathematics and/or computer science to the Awards Application. Photocopies of any awards achieved may be attached.

**Recipient Selection Criteria** The Senate Committee on Scholarships and Bursaries, on recommendation of the Department of Computer Science Program. Subject to Available Funding.

**Established** 2007

**3.2.5 Course Deletion — PHYS 215-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the course PHYS 215-3 Energy, Physics and the Environment be deleted from the UNBC Undergraduate Calendar as proposed.

Effective date: September 2011; formerly motion S-201011.08.

CARRIED by ratification vote (motion S-201012.03).

**3.3 S-201012.04**

**Ratification of Motion from Meeting of November 24, 2010 — Report from the Steering Committee of Senate** (*no material*)

Donker / Ryan

That the motion approved at the meeting of November 24, 2010, originating from the Steering Committee of Senate, be ratified. The motions as passed are presented below, details on page 70 of the November 2010 Senate public session package.

Effective date: December 15, 2010

CARRIED.

**3.3.1 Senate Handbook Revision — Terms of Reference for Senate Committee on Scholarships and Bursaries**

That, on the recommendation of the Senate Committee on Scholarships and Bursaries, the Steering Committee of Senate recommend to Senate that the Senate Handbook be revised to include the Development Awards Officer position as a non-voting member of the Senate Committee on Scholarships and Bursaries.

Effective date: Immediately upon approval by Senate; formerly motion S-201011.09.

CARRIED by ratification vote (motion S-201012.04).

**4.0 President's Report**

**Iwama**

Dr. Iwama congratulated Senators on the completion of another term. He reported that he and the Vice Presidents were working on Action Plans in support of the goals of the University Plan, which will be included as an addendum to the University Plan. He added that the potential for a fundraising campaign in support of the University Plan will be discussed at the Board of Governors planning retreat in January 2011. Dr. Iwama noted that Chancellor MacDonald is excited about UNBC distinguishing itself by renewable energy, although there are many themes to be considered in fundraising planning. Dr. Iwama concluded by stating that a document is being drafted for further consideration, as there are many people interested in supporting the fundraising effort and great potential with which to move forward.

On another matter, the President stated that the Steering Committee of Senate has recommended that a Senate-Board Liaison Committee be struck, which would operate as an *ad hoc* committee for the first year. The main purpose of the committee would be to organize the joint Senate-Board retreat. He added

that the Provost and President would sit on the committee, and requested that the Senate Committee on Nominations nominate one member-at-large from Senate to serve on the committee.

## 5.0 Report of the Provost

Dale

Dr. Dale reported that the candidate for the position of Assistant Provost had been approved by the Board of Governors and she would commence employment on January 4, 2011. In response to a question raised at the previous meeting of Senate, Dr. Dale indicated that the Ministry had stated that there was currently no intention to extend the moratorium on the approval of new degrees. Finally, Dr. Dale reminded Senators that at the last meeting of Senate he had reported that the Senate Committee on Academic Policy and Planning (SCAPP) had struck a Working Group to look into determining a method by which to let go of offerings. He updated Senators, noting that the membership of this Working Group had been approved by SCAPP but they had not yet met.

## 6.0 Question Period

A Senator asked about the schedule for external reviews, and whether the report from the external review of Graduate Programs would be made available at Senate. Dr. Dale responded that the report would come to Senate after the Dean of Graduate Programs returns. He also indicated that he would report on the external review schedule at the next meeting of Senate, as this information should be available on the website.

<b>Action:</b> Dr. Dale to report to Senate with regard to the schedule for external reviews.
---

A Senator requested that Senate and the Board of Governors be provided with a table outlining the number of employees, according to employee group (CUPE, CUPE Exempt, Administrators and Directors, and Teaching Faculty, including a breakdown by tenured and tenure-track, and non tenure-track), for each of the years from 1994 to the present. Dr. Iwama asked about the rationale for the request, and the Senator responded that having this information available might result in making it easier to plan for, and respond to, potentially difficult financial times in the future. The President thanked the Senator for the request.

## 7.0 S-201012.05 Approval of Motions on the Consent Agenda

Chasteauneuf / Beeler

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.  
CARRIED.

## 8.0 Committee Reports

### 8.1 Senate Committee on Academic Policy and Planning

Dale

#### "For Approval" Items:

#### S-201012.06 New Course Approval — FNST 217-3

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNST 217-3 Contemporary Challenges in Aboriginal Communities be approved as proposed.  
Proposed Semester of First Offering: January 2011  
CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This is a survey course focusing on the contemporary challenges faced by Aboriginal peoples in Canada. In this course students research and participate in seminars on the specific challenges facing Aboriginal communities today. This includes specific challenges that arise out of the broader topic areas of language and culture, land rights, economics, governance, youth, education, health, social services, violence, healing, community development, repatriation of cultural property, and decolonization.

**S-201012.07**

**Revision to Course Number — FNST 250-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the course number for FNST 250-3 Canadian Law and Aboriginal People, to FNST 350-3, on page 101, 114, 115, 131, 159, and 222 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: January 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Page 101**

General Academic Coursework

The required general academic coursework of 18 credit hours can be met with the following courses- (~~S~~some of these credit hours may be completed as part of the Diploma in First Nations Language):

3 credit hours English Composition-Suggested: ENGL 170-3 or equivalent

3 credit hours English Literature-Suggested: ENGL 103-3, ENGL 120-3, ENGL 210-3, ENGL 260-3 or equivalent

3 credit hours Mathematics-Suggested: MATH 190-4 or equivalent

3 credit hours Lab Sciences-Suggested: BIOL 101-4, BIOL 110-3 and BIOL 111-1, or equivalent

6 credit hours of Canadian Studies (3 credit hours History and 3 credit hours Geography recommended) - Suggested: FNST 100-3, ~~FNST 250-3~~, GEOG 203-3, HIST 210-3, HIST 302-3 or equivalent

**Page 114**

Three of:

ANTH 101-3 Peoples and Cultures

ENVS 306-3 Human Ecology (regional campus only)

FNST 100-3 The Aboriginal Peoples of Canada

~~FNST 250-3 Law and Aboriginal Peoples~~

FNST 350-3 Canadian Law and Aboriginal Peoples

An examination of the constitution, Indian Act, treaties, court decisions,  
and laws as they relate to the government and politics of aboriginal peoples.

*Prerequisites:* FNST 100-3 or POLS 100-3

*Precluded:* POLS 220-3

*Precluded:* FNST 250-3

**Page 259**

POLS 220-3 Canadian Law and Aboriginal Peoples An  
examination of the constitution, Indian Act, treaties, court decisions,  
and laws as they relate to the government and politics of aboriginal

peoples.

*Prerequisites:* POLS 100-3 or FNST 100-3, or permission of the instructor

*Precluded:* ~~FNST 250-3~~

#### **S-201012.08**

##### **New Course Approval — ANTH 240-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course ANTH 240-3 The Neandertals be approved as proposed.

Proposed Semester of First Offering: May 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course examines conceptions and misconceptions of the most enigmatic of our ancestors, the Neandertals. Since first discovered in 1848 Neandertals have occupied a special place in the story of human evolution - they have been pathologized, idealized, and romanticized. Neandertals have generated more controversy surrounding human evolution than any other ancestor. This course examines aspects of biology, culture, symbolic behaviour, and subsistence, considering Neandertal origins and 'disappearance,' as well as considering how Neandertals have been represented in 'popular culture' over the past 150 years.

#### **S-201012.09**

##### **New Course Approval — ANTH 250-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course ANTH 250-3 The Ancient Egyptians be approved as proposed.

Proposed Semester of First Offering: May 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course is a survey of the development and workings of ancient Egyptian state society. The course begins with the pre-Dynastic Period and ends with the Ptolemaic Period, but the major focus is on the Dynastic Period. Using a combination of archaeological and documentary evidence, the course examines ancient Egyptian history, politics, technology, cosmology, and other aspects of everyday life.

#### **S-201012.10**

##### **Revisions to Calendar Course Description — BCMB 401-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the calendar description for BCMB 401-3 Basic Science of Oncology be approved as proposed to reflect the addition of a minimum grade for the prerequisites.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**BCMB 401-3 Basic Science of Oncology** This is a lecture-based course designed to provide insight into our basic understanding of the biological chemistry of cancer. Major topics include chemical

carcinogenesis, genomic instability, oncogenes and tumor suppressor genes, cell growth, apoptosis, tumor progression and metastasis, tumor angiogenesis, hormones, viruses, and drug resistance. This course also provides an in-depth look at the advanced technology used in controlling the disease, including immunotherapy and therapeutic approaches in controlling gene expression.

*Prerequisites:* BCMB 330-3 or CHEM 330-3 with a minimum grade C in all prerequisite courses  
*Precluded:* CHEM 405-3

### **S-201012.11**

#### **Revisions to Calendar Course Description — BCMB 402-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the calendar description for BCMB 402-3 Macromolecular Structure be approved as proposed to reflect the addition of a minimum grade for the prerequisites.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**BCMB 402-3 Macromolecular Structure** This is a lecture-based course designed to provide students with an understanding of the theory behind structural techniques used in biochemical laboratories. Topics include X-ray crystallography, nuclear magnetic resonance spectroscopy and electron microscopy; ~~s.~~ Students are expected to develop an understanding of the theory and application of these techniques and technical considerations. Students also learn how to judge the quality of data.

*Prerequisites:* BCMB 307-3, CHEM 307-3, BCMB 330-3 or CHEM 330-3 with a minimum grade of C in all prerequisite courses  
*Precluded:* CHEM 405-3

### **S-201012.12**

#### **Revisions to Calendar Course Description — BCMB 403-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the calendar description for BCMB 403-3 Advanced Nucleic Acids be approved as proposed to reflect the addition of a minimum grade for the prerequisites.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**BCMB 403-3 Advanced Nucleic Acids** This is a lecture-based course designed to provide in-depth knowledge on advanced topics in nucleic acid biochemistry. Topics include mechanistic analysis of nucleic acid metabolism; the RNA world hypothesis and theories of the origin of life; epigenetics; specificity and role of polymerases and repair pathways; replication and recombination mechanisms; RNA structural motifs and physical processing in gene expression; structure and function of non-coding RNA; silencing and micro RNA; catalytic RNA molecules; and applications of RNA molecules.

*Prerequisites:* BCMB 330-3 or CHEM 330-3 with a minimum grade of C in all prerequisite courses  
*Precluded:* CHEM 405-3

### **S-201012.13**

#### **Revisions to Calendar Course Description — BCMB 405-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the calendar description for BCMB 405-3 Topics in Biochemistry and Molecular Biology be approved as proposed to reflect the addition of a minimum grade for the prerequisites.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **BCMB 405-3 Topics in Biochemistry and Molecular Biology**

This course considers selected advanced topics in biochemistry. Topics depend on instructor and student interest and normally focus on material not dealt with in other courses. Note: Credit may be granted for both 400- and 600-level offerings of Topics in ~~Chemistry~~ Biochemistry and Molecular Biology courses, and either the 400- or 600-level courses or a combination of both may be repeated to a maximum of 6 credit hours, provided the content of the independent offerings of the courses is sufficiently different (as determined by the Program Chair or College Dean).

*Prerequisites:* BCMB 330-3, BCMB 307-3, BCMB 340-3 with a minimum grade C in all prerequisite courses

### **S-201012.14**

#### **Revisions to Calendar Description — Major in Biochemistry and Molecular Biology**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the calendar description for the major in Biochemistry and Molecular Biology be approved to reflect the addition of the course HHSC 301-3 for subject requirement.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Major in Biochemistry and Molecular Biology**

The major in Biochemistry and Molecular Biology requires students to take at least 85 credit hours of Biochemistry and Molecular Biology-oriented courses, of which 42 credit hours must be upper division (i.e., 300 or 400 level). The minimum requirement for completion of a Bachelor of Science with a major in Biochemistry and Molecular Biology is 129 credit hours.

### **Program Requirements**

#### **Lower-Division Requirement**

100 Level

BIOL 101-4 Introductory Biology I

BIOL 102-4 Introductory Biology II

CHEM 100-3 General Chemistry I

CHEM 101-3 General Chemistry II

CHEM 120-1 General Chemistry Lab I

CHEM 121-1 General Chemistry Lab II

PHYS 100-4 Introduction to Physics I

or PHYS 110-4 Introductory Physics I: Mechanics

PHYS 101-4 Introduction to Physics II

or PHYS 111-4 Introductory Physics II: Waves & Electricity

One of the following three options:

MATH 100-3 Calculus I

and MATH 101-3 Calculus II

or

MATH 105-3 Enriched Calculus  
and MATH 101-3 Calculus II  
or  
MATH 150-3 Finite Mathematics for Business and Economics  
and MATH 152-3 Calculus for Non-majors  
*Students are strongly encouraged to take MATH 100-3 or MATH  
105-3, and MATH 101-3, for the first-year Mathematics requirement.*

200 Level  
BIOL 201-3 Ecology  
BIOL 203-3 Microbiology  
BIOL 210-3 Genetics  
CHEM 201-3 Organic Chemistry I  
CHEM 203-3 Organic Chemistry II  
CHEM 204-3 Introductory Biochemistry  
CHEM 250-1 Organic Chemistry Lab I  
CHEM 251-1 Organic Chemistry Lab II  
BCMB 255-1 Biochemistry Lab I  
MATH 240-3 Basic Statistics  
or MATH 371-3 Probability and Statistics for Scientists and Engineers

### Upper-Division Requirement

300 Level  
BIOL 311-3 Cell and Molecular Biology  
BIOL 312-3 Molecular Cell Physiology  
BIOL 323-3 Evolutionary Biology  
BCMB 306-3 Intermediary Metabolism  
BCMB 307-3 Proteins  
BCMB 308-3 Biochemistry Lab II  
BCMB 330-3 Nucleic Acids  
BCMB 340-3 Physical Biochemistry

400 Level  
BIOL 423-3 Molecular Evolution and Ecology  
BIOL 425-3 Applied Genetics and Biotechnology  
BCMB 409-3 Enzymology  
One of:  
BCMB 401-3 Basic Science of Oncology  
BCMB 402-3 Macromolecular Structure  
BCMB 403-3 Advanced Nucleic Acids

### Subject Requirements

Twelve additional credit hours chosen from the following, of which  
at least ~~six~~ 6 credit hours must be at the 300 or 400 level. Note:  
NRES 430-6 can count towards this requirement with permission of  
the Program Chair.

Any 200-level or above BCMB, BIOL or CHEM courses  
PSYC 317-3 Psychobiology  
PSYC 318-3 Sensation and Perception  
CPSC 450-3 Bioinformatics  
HHSC 430-3 Toxicology and Environmental Health  
PSYC 419-3 Neuropsychology  
HHSC301-3 Pathophysiology

### Elective Requirements

Elective credit hours as necessary to ensure completion of 129 credit  
hours. Note: no more than ~~three~~ 3 credit hours of continuing education  
courses may be used towards the BCMB major.

The Registrar suggested that the next four motions be dealt with in an order different from that in which  
they were presented on the agenda, as a result of the fact that some motions, if carried, would impact

others. It was thus agreed that motion S-201012.16 would be dealt with first, S-201012.18 second, S-201012.17 third, and S-201012.15 fourth.

**S-201012.16**

**Change to Program Requirements — Minor in Biology**

Ryan / Macknak

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the requirements for the Minor in Biology, on page 78 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Requirements**

BIOL 101-4 Introductory Biology I  
BIOL 102-4 Introductory Biology II

One of:

BIOL 201-3 Ecology  
BIOL 210-3 Genetics

One of:

BIOL 202-3 Invertebrate Zoology  
BIOL 203-3 Microbiology  
BIOL 204-3 Plant Biology

One of:

BIOL 301-3 Systematic Botany  
BIOL 307-3 Ichthyology and Herpetology  
BIOL 308-3 Ornithology and Mammalogy

One of:

BIOL 304-3 Plants, Society and the Environment  
BIOL 311-3 Cell and Molecular Biology  
BIOL 321-3 Animal Physiology

Six additional credit hours in Biology at the 300 or 400 level.

**S-201012.18**

**Change to Academic Regulation 15 (Academic Breadth) — Movement of Some Prefixes to Different Quadrants**

Alec / Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to Academic Regulation 15 (Academic Breadth) of the undergraduate calendar, to move some prefixes to different quadrants, be approved as proposed.

Effective date: September 2010

A Senator noted that there are implications of this motion for other Programs in the College of Arts, Social and Health Sciences which have courses listed in the Arts and Humanities quadrants, and suggested that this proposed revision should have been discussed with these Programs. It was questioned whether this motion proposes that all NRES courses are Arts and Humanities, not Science, courses, and the Registrar replied that it does. The representative from the Program responded that all courses labeled NRES are writing courses and belong in this category.

The implications of the motion were discussed in greater detail, including the history of Senate decisions related to the breadth requirement, the goals of the breadth requirement, and whether a better approach to breadth could be developed.

DEFEATED.

**S-201012.17**

**Change to Academic Regulation 15 (Academic Breadth) — Exemption of BSc Biology and the BSc Natural Resources Management (Majors in Forest Ecology and Management, and Wildlife and Fisheries)**

Casperson / Kizhakkeniyil

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to Academic Regulation 15 (Academic Breadth) of the undergraduate calendar, to exempt the BSc Biology and the BSc Natural Resources Management (Majors in Forest Ecology and Management, and Wildlife and Fisheries), be approved as proposed.

Effective date: January 1, 2011

It was suggested that, despite the four motions being re-ordered, it would be constructive to discuss motion S-201012.15 prior to discussing this motion.

**Motion to postpone:**

Binneman / Donker

That motion S-201012.17 be postponed until motion S-201012.15 has been discussed.

CARRIED.

Senators proceeded to deal with Senate motion S-201012.15. Once that motion was addressed, they returned to address motion S-201012.17.

A Senator questioned the direction of this motion, and suggested that any proposed revisions of this nature be withheld until a review of the current breadth requirement can be undertaken. In response to this Senator, who had become a member of Senate fairly recently, Dr. Dale provided historical background information regarding the evolution of the breadth requirement at UNBC. It was subsequently suggested by another Senator that this motion be referred back to the Senate Committee on Academic Policy and Planning for further contemplation.

**Motion to refer:**

Casperson / Macknak

That motion S-201012.17 be referred back to the Senate Committee on Academic Policy and Planning.

CARRIED.

**S-201012.15**

**Changes to Degree Requirements — Biology B.Sc.**

Casperson / MacPhail

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the degree for Biology B.Sc., on page 78 of the 2009/2010 undergraduate calendar, be approved as proposed.

Effective date: September 2011

A Senator asked what the Senate Committee on Academic Policy and Planning had done to investigate the usefulness of a quadrant-based system of breadth, and added that Biology has undertaken this investigation and believes they have a better approach. The Registrar responded that the implications of this motion are such that, while this motion is specific to the Biology Program, other students would have to be permitted to allow these courses to stand for their breadth requirements. Furthermore, passing this motion would be an invitation to other Programs to change the breadth requirement, essentially unraveling a simple and transparent process. The representative from the Biology Program asserted that the Biology Program had made a serious attempt to incorporate breadth into their degree requirements, and disallowing this proposed revision would undermine that endeavour.

DEFEATED.

**S-201012.19**

**Revisions to Calendar Description — Environmental Engineering Technical Electives List**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the Technical Electives list for Environmental Engineering, on page 112 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2010

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikerough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Technical Electives at UNBC

ENSC 302-3 Energy Development

ENSC 404-3 Waste Management

ENSC 406-3 Environmental Modelling

ENSC 408-3 Storms

~~ENSC 425-3 Global Change Science~~

ENSC 425-3 Climate Change and Global Warming

ENSC 452-3 Reclamation and Remediation of Disturbed Environments

ENSC 453-3 Environmental Resources Management and Decision Making

~~FSTY 455-3 Biogeochemical Processes in Soil Systems~~

ENSC 460-3 Soil Chemical Processes and the Environment

NREM 410-3 Watershed Management

**S-201012.20**

**Revisions to Library Collections and Acquisitions Policy**

Annis / Hoffman

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the revisions to the Library Collections and Acquisitions Policy be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

**S-201012.21**

**Revisions to Northern BC Archives and Special Collections Acquisitions Policy**

Annis / Donker

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the revisions to the Northern BC Archives and Special Collections Acquisitions Policy be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

**S-201012.22**

**Request for Annual Budget Allocation of \$5,000 for the Purchase of Artworks for the University's Artworks Collection**

Donker / Chasteaneuf

That, on the recommendation of the Senate Committee on Academic Policy and Planning, Senate propose an annual budget allocation of \$5,000 for the purchase of artworks for the University's Artworks Collection.

Effective date: Immediately upon approval by Senate

CARRIED.

**"For Information" Items:**

**SCAPP201012.18**

**Revisions to Course Prerequisites — CHEM 100-3**

That the change to the course prerequisite for CHEM 100-3, on page 189 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: January 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

CHEM 100-3 General Chemistry I This is the first course in a two-course lecture-based sequence of chemistry courses emphasizing the basic principles of chemistry. Topics include: classification of matter, periodic properties of elements, atomic and molecular structure, stoichiometry, chemical reactions, thermochemistry, chemical bonding, and an introduction to organic chemistry. Students requiring the first-year laboratory courses in their program of study are encouraged to enroll in CHEM 120-1 concurrently.

Prerequisites: Principles of Math 12 or Pre-calculus 12 or MATH 115-3 (or equivalent).  
Note: MATH 115-3 may be taken concurrently.

#### **SCAPP201012.19**

##### **Revisions to Course Prerequisites — CHEM 101-3**

That the change to the course prerequisite for CHEM 101-3, on page 189 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: January 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

CHEM 101-3 General Chemistry II This is the second course in a two-course lecture-based sequence of chemistry courses emphasizing the basic principles of chemistry. Topics include: intermolecular forces, properties of solutions, reaction kinetics, chemical equilibrium, acids and bases, applications of aqueous equilibria, entropy and free energy, and electrochemistry, and organic chemistry. Students requiring the first-year laboratory courses in their program of study are encouraged to enroll in CHEM 121-1 concurrently.

Prerequisites: CHEM 100-3, ~~and~~ Principles of Math 12 or Pre-calculus 12 or ~~;~~ MATH 115-3 (or equivalent) ~~may substitute for Principles of Math 12~~

#### **SCAPP201012.08**

##### **Revisions to Course Prerequisites — SOCW 402-15**

That the change to the course prerequisite for SOCW 402-15 Social Work Field Education 2, on page 266 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

SOCW 402-15 Social Work Field Education 2 This field placement requires students to perform in a social work role or organizational setting five days per week through the entire term. Field education provides undergraduate students with an opportunity to enhance and refine their social work skills. As much as possible, the assigned field education setting will broadly match the particular type of social work experience that the student wishes to pursue. The course includes three one-day seminars as part of the field education placement.

*Prerequisites:* all 100-, 200-, and 300- and 400-level requirements; ~~SOCW 401-3~~, enrolment limited to students admitted to the School of Social Work

## 8.2 Senate Committee on Research and Graduate Studies

Fondahl / MacPhail

### "For Approval" Items:

An Executive Summary of the proposed revisions to the Mathematical, Computer, and Physical Sciences Graduate Program was included for information, as was a copy of Senate motion S-201008.36. It was explained that, as a result of the recently-imposed moratorium on the approval of new degrees by the Ministry, a request was being made to rescind a previously-approved motion and revise some other motions in response to this moratorium.

Senate motions S-201012.23 to S-201012.26 were dealt with as an omnibus motion.

#### S-201012.23

##### **Rescindment of Senate Motion S-201008.36**

Casperson / Donker

That, on the recommendation of the Senate Committee on Research and Graduate Studies, motion S-201008.36 approved by Senate on 25 August 2010 be rescinded.

Effective date: Upon approval by Senate

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

[Although the following calendar text reflects the rescindment of motion S-201008.36, the following motions (S-201012.24 and S-201012.25) include subsequently-revised calendar text as required.]

Website: [www.unbc.ca/mcps](http://www.unbc.ca/mcps) - [www.unbc.ca/mcpm](http://www.unbc.ca/mcpm)

Mathematical, Computer, ~~and~~ Physical, ~~and~~ Molecular Sciences (MCPMS) is one stream of the Master of Science degree in the College of Science and Management. Thesis and project options are available. The thesis option has, as a substantial component, the completion of an original research program, culminating in the preparation of a thesis, and prepares graduates for careers in research or for further academic study. The project option provides training across disciplines particularly suitable to individuals with more defined career objectives, as well as provides a mechanism for non-traditional students (e.g., working students, teachers, and professionals) to upgrade their skills. Students studying within the MCPMS stream will, upon successful completion of the degree requirements outlined herein, obtain a MSc with one ~~or any combination~~ of the following study areas noted parenthetically on their transcript: Mathematics, ~~Biochemistry~~, Computer Science, Chemistry, ~~and~~ Physics or any combination thereof.

All students must participate in a Graduate Seminar course (one of ~~MCPMS~~ 704-1.5, ~~BCMB~~ 704-1.5, NRES 704-1.5, CPSC 704-1.5, MATH 704-1.5, or CHEM 714-1.5) for at least two semesters during their course of studies. Normally, students in the study area of Computer Science or a combination of study areas including Computer Science are expected to take CPSC 706-3. Normally, students in the study area of Physics or a combination of study areas including Physics are expected to take PHYS 710-3.

## Thesis Option

The Master of Science thesis option is designed for candidates who wish to develop career interests related to scientific research or who intend to pursue further academic research degrees. The degree is expected to attract students from traditional science disciplines such as physics, chemistry, mathematics, and computer science. MSc students within the MCPMS stream are required to complete 3 ~~credit hours~~ of Graduate Seminar, a minimum of 12 credit hours of approved electives, and a 12 credit hour thesis (~~MCPMS~~ 790-12). It is expected that the electives will consist of scientifically-oriented courses and that the thesis will involve an independent investigation resulting in a scientific contribution.

The 12 elective credit hours must be graduate-level study (i.e., at or above the 600 level) selected from the science courses available at UNBC. A maximum of 6 ~~credit hours~~ from independent studies can be counted towards the elective requirement. Specific details of course work are determined by the research area undertaken by the student. The supervisory committee ensures the appropriate selection of elective courses, and may require a student to

complete more than 12 elective credit hours if, for example, weaknesses in the student's background exist (including undergraduate prerequisites for graduate courses) or if additional courses are required for professional accreditation.

Related to the MSc thesis (MCPSM 790-12), students are required to (a) make an oral presentation of the thesis proposal to the supervisory committee; (b) write an original thesis based on the research completed (in accordance with established UNBC guidelines); (c) give a public lecture on the completed thesis; and (d) present an oral defense of the thesis to the examining committee. All course requirements must have been satisfied prior to the oral defense.

#### **Summary of Thesis Option**

Graduate Seminar 3 credit hours

Elective Courses 12 credit hours

MSc Thesis 12 credit hours

Total Required 27 credit hours

### **Project Option**

The Master of Science project option is designed for candidates who wish to upgrade their skills, or who are constrained in their ability to undertake a traditional research thesis. MSc students within the MCPMS stream are required to complete 3 credit hours of Graduate Seminar, a minimum of 18 credit hours of approved electives, and a 6 credit-hour project. Given the course-intensive nature of this option, MSc projects are limited, subject to sufficient teaching resources and a critical mass of faculty within an area of defined specialization. It is expected that the electives will consist of scientifically-oriented ~~scientifically-oriented~~ courses, and that the project will involve an independent investigation resulting in a scientific contribution, although this contribution need not include original research. Because of the high weighting of course offerings for this option, it is restricted to designated specializations that have been decided upon within each program area. Designation of a specialization implies that sufficient resources are available to ensure that required courses within the specialization can be offered to ensure completion of the requirements for the degree.

The 18 elective credit hours must be graduate level study (i.e., at or above the 600 level) selected from the science courses available within the designated specialization. A maximum of 6 credit hours from independent studies can be counted towards the elective requirement. Normally, students in the study area of Computer Science or a combination of study areas including Computer Science are expected to take CPSC 706-3. Normally, students in the study area of Physics or a combination of study areas including Physics are expected to take PHYS 710-3. Specific details of course work are determined by the nature of the project undertaken by each student. The supervisory committee ensures the appropriate selection of elective courses, and may require a student to complete more than 18 credit hours if weaknesses in the student's background exist (including undergraduate prerequisites for graduate courses) or if additional courses are required for professional accreditation.

In order to successfully complete a MSc project, a student is required to (a) make a presentation of the project proposal to the supervisory committee; (b) write a project report; (c) give a public lecture on the completed project; and (d) pass an evaluation of the project and report with the examining committee. All core and elective course requirements must have been satisfied prior to the oral presentation of the project.

#### **Summary of Project Option**

Graduate Seminar 3 credit hours

Elective Courses 18 credit hours

MSc Project 6 credit hours

Total Required 27 credit hours

### **Recommended Progression**

The normal time for completion of the MSc is two academic years. While this is the recommended time line, it may be adjusted at the discretion of the supervisory committee to suit a particular student's research and program needs.

The Graduate Seminar courses (one or more of MCPSM 704-1.5, NRES 704-1.5, ~~BCMB 704-1.5~~, CPSC 704-1.5, MATH 704-1.5, CHEM 714-1.5) are offered during all September and January Semesters. Students are expected to enroll in a seminar course at least two times during their degree program.

Electives may be taken at any time during Years I and II. The sequencing of electives is determined by the student in discussion with the supervisory committee. Over the September and January Semesters of Year I, the student, under the direction of the supervisory committee, develops a thesis or project proposal. By the end of the second semester, the student should have successfully defended their proposal to the supervisory committee. This allows the student to undertake the collection of data during the Summer of Year I. It is expected that the student will have successfully defended the thesis or completed the evaluation phase of the project by the end of Year II.

# Admission, Regulations and Committee Structures

## Admission Requirements

In addition to the admission application requirements outlined in Section 1.0 of the Graduate Academic Calendar, acceptance to the MSc program ~~will be is~~ contingent upon the prospective student finding a member of the faculty to serve as her/his supervisor. Applicants must also provide a completed Teaching Assistantship Application and a completed Funding Worksheet. Both forms are included with the application material for this program. Normally, at least two of the three letters of recommendation, exclusive of any letter provided by an intended supervisor, must be from individuals who are able to comment on the applicant's academic and research potential. Application deadlines are found in this calendar under "Semester Dates" or online at: [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under "Semester Dates." The Mathematical, Computer, ~~and Physical, and Molecular~~ Sciences MSc Program accepts students for the September and January Semesters. For additional information about graduate admissions or to download application materials, go to the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

## Transfer Students

On the recommendation of the program concerned, the ~~Associate~~ Dean of Graduate Programs may accept courses taken at other institutions for credit toward a UNBC graduate program. ~~At the time of application, it is recommended that applicants clearly state in a letter the intent to transfer courses and identify the courses to be considered for possible transfer.~~

## Normal Time Required for Completion

Normally, the degree should be completed in two years or less. Students may take longer to complete the degree depending on their personal circumstances and the nature of their research or Project involvement.

## Committee Structure

Students will be advised by a supervisory committee consisting of at least three members, including the academic supervisor who will normally serve as the chair of the committee. At least one of the committee members must be from outside of the student's program. The committee will be struck during the student's first term of study.

### **S-201012.24**

#### **Revision to Calendar Description — Graduate Program in Mathematical, Computer, and Physical Sciences**

Casperson / Donker

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the calendar description for the Graduate Program in Mathematical, Computer, and Physical Sciences, beginning on page 78 of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED.

Iliya Bluskov, Professor  
Jennifer Hyndman, Professor  
Pranesh Kumar, Professor  
Samuel Walters, Professor  
Kevin Keen, Associate Professor  
David Casperson, Assistant Professor  
Patrick Montgomery, Adjunct Professor

## Physics

Elie Korkmaz, Professor  
Mark Shegelski, Professor  
Ian Hartley, Associate Professor  
Erik Jensen, Associate Professor  
Margot Mandy, Associate Professor  
Matthew Reid, Assistant Professor  
Patrick Montgomery, Adjunct Professor

Website: [www.unbc.ca/mcps](http://www.unbc.ca/mcps)-[www.unbc.ca/mcpm](http://www.unbc.ca/mcpm)

Mathematical, Computer, ~~and~~ Physical, and Molecular Sciences (MCPMS) is one stream of the Master of Science degree in the College of Science and Management. Thesis and project options are available. The thesis option has, as a substantial component, the completion of an original research program, culminating in the preparation of a thesis, and prepares graduates for careers in research or for further academic study. The project option provides training across disciplines particularly suitable to individuals with more defined career objectives, as well as provides a mechanism for non-traditional students (e.g., working students, teachers, and professionals) to upgrade their skills. Students studying within the MCPMS stream will, upon successful completion of the degree requirements outlined herein, obtain an MSc with one or any combination of the following study areas noted ~~parenthetically~~ on their transcript: Mathematics, Biochemistry, Computer Science, Chemistry, and Physics ~~or any combination thereof~~.

All students must participate in a Graduate Seminar course (one of MCPSM 704-1.5, BCMB 704-1.5, NRES 704-1.5, CPSC 704-1.5, MATH 704-1.5, or CHEM 714-1.5) for at least two semesters during their course of studies. ~~Normally, students in the study area of Computer Science or a combination of study areas including Computer Science are expected to take CPSC 706-3.~~ Normally, students in the study area of Physics or a combination of study areas including Physics are expected to take PHYS 710-3.

## Thesis Option

The Master of Science thesis option is designed for candidates who wish to develop career interests related to scientific research or who intend to pursue further academic research degrees. The degree is expected to attract students from traditional science disciplines such as physics, chemistry, mathematics, and computer science. MSc students within the MCPMS stream are required to complete 3 credit hours of Graduate Seminar, a minimum of 12 credit hours of approved electives, and a 12 credit-hour thesis (MCPSM 790-12). It is expected that the electives will consist of ~~scientifically-oriented~~ scientifically oriented courses and that the thesis will involve an independent investigation resulting in a scientific contribution.

The 12 elective credit hours must be graduate-level study (i.e., at or above the 600 level) selected from the science courses available at UNBC. A maximum of 6 credit hours from independent studies can be counted towards the elective requirement. Specific details of course work are determined by the research area undertaken by the student. The supervisory committee ensures the appropriate selection of elective courses, and may require a student to complete more than 12 elective credit hours if, for example, weaknesses in the student's background exist (including undergraduate prerequisites for graduate courses) or if additional courses are required for professional accreditation.

Related to the MSc thesis (MCPSM 790-12), students are required to (a) make an oral presentation of the thesis proposal to the supervisory committee, (b) write an original thesis based on the research completed (in accordance with established UNBC guidelines), (c) give a public lecture on the completed thesis, and (d) present an oral defense of the thesis to the examining committee. All course requirements must have been satisfied prior to the oral defense.

### Summary of Thesis Option

Graduate Seminar 3 credit hours

Elective Courses 12 credit hours

MSc Thesis 12 credit hours

Total Required 27 credit hours

## Project Option

The Master of Science project option is designed for candidates who wish to upgrade their skills, or who are constrained in their ability to undertake a traditional research thesis. MSc students within the MCPMS stream are required to complete 3 credit hours of Graduate Seminar, a minimum of 18 credit hours of approved electives, and a 6 credit-hour project. Given the course-intensive nature of this option, MSc projects are limited, subject to sufficient teaching resources and a critical mass of faculty within an area of defined specialization. It is expected that the electives will consist of ~~scientifically-oriented~~ scientifically oriented courses, and that the project will involve an independent investigation resulting in a scientific contribution, although this contribution need not include original research. Because of the high weighting of course offerings for this option, it is restricted to designated specializations that have been decided upon within each program area. Designation of a specialization implies that sufficient resources are available to ensure that required courses within the specialization can be offered to ~~ensure completion of~~ fulfill the requirements for the degree.

The 18 elective credit hours must be graduate-level study (i.e., at or above the 600 level) selected from the science courses available within the designated specialization. A maximum of 6 credit hours from independent studies can be counted towards the elective requirement. ~~Normally, students in the study area of Computer Science or a combination of study areas including Computer Science are expected to take CPSC 706-3.~~ Normally, students in the study area of Physics or a combination of study areas including Physics are expected to take PHYS 710-3. Specific details of course work are determined by the nature of the project undertaken by each student. The supervisory committee ensures the appropriate selection of elective courses, and may require a student to complete more than 18 credit hours if weaknesses in the student's background exist (including undergraduate prerequisites for graduate courses) or if additional courses are required for professional accreditation.

In order to ~~successfully~~ successfully complete an MSc project successfully, a student is required to (a) make a presentation of the project proposal to the supervisory committee, (b) write a project report, (c) give a public lecture on the completed project, and (d) pass an evaluation of the project and report with the examining committee. All core and elective course requirements must have been satisfied prior to the oral presentation of the project.

### Summary of Project Option

Graduate Seminar 3 credit hours

Elective Courses 18 credit hours

MSc Project 6 credit hours

Total Required 27 credit hours

## Recommended Progression

The normal time for completion of the MSc is two academic years. While this is the recommended time line, it may be adjusted at the discretion of the supervisory committee to suit a particular student's research and program needs.

The Graduate Seminar courses (one or more of MCP&M 704-1.5, NRES 704-1.5, BCMB 704-1.5, CPSC 704-1.5, MATH 704-1.5, CHEM 714-1.5) are offered during all September and January Semesters. Students are expected to enroll in a seminar course at least two times during their degree program.

Electives may be taken at any time during Years I and II. The sequencing of electives is determined by the student in discussion with the supervisory committee. Over the September and January Semesters of Year I, the student, under the direction of the supervisory committee, develops a thesis or project proposal. By the end of the second semester, the student should have successfully defended their proposal to the supervisory committee. This allows the student to undertake the collection of data during the Summer of Year I. It is expected that the student will have successfully defended the thesis or completed the evaluation phase of the project by the end of Year II.

## Admission, Regulations and Committee Structures

### Admission Requirements

In addition to the admission application requirements outlined in Section 1.0 of the Graduate Academic Calendar, acceptance to the MSc program will be contingent upon the prospective student finding a member of the faculty to serve as her/his supervisor. Applicants must also provide a completed Teaching Assistantship Application and a completed Funding Worksheet. Both forms are included with the application material for this program. Normally, at least two of the three letters of recommendation, exclusive of any letter provided by an intended supervisor, must be from individuals who are able to comment on the applicant's academic and research potential. Application deadlines are found in this calendar under "Semester Dates" or online at: [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under "Semester Dates." The Mathematical, Computer, ~~and~~ Physical, and Molecular Sciences MSc Program accepts students for the September and January Semesters. For additional information about graduate admissions or to download application materials, go to the Graduate Programs website at ~~www.unbc.ca/graduateprograms~~ [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

### Transfer Students

On the recommendation of the program concerned, the ~~Associate~~ Dean of Graduate Programs may accept courses taken at other institutions for credit toward a UNBC graduate program. *At the time of application, it is recommended that applicants clearly state in a letter the intent to transfer courses and identify the courses to be considered for possible transfer.*

### Normal Time Required for Completion

Normally, the degree should be completed in two years or less. Students may take longer to complete the degree depending on their personal circumstances and the nature of their research or Project involvement.

### Committee Structure

Students ~~will be~~ are advised by a supervisory committee consisting of at least three members, including the academic supervisor who will normally serve as the chair of the committee. At least one of the committee members must be from outside ~~of~~ the student's program. The committee will be struck during the student's first term of study.

### S-201012.26

#### Change of Effective Date of SCRGs Motions

Casperson / Donker

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the effective date of motions SCRGs201008.26, SCRGs201008.27, SCRGs201008.28, SCRGs201008.29, SCRGs201008.30, and SCRGs201008.31 reported to Senate for information on 25 August 2010 be changed from "September 2011" to "upon approval of the Degree Quality Assessment Board."

Effective date: Upon approval by Senate

CARRIED.

**S-201012.27**

**Change in Designation of the English Program to the Department of English**

Beeler / Donker

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change in designation of the English Program to the Department of English on pages 70, 71, and 110 of the 2010/2011 Graduate calendar, be approved as proposed.

Effective date: January 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

(page 70)

English (MA Program)

Stan Beeler, ~~Associate Professor, and Program Chair~~

Dee Horne, Professor

Karin Beeler, ~~Associate Professor; Department Chair~~

Robert Budde, Associate Professor

Lisa Dickson, Associate Professor

Kristen Guest, Associate Professor

Kevin Hutchings, Associate Professor, ~~and; Canada Research Chair in Literature, Culture and Environmental Studies; Romantic Studies: Environment, Culture and Representation~~

Maryna Romanets, Associate Professor

Blanca Schorcht, Associate Professor, and Regional Chair, South-Central Region

Linda MacKinley-Hay, Assistant Professor

Website: <http://www.unbc.ca/english>

Literary representations both reflect and help to create our views of the world, including our social theories and practices; thus, the study of literature can provide students with insights concerning past and present concepts of personal and social identity, cultural traditions and beliefs, and interpersonal and cross-cultural relationships. Since the time of Aristotle, moreover, literary commentators have analyzed “setting” as an important formal aspect of literary writing; literary study can therefore help us to investigate, and perhaps to reconsider, our relationships to both our human and non-human environments. In today’s world, where efforts to resolve intercultural conflicts and environmental problems have taken on a profound sense of urgency, literary study provides a crucial forum for intellectual and ethical debate leading to the revision of cultural practice.

(page 71)

Requirements

The course of study shall be composed of a minimum total of 27 credit hours of work. First, students will be required to complete ~~5~~ five courses totaling 15 credit hours, including ENGL 690-3, Bibliography, the mandatory course in research methodologies; ENGL 700-3, the mandatory course in Literature, Culture and Place; and ~~3~~ three elective courses. In the required courses, students have the opportunity to engage in close intellectual dialogue and debate with fellow graduate students and professors,

thereby cultivating the productive collegial relationships crucial to the development of a dynamic graduate student culture. With the exception of ENGL 699-3 (Advanced Independent Study in Literature, which faculty members supervise on an individual basis), all courses are offered as seminar courses. The three elective courses conform to pedagogical models followed by all 600-level courses listed in the UNBC Graduate Calendar. Second, students will be required to produce both a detailed thesis proposal and bibliography at the beginning of their second year of study, and to defend, in a formal oral examination, a ~~42-credit~~ 12 credit-hour thesis of approximately 100 pages in length.

Although UNBC does not offer degrees in Creative Writing, the English Program will offer a limited number of MA candidates the opportunity to complete a ~~42-credit~~ 12 credit-hour creative thesis in lieu of an academic thesis. Successful applicants who wish to pursue this option will be admitted on the same basis and will fulfill the same course and thesis requirements as other English MA candidates. Permission to undertake a creative thesis will be at the discretion of the ~~program~~ department, and will require that students submit proposals along with a substantial portfolio of previous creative work; e.g., published writing, 8-10 pages of original poetry, 20-25 pages of prose (i.e., a short story or novel excerpt), a dramatic script or screenplay, or a combination of these genres. The proposal should outline the form, scope, and subject matter of the Creative Writing thesis. In addition, students must demonstrate some critical and theoretical awareness of the approach they plan to take for the creative thesis; and, for applicants admitted to the program, the finished thesis will include an introduction of no fewer than 15 pages delineating this critical and theoretical awareness. Because of the high standards expected for the creative project and the Program's Department's limited faculty resources in the area of creative writing, a limited number of students will be permitted to undertake this alternative. Students should therefore note that admission to the MA program in English does not guarantee permission to write a creative thesis.

#### Required Courses

ENGL 690-3

Bibliography  
ENGL 700-3

Studies in Literature, Culture and Place

#### Required Thesis

ENGL 799-12

MA Thesis

#### Elective Courses

The supervisory committee ensures the appropriate selection of elective courses. All English graduate courses approved by Senate should be considered as potential electives.

(page 110)

English

Students wishing to take any of the ~~graduate English (600-level)~~ 600-level graduate English courses as part of an interdisciplinary or other MA program should consult the Department of English Program Chair.

### 8.3 Senate Committee on Admissions and Degrees

Vacant

#### “For Approval” Items:

##### **S-201012.28**

##### **Change to Admission Requirements for Environmental Engineering**

Casperson / Binnema

That, on the recommendation of the Senate Committee on Admissions and Degrees, the change(s) to the Admission Requirements for Environmental Engineering, on page 111 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: January 2011

It was suggested that the effective date of this motion be changed from September 2010 to January 2011.

##### **Motion to change effective date:**

Casperson / Binnema

That the effective date of Senate motion S-201012.28 be changed from September 2010 to January 2011.

CARRIED.

The main motion was also subsequently CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

##### **Admission Requirements**

Admission to the program is limited and is based on academic qualifications and available space. Priority admission will be given to students who meet admission criteria and apply by the deadline of March 1.

Applicants from BC and Yukon secondary schools must:

- Meet UNBC admission requirements, and
- Have an average of at least 75% based on the following four courses: Principles of Math 12 or Pre-calculus 12, English 12 and two provincially examinable Science 12 courses. In addition, applicants must have successfully completed Chemistry 11 in order to meet course prerequisites in the Program. Physics 12 or an equivalent is strongly recommended, as it is a prerequisite for first-year Physics courses in the program. Students who are admitted without the Physics 12 prerequisite may be delayed in their studies as they may not be able to complete the first four semesters of the program in the normal two year time period. Meeting the minimum GPA does not guarantee admission. Under exceptional circumstances the prerequisites may be waived.

Other applicants must demonstrate that they possess qualifications at least equivalent to the BC and Yukon requirement.

**“For Information” Items:****SCSB20101124.05****New Terms and Conditions — Northern BC Mining Research Award**

That the new Terms and Conditions for the Northern BC Mining Research Award be approved.

Effective Date: 2011/2012 Academic Year

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Award Category:** In-course and Graduate

**Award Name:** Northern BC Mining Research Award

**Calendar Description/Intent:** The Minerals North Host Committee provides this gift as a legacy of the 2010 Minerals North Conference that was held in Prince George in order to benefit students conducting research related to the mining industry in northern BC.

**Donor:** Minerals North Host Committee/Initiatives Prince George

**Value:** \$5,000

**Number:** One

**Placement in which Calendar:** Undergraduate and Graduate

**Award Type:** Award

**Eligibility:** Available to a full or part time graduate or upper division undergraduate student conducting research projects on issues of particular interest to mineral exploration or the mining industry. First preference will be given to a graduate student.

**Criteria:** Academic excellence.

**Note:** Applicants must obtain an industry partner that will provide a minimum of \$5,000 to support each award.

**Application Instructions:** Fill out all sections of the Awards Application form and attach your Resume, name of industry partner and area of research.

**Effective Date:** Established 2010

**Recipient Selection:** Senate Committee on Scholarships and Bursaries on recommendation by the UNBC Awards Office.

**SCSB20101124.08****Approval of Policy and Procedures and New Terms and Conditions Template — UNBC Northern Medical Program Awards**

That the submitted Proposal for Policy and Procedures for UNBC Northern Medical Program Awards and attached draft template of NMP Terms & Conditions be approved.

Effective Date: 2010-2011 Academic Year

CARRIED (consent agenda).

## 8.5 Steering Committee of Senate

Iwama

**“For Approval” Items:****S-201012.29****Senate Handbook Revision — Terms of Reference for Steering Committee of Senate**

Ryan / Donker

That, on the recommendation of the Steering Committee of Senate, the revisions to the Senate Handbook, to add the Provost to the membership of the Steering Committee of Senate, be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

**S-201012.30**

**Senate Handbook Revision — Senate Quorum Requirements**

Beeler / McKenzie

That, on the recommendation of the Steering Committee of Senate, the revisions to the Senate Handbook, to revise Senate quorum requirements, be approved as proposed.

Effective date: Immediately upon approval by Senate

The matter of student quorum was discussed, and it was recommended that the number required for quorum be changed to 4 instead of 2.

**Motion:**

Beeler / McKenzie

That the quorum requirement for student Senators be changed to 4.

CARRIED.

**S-201012.31**

**Revision to Senate Handbook — SCAPP Art Acquisition Subcommittee**

Casperson / McKenzie

That, on the recommendation of the Steering Committee of Senate, the proposed revisions to the SCAPP Art Acquisition Subcommittee terms of reference be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

**9.0 Other Business**

**9.1** Report of the Registrar (*no material*)

**DeGrace**

**9.2** Presentation — Library Strategic Plan

**Ashoughian**

Ms. Ashoughian presented an overview of the Library Strategic Plan (presentation attached to these minutes as Appendix I). She noted that UNBC needs a northern research library in support of our mandate of being research-intensive, that the library strives to marry research with teaching and learning, that the north is important and the Library supports different ways of knowing, and that the Library wants to engage and create community. Furthermore, Ms. Ashoughian suggested that research support equates with better access to resources and an open access environment. Many of the values associated with the Library Strategic Plan were derived from the University Plan, and the Plan was a result of much consultation. In addition, the “Priority Actions” identified in the Library Strategic Plan are linked with the University Plan and the Action Plans of the Vice President Research and the Provost, and the Library plays a significant role in this regard. Ms. Ashoughian discussed the function of the Library with regard to teaching and learning, the Northern perspective and diversity, and community.

**Motion:**

Casperson / McKenzie

That the Senate meeting be extended beyond 4:30 p.m.

CARRIED.

**10.0 Information**

There were no items for information.

**11.0 S-201012.32**

**Move to In Camera Session**

Hoffman / Alec

That the meeting move In Camera.

CARRIED.

**12.0** **S-201012.40**  
**Adjournment**  
Beeler / Annis  
That the Senate meeting be adjourned.  
CARRIED.

The meeting ended at 4:45 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

January 26, 2011  
3:30 – 5:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

O. Adegbite, E. Annis, M. Archie, G. Ashoughian, S. Beeler, S. Bennett, C. Carriere, D. Casperson, C. Chasteauneuf, L. Chen, M. Dale, S. Déry, B. DeWiel (Representative of J. Young, Dean of CASHS), G. Fondahl, M. Hatcher, R. Hoffman, K. Hutchings (Vice Chair), G. Iwama (Chair), E. Jensen, M. Kizhakkeniyil, R. Lazenby, D. Leighton-Stephens, J. MacDonald, F. MacPhail, S. McKenzie, C. Myers (Recording and Acting Secretary of Senate), D. Nyce, C. O'Callaghan, M. Reid, R. Robinson, D. Ryan, J. Van Barneveld, S. Wagner, S. Zahir

**Regrets:**

T. Binnema, R. Brouwer, A. Dayanandan, J. DeGrace (Secretary of Senate), H. Donker, W. Haque, E. Kim, J. Li, A. Yakemchuk, J. Young

**Absent:**

J. Alec, M. Green, D. Macknak, I. Uche-Ezeala

---

The meeting commenced at 3:30 p.m.

**1.0 S-201101.01**

**Approval of the Agenda**

Déry / Reid

That the Agenda for the January 26, 2011 Public Session of Senate be approved as presented.  
CARRIED.

**2.0 S-201101.02**

**Approval of Senate Minutes**

Annis / Van Barneveld

That the minutes of the December 15, 2010 Public Session of Senate be approved as presented.  
CARRIED.

**3.0 Business Arising from Previous Minutes of Senate**

**3.1 Breadth Requirement Motions — BSc Biology and BSc Natural Resources Management (Majors in Forest Ecology and Management, and Wildlife and Fisheries)**

An excerpt from the draft minutes of the Senate Committee on Academic Policy and Planning (SCAPP) meeting of January 5, 2011 was included for information.

**S-201101.03** (formerly motion S-201012.17, which was REFERRED back to the Senate Committee on Academic Policy and Planning at the Senate meeting of December 15, 2010)

**Change to Academic Regulation 15 (Academic Breadth) — Exemption of BSc Biology and the BSc Natural Resources Management (Majors in Forest Ecology and Management, and Wildlife and Fisheries)**

Ryan / Van Barneveld

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to Academic Regulation 15 (Academic Breadth) of the undergraduate calendar, to exempt the BSc Biology and the BSc Natural Resources Management (Majors in Forest Ecology and Management, and Wildlife and Fisheries), be approved as proposed.

Effective date: January 1, 2011

Several Senators spoke in support of this motion, including a student Senator who was enrolled in the Forest Ecology and Management major. Comments centered around the notion that the major is very highly prescribed for purposes of accreditation and there is therefore little room for students to take elective credit hours. The Chair of the Ecosystem Science and Management Program explained the rationale for the motion.

A Senator indicated that he could support this motion but did not understand the relationship between this motion and the proposal to move some course prefixes to different quadrants of the breadth requirement chart. The Chair of Ecosystem Science and Management responded that, if this motion was passed, she would request withdrawal of the motion to move course prefixes to different quadrants.

CARRIED.

After the vote on this motion, Dr. Iwama stated that discussion regarding the breadth requirement will continue, and asked Senators to remain committed to this initiative until satisfactory resolution is reached.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**15. Academic Breadth**

Students pursuing the degrees of BA, BComm, BHSc, and BSc are required to meet the University's Academic Breadth requirement as a condition of graduation. Each graduate is required to have completed successfully at least one course from each of the following four areas, or to have transferred to UNBC from another institution acceptable course(s) such that the requirement is met:

**Arts and Humanities:** At least one course with the prefix ENGL, HIST, PHIL, WMST.

**Social Science:** At least one course with the prefix ANTH, COMM, ECON, EDUC, ENPL, FNST, INTS, NORS, ORTM, POLS, PSYC, RRT.

**Natural Science:** At least one course with the prefix BIOL, GEOG, ENSC, ENVS, FSTY, HHSC, NREM.

**Physical Science:** At least one course with the prefix CHEM, CPSC, MATH, PHYS, STAT.

This requirement applies to all students admitted or readmitted to UNBC for studies beginning with the September 2010 Semester or later.

Students pursuing the degrees of BSc Biology and BSc Natural Resources Management (majors in Forest Ecology and Management, and Wildlife and Fisheries) are exempt from this regulation because academic breadth has been incorporated within the curricula.

**S-201101.04** (formerly motion S-201012.15, which was DEFEATED at the Senate meeting of December 15, 2010)

**Changes to Degree Requirements — Biology B.Sc.**

Hartley / Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the degree for Biology B.Sc., on page 78 of the 2009/2010 undergraduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Elective Requirements**

Elective credit hours must be taken as necessary to ensure completion of a minimum of 126 credit hours.

**Breadth Requirement**

At least one course must be taken from the following list of Biology courses:

BIOL 304, BIOL 350, BIOL 420, or BIOL 421

or any course with one of the following prefixes:

ANTH, COMM, ECON, EDUC, ENPL, ENVS, FNST, INTS, NORS, ORTM, POLS, PSYC

**S-201101.05** (formerly motion S-201012.18, which was DEFEATED at the Senate meeting of December 15, 2010)

**Change to Academic Regulation 15 (Academic Breadth) — Movement of Some Prefixes to Different Quadrants**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to Academic Regulation 15 (Academic Breadth) of the undergraduate calendar, to move some prefixes to different quadrants, be approved as proposed.

Effective date: September 2010

At the request of the Chair of the Ecosystem Science and Management program, the Chair of the Senate Committee on Academic Policy and Planning asked that this motion be withdrawn.

MOTION WITHDRAWN.

**4.0 President's Report**

**Iwama**

Dr. Iwama welcomed Ms. Kristine Smalcel Pederson, Assistant Provost, to UNBC from her last post at Thompson Rivers University.

Dr. Iwama reported that, as a result of the Liberal leadership race, the Wood Innovation and Design Centre and the University's request to be removed as a government reporting entity are currently on hold, probably until April. He also reported that the Physical Therapy program proposal had been approved, which is in partnership with the University of British Columbia. Dr. Iwama added that the curricula for some new engineering programs were being developed. The President reported that he is on the Board of the Association of Universities and Colleges of Canada. In this role, Dr. Iwama sits on the research sub-committee. He reported that the Federal Government has initiated reviews of research integrity as well as one to review business-related research in Canada, including government labs. Dr. Iwama concluded his report by noting that there were two good news stories to convey. First, the Timberwolves have broken the winning record of Capilano University, and second, all four candidates approved for Honorary Degrees have accepted the award and expressed excitement about receiving it.

## 5.0 Report of the Provost

Dale

Dr. Dale reported that the processes of the Ministry's Degree Quality Assessment Board are currently under review, and that the four research-intensive universities would be providing a response to this review. In addition, Dr. Dale noted that the Office of the Registrar would be undergoing an external review in preparation for the hiring of a new Registrar.

## 6.0 Question Period

Some questions were asked and responded to.

## 7.0 S-201101.06

### **Approval of Motions on the Consent Agenda (no material)**

Reid / Ryan

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

## 8.0 Committee Reports

### 8.1 Senate Committee on Academic Policy and Planning

Dale

#### "For Approval" Items:

### S-201101.07

#### **Change to Undergraduate Regulations and Policies (Regulation 41 — Student Access to Final Examinations)**

Reid / Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the Undergraduate Regulations and Policies (Regulation 40—Student Access to Final Examinations), on page 61 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## 40. Conduct in Examinations

Students must present appropriate identification upon entering the examination room. Appropriate identification is defined as a UNBC student card and/or some other form of photo identification acceptable to the proctor. The following regulations apply to the conduct of examinations:

- a. Books, papers, or other materials or devices must not be in the possession of the student during an exam except by the express permission of the examiner. Specifically, without such permission no laptop computers, mobile phone sets, handheld electronic devices or the like may be in possession of the student in the examination room (see Regulation 43 (b)).
- b. No candidate is permitted to enter the examination room more than 30 minutes after the beginning of the examination, or permitted to leave within 30 minutes after the examination has started.
- c. Candidates must not communicate in any way with other candidates in the examination room.
- d. Candidates must not leave their seats, except when granted permission by the proctor.

- e. Candidates must turn in all materials, including rough work, upon leaving the examination room.
- f. Food and beverages other than water are not permitted in the examination room.

#### **41. Student Access to Final Examinations**

The instructor will, on request by a student, informally review the final examination with the student after the semester grade has been released.

Final examinations will be retained by the instructor for a period of ~~sixty days~~ one year after the examination period, after which time they may be shredded or destroyed by other acceptable means.

#### **42. Religious Holidays/Examination Schedule**

In some instances, students may find themselves, for religious reasons, unable to write a final examination on a scheduled day. If the final examination cannot be rescheduled to avoid the conflict, the student concerned shall be evaluated by other means, which may include another examination scheduled at a different time. Students must complete the appropriate form (available from the Office of the Registrar) and notify their instructors of a conflict at least two weeks prior to the examination period.

##### **S-201101.08**

##### **Addition to Calendar Text — First Nations Studies Diplomas and Certificates**

Ryan / Carriere

That, on the recommendation of the Senate Committee on Academic Policy and Planning, an addition to the calendar text regarding First Nations Studies Program Diplomas and Certificates be approved as proposed.

Effective date: January 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Pg. 128

A Diploma allows a student who has completed a Certificate to build on that qualification. After completing a Certificate, a Diploma will require another 30 credit hours (for a total of 60 credit hours) with **a minimum of 15 credit hours being in upper-division courses. A** maximum of 30 credit hours from other institutions may be applied to a Diploma.

Due to the diverse nature of the courses required to complete a specific Diploma the University cannot guarantee that an individual student will be able to complete a Diploma within a specified time period. Before starting to take courses towards the goal of completing a Diploma, students are advised to consult with the Chair of the First Nations Studies Program, and where appropriate the Director of their regional campus, in order to confirm when the required Diploma courses are scheduled to be offered.

Pg. 129

**The requirements for admission into a Certificate program are the same as for any student enrolled in a UNBC undergraduate program. To be eligible for a certificate, students must achieve a minimum GPA of C, based on all courses taken at UNBC that are applied to the Certificate. University transfer credits also can be applied to the program, as appropriate, to a maximum of 15 credit hours.**

Due to the diverse nature of the courses required to complete a specific Certificate the University cannot

guarantee that an individual student will be able to complete a Certificate within a specified time period. Before starting to take courses towards the goal of completing a Certificate, students are advised to consult with the Chair of the First Nations Studies Program, and where appropriate the Director of their regional campus, in order to confirm when the required Certificate courses are scheduled to be offered.

**S-201101.09**

**Changes to Program Requirements — Major in Northern Studies**

Hoffman / Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the Major in Northern Studies, on pages 159 -160 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Northern Studies (BA Program)

Gary Wilson, ~~Assistant~~ Associate Professor, Political Science, and Northern Studies  
Coordinator

**Website:** <http://www.unbc.ca/northernstudies>

Major in Northern Studies

Northern Studies is an interdisciplinary field of particular importance to the University of Northern British Columbia, and of growing relevance globally. Circumpolar environmental processes are becoming recognized as key indicators of global change; circumpolar indigenous peoples are gaining a greater voice both nationally and internationally; circumpolar political arrangements are illustrating new forms of regional governance. For these and other reasons, ~~we need to develop~~ a better understanding of northern conditions and issues is needed.

Students are required to complete 54 credit hours of coursework consisting of one foundation course (3 credit hours); six ~~seven~~ core courses (18 21 credit hours) in three themes of: Peoples and Cultures, Lands and Environments, and Contemporary Issues; one course (3 credit hours) in Methodology; at least ~~seven~~ five courses (21 15 credit hours) from the ~~one Advanced Emphasis (Autonomy and Self Government; Community Development; Northern Peoples and Environments; Northern Health; or Northern History and Development)~~ “Environment and Health” list of courses, and at least five courses (15 credit hours) from the “Culture and People” list of courses.

The remaining electives and prerequisites are open to design by the student, but 30 credit hours must be at the Upper-Division level.

**Note:** Completion of a Bachelor of Arts with a major in Northern Studies graduation requires a minimum of 120 credit hours.

Block transfer of credit up to 60 credit hours towards the Northern Studies BA at UNBC may be given to students from Yukon College who have completed one of the following two year

Northern Studies programs at Yukon College: Diploma of Northern Studies, General Studies; Diploma of Northern Studies, Native Studies; Diploma of Northern Studies, Outdoor and Environmental Studies.

## Program Requirements

### ~~Foundation Course~~

~~NORS 101-3                      Introduction to the Circumpolar North~~

### Core Courses

NORS 101-3                      Introduction to the Circumpolar North

NORS 311-3                      Lands and Environments of the Circumpolar North 1

NORS 312-3                      Lands and Environments of the Circumpolar North 2

NORS 321-3                      Peoples and Cultures of the Circumpolar World 1

NORS 322-3                      Peoples and Cultures of the Circumpolar World 2

NORS 331-3                      Contemporary Issues in the Circumpolar North 1

or INTS 340-3

NORS 332-3

**Note:** These courses may be available in face-to-face format, cross-listed with other UNBC courses, or ~~through~~ as web-based courses, offered in conjunction with the University of the Arctic.

[All of the courses in the original Advanced Emphasis Streams have been struck through to indicate that these Streams are no longer part of the degree program. Some of the courses in these Streams have been deleted from the new lists, while others will continue to be part of the new lists. New courses have also been added to the new lists. Since the seven Advanced Emphasis Streams have been collapsed into two Lists, it was felt that this was the clearest way of organizing and conveying the changes]

~~Advanced Emphasis Stream (at least twenty one credit hours to be taken from one):~~

### ~~Stream 1 Autonomy and Self-Government~~

~~ECON 407-3                      The Economy of Northern BC~~

~~FNST 215-3/FNST 216-3                      Issues in External Relations for Contemporary Indigenous Peoples~~

~~FNST 250-3/POLS 220-3                      Canadian Law and Aboriginal Peoples~~

**Note:** Students ~~will be~~ are encouraged to participate in an optional semester at another university in the circumpolar north, through exchange agreements between UNBC and other

circumpolar universities. This should be done in consultation with the NORS Coordinator.

## Elective Requirement

~~Other electives, at least 30 credit hours at the upper division level, in any subject, to ensure completion of a minimum of 120 credit hours.~~

Electives at any level in any subject sufficient to ensure completion of a minimum of 120 credit hours, including any additional credits to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

### **S-201101.10**

#### **Changes to Program Requirements — Minor in Northern Studies**

Hoffman / Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the Minor in Northern Studies, on page 160 - 161 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Minor in Northern Studies

Northern Studies is an interdisciplinary field of particular importance to the University of Northern British Columbia, and of growing relevance globally. Many circumpolar issues are gaining importance, and there are important lessons that can be exchanged between circumpolar regions and other areas of the globe. Northern Studies can be an interesting and useful complement to students' other areas of study.

A minor consists of seven eight courses (~~21 24~~ credit hours). ~~four courses (12 credit hours) of which must be at the upper division level.~~ Students must take ~~one foundation course (NORS 101-3: Introduction to the Circumpolar North) and three courses (9 credit hours) from each of list A and B below.~~ Nor more than two courses (6 credit hours) may be taken from any one discipline— seven required core courses (21 credit hours). Students must also take one methodology course (3 credit hours) from the list below.

Courses used to fulfill program requirements for a major or another minor may not be used to fulfill requirements for this minor.

## ~~Required Courses~~

NORS 101-3                      ~~Introduction to the Circumpolar North~~

## ~~Course List A: The Circumpolar North~~

<u>GEOG 402-3</u>	Geography of the Circumpolar North
<u>GEOG 412-3</u>	Geomorphology of Cold Regions
<u>HIST 354-3</u>	The Circumpolar North
<u>INTS 410-3</u>	Environment and Development in the Circumpolar North
<u>POLS 415-3</u>	Comparative Northern Development
<u>NORS 311-3</u>	Lands and Environments of the Circumpolar North 1
<u>NORS 312-3</u>	Lands and Environments of the Circumpolar North 2
<u>NORS 321-3</u>	Peoples and Cultures of the Circumpolar North 1
<u>NORS 322-3</u>	Peoples and Cultures of the Circumpolar North 2
— or <u>NORS 331-3</u>	Contemporary Issues in the Circumpolar World 1
<u>NORS 332-3</u>	Contemporary Issues in the Circumpolar World 2

Any one of the First Nations courses on a relevant northern First Nation culture:

<u>FNST 161-3</u>	A First Nations Culture: Level 1
<u>FNST 162-3</u>	A First Nations Culture: Level 2
<u>FNST 163-3</u>	Carrier Culture: Level 1
<u>FNST 164-3</u>	Carrier Culture: Level 2
<u>FNST 167-3</u>	Tsimshian Culture: Level 1
<u>FNST 168-3</u>	Tsimshian Culture: Level 2
<u>FNST 169-3</u>	Nisga'a Culture: Level 1
<u>FNST 170-3</u>	Nisga'a Culture: Level 2

#### Course List B: The Canadian North

<u>ANTH 206-3</u>	Ethnography in Northern British Columbia
<u>ANTH 320-3</u>	Biology of Circumpolar Peoples
<u>ECON 407-3</u>	The Economy of Northern BC
<u>GEOG 200-3</u>	Geography of BC
<u>GEOG 411-3</u>	Advanced Elements in Geomorphology
<u>GEOG 424-3</u>	Social Geography of Northern Communities
<u>HIST 301-3</u>	The Canadian North
<u>HIST 405 (3-6)</u>	Topics in the Canadian North

#### Substitute Courses

One of the following courses may be substituted for one course in either list A or list B depending upon the course content:

<u>NORS 498-3</u>	Special Topics in Northern Studies
<u>NORS 499 (3-6)</u>	Independent Research/Directed Reading in Northern Studies

## Required Core Courses

<u>NORS 101-3</u>	<u>Introduction to the Circumpolar North</u>
<u>NORS 311-3</u>	<u>Lands and Environments of the Circumpolar North 1</u>
<u>NORS 312-3</u>	<u>Lands and Environments of the Circumpolar North 2</u>
<u>NORS 321-3</u>	<u>Peoples and Cultures of the Circumpolar World 1</u>
<u>NORS 322-3</u>	<u>Peoples and Cultures of the Circumpolar World 2</u>
<u>NORS 331-3</u>	<u>Contemporary Issues in the Circumpolar North 1</u>
<u>NORS 332-3</u>	<u>Contemporary Issues in the Circumpolar North 2</u>

**Note:** These courses may be available in face-to-face format, cross-listed with other UNBC courses, or as web-based courses offered in conjunction with the University of the Arctic.

## Methodology (Choose one from the list)

<u>ANTH 300-3</u>	<u>Methods in Social Anthropology</u>
<u>BIOL 325-3</u>	<u>Ecological Analyses</u>
<u>ECON 205-3</u>	<u>Statistics for the Social and Management Sciences</u>

#### **Changes to Calendar Program Pages — School of Nursing**

Ryan / Hartley

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the program pages for Nursing be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **A) Page 164, 2010-2011 Calendar 1<sup>st</sup> column**

## **Northern Collaborative Baccalaureate Nursing Program**

The Northern Collaborative Baccalaureate Nursing Program requires students to take at least 95 credit hours of Nursing courses. The minimum requirement for completion of a Bachelor of Science in Nursing is ~~434~~ 136 credit hours.

---

**B) Page 164, 2010-2011 Calendar  
2<sup>nd</sup> column**

**Admission Requirements**

Self-identified Aboriginal applicants who meet or exceed the minimum requirements for admission to the program will be given priority for up to twenty percent (20%) of the first-year seats for the Northern Collaborative Baccalaureate Nursing Program (NCBNP).

Students must apply at the collaborative colleges: The College of New Caledonia in Prince George or Quesnel, or Northwest Community College in Terrace. Admission is based on academic qualifications and available space. Priority admission will be given to students who meet admission criteria (see Admissions Section in this calendar) and apply by the deadline of March 31. Applications received after the deadline may be reviewed based on available space in the program.

Applicants ...

### Elective Requirement

Eighteen credit hours chosen to fulfill the requirements below, and to ensure completion of a minimum of ~~134~~ 136 credit hours. A course may not be used to satisfy the requirements in more than one category. Students are strongly advised to complete elective course work prior to 4th year.

- Three credit hours in First Nations Studies at any level, or HIST 110-3 Indigena, or equivalent
- Three credit hours in Humanities at any level, or ENGL 170-3, or equivalent
- Three additional credit hours in Nursing at the 200 level or above, or three credit hours at the 200 level or above in a subject related to Nursing (with permission of program)
- At least three credit hours at the 200 level or above in any subject
- At least three credit hours at the 300 level or above in any subject
- Three credit hours at any level in any subject

### “For Information” Items:

#### **SCAPP201101.03**

#### **Change to Credit Hours — HHSC 111-3 and HHSC 112-3**

That the change(s) to the credit hours of HHSC 111-3 Anatomy & Physiology I and HHSC 112-3 Anatomy & Physiology II be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Page 141, 2010-2011 Calendar 1<sup>st</sup> column

### General Requirements

To be awarded the BSc degree, students are required to complete ~~120~~ 122 credit hours of University-level courses. This consists of ~~57~~ 59 credit hours of common requirements for all BSc students, with the remainder coming from the following ~~M~~ majors, and electives.

## Page 141, 2010-2011 Calendar 2<sup>nd</sup> column

### Common Requirements: All Majors

In order to meet the graduation requirements for a BSc all students must successfully complete the following common requirements consisting of ~~57~~ 59 credit hours. It is recommended that students take the courses listed below in the year of study indicated:

#### **1st year-15 credit hours**

FNST 100-3 The Aboriginal Peoples of Canada

## Elective Requirement for all BHSC Majors

Electives at any level sufficient to ensure completion of a minimum ~~420~~ 122 credit hours.

**Page 143, 2010-2011 Calendar**

**2<sup>nd</sup> column, 2<sup>nd</sup> paragraph**

To be awarded the BHSc Honours degree, students are required to complete ~~426~~ 128 credit hours. This consists of ~~57~~ 59 credit hours of common requirements for all BHSc students, with the remainder coming from the following Majors, and electives, as follows:

**Page 143, 2010-2011 Calendar**

**2<sup>nd</sup> column, 2<sup>nd</sup> to last paragraph**

The minimum requirement for completion of a BHSc Honours is ~~426~~ 128 credit hours.

All Honours Thesis research must comply with the Research Ethics Board and is carried out ~~under~~ at the discretion of the program.

**Page 231, 2010-2011 Calendar**

**2<sup>nd</sup> column**

**HHSC 444-3 ~~111-4~~ Anatomy and Physiology I** This course is the first half of a comprehensive survey of the structures and functions of the human organ systems. Lecture topics include cellular physiology, histology, and studies of the integumentary, skeletal, nervous and endocrine systems. A laboratory component is included. This course is appropriate for students who intend to enter health profession fields.

*Prerequisites:* Biology 12 and Chemistry 11

*Recommended:* HHSC 105-3

**HHSC 442-3 ~~112-4~~ Anatomy and Physiology II** This course is a continuation of HHSC 444-3 ~~111-4~~. It is designed to cover the anatomy and physiology of the muscular, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems. Emphasis is on the importance of homeostasis and how it is maintained by the concerted proper functioning of the body systems. A laboratory component is included.

*Prerequisites:* HHSC-444-3 ~~111-4~~

**Page 232, 2010-2011 Calendar**

**1st column**

**HHSC 301-3 Pathophysiology** This lecture course examines central concepts in pathophysiology. Topics include cell-tissue biology, mechanisms of self-defense, and alterations to organs and systems, all in relation to human health.

*Prerequisites:* HHSC 442-3 ~~112-4~~

*Precluded:* NURS 202-3, NURS 301-3

### **SCAPP201101.07**

#### **Change to Course Prerequisites — NURS 201-4**

That the changes to the prerequisites for NURS 201-4 Introduction to Health Assessment on page 248 of the 2010-2011 undergraduate calendar be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 201-4 Introduction to Health Assessment** This course provides the basis to gather a health history and to assess the functioning of individuals through the proper use of physical examination techniques. Psychosocial and cultural assessment is included. The emphasis is on recognition and identification of normal findings.

*Prerequisites:* all 100 level nursing courses; HHSC 111-4 -3 and HHSC 112-4 -3, or BIO 111-3 and BIO 112-3 at CNC, or BIOL 131-3 and BIOL 132-3 at NWCC, or equivalent.

*Major Restriction:* Restricted to students in the NCBNP

### **SCAPP201101.08**

#### **Change to Course Prerequisites — NURS 202-3**

That the changes to the prerequisites for NURS 202-3 Pathophysiological Concepts on page 248 of the 2010-2011 undergraduate calendar be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 202-3 Pathophysiological Concepts** This course uses a conceptual approach to examine pathological mechanisms of altered states in human physiology. Topics include the etiology, cellular metabolism, tissue alterations, functional changes, and age-related differences involved in each process.

*Prerequisites:* HHSC 111-4 -3, HHSC 112-4 -3 and HHSC 110-3, or BIO 111-3 and BIO 112-3 and BIO 105-3 at CNC, or BIOL 131-3, BIOL 132-3, and BIOL 133-3 at NWCC, or equivalent.

*Major Restriction:* Restricted to students in the NCBNP

*Precluded:* NURS 301-3, HHSC 301-3

### **SCAPP201101.09**

#### **Change to Course Prerequisites — NURS 203-3**

That the changes to the prerequisites for NURS 203-3 Health Promotion in Families on page 249 of the 2010-2011 undergraduate calendar be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 203-3 Health Promotion in Families** This course introduces theory related to families across the lifespan within the context of primary health care in the north. Emphasis is on family assessment skills and working in partnership with families in the development of health promotion and illness and injury prevention strategies. Holistic care of families during transitions such as normal childbearing, child rearing, and caring for an elderly parent is included.

*Pre- or co-requisites:* NURS 101-3; HHSC 111-4 -3 and HHSC 112-4 -3, or BIO 111-3 and BIO 112-3 at CNC, or BIOL 131-3 and BIOL 132-3 at NWCC, or equivalent.

*Major Restriction:* Restricted to students in the NCBNP

## 8.2 Senate Committee on Research and Graduate Studies

Fondahl / Hartley

### "For Approval" Items:

#### **S-201101.12**

#### **Change to Graduate General Regulations and Policies (Regulation 20—Student Access to Final Examinations)**

Hartley / Reid

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change to the Graduate General Regulations and Policies (Regulation 20—Student Access to Final Examinations), on page 56 of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **19. Conduct in Examinations**

Students must present appropriate identification upon entering the examination room. Appropriate identification is defined as a UNBC student card and/or some other form of photo identification acceptable to the proctor. The following regulations apply to the conduct of examinations:

- a. Books, papers, or other materials or devices must not be in the possession of the student during an exam except by the express permission of the examiner. Specifically, without such permission no laptop computers, mobile phone sets, handheld electronic devices or the like may be in possession of the student in the examination room (see Regulation 43 (b)).
- b. No candidate is permitted to enter the examination room more than 30 minutes after the beginning of the examination, or permitted to leave within 30 minutes after the examination has started.
- c. Candidates must not communicate in any way with other candidates in the examination room.
- d. Candidates must not leave their seats, except when granted permission by the proctor.
- e. Candidates must turn in all materials, including rough work, upon leaving the examination room.
- f. Food and beverages other than water are not permitted in the examination room.

### **20. Student Access to Final Examinations**

The instructor will, on request by a student, informally review the final examination with the student after the semester grade has been released.

Final examinations will be retained by the instructor for a period of ~~sixty days~~ one year after the examination period, after which time they may be shredded or destroyed by other acceptable means.

### **21. Religious Holidays/Examination Schedule**

In some instances, students may find themselves, for religious reasons, unable to write a final examination on a scheduled day. If the final examination cannot be rescheduled to avoid the conflict, the student concerned shall be evaluated by other means, which may include another examination scheduled at a different time. Students must complete the appropriate form (available from the

Office of the Registrar) and notify their instructors of a conflict at least two weeks prior to the examination period.

An Executive Summary of the proposed revisions to the Psychology Department curriculum was included for information.

Motions S-201101.13 to S-201101.24 were dealt with as an omnibus motion.

**S-201101.13**

**New Course Approval — PSYC 810-3**

Hartley / Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course PSYC 810-3 Cognitive Neuroscience be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PSYC 810-3 Cognitive Neuroscience This course provides exposure to major and emergent issues in the study of brain and behaviour relationships. The focus of the course is on the theoretical and physiological basis of neuropsychological processes.

**S-201101.14**

**New Course Approval — PSYC 815-3**

Hartley / Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course PSYC 815-3 Social Psychology be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PSYC 815-3 Social Psychology This course offers an advanced study of social psychology and social cognition. The course provides exposure to major current issues in the study of social behaviour. Topics of special relevance to the social problems of the north are considered.

**S-201101.15**

**New Course Approval — PSYC 820-3**

Hartley / Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course PSYC 820-3 Health Psychology be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PSYC 820-3 Health Psychology This is an advanced seminar in health psychology dealing with such areas as psychosocial epidemiology, stress and its management, social factors and health, behavioural risk factors for chronic disease and disability, and intervention programs based on behavioural change.

**S-201101.16**

**New Course Approval — PSYC 822-3**

Hartley / Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course PSYC 822-3 Cross-Cultural Communication in Health Care Settings be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striktrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PSYC 822-3 Cross-Cultural Communication in Health Care Settings This course focuses on communication (including information transmission and interactive processes) between health professionals and people of differing cultural backgrounds. Issues examined include gaps in health perceptions between service providers and diverse groups, barriers within, and proposed changes to, the health care system.

**S-201101.17**

**New Course Approval — PSYC 825-3**

Hartley / Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course PSYC 825-3 Cognitive Neuropsychological Assessment be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striktrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PSYC 825-3 Cognitive Neuropsychological Assessment This course provides exposure to the assessment of cognitive neuropsychological functioning. Emphasis is placed on providing practical hands-on experience in the administration and scoring of commonly used tests of mental status, depression, achievement, memory, and/or intelligence. Also included is an introduction to fundamental measurement concepts and ethics.

Prerequisites: Permission of the instructor

Precluded: PSYC 625-3, 725-3

**S-201101.18**

**New Course Approval — PSYC 826-3**

Hartley / Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course PSYC 826-3 Personality Assessment be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striktrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PSYC 826-3 Personality Assessment This course provides exposure to standardized procedures for the evaluation of personality. Emphasis is placed on administration, scoring, and interpretation of objective tests of personality. Also included is an overview of

the history and theories of personality assessment, psychometrics, responsible test use, and current controversies.  
Precluded: PSYC 625-3, PSYC 726-3

**S-201101.19**

**New Course Approval — PSYC 830-3**

Hartley / Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course PSYC 830-3 Psychological Interventions be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PSYC 830-3 Psychological Interventions This is an advanced seminar on the application of psychological procedures to the change of human social, emotional, behavioural and personality functioning.

Precluded: PSYC 630-3, PSYC 730-3

**S-201101.20**

**New Course Approval — PSYC 831-3**

Hartley / Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course PSYC 831-3 Psychopathology be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PSYC 831-3 Psychopathology

This course examines historical and current approaches to the study of behaviour disorders and problems of life adjustment, including critical evaluation of empirical findings in selected areas. Classification systems, including the current revision of the APA Diagnostic and Statistical Manual, are critically reviewed.

Preclusion: PSYC 631-3

**S-201101.21**

**New Course Approval — PSYC 835-3**

Hartley / Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course PSYC 835-3 Cognition and Learning be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PSYC 835-3 Cognition and Learning

This course provides an advanced study of cognition and cognitive processes.

**S-201101.22**

**New Course Approval — PSYC 845-3**

Hartley / Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course PSYC 845-3 Developmental Psychology be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**PSYC 845-3 Developmental Psychology**

This course provides an advanced study of human development from infancy through adulthood.

**S-201101.23**

**New Course Approval — PSYC 850-(3-6)**

Hartley / Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course PSYC 850-(3-6) Special Topics in Advanced Psychology be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**PSYC 850-(3-6) Special Topics in Advanced Psychology**

This course provides an advanced study in specific substantive areas. Topics may include aging, communication theory, cross-cultural issues, emotion, gender, and health promotion, history and systems. The topic area is noted on the transcript.

Precluded: PSYC 650-3, PSYC 750-(3-6)

**S-201101.24**

**New Course Approval — PSYC 870-(3-6)**

Hartley / Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course PSYC 870-(3-6) Fieldwork Practicum be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PSYC 870-(3-6) Fieldwork Practicum This course provides supervised exposure to applied psychology practice. It includes observation of applied psychology, supervised practice of assessment and/or intervention techniques, participation in case supervision, and attendance at case conferences.

Prerequisite: permission of the instructor

Preclusion: PSYC 770-(3-6)

## S-201101.25

### **Changes to Degree Requirements — Psychology PhD Program**

Ryan / Déry

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change(s) to the Psychology PhD program course numbering, on page 92 of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Requirements**

Students in the PhD program are required to complete a minimum of 16 credit hours of course work consisting of two graduate seminars:

PSYC 800-2 Graduate Seminar I  
PSYC 801-2 Graduate Seminar II

6 credit hours of research practica:  
PSYC 860-(3-6) Research Practicum

and two courses from:

PSYC ~~68~~10-3 Cognitive Neuroscience  
PSYC ~~68~~15-3 Social Psychology  
PSYC ~~68~~20-3 Health Psychology  
PSYC ~~68~~31-3 Psychopathology  
PSYC ~~68~~35-3 Cognition and Learning  
PSYC ~~68~~45-3 Developmental Psychology  
PSYC ~~78~~220-3 Cross-Cultural Communication in Health Care Settings  
PSYC ~~78~~25-3 Cognitive Neuropsychological Assessment  
PSYC ~~78~~26-3 Personality Assessment  
PSYC ~~78~~30-3 Psychological Interventions  
PSYC 805-3 Advanced Topics in Quantitative Psychology

These courses provide students with the basic foundations upon which to build their PhD research. In addition, all students are required to complete successfully ~~complete~~ a comprehensive examination and a PhD dissertation (PSYC 890-12). The comprehensive examination is tailored to ensure the student is adequately prepared to begin work on the PhD dissertation.

Students must have a cumulative GPA of ~~B+~~ B+ or greater by the end of their second semester of registration, and maintain it at ~~B+~~ B+ or greater thereafter.

Students may be required to address deficiencies within their background preparation in Psychology or in their area of concentration that are identified by the Psychology Graduate Committee. Additional courses may be required.

Normally, students take a comprehensive examination by the end of the first year in the program (or 12 credit hours for part-time students). Upon successfully completing the comprehensive examination, and presenting an acceptable dissertation proposal to their supervisory committee, a student is granted PhD Candidate status, and embarks upon completion of the dissertation under the supervision of a Faculty Academic Supervisor. Normally, it is expected that the defence of the dissertation by full-time PhD Candidates will take place within three years of acceptance into the program.

**“For Information” Items:****SCAA201101.06****Approval of 2009-2010 Annual Report**

That the 2009-2010 Annual Report (September 1, 2009 to August 31, 2010) from the Senate Committee on Academic Appeals be approved as proposed, and forwarded to Senate for information.

Effective date: January 14, 2010

CARRIED (consent agenda).

## 8.4 Senate Committee on Nominations

Reid

**S-201101.26****Membership Changes to Senate and/or Senate Committees**

Reid / Jensen

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate and/or Senate committees as indicated, be appointed as proposed.

**SENATE OR SENATE COMMITTEE POSITION TO BE FILLED**  
*(except when otherwise noted, all terms begin immediately)***CANDIDATE****Senate-Board Liaison Committee**

Senator (until March 31, 2012)

Gohar Ashoughian

The Chair called for further nominations, and there being none, the candidate was appointed.

CARRIED.

## 9.0 Other Business

9.1 Report of the Registrar (*no material*)

DeGrace

As the Registrar was not in attendance at the meeting, there was no report.

9.2 Presentation — Recruitment and Retention (*no material*)

Milinazzo (NUGSS)

Ms. Kaleigh Milinazzo and Ms. Nadia Nowak made a PowerPoint presentation (attached as Appendix I to these minutes) to Senate regarding factors they view as impacting student recruitment and retention at UNBC. They began the presentation with a disclaimer, indicating that they were not representing the views of all students, but that the presentation consists of their perspective.

The presenters suggested that UNBC is special and attracts students because of its small size, the opportunity for interaction with faculty members, leadership opportunities, its dynamism, and because it is set in a northern environment.

In the opinion of the presenters, students leave UNBC or choose not to come to UNBC because of three factors unique to UNBC: there is a lack of social atmosphere, students do not have a sense of belonging, and the geographical location ( Prince George) has been stigmatized. The presenters emphasized the importance of students establishing friendships early upon arrival at UNBC and celebrating our northern location. They made reference to the “NUGSS 500,” the core group of students who are engaged and participate in events while the rest of students do not.

Several suggestions were made regarding actions faculty members can take to enhance student retention, including “the power of the shoulder tap” (providing positive feedback and encouragement to students) and taking a new approach to struggling students by relocating student services to the center of campus. For instance, it was suggested that locating the Learning Skills Centre in the Teaching and Learning Building is an obstacle to struggling students seeking help.

The presenters maintained that administrators can enhance the student experience by implementing new and unique teaching models. They emphasized the importance of a cohort-based foundation for programs, such as Foundation Year programs and the block teaching format. In addition, the presenters saw an opportunity for UNBC to focus on the Green University mandate and renewable energy to create excitement, as climate change and other related concerns are hot topics at the moment and are important to students. Students want to come to a university that offers programming unique from that of other universities, and offering courses related to the theme of the Green University would help to attract students. Finally, the presenters reiterated the importance of celebrating our northern location and culture.

Once the presentation was complete, the presenters fielded questions from Senators. A Senator asked what factors impacted student disengagement. The presenters responded that many students native to Prince George attend UNBC, and these students have already established a circle of friends outside the University that they continue to engage with. As well, there are transportation issues in Prince George. The presenters felt that NUGSS may be able to engage more students by diversifying the events they organize.

A Senator expressed that he appreciated the comment of support for the Foundation Year, and that he would pass this information along to College Council when they next discussed the topic. The presenters were asked if they saw a use for social media in engaging students, and they replied that Facebook could be used to advertise events, as there is no central location on campus to do so. They also added that they would welcome an updating of the current squirrel mail system to something better.

Several members of Senate, including President Iwama, thanked the NUGSS members for their presentation and frank discussion. Ms. Russell, Director of Student Success, was invited to comment, and she stated that it is important to recognize students are diverse when attempts are made to engage them, and that we need to think about how and when we offer courses. Ms. Russell added that people should expect to see exciting developments in the near future. A Senator asked whether NUGSS sees similar concerns in the regions, and the students responded that they face greater challenges with engaging students in the regions, as students there have different educational experiences. For instance, in the regions there are many mature students with families, and most of the regional campuses do not have student-designated spaces in which students can interact. A student Senator also commented that there are issues with lack of food availability and transportation at the Prince George campus on the weekends.

## **10.0 Information**

There were no items for information

## **11.0 S-201101.27 Adjournment**

Beeler / Carriere

That the Senate meeting be adjourned.  
CARRIED.

The meeting ended at 4:50 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

February 23, 2011  
3:30 – 5:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

E. Annis, G. Ashoughian, S. Beeler, S. Bennett, T. Binnema, C. Carriere, D. Casperson, C. Chasteauneuf, L. Chen, M. Dale, J. DeGrace (Secretary of Senate), S. Déry, H. Donker, M. Green, W. Haque, M. Hatcher, K. Hutchings (Vice Chair), G. Iwama (Chair), E. Jensen, E. Kim, D. Leighton-Stephens, J. Li, D. Macknak, S. McKenzie, C. Myers (Recording), C. O'Callaghan, M. Reid, R. Robinson, I. Uche-Ezeala, J. Van Barneveld, S. Wagner, J. Young

---

The meeting commenced at 3:30 p.m.

**1.0 S-201102.01**

**Approval of the Agenda**

Hartley / Déry

That the Agenda for the February 23, 2011 Public Session of Senate be approved as presented.  
CARRIED.

**2.0 S-201102.02**

**Approval of Senate Minutes**

Déry / Beeler

That the minutes of the January 25, 2011 Public Session of Senate be approved as presented.  
CARRIED.

**3.0 Business Arising from Previous Minutes of Senate**

No business arising was identified.

#### 4.0 President's Report

Iwama

Dr. Iwama expressed his congratulations to Dr. Lisa Dickson, who is the recipient of a 3M Teaching Award.

The President reported that, with regard to the Year of Science, UNBC has a Working Group to develop activities because we have been awarded a couple of small grants for the event. UNBC has also received one of the signature events, which will be held in the Civic Centre on April 11 and 12.

Dr. Iwama noted that the Senate Committee on the University Budget has been meeting on a regular basis, in conjunction with the budget discussions that are currently underway. He added that, in terms of the approval process, the draft budget will be presented to Senate and the Board of Governors, and upon approval by the Board of Governors there will be a Town Hall meeting to share the budget with the University community.

Dr. Iwama reported there would be a review of the Office of the Registrar taking place on March 1 and 2.

Finally, with regard to the recent changes in the provincial government, discussions related to the Wood Innovation and Design Centre and the removal of UNBC as a Government Reporting Entity were currently on hold and that it may be April before clarity is achieved regarding moving forward on these initiatives.

#### 5.0 Report of the Provost

Dale

As Dr. Dale was attending the meeting by teleconference while in transit, specifically for the purpose of addressing the proposed Engineering degrees, he had nothing to report.

#### 6.0 Question Period

A Senator mentioned that at the last meeting of the Board of Governors there was discussion regarding fundraising and asked for further information about this initiative. Dr. Iwama responded that Dr. Jack Blaney, former President of Simon Fraser University, had spoken about the role of the Board in fundraising at the Board's planning session in January. Dr. Iwama added that this was a timely discussion in light of the recently developed University Plan and Action Plans, and that the first step was to determine our area of greatest need. The Vice President External Relations had recently met with some similar-sized universities in Atlantic Canada regarding the infrastructure they have in place and other components of successful fundraising.

Dr. Iwama reported that at their planning session the Board had also discussed best practices with regard to governance, notes from which he would like to make available to Senators.

A Senator reminded the President that at the December meeting of Senate he had asked for information about the number of employees in each employee group, and asked whether this would be provided. Dr. Iwama responded that he has asked Institutional Research for this report but that they indicated it would be a challenge to produce. Dr. Iwama agreed to provide a status update as soon as possible.

A Senator suggested that, given the bicameral nature of the University's governance, it might be useful in some areas to have communication between Senators and Governors of the Board. Dr. Iwama responded that he would suggest this to the Board of Governors, and added that the Senate-Board Liaison Committee would be meeting soon.

#### 7.0 **S-201102.03** **Approval of Motions on the Consent Agenda**

Chasteauneuf / Déry

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

## 8.0 Committee Reports

### 8.1 Senate Committee on Academic Policy and Planning

Dale

#### "For Approval" Items:

An Executive Summary of the proposed new Engineering Programs was included for information.

Dr. Dale thanked those who had developed the draft documents for these Programs. He noted that these motions are for approval in principal, as mounting the Programs will depend on receiving full funding. He added that it was important, however, to make it clear to the government that UNBC is committed to these Programs and ready to move forward when the money is available, and that the government has committed to support this whether or not the Wood Innovation and Design Centre materializes.

A Senator asked for clarification on the implications of approving these motions, and questioned what would happen if the government grants 97% of the funding required. Dr. Dale responded that approval in principal enables UNBC to move forward, and that details about the curriculum depend on advice obtained regarding accreditation. A member of the gallery asked whether the programs as they are currently proposed are in alignment with current accreditation standards, and Dr. Dale replied that they are. A Senator asked what the advantage was to approving these programs in principal rather than waiting until all the details are confirmed and approving them outright. Dr. Dale explained that approval in principal demonstrates to the government a commitment to proceed, at which point the University can then enter into discussions with the Ministry.

#### **S-201102.04**

##### **New Program Approval — Engineering Program (BASc)**

Li / Donker

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new Engineering Program (BASc) be approved in principle.

Proposed Start Date: Upon receiving appropriate funding from the Ministry, and receipt of program approval from Senate, Board and the Ministry.

CARRIED.

#### **S-201102.05**

##### **New Program Approval — Civil Engineering Program (BASc)**

Li / Donker

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new Civil Engineering Program (BASc) be approved in principle.

Proposed Start Date: Upon receiving appropriate funding from the Ministry, and receipt of program approval from Senate, Board and the Ministry.

CARRIED.

#### **S-201102.06**

##### **New Program Approval — Mechanical Engineering Program (BASc)**

Li / Hartley

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new Mechanical Engineering Program (BASc) be approved in principle.

Proposed Start Date: Upon receiving appropriate funding from the Ministry, and receipt of program approval from Senate, Board and the Ministry.

CARRIED.

An Executive Summary of the proposed revisions to the curriculum for the Department of Mathematics and Statistics was included for information.

#### **S-201102.07**

##### **New Course Approval — MATH 409-3**

Jensen / Reid

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course MATH 409-3 Mathematical Methods in Physics be approved as proposed.

Proposed semester of first offering: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course surveys the methods and techniques involved in the formulation and solutions of physics problems. Topics include matrix algebra and group theory, eigenvalue problems, differential equations, functions of a complex variable, Green's functions, Fourier series, integral equations, calculus of variations, and tensor analysis.

**Prerequisites:** permission of instructor

**Co-requisites:** none

**Preclusions:** PHYS 409-3

**Course Equivalencies:** PHYS 409-3

**S-201102.08**

**Changes to Program Requirements and Calendar Description — Department of Mathematics and Statistics**

Chasteauneuf / Déry

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the program description on pages 149-151 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Mathematics (~~BSc Program~~) and Statistics

Jennifer Hyndman, Professor, and Department Chair

Iliya Bluskov, Professor

Lee Keener, Professor

Pranesh Kumar, Professor

Sam Walters, Professor

Kevin Keen, Associate Professor

~~Rob Robb~~ Fry, Adjunct Professor

Francesca Apruzzese, Adjunct Professor

Edward Dobrowolski, Adjunct Professor

~~Cristian Ivanescu, Adjunct Professor~~

Patrick Montgomery, Adjunct Professor

~~Anamaria Savu, Adjunct Professor~~

**Website:** <http://www.unbc.ca/math>

The Department of Mathematics and Statistics provides undergraduate and postgraduate instruction and training in pure mathematics, applied mathematics, and statistics. A Bachelor of Science degree is available in Mathematics, as well as joint BSc degrees in Mathematics and Physics, Economics and Mathematics, Chemistry and Mathematics, and Computer Science and Mathematics.

In addition, there is a minor in Mathematics and a minor in Statistics. A graduate degree (MSc – Mathematical, Computer, and Physical Sciences) is also supported by the Department of Mathematics and Statistics. Students interested in graduate studies are advised to consult the UNBC Graduate Calendar for further information.

The Department of Mathematics and Statistics offers Mathematics and Statistics service courses to students in the biological sciences, health sciences, management, economics, social sciences, and other areas.

Some sections of introductory calculus are enhanced through the use of computer software which provides exceptional computational power and high-quality graphical display. Introductory statistics courses teach the use of statistical analysis software to analyze data.

An important feature of the Mathematics degree program is the early emphasis on the development of abstract reasoning and the relation of the abstract to the concrete. The degree requirements have been chosen so as to provide students with a broad background in Mathematics while still leaving them room to pursue individual interests.

For more information please visit our website at [www.unbc.ca/math](http://www.unbc.ca/math).

### ~~Major in~~ Mathematics (BSc Program)

A major in Mathematics requires 17 mathematics courses (51 credit hours), at least 30 credit hours of which must be upper-division courses; and, of those upper-division credit hours, at least 12 must be taken at the 400 level.

MATH 342-3 (Biostatistics) may not be used for credit towards any Mathematics major, minor, or joint major.

MATH 150-3 (Finite Mathematics for Business and Economics) may not be used for credit towards any Mathematics major or joint major.

The minimum requirement for completion of a Bachelor of Science with a major in Mathematics is 120 credit hours.

### Program Requirements

**Note:** Unless otherwise stated, students enrolling in any Mathematics courses with prerequisites are required to have completed all prerequisite courses for that course with a C- or better, or have permission to enrol from the Program Chair.

### Literacy Requirement

One of:

ENGL 170-3	Writing and Communication Skills
ENGL 270-3	Expository Writing

### Lower-Division Requirement

100 Level

CPSC 100-4	Computer Programming I
CPSC 141-3	Discrete Computational Mathematics
MATH 100-3	Calculus I
or MATH 105-3	Enriched Calculus
MATH 101-3	Calculus II

200 Level

MATH 200-3	Calculus III
MATH 201-3	Introduction to Complex Analysis
MATH 220-3	Linear Algebra
MATH 224-3	Foundations of Modern Mathematics
MATH 230-3	Linear Differential Equations and Boundary Value

## Problems

### Recommended

CPSC 101-4	Computer Programming II
CPSC 242-3	Mathematical Topics for Computer Science

### General Science Requirement

Two of:

BIOL 101-4	Introductory Biology I
BIOL 102-4	Introductory Biology II
CHEM 100-3	General Chemistry I
and CHEM 120-1	General Chemistry Lab I
CHEM 101-3	General Chemistry II
and CHEM 121-1	General Chemistry Lab II
PHYS 100-4	Introduction to Physics I
or PHYS 110-4*	Introductory Physics I:
PHYS 111-4*	Introductory Physics II: Waves and Electricity

**\*Note:** PHYS 110-4 (Introductory Physics I: Mechanics) and PHYS 111-4 (Introductory Physics II: Waves and Electricity) are strongly recommended for all majors.

### Upper-Division Requirement

#### 300 Level

MATH 302-3	Theory of Metric Spaces
MATH 320-3	Survey of Algebra
<del>MATH 321-3</del>	<del>Topology</del>
—or MATH 326-3	<del>Advanced Linear Algebra</del>
MATH 336-3	Intermediate Differential Equations
or MATH 335-3	Numerical Analysis I
<del>MATH</del> <u>STAT</u> 371-3	Probability and Statistics for Scientists and Engineers
<del>MATH</del> <u>STAT</u> 372-3	Mathematical Statistics

#### 300 or 400 Level

<u>MATH 326-3</u>	<u>Advanced Linear Algebra</u>
—or <u>MATH 405-3</u>	<u>Topology</u>

#### 400 Level

Twelve additional credit hours of 400-level ~~Mathematics~~ MATH or STAT courses.

### Elective and Academic Breadth Requirement

Elective credit hours as necessary to ensure completion of a minimum of 120 credit hours, including any

additional credits necessary to meet the Academic Breadth requirement of the University (see Academic Regulations 15).

A document outlining the requested order of motions was included for information.

**S-201102.09**

**Change to Course Prefix, Calendar Course Description, and Preclusions — MATH 371-3**

Chasteauneuf / Déry

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the prefix of MATH 371-3 Probability and Statistics for Scientists and Engineers be changed to STAT on pages 75, 86, 87, 89, 90 (2 places), 91, 92, 112, 113, 118, 150 (2 places), 151, 218 (2 places), 243, 244 (2 places), and 245 (4 places) of the 2010/2011 undergraduate calendar and the description and preclusions be changed as indicated.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**~~MATH STAT~~ 371-3 Probability and Statistics for Scientists and Engineers** This course is a calculus-based introduction to the theory and application of probability and statistics. ~~The T~~opics ~~to be~~ covered include concepts of probability, events, ~~and~~ populations, probability theorems, the concept of a random variable, continuous and discrete random variables, joint probability distributions, distributions of functions of a random variable, moments, Chebyshev's inequality, the de Moivre-Laplace theorem, the central limit theorem, sampling and statistical estimation theory, hypothesis testing, simple regression analysis, and an introduction to the design of experiments.

*Prerequisites:* MATH 101-3

*Precluded:* MATH 340-3 and MATH 341-3 if both taken, MATH 371-3

**S-201102.10**

**Change to Course Prefix and Preclusions — MATH 240-3**

Chasteauneuf / Déry

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the prefix of MATH 240-3 Basic Statistics be changed to STAT on pages 71, 75, 78, 79, 80, 81, 82, 83, 84 (2 places), 108, 113, 118, 134, 137, 142, 145, 147, 151, 152, 153, 154, 155, 163, 165, 166, 167, 170 171, 188, 192, 218 (2 places), 229 (2 places), 243, 245 (4 places), 250, 155, and 160 of the 2010/2011 undergraduate calendar and the preclusions be changed as indicated.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**~~MATH STAT~~ 240-3 Basic Statistics** This course is an introduction to the basic principles of statistics and procedures for data analysis. Topics include gathering data, displaying and summarizing data, examining relationships between variables, probability models, sampling distributions, estimation and significance tests, inference for means and proportions in one and two sample situations, contingency tables, and simple linear regression. Students register in a computer lab corresponding to their area of interest.

*Precluded:* MATH 242-3, MATH 342-3, MATH 240-3, ECON 205-3, and PSYC 315-4. Students who have completed STAT 371-3, MATH 341-3 or MATH 371-3 may not take ~~MATH STAT~~ 240-3 for credit.

**S-201102.11**

**Change to Course Prefix, Prerequisites, and Preclusions — MATH 372-3**

Chasteauneuf / Déry

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the prefix of MATH 372-3 Mathematical Statistics be changed to STAT on pages 94, 199, 150, 151, 244 of the 2010/2011 undergraduate calendar and the prerequisites and preclusions be added as indicated.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH STAT 372-3 Mathematical Statistics** This course introduces the theory of statistical inference. ~~The~~ Topics ~~to be~~ covered from likelihood theory are maximum likelihood estimation, sufficiency, and the likelihood ratio test. ~~The~~ Topics ~~to be~~ covered from frequentist theory are point estimation, unbiasedness, consistency, efficiency, confidence intervals, and small sample and large sample hypothesis tests. ~~The~~ Topics ~~to be~~ covered from Bayesian theory are risk, point estimation, and credible intervals.

*Prerequisites:* STAT 371-3 or MATH 371-3

*Precluded:* MATH 340-3 and MATH 341-3 if both taken, MATH 372-3

**S-201102.12**

**Change to Course Prefix, Prerequisites, and Preclusions — MATH 441-3**

Chasteauneuf / Déry

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the prefix of MATH 441-3 Nonparametric Statistics be changed to STAT on pages 119, 151, and 245 of the 2010/2011 undergraduate calendar and the prerequisites be changed and a preclusion added as indicated.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH STAT 441-3 Nonparametric Statistics** This course discusses the methodology and application of nonparametric statistics. ~~The~~ Topics ~~to be~~ covered include goodness-of-fit tests, contingency tables, empirical distribution function tests, the sign test, the Wilcoxon test, the Wilcoxon-Mann-Whitney test, the Kruskal-Wallis test, and rank correlation.

*Prerequisites:* One of the following: STAT 240-3, STAT 371-3, MATH 240-3, MATH 242-3, MATH 341-3, MATH 342-3, MATH 371-3, ECON 205-3, or PSYC 315-4

*Precluded:* MATH 441-3

**S-201102.13**

**Change to Course Prefix, Prerequisites, and Preclusions — MATH 471-3**

Chasteauneuf / Déry

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the prefix of MATH 471-3 Linear Models be changed to STAT on pages 151 and 245 of the 2010/2011 undergraduate calendar and the prerequisites and preclusions be changed as indicated.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH STAT 471-3 Linear Models** This course discusses the estimation of parameters in the multiple linear regression model by the least-squares method. Topics ~~to be covered~~ include the statistical properties of the least-squares estimators, the Gauss-Markov theorem, estimates of residual and regression sums of squares, distribution theory under normality of the observations, assessment of normality, variance stabilizing transformations, examination of multicollinearity, variable selection methods, logistic regression for a binary response, log-linear models for count data, and generalized linear models.

*Prerequisites:* One of ~~MATH 100-3 or MATH 152~~ and one of the following: STAT 240-3, STAT 371-3, MATH 150-3 or MATH 220-3, MATH 240-3, MATH 371-3, ECON 205-3, or PSYC 315-4

*Precluded:* MATH 471-3 ~~671-3~~, MATH 499-3 Regression

#### **S-201102.14**

#### **Change to Course Prefix, Prerequisites, and Preclusions — MATH 472-3**

Chasteauneuf / Déry

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the prefix of MATH 472-3 Survey Sampling Design and Analysis be changed to STAT on pages 151 and 245 of the 2010/2011 undergraduate calendar and the prerequisites and preclusions be changed as indicated.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH STAT 472-3 Survey Sampling Design and Analysis** This course discusses the planning and practice of sample surveys. Topics ~~to be covered~~ include simple random sampling, unequal probability sampling, stratified sampling, cluster sampling, multistage sampling, cost-effective design, analysis and control of sources of sampling and non-sampling error, ratio estimation, model-based regression estimation, resampling, and replication methods.

*Prerequisites:* One of ~~MATH 100-3 or MATH 152~~ and one of the following: STAT 240-3, STAT 371-3, MATH 240-3, MATH 371-3, ECON 205-3, or PSYC 315-4

*Precluded:* MATH 472-3 ~~672-3~~, MATH 499-3 Design of Sample Surveys

#### **S-201102.15**

#### **Change to Course Prefix, Prerequisites, and Preclusions — MATH 473-3**

Chasteauneuf / Déry

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the prefix of MATH 473-3 Experimental Design and Analysis be changed to STAT on pages 151 and 245 of the 2010/2011 undergraduate calendar and the prerequisites and preclusions be changed as indicated.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH STAT 473-3 Experimental Design** This course discusses experimental designs and analyses. Topics to be covered include basic principles and guidelines for designing experiments, simple comparative designs, single factor analysis of variance, block designs, factorial designs, response surface methods and designs, nested and split plot designs, and the analysis of covariance.

*Prerequisites:* One of ~~MATH 100-3 or MATH 152~~ and one of the following: STAT 240-3, STAT 371-3, MATH 150-3 or MATH 220-3, MATH 240-3, MATH 371-3, ECON 205-3, or PSYC 315-4

*Precluded:* MATH 473-3 ~~673-3~~, MATH 499-3 Design of Experiments

**S-201102.16**

**Change to Course Prefix, Prerequisites, and Preclusions — MATH 475-3**

Chasteauneuf / Déry

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the prefix of MATH 475-3 Methods for Multivariate Data be changed to STAT on pages 151 and 246 of the 2010/2011 undergraduate calendar and a prerequisite be added and the preclusions be changed as indicated.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH STAT 475-3 Methods for Multivariate Data** This course discusses practical techniques for the analysis of multivariate data. Topics ~~to be covered~~ include estimation and hypothesis testing for multivariate means and variances; partial, multiple and canonical correlations; principal components analysis and factor analysis for data reduction; multivariate analysis of variance; discriminant analysis for classification; and cluster analysis.

*Prerequisites:* One of MATH 150-3 or MATH 220-3, and one of STAT 471-3 or MATH 471-3

*Precluded :* MATH ~~475-3~~ 675-3, MATH 499-3 Applied Multivariate Analysis

**S-201102.17**

**New Course Approval — STAT 499-(1-3)**

Chasteauneuf / Déry

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course STAT 499-(1-3) Special Topics in Statistics be approved as proposed.

Proposed semester of first offering: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The topic for this course varies, depending on student interest and faculty availability. The course may be taken any number of times provided that topics are distinct.

**Prerequisites:** permission of instructor

**Co-requisites:** None

**Preclusions:** None

**Course Equivalencies:** None

**“For Information” Items:**

**SCAPP201102.07**

**Change to Course Prerequisites — MATH 220-3**

Chasteauneuf / Déry

That the changes to the prerequisites of MATH 220-3 Linear Algebra be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH 220-3 Linear Algebra** This course covers systems of linear equations, matrix algebra, determinants, vector geometry, vector spaces, eigenvalues and diagonalization.

*Prerequisites:* MATH 100-3 or MATH 105-3 or CPSC 141-3

**SCAPP201102.08**

**Change to Calendar Course Description — MATH 224-3**

Chasteauneuf / Déry

That the changes to the course description of MATH 224-3 Foundations of Modern Mathematics be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course develops the essential components of Zermelo-Fraenkel set theory and from these ideas constructs the standard number systems. Topics include basic logic and methods of proof, axioms of set theory, mathematical induction, ~~the Axiom of Choice, ordinal and cardinal numbers~~, the natural numbers, ~~elementary number theory~~, the integers, and the rational, real, and complex number systems, epsilon-delta arguments, and rigorous development of the theorems of elementary calculus.

Prerequisites: MATH 100 Minimum Grade of C- or MATH 105 Minimum Grade of C-

Precluded: MATH 222-3

**SCAPP201102.09**

**Change to Course Prerequisite and Title — MATH 302-3**

Chasteauneuf / Déry

That the changes to the course prerequisite and title for MATH 302-3 Theory of Metric Spaces be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

MATH 302-3 – ~~Theory of Metric Spaces~~ Introductory Mathematical Analysis

This course develops the essential components of metric space topology and the related ideas of convergence, including convergence of sequences and series of functions. Topics include open, closed, bounded and compacted sets in a metric space, the Bozano-Weierstrass and Heine-Borel Theorems, continuous and uniformly continuous functions, and uniform convergence.

Prerequisites: ~~MATH 200-3~~ MATH 101-3 and MATH 224-3

Strongly recommended: MATH 201-3

Precluded: MATH 223-3 and MATH 300-3

**SCAPP201102.10**

**Change to Course Number and Prerequisites — MATH 321-3**

Chasteauneuf / Déry

That MATH 321-3 (Topology) be renumbered as MATH 405-3 Topology and that the prerequisites be changed as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH 405-3 321-3 Topology** Open and closed sets, Hausdorff and other topologies, bases and sub-bases, continuous functions connectivity, product and quotient spaces, the Tychonoff and Urysohn lemmas, metrization, compact spaces.

Prerequisites: MATH 224-3 MATH 302-3

Recommended: MATH 302-3

Preclusion: MATH 321-3

### **SCAPP201102.11**

#### **Changes to Calendar Course Description — MATH 326-3**

Chasteauneuf / Déry

That the changes to the calendar course description for MATH 326-3 Advanced Linear Algebra be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH 326-3 Advanced Linear Algebra** ~~This is a second course in Linear Algebra. Topics include vector spaces, eigenvalues and diagonalization, linear transformations, inner product spaces.~~ Topics include abstract treatment of vector spaces, linear transformations, the Cayley-Hamilton theorem, inner product spaces, Gram-Schmidt orthogonalization, rational and Jordan canonical forms, and the spectral theorem.

Prerequisites: MATH 220-3

### **SCAPP201102.12**

#### **Changes to Calendar Course Description and Prerequisites — MATH 336-3**

Chasteauneuf / Déry

That the changes to the course description and prerequisites for MATH 336-3 Intermediate Differential Equations be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH 336-3 Intermediate Differential Equations** This course is a continuation of MATH 230-3 and is designed to increase the depth and breadth of students' knowledge pertaining to differential equations. Topics include existence and uniqueness theory for ordinary differential equations, series solutions of differential equations, linear system theory, phase plane analysis and stability, boundary value problems and Green's Functions. ~~general introduction to the theory of Fourier Series with an application to boundary value problems for the Heat Equation, Wave Equation and Laplace's Equation.~~

Prerequisites: MATH 220-3 and MATH 230-3

Precluded: MATH 334-3

**SCAPP201102.13**

**Changes to Calendar Course Description and Prerequisites — MATH 402-3**

Chasteauneuf / Déry

That the changes to the course description and prerequisites for MATH 402-3 Topological and Normed Linear Spaces be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH 402-3 – Topological and Normed Linear Spaces**

This course focuses on the properties of topological spaces and normed linear spaces, especially Banach spaces. Topics include inner product spaces, topological spaces, compact and locally compact spaces, ~~classical~~ Banach spaces, linear functionals and dual spaces, topological vector spaces, and Hilbert space, ~~orthogonal systems and~~ ~~Fourier series.~~

Prerequisites: ~~MATH 226-3 and MATH 302-3 and MATH 321-3, or permission of the instructor.~~

**SCAPP201102.14**

**Change to Course Preclusion — PHYS 409-3**

Chasteauneuf / Déry

That a preclusion of MATH 409-3 Mathematical Methods in Physics be added to PHYS 409-3 Mathematical Methods in Physics.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**PHYS 409-3 Mathematical Methods in Physics** ~~A~~ This course surveys ~~of~~ the methods and techniques involved in the formulation and solutions of physics problems. Topics include matrix algebra and group theory, eigenvalue problems, differential equations, functions of a complex variable, Green's functions, Fourier series, integral equations, calculus of variations, and tensor analysis.

*Prerequisites:* ~~p~~Permission of the instructor

*Precluded:* MATH 409-3

**SCAPP201102.15**

**Change to Course Prerequisites — MATH 455-3**

Chasteauneuf / Déry

That the change to the course prerequisite for MATH 455-3 Graphs and Algorithms be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## MATH 455-3 Graphs and Algorithms

This course is an introduction to graphs and algorithms. Topics include: basic graph concepts, flows and connectivity, trees, matchings and factors, graph colouring, scheduling, planar graphs, and algorithms.

Prerequisites: ~~MATH 222-3~~ or MATH 224-3 or CPSC 142-3 or CPSC ~~241-3~~ 141-3.

### 8.2 Senate Committee on Research and Graduate Studies

Fondahl / Hartley

#### **“For Approval” Items:**

##### **S-201102.18**

##### **Change in Grade Mode — COMM 799-6**

Donker / Déry

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the grade assignment for COMM 799-6 MBA Projects be changed from a letter grade to Pass/Fail.

Effective date: September 2011

CARRIED.

#### **“For Information” Items:**

##### **SCRG201102.04**

##### **Change to Course Title — COMM 690-3**

Chasteauneuf / Déry

That the change to the course title for COMM 690-3 Northern Business Issues on page 101 of the 2009/2010 graduate calendar, be approved as proposed.

Effective date: May 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

COMM 690-3 Northern Business Issues in the Global Context This intensive seminar course explores political, economic and managerial issues that are particularly important in northern and rural areas. Guest speakers, and individual and group research, ~~compliments~~ complement course readings and lecture content.

### 8.3 Senate Committee on Scholarships and Bursaries

Russell

#### **“For Information” Items:**

##### **SCSB20110126.05**

##### **William Wilfred Kordyban Memorial Award for Cancer Service**

Chasteauneuf / Déry

That the revised Terms and Conditions for the William Wilfred Kordyban Memorial Award for Cancer Service be approved.

Effective Date: 2010-2011 Academic Year

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Value:** ~~\$500~~ minimum \$1,500 (or the nearest multiple of \$100 depending on interest earned)

**Eligibility:** Available to a full or part time undergraduate student studying at the Prince George campus who has completed 60 credit hours. First preference will be given to a nursing student with demonstrated community involvement in the Kordyban Lodge (cancer lodge adjacent to the University Hospital of Northern British Columbia) or the cancer ward at the University Hospital of Northern British Columbia. Second preference will be given to a nursing student with demonstrated community involvement in a health related field in the north.

~~**Conditions:** Student recipient must currently be providing voluntary service to cancer care while attending UNBC.~~

~~**Application Instructions:** Fill out all sections of the Awards Application form and attach a letter outlining your volunteer service community involvement.~~

**S-201102.19**

**Policy for Nominating UNBC Scholars**

That the proposed changes to the Terms of Reference for the UNBC Scholars awards be approved as presented.

Effective Date: 2012-2013 Academic Year

A Senator outlined some concerns that had been brought to her attention regarding the proposed revisions to this motion, suggesting that the criteria as revised would favour some students over others. The Chair of the committee responded that these concerns were discussed by the committee but that they viewed numeracy as being important for a scholarship of this caliber. A Senator provided information regarding the authority delegated to SCSB by Senate, and Dr. Iwama concluded that the committee had reached a decision regarding this motion on the authority delegated to them by Senate, so no motion was required to approve this agenda item. Another Senator was of the opinion that the proposed change seemed equitable.

CARRIED (consent agenda).

**9.0 Other Business**

**9.1 Report of the Registrar**

**DeGrace**

The Registrar had nothing to report.

**9.2 A Senator gave notice that he may propose the following motion at the next meeting of Senate:**

That the Senate Committee on the University Budget be asked to investigate matters relating to the budgeting process of recent hires over the last year.

**10.0 Information**

There were no items for information.

**11.0 S-201102.20**

**Move to In Camera Session**

Jensen / Reid

That the meeting move In Camera.

CARRIED.

**12.0 S-201102.24**

**Adjournment**

Reid / Hartley

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 4:20 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

March 23, 2011  
3:30 – 5:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

O. Adegbite, E. Annis, M. Archie, G. Ashoughian, S. Beeler, S. Bennett, T. Binnema, R. Brouwer, C. Carriere, D. Casperson, C. Chasteauneuf, L. Chen, M. Dale, J. DeGrace (Secretary of Senate), S. Déry, H. Donker, G. Fondahl, M. Green, W. Haque, I. Hartley, M. Hatcher, R. Hoffman, K. Hutchings (Vice Chair), G. Iwama (Chair), E. Jensen, E. Kim, M. Kizhakkeniyil, R. Lazenby, J. Li, D. Macknak, C. Myers (Recording), D. Nyce, C. O'Callaghan, M. Reid, R. Robinson, D. Ryan, J. Van Barneveld, S. Wagner

**Regrets:**

D. Leighton-Stephens, S. McKenzie, J. Young, S. Zahir

**Absent:**

J. Alec, A. Dayanandan, I. Uche-Ezeala

---

The meeting commenced at 3:30 p.m.

**1.0 S-201103.01**

**Approval of the Agenda**

Déry / Reid

That the Agenda for the March 23, 2011 Public Session of Senate be approved as presented.

CARRIED.

**2.0 President's Report**

**Iwama**

Dr. Iwama asked that, on the suggestion of a Senator, Senators participate in a minute of silence for the victims of the earthquake and tsunami in Japan. Senators were in agreement with this request. After the minute of silence, Dr. Iwama thanked UNBC faculty members and students for their efforts to support the people in Japan through this tragedy.

Dr. Iwama reported that UNBC had released ten videos on YouTube, highlighting life at UNBC. He added that posters containing QR codes have been posted in the hallways from which students can access information about UNBC.

The President indicated that the provincial government has reverted to having one Ministry responsible for post-secondary education, and that the new Minister is the Honourable Naomi Yamamoto, who would be visiting the campus on Tuesday. He added that both MLAs from Prince George remain on cabinet. The Wood Innovation and Design Centre remains in the portfolio of the Honourable Pat Bell and he has indicated that the University should expect an April submission to the Treasury Board in this regard.

Discussions between UNBC and Northern Health have been ongoing, and since the Memorandum of Agreement was signed a few months ago, a brown-bag lunch series has begun, the parties have discussed creating a Health Innovations Commons involving UNBC, Northern Health, and citizens, and research collaborations continue.

Dr. Iwama concluded his report with the information that the Senate-Board Liaison Committee met and have moved toward holding the joint meeting the day after Convocation. They will report to Senate with further clarity in the near future.

### **3.0 Report of the Provost**

**Dale**

Regarding the search for a new Registrar, Dr. Dale reported that the committee planned to short-list candidates by the first week in April and conduct interviews by mid-April. He also reported that the Physical Therapy Program had been approved by the Ministry, and would be offered in conjunction with the University of British Columbia. Finally, Dr. Dale presented a chart regarding course offerings at UNBC over the past ten years (attached to these minutes as "Appendix I"), noting that the number of courses listed had continued to rise while the number of courses offered and registered in had remained fairly constant. Thus, a working group of the Senate Committee on Academic Policy and Planning (SCAPP) would be presenting some recommendations at the next SCAPP meeting with regard to letting go of courses that have not been offered in some time.

Dr. Iwama expressed his thanks to Senators who were attending their last meeting of Senate.

### **4.0 Question Period**

Dr. Dale was asked when the first cohort of Physical Therapy students would begin taking courses, and he responded that, formally, it would be September 2012 but he was looking to identify whether there might be a way to informally begin in September 2011.

A Senator expressed surprise at the fact that some courses had been cancelled during the visit from Rick Mercer, and Dr. Iwama responded that there was no directive or suggestion from Administration in this regard and that academics are the University's prime mandate.

A Senator asked whether Senate was receiving the same documentation as the board of Governors will receive with regard to the budget. Dr. Iwama replied that Senate was seeing the draft budget prior to it going to the Board for approval, the Board would receive documentation for consideration, and if the budget is approved by the Board, a Town Hall meeting will be held the following Monday.

### **5.0 Presentation — 2011-2012 Proposed Budget**

**Bray**

Prior to Ms. Bray's presentation, Dr. Iwama expressed his thanks for the manner in which finances are administered at UNBC, because the careful attention and approach used puts the University in a good situation coming out of the recession. He added that the government has kept our grant flat but not reduced it, and although our situation is not dire, we need to be prudent.

Ms. Bray presented a number of slides related to the budget (attached to these minutes as "Appendix II"), in which she outlined priorities and noted that because there was no increase expected in the grant from the provincial government over the next three years, the only way new initiatives can be launched is by reallocation of existing funds. She also indicated that enrolment numbers continue to decrease in relation to target numbers, and have since 2004. Thus, it had been decided that the budget, which was balanced, would be based on the assumption that there would be no growth in enrolment. Ms. Bray explained that any decrease in enrolment may be offset by new advertising campaigns taking place in Vancouver, Calgary, and Toronto. She was of the view that the planned initiatives would demonstrate to the government that UNBC has a viable plan in place to address enrolment concerns. Finally, with regard to the \$3.8 million in critical needs identified, the University is unable to address any of these requests at this time, but may be able to do so if there is any budget surplus once year-end numbers become clear in mid-May. She added that decisions with regard to critical needs requests will be communicated after they have been made.

## 6.0 Committee Reports

### 6.1 Senate Committee on the University Budget

Donker

#### “For Information” Items:

##### **SCUB20110322.01**

##### **2011 Annual Report from the Senate Committee on the University Budget**

That the 2011 Annual Report from the Senate Committee on the University Budget be approved and forwarded to Senate for information.

Dr. Donker, Chair of the Senate Committee on the University Budget, outlined the report from the committee. He expressed appreciation for having received all the documentation the committee requested. He noted that the committee had two major concerns, namely the flat grant from the province and decreased enrolment. He added, however, that the University has responded with the Action Plan, Strategic Investment Funds for international recruitment, the hiring of the Assistant Provost, and an advertising campaign, which he suggested was an excellent beginning to addressing this concern.

The committee had several recommendations. First, it was suggested that, because enrolments were not decreasing in all areas, the University determine where they want to move forward and establish a comprehensive approach by reallocating funds to areas where growth might be attained, such as renewable energy. It was also suggested that more coherence between the budget and Action Plan be sought, that budget holders be apprised of the decisions and process at higher levels, that a more student-friendly environment (such as automated application and registration systems) be developed for graduate students, and that international partnerships continue to be fostered and that our web presence internationally be improved. Furthermore, Dr. Donker noted that the committee recommended that transparency in the budget process continue to be developed, and commented that the planned Town Hall meeting was a good step in this regard. He also suggested that the budget process be undertaken earlier than November or December, and that Senate be provided with information on how critical needs requests were prioritized once the decisions have been made. Finally, he indicated that the committee had recommended that the University look into obtaining private funding to support teaching and research.

Dr. Iwama thanked the committee for their work and their report, and responded that he agreed it would be useful to get an earlier start on budget planning and preparation. He also reiterated that communication will be forthcoming about what has been funded from the critical needs requests. In response to the report Dr. Iwama mentioned that he and the Vice Presidents were working on an expression of their visions going forward, that the Wood Innovation and Design Centre, Northern Health, and other opportunities represent their interests, and that he would like to share a draft of this document for consideration. He also noted that with regard to year-end funds that might become available, he had asked the Provost and Deans for assistance in addressing structural issues that could be addressed quickly and easily, and welcomed input in this regard.

A Senator expressed that in previous years it seemed that Senate had been provided with more budget information than they had this year, and asked SCUB whether they had seen all the budget information, to which Dr. Donker replied that they had. It was questioned whether the Bioenergy Facility should not result in utility cost-savings, and Dr. Iwama and Ms. Bray responded that this was not yet known. The wisdom of raising tuition fees while attempting to recruit students was questioned and Dr. Iwama responded that all institutions in BC were increasing tuition fees. The impact of Continuing Studies courses on the budget was questioned, and Ms. Smith responded that enrolment from Continuing Studies courses for credit had prevented the enrolment numbers from decreasing further than they might have. Mr. Macknak added that there were fewer students taking non-credit courses through Continuing Studies, and Ms. Bray reminded Senators that funding for Continuing Studies was from the ancillary budget, not the operating budget.

It was asked what the impact would be to the budget if the provincial government began funding UNBC at its actual rather than targeted enrolment, and Dr. Donker replied approximately \$5 million dollars. The Senator followed up by asking if there was a contingency plan in place for this possibility, and Ms. Bray responded that investments in recruitment, marketing, and advertising campaigns were undertaken to address this risk.

A Senator asked whether the regional campuses have been considered for providing professionals with the service they will require in the future, and Dr. Iwama replied that the University is making every attempt to address this, and pointed to the proposed new Engineering programs as an example. The Senator responded that UNBC has an opportunity to be on the leading edge of assisting professionals with training and development. Dr. Iwama agreed that this was an important point.

A Senator expressed the opinion that UNBC should be engaging in fiscal planning rather than simply budgeting. He added that he has asked over the past several years to see all accounts rather than just the operating budget and expressed frustration over not having received the entirety of the detailed information related to the budget so is unable to provide comment in that regard. Dr. Iwama acknowledged the Senator's frustration, and indicated that he will produce a report from his office regarding the state of the University, which will include the budget, but added that the ability to discuss the budget was limited until the numbers were approved. Others commented that the complete budget detail had been provided in previous years. Ms. Bray asked whether reviewing and commenting on the budget was not the role of the Senate Committee on the University Budget. The Senator responded that it was not clear from the committee's report whether they had seen the budget detail. Dr. Iwama acknowledged the articulated concerns.

## 6.2 Senate Committee on Nominations

Reid

### "For Approval" Items:

#### **S-201103.02**

#### **Membership Changes to Senate and/or Senate Committees**

Reid / Déry

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate and/or Senate committees as indicated, be appointed as proposed.

Senator Reid, Chair of the Senate Committee on Nominations, asked that the following names be added to the list of proposed candidates:

#### **Senate Committee on Nominations**

Faculty Senator (until March 31, 2012)

Liang Chen

#### **Senate Committee on Academic Appeals**

Faculty Senator — CSAM

(replacing Erik Jensen; until March 31, 2012)

Waqar Haque

#### **SCAPP and SCRGs Subcommittee on Curriculum and Calendar**

Faculty Senator, designate of the Dean of CSAM

(replacing Stephen Déry, until March 31, 2012)

David Casperson

As there were no objections to this request, these names were incorporated into the list.

### **SENATE OR SENATE COMMITTEE POSITION TO BE FILLED** *(except when otherwise noted, all terms begin April 1, 2011)*

### **CANDIDATE**

#### **Steering Committee of Senate**

Student Senator (until March 31, 2012)

Chantal Carriere (Undergraduate) (2<sup>nd</sup> term)

Lay or Regional Senator (until March 31, 2014)

Shelley McKenzie (Lay) (2<sup>nd</sup> term)

#### **Senate Committee on Nominations**

Student Senator (until March 31, 2012)

Geoff Johnson (Graduate)

Faculty Senator (until March 31, 2012)

Andrew Kitchenham

### **Senate Committee on Academic Appeals**

*(all appointments effective April 9, 2011 to ensure continuity for an appeal hearing on April 8)*

Graduate Student Senator (until March 31, 2012)	Corbin Greening
Undergraduate Student Senator (until March 31, 2012)	Marina Hadland
Student Senator (Aboriginal if possible) (until March 31, 2012)	Jonathan Van Barneveld

### **Senate Committee on Admissions and Degrees**

Graduate Student (until March 31, 2012)	Adiba Nitu
Undergraduate Student (until March 31, 2012)	Emily Wale

### **Senate Committee on Academic Policy and Planning**

Faculty Senator (until March 31, 2012)	Kristen Guest
Undergraduate Student (until March 31, 2012)	Jeff Kormos (2 <sup>nd</sup> term)
Student Senator (until March 31, 2012)	Czarina Pacaide (Undergraduate)
Regional Senator (until March 31, 2014)	Moira Green (2 <sup>nd</sup> term)

### **Senate Committee on Research and Graduate Studies**

Graduate Student — CASHS (until March 31, 2012)	Geoff Johnson
Graduate Student — CSAM (until March 31, 2012)	Titi Kunkel (2 <sup>nd</sup> term)

### **SCAPP and SCRGs Continuing Studies Credit Committee**

Faculty Member — CASHS (until March 31, 2014)	Kristen Guest
Faculty Member — CSAM (until March 31, 2014)	Pranesh Kumar (2 <sup>nd</sup> term)

### **Senate Committee on First Nations and Aboriginal Peoples**

Faculty Senator (until March 31, 2014)	Scott Green
Faculty Senator (until March 31, 2014)	Eleanor Annis (2 <sup>nd</sup> term)
Faculty Member — CASHS (until March 31, 2014)	Tina Fraser
Full-Time Aboriginal Student (until March 31, 2012)	Corbin Greening (Graduate)

### **Senate Committee on Honorary Degrees and Other Forms of Special Recognition**

Student Senator (until March 31, 2012)	Emily Wale (Undergraduate)
--	----------------------------

### **Senate Committee on Regional Policy and Inter-Institutional Relations**

Faculty Senator (CSAM) (until March 31, 2014)	Brent Murray
Student Senator (until March 31, 2012)	Chantal Carriere (2 <sup>nd</sup> term)

### **Senate Committee on Scholarships and Bursaries**

Faculty Senator — CASHS (until March 31, 2014)	Colin Chasteauneuf (2 <sup>nd</sup> term)
--	---

Graduate Student  
Student Senator

Adiba Nitu  
Marina Hadland (Undergraduate)

**Senate Committee on the University Budget**

Faculty Senator — CASHS (until March 31, 2014)  
Faculty Senator — CSAM (until March 31, 2014)  
Undergraduate Student (until March 31, 2012)  
Student Senator (until March 31, 2012)

Ajit Dayanandan (2<sup>nd</sup> term)  
Balbinder Deo  
Garrett Dobson (2<sup>nd</sup> term)  
Jake Edwards (Undergraduate)

**Senate Committee on Student Discipline Appeals**

Undergraduate Student (until March 31, 2012)

Jeff Kormos (2<sup>nd</sup> term)

Senator Reid called for further nominations three times, and in the absence of further nominations, the motion was CARRIED and all candidates were appointed as proposed.

**7.0 S-201103.03**

**Adjournment**

Annis / Donker

That the Senate meeting be adjourned.  
CARRIED.

The meeting ended at 4:55 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

April 27, 2011  
3:30 – 5:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

M. Archie, S. Beeler, D. Casperson, C. Chasteauneuf, L. Chen, M. Dale, A. Dayanandan, B. Deo, J. Edwards, G. Fondahl, M. Green, S. Green, C. Greening, K. Guest, M. Hadland, W. Haque, I. Hartley, K. Hutchings (Vice Chair), G. Iwama (Chair), E. Jensen, G. Johnson, D. Leighton-Stephens, J. Li, S. McKenzie, B. Murray, C. Myers (Recording), A. Nitu, D. Nyce, C. O'Callaghan, C. Pacaide, R. Robinson, C. Russell (Acting Secretary of Senate), P. Sanborn, J. Van Barneveld, S. Wagner, J. Young

**Regrets:**

E. Annis, R. Brouwer, G. Ashoughian, C. Carriere, A. Kitchenham, R. Lazenby, D. Macknak, D. Ryan, E. Wale

---

The meeting commenced at 3:35 p.m. The President introduced and welcomed new Senators.

**1.0 S-201104.01**

**Approval of the Agenda**

Deo / Young

That the Agenda for the April 27, 2011 Public Session of Senate be approved as presented.  
CARRIED.

**2.0 Approval of Senate Minutes**

**S-201104.02**

**Approval of Senate Minutes of March 23, 2011**

McKenzie / Deo

That the minutes of the March 23, 2011 Public Session of Senate be approved as presented.  
CARRIED.

**S-201104.03**

**Approval of Senate Minutes of February 23, 2011**

Chasteauneuf / Beeler

That the minutes of the February 23, 2011 Public Session of Senate be approved as presented.  
CARRIED.

**3.0 Business Arising from Previous Minutes of Senate**

**3.1 Report Regarding Employee Groups**

This report was presented for information. Dr. Dale apologized for the delay in getting the information to Senate, noting that it had been difficult to obtain the data and that he was hoping to get data going further back. A Senator asked whether salary data could be used and Dr. Dale replied that this was a possibility.

#### 4.0 President's Report

Iwama

Dr. Iwama reported that the budget had been approved by the Board of Governors and a Town Hall meeting had been held to communicate information about the approved budget. He also provided details about the joint meeting between the Board of Governors and Senate to take place on May 28, 2011. Finally, Dr. Iwama reported that there was a meeting of university Presidents in Victoria a few weeks ago, at which they discussed matters of common interest such as copyright, inter-university athletics, and the federal review of research activities.

#### 5.0 Report of the Provost

Dale

Dr. Dale reported that the University had hired Mr. Troy Hanschen to fill the position of University Registrar. He added that Mr. Hanschen was currently employed at Thompson Rivers University, was previously employed at Vancouver Island University, and prior to that, UNBC. He also thanked Ms. Carolyn Russell for stepping in as Acting Registrar in the interim.

#### 6.0 Question Period

A Senator asked whether the university Presidents had considered lobbying political parties with regard to copyright issues, and Dr. Iwama replied that they had not. He added that the changes to copyright were not a simple matter to deal with. The issues have been particularly difficult for small universities to address as a result of staffing. The University is working with Access Copyright with regard to this issue, and has been required to quantify the level of compliance regarding the use of digital materials.

#### 7.0 S-201104.04

##### **Approval of Motions on the Consent Agenda** *(no material)*

Casperson / Chasteauneuf

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

It was requested that motions S-201104.09, S-201104.10, and S-201104.12, as well as SCAPP201103.24, be removed from the consent agenda and added to the regular agenda.

CARRIED.

#### 8.0 Committee Reports

##### 8.1 Senate Committee on Academic Policy and Planning

Dale

##### "For Approval" Items:

##### S-201104.05

##### **Changes to Academic Regulations 51 (Undergraduate Calendar) and 30 (Graduate Calendar) — Senate Committee on Academic Appeals: Procedures**

Chasteauneuf / Hartley

That, on the recommendation of the Senate Committee on Academic Policy and Planning, Academic Regulation 51 (Undergraduate Calendar) and 30 (Graduate Calendar) – Senate Committee on Academic Appeals: Procedures – be amended to specify the conditions of legal representation.

Effective Date: Immediately upon approval by Senate

A Senator expressed concern over the use of the term "respondent" in the calendar text, as it was not clear how this was defined. Ms. Russell suggested that "respondent" be changed to "University," and Senators were in agreement with this change.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

[...paragraph 6:]

~~In extraordinary cases, the appellant or other parties may wish to retain legal counsel. Any person(s) retaining legal counsel for purposes of representation are obliged to inform the Senate Committee on Academic Appeals in writing 15 working days prior to the scheduled meeting.~~

Neither the appellant nor the University shall have the right to representation by legal counsel during appeal hearings except by permission of the committee Chair. The Chair, at the Chair's sole discretion, may allow legal representation where he or she judges the circumstances of the case to be exceptional.

#### **S-201104.06**

#### **Curtailment of New Admissions to the BFA (Fine Arts and Creative Writing) Program**

Chasteauneuf / McKenzie

That, on the recommendation of the Senate Committee on Academic Policy and Planning, for 2011, new admissions to the BFA (Fine Arts and Creative Writing) Program be curtailed.

Effective Date: Immediately upon approval by Senate

Dr. Dale provided background information regarding this motion, noting that the business model was for 25-student cohorts, which has not been realized. He indicated that Emily Carr University has requested a moratorium on new admissions to this program, which the Senate Committee on Academic Policy and Planning and the management committee have supported. He added that current students would be able to complete the program, but the wish was to examine the current model and other potential options.

A Senator indicated that this program was launched improperly and another Senator agreed, stating that if the program was going to be restructured, it should be done properly, with the dedication of at least one faculty member to the Program. Concern was expressed about the message students will receive if admissions are closed to this program.

Another Senator promoted the formation of a committee to manage the process related to the curtailment of admissions, and proposed adding a motion to the agenda in this regard.

#### **Motion:**

Casperson / Guest

That Senate suspend any rules in the Senate Handbook to permit addition of a motion to the agenda.  
CARRIED.

#### **Motion:**

Casperson / Chasteauneuf

That Senate strike a special committee consisting of

- the Provost,
- the Dean of the College of Arts Social and Health Sciences,
- Senator Guest, and
- one person from the Arts Council to be selected by the Provost

to report to Senate by September 2011 on steps to be taken subsequent to the enrolment curtailment in the BFA, and on any related questions that the committee wishes to consider.

#### **Amendment:**

Beeler

That the Chair of English be added as a member of the committee.

CARRIED.

**Motion as amended:**

That Senate strike a special committee consisting of

- the Provost,
- the Dean of the College of Arts Social and Health Sciences,
- Senator Guest,
- the Chair of English, and
- one person from the Arts Council to be selected by the Provost

to report to Senate by September 2011 on steps to be taken subsequent to the enrolment curtailment in the BFA, and on any related questions that the committee wishes to consider.

CARRIED.

It was also suggested that a member of the Office of the Registrar be added to the committee membership, but the proponent of the motion indicated that he would like to keep the committee as small as possible and that there was nothing preventing the committee from consulting with whomever they wished.

**S-201104.07**

**Change in Designation from “Program” to “Department” — Anthropology Program**

Casperson / Chasteauneuf

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change in designation of the Anthropology Program to Department of Anthropology on pages 72-73, 181-185 and 288 of the 2010/11 undergraduate calendar be approved as proposed.

Effective Date: May 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Pgs 72-74

## Anthropology (BA Program)

Michel Bouchard, Associate Professor, and ~~Program~~ Chair

Richard Lazenby, Associate Professor

Jim McDonald, Associate Professor

Angèle Smith, Assistant Professor

Farid Rahemtulla, Assistant Professor

Erin Gibson, Adjunct Professor

Fredy Monterroso, Adjunct Professor

Website: [www.unbc.ca/anthropology](http://www.unbc.ca/anthropology)

## Major in Anthropology

Students may declare a major after a first year including ANTH 100-3 (Archaeological and Biological Approaches) and ANTH 101-3 (Peoples and Cultures). The major requires students to take 54 credit hours in Anthropology courses (18 courses). At least 24 credit hours must be upper-division Anthropology courses. Students may not take more than 60 credit hours of Anthropology without written permission of the ~~Program~~ Department Chair.

## BA Honours - Anthropology

The BA Honours - Anthropology provides a higher level of training and specialization for students planning to proceed to academic and professional postgraduate study. Acceptance into the Anthropology Honours Program is by written application to the ~~Program~~ Department Chair, in which the student identifies the subdiscipline of interest, provides a statement of career objectives, and attaches an unofficial copy of their current transcript. The Honours Program is open to all students majoring in Anthropology who:

Pg 181-185

ANTH 298-(3-6) Topics in Anthropology This course ~~will~~ covers

particular aspects of anthropology selected by the instructor. ~~This course may~~ May be repeated for credit (maximum six credit hours) with ~~the~~ permission of the Program Department Chair (permission to be given only when the subject matter differs substantially).

ANTH 380-(3-6) Topics in Archaeology This is an occasional course offering to enable existing or visiting faculty to teach courses not normally offered in the program. Each course reflects the geographic and topical interests of the instructor, ~~and is only offered depending on availability of an instructor.~~ This course may be repeated for credit (maximum 6 credit hours) with ~~the~~ permission of the Program Department Chair (permission to be given only when the subject matter differs substantially).

*Prerequisites:* Permission of the Program Department Chair

ANTH 411-(3-6) Topics in Biological Anthropology This course is a problem-oriented and project-based seminar in which one (or more) selected topics in biological anthropology are examined. This course may be repeated for credit (maximum 6 credit hours) with ~~the~~ permission of the Program Department Chair (permission to be given only when the subject matter differs substantially).

*Prerequisites:* ANTH 200-3 or permission of the instructor

ANTH 440-(3-6) Internship

*Prerequisites:* Upper-division standing and permission of the Program Department Chair

ANTH 450-(3-6) Undergraduate Thesis in Anthropology

*Prerequisites:* Upper-division standing and permission of the Program Department Chair

ANTH 498-(3-6) Special Topics in Anthropology

*Prerequisites:* Upper-division standing and permission of the Program Department Chair

*Prerequisites:* ANTH 500-3 or permission of the Program Department Chair

Pg 288

### Arne & Lesley Carlson Scholarship

This award was established in honour of Arne and Lesley Carlson in celebration of their lives and of their life work in Archaeology. Arne and Lesley were friends of the Department of Anthropology Program since UNBC opened, and Arne was instructing in the Program Department in the Fall of 1998. Together they brought great expertise to their business "Traces Archaeological Research," gaining the respect of colleagues in academia, government and resource management, as well as that of the First Nations with whom they worked. Their enthusiasm will remain both contagious and inspirational.

Donor Family and Friends

Value \$1,500

Number One

Eligibility Available to a full-time student who has completed a minimum of 60 credit hours towards a degree. The recipient will have a declared major in Anthropology, focusing his/her studies on the archaeology of northern British Columbia.

Criteria Academic proficiency

Application Instructions Attach a letter outlining your study plans to your application form.

Note The Department of Anthropology Program will review applications and nominate a recipient.

Endowed 1998

## **S-201104.08**

### **Change in Designation from “Program” to “Department” — History Program**

Casperson / Chasteauneuf

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change in designation of the History Program to Department of History on pages 144-146, 235-240 and 311-322 of the 2010/11 undergraduate calendar be approved as proposed.

Effective Date: May 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **Pg 144-146**

### **History (BA Program)**

Gordon Martel, Professor Emeritus

Jacqueline Holler, Associate Professor and ~~Program~~ Chair

Jonathan Swainger, Professor

William Morrison, Professor

Theodore Binnema, Professor

Alex Auerbach, Assistant Professor

Stephanie Cousineau, Assistant Professor

Emily Spencer, Assistant Professor

### **Major in History**

A degree in History requires students to complete 54 credit hours of History courses, at least 30 credit hours of which must be upper-division courses. Students may not take more than 57 credit hours of History without written permission from the Chair ~~of the History program~~.

### **BA Honours – History**

Having fulfilled the requirements of admission to the History honours degree program, students must then complete 18 credit hours in 300-level history courses; 15 credit hours in 400-level history courses; and 12 credit hours in four additional history courses designed for honours students, for a total of 66 credit hours as a component of an undergraduate degree totalling 120 credit hours. These honours history courses are designed to be taken in the sequence indicated, which can be altered only under exceptional circumstances and with the permission of the ~~Program~~ Department Chair:

#### **Pg 235 – 240**

HIST 125-3 Introduction to Crime and History This course introduces students to the historic context and debate over questions of crime, punishment, and reformation. The specific emphasis depends on the instructor's expertise and the course may include examinations of police history, capital punishment, the creation of penitentiaries, or the modern phenomenon of serial murder. When the subject matter differs substantively the course may be repeated for credit (maximum six credit hours) with ~~the~~ permission of the instructor and the ~~Program~~ Department Chair.

HIST 130-3 History Through Film This course introduces students to the questions and issues arising from the use of historical settings, characters, and events in film. The specific emphasis depends on the instructor's expertise and the course may include examinations of history in film in varied settings or ~~themes-~~ themes. When the subject matter

differs substantively the course may be repeated for credit (maximum six credit hours) with the permission of the instructor and the ~~Program~~ Department Chair.

HIST 205-3 Surveys in National History This course examines the political, social, and economic history in one or more specified nations and periods under study. The nation(s) under study vary according to the expertise of the instructor and may include Australian, Japanese, Chinese, or British national history. When the subject matter differs substantively the course may be repeated for credit (maximum six credit hours) with the permission of the instructor and the ~~Program~~ Department Chair.

HIST 330-3 Lectures in Indigenous History This course examines the political, social, and economic history in one or more specified Indigenous area(s) and period(s). The topics under study vary according to the expertise of the instructor and may include areas world wide. When the subject matter differs substantively the course may be repeated for a maximum of six credit hours with the permission of the instructor and the ~~Program~~ Department Chair.

*Prerequisites:* One course in FNST or HIST or permission of the instructor

*Precluded:* HIST 390 and HIST 391

HIST 331-3 Lectures in Military History This course examines the military history in one or more specified nations and/or periods. The topics under study vary according to the expertise of the instructor and may include: the origins and causes of war; the impact of new technologies on tactics and strategy; military and naval innovation and resistance to innovation; the changing relationship of offense and defense; the concept of mass war; and the relationship of military institutions to society. When the subject matter differs substantively the course may be repeated for a maximum of six credit hours with the permission of the instructor and the ~~Program~~ Department Chair.

*Prerequisites:* One History course or permission of the instructor

HIST 332-3 Lectures in Social History This course examines the social history in relation to regional, national, or international contexts through time in one or more specified nations and/or periods. The topics under study vary according to the expertise of the instructor and may include major social changes, the social origins of major historical events, or the history of particular social movements. When the subject matter differs substantively the course may be repeated for a maximum of six credit hours with the permission of the instructor and the ~~Program~~ Department Chair.

*Prerequisites:* One History course or permission of the instructor

HIST 333-3 Lectures in Cultural History This course examines the cultural history in one or more specified nations and/or periods. The topics under study vary according to the expertise of the instructor and may include surveys in cultural events such as the Renaissance or Modernism or examination of how events such as war, economic crisis, technological change, or changing notions of gender or race have shaped culture through time or within specific periods or regions. When the subject matter differs substantively the course may be repeated for a maximum of six credit hours with the permission of the instructor and the ~~Program~~ Department Chair.

*Prerequisites:* One history course or permission of the instructor.

HIST 405-(3-6) Topics in the Canadian North This course focuses on one or more particular themes in the history of the Canadian North such as Native cultures, Native-European relations, the resource

economy, northern society, or the impact of distance and isolation. The course may be repeated with the permission of the instructor and Program Department eChair if the subject matter of the course differs substantially.  
*Prerequisites:* HIST 301-3 or permission of the instructor

HIST 407-(3-6) Topics in Local History/Methodology This course examines the craft of history by focusing on the history of localities in northern British Columbia. Students are expected to conduct their own research using primary sources. The course may be repeated with the permission of the instructor and Program Department eChair if the subject matter of the course differs substantially.  
*Prerequisites:* HIST 200-3 or permission of the instructor

HIST 421-(3-6) Topics in Environmental History This course explores aspects of environmental history in a variety of geographic settings in various historical periods; the precise content of the course will vary from year to year depending on the expertise of the instructor. The course may be repeated with the permission of the instructor and Program Department eChair if the subject matter of the course differs substantially.  
*Prerequisites:* One of HIST 360-3, ENVS 306, GEOG 207, POLS 334, FNST 304 or permission of the instructor.

HIST 453-(3-6) Topics in the History of Gender This course will examine the gendered experience of men and women in several countries. This course may be repeated for credit (maximum six credit hours) with the permission of the instructor and the Program Department Chair (permission to be given only when the subject matter differs substantially).  
*Prerequisites:* HIST 270-3 or HIST 312-3 or permission of the Instructor

HIST 454-(3-6) Topics in Women's History This course will examine the diversity of women's experience by comparing a number of countries. May be repeated for credit (maximum six credit hours) with the permission of the instructor and the Program Department Chair (permission to be given only when the subject matter differs substantially).  
*Prerequisites:* HIST 270-3 or HIST 312-3 or permission of the instructor

HIST 456-(3-6) Topics in Cultural Encounters This course will examine cultural relations, either between European and indigenous cultures or between different Native cultures in different parts of the world. May be repeated for credit (maximum six credit hours) with the permission of the instructor and the Program Department Chair (permission to be given only when the subject matter differs substantially).  
*Prerequisites:* HIST 110-3 or permission of the instructor

HIST 458-(3-6) Topics in Law, Order, and Society This course explores the historical interrelationships of law, authority, and social ordering in several geographic contexts. The course may be repeated with the permission of the instructor and Program Department eChair if the subject matter of the course differs substantially.  
*Prerequisites:* Two History courses or permission of the instructor.

HIST 490-(3-6) Topics in Historiography This course examines particular themes in the history of history as a discipline. Topics might include the study of a particular school of historical thought, different interpretations of a major historical event, noteworthy historical controversies or the work of a significant historian. This course may be repeated for a maximum of six credit hours with the permission of the instructor and the Program Department Chair (permission to be given only when the subject matter differs substantially).

*Prerequisites:* HIST 300-3 and one additional History course or permission of the instructor.

HIST 491-(3-6) Topics in Intellectual History This course examines various themes in the history of ideas. Topics might include major intellectual developments such as the scientific revolution, the Enlightenment or modernism; or the influence of ideas on historical events such as the American and French revolutions ~~may be examined~~; or particular movements, schools of thought or seminal thinkers ~~may be the focus of the course~~. This course may be repeated for a maximum of six credit hours) with the permission of the instructor and the Program Department Chair (permission to be given only when the subject matter differs substantially).

*Prerequisites:* HIST 300-3 and one additional History course or permission of the instructor.

HIST 492-(3-6) Topics in Cultural History This course examines various themes in the history of culture. Topics might include major developments in the history of culture such as the Renaissance or Modernism; or the ways in which major historical events such as the Reformation or the First World War have reshaped culture ~~might be examined~~; or particular cultural movements (such as classicism of or 1960s counter-culture) ~~may be the focus of the course~~. This course may be repeated for a maximum of six credit hours with the permission of the instructor and the Program Department Chair (permission is given only when the subject matter differs substantially).

*Prerequisites:* HIST 300-3 and one additional History course or permission of the instructor.

HIST 493-(3-6) Topics in Social History This course examines various themes in social history. Topics might include major social changes such as the Industrial Revolution or Canadian urbanization; or the social origins of major historical events such as the Reformation or the Russian Revolution ~~might be examined~~; or particular social movements (such as socialism or utopianism) ~~may be the focus of the course~~. This course may be repeated for credit (maximum six credit hours) with the permission of the instructor and the Program Department Chair (permission to be given only when the subject matter differs substantially).

*Prerequisites:* HIST 300-3 or permission of the instructor.

HIST 494-(3-6) Topics in Aboriginal History This seminar course examines particular aspects of aboriginal history in Canada. Participants read, evaluate, and discuss some of the most influential literature on the particular topic of the course, and complete a major research paper in Canadian aboriginal history. The course may be repeated with the permission of the instructor and Program Department Chair if the subject matter of the course differs substantially.

*Prerequisites:* HIST 390-3

HIST 498-(3-6) Topics in History (International) This course covers particular aspects of international history selected by the instructor. The course may be repeated for credit (maximum six credit hours) with the permission of the instructor and the Program Department Chair (permission to be given only when the subject matter differs substantially).

*Prerequisites:* One of HIST 150-3 or HIST 290-3, HIST 241-3 or permission of the instructor

HIST 501-3 Honours Directed Readings A This course consists of specialized readings developed in consultation with, and supervised by, a faculty member in the History Program Department.

*Prerequisites:* ~~a~~ Admission to Honours Program

HIST 505-6 Honours Thesis The Honours Thesis consists of a specialized research project developed in consultation with, and supervised by, a faculty member in the History ~~Program~~ Department. Credit is based on the presentation of research results in a formal paper of 7,500 to 10,000 words, and defended in an oral examination (the examining committee to consist of the supervisor and a minimum of three additional History Faculty members).

*Prerequisites:* HIST 500-3, HIST 501-3, and maintenance of a minimum GPA of 3.33

*Precluded:* HIST 502-3 and HIST 503-2

**Pg 311 - 322**

### **Keith Gordon and Ted Williams Scholarship**

**Eligibility** Available to a full-time student enrolled and majoring in the Department of History ~~program~~. Candidates will have achieved at least a 3.67 GPA or A- average in their last semester of course work.

#### **S-201104.09**

##### **Course Deletion — FNST 215-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, FNST 215-3 Issues in External Relations for Contemporary Indigenous Peoples be deleted and removed from the calendar on page 221 of the 2010/2011 undergraduate calendar.

Effective Date: September 2011

A Senator expressed concern that motions S-201104.09, S-201104.10, and SCAPP201103.24 had not been reviewed by the Senate Committee on First Nations and Aboriginal Peoples prior to consideration by the Senate Committee on Academic Policy and Planning.

#### **Motion:**

Robinson / Jensen

That motions S-201104.09 and S-201104.10 be referred to the Senate Committee on First Nations and Aboriginal Peoples for review, and that motion SCAPP201103.24 be referred back to the Senate Committee on Academic Policy and Planning for reconsideration.

CARRIED.

#### **S-201104.10**

##### **Course Deletion — FNST 216-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, FNST 216-3 Issues in Internal Organization for Contemporary Indigenous Peoples be deleted and removed from the calendar on page 221 of the 2010/2011 undergraduate calendar.

Effective Date: September 2011

When Senate was discussing Senate motion S-201104.09, a Senator had expressed concern that motions S-201104.09, S-201104.10, and SCAPP201103.24 were not reviewed by the Senate Committee on First Nations and Aboriginal Peoples. Subsequently, this motion was referred to that committee.

### **S-201104.11**

#### **Calendar Description Change — Bachelor of Health Sciences Honours Program**

Casperson / Chasteauneuf

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the Bachelor of Health Sciences Honours (BHSc, Honours) calendar description be approved as proposed.

Effective Date: January 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **Page 143, 2010/2011 Calendar**

Bachelor of Health Sciences  
Honours (BHSc, Honours)

Admission to the honours program takes place after the end of the second year (i.e., upon completion of 60 credit hours) and requires a minimum CGPA of 3.33 over the ~~previous~~ most recent 30 credit hours, or permission of the Program Chair. Consultation with Student Advising is highly recommended before applying. Attaining the minimum requirement does not guarantee admission to the honours program, which is at the discretion of the Program Chair. Subsequent to admission, and to remain in the honours program, students must maintain a minimum SGPA of 3.33 in each semester.

All honours students complete a thesis project (HHSC 490-6 Honours Thesis) under the direct supervision of a faculty member.

#### **“For Information” Items:**

An Executive Summary of the proposed revisions to the Department of English curriculum is included for information.

### **SCAPP201103.05**

#### **Change to Calendar Course Description — ENGL 409-3**

That the change(s) to the Calendar Course Description for ENGL 409-3 Special Topics in Film or Television Studies, on page 213 of the 2010/11 undergraduate calendar, be approved as proposed.

Effective Date: May 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

That the change(s) to the Calendar Course Description for ENGL 486-3 Literature of the Fantastic, on page 214 of the 2010/2011 undergraduate calendar, be approved as proposed.  
Effective Date: May 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

ENGL 486-3 Literature of the Fantastic **This course examines** ~~various~~ various periods and aspects of fantastic literature. When appropriate, the course ~~will~~ will include film and graphic arts as well as literary texts. **This course may be repeated to a maximum of 6 credit hours with permission of the instructor and department Chair if the subject matter of the course differs substantially.**

*Prerequisites:* ~~Two~~ two lower-division English courses excluding ENGL 170-3, or 45 credit hours, or permission of the instructor

#### **SCAPP201103.20**

##### **Change to Calendar Course Description — ENGL 491-3**

That the change(s) to the the Calendar Course Description for ENLG 491-3 Special Topics in Renaissance Literature, on page 214 of the 2010/2011 undergraduate calendar, be approved as proposed.  
Effective Date: May 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

ENGL 491-3 Special Topics in Renaissance Literature **This course examines** ~~A study of~~ A study of various aspects of Renaissance literature and art. The focus could be on the works of a specific author, a genre, or theoretical considerations. **This course may be repeated to a maximum of 6 credit hours with permission of the instructor and department Chair if the subject matter of the course differs substantially.**

*Prerequisites:* ~~Two~~ two lower-division English courses excluding ENGL 170-3, or 45 credit hours, or permission of the instructor

### **SCAPP201103.21**

#### **Change to Calendar Course Description — ENGL 493-3**

That the change(s) to the Calendar Course Description for ENGL 493-3 Cultural Studies, on page 214 of the 2010/2011 undergraduate calendar be approved as proposed.

Effective Date: May 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

ENGL 493-~~(3-6)~~ Cultural Studies This is a Special topics course in cultural studies with a focus on an interdisciplinary approaches. See the English Department handbook for details. This course may be repeated to a maximum of 6 credit hours with permission of the instructor and department Chair if the subject matter of the course differs substantially.

*Prerequisites:* ~~Two~~ lower-division English courses excluding ENGL 170-3, or 45 credit hours, or permission of the instructor

### **SCAPP201103.24**

#### **Course Prerequisite Change — FNST 306-3**

That the change to the prerequisite for FNST 306-3 Indigenous Women – Perspectives, on page 224 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective Date: September 2011

When Senate was discussing Senate motion S-201104.09, a Senator had expressed concern that motions S-201104.09, S-201104.10, and SCAPP201103.24 were not reviewed by the Senate Committee on First Nations and Aboriginal Peoples. Subsequently, this motion was referred back to the Senate Committee on Academic Policy and Planning for reconsideration.

### **SCAPP201103.26**

#### **Course Prerequisite Change — PSYC 301-3**

That the change(s) to the course prerequisites for PSYC 301-3 Social Psychology on page 262 of the 2010/11 undergraduate calendar be approved as proposed.

Effective Date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PSYC 301-3 Social pPsychology This course examines human behaviour in its social context. Specific topics covered include interpersonal interaction, social motivation and attitudes, prejudice, socialization and communication.

*Prerequisites:* PSYC 101-3, 102-3 and a total of ~~60~~ 30 credit hours successfully completed

### **SCAPP201103.27**

#### **Course Prerequisite Change — PSYC 306-3**

That the change(s) to the course prerequisites for PSYC 306-3 Theories of Personality on page 262 of the 2010/11 undergraduate calendar be approved as proposed.

Effective Date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PSYC 306-3 Theories of Personality This course provides an introduction to the study of personality. Influential models of personality structure and function are examined as are techniques for personality assessment.

*Prerequisites:* PSYC 101-3, 102-3 and a total of ~~60~~ 30 credit hours successfully completed

**SCAPP201103.28**

**Course Prerequisite Change — PSYC 345-3**

That the change(s) to the course prerequisites for PSYC 345-3 Lifespan Development on page 263 of the 2010/2011 undergraduate calendar be approved as proposed.

Effective Date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

PSYC 345-3 Lifespan Development This course addresses the development of psychological abilities and characteristics and the mechanisms that subserve them. The full range of the human lifespan, from the prenatal period to the senior years, is examined.

Prerequisites: PSYC 101-3, 102-3, and a total of ~~60~~ 30 credit hours successfully completed

Precluded: SOCW 421-3

**SCAPP201103.29**

**Course Prerequisite Change — WMST 306-3**

That the change to the prerequisites for WMST 306-3 Indigenous Women-Perspectives, on page 270 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective Date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

WMST 306-3 - Indigenous Women - Perspectives

The purpose of this course is twofold: first, to understand how indigenous women's lives have been shaped by colonialism; and second, to delineate the global themes in ~~their~~ indigenous women's current political and social struggles to transcend the colonial legacy that continues to constrain them.

Prerequisites: ~~FNST 215-3~~ FNST 100-3 or WMST 100-3 or permission of the instructor.

Precluded: FNST 306-3 and WMST 310-3

**8.2 Senate Committee on Research and Graduate Studies**

**Fondahl / Hartley**

**"For Approval" Items:**

**S-201104.12**

**Change in Designation from "Program" to "Department" — History Program**

Casperson / Murray

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change in designation of the History Program to Department of History on pages 73-74 of the 2010-11 graduate calendar be approved as proposed.

Effective Date: May 2011

The Chair of the Department of History requested that a sentence be stricken from the calendar text in relation to this motion. He clarified that the text was contained in the first paragraph of the proposed revision, and reads as follows:

The major areas of study are Canada, the United States, Europe, and the Pacific, with an emphasis on Native, northern, gender, and environmental history, as well as the history of international relations.

Senators were in agreement with the sentence being removed from the calendar text.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## History (MA Program)

Gordon Martel, Professor Emeritus  
Jacqueline Holler, Associate Professor and ~~Program~~ **Department** Chair  
Theodore Binnema, Professor  
William Morrison, Professor  
Jonathan Swainger, Professor  
Alexander Auerbach, Assistant Professor  
Stephanie Cousineau, Assistant Professor  
Emily Spencer, Assistant Professor

The Department of History ~~program~~ offers the opportunity for graduate study leading to the MA degree. ~~The major areas of study are Canada, the United States, Europe, and the Pacific, with an emphasis on Native, northern, gender, and environmental history, as well as the history of international relations.~~ Students will be accepted only in the History Department's areas of specialization in the ~~History program~~ subject to the availability of an appropriate supervisor.

### **S-201104.13**

#### **Changes to Course Prefix and Preclusion — MATH 641-3**

Casperson / Chasteauneuf

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the prefix of MATH 641-3 Nonparametric Statistics be changed to STAT on page 119 of the 2010/2011 graduate calendar and a preclusion be added as indicated.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH STAT 641-3 Nonparametric Statistics** This course discusses the methodology and application of nonparametric statistics. ~~The T~~ topics to be covered include goodness-of-fit tests, contingency tables, empirical distribution function tests, the sign test, the Wilcoxon test, the Wilcoxon-Mann-Whitney test, the Kruskal-Wallis test, and rank correlation.

*Precluded:* STAT 441-3, MATH 441-3

### **S-201104.14**

#### **Changes to Course Prefix and Preclusion — MATH 671-3**

Casperson / Chasteauneuf

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the prefix of MATH 671-3 Linear Models be changed to STAT on page 120 of the 2010/2011 graduate calendar and a preclusion be added as indicated.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH STAT 671-3 Linear Models** This course discusses the estimation of parameters in the multiple linear regression model by the least-squares method. Topics ~~to be~~ covered include the statistical properties of the least-squares estimators, the Gauss-Markov theorem, estimates of residual and regression sums of squares, distribution theory under normality of the observations, assessment of normality, variance stabilizing transformations, examination of multicollinearity, variable selection methods, logistic regression for a binary response, log-linear models for count data, and generalized linear models.

*Precluded:* STAT 471-3, MATH 471-3, MATH 499-3 Regression

#### **S-201104.15**

##### **Changes to Course Prefix and Preclusion — MATH 672-3**

Casperson / Chasteauneuf

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the prefix of MATH 672-3 Survey Sampling Design and Analysis be changed to STAT on page 120 of the 2010/2011 graduate calendar and a preclusion added as indicated.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH STAT 672-3 Survey Sampling Design and Analysis** This course discusses the planning and practice of sample surveys. Topics covered include simple random sampling, unequal probability sampling, stratified sampling, cluster sampling, multistage sampling, cost-effective design, analysis and control of sources of sampling and non-sampling error, ratio estimation, model-based regression estimation, resampling, and replication methods.

*Precluded:* STAT 472-3, MATH 472-3, MATH 499-3 Design of Sample Surveys

#### **S-201104.16**

##### **Changes to Course Prefix and Preclusion — MATH 673-3**

Casperson / Chasteauneuf

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the prefix of MATH 673-3 Experimental Design and be changed to STAT on page 120 of the 2010/2011 graduate calendar and a preclusion be added as indicated.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH STAT 673-3 Experimental Design** This course discusses experimental designs and analyses. Topics ~~to be~~ covered include basic principles and guidelines for designing experiments, simple comparative designs, single factor analysis of variance, block designs, factorial designs, response surface methods and designs, nested and split plot designs, and the analysis of covariance.

*Precluded:* STAT 473-3, MATH 473-3, MATH 499-3 Design of Experiments

#### **S-201104.17**

##### **Changes to Course Prefix and Preclusion — MATH 675-3**

Casperson / Chasteauneuf

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the prefix of MATH 675-3 Methods for Multivariate Data be changed to STAT 675-3 on page 120 of the 2010/2011 graduate calendar and a preclusion added as indicated.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH STAT 675-3 Methods for Multivariate Data** This course discusses practical techniques for the analysis of multivariate data. Topics ~~to be~~ covered include estimation and hypothesis testing for multivariate means and variances; partial, multiple and canonical correlations; principal components analysis and factor analysis for data reduction; multivariate analysis of variance; discriminant analysis for classification; and cluster analysis.

*Precluded:* STAT 475-3, MATH 475-3, MATH 499-3 Applied Multivariate Analysis

#### **S-201104.18**

##### **New Course Approval — STAT 699-(1-3)**

Casperson / Chasteauneuf

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course STAT 699-(1-3) Special Topics in Statistics be approved as proposed.

Proposed semester of first offering: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The topic for this course varies, depending on student interest and faculty availability. This course may be taken any number of times provided all topics are distinct.

**Prerequisites:** Permission of instructor

#### **S-201104.19**

##### **New Course Approval — STAT 704-1.5**

Casperson / Chasteauneuf

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course STAT 704-1.5 Seminar in Statistics be approved as proposed.

Proposed semester of first offering: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course comprises seminar sessions relating to applications or the theory of statistics, or both. Students investigate and present ideas and results pertaining to current research. The offerings may include presentations of current literature, statistical methodology, and topics related to the students' own research or project work or that of others. Students participate in discussions and critiques of their and others' presentations.

This is a PASS/FAIL course. This course may be repeated to a maximum of 3 credit hours. Students must attend and participate in all seminar sessions to obtain credit for the course.

**Prerequisites:** Permission of instructor

#### **S-201104.20**

##### **New Course Approval — STAT 731-(1-6)**

Casperson / Chasteauneuf

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course STAT 731-(1-6) Advanced Topics in Statistics be approved as proposed.

Proposed semester of first offering: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course is intended to fulfill requirements for specialized instruction in the discipline of Statistics. Topics are chosen depending upon student interest and instructor availability, and topic headings vary from year to year and from section to section. This course may be taken any number of times provided all topics are distinct.

**Prerequisites:** \_\_\_\_\_ Permission of instructor

**S-201104.21**

**Changes to the Policy Entitled “Statement of Principles on the Treatment of Postdoctoral Fellows”**

Murray / Robinson

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the Statement of Principles on the Treatment of Postdoctoral Fellows be approved as proposed.

Effective date: May 2011

CARRIED.

**S-201104.22**

**Course Deletion — NRES 750-3**

Casperson / Chasteauneuf

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the deletion of NRES 750-3 Biological and Environmental Fluid Dynamics be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

**“For Information” Items:**

**SCRG201103.03**

**Change to Course Description and Preclusions — HHSC 606-3**

That the changes to the course description and preclusions for HHSC 606-3 Health Promotion, on page 117 of the 2010/11 graduate calendar, be approved as proposed.

Effective Date: January 2012

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**HHSC 606-3 Health Promotion** This course e~~Examines the~~ health promotion theories, principles, and underlying philosophies ~~within a primary health care framework.~~ Students ~~will~~ identify and critique health promotion issues and ~~explore strategies which promote well-being among individuals, groups, and communities. also~~ gain experience in developing strategies to promote health and well-being at individual, group and community levels.

*Precluded:* ~~NURS 402-3~~

**SCRG201103.05**

**Changes to Course Description and Prerequisite — MATH 602-3**

That the changes to the course description and prerequisite for MATH 602-3 Topological and Normed Linear Spaces, on page 119 in the print calendar) of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### MATH 602-3 – Topological and Normed Linear Spaces

This course focuses on the properties of topological spaces and normed linear spaces, especially Banach spaces. Topics include inner product spaces, topological spaces, compact and locally compact spaces, classical Banach spaces, linear functionals and dual spaces, topological vector spaces, and Hilbert space, orthogonal systems and Fourier series.

Prerequisites: ~~MATH 226-3 and MATH 302-3 and MATH 321-3, or permission of the instructor.~~

Precluded: MATH 400-3, MATH 402-3, MATH 600-3

### **SCRGS201103.06**

#### **Changes to Course Prerequisite — MATH 655-3**

That the changes to the course prerequisite for MATH 655-3 (Graphs and Algorithms) be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### MATH 655-3 Graphs and Algorithms

Topics ~~include:~~ are chosen from basic graph concepts, flows and connectivity, trees, matchings and factors, graph colouring, scheduling, planar graphs, and algorithms.

Prerequisites: MATH 224-3 or CPSC ~~241-3~~ 141-3.

Precluded: Math 455-3

### **SCRGS201103.07**

#### **Changes to Course Title and Prerequisites — MATH 725-3**

That the changes to the course title and prerequisites for MATH 725-3 Topology be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### MATH 725-3 ~~Topology~~ Topics in Topology

Topics are chosen from ~~t~~Topological spaces, Tychonoff Theorem, Tietze extension theorems, Urysohn lemma, compactification, homotopy theory, fundamental group, uniform spaces, and knot theory.

Prerequisites: MATH 226-3 and MATH 302-3 and either MATH 321-3 or MATH 405-3, or permission of the instructor.

### **SCRGS201104.05**

#### **Changes to Course Preclusions and Calendar Course Description — PHYS 609-3**

That the changes to the calendar course description and course preclusions for PHYS 609-3, on page 127 of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **PHYS 609-3 Mathematical Methods in Physics**

This course is a survey of the methods and techniques involved in the formulation and solutions of physics problems. Topics include matrix algebra and group theory, eigenvalue problems, differential equations, functions of a complex variable, Green's functions, special functions, Fourier series, integral equations, calculus of variations, and tensor analysis.

Prerequisites: Permission of instructor

Precluded: Phys 409-3, Math 409-3

## **8.3 Senate Committee on Scholarships and Bursaries**

**Vacant**

### **"For Approval" Items:**

#### **S-201104.23**

#### **SCSB Annual Report to Senate**

Casperson / Chasteauneuf

That the SCSB annual report to Senate be accepted.

Effective date: April 27, 2011

CARRIED (consent agenda).

### **"For Information" Items:**

#### **SCSB20110223.04**

#### **Revised Terms and Conditions — Doctoral Dissertation Completion Award**

That the revised Terms and Conditions for the Doctoral Dissertation Completion Award be approved.

Effective Date: February 2011

#### **SCSB20110223.05**

#### **Revised Terms and Conditions — UNBC Master's Tuition Scholarship**

That the revised Terms and Conditions for the UNBC Master's Tuition Scholarship be approved.

Effective Date: May 2011

#### **SCSB20110223.06**

#### **New Terms and Conditions — Graduate Entrance Research Award**

That the Terms and Conditions for the Graduate Entrance Research Award be approved.

Effective Date: upon approval.

#### **SCSB20110223.10**

#### **Revised Terms and Conditions — Graduate Entrance Scholarships**

That the revised terms and conditions for the Graduate Entrance Scholarships be approved.

Effective Date: May 2011

#### **SCSB20110323.04**

#### **New Terms and Conditions — Angela Allen Award**

That the new Terms and Conditions for the Angela Allen Award be approved.

Effective Date: March 2011

#### **SCSB20110323.05**

#### **New Terms and Conditions — Tony Eckersley Memorial Award**

That the new Terms and Conditions for the Tony Eckersley Memorial Award be approved.

Effective Date: March 2011

#### **SCSB20110323.06**

#### **Revised Terms and Conditions — Planning Institute of British Columbia**

That the revised Terms and Conditions for the Planning Institute of British Columbia Scholarship be approved.

Effective Date: March 2011

**SCSB20110323.07**

**Dissolution of Terms and Conditions — Plumbmaster Leadership Award**

That the dissolution of the Terms and Conditions for the Plumbmaster Leadership Award be approved.  
Effective Date: March 2011.

**SCSB20110323.08**

**Dissolution of Terms and Conditions — James A. Fowlie Memorial Bursary**

That the dissolution of the Terms and Conditions for the James A. Fowlie Memorial Bursary be approved.  
Effective Date: March 2011

**SCSB20110323.09**

**Revised Terms and Conditions — Prince of Wales Scholarship**

That the tuition waiver be increased from \$2,500 to \$3,000 and the revised Terms and Conditions for the Prince of Wales Scholarship be approved.  
Effective Date: March 2011

**8.4 Senate Committee on First Nations and Aboriginal Peoples Dale**

**“For Information” Items:**

**8.4.1** Annual Report from the Senate Committee on First Nations and Aboriginal Peoples

**8.5 Senate Committee on Regional Policy and Inter-Institutional Relations Macknak**

**“For Information” Items:**

**8.5.1** Annual Report from the Senate Committee on Regional Policy and Inter-Institutional Relations

**8.6 Steering Committee of Senate Iwama**

**S-201104.24**

**Formal Recognition of UNBC Establishment Date**

Casperson / Chasteauneuf

That the UNBC Senate formally recognize, by recording in the Senate minutes, that 1990 was the year in which UNBC was established.

Effective date: April 27, 2011

CARRIED (consent agenda).

**8.7 Senate Committee on Nominations Iwama**

**S-201104.25**

**Membership Changes to Senate and/or Senate Committees**

Jensen / Hartley

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate and/or Senate committees as indicated, be appointed as proposed.

Dr. Iwama noted that Dr. Balbinder Deo’s name had inadvertently been omitted from the list of Faculty Senators elected for terms of office commencing on April 1, 2011, and that he was elected as a Faculty Member at Large.

Dr. Iwama called for further nominations from the floor of Senate three times, and there were no further nominations forthcoming.

CARRIED.

**SENATE OR SENATE COMMITTEE POSITION TO BE FILLED**  
***(except as otherwise noted, all terms begin immediately)***

**CANDIDATE**

**Senate Committee on First Nations and Aboriginal Peoples**

First Nations Representative — Métis (until March 31, 2014)

Rheanna Robinson

First Nations Representative — Member at Large (until March 31, 2014) Debbie Leighton-Stephens (2<sup>nd</sup> term)

**Senate Committee on Regional Policy and Inter-Institutional Relations**

Regional Faculty Member (CASHS) (until March 31, 2014) Heather Peters (2<sup>nd</sup> term)

**SCAPP Art Acquisition Subcommittee**

Faculty Member knowledgeable in archaeology, visual arts,  
archives or heritage conservation (until March 31, 2014)

Sarah De Leeuw

Faculty member with a broad interest in the arts (until March 31, 2014)

Dee Horne

**For Information of Senate:**

**Current Senate Vacancies:**

Lay Senator (until March 31, 2012) (Resignation of Adele Yakemchuk)

**Senators Elected for Terms of Office Commencing April 1, 2011:**

Faculty Senators (until March 31, 2014):

Kristen Guest (CASHS)  
Andrew Kitchenham (CASHS)  
Scott Green (CSAM)  
Brent Murray (CSAM)  
Paul Sanborn (CSAM)  
Balbinder Deo (At Large)

Student Senators (until March 31, 2012):

Chantal Carriere (Undergraduate) (2<sup>nd</sup> term)  
Jake Edwards (Undergraduate)  
Marina Hadland (Undergraduate)  
Czarina Pacaide (Undergraduate)  
Jonathan Van Barneveld (Undergraduate) (2<sup>nd</sup> term)  
Emily Wale (Undergraduate)  
Corbin Greening (Graduate)  
Geoff Johnson (Graduate)  
Adiba Nitu (Graduate)

**Senate Committee Appointments:**

**SCAPP and SCRGs Subcommittee on Curriculum and Calendar**

Faculty Senator, designate of Dean of Graduate Programs  
(until March 31, 2014)

Kristen Guest

**9.0 Other Business**

**9.1 Report of the Registrar**

**Russell**

The Registrar had nothing to report.

**9.2 Presentation — Enrolment Plan**

**Smalcel Pederson**

Ms. Smalcel Pederson reported on the Enrolment Plan (attached to these minutes as “Appendix I”). She noted that copies of the presentation would be sent to Senators electronically so that they could access the links in the presentation. Ms. Smalcel Pederson noted that students are taking a lighter course load than previously, requiring a higher headcount to meet the same FTE, that the University is exceeding targets in graduate students but undergraduate domestic student enrolment is a concern, and that international student enrolment is strong but is excluded from the statistics as a result of the funding formula. She added that, although retention is steady, approximately 35% of UNBC students leave after their first year of study.

At the conclusion of the presentation, questions were invited. A member of the gallery requested permission of the Chair to speak, and then asked what number of students left after first year because they were required to withdraw. Ms. Smalcel Pederson responded that she was unsure. The gallery member expressed that this information and GPA profiles would be useful to gather, and Ms. Smalcel Pederson agreed.

Ms. Smalcel Pederson indicated that the University needs to recruit approximately 15% of the student body annually just to cover those who complete their degrees, but there are fewer students completing high school which complicates recruitment. She encouraged Senators to view the new UNBC videos on YouTube. She also noted that UNBC's transfer agreements and partnerships could be strengthened, and that the creation of the special purpose teaching universities has had an impact on UNBC's enrolment. She was of the opinion that a great student experience equates with enrolment.

Ms. Smalcel Pederson also stated that growth will be in older and more diverse populations. The question was asked whether UNBC is conducting exit interviews, and Ms. Smalcel Pederson responded that this was currently not being done, but will be. She concluded with the remark that, in relation to a faculty member's mention of her involvement with the Chemistry Club, Ms. Smalcel Pederson would like to see increased involvement of that nature, faculty members engaging with students.

#### **10.0 Information**

No items were presented for information.

#### **11.0 S-201104.26 Move to In Camera Session**

Deo / Hartley

That the meeting move In Camera.

CARRIED.

#### **12.0 S-201104.30 Adjournment**

Beeler / Van Barneveld

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 5:25 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

May 25, 2011  
3:30 – 5:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

E. Annis, M. Archie, G. Ashoughian, D. Casperson, C. Chasteauneuf, L. Chen, M. Dale, A. Dayanandan, J. Edwards, G. Fondahl, M. Green, S. Green, C. Greening, K. Guest, I. Hartley, K. Hutchings (Vice Chair), G. Iwama (Chair), E. Jensen, G. Johnson, A. Kitchenham, D. Leighton-Stephens, D. Macknak, B. Murray, C. Myers (Recording), A. Nitu, C. O'Callaghan, R. Robinson, C. Russell (Acting Secretary of Senate), D. Ryan, S. Wagner, E. Wale, J. Young

**Regrets:**

S. Beeler, R. Brouwer, C. Carriere, B. Deo, M. Hadland, W. Haque, R. Lazenby, J. Li, S. McKenzie, C. Pacaide, P. Sanborn

**Absent:**

D. Nyce, J. Van Barneveld

---

The meeting commenced at 3:30 p.m.

**1.0 S-201105.01**

**Approval of the Agenda**

Chasteauneuf / Jensen

That the Agenda for the May 25, 2011 Public Session of Senate be approved as presented.

Dr. Iwama noted that a motion to move in camera had inadvertently been omitted from the agenda, and asked that this be added to the agenda. There was no opposition to this request.

The motion to approve the agenda, as amended, was CARRIED.

**2.0 S-201105.02**

**Approval of Senate Minutes**

Annis / Young

That the minutes of the April 27, 2011 Public Session of Senate be approved as presented.  
CARRIED.

**3.0 Business Arising from Previous Minutes of Senate**

There was no business arising.

#### 4.0 President's Report

Iwama

Dr. Iwama thanked faculty and staff members for their work in preparing for Convocation, and noted that there were a record number of faculty members participating this year. With regard to the Wood Innovation and Design Centre, he indicated that there was now a new lead person in Victoria, and that there may be an announcement within 60 days, but he has no new information about the options being considered.

In partnership with Northern Health, an Innovations Commons has been created to allow for discussions of health care by a broad group of people, which brings the University to the table. The group started with brown bag lunches, and two UNBC faculty members have embarked on consultations to bring UNBC's perspective to the table.

Dr. Iwama reported that, with regard to the Five Year Capital Plan, discussions are currently ongoing and the University architect has been engaged.

Senators were reminded by Dr. Iwama about the joint meeting of the Board of Governors and Senate taking place on Saturday, May 28. In conclusion of his report, Dr. Iwama noted that Ms. Russell's appointment as Acting Registrar had been approved by the Board of Governors, so there was a Secretary of Senate at the last meeting of Senate.

#### 5.0 Report of the Provost

Dale

Dr. Dale had nothing to report.

#### 6.0 Question Period

#### 7.0 S-201105.03

##### **Approval of Motions on the Consent Agenda** (*no material*)

Macknak / Murray

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

It was requested that motion SCSB20110427.05 be removed from the consent agenda and placed on the regular agenda.

CARRIED.

#### 8.0 Committee Reports

##### 8.1 Senate Committee on Academic Policy and Planning

Dale

##### "For Approval" Items:

#### S-201105.04

##### **Approval of Process for Letting Go of Courses at UNBC**

Chasteaneuf / Jensen

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the process for letting go of courses listed in the UNBC calendar described in the attached document be approved as proposed.

Effective date: July 2011

Dr. Dale noted that newly-elected Senators missed the slide presentation he gave at a previous meeting of Senate, in which he outlined the number of courses currently offered at UNBC. He added that a Working Group was struck to examine how to "let go" of courses. The Working Group made a recommendation to the Senate Committee on Academic Policy and Planning (SCAPP), and that proposal was subsequently forwarded to the College Councils for comment before being returned to SCAPP. After

discussion at several levels, SCAPP voted to recommend the proposal to Senate. The proposed process relies upon the concept of “parking” courses with subsequent removal of the courses several years later.

CARRIED.

**S-201105.05**

**Approval in Principle of Six Courses Associated with the Foundation Curriculum**

Ryan / Chasteaneuf

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the recommendation for the development of six courses associated with the Foundation Curriculum be approved-in-principle as proposed.

Effective Date: June 1, 2011

Dean Young provided background information related to this motion. He reported that a Working Group, which had been meeting for a year, was struck to examine the creation of Foundation curriculum. The proposal before Senate had been recommended by the Senate Committee on Academic Policy and Planning. There are currently seven or eight academic units interested in participating. It was decided to request approval of the Foundation curriculum in principle prior to proceeding any further, as it will be a great deal of work to bring the curriculum to fruition. Dean Young added that a curriculum co-ordinating group is beginning to meet, and they expect their work to take four to five months to complete. Senate approval is being sought for the structural framework for the curriculum.

CARRIED.

**S-201105.06**

**Change to Calendar Description — Minor in Computing**

Macknak / Murray

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the calendar description of the Minor in Computing, on page 92 of the 2010/2011 undergraduate calendar, be approved as proposed.

Proposed Start Date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Minor in Computing

The Minor in Computing requires the following 29 credit hours of courses:

### Requirements

CPSC 100-4 Programming 1  
CPSC 101-4 Computer Programming II  
CPSC 200-3 Algorithm Analysis and Development  
CPSC 281-3 Data Structures 1  
CPSC 141-3 Discrete Mathematics

CPSC 300-3 Software Engineering  
CPSC 324-3 Introduction to Database Systems  
CPSC 344-3 Data Communications and Networking

One additional upper-division Computer Science course\*\*

\*\* MATH 335-3 (Numerical Analysis I) may be used to meet this requirement.

**S-201105.07**

**New Course Approval — CPSC 199-(1-3)**

Macknak / Murray

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course CPSC 199-(1-3) Special Topics I be approved as proposed.

Proposed semester of first offering: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The intent of this course is to provide timely offering of courses that either reflect rapid change in Computer Science, provide supplementary material in specific concrete topics or skills, or expose non-majors to advances in Computer Science. Consequently, the topic and availability of this course varies. The course may be retaken any number of times, provided all topics are distinct.

**Prerequisites:** Permission of the instructor

**S-201105.08**

**New Course Approval — CPSC 299-(1-3)**

Macknak / Murray

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course CPSC 299-(1-3) Introductory Special Topics II be approved as proposed.

Proposed semester of first offering: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The intent of this course is to provide timely offering of courses that either reflect rapid change in Computer Science, provide supplementary material in specific concrete topics or skills, or expose non-majors to advances in Computer Science. Consequently, the topic and availability of this course varies. The course may be retaken any number of times, provided all topics are distinct. This course normally supposes some first-year exposure to Computer Science.

**Prerequisites:** Permission of the instructor

**S-201105.09**

**Course Deletion — CPSC 440-3**

Macknak / Murray

That, on the recommendation of the Senate Committee on Academic Policy and Planning, CPSC 440-3 Computer Networks be deleted and removed from the calendar.

Effective date: September 2011 or on approval by Senate

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~Data transmission and encoding, multiplexing, circuit switching, packet switching, network protocols, data communication hardware, ISO model, Data Link Layer, Network Layer, Local Area Networks (LANs), Wide Area Networks (WANs), Metropolitan Area Networks (MANs), Backbone Networks (BNs), network design and implementation, network management, network security.~~

**“For Information” Items:**

**SCAPP201105.05**

**Course Prerequisite Change — NURS 320**

Macknak / Murray

That the change to the course prerequisite for NURS 320-5 Extended Clinical Practicum II, on page 252 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective Date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 320-5 Extended Clinical Practicum II** This practicum provides the opportunity for consolidated clinical nursing practice with clients who have multiple health care needs. Previous clinical practice experience is considered when determining placement. The practicum occurs in various health care settings in northern BC.

*Prerequisites:* ~~Pre- or co-requisites:~~ all required 300-level ~~required~~ nursing courses in the NCBNP

**8.2 Senate Committee on Research and Graduate Studies**

**Fondahl / Hartley**

**“For Approval” Items:**

**S-201105.10**

**Application for Exempt Status from the Degree Quality Assessment Board Review Process for Doctoral Degrees at UNBC**

Hartley / Chasteaneuf

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the application for Exempt Status from the Degree Quality Assessment Board Review Process for Doctoral Programs at UNBC be approved as proposed.

Effective date: Immediately on approval by Senate

Dean Hartley explained that UNBC has exempt status for Bachelor's and Master's level degrees, so no external review process is required to approve these degrees. As UNBC does not yet have exempt status at the doctoral level (which this application is meant to address), extensive external review by the Ministry of Advanced Education is required for approval of new doctoral degrees. The Ministry has seen this document and have indicated it needs to be approved by the UNBC Senate and Board of Governors before they will consider the application.

A Senator asked what UNBC is promising to do in taking on the review process. Dean Hartley responded that the Ministry will send external reviewers to review the complete process of how UNBC approves degrees. Dr. Fondahl added that, after that, UNBC will be responsible for approving degrees on its own. Dr. Dale expressed that the Ministry would likely be looking for internal checks in the process, particularly for the review process. A Senator asked what UNBC's current review process is for PhD degrees, and Dr. Dale replied that those reviews comprise part of the academic review process. As a result, he added, UNBC may wish to determine if a separate review process should be instituted for doctoral degrees.

CARRIED.

**S-201105.11**

**Course Deletion — CPSC 601-3**

Macknak / Murray

That, on the recommendation of the Senate Committee on Research and Graduate Studies, CPSC 601-3 Software Engineering for Real-Time Systems be deleted and removed from the calendar.

Effective date: September 2011 or on approval by Senate

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~This course introduces typical real-time applications including hard vs. soft real-time systems. A reference model for real-time systems is developed. Other topics covered include: scheduling of periodic and aperiodic tasks, resource access control, multiprocessor scheduling and synchronization, real-time aspects of operating systems and communication protocols, software engineering methods for real-time systems, and representing real-time concepts with Unified Modelling Language (UML). Software tools for development of real-time systems are introduced.~~

#### **S-201105.12**

##### **Course Deletion — CPSC 634-3**

Macknak / Murray

That, on the recommendation of the Senate Committee on Research and Graduate Studies, CPSC 634-3 Hardware Architecture be deleted and removed from the calendar.

Effective date: September 2011 or on approval by Senate  
CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~CPU architecture including registers and accumulators, ALU design, control unit, operand codes and instruction sets, register transfer level language, fetch execute cycle and branching, address and data buses, microcoding of instructions. Memory design and addressing, memory types and memory performance, cache and caching techniques, memory indirect addressing. Interrupts and exception handling techniques. DMA controllers. Pipeline and parallel architectures.~~

#### **S-201105.13**

##### **Course Deletion — CPSC 640-3**

Macknak / Murray

That, on the recommendation of the Senate Committee on Research and Graduate Studies, CPSC 640-3 Computer Networks be deleted and removed from the calendar.

Effective date: September 2011 or on approval by Senate  
CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~Data transmission and encoding, multiplexing, circuit switching, packet switching, network protocols, data communication hardware, ISO model, Data Link Layer, Network Layer, Local Area Networks (LANs), Wide Area Networks (WANs), Metropolitan Area Networks (MANs), Backbone Networks (BNs), network design and implementation, network management, network security.~~

#### **S-201105.14**

##### **Course Deletion — CPSC 643-3**

Macknak / Murray

That, on the recommendation of the Senate Committee on Research and Graduate Studies, CPSC 643-3 Mobile Computing be deleted and removed from the calendar.

Effective date: September 2011 or on approval by Senate  
CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~This course provides an overview of Internet, TCP/IP and the field of mobile computing. The topics covered in detail include IEEE 802.11 Wireless LANs, Physical Layer for CDMA and OFDM, MAC Layer for GSM/GPRS, 2.5G and 3G cellular architectures, Physical Layer for cellular networks (CDMA, TDMA and OFDM), MAC layer for CDMA and TDMA based cellular networks, Mobile IPv4/v6, and Application Layer (IP Multimedia Subsystem, Multimedia Messaging, Location-Based Services).~~

**S-201105.15**

**Addition of May Semester Admission Date — Natural Resources and Environmental Studies**

Macknak / Murray

That, on the recommendation of the Senate Committee on Research and Graduate Studies, entrance to the Natural Resources and Environmental Studies (MA, MNRES, MSc, and PhD) be added to the May Semester entrance listing in the “Semester Dates” section of the Graduate Calendar.

Effective date: May 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Semester Dates — 2011 January Semester

....

February

15 Application deadline for UNBC administered Graduate Award. Application deadline for Graduate Studies for May Semester 20\_\_ for: Interdisciplinary Studies (MA and MSc), Natural Resources and Environmental Studies (MA, MSc, MNRES) and (PhD)

### 8.3 Senate Committee on Scholarships and Bursaries

Russell

**“For Information” Items:**

**SCSB20110427.04**

**Revised Terms and Conditions — Cloverdale Paint Bursary**

Macknak / Murray

That the revised Terms and Conditions for the Cloverdale Paint Bursary be approved.

Effective date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110427.05**

**New Terms and Conditions — Gordon Campbell Scholarship**

Macknak / Murray

That the new Terms and Conditions for the Gordon Campbell Scholarship be approved.

Effective Date: 2012-2013 Academic Year

Although this motion was moved from the consent to the regular agenda, there was no vote because the item was for the information of Senate only. A Senator questioned whether there was a policy related to naming awards after recently-retired politicians. Dr. Iwama responded that this award was a gift to Premier Campbell and the funds were raised by his friends. It was noted that UNBC has several scholarships named after individuals. The Senator indicated that his concern lies with the potential conflict of interest and the University endorsing affiliation with politicians who are active in policy development. He added that UNBC has a policy regarding the naming of buildings and that it was strange there was not something similar for scholarships. Mr. Tim Thomas, Executive Services Manager, spoke from the gallery and responded that there is a policy on scholarships but it states nothing with regard to politicians; the policy relates to receiving the money and not necessarily naming the awards.

**SCSB20110427.06**

**Revised Terms and Conditions — Heather Sadler Jenkins Scholarship**

Macknak / Murray

That the revised Terms and Conditions for the Heather Sadler Jenkins Annual Scholarship be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110427.07**

**Revised Terms and Conditions — NCLGA Community Development Scholarship**

Macknak / Murray

That the revised Terms and Conditions for the NCLGA Community Development Scholarship be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110427.08**

**Revised Terms and Conditions — Pacific Blue Cross Bursary for Northern Medical Program Students**

Macknak / Murray

That the revised Terms and Conditions for the Pacific Blue Cross Bursary for Northern Medical Program Students be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110427.09**

**New Terms and Conditions — Sheri Merchant Memorial Bursary**

Macknak / Murray

That the new Terms and Conditions for the Sheri Merchant Memorial Bursary be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110427.10**

**Revised Terms and Conditions — Vancouver International Airport Authority Scholarship**

Macknak / Murray

That the revised Terms and Conditions for the Vancouver International Airport Authority Annual Scholarship be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110427.11**

**New Terms and Conditions — Vladimir Pasichnyk Scholarship**

Macknak / Murray

That the new Terms and Conditions for the Vladimir Pasichnyk Scholarship for UNBC Engineering Undergraduates be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110427.12**

**New Terms and Conditions — Westcana Electric Inc.**

Macknak / Murray

That the new terms and Conditions for the Westcana Electric Inc. Award be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110511.04**

**New Terms and Conditions — David A. Bradbury Bursary**

Macknak / Murray

That the new Terms and Conditions for the David A. Bradbury Bursary be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110511.05**

**Revision to Policy and Procedures for Graduate Awards**

Macknak / Murray

That the revised Policy and Procedures for Graduate Awards be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110511.06**

**Revision to Policy and Procedures for Undergraduate Awards**

Macknak / Murray

That the revised Policy and Procedures for Undergraduate Awards be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**8.4 Senate Committee on Admissions and Degrees**

**Vacant**

**“For Approval” Items:**

**S-201105.16**

**Changes to Admission Category — Admission from a College of Applied Arts and Technology (Ontario)**

Macknak / Murray

That, on the recommendation of the Senate Committee on Admissions and Degrees, the proposed revision to the section on p. 31 of the 2011/2012 Undergraduate Calendar headed “Admission from a College of Applied Arts and Technology (Ontario)” be approved.

Effective date: Immediately upon approval by Senate

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Admission from a College of Applied Arts and Technology (Ontario)**

All students admitted from a College of Applied Arts and Technology (CAAT) are strongly encouraged to seek academic advising prior to registering for courses and/or declaring a degree program.

Students completing less than two full semesters at a CAAT will not be considered for admission under this category. Students in this situation should consult the section dealing with admission from high school.

Students who wish to transfer to UNBC after completing at least two full semesters of a diploma program at a CAAT may be considered for admission to first year at UNBC. Students must have a minimum grade point average of 70% on their course work from the CAAT. ~~Transfer credit will not be awarded to CAAT students who do not have a diploma.~~

~~Students who have been awarded a diploma from a College of Applied Arts and Technology may be eligible for admission and for block transfer credit (see below).~~

~~Students must have achieved an overall minimum grade point average of 70% on their diploma to be considered for admission, and to be eligible for block credit.~~ Normally, students who meet the grade requirements may be awarded up to 30 credit hours of

block transfer on a two-year diploma if the diploma academic program is relevant to the degree program sought at UNBC.

**8.5 Senate Committee on Regional Policy and Inter-Institutional Relations**

**Macknak**

**“For Information” Items:**

**SCRPIIR20110511.02**

**Approval of Draft Memorandum of Understanding Between the University of Northern British Columbia (UNBC) and College of the Rockies (Cranbrook, BC)**

Macknak / Murray

To approve MOU between UNBC and College of the Rockies (Cranbrook, BC).

Effective date: May 11, 2011

CARRIED (consent agenda).

**SCRPIIR20110511.03**

**Approval of Draft Memorandum of Understanding Between the University of Northern British Columbia (UNBC) and Northwest Community College (NWCC)**

Macknak / Murray

To approve MOU between UNBC and Northwest Community College (NWCC).

Effective date: May 11, 2011

CARRIED (consent agenda).

**8.6 Senate Committee on Nominations**

**Iwama**

Regular

**S-201105.17**

**Membership Changes to Senate and/or Senate Committees**

Ryan / Jensen

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate and/or Senate committees as indicated, be appointed as proposed.

**SENATE OR SENATE COMMITTEE POSITION TO BE FILLED**  
***(except when otherwise noted, all terms begin immediately)***

**CANDIDATE**

**Senate Committee on Nominations**

Lay or Regional Senator (until March 31, 2012)

Lisa Handfield (Lay Senator)

**Senate Committee on Admissions and Degrees**

Faculty Member (until March 31, 2012)

Lyle Grant

**SCAPP and SCRGS Continuing Studies Credit Committee**

Undergraduate Student (until March 31, 2012)

Faculty Member — CASHS (until March 31, 2014)

Joyce Forson (2<sup>nd</sup> term)

Alexander Auerbach

**Senate Committee on Scholarships and Bursaries**

Undergraduate Student (until March 31, 2012)

Lay Senator (until March 31, 2014)

Joyce Forson (2<sup>nd</sup> term)

Lisa Handfield

**Senate Committee on the University Budget**

Exempt Staff Representative (until March 31, 2014)

CUPE Staff Representative (until March 31, 2014)

Claudette Gouger (2<sup>nd</sup> term)

Dale Laluk

Dr. Iwama called, three times, for further nominations from the floor of Senate. As no further nominations were forthcoming, all candidates were appointed as proposed.

CARRIED.

**For Information of Senate:**

**Current Senate Vacancies**

None

**Senator Elected for Term of Office Commencing Immediately**

Lay Senator (replacing Adele Yakemchuk — until March 31, 2012):  
Lisa Handfield

**9.0 Other Business**

**9.1 Report of the Registrar**

**Russell**

The Registrar had nothing to report.

**9.2 Presentation — Graduate Programs**

**Hartley**

Dean Hartley delivered a presentation on graduate programs (attached to these minutes as “Appendix I”), in which he discussed credentials awarded and new degrees, funding from the Ministry of Advanced Education as well as scholarships and awards, the Graduate Programs Office reporting structure, findings of the external review of Graduate Programs, and graduate student recruitment. With regard to credentials awarded, Dean Hartley indicated that he expected these numbers to plateau, and he reported on new degrees which had recently been approved as well as proposed degrees currently in the works.

In relation to funding, Dean Hartley noted that the Ministry of Advanced Education had provided increased funding to UNBC which was being used for travel awards, graduate entrance awards, and research project awards. He also provided a profile of graduate students who receive scholarships and awards, noting that they were more likely to be international students, students from outside British Columbia, and students seeking a Master of Science or Doctoral credential, and that most were enrolled full-time, almost all were enrolled at the Prince George campus, and that there was no difference in ethnicity or gender. He added that the average amount of funding was approximately \$5,000 per year.

Dean Hartley provided a chart showing the reporting lines in the Office of Graduate Programs and the Graduate Studies Unit in the Office of the Registrar. He also shared several recommendations from the report of the external review of the Office of Graduate Programs which included, among others, reducing the time to completion of Master’s degrees, creating a strategic plan for the role and support of graduate programs, moving the responsibility for the administration of graduate applications and the maintenance and security of graduate files from the Registrar’s Office to a University Graduate Unit, the development of effective business practices, and the creation of a Graduate Council. Dean Hartley then provided information about the recruitment plan for graduate students. In conclusion, Dean Hartley noted that all theses must be digital by 2014, and that there are only two institutions in Canada without online admissions, UNBC being one of them. He then invited questions and comments.

Dean Hartley was asked about the impetus behind digitizing theses, and he responded that by 2014 the National Library of Canada (NLC) will not accept paper copies, but the digital versions will sit at UNBC and the NLC will harvest them. Senator Ashoughian, the University Librarian, added that, because UNBC does not yet have a repository of this nature for theses, we will have the opportunity to build the repository correctly. Senators discussed funding of graduate students, with some Senators positing that many institutions offer more funding than UNBC, putting us at a competitive disadvantage. Others responded, however, that UNBC funds some aspects of graduate student life centrally, so it is difficult to compare funding from institution to institution.

#### 4.0 President's Report

Iwama

Dr. Iwama reported that an announcement regarding the Wood Innovation and Design Centre should be forthcoming next month. He added that he had been told that UNBC would not be involved in leading the Centre, but that the Honourable Pat Bell, MLA, had been working to clarify the situation. UNBC had continually asked to be involved in the planning. Dr. Iwama questioned what UNBC's involvement would be if the University was not involved with leading the Centre, and said he had been told that there could be residences in the 10-story wood building. Dr. Iwama concluded his report regarding the Wood Innovation and Design Centre by indicating that apparently a submission to Treasury Board currently was being prepared.

With regard to the joint meeting of the Board and Senate held on May 28, Dr. Iwama reported that very good discussions had taken place, and that a report was being drafted that would be shared. The Senate-Board Liaison Committee had agreed that some version of the report should be shared with the entire University community.

Dr. Iwama also reported that there had been a Tenth Anniversary celebration for the University of the Arctic. He added that UNBC faculty member Dr. Jim McDonald was chairing the Council this year, and that Dr. Gary Wilson was also involved. Brandon University and a university in Hokkaido have also joined the University of the Arctic.

#### 5.0 Report of the Provost

Dale

Dr. Dale thanked the UNBC faculty members who had put together the most recent preliminary proposal for the Wood Innovation and Design Centre (Umesh Parshotam, Erik Jensen, Jueyi Sui, and Dan Ryan) and added that they had put this information together on very short notice.

With regard to enrolments, Dr. Dale indicated that although the numbers are preliminary they are looking good. Application, admission, and enrolment numbers are up in relation to the same period last year.

#### 6.0 Question Period

A Senator expressed concern about the possibility of the Wood Engineering and Design Centre being downtown and thus splitting the campus apart with regard to engineering programs. Both Dr. Dale and Dr. Iwama echoed those sentiments and Dr. Iwama assured Senators that the University would not take on anything that would jeopardize the University's financial situation. He added that he would ensure the government was aware of the fact that labs are required for second-year engineering programs.

With regard to the review of the President which is currently ongoing, a Senator asked what role the Senate and academic community played in that regard. Dr. Iwama responded that the review occurs in accordance with University policy, and explained the process. Dr. Dale suggested that someone from Senate could raise this matter with the Chair of the Board of Governors to request input. The Senator responded that he would like to see that happen, and it was agreed that Ms. Myers would contact the Board Chair by e-mail about this request and copy the e-mail to the Vice Chair of Senate.

<b>Action:</b>	Ms. Myers to convey to the Chair of the Board of Governors that Senate has requested the Board consider the role of Senate in the procedures for review of the President.
----------------	---

#### 7.0 S-201106.03 Approval of Motions on the Consent Agenda

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

There were no motions on the consent agenda, so this motion was unnecessary.

## 8.0 Committee Reports

### 8.1 Senate Committee on Academic Policy and Planning

Dale

#### “For Approval” Items:

Dr. Iwama noted that, with regard to memoranda of understanding, it appears they are approved at several different levels of the University. The *University Act* states that the Board of Governors has the power to approve agreements, and it seems that would include memoranda of understanding. Dr. Iwama indicated he would welcome thoughts on how to be consistent in practice regarding approval of these types of agreements. A Senator suggested that agreements negotiated at the senior administrative level should be approved by the Board of Governors, but questioned whether articulation agreements and the like needed to be approved. Dr. Iwama responded that the types of agreements generally forwarded to the Board were those with financial implications attached, but that perhaps other agreements could either be forwarded to the Board for information or be dealt with by the President under delegated authority to ensure compliance with the *University Act*. Dr. Iwama indicated he had raised this matter so that Senators were aware of it, and that he would gather some information on the subject and move forward with some degree of consistency.

#### **S-201106.04**

##### **Approval of Memorandum of Understanding Between UNBC and Okanagan College (Kelowna, BC)**

Deo / Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the memorandum of understanding between UNBC and Okanagan College (Kelowna, BC) be approved as proposed.

Effective date: June 1, 2011

CARRIED.

#### **S-201106.05**

##### **Approval of a New 2+2 Program for the BA Environmental Studies (Okanagan Completion Program)**

Deo / Hartley

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new 2+2 Program for the BA Environmental Studies (Okanagan Completion Program) be approved as proposed.

Effective Date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### Major in Environmental Studies

The Bachelor of Arts in Environmental Studies emphasizes a social science and humanities perspective on environmental issues. The program provides a strong philosophical, social and scientific basis for understanding the full diversity of environmental issues and positions students to be effective agents for mitigation of, and/or adaptation to, environmental change.

Degree requirements: 72 credit hours

Area of focus: 24 to 29 credit hours

Elective credit hours in any subject as necessary to ensure completion of a minimum of 120 credit hours, including any additional credits necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

#### Program Requirements

[deleted intervening information as no changes are proposed]

## **Elective and Academic Breadth Requirement**

Elective credit hours in any subject as necessary to ensure completion of a minimum of 120 credit hours, including any additional credits necessary to meet the Academic Breadth requirement of the University (See Academic Regulation 15).

### **Addition of the following, directly after the above:**

Major in Environmental Studies (Okanagan Diploma in Environmental Studies Degree Completion)

This 60 credit-hour program of study is available only to students from Okanagan College with a diploma in Environmental Studies (Environmental Management Option or Interdisciplinary Environmental Arts Option).

Degree requirements: Diploma in Environmental Studies from Okanagan College, minimum cumulative GPA of 2.5, plus 33 credit hours

Area of focus: 24 to 29 credit hours

Elective credit hours in any subject as necessary to ensure completion of a minimum of 60 credit hours at UNBC.

### **Curriculum:**

#### Lower-Division Requirement

\*BIOL 110-3 Introductory Ecology or POLS 100-3 Contemporary Political Issues

ENPL 104-3 Introduction to Planning

ENVS 101-3 Introduction to Environmental Citizenship

\*Students who completed the Interdisciplinary Arts diploma option should take BIOL 110, and students who completed the Environmental Management diploma option should take POLS 100

#### Upper-Division Requirement

##### 300 Level

GEOG 300-3 Geographic Information Systems

ENVS 325-3 Global Environmental Change: Science and Policy

ENVS 326-3 Natural Resources, Environmental Issues and Public Engagement

INTS 307-3 Global Resources

or GEOG 401-3 Resource Geography

or HIST 360-3 An Introduction to Environmental History

NREM 303-3 First Nations' Approaches to Resource Management

or FNST 304-3 First Nations Environmental Philosophy and Knowledge

or ENPL 208-3 First Nations Community and Environmental Planning

##### 400 Level

ENPL 401-3 Environmental Law

ENPL 440-3 Internship

GEOG 424-3 Social Geography of Northern Communities

Total: 33 credit hours

#### Areas of Focus

Students must choose an area of focus, as described above, in one of the following five areas: Global Environmental Studies; Communities and Environmental Citizenship; Natural Resource Management; Science,

Technology and Society; and First Nations. Courses used to fulfill major requirements above may not be used to fulfill an area of focus requirement.

**S-201106.06**

**Approval of Partnership Agreement Between New Mexico State University (U.S.A.), Diné Tribal College (U.S.A.), Universidad Tecnológica del Valle del Mazquital (México), Universidad Tecnológica de la Selva (México), University College of the North (Canada), and University of Northern British Columbia (Canada)**

Kitchenham / Annis

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the partnership agreement between New Mexico State University (U.S.A.), Diné Tribal College (U.S.A.), Universidad Tecnológica del Valle del Mazquital (México), Universidad Tecnológica de la Selva (México), University College of the North (Canada), and University of Northern British Columbia (Canada) for the purposes of exchange and student support be approved as proposed.

Effective Date: September 2011

CARRIED.

**S-201106.07**

**Approval of Memorandum of Understanding Between the Baja California Field Studies Program of Glendale Community College, USA and the University of Northern British Columbia**

Hutchings / Kitchenham

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the memorandum of understanding between the Baja California Field Studies Program of Glendale Community College, USA and the University of Northern British Columbia be approved as proposed.

Effective Date: September 2011

CARRIED.

**8.2 Senate Committee on Admissions and Degrees**

**Vacant**

**“For Approval” Items:**

**S-201106.08**

**Changes to Admission Category — Admission from a BC Community College, University College, or Yukon College**

Deo / Jensen

That the changes to the admission category for admission from a BC Community College, University College, or Yukon College on page 31 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikerough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Admission from a BC Community College, University College, and Yukon College  
University Transfer Programs Including Associate in Arts or Science Degrees**

To meet admission requirements, the cumulative grade point average (CGPA) on all transferable courses attempted must be at least 2.00 or C (65%). While all courses attempted are included in the calculation of a student's admission GPA, no transfer credit will be awarded for any course with a grade of less than 0.67 or D- (50-52.9%).

Transfer credit is awarded according to agreements articulated in the BC Transfer Guide (available online at <http://www.bccat.bc.ca>).

**Please note:** UNBC guarantees priority admission and full transfer credit (minimum of 60 credit hours) to students transferring with an Associate in Arts or Science degree.

## Diploma Programs

To meet admission requirements, applicants must present a minimum cumulative CGPA of 2.00 or C (65%).

Transfer credit for articulated courses is awarded at the point of admission. Upon declaration of a major in a related degree program, or direct admission into Nursing or Social Work degrees, students who hold specific Business Administration, Natural Resource Management or Environmental Studies or Nursing or Social Work Diplomas may be eligible for additional block credit.

**Please note:** To receive transfer credit in certain program areas, a higher minimum grade is required.

## 2+2 Programs

### Okanagan College Diploma in Environmental Studies (Environmental Management and Interdisciplinary Environmental Arts Options)

Students who have successfully completed the Diploma in Environmental Studies (Environmental Management or Interdisciplinary Environmental Arts Option) from Okanagan College, with a cumulative GPA of 2.5 or greater, are eligible for admission into the BA Environmental Studies (Okanagan Completion) Program.

## 9.0 Other Business

### 9.1 Report of the Registrar

Hanschen

The Registrar had nothing to report.

### 9.2 Presentation — “Renewable Energy Systems, and Opportunity for UNBC”

Iwama

Dr. Iwama delivered a presentation and then invited Senators to comment on a discussion paper entitled “Renewable Energy Systems, and Opportunity for UNBC” (attached to these minutes as “Appendix I”), which he had circulated in advance of the meeting. He indicated that the paper referred to a high-level expression of a project, but one that can involve the whole University community, including the Chancellor. He noted that he would be placing the discussion paper on the UNBC planning website. Dr. Iwama expressed that it was important to grow the knowledge necessary to create energy sources, and that First Nations peoples and enterprise would be involved from the beginning. He added that forests should be viewed not only as timber, but as a source of energy, and that Dr. McDonald had stated that “UNBC has a potential to be a world leader in renewable energy sources.” It was noted by Dr. Iwama that the Vice Presidents had seen this document, and that he would like Senators’ feedback on the discussion paper before it is placed on the website for discussion.

A Senator stated that he thought the proposal makes good sense, and noted that there are faculty members at UNBC working on similar initiatives in their research who could be involved. Another Senator appreciated the idea and vision. Dr. Iwama added that BC Hydro has a mandate to provide energy at the lowest possible price, and that it is a paradox for an energy-rich province to be wondering about energy sources. He added that the UNBC energy manager would be installing sensors to monitor the University’s energy usage. Finally, Dr. Iwama welcomed ideas and comments about the paper and stated that some consultations would be held in the future months regarding the University Plan and some new initiatives.

## 10.0 Information

### 10.1 2011 Report of the Harassment and Discrimination Advisor

Dr. Iwama indicated that Dr. Hardy was unable to attend the Senate meeting, but that her report was before Senators for their information. There were no questions or comments in relation to the report.

## 11.0 S-201106.09

### Move to In Camera Session

~~An introductory survey of contemporary issues for First Nations people in BC, in Canada, and indigenous peoples of the world. Students will research and present seminars on specific issues in which decision-making within First Nations is involved, such as political organization, economic and environmental strategies, and strategies for cultural survival, etc.~~

~~Prerequisites: FNST 100-3, or permission of the Program Chair~~

**4.0 President's Report**

**Iwama**

Dr. Iwama reported that Residence move-in day would be taking place on Sunday of the long weekend. He added that conversations with parents and students on that day are invaluable, and he thanked those who had planned the event.

Dr. Iwama also reported that, regrettably, the Cariboo Chilcotin Weekend University program had closed as a result of significant funding cuts and a decreased number of students taking the program. The program, which was a joint initiative between UNBC and Thompson Rivers University, ran for 14 years, graduating 47 students. An event marking the closing of the program, at which participants shared their stories, was held at Thompson Rivers University in Williams Lake. Dr. Iwama stated that it had occurred to him that there is an opportunity in the future to create a similar initiative open to all northern residents, but he added that he recognized the demands of instituting such a program. Dr. Iwama opined (an opinion he indicated he had shared with the Minister of Advanced Education) that programs like the Weekend University and Wilp Wilxo'oskwhl Nisga'a are examples of the ways in which UNBC can reach out to folks in the North, as the current method of asking people to come to urban centres to meet their educational needs is having limited success.

With regard to his presentation at the last meeting, Dr. Iwama distributed a handout which he indicated provided the broader context to his presentation. He also noted that the latest reports on emissions from the Bioenergy facility are excellent. Dr. Iwama added that the Chancellor is a champion of renewable energy, that we live in a province with many types of renewable energy, that communities have an opportunity to pursue the energy sources that work best for them, and that he hopes all University disciplines become involved in this proposed endeavour. He stated that Senate is the first group to see the proposal, which will subsequently be shared with others in the University community,

possibly including at a Town Hall presentation if appropriate. Dr. Iwama wants to have discussions to determine how, or if, to move forward on these ideas, and stated that many people are excited about the role UNBC can play in renewable energy sources.

Dr. Iwama indicated that he had the pleasure of meeting with Stuart Ballantyne, the CEO of the 2015 Winter Games. He added that the Winter Games present opportunities for funding that could involve UNBC, and encouraged everyone to think about how we might capitalize on this potential funding source. In addition to being the year in which Prince George is hosting the Winter Games, 2015 is the Centenary of Prince George and the 25<sup>th</sup> Anniversary of UNBC, so Dr. Iwama has been contemplating ways in which these milestones can be celebrated, such as formal documentation of UNBC's history and a "Founders' Corner." Dr. Iwama welcomed all thoughts about how to celebrate 2015, and advised Senators that he would update them on developments.

In conclusion of his report, Dr. Iwama invited Senators to submit, to Dr. Dale, discussion topic ideas for upcoming Senate meeting presentations.

## 5.0 Report of the Provost

Dale

As the Provost was not in attendance, he did not provide a report.

## 6.0 Question Period

A Senator asked about the status of the hiring process for the Chief Information Officer. A member of the search committee responded that the committee has met a few times and is using an external search firm.

It was questioned whether any specific attempts had been made to find funding to replace the Weekend University program. Senator Macknak responded that there had been, but that successful efforts in this regard are those that have been championed by the community, so UNBC should not play too active a role. Dr. Iwama added that discussions need to take place in relation to what role UNBC can play.

A Senator stated that the classrooms at the BMO Building were less than ideal for MBA classes, and asked whether there was any provision for holding MBA classes on the Prince George campus. Dr. Iwama responded that he would consult with the Provost and the Vice President Administration and Finance and provide a response to the School of Business.

<p><b>Action:</b> Dr. Iwama to consult with the Provost and the Vice President Administration and Finance to determine if there is a provision to hold MBA classes on the Prince George campus and provide a response to the School of Business.</p>
--

A Senator noted the law school opening at Thompson Rivers University and questioned whether there was funding available to the special purpose teaching universities that was not available to the research-intensive universities. Dean Young responded that the law school was created in conjunction with the University of Calgary. Dr. Iwama added that no special funding was available, but that Thompson Rivers and Royal Roads Universities will join the group of research-intensive universities in the fall. The Senator asked whether it would be useful for UNBC to consider partnering with the University of Alberta, another northern university, instead of looking south for partners. Dr. Iwama responded that it would absolutely be useful to look at partnering with other northern institutions, and added that they were currently investigating a partnership with a university in Sweden. Another Senator commented that, just because TRU has a law school does not mean that UNBC cannot do the same, as TRU has a limited number of seats available. Dr. Iwama responded that this was a good point, and noted that Dr. Dale had been consulting with people about the needs in the north in this regard.

A member of the gallery asked about the status of the engineering proposals. Dr. Iwama responded that the provincial government was aware of the need for the programs, but added that in these financial times he found it difficult to imagine funding existing for a traditional undergraduate engineering school requiring labs. However, industry has this infrastructure and expertise. UBC has encouraged UNBC to mount an engineering program with a specialization. In addition, a university in

Sweden is discussing with UNBC the possibility of getting a graduate engineering program underway. Dr. Iwama stated that he would report any new developments to Senate.

**7.0 S-201108.05**  
**Approval of Motions on the Consent Agenda**

Ryan / Carriere

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

**8.0 Committee Reports**

**8.1 Senate Committee on Academic Policy and Planning**

**Dale**

In the absence of Dr. Dale, the report for this committee was presented by Dean Young.

**“For Approval” Items:**

Motions S-201108.06 and S-201108.07 were dealt with as an omnibus motion.

**S-201108.06**  
**Renewal of Student Exchange Agreement Between Mid-Sweden University (Sweden) and the University of Northern BC**

Ryan / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the renewal of the student exchange agreement between Mid-Sweden University (Sweden) and the University of Northern BC be approved as proposed.

Effective date: September 2011

CARRIED.

**S-201108.07**  
**Renewal of Student Exchange Agreement Between the Swedish University of Agricultural Sciences (SLU), Sweden, and the University of Northern BC**

Ryan / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the renewal of the student exchange agreement between the Swedish University of Agricultural Sciences (SLU), Sweden, and the University of Northern British Columbia be approved as proposed.

Effective date: January 2012

CARRIED.

**S-201108.08**  
**Course Deletion — ENGL 351-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, ENGL 351-3 Russian Literature in Translation be deleted and removed from the calendar, on page 215 of the 2011/2012 undergraduate calendar, as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~ENGL 351-3 Russian Literature in Translation A study of Russian literature of the nineteenth and twentieth centuries in translation. The course may focus on a specific author(s), or a period, genre, theme or region.~~

~~Prerequisites: two lower division English courses excluding ENGL 170-3, or 45 credit hours, or permission of the instructor~~

### **S-201108.09**

#### **Course Deletion — ENGL 385-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, ENGL 385-3 Modern and Contemporary Literature in the United States be deleted and removed from the calendar, on page 215 of the 2011/2012 the undergraduate calendar, as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~ENGL 385-3 Modern and Contemporary Literature in the United States American writing since 1900, with an emphasis on the American cultural contexts. The course may focus on a specific author(s), on a particular genre, theme or region, or on ethnic and minority literature.~~

~~*Prerequisites:* two lower division English courses excluding ENGL 170-3, or 45 credit hours, or permission of the instructor~~

### **S-201108.10**

#### **New Course Approval — ENGL 485-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course ENGL 485-3 Special Topics in Modern and Contemporary Literature in the United States be approved as proposed.

Proposed semester of first offering: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

ENGL 485-3 Special Topics in Modern and Contemporary Literature in the United States

This course provides a study of American writing since 1900, with an emphasis on American cultural contexts. The course may focus on a specific author or specific authors, on a particular genre, theme or region, or on ethnic and minority literature. This course may be repeated to a maximum of 6 credit hours with the permission of the instructor and the Department Chair if the subject matter of the course differs substantially.

*Prerequisites:* Two lower-division English courses excluding ENGL 170-3, or 45 credit hours, or permission of the instructor

**Preclusions: English 385**

### **S-201108.11**

#### **New Course Approval — FNST 283-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNST 283-3 Métis Studies be approved as proposed.

Proposed semester of first offering: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course examines the place of the Métis in Canadian and American history and culture. It explores ways in which incorporations into Canada and the Canadian provinces and territories, as well as American states, affects the lives of the Métis. This will take place through readings, lectures, discussions, guest speakers, biographies of influential Métis and studies of Métis organizations.

### **S-201108.12**

#### **New Course Approval — FNST 425-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNST 425-3 Oral History be approved as proposed.

Proposed semester of first offering: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course examines the foundations of oral traditions and oral history methods within academic research. It provides students with an understanding of the importance of oral research methods and an opportunity to expand and enhance this understanding through presentations by First Nations resource people, readings, assignments, online and material resources as well as class discussions. This course incorporates Indigenous perspectives to examine Indigenous worlds through the lens of storytelling methods and collective narrative memory.

**Prerequisites:** FNST 100

An Executive Summary outlining the proposed changes to the Political Science and Philosophy curricula was included for information.

### **S-201108.13**

#### **Approval of Change in Designation of Economics Program, First Nations Studies Program, International Studies Program, Political Science Program, and Psychology Department**

Ryan / Kitchenham

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes in designation of the:

- Economics Program to Department of Economics on pages 92 and 93
- First Nations Studies Program to Department of First Nations Studies on pages 126, 127, 131, 132 and 136
- International Studies Program to Department of International Studies on pages 146 to 148
- Political Science Program to Department of Political Science on pages 170 and 172,
- Psychology Department to Department of Psychology on page 172

of the 2010/11 undergraduate calendar be approved as proposed.

Effective Date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

p. 92:

Economics as a discipline is constructed around the need to identify agents in the economy and analyze their interactions. As such it is based upon deriving generalizations by identifying behavioural rules and examining causal relationships between economic variables. The emphasis on examining causal relationships is a distinguishing feature of economics and forms an important part of its claim to be a social science. As well as addressing these central concerns, the Department of Economics program recognizes the interaction between the economy and other broader social, political, cultural and technological forces. The Department program therefore places special emphasis on courses which that analyze institutions, facilitate comparative studies, encourage a historical approach, and recognize the pervasiveness of technological change.

p. 93:

Minor in Economics

... Alternative courses may be substituted for the above with written permission of the Department Program Chair and Dean.

p. 126:

#### Major in First Nations Studies

A major in First Nations Studies requires students to take 48 credit hours of First Nations Studies, at least 21 credit hours of which must be upper-division courses. Those courses from the offerings of other programs with content focused on First Nations are designated as ~~Approved~~ approved ancillary courses for a major in First Nations Studies, and may be included among the 48 credit hours required for a major ~~[[for example HIST 390-3 (Aboriginal People in Canada)]].~~ Students may not take more than 60 credit hours of First Nations Studies without written permission from the Chair of the Department of First Nations Studies ~~program~~.

p. 127:

#### Approved Ancillary Courses for a Major in First Nations Studies

This list is reviewed annually by the Department of First Nations Studies ~~program~~.

p. 131:

#### First Nations Public Administration

The Certificate in First Nations Public Administration consists of ~~40~~ ten courses (30 credit hours) drawn primarily from the ~~program~~ Departments of First Nations Studies and Political Science, with offerings from Business Administration, and Economics.

p. 132:

Five courses (Fifteen 15 credit hours) (5 courses) of First Nations Studies courses dealing with Métis culture, language, or issues. These options will be determined by FNST course offerings in that year. They can be either lower-division or upper-division courses. They can include ancillary courses identified by the Department ~~program~~. An ancillary course is defined as a course in a ~~program~~ Department other than First Nations Studies which has sufficient substantive content in common with First Nations Studies. The ~~program~~ Department maintains a list of approved ancillary courses.

p. 132:

Two courses (Six 6 credit hours) (two courses) of First Nations Studies dealing with Nisga'a culture, language, or issues. These two options will be determined by FNST course offerings in that year. They can be at any level. They can include ancillary courses identified by the Department ~~program~~. An ancillary course is defined as a course in a Department ~~program~~ other than First Nations Studies which has sufficient substantive content in common with First Nations Studies. The Department ~~program~~ maintains a list of approved ancillary courses.

p. 136:

#### Specialization in Local Public Administration

\* Students choosing this specialization should be aware that UNBC also offers a Public Administration Certificate through the Department of Political Science ~~program~~, as well as a First Nations Public Administration Certificate through the Department of First Nations Studies ~~program~~.

p. 146:

The Department of International Studies ~~program~~ seeks to familiarize students with the global community in which they live and to prepare them to pursue careers involving international interactions.

p. 147:

It is also possible to fulfill this requirement by taking courses in more than one language, as long as at least ~~six~~ 6 credit hours are in one language. Students wishing to take advantage of this option must get approval from the ~~Program's~~ Department's undergraduate advisor.

p. 147:

Credit for training in languages other than English or French at the university/college level will be considered and prior learning assessment is offered where possible. In all such cases, students must contact the ~~Program~~ Department Chair prior to registration.

p. 148:

Minor in International Studies

... Alternative courses may be substituted for the above with the written permission of the Program Department Chair and Dean of the College.

p. 170:

To achieve its purposes, the Department of Political Science program offers the opportunity to study political philosophy, comparative politics, Canadian government, international politics and public administration.

p. 172:

Minor in Political Science

... Alternative courses may be substituted for the above with the written permission of the Program Department Chair or Dean of the College.

p. 172:

Psychology is the study of behaviour and mental processes. It focuses on fundamental mechanisms and processes that regulate the behaviour of organisms. The goal of the Department of Psychology Department is to provide advanced knowledge in the substantive areas of psychology to students in the north, with special emphasis on areas of particular need and relevance to the region, especially applications of psychology to the understanding of human social and health problems.

#### **S-201108.14**

#### **Changes to Program Requirements — Political Science Major**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the Political Science Major on page 170 of the 2010/2011 undergraduate calendar be approved as proposed.

Effective Date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **Major in Political Science**

Political Science majors are required to take 51 credit hours in Political Science and related disciplines.

The Political Science major offers a foundation in four fields of political science: Canadian Government, Comparative Politics, Political Philosophy, and International Politics.

The minimum requirement for completion of a Bachelor of Arts with a major in Political Science is 120 credit hours.

#### **Program Requirement**

#### **Lower-Division Requirement**

##### **100 Level**

POLS 100-3 Contemporary Political Issues

##### **200 Level**

~~ECON 205-3 Statistics for Social and Management Sciences~~  
~~or MATH 240-3 Basic Statistics~~

INTS 205-3 Introduction to International Studies

POLS 200-3 Canadian Government and Politics

~~POLS 202-3 Comparative Government and Politics~~ Canada in Comparative Perspective  
POLS 270-3 Political Philosophy: ~~Plato to Locke~~ Antiquity to Early Modernity  
POLS 290-3 Research and Writing in Political Science

## Upper-Division Requirement

### 300 and 400 Level

INTS 310-3 Origins and Evolution of International Studies  
POLS 303-3 Democracy and Dictatorship  
POLS 320-3 Canadian Politics and Policy  
POLS 370-3 Political Philosophy: ~~Locke to Marx~~ Early Modernity to Post-Modernity  
Six upper division courses An additional 21 credit hours in POLS or INTS, ~~two~~ of which at least 6 credit hours must be at the 400 level.

### Elective Requirement

Electives at any level in any subject sufficient to ensure completion of a minimum of 120 credit hours.

### S-201108.15

#### Changes to Program Requirements — Minor in Philosophy

Carriere / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the revision to the Minor in Philosophy on page 168 of the 2010/2011 undergraduate calendar be approved as proposed.

Effective Date: September 2011

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### Minor in Philosophy

A minor in philosophy requires students to take PHIL 205-3 and ~~POLS 317-3~~ PHIL 305-3 or POLS 370-3 in addition to 12 credit hours chosen from courses listed below for a total of 18 credit hours. A total of 12 credit hours must be at the 300 or 400 level.

A maximum of two courses (~~six 6~~ 6 credit hours) used to fulfill program requirements for a major or another minor may also be used to fulfill requirements for a minor in Philosophy.

### Required

PHIL 205-3	Introduction to the History of Philosophy
<del>POLS 317-3</del>	<del>Ethics</del>
PHIL 305	History of Philosophy: <u>Early Modernity to Post-Modernity</u>
or POLS 370	Political Philosophy: <u>Early Modernity to Post-Modernity</u>

One of:

ECON 202-3	History of Economic Thought
ENGL 200-3	Gender and Literary Theory
PHIL 200-3	Critical Thinking
PHIL 201-3	Philosophy of Science
PHIL 202-3	Comparative Religion
POLS 270-3	Political Philosophy: <del>Plato to Locke</del> <u>Antiquity to Early Modernity</u>

Three of:

COMM 332-3	Business and Professional Ethics
ENGL 300-3	Theory
FNST 303-3	First Nations Religion and Philosophy
FNST 304-3	First Nations Environmental Philosophy and Knowledge
HIST 300-3	Historiography: The Nature of the Historical Discipline
<u>POLS 317-3</u>	<u>Ethics</u>

~~POLS 370-3 Political Philosophy: Locke to Marx~~  
WMST 311-3 History of Feminism  
ANTH 401-3 Anthropological Perspectives on Inequality  
ANTH 405-3 Topics in Landscapes and Place  
ANTH 406-3 Feminist Perspectives in Anthropology  
ENGL 400-3 Contemporary Theory  
ENVS 414-3 Environmental and Professional Ethics  
POLS 400-(3-6) Classics in Political Theory  
POLS 472-3 Contemporary Theories of Political Community  
WMST 411-3 Contemporary Feminist Theories

**S-201108.16**

**New Course Approval — PHIL 305-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course PHIL 305-3 History of Philosophy: Early Modernity to Post-Modernity be approved as proposed. Effective Date: January 2012  
CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course traces the history of western philosophy from early modernity to the early twentieth century. Thinkers discussed may include Aquinas, Ockham, Descartes, Hobbes, Locke, Hume, Kant, Schopenhauer, Rousseau, Fichte, Hegel, Marx, Nietzsche and Heidegger.  
Prerequisites: PHIL 205-3 or permission of the instructor  
Precluded: POLS 370-3

**S-201108.17**

**Course Deletions — POLS 220-3, POLS 313-3, POLS 325-3, POLS 326-3, POLS 334-3, POLS 335-3, POLS 340-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the courses listed below be deleted from the calendar on pages 259-261 of the 2010/2011 undergraduate calendar:

- POLS 220-3 Canadian Law and Aboriginal Peoples
- POLS 313-3 Women and Politics
- POLS 325-3 Canadian Politics and Identity
- POLS 326-3 Canadian Constitution
- POLS 334-3 Society, Policy and Administration of Natural Resources
- POLS 335-3 Community Politics
- POLS 340-3 First Nations Self-Government and Administration

Effective Date: September 2011  
CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~POLS 220-3 Canadian Law and Aboriginal Peoples An examination of the constitution, Indian Act, treaties, court decisions, and laws as they relate to the government and politics of aboriginal peoples.~~  
Prerequisites: POLS 100-3 or FNST 100-3, or permission of the instructor  
Precluded: FNST 250-3 and FNST 350-3

~~POLS 313-3 Women and Politics Women and contemporary politics, feminist theories and analyses.~~  
Prerequisites: Upper division standing or permission of instructor

~~POLS 325-3 Canadian Politics and Identity An examination of the major issues surrounding "Identity politics" in Canada. Topics include regionalism, political culture, alienation, self-determination and~~

~~nationalism.~~

~~Prerequisites: Upper-division standing~~

~~POLS 326-3 Canadian Constitution A study of the implications of the Canadian Constitution and the Charter of Rights and Freedom for Canadian politics.~~

~~Prerequisites: POLS 200-3~~

~~POLS 334-3 Society, Policy and Administration of Natural Resources An examination of different ideological perspectives of natural resource and environmental management. The course explores how these views are expressed in the policy process and how conflicts are resolved within the policy process.~~

~~Prerequisites: Upper-division standing~~

~~Precluded: NREM 306-3~~

~~POLS 335-3 Community Politics Political questions dealing with citizen participation, liberal democracy and administrative efficiency in municipal and regional settings. Case studies including a diversity of issues such as community policing, sustainable economic development, downtown revitalization and local politics in the North.~~

~~Prerequisites: POLS 100-3 or upper-division standing~~

~~POLS 340-3 First Nations Self-Government and Administration~~

~~An examination of government and administration of First Nations communities in Canada today and the implications of self-government for these communities. Some field study will normally be included in the course.~~

~~Prerequisites: POLS 100-3, 200-3~~

An Executive Summary of the proposed revisions to the Geography BA curriculum was included for information.

### **S-201108.18**

#### **Changes to Degree Requirements — Geography Program (BA) Major in Geography**

Kitchenham / Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the degree requirements for the Geography Program (BA) Major in Geography, on page 133 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

Motions S-201108.19 to S-201108.21 were dealt with as an omnibus motion.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **Geography Program (BA)**

##### **Major in Geography**

The Bachelor of Arts provides students with comprehensive training in the study of human geography, emphasizing the cultural, social, economic, and political connections between people and their environments. We offer courses that give students the conceptual and methodological means to make sense of the places and spaces they occupy, and how these relate to the rest of the world. Particular emphasis is on issues of community development, social justice, environmental equity, and population health in northern environments as a starting point for understanding the dynamics of place-making in a global context.

~~Undergraduate students are required to take 57 credit hours of Geography courses, of which 30 credit hours must be upper division. To meet the overall minimum degree requirement of 120 total credit hours, students are also required to take elective courses, including a minimum of 21 elective credit~~

hours at the upper-division level, in any subject.

The minimum requirement for the completion of a Bachelor of Arts with a major in Geography is 120 credit hours.

## Program Requirements

### Lower-Division Requirement

#### 100 Level

GEOG 100-3 Environments and People  
GEOG 101-3 Human Geography Geographies of Global Change

Elective course hours as necessary to ensure completion of a minimum of 120 credit hours, of which at least 21 credit hours must be at the 300 and 400 level including any additional credit hours necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

### S-201108.20

#### **Changes to Program Requirements — Minor in Human Geography**

Ryan / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the requirements for the Minor in Human Geography, on page 139 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **Minor in Human Geography**

The aim of the minor is to show a level of competence in a theme, field or program direction that a student feels would be beneficial to her/his career and which would be ancillary to the major. By designating this group of courses as a minor the student is able to demonstrate a level of proficiency in that field.

The minor in Human Geography is designed to provide the student with:

1. an introduction to the basics of Human Geography;
2. a well-rounded introduction to several of the key sub-fields of Human Geography; and;
3. the chance to explore at least one facet of Human Geography of special interest to the student at the 400 level.

A maximum of two courses (~~six~~6 credit hours) at or above the 200 level used to fulfill program requirements for a major or another minor may also be used to fulfill requirements for a minor in Human Geography. The minimum requirement for completion of a minor in Human Geography is 24 credit hours, including ~~twelve~~12 upper-division credit hours.

#### **Requirements**

GEOG 100-3 Environments and People  
GEOG 101-3 Human ~~Geography~~ Geographies of Global Change  
GEOG 202-3 Economic Geography of Resources and Sustainability  
GEOG 206-3 ~~Social Geography~~ Society and Space

A minimum of two, maximum of three of:

GEOG 301-3 Cultural Geography  
GEOG 305-3 Political ~~Geography~~ Ecology  
GEOG 306-3 ~~Geography of International Development: People, Places, Policies, and Promises~~  
GEOG 308-3 ~~Introduction to Medical Geography~~ Environments of Health and Care  
GEOG 309-3 ~~Geographies of Migration and Settlement~~

A minimum of one, maximum of two of:

GEOG 401-3 Tenure, Conflict, and Resource Geography  
GEOG 403-3 ~~Aboriginal First Nations and Indigenous~~ Geography  
GEOG 420-3 Environmental Justice  
~~GEOG 422-3 Geography of the World Economy~~  
GEOG 424-3 Social Geography of Northern Communities  
GEOG 426-3 Geographies of Culture, Rights and Power  
GEOG 428-3 ~~Advanced Medical Geography~~ Health Geography in Practice

## **S-201108.21**

### **Changes to Program Requirements — Major in Public Administration and Community Development**

Ryan / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the requirements for the Major in Public Administration and Community Development, on page 134 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **Major in Public Administration and Community Development**

The Public Administration and Community Development major gives students the skills to function within a range of groups, organizations, and offices. The graduate is able to interact with appropriate professionals, receive their input and reports, and collate a wide range of information and material in service of their group/organization/office. Skills in analysis and synthesis are complemented by an ability to work cooperatively and effectively, and an ability to communicate clearly through written, oral, and graphic mediums.

The Public Administration and Community Development major requires completion of 120 credit hours, 48 of which must be at the upper-division level. At the ~~1st first-~~ and ~~2nd second-~~ year level (lower-division level), students must take the 7seven required courses and a minimum of 4one course from each of the 7seven focus categories. At the ~~3rd third-~~ and ~~4th fourth-~~ year level (upper-division level), students must take the 4four required courses and a minimum of 4one course from each of the 7seven focus categories. To complete the 120 credit hours, students must take 45 credit hours of electives, of which 18 credit hours must be at the upper-division level.

It is possible for students to organize their course choices (focus categories and electives) to achieve a 'specialization' of course work. A specialization will require 24 credit hours of courses (~~8eight~~ courses) from one of the specialization lists:

- Specialization in Local Public Administration
- Specialization in Aboriginal Community Development
- Specialization in Planning

~~GEOG 322-3 Economic Geography of Northern BC~~

~~This course builds upon basic concepts in economic geographic through a specific examination of northern British Columbia.~~

~~Prerequisites: Upper division standing~~

**S-201108.25**

**Course Deletion — GEOG 422-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, deletion of the course GEOG 422-3, on page 233 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**GEOG 422-3 Geography of the World Economy**

~~This advanced seminar course surveys theoretical approaches in economic geography related to interpreting economic restructuring within the global economy, especially with regard to uneven development and its environmental impacts. Specific topics covered include world systems theory, dependency theory and the eco-economy approaches, as well as the role of international agreements and trade and partnerships.~~

~~Prerequisites: 60 credit hours and GEOG 202-3, or permission of instructor.~~

**S-201108.26**

**New Course Approval — GEOG 220-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course GEOG 220-3 World Regions: Latin America and the Caribbean be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Struggles for land, labour, and resources are central themes in Latin America and the Caribbean. We examine this diverse region as a landscape of inequality with extremes in poverty and wealth dating from the European invasion. Uneven development across time and space is characterized by growing hunger, narco-trafficking, agro-exports, resource extraction, organized crime, undocumented migration, and environmental degradation, as well as resilience and grassroots mobilization for positive change.

**S-201108.27**

**New Course Approval — GEOG 420-3**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course GEOG 420-3 Geographies of Environmental Justice be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course examines ongoing environmental justice debates over expertise, access, rights, and compensation, in the context of environmental racism and responses to it. We consider connections between space, place, identity, and justice in contaminated environments. We explore scholarship and activism, and learn about Canadian and international case studies related to resource extraction; manufacturing and industrial processes; waste disposal; access to basic services; trade; and tourism.

**Revision to Criteria for the Honours Policy for CSAM Programs**

Deo / Carriere

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the following revised criteria for the Honours Policy for CSAM Programs wishing to offer an Honours degree designation be approved as proposed.

Effective date: January 2012

CARRIED.

Motions S-201108.30 to S-201108.32 were dealt with as an omnibus motion.

**S-201108.30**

**New Honours Program Approval — BSc Honours - Biology**

Ryan / Carriere

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new BSc Honours—Biology be approved as proposed.

Proposed start date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **BSc Honours - Biology**

The Honours in Biology offers students a higher level of education and substantial research experience for proceeding to postgraduate studies.

To be admitted to the Honours degree program, students must have completed 60 credit hours and obtained a minimum Cumulative GPA of 3.33. Attaining the minimum requirement will not guarantee admission into the Honours program, which will be at the discretion of the Ecosystem Science and Management Program. Maintenance of a Cumulative GPA of 3.33 is required to remain in the Honours program.

Honours students are required to complete the degree requirements for the BSc in Biology. In addition, each student must also complete an additional 6 credit hours in the form of an undergraduate thesis chosen from NRES 430-6, ENSC 430-6, or BCMB 430-6 under the supervision of a faculty member.

**Note:** Students are responsible to find their own undergraduate thesis research supervisor. Faculty members are under no obligation to supervise honours students.

### **S-201108.31**

#### **New Honours Program Approval — BA Honours - Nature-Based Tourism Management**

Ryan / Carriere

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new BA Honours—Nature-based Tourism Management be approved as proposed.

Proposed start date: January 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **BA Honours - Nature-Based Tourism Management**

The Honours in Nature-Based Tourism Management offers students a higher level of education and substantial research experience for proceeding to postgraduate studies.

To be admitted to the Honours degree program, students must have completed 60 credit hours and obtained a minimum Cumulative GPA of 3.33. Attaining the minimum requirement will not guarantee admission into the Honours program, which will be at the discretion of the Outdoor Recreation and Tourism Management Program. Maintenance of a Cumulative GPA of 3.33 is required to remain in the Honours program.

Honours students are required to complete the degree requirements for the BA in Nature-Based Tourism Management. In addition, each student must also complete an additional 6 credit hours in the form of an undergraduate thesis (NRES 430-6) under the supervision of a faculty member.

**Note:** Students are responsible to find their own undergraduate thesis research supervisor. Faculty members are under no obligation to supervise honours students.

### **S-201108.32**

#### **New Honours Program Approval — BSc Honours - Natural Resource Management (Outdoor Recreation and Conservation)**

Ryan / Carriere

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new BSc Honours—Natural Resource Management (Outdoor Recreation and Conservation) be approved as proposed.

Proposed start date: January 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **BSc Honours - NRM (Outdoor Recreation and Conservation)**

The Honours in Natural Resource Management (Outdoor Recreation and Conservation) offers students a higher level of education and substantial research experience for proceeding to postgraduate studies.

To be admitted to the Honours degree program, students must have completed 60 credit hours and obtained a minimum Cumulative GPA of 3.33. Attaining the minimum requirement will not guarantee admission into the Honours program, which will be at the discretion of the Outdoor Recreation and Tourism Management Program. Maintenance of a Cumulative GPA of 3.33 is required to remain in the Honours program.

Honours students are required to complete the degree requirements for the BSc in NRM (Outdoor Recreation and Conservation). In addition, each student must also complete an additional 6 credit hours in the form of an undergraduate thesis (NRES 430-6) under the supervision of a faculty member.

**Note:** Students are responsible to find their own undergraduate thesis research supervisor. Faculty members are under no obligation to supervise honours students.

### **S-201108.33**

#### **New Course Approval — CHEM 430-6**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course CHEM 430-6 Undergraduate Thesis be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

In this course students pursue an independent research project under the direct supervision of a faculty member. Students are expected to design and implement a research methodology, analyze data, and present findings in thesis format. The final grade in this course is based in part on a written research proposal, a written thesis, a public presentation of research results, and the evaluation of the thesis by a second reader. The thesis is normally completed over the September and January semesters.

**Prerequisites:** Acceptance into Honours in Chemistry, completion of at least 90 credit hours of study including all lower-division degree requirements, and permission of an Academic Supervisor and the Program Chair.

Motions S-201108.34 and S-201108.35 were dealt with as an omnibus motion.

### **S-201108.34**

#### **New Honours Program Approval — BSc Honours - Chemistry**

Ryan / Carriere

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new BSc Honours—Chemistry be approved as proposed.

Proposed start date: January 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Honours in Chemistry**

The BSc Honours in Chemistry offers students a higher level of education and research experience. It is particularly suitable for students intending to proceed to postgraduate studies.

Admission to the Honours program takes place after the completion of 60 credit hours and requires a minimum Cumulative GPA of 3.33. Attaining the minimum requirement does not guarantee admission to the Honours program which is at the discretion of the Chemistry Program and contingent upon the

availability of a faculty member to supervise the undergraduate thesis. To remain in the Honours program, students must maintain a minimum Cumulative GPA of 3.33. All Honours students must complete an undergraduate thesis under the direct supervision of a faculty member.

Students are required to complete 134 credit hours, six of which are the undergraduate thesis, and to satisfy the requirements of the major in Chemistry.

#### **S-201108.35**

#### **New Honours Program Approval — BSc Honours - Biochemistry and Molecular Biology**

Ryan / Carriere

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new BSc Honours—Biochemistry and Molecular Biology be approved as proposed.

Proposed start date: January 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The BSc Honours - Biochemistry and Molecular Biology provides a higher level of specialization and research experience, especially for students planning to pursue postgraduate work.

Honours students are required to complete the degree requirements for the BSc - Biochemistry and Molecular Biology Major. In addition to the total number of credit hours required for the Biochemistry and Molecular Biology Major, each student must complete 6 credit hours of undergraduate thesis course work, normally of BCMB 430-6, under the supervision of a faculty member. Another undergraduate thesis course can be substituted with approval of the BCMB Curriculum Chair.

The Honours program is available after completing 60 credit hours in the Biochemistry and Molecular Biology Major and attaining a Cumulative GPA of not less than 3.33. Attaining the minimum requirement will not guarantee admission to the Honours program, which will be at the discretion of the Program and contingent on the availability of a faculty member willing to supervise the research thesis. Maintenance of a Cumulative GPA of 3.33 is required to remain in the Honours program.

The minimum requirement for completion of a BSc Honours - Biochemistry and Molecular Biology is 135 credit hours.

#### **“For Information” Items:**

#### **SCAPP201108.07**

#### **Changes to Course Title and Description — ENGL 104-3**

That the change(s) to the course title and description for ENGL 104-3 Introduction to Drama and/or Film, on page 213 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

ENGL 104-3 Introduction to ~~Drama and/or~~ Film

This course provides an introduction to the study of ~~drama and/or~~ film through a detailed examination of a range of ~~dramatic texts and~~ film techniques. ~~More emphasis may be placed on either genre by an individual instructor.~~

*Prerequisites:* None

**SCAPP201108.08**

**SCAPP201107.17**

**Changes to Course Prerequisite — POLS 320-3**

That the prerequisite for POLS 320-3 Canadian Politics and Policy on page 262 of the 2010/2011 undergraduate calendar be deleted as proposed.

Effective Date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

POLS 320-3 Canadian Politics and Policy.

This course provides an introduction to the concepts, goals and methods of policy analysis, with applications to current policy issues in Canada, British Columbia and the North. Topics include public opinion surveys and the statistical analysis of policy preferences.

Prerequisites: ECON 205-3 or MATH 240-3 upper-division standing or permission of the instructor

#### **SCAPP201107.18**

##### **Changes to Course Title, Description, Prerequisite, and Preclusions — POLS 370-3**

That the course title, description, prerequisite, and preclusions for POLS 370-3 Political Philosophy: Locke to Marx on page 261 of the 2010/2011 undergraduate calendar be revised as proposed.

Effective Date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

POLS 370-Political Philosophy: ~~Locke to Marx~~ Early Modernity to Post-Modernity

~~A survey of political philosophy from the 17th to the late 19th century, tracing the development of contending Anglo-American and Continental European traditions of thought.~~

Prerequisites: POLS 204-3, POLS 270-3, or ECON 202-3 or permission of the instructor

Precluded: POLS 300-3

This course traces the history of western political thought, in the wider context of the history of philosophy, from early modernity to the early twentieth century. Thinkers discussed may include Aquinas, Ockham, Descartes, Hobbes, Locke, Hume, Kant, Schopenhauer, Rousseau, Fichte, Hegel, Marx, Nietzsche and Heidegger.

Prerequisites: POLS 270 or permission of the instructor

Precluded: PHIL 305

#### **SCAPP201107.19**

##### **Changes to Course Description — POLS 414-3**

That the revised course description for POLS 414-3 Comparative Federalism on page 261 of the 2010/2011 undergraduate calendar be approved as proposed.

Effective Date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

POLS 414-3 Comparative Federalism

~~A comparative examination of the theories, development, and problems of federalism in countries such as Russian, Canada, Germany, United States, Australia and Switzerland.~~

This seminar course examines the theories, concepts and issues that influence politics and policy-making in federal countries around the world.

Prerequisites: restricted to fourth year students 90 credit hours or by permission of the instructor

#### **SCAPP201107.20**

##### **Changes to Course Description — POLS 415-3**

That the revised course description for POLS 415-3 Comparative Northern Development on page 261 of the 2010/2011 undergraduate calendar be approved as proposed.

Effective Date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

POLS 415-3 Comparative Northern Development

~~An examination of the strategies and challenges of northern development, including political administration, resource development, the environment and indigenous peoples in Russian, Scandinavia, Alaska and Canada.~~

This seminar course examines the strategies and challenges of northern development in Canada, Russia and other parts of the Arctic region.

~~Prerequisites: restricted to fourth year students~~ 90 credit hours or by permission of the instructor

**SCAPP201107.21**

**Changes to Maximum Course Credit, Course Description, and Prerequisites — POLS 498-3**

That the maximum course credit, course description, and prerequisites for POLS 498-3 Special Topics in Political Science on page 262 of the 2010/2011 undergraduate calendar be revised as proposed.

Effective Date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

POLS 498-3 Special Topics in Political Science

~~Content of course will vary~~ The content of this course varies according to instructor and student requests. This course may be repeated up to a maximum of 6 credit hours with permission from the Department Chair.

~~Prerequisites: restricted to fourth year students~~ 90 credit hours and by permission of the Department Program Chair.

**SCAPP201108.23**

**Changes to Course Title and Description — GEOG 101-3**

That the changes to the course title and description for GEOG 101-3, on page 230 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

GEOG 101-3 Human-Geography Geographies of Global Change

~~This course provides an introduction to the major traditions, themes and theories of human geography. Emphasis is placed on the concepts and methods used to understand the human environment at a range of geographic scales.~~

This course examines global issues of development and change from a human geographic perspective. Students focus especially on the interconnectedness of places in the world and the range of local responses to widespread change processes.

~~Prerequisites: None~~

~~Precluded: GEOG 201-3~~

**SCAPP201108.24**

**Change to Course Title — GEOG 200-3**

That the change to the course title for GEOG 200-3 on page 230 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

GEOG 200-3 ~~Geography of BC~~ British Columbia: People and places

This course provides an introduction to the biophysical and human landscapes of British Columbia with a special emphasis on the relationship of Northern BC to the rest of the province. The course takes a regional approach to understanding the links between the physical geography of the province and its settlement patterns, resource use and economic development.

*Prerequisites:* ~~None~~

**SCAPP201108.25**

**Changes to Course Title and Description — GEOG 202-3**

That the changes to the course title and description for GEOG 202-3, on page 231 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

GEOG 202-3 ~~Economic Geography~~ Economic Geography of Resources and Sustainability

~~The central focus of this course is the spatial organization of economic activity with particular attention to understanding spatial patterns in the context of the global economy. The course will also provide a survey of the theories and methods which inform contemporary economic geography.~~

British Columbia is a resource exporting economy that competes in the global marketplace. With a focus on both renewable and non-renewable resources, this course examines economic, community, and environmental issues that support and/or limit sustainable development. Topics include energy, minerals, food, water, natural and cultural amenities, and ecosystem products and services.

*Prerequisites:* ~~None~~

**SCAPP201108.26**

**Changes to Course Title and Description — GEOG 203-3**

That the changes to the course title and description for GEOG 203-3, on page 231 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## GEOG 203-3 Geography of Canada ~~Roots, Ruggedness, and Rituals: A Geography of Canada~~

~~A regional approach is used to examine the economic, cultural and environmental factors shaping relationships between people and places in Canada. A central concern is with the geographic patterns of regional development and change.~~

Regionally and nationally, this course examines Canada, its peoples, and our diverse environments. Students consider Aboriginal/non-Aboriginal/Métis identity, Canadian culture, national fault lines, symbols, icons, and trends, focusing on shared patterns and divergent distinctions in Canadian development, change, and future possibilities.

*Prerequisites:* ~~n~~None

### **SCAPP201108.27**

#### **Changes to Course Title, Description, and Prerequisites — GEOG 206-3**

That the changes to the course title, description, and prerequisites for GEOG 206-3, on page 231 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **GEOG 206-3 ~~Social Geography~~ Society and Space**

~~The course will survey the theoretical and methodological frameworks in contemporary social geography. Emphasis will be given to examining patterns of change in society by exploring the everyday experience of social groups defined on the basis of social class, ethnicity and "race", household and family status, gender, and community.~~

Social relations, social identities, and social inequalities are open to geographical exploration. These relations are negotiated and contested in different spaces at different times. This course critically examines the ways in which social relations, identities, and inequalities are produced, their spatial variation, and the role of space in constructing them. Geographic dimensions of various facets of identity (such as gender, ethnicity, "race," class, sexuality, and ability) and the theoretical frameworks that geographers use to analyze them are central.

*Prerequisites:* GEOG 100-3 or 101-3, or permission of instructor.

*Prerequisites:* None

*Precluded:* GEOG 304-3

### **SCAPP201108.28**

#### **Changes to Course Description and Prerequisites — GEOG 301-3**

That the changes to the course description and prerequisites for GEOG 301-3, on page 231 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **GEOG 301-3 Cultural Geography**

~~This course examines how human organization of space differs across cultures. Cultural landscapes, patterns and processes of culture change and interactions, and the control of~~

~~space and creation of place, will be central course themes. This course is a writing intensive course.~~

Cultural products, such as music, cuisine, language, and religion, have spatial expressions. Through cultural norms, products and activities, we create places and construct landscapes. This course examines the influence of power relations, cultural imperialism, globalization, and cultural resistances on the human organization of space and on how people engage with place. This is a writing-intensive course, emphasizing improvement of upper-division level written communication through iterative editing.

~~*Prerequisites:* GEOG 100-3 or 101-3 or 206-3 or permission of instructor.~~

*Prerequisites:* 60 credit hours and at least one lower-division GEOG course, or permission of instructor

### **SCAPP201108.29**

#### **Changes to Course Number, Title, Description, and Prerequisites — GEOG 302-3**

That the changes to the course number, title, description, and prerequisites for GEOG 302-3, on page 231 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### ~~GEOG 302-3~~ 222-3 ~~Geography of Russia~~ World Regions: Russia

~~This course explores the interaction of the physical and human landscapes of Russia, emphasizing changing spatial relations in the post-Soviet period, nationality issues, and the environment.~~

This course explores the interaction of physical and human landscapes of Russia. Special attention is paid to nationality issues, energy and other resource developments, the changing state of environmental management, and Russia's shifting geopolitical role in the world.

~~*Prerequisites:* 30 credit hours, GEOG 100-3 or GEOG 101-3, or permission of the instructor.~~

*Prerequisites:* None

### **SCAPP201108.30**

#### **Changes to Course Title, Description, and Prerequisites — GEOG 305-3**

That the changes to the course title, description, and prerequisites for GEOG 305-3, on page 231 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### ~~GEOG 305-3~~ Political Geography Political Ecology

~~This course provides an introduction to the field of political geography by examining the interaction between politics and space at a variety of scales. In order to explore these interactions, special emphasis is placed on the relationships between political decision making and geographical location.~~

Using examples from "the local to the global," this course examines the geopolitics and power relations of environmental resource use, knowledge production, policy, and decision-making. It focuses on access, power, and ownership with respect to environment, environmental

discourses, and resources, using geography as a lens for understanding political ecology, and political ecology as a lens for examining environmental relationships.

~~Prerequisites: GEOG 100-3 or GEOG 101-3 and 60 credit hours.~~

Prerequisites: 60 credit hours or permission of the instructor

### **SCAPP201108.31**

#### **Changes to Course Title, Description, and Prerequisites — GEOG 306-3**

That the changes to the course title, description, and prerequisites for GEOG 306-3, on page 231 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **GEOG 306-3 Geography of International Development: Places, People, Policies, and Promises**

~~This course examines themes, concepts, theories, and trends which define the study of international development from a geographical perspective. Students will gain an understanding of the historical and contemporary challenges of global inequality, debt, foreign aid, disasters, displacement, and development assistance. Case studies from around the world are used to provide context-specific, gender-differentiated information about international development problems and promise.~~

Using examples from “the local to the global,” this course investigates development theory and practice, including key theories, concepts, and trends. We use international case studies to understand global inequality, debt, foreign aid, disasters, displacement, development-related health issues, gender considerations, and differential access to services and assistance. The course examines persistent problems and seeks examples of progress, promise, and hope.

~~Prerequisites: GEOG 100-3 or GEOG 101-3 or GEOG 206-3, or permission of the instructor.~~

Prerequisites: 60 credit hours or permission of the instructor

### **SCAPP201108.32**

#### **Changes to Course Title, Description, and Prerequisites — GEOG 308-3**

That the changes to the course title, description, and prerequisites for GEOG 308-3, on page 232 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

**CHEM 310-3 Analytical Chemistry II** This is a laboratory course (two hours of lecture and three hours of laboratory per week) designed as a sequel to CHEM 210-3. ~~Topics include separation techniques (column chromatography, TLC, HPLC, GC),~~ Topics include functional group identification in organic and inorganic molecules (IR spectroscopy), mass spectrometry and NMR spectroscopy. An emphasis is placed on the ~~isolation and~~ structural elucidation of molecules.

Prerequisites: CHEM 203-3, and CHEM 210-3

## 8.2 Senate Committee on Research and Graduate Studies

Fondahl / Hartley

### “For Approval” Items:

#### **S-201108.36**

##### **New Course Approval — ENGL 685-3**

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course ENGL 685-3 Advanced Studies in Modern and Contemporary Literature in the United States be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### ENGL 685-3 Advanced Studies in Modern and Contemporary Literature in the United States

This advanced course in American writing since 1900 emphasizes American cultural contexts. The course may focus on a specific author or specific authors, on a particular genre, theme or region, or on ethnic and minority literature.

#### **S-201108.37**

##### **Changes in the Designation of Economics, First Nations Studies, International Studies, and Political Science Programs to “Department”**

Ryan / Kitchenham

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes in designation of the:

- Economics Program to Department of Economics on page 77,
- First Nations Studies Program to Department of First Nations Studies on page 72,
- International Studies Program to Department of International Studies on page 77,
- Political Science Program to Department of Political Science on page 90

of the 2010/11 graduate calendar be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

p. 72:

Internships allow the students to gain first-hand experience with communities. A student with experience equivalent to an internship may request that the internship requirement be waived by the ~~Program~~ Chair, and substitute an additional elective course. Normally, internships are arranged on an individual basis. The student, in consultation with a host community or organization, must write a proposal. Decisions on the appropriateness of the internship are made by the Department of First Nations Studies program, based on the merits of the

proposal, the nature of the experiential component, and the value of the internship to the host and to the student. In particular, the proposal must indicate the student is under the supervision of the community, in order for the student to acquire direct training in community dynamics. Students are expected to keep a record of the internship, and write a report for the Department of First Nations Studies program that places the experiential component of the internship into the context of the student's academic training. The host also provides the Department of First Nations Studies program with an independent evaluation of the internship and of the student's performance. A student may be permitted to substitute a second internship for the open elective course.

p. 77:

International Studies (MA Program)

Graduate supervisors are normally drawn from the ~~membership of the~~ Departments of Economics and International Studies programs.

p. 77:

UNBC's innovative and interdisciplinary Master's degree in International Studies has three main streams: regional relations, international development, and global environmental policy. Students may pursue other subject areas provided the requisite faculty expertise can be identified. This program is managed jointly by the Departments of International Studies and Economics programs, with co-operation from faculty in Political Science, History, Geography, and Environmental Studies.

p. 77:

International language training (in languages other than English and French), internship, co-op, and study abroad experiences can be incorporated into the program. Recognizing the importance of language and culture, the Department of International Studies program currently offers undergraduate courses in introductory and intermediate Japanese, Russian, and Mandarin, and these are open to graduate students.

p. 90:

Successful ~~applications~~ applicants to the program will hold a four-year baccalaureate in Political Science, and will have obtained a GPA of at least 3.0. UNBC and the Department of Political Science program are committed to interdisciplinary co-operation, so students without undergraduate majors in Political Science may be admitted with special provisions made regarding course work and thesis research programs.

### **S-201108.38**

#### **Course Deletion — GEOG 622-3**

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the deletion of the course GEOG 622-3, on page 116 of the 2010/2011 graduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### ~~GEOG 622-3 Geography of the World Economy~~

~~This advanced seminar course surveys theoretical approaches in economic geography related to interpreting economic restructuring within the global economy, especially with regard to uneven development and its environmental impacts. Specific topics covered include world-systems theory, dependency theory and the eco-economy approaches, as well as the role of international agreements and trade and partnerships.~~

~~*Prerequisites: permission of instructor.*~~

~~Precluded: GEOG 422-3~~

**S-201108.39**

**New Course Approval — GEOG 620-3**

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course GEOG 620-3 Geographies of Environmental Justice be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course examines ongoing environmental justice debates over expertise, access, rights, and compensation, in the context of environmental racism and responses to it. We consider connections between space, place, identity, and justice in contaminated environments. We explore scholarship and activism, and learn about Canadian and international case studies related to resource extraction; manufacturing and industrial processes; waste disposal; access to basic services; trade; and tourism.

**Prerequisites:** Permission of instructor

**Preclusions:** GEOG 420-3

**8.3 Steering Committee of Senate**

**Iwama**

**“For Approval” Items:**

**S-201108.40**

**Revisions to Senate Handbook — Committee Membership**

Deo / Kitchenham

That, on the recommendation of the Steering Committee of Senate, the Senate Handbook Committee membership lists be revised to reflect the removal of the position of Dean of Student Success and Enrolment Management and the addition of the position of Assistant Provost.

Effective date: Immediately upon approval by Senate

A Senator asked when the position of Dean of Student Success and Enrolment Management ceased to exist. At the request of the President, Ms. Russell responded that she believed it was when the Assistant Provost began in her position, which was January 2011. Dr. Iwama indicated that he would confirm this information and report back to Senate.

<b>Action:</b> Dr. Iwama to confirm when the position of the Dean of Student Success and Enrolment Management ceased to exist and report back to Senate.
--

CARRIED.

**8.4 Senate Committee on Nominations**

**Kitchenham**

**S-201108.41**

**Membership Changes to Senate Committees (no material)**

Deo / Pacaide

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate committees as indicated, be appointed as proposed.

Effective date: Immediately upon approval by Senate

**SENATE OR SENATE COMMITTEE POSITION TO BE FILLED**  
*(except as otherwise noted, all terms begin immediately)*

**CANDIDATE**

**Senate Committee on Academic Policy and Planning**

Regional Faculty Member

(replacing Susan Johnson, until March 31, 2014)

Blanca Schorcht

**Senate Committee on Scholarships and Bursaries**

Faculty Senator — CSAM (until March 31, 2014)

Jianbing Li

**Senate Committee on the University Budget**

Graduate Student (until March 31, 2012)

Joanna Paterson

As there were no further nominations from the floor of Senate, all candidates were appointed as proposed.

**9.0 Other Business**

**9.1 Report of the Registrar**

**Hanschen**

The Registrar had nothing to report.

**10.0 Information**

There were no items for information.

**11.0 S-201108.42**

**Adjournment**

Carriere / Deo

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 4:30 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

September 28, 2011  
3:30 – 5:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

M. Archie, G. Ashoughian, S. Beeler, C. Carriere, D. Casperson, C. Chasteauneuf, L. Chen, M. Dale (Acting Chair), A. Dayanandan, B. Deo, J. Edwards, M. Green, S. Green, C. Greening, K. Guest, M. Hadland, L. Handfield, T. Hanschen (Secretary of Senate), W. Haque, I. Hartley, K. Hutchings (Vice Chair), E. Jensen, G. Johnson, A. Kitchenham, R. Lazenby, J. Li, J. MacDonald, D. Macknak, S. McKenzie, B. Murray, C. Myers (Recording), A. Nitu, D. Nyce, C. O'Callaghan, C. Pacaide, D. Ryan, S. Wagner, E. Wale, J. Young

**Regrets:**

E. Annis, R. Brouwer, G. Fondahl, G. Iwama (Chair), D. Leighton-Stephens, R. Robinson, P. Sanborn, J. Van Barneveld

---

The meeting commenced at 3:35 p.m. Mr. Hanschen announced that, in the absence of the Chair and Vice Chair of Senate, Dr. Dale had been appointed the Acting Chair for this meeting of Senate.

- 1.0**      **S-201109.01**  
**Approval of the Agenda**  
Kitchenham / Chasteauneuf  
That the agenda for the September 28, 2011 Public Session of Senate be approved as presented.  
CARRIED.
- 2.0**      **S-201109.02**  
**Approval of Senate Minutes**  
Young / S. Green  
That the minutes of the August 24, 2011 Public Session of Senate be approved as presented.  
CARRIED.

- In the absence of Dr. Iwama, Dr. Dale reported that this information was provided to Senators in their meeting packages.
- 3.2**      MBA courses at Prince George campus      **Dale**
- Dr. Dale reported that this matter was still under discussion and that he would report to Senate in the near future.
-

#### 4.0 President's Report

Iwama

As the President was absent, there was no report.

#### 5.0 Report of the Provost

Dale

##### 5.1 Report on Bachelor of Fine Arts

Dr. Dale reported that the review of the Bachelor of Fine Arts program was still in progress, and that the committee would report to Senate as soon as their report was complete. There are a number of models that could be used, and the committee is still working out details in this regard.

##### 5.2 Thoughts on New Programs

Dr. Dale provided a presentation (attached to these minutes as "Appendix I") summarizing program development at UNBC. He first discussed undergraduate programs, namely the Engineering (B App Sci): Civil and Mechanical, Fine Arts, Legal Studies / LLB, Occupational Therapy / Speech Pathology, and Kinesiology. Dr. Dale noted that the Engineering programs had been approved in principle, and that different models had been discussed. With regard to the Fine Arts, Dr. Dale stated that the current BFA model is not successful, and there is a committee looking at alternatives which will report to Senate in the near future. He added that it was possible that the partnership with Emily Carr University would be retained with a revised agreement between the two institutions. A report from the committee reviewing the BFA will be coming to Senate in the near future. Dr. Dale spoke about the potential for a Legal Studies or LLB program, which would focus on training individuals for legal work relevant to northern BC, such as First Nations issues. UNBC already has some courses that would contribute to such a degree, and Dr. Dale knew of only one other similar program in Canada, which is at Carleton University. There have been discussions regarding Occupational Therapy and Speech Pathology, which Dr. Dale indicated should have been included in the list of graduate, rather than undergraduate, programs. Occupational Therapy has yet to transpire, and although there is a great need for Speech Pathology, it will take money to start a program like this. Kinesiology is a program that would provide a natural lead-in to Physical Therapy, and there may be potential from the 2015 Canada Winter Games to receive legacy funding for such a program.

Regarding graduate programs, Dr. Dale discussed Master's programs (Physical Therapy, M.Engg., MBA, Resource Management, and Collaborative Research) and PhD programs (Education, Business, and broad categories such as Community Studies). With regard to Physical Therapy, Dr. Dale reported that a joint program with UBC has already been approved, with designated seats for northern and rural students. Speaking about the M.Engg. degree, Dr. Dale noted that this degree is different from an MSc, as it is a course-work degree designed for people already having engineering credentials. This program could focus on the initiatives that UNBC is already undertaking, such as energy and wood, for instance, and build on the undergraduate program. A graduate Engineering program would be less expensive than an undergraduate program as there would be no requirement for laboratories. With regard to the MBA, the focus is on creating specialties or providing a broader reach, and partnerships with some other institutions have been discussed for potential expansion. Regarding Resource Management, Dr. Dale stated that, although this program would fit with UNBC's mandate, it would be expensive to mount. Collaborative research is being used as a pilot program in the US at the doctoral level, whereby doctoral students contribute to a joint report instead of writing a thesis. This type of program fits with the culture of interdisciplinarity at UNBC, but would work better at the Master's level here. One benefit of the program would be that it would encourage collaboration, both between students and faculty members.

With regard to PhD programs, Dr. Dale noted that the UNBC Schools of Education and Business had both been contemplating starting doctoral degrees, with partnerships being considered. With regard to degrees incorporating broad categories, such as Community Studies, Dr. Dale noted that UNBC has done much work that is cross-disciplinary in nature, and broad categories could be used to match some of UNBC's established research focuses.

After outlining the potential programs and their status, Dr. Dale stated that there is a difference between receiving funding from the Ministry to launch these programs and having to do so from existing

budgets, which would require reallocations. As a result, he emphasized the following programs as his “best bets” given the current funding situation:

- a) Some form of Engineering, although it still requires funding from the Ministry.
- b) Physical Therapy — the clinical component is approved already, but expansion will require additional funding.
- c) Legal Studies (BA) — some courses contributing to this degree already exist at UNBC, and this program could attract students with a variety of career goals, as there is no similar program in western Canada.
- d) Fine Arts (BA) — several models are currently being examined, and the committee reviewing the options regarding a fine arts degree will be reporting to Senate in the near future.
- e) Collaborative Research Masters — Dr. Dale indicated that this program was interesting to consider, and that he and Dr. Fondahl would be leading a discussion in this regard at Senate in the near future.
- f) PhD in Community Studies — Dr. Dale stated that he liked the idea of this type of program, particularly the fact that it is broad and could therefore involve many academic units.

At the conclusion of his presentation, Dr. Dale invited comments and questions. A Senator asked what criteria Dr. Dale had used in determining his “best bets,” and Dr. Dale responded that he had focused on programs that UNBC already has the capacity to deliver without a great deal of additional funding. He also indicated that this list was not intended to rule out any of the other potential programs.

A member of the gallery requested permission to speak and then indicated that she would like to see a Master of Public Administration taken into consideration given that UNBC currently has an undergraduate component in this regard. Dr. Dale replied that he would consider this suggestion.

## 6.0 Question Period

A Senator asked about the outcomes from the last budget, namely the amount of the end-of-year surplus and one-time funding provided. He stated that Senate had not been apprised of the year-end surplus amount and the items that were funded, although this information had been promised during the budget presentation in March. Another Senator indicated that he would like to see the information broken down into amounts allocated per academic unit. A Senator responded that some information had been circulated, but it was subsequently determined that the report had not been circulated to Senate. Dr. Dale indicated that this information should have been circulated to Senate, and offered to convey the request for the information, to be set out by academic unit and provided to Senate.

**Action:** Dr. Dale to request budget information outlining the year-end surplus amount and one-time allocations broken down by unit.

The status of filling the position of Manager of Continuing Studies was questioned, and Dr. Dale responded that the search was in progress.

Fall semester enrolment numbers were requested, as was a report outlining this information, which the Senator making the request indicated had been provided to Senate as a matter of course in previous years. Dr. Dale replied that applications, admissions and headcount had all increased, but FTE remained flat. He added that Senators were welcome to receive a copy of the report that was circulated containing the numbers from September 22, and that although it had not been expected that initiatives to increase enrolment would produce results this quickly, it was a positive sign that applications and such have increased.

**Action:** Dr. Dale to provide the enrolment report from September 22 to Senators.

A Senator asked about the cost to the University for funding UNBC's entry into Canadian Interuniversity Sport (CIS), particularly how this would be funded and whether it would be taking away funding from the academic budget. Dr. Dale asked Ms. Smalcel Pederson to respond, and she indicated that the University has committed to having two fulltime soccer coaches, which was a criterion for acceptance into the CIS. Since Canada West has expanded recently, Ms. Smalcel Pederson added that she was not yet aware of the costs because it has not been confirmed where UNBC sports teams will need to travel. She noted that UNBC sports are funded from several sources, including donor funds. The Senator expressed concern that seeking donor funds for sports may detract from potential academic donor funds, and Ms. Smalcel Pederson replied that donors are generally quite targeted with their funding so those who contribute to sports would likely not have contributed to academics. Additionally, she opined that UNBC's inclusion into CIS has heightened the University's profile and will attract new students.

A Senator expressed concern that a display on campus celebrating Teaching Award winners no longer existed. Dr. Dale asked Dr. Owen to respond, and Dr. Owen replied that at least year's Teaching and Learning Conference a plaque containing the names of all Teaching Award winners was unveiled in a public space in the UNBC Library.

A member of the gallery stated that, when the MyTravel contract was funded, she believed there was some funding provided for flights for UNBC's sports teams, and asked whether that funding was still available. Ms. Smalcel Pederson responded that she thought it was, and Dr. Dale indicated that this would be determined and reported to Senate.

<b>Action:</b> Dr. Dale to find out about funding for sports team flights and provide the information to Senators.
--

**7.0**      **S-201109.03**  
**Approval of Motions on the Consent Agenda**

Kitchenham / Ryan

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

**8.0**      **Committee Reports**

**8.1**      **Senate Committee on Academic Policy and Planning**

**Dale**

**"For Approval" Items:**

**S-201109.04**  
**Revision to Academic Regulation 49b — Requirement to Withdraw**

Jensen / Ryan

That the Senate Committee on Academic Policy and Planning recommend to Senate that the change to the Requirement to Withdraw Section 49b, on page 61 and 62 of the 2011/2012 undergraduate calendar, be approved as proposed.

Proposed start date: January 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~No a~~Academic credit earned at any another post-secondary institution during the requirement to withdraw period of ~~a requirement to withdraw~~ will be considered for transfer to UNBC-, providing:

- i. Courses meet the University's policy on transfer credit
- ii. Courses do not duplicate successful or unsuccessful course work previously completed at UNBC

It is recommended that students who are required to withdraw, and plan to return to UNBC at a later date, meet with a Student Advisor to discuss their academic standing and course plan prior to enrolling in courses at another post-secondary institution.

**S-201109.05**

**Approval of Agreement of Cooperation Between the Equipo Peruano de Antropologia Forense (Peru) and the University of Northern BC**

Casperson / Lazenby

That the Senate Committee on Academic Policy and Planning recommend to Senate that the agreement of Cooperation between the Equipo Peruano de Antropologia Forense (Peru) and the University of Northern BC be approved as proposed.

Effective date: September 2011

A Senator asked how many of these types of agreements were in place and how they were monitored. Ms. Russell responded that there was one other agreement similar to this one and that she works with faculty members who are involved and ensures that the field schools are running successfully. The Senator stated that, with agreements that are being renewed, Senators receive further details outlining the number of participants and activities that fall under the agreement. Ms. Russell replied that she was required to provide these details to Senate when agreements are presented for renewal, and that a report on the number of agreements currently active could be provided to Senate if required.

CARRIED.

**“For Information” Items:**

**SCAPP201109.05**

**Approval of 2011 Annual Report**

Kitchenham / Ryan

That the 2011 Annual Report (September 1, 2010 to August 31, 2011) from the Senate Committee on Academic Policy and Planning be approved by the Committee and forwarded to Senate for information.

Effective date: September 7, 2011

CARRIED (consent agenda).

**8.2 Senate Committee on Research and Graduate Studies**

**Fondahl / Hartley**

In the absence of Senators Fondahl and Hartley, the report from this committee was presented by Dean Ryan.

**“For Approval” Items:**

Motions S-201109.06 and S-201109.07 were dealt with as an omnibus motion.

**S-201109.06**

**Change to “Graduate Programs Admissions and Regulations” — Addition of Section 1.10 (Admission as a Visiting Research Student)**

Deo / Murray

That the Senate Committee on Research and Graduate Studies recommend to Senate that the addition of Section 1.10 to the “Graduate Programs Admissions and Regulations,” on page 37 of the 2011/2012 graduate calendar, be approved as proposed.

Effective date: January 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**1.10 Admission as a Visiting Research Student**

Admission to this category is restricted to graduate students covered by the Canadian Graduate Student Research Mobility Agreement or other approved research agreements. A Visiting Research Student must register in the course GRAD 950-0 Visiting Research Student for each semester covered

by the Agreement. Visiting Research Students are not permitted to take other courses at UNBC.

#### **1.10 1.11 Misrepresentation of Application Information**

Misrepresentation of application information constitutes fraud or misconduct and may result in acceptance and registration being cancelled. The applicant may also be disqualified from consideration, not only in the year of application, but in all subsequent years. If discovered in a subsequent semester ~~it~~ such representation may result in expulsion from the university.

#### **S-201109.07**

##### **New Course Approval — GRAD 950-0**

Deo / Murray

That the Senate Committee on Research and Graduate Studies recommend to Senate that the new course GRAD 950-0 Visiting Research Student be approved as proposed.

Proposed semester of first offering: January 2012

Dean Ryan explained that there was a typographical error on this motion form, and that the “X” contained next to “Yes” in Section C (“Relation to Other Program Areas” — “Has this overlap been discussed with the Program concerned?”) of the form was incorrect and should be removed.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

All Visiting Research Students who are at UNBC under the Canadian Graduate Student Research Mobility Agreement or other approved graduate student research agreements must register in this course. This course may be repeated. Current UNBC graduate students are not eligible to register for this course.

#### **S-201109.08**

##### **Changes to “Graduate Programs Admissions and Regulations” — Regulations 4.6 and 7.11 (Degree Completion and Graduation)**

Kitchenham / Deo

That the Senate Committee on Research and Graduate Studies recommend to Senate that the changes to the 4.6 Degree Completion and Graduation regulation on page 45 and the changes to the 7.11 Degree Completion and Graduation regulation on page 49 of the 2010/2011 graduate calendar be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **4.6 Degree Completion and Graduation**

**4.6.1** The University Senate grants degrees in May each year. Each candidate for a degree must complete an Application for Graduation form and must pay the graduation fee (see Fees Section). Application for Graduation forms are available in the Office of the Registrar or from the website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

**4.6.2** The deadline for completing all requirements for the degree is the final business day in April for Spring graduation.

**4.6.3** Students can be considered for the awarding of a degree only when all of the following requirements have been satisfied:

a. Completion of the program of study and meeting the grade point average requirements for the degree.

**b.** ~~For Master's candidates, s~~Submission of ~~two~~ three final copies of the thesis, or ~~two final copies of the project, or practicum report.~~ Regulations governing proper submission are set out in the *Formatting Guidelines For Graduate Dissertations, Theses, Projects & Practicum Reports*. Only the latest version of these instructions is valid. Students should obtain a copy from the Office of Research and Graduate Programs or from the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

**c.** Signing of the approval pages for the student's thesis, project or other scholarly work by the supervisor.

**d.** Submission of an Application for Graduation form to the Office of the Registrar and an official degree audit completed by the University.

**e.** Payment of all outstanding fees. Those students who have outstanding accounts will not receive their degree parchment or be issued transcripts. Students should be aware of the semester fee payment schedule for graduate degrees (see Fees Section).

## 7.11 Degree Completion and Graduation

**7.11.1** The University Senate grants degrees in May of each year. Each candidate for a degree must complete an Application for Graduation form and must pay the graduation fees (see Fees Section). Application for Graduation forms are available in the Office of the Registrar or from the website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

**7.11.2** The deadline for completing all requirements for the degree is the final business day in April for Spring graduation.

**7.11.3** Students can be considered for the awarding of a degree only when all of the following requirements have been satisfied:

**a.** Completion of the program of study and meeting the grade point average requirements for the degree.

**b.** Submission of ~~two~~ three final copies of the dissertation. Regulations governing proper submission are set out in the *Formatting Guidelines For Graduate Dissertations, Theses, Projects & Practicum Reports*. Only the latest version of these instructions is valid. Students should obtain a copy from the Office of Research and Graduate Programs or from the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

**c.** Signing of the approval pages for the student's dissertation by the supervisor.

**d.** Submission of an Application for Graduation form to the Office of the Registrar and an official degree audit completed by the University.

**e.** Payment of all outstanding fees. Those students who have outstanding accounts will not receive their degree parchment or be issued transcripts. Students should be aware of the semester fee payment schedule for graduate degrees (see Fees Section). ~~All students must check their fee status with the Graduate Studies Officer at the Office of the Registrar.~~

**S-201109.09**

**Changes to “Graduate Programs Admissions and Regulations” — Heading of Regulation 4.0 (Academic Standards for Master’s Degree Programs)**

Murray / Deo

That the Senate Committee on Research and Graduate Studies recommend to Senate that the changes to the heading of Regulation 4.0 on page 45 of the 2010/2011 graduate calendar be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**4.0 Academic Standards for Regulations Governing Master’s Degree Programs**

**S-201109.10**

**Changes to “Graduate Programs Admissions and Regulations” — Regulation 1.0 (General Admission)**

Deo / Jensen

That the Senate Committee on Research and Graduate Studies recommend to Senate that the changes to the 1.0 General Admission regulation on page 37 of the 2010/2011 graduate calendar be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**1.0 General Admission**

Application material is available from the Office of the Registrar or from the website; at [www.unbc.ca/graduateprograms/](http://www.unbc.ca/graduateprograms/). The requirements for admissibility include, but are not limited to: an acceptable academic standing (see 1.3.2); acceptable letters of reference; the availability of a supervisor within the program concerned; and the availability of adequate space and facilities.

All documents submitted to the Office of the Registrar must be in the original language in which they were produced. Documents not produced in the English language must be accompanied by a notarized translation into English. Documents submitted in support of an application become the property of the University of Northern British Columbia and will not subsequently be released.

[Application deadline date information has been organized into a table for clarity]:

Application for Admission Deadline\* Dates

Degree (Alphabetical by subject)	Application Deadline According to Preferred Semester of Entry		
	September	January	May
Business Administration (MBA)	February 01	no intake	no intake
Business Administration (MScBA)	February 15	no intake	no intake
Community Health Science (MSc)	February 15	no intake	no intake
Development Economics (MA)	February 15	September 15	no intake
Disability Management (MA)	February 15	no intake	no intake

Degree (Alphabetical by subject)	Application Deadline According to Preferred Semester of Entry		
	September	January	May
Education (MEd – Counselling Specialization)	February 15	no intake	no intake

Psychology (PhD)	January 15	no intake	no intake
Social Work (MSW)	February 15	no intake	no intake

[The following two paragraphs have been moved up from below]:

- \* Applications for admission should be submitted as early as possible to the Office of the Registrar. Incomplete applications and applications received after the deadlines will be considered late and may not be processed in time to permit admission.
- \*\* Applications for admission are accepted for one semester only. Applicants must indicate whether they are applying to the May or September Semester.

~~Application deadlines are February 15 for September Semester and May Semester admission, and September 15 for January Semester admission. Individual graduate programs may set other deadlines.~~

~~The deadline for application to the School of Education MEd Counselling Specialization is February 15 for September Semester admission. The deadline for application to the School of Education MEd Multidisciplinary Leadership Specialization is February 15 for May and September admissions.~~

The following statement is moved up to below table]:

~~Applications are accepted for one semester only. Applicants must indicate whether they are applying to the May or September Semester.~~

~~The deadline for application to the English Program is January 15 for September Semester admission.~~

~~The deadline for application to the Psychology Program is January 15 for September Semester admission~~

~~The deadlines for application to the Interdisciplinary Studies (MA and MSc) Program are February 15 for September Semester admission, and September 15 for January Semester admission.~~

~~The deadline for application to the Disability Management Program is March 15 for September Semester admission.~~

~~The deadlines for Canadian applications to the Master of Business Administration degree program are May 15 for September Semester admission and September 15 for January Semester admission. The deadlines for international applications to the Master of Business Administration degree program are April 15 for September Semester admission and July 15 for January Semester admission.~~

[The following statement is moved up to below table]:

~~Applications for admission should be submitted as early as possible to the Office of the Registrar. Applications received after the deadlines may not be processed in time to permit admission.~~

~~Intake to Graduate Programs is in the September Semester. However, some programs have intake in the January Semester as well.~~

Admission to a Graduate Program is valid only for the semester indicated in the letter of offer of admission.

The University of Northern British Columbia specifically reserves the right to exercise its sole, absolute, and unfettered discretion in admitting individuals to the University, its programs, or courses.

Applicants who have been offered admission to a graduate program must indicate, in writing, their intention to accept or decline the offer of admission within thirty days. Failure to notify the University may result in cancellation of the offer of admission.

In order to be considered for admission to Graduate Programs, all applicants must provide the following to the Office of the Registrar by the deadlines noted above:

1. Application form for admission to Graduate Programs.
2. Application fee.
3. Document evaluation fee (if applicable). Please see Fees

[Point 3 appears in the on-line calendar and not in the PDF version.]

4. Three assessment reports (letters of reference) sent directly to UNBC from the referees.
5. Official transcripts (one copy) from all post-secondary institutions attended.
6. Statement of Academic interests (letter of intent).
7. Official English Language Test Scores (Required for applicants whose first language is NOT English) sent directly to UNBC from the testing agencies.

A Senator asked whether the members of this committee have considered a naming policy, and Ms. Russell responded that, to her knowledge, they have not.

**“For Information” Items:**

Effective date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110824.07**

**Revised Terms and Conditions — Tourism Prince George Society Bursary**

Kitchenham / Ryan

That the revised Terms and Conditions for the Tourism Prince George Society Bursary be approved.

Effective date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110827.08**

**Revised Terms and Conditions — Canadian Citizenship Celebration Scholarship**

Kitchenham / Ryan

That the revised Terms and Conditions for the Canadian Citizenship Celebration Scholarship be approved.

Effective date: 2011-2012 Academic Year

CARRIED (consent agenda).

8.4 Steering Committee of Senate

Iwama

**S-201109.11**

**Revision to Senate Handbook — Senior University Administrators**

Ryan / Deo

That, on the recommendation of the Steering Committee of Senate, the list of Senior University Administrators in the Senate Handbook [Section 3(e)(ix)] be revised to reflect the replacement of the position of Dean of Student Success and Enrolment Management with the position of Assistant Provost, as proposed.

Effective date: Immediately upon approval by Senate

In relation to agenda item 3.1 (Elimination Date of Position of Dean of Student Success and Enrolment Management), a Senator indicated that the information was not provided in the Senate packages as Dr. Dale had reported earlier. Dr. Dale apologized and noted that the position had been eliminated on July 1, 2010. A Senator stated that, when the position of Assistant Provost was advertised, Senators were told that it was not an academic position so Senate was not consulted. He then asked how this position differed from other academic positions which require Senate approval. Dr. Dale responded that this position was not the same as other academic positions in the sense that there is no faculty appointment in conjunction with the administrative role. Another Senator asked why it had been decided to replace the position of Dean of Student Success and Enrolment Management with that of Assistant Provost, and Dr. Dale replied that it was determined that the Assistant Provost should focus only on enrolment management and thus have no concomitant faculty appointment.

CARRIED.

**8.5 Senate Committee on Nominations Kitchenham**

**8.5.1 Nominations and Election of Vice Chair of Senate**

Senator Kitchenham called for nominations for Vice Chair, and the only nomination forthcoming was the nomination of Senator Hutchings by Senator Dale. Senator Hutchings was thus elected by acclamation, and Senator Kitchenham read a statement that Senator Hutchings had asked be read in his absence.

**S-201109.12**

**Membership Changes to Senate Committees *(no material)***

Jensen / Wagner

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate committees as indicated, be appointed as proposed.

Effective date: Immediately upon approval by Senate

**SENATE OR SENATE COMMITTEE POSITION TO BE FILLED**  
***(except as otherwise noted, all terms begin immediately)***

**CANDIDATE**

**Senate Committee on Academic Policy and Planning**

Faculty Member — CASHS

(replacing Malinda Desjarlais, until March 31, 2013)

Graduate Student (until March 31, 2012)

Sascha Auerbach  
Adrienne Fitzpatrick

**Continuing Studies Credit Committee**

Graduate Student (until March 31, 2012)

Erol Toyota

**Senate Committee on First Nations and Aboriginal Peoples**

Faculty Member — CSAM

(replacing Kevin Keen, until March 31, 2012)

Saif Zahir

**Senate Committee on the University Budget**

Faculty Member

(replacing Paul Bowles, until March 31, 2012)

John Curry

**Senate Committee on Student Discipline Appeals**

Graduate Student (until March 31, 2012)

First Nations Student (until March 31, 2012)

Brenda Koller  
Johnathan Alec

Senator Kitchenham called for further nominations from the floor of Senate, and there being none, the motion was CARRIED.

**9.0 Other Business**

**9.1 Centre for Teaching, Learning & Technology: Creating an Environment for Learning Owen**

A handout related to the presentation had been distributed to Senators at the start of the meeting. Prior to delivering his presentation (attached to these minutes as "Appendix II"), Dr. Owen stated that the PowerPoint presentation notes would be sent to Senators electronically after the meeting, as he had three announcements to make in his presentation and had thus not wanted to distribute the information in advance of the meeting. He began his presentation by providing an overview of what he would be discussing. In outlining what components make up the Centre for Teaching, Learning and Technology (CTLT), Dr. Owen stated that the Centre facilitates educational technology and professional learning, and administers the Academic Success Centre (ASC) and the Access Resource Centre (ARC). Dr. Owen added that the ASC and ARC are new names for two current units, which would be renamed later this year as approved by President's Executive Council, which constituted two of the three announcements he referred to at the start of his presentation. The ASC is the current Learning Skills Centre and the Access Resource Centre is the current Disability Services Centre. Dr. Owen indicated that this renaming reflects trends across Canada, and Senate is the first group to hear about this decision. In his next slide, Dr. Owen introduced the people in the CTLT.

Regarding the role of the CTLT, Dr. Owen stated that they are responsible for helping faculty members create environments for learning, meaning that their role is to respond to the needs of faculty members and remove academic barriers for students. He then provided a number of examples of services, including technology enabled services, provided by the ASC (including Supplemental Instruction, Peer-Led Team Learning, and lecture captioning), the ARC (including removing barriers by providing assistive technology), and the CTLT (including blogs, social media, and webcasting, in which the Centre provides support in collaboration with Information Technology Services).

In outlining who the CTLT serves, Dr. Owen indicated that the focus is on students, but they also support faculty and graduate students, as well as Senate and UNBC more broadly. He indicated that the levels of service are layered, going from the micro (individuals) to the mega (beyond UNBC). Regarding the "menu" handout that had been distributed in advance of the presentation, Dr. Owen invited and encouraged Senators to contact him or the leaders of the ARC and ASC for assistance or further information.

Dr. Owen challenged Senators to "rethink higher education." He provided a link to a podcast and encouraged them to listen to it, especially beyond the 18-minute mark. He added that Senate was the location for re-thinking to occur, and asked Senators to challenge their assumptions regarding teaching and learning. Opportunities exist (such as accelerated, mobile, and experiential learning, blended teaching, and interactive desktop video-conferencing) if we look beyond traditional learning. He added that we should capitalize on the insight we have at UNBC, as faculty members have published books related to these topics.

Dr. Owen then made his third announcement, stating that UNBC was piloting Blackboard Learn 9.1. The pilot would run from September to December 2011. The program would be launched in December 2011, although Blackboard 8 would also remain available. Dr. Owen explained the key features of Blackboard Learn 9.1, which included an early warning system, hourly Banner updates, and mobile deployment.

Dr. Owen left Senators with a question to consider: "How can we work with you toward enabling our common vision articulated in the University Plan with respect to UNBC's 'Place of Learning'?" He reiterated that CTLT staff members are here to assist the UNBC community. He encouraged Senators to ask for assistance and to follow the CTLT on Twitter.

A member of the gallery asked what would happen with students identified by Blackboard Learn 9.1's early warning system. Dr. Owen responded that it would depend on the situation but that an e-mail would be sent to the student, the faculty member, or both. He added that he would hope for subsequent follow-up to ensure the student receives the assistance he or she requires.

A Senator asked whether the Northern Advancement Program is connected with the CTLT. Dr. Owen responded that it was not, but that it could be, and added that he would follow up.

The question was raised as to whether the CTLT had considered providing support for publicly-available software such as Moodle. Dr. Owen replied that, because the University is currently using Blackboard, the cost to support Blackboard is much lower than what it would cost to support other programs. At the current time the funds are not available to support faculty members with other software, but it will be considered again in the future.

**9.2** Report of the Registrar

**Hanschen**

The Registrar had nothing to report.

**10.0 Information**

There were no items for information.

**11.0 S-201109.13**

**Move to In Camera Session**

Casperson / Chasteauneuf

That the meeting move In Camera.

CARRIED.

**12.0 S-201109.17**

**Adjournment**

Casperson / Kitchenham

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 5:05 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

**REVISED**

October 26, 2011  
3:30 – 5:30 PM  
Room 7-172 Bentley Centre

---

**Present:**

E. Annis, M. Archie, C. Carriere, M. Dale, A. Dayanandan, B. Deo, J. Edwards, G. Fondahl, M. Green, S. Green, C. Greening, K. Guest, M. Hadland, L. Handfield, T. Hanschen (Secretary of Senate), W. Haque, I. Hartley, K. Hutchings (Vice Chair), E. Jensen, G. Johnson, D. Leighton-Stephens, J. MacDonald, D. Macknak, S. McKenzie, C. Myers (Recording), D. Nyce, C. O'Callaghan, C. Pacaide, R. Robinson, P. Sanborn, S. Wagner, E. Wale, J. Young

**Regrets:**

G. Ashoughian, S. Beeler, R. Brouwer, D. Casperson, C. Chasteauneuf, L. Chen, G. Iwama (Chair), A. Kitchenham, R. Lazenby, J. Li, B. Murray, D. Ryan, J. Van Barneveld

**Absent:**

A. Nitu

---

The meeting commenced at 3:30 p.m. In the absence of the Chair and Vice Chair of Senate, the Secretary of Senate reported that the meeting would be chaired by Dr. Dale, Provost.

**1.0 S-201110.01**

**Approval of the Agenda**

Hartley / Annis

That the agenda for the October 26, 2011 Public Session of Senate be approved as presented.

CARRIED.

**2.0 S-201110.02**

**Approval of Senate Minutes**

Deo / O'Callaghan

That the minutes of the September 28, 2011 Public Session of Senate be approved as presented.

Senator Jensen reported that, although his name was listed in the "Regrets" section of the attendance, he had been at the meeting. Ms. Myers agreed to correct the minutes.

CARRIED.

### **3.0 Business Arising from Previous Minutes of Senate**

#### **3.1 Information about funding for UNBC sports team flights**

**Kerswill**

Jason Kerswill attended the meeting and reported that Thomas Cook offers a 10% discount through WestJet for UNBC sports team travel. He added that the University attempts to arrange the best cost possible by making group bookings, for instance. The cost of travel will increase from approximately \$120,000 to \$250,000 next year, partly because the team will be playing more games next year.

### **4.0 President's Report**

**Iwama**

Dr. Iwama was away attending the 100<sup>th</sup> annual meeting of the Association of Universities and Colleges of Canada, so sent his regrets for the Senate meeting. Dr. Dale read a report from Dr. Iwama, in which Dr. Iwama reported that UNBC had received the Green Award and the Technology Innovator of the Year Award at the local business excellent awards event. He also indicated that domestic undergraduate enrolment remains a priority and that the University is continuing its efforts on all fronts in this area. Dr. Iwama concluded his report by stating that the Premier was embarking on a mission to China and India for which the Research University Presidents felt their participation and support was important, so Dr. Iwama would be accompanying them on this trip. He thanked Dr. Dale for taking the Chair for this meeting.

### **5.0 Report of the Provost**

**Dale**

Dr. Dale reported on the work being undertaken by the committee examining the Bachelor of Fine Arts. They have determined that the joint degree with Emily Carr University is not viable under the current arrangement and are thus reviewing options. The committee will probably ask Senate later this year to continue the moratorium on new admissions to the degree. Dr. Dale added that a small working group will likely be suggested for the purpose of investigating options and alternatives to the current BFA structure.

With regard to enrolment numbers, Dr. Dale indicated that, while headcounts had increased, FTE is flat and that a detailed report will be provided to Senate when the final numbers are available.

The reports from the Globe and Mail and Maclean's magazine were released, and Dr. Dale noted that UNBC's general evaluation in the Globe and Mail had not changed greatly. One of the positive results of the Globe and Mail survey was that UNBC placed at the top of the category for environmental commitment. With regard to the Maclean's rankings, UNBC placed third in its category and first in research dollars for universities of its size. A more detailed report will be provided later, but Dr. Dale concluded that the Maclean's results had also not changed significantly from last year.

### **6.0 Question Period**

A Senator asked whether the priorities of the Colleges had been accepted by President's Executive Council. Dr. Dale replied that the University Plan had not changed substantially from last year, but requested that the Senator ask the President this question when he returns to campus.

With regard to UNBC's enrolment statistics, whereby headcount has risen while FTE has remained static, and Senator asked whether these results demonstrate that students are taking fewer courses and longer to complete a degree. Dr. Dale responded that it did, but added that this year's enrolment situation was quite similar to those in previous years. Another Senator asked whether the fact that students were taking fewer courses should be viewed as negative, and Dr. Dale replied that it depends on a student's career goals. He expounded that, for students with aspirations of attending graduate school and competing for scholarships, there are implications associated with neglecting to take a full course load.

A Senator noted that the advertisement for the position of Chief Information Officer indicates that the position manages a budget of \$8M for ITS, and asked whether this was correct. Vice President Bray

responded that this number refers to the entire budget managed by that position, which is not only the operating budget but also includes capital, such as the capital equipment replacement budget.

**7.0 S-201110.03  
Approval of Motions on the Consent Agenda**

Hartley / Edwards

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

A Senator requested that motion S-201110.07 be removed from the consent agenda and placed on the regular agenda.

CARRIED.

**8.0 Committee Reports**

**8.1 Senate Committee on Academic Policy and Planning**

**Dale**

**"For Approval" Items:**

**S-201110.04  
Changes to the Program Requirements for First Nations Studies Credits in the Education Diploma in a First Nations Language and Culture (Elementary Years) Program**

Pacaide / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the Program Requirements for First Nations Studies Credits in the Education Diploma in a First Nations Language and Culture (Elementary Years) program be approved as proposed.

Effective date: January 1, 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Education Diploma in a First Nations Language and Culture (Elementary Years)**

\*\*\*\*\* (Text removed) \*\*\*\*\*

### **Program Requirements**

#### **First Nations Studies Credits:**

The required First Nations Studies credits can be met by completing a Diploma in First Nations Language. Students will need to include the following First Nations Studies language, linguistics and culture courses in their program of study:

#### **Language (33 credits):**

- ▶ A First Nations Language: Levels 1-4 in Gitksanimx or Nisga'a (FNST 131-3, FNST 132-3, FNST 231-3, FNST 232-3); or Gitksanimx (FNST 143-3, FNST 144-3, FNST 243-3, FNST 244-3); or Nisga'a (FNST 139-3, FNST 140-3, FNST 239-3, FNST 240-3); or Levels 1-4 in Sm'algayax (FNST 137-3, FNST 138-3, FNST 237-3, FNST 238-3); or levels 1-4 in Carrier (FNST 133-3, FNST 134-3, FNST 233-3, FNST 234-3); and FNST 223-3, FNST 321-3, FNST 322-3, FNST 324-3, FNST 325-3, FNST 421-3, FNST 422-3 (Gitksanimx, Nisga'a, Sm'algayax or Carrier)

**Linguistics (9 credits):**

► FNST 220-3, FNST 320-3, FNST 420-3

**Culture Studies (9 credits):**

FNST 161-3 (or Gitksan: FNST 173-3; or Nisga'a: FNST 169-3; or Sm'algyax: FNST 167-3; or Carrier: FNST 163-3)

FNST 162-3 (or Gitksan: FNST 174-3; or Nisga'a: FNST 170-3; or Ts'msyen: FNST 168-3; or Carrier: FNST 164-3)

FNST 246-3 217-3

**S-201110.05**

**New Course Approval — FNST 284-3**

Pacaide / Annis

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNST 284-3 Dakelh Studies be approved as proposed.

Proposed semester of first offering: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course is an introduction to the Dakelh cultures of British Columbia. The course will provide an overview of the philosophy, world view, oral histories, technologies and history of the Dakelh people. This course may provide focus on a particular Dakelh culture or it may be offered as a survey course of all Dakelh cultures in BC.

Preclusions: FNST 163: Carrier Culture: Level 1 and FNST 164: Carrier Culture: Level 2.

A motion directed to the Senate Committee on Admissions and Degrees to change the admission category for admission from a BC Community College, University College, or Yukon College was included for information as it relates to the New Program Approval — BSc Integrated (NWCC Degree Completion Program).

**S-201110.06**

**New 2+2 Program Approval — BSc Integrated (NWCC Degree Completion Program)**

Hartley / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new 2+2 Program for the BSc Integrated (NWCC degree completion program) be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## BSc (Integrated)

The Bachelor of Science (Integrated) provides a broad science base and integrates more than one area of study. The program is built upon a foundation of Biology, Chemistry, Mathematics and Physics. The program allows students to transfer into single-discipline science majors built on a foundation of Biology, Chemistry, Mathematics and Physics, or alternatively to switch from them to the BSc (Integrated). This program may be useful to students planning to pursue studies in various post-

baccalaureate professional areas. Students should consult with the appropriate professional school(s) to ensure inclusion of all the required courses to be eligible for entry into programs in the desired professional area. Prior to starting the first year of study, students are strongly encouraged to consult with an appropriate Program Advisor for their anticipated area of concentration.

Areas of upper division concentration are:

1. **Biology, Ecology and Biochemistry & Molecular Biology**
2. **Chemistry, Biochemistry and Molecular Biology**
3. **Computer Science**
4. **Environmental and Earth Sciences**
5. **Geography (Science) and GIS**
6. **Mathematics and Statistics**
7. **Natural Resources and Forestry**
8. **Physics**

Students enrolled in the Integrated major of the Bachelor of Science must successfully complete a total of 120 credit hours including a minimum of 45 credit hours from upper division (300 or 400 level) courses, and not less than 15 credit hours, at any level, of Humanities and Social Science courses.

Humanities and Social Science courses may be selected from among the areas that are considered Humanities and Social Science for purposes of the BA (General). Students must complete two areas of upper division concentration listed above. Students must ensure completion of course prerequisites before registering in any course.

### **Program Requirements**

#### **Lower Division Requirement**

<a href="#">BIOL 101-4</a>	Introductory Biology I
<a href="#">BIOL 102-4</a>	Introductory Biology II
<a href="#">CHEM 100-3</a>	General Chemistry I
<a href="#">CHEM 101-3</a>	General Chemistry II
<a href="#">CHEM 120-1</a>	General Chemistry Lab I
<a href="#">CHEM 121-1</a>	General Chemistry Lab II
<a href="#">MATH 100-3</a>	Calculus
or	
<a href="#">MATH 105-3</a> and <a href="#">MATH 101-3</a>	Enriched Calculus Calculus II
or	
<a href="#">MATH 152-3</a> and <a href="#">MATH 240-3</a>	Calculus for Non-majors Basic Statistics
<a href="#">PHYS 100-4</a>	Introduction to Physics I
or	
<a href="#">PHYS 110-4</a>	Introductory Physics I: Mechanics
<a href="#">PHYS 101-4</a>	Introduction to Physics II
or	

Students must complete 18 upper division credit hours within each of two areas of concentration for a minimum of 36 credit hours.

Note that if a course falls into more than one area of concentration, it may be counted in only one area of concentration.

[Addition of the following, directly after the above:]

**BSc (Integrated) (Northwest Community College Degree Completion Program)**

This 60 credit-hour program of study is available only to students who have completed an Associate of Science Degree – Environmental Geosciences Specialization from Northwest Community College.

**Degree requirements:**

1. Northwest Community College Associate of Science Degree – Environmental Geosciences Specialization (minimum Cumulative GPA of 2.0)
2. Nine credit hours of required courses, as follows:

GEOG 300-3 Geographic Information Systems  
ENVS 414-3 Environmental and Professional Ethics  
NRES 421-1 Professional Writing  
NRES 422-2 Undergraduate Report

Total: 9 credit hours

3. Three credit hours of any level of Humanities and Social Sciences
4. Eighteen credit hours in each of two areas of concentration (Concentration in Biology, Ecology, and Biochemistry & Molecular Biology and Concentration in Environmental and Earth Sciences):

**Required courses for the Biology, Ecology and Biochemistry & Molecular Biology area of concentration:**

300 Level

BIOL 301-3 Systematic Botany  
BIOL 307-3 Ichthyology and Herpetology

400 Level

BIOL 402-3 Aquatic Plants  
BIOL 406-3 Fish Ecology  
BIOL 411-3 Conservation Biology  
BIOL 414-3 Fisheries Management

Total: 18 credit hours

**Required courses for the Environmental and Earth Sciences area of concentration:**

Select six of the following eight courses:

ENPL 305-3 Environmental Impact Assessment  
ENSC 308-3 Northern Contaminated Environments  
ENSC 404-3 Waste Management  
ENSC 451-3 Groundwater Hydrology  
FSTY 425-3 Soil Formation and Classification  
GEOG 312-3 Geomorphology of Cold Regions  
GEOG 320-3 Sedimentology  
GEOG 410-3 Quaternary and Surficial Geology

Total: 18 credit hours

5. Elective credit hours in any subject as necessary to ensure completion of a minimum of 60 credit hours.

**S-201110.07**

**Change to Program Requirements — Statistics Minor**

Hartley / Hadland

That, on the recommendation of the Senate Committee on Academic Policy and Planning, GEOG 308-3 Introduction to Medical Geography and GEOG 428-3 Advanced Medical Geography be deleted from the Statistics Minor.

Effective date: September 2011

A Senator raised a concern about the effective date of this motion, since students had already been advised of the degree requirements. The Registrar suggested that, if Senators so wished, the effective date could be changed to January 2012 or the students currently in the Program could be provided with the advantage granted by the motion if it is approved. Dr. Dale invited Senators to make an amendment to the motion and nobody did.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Upper Division Requirement**

**“For Information” Items:**

**SCAPP201110.04**

**Changes to Calendar Description — EDUC 201-3**

Hartley / Edwards

That the changes to the calendar description for EDUC 201-3 Education Theory and Practice be approved as proposed.

Effective date: January 1, 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**EDUC 201 - Education Theory and Practice**

In this course, students will extend their understanding of contemporary educational issues. The course introduces theoretical models of curriculum and instruction, as well as provincial curricular guidelines. ~~Classroom observation in a variety of settings forms a substantial component of the course.~~ Students will reflect on practical aspects of teaching and learning, and they will identify their own beliefs and aims with respect to teaching. This course builds on and complements the topics addressed in EDUC 101.

**8.2 Senate Committee on Research and Graduate Studies**

**Fondahl / Hartley**

**“For Approval” Items:**

**S-201110.08**

**New Course Approval — ENGL 631-3**

Young / Deo

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course ENGL 631-3 Advanced Studies in Northern BC Literature be approved as proposed.

Proposed semester of first offering: September 2011 or January 2012

A Senator asked whether this motion should have been reviewed by the Senate Committee on First Nations and Aboriginal Peoples. Despite the fact that there was no motion number from that committee shown on the motion form, Ms. Myers responded that this motion had been reviewed by the committee.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

ENGL 631-3 Advanced Studies in Northern BC Literature

This course in Northern BC Literature offers advanced study of authors such as Barry McKinnon, Eden Robinson, Brian Fawcett, George Stanley, Jacqueline Baldwin, and Ken Belford.

**S-201110.09**

**Change to Degree Requirements — Master of Education (Multidisciplinary Leadership Specialization)**

Hartley / Edwards

That, on the recommendation of the Senate Committee on Research and Graduate Studies, EDUC 609-3 be moved from the “electives” list of the MEd MDL degree and be placed in the “Required Core Courses.”

Effective date: Immediately upon approval by Senate

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**S-201110.10**

**Additions to Admission Requirements — Graduate Programs Admissions and Regulations (Regulation 4.1.6) and the Leading for Learning Graduate Certificate**

Hartley / Deo

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the additions to the Graduate Programs Admissions and Regulations (Regulation 4.1.6 — UNBC course requirements and applicability of transfer of credit) and the “Admissions” section of the Leading for Learning Graduate Certificate, on pages 39 and 70 of the 2011/2012 Graduate Academic Calendar, be approved.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Page 39**

**4.1.6 UNBC course requirements and applicability of transfer of credit** At least half of the course work taken must be completed as a degree candidate in a Graduate Program at the University of Northern British Columbia and be UNBC courses. On the recommendation of the Program concerned, the Dean of Graduate Programs may accept courses taken at other institutions for credit toward a UNBC graduate degree.

Courses taken at the University of Northern British Columbia as a non-degree student in a Graduate Program may be considered for transfer to a graduate degree (see 1.5.4). In order to qualify for transfer of credit, courses must meet all of the following conditions:

- a. must be a graduate level course;
- b. must be completed with a grade of at least B (or equivalent);
- c. must not be used to meet the minimum admission requirements for Graduate Programs; and
- d. must not have been used to obtain any degree, diploma, certificate or other credential, unless otherwise noted.

The grades from courses allowed for transfer of credit will not appear on the transcript, and they will not be used in determining sessional or cumulative grade point averages. Credit granted at another institution on the basis of life or work experience is not acceptable for transfer of credit. For students admitted as mature students (see 1.4), transfer of credit will not normally be granted for courses taken before enrolling in Graduate Programs at the University of Northern British Columbia.

## **Page 70**

### **Leading for Learning Graduate Certificate**

The Leading for Learning Graduate Certificate is intended for those professionals who wish to receive a British Columbia Education Leadership Council approved certificate. The certificate prepares graduates to become recognized educational leaders whether in a teacher-leader or administrative-leader position. The certificate is designed to ladder into the MEd Multidisciplinary Leadership specialization degree.

#### **Admission**

Admission requirements are the same as for the MEd degree

The Leading for Learning Graduate Certificate requires 15 credit hours of course work — that is, five courses, two of which are required courses in the MEd Multidisciplinary Leadership (MDL) specialization, and the other three of which are part of a series of acceptable courses for the Educational Leadership Focus Area of the MDL. The certificate courses are normally offered over a four-semester cycle. While it is expected that most certificate completers will continue with completion of a Masters of Education Multidisciplinary Leadership degree, students may choose to complete only the certificate. The schedule of courses offered on most

UNBC campuses allows completion of the certificate first and in the sequence of courses as follows, but this is not a requirement. Variation from this schedule of courses requires the permission of the MEd MDL coordinator and School Chair. It is also possible to complete the MEd MDL without meeting all the requirements of the certificate. The five required courses in their intended sequence are:

1. [EDUC 626-3](#) Inclusive Education: Learning for All
2. [EDUC 609-3](#) Aboriginal Learners: History, Culture, and Ways of Knowing
3. [EDUC 617-3](#) Leading for Learning: Teacher Leadership and Principal Preparation
4. [EDUC 656-3](#) Instructional Leadership
5. [EDUC 606-3](#) Leading for Change

Students already enrolled in the MEd MDL specialization may complete these courses and receive the certificate, subject to a sequence of available courses being offered by the university.

Students applying to UNBC's Master of Education Multidisciplinary Leadership specialization with a fully or partially completed graduate diploma or certificate, developed under the BC Educational Leadership Council process in conjunction with the Association of BC Deans of Education, may be eligible to receive up to 15 credit hours of transfer credit, at the discretion of the Chair of the School of Education.

### 8.3 Senate Committee on Admissions and Degrees

Smalcel Pederson

In the absence of Ms. Smalcel Pederson, this report was delivered by committee member Ms. Claudette Gouger.

#### "For Approval" Items:

##### **S-201110.11**

##### **Changes to Admission Requirements for Transfer Students into the Environmental Engineering Program**

Jensen / Deo

That, on the recommendation of the Senate Committee on Admissions and Degrees, the admission requirements for transfer students into the Environmental Engineering Program on page 111 of the 2011/2012 Undergraduate print calendar be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Transfers into the program are allowed provided that the prerequisite courses or articulated courses are completed, and space is available in the program. Acceptance of transfers into the program will be based upon GPA, with priority given to those with the highest GPA. The admission GPA for transfer students into the Environmental Engineering program will be assessed on the following four courses or their university transferrable equivalents: Principles of Math 12 or pre-calculus 12, English 12, and two provincially examinable Science 12 courses. In order to be considered for admission into the program transfer students must have at least a 75% average based on these four courses or their equivalents. Where both high school and university transfer coursework are provided for each of these four courses the highest GPA for

each course will be used. Transfer students must also have an overall cumulative transfer GPA of 2.00, which is based on all their university transferrable coursework. Regardless of the articulated course transferred, students must satisfy the residency requirement (see above).

#### **S-201110.12**

#### **Changes to Admission Category for Admission from a BC Community College, University College, or Yukon College**

McKenzie / Jensen

That, on the recommendation of the Senate Committee on Admissions and Degrees, the changes to the admission category for admission from a BC Community College, University College, or Yukon College, on page 31 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **Admission from a BC Community College, University College, and Yukon College**

#### **University Transfer Programs Including Associate in Arts or Science Degrees**

To meet admission requirements, the cumulative grade point average (CGPA) on all transferable courses attempted must be at least 2.00 or C (65%). While all courses attempted are included in the calculation of a student's admission GPA, no transfer credit will be awarded for any course with a grade of less than 0.67 or D- (50-52.9%).

Transfer credit is awarded according to agreements articulated in the BC Transfer Guide (available online at <http://www.bccat.bc.ca>).

**Please note:** UNBC guarantees priority admission and full transfer credit (minimum of 60 credit hours) to students transferring with an Associate in Arts or Science degree.

#### **Diploma Programs**

To meet admission requirements, applicants must present a minimum CGPA of 2.00 or C (65%).

Transfer credit for articulated courses is awarded at the point of admission. Upon declaration of a major in a related degree program, or direct admission into Nursing or Social Work degrees, students who hold specific Business Administration, Natural Resource Management or Environmental Studies or Nursing or Social Work Diplomas may be eligible for additional block credit.

**Please note:** To receive transfer credit in certain program areas, a higher minimum grade is required.

#### **2+2 Programs**

#### **Northwest Community College Associate of Science Degree – Environmental Geosciences Specialization**

Students who have successfully completed the Associate of Science Degree – Environmental Geosciences Specialization from Northwest Community College, with a cumulative GPA of 2.0 or greater, are eligible for admission into the BSc (Integrated) (Northwest Community College Completion) Program.

#### **8.4 Senate Committee on Scholarships and Bursaries**

**Smalcel Pederson**

In the absence of Ms. Smalcel Pederson, this report was delivered by committee member Ms. Carolyn Russell.

**“For Information” Items:**

**SCSB20110928.03**

**Dissolution of Terms and Conditions — UNBC Math & Physics Society Scholarship**

Hartley / Edwards

That the dissolution of the Terms and Conditions for the UNBC Math & Physics Society Scholarship be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110928.04**

**Annual Disbursement of Select Endowed Funds/Awards**

Hartley / Edwards

That the annual disbursement of select endowed funds/awards as set out in the Endowed Awards – Reductions to Awards Guide, attached as Schedule “A”, be approved as presented.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110928.05**

**New Terms and Conditions — Regional District of Fraser-Fort George Bursary**

Hartley / Edwards

That the new Terms and Conditions for the Regional District of Fraser-Fort George Bursary be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110928.06**

**New Terms and Conditions — International Association for Impact Assessment – Western and Northern Canada Affiliate Scholarship**

Hartley / Edwards

That the new Terms and Conditions for the International Association for Impact Assessment – Western and Northern Canada Affiliate Scholarship be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**SCSB20110928.07**

**Revised Terms and Conditions — Robin Fisher Prize in History**

Hartley / Edwards

That the revised Terms and Conditions for the Robin Fisher Prize in History be approved.

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**9.0 Other Business**

**9.1 Foundation Year**

**Young**

Dean Young presented information to Senators regarding a proposed Foundation program and curriculum (attached to these minutes as “Appendix I”). He also provided Senators with a handout describing the curriculum in greater detail. Dean Young indicated that 40% of University students are ill-prepared for University writing, reading, and math, and universities face the challenge of addressing learning outcomes.

There are several different models for foundation programs. With regard to the UNBC situation, Dean Young reminded Senators that the University approved Learning Outcomes five years ago, and that the Centre for Teaching, Learning, and Technology then worked with units to identify and build on development of learning outcomes in curricula. Dean Young outlined the goals of the foundation curriculum which include, among others, providing a foundation for quality arts (humanities and social sciences) curricula for participating disciplines, improving first-year student experience, and improving retention and student engagement. The structure of the curriculum was discussed, and Dean Young emphasized that all attempts are being made to build in flexibility so that some disciplines are able to augment with additional courses.

The foundation curriculum is built on themes and building blocks, and it addresses foundational questions. There are currently seven departments involved in offering the curriculum. Information about the six courses that will be offered was presented by Dean Young. He added that he planned to have motions related to these new courses ready for consideration at the next Senate meeting. With regard to evaluation of the foundation program and courses, retention and performance of students would be tracked, while engagement would be measured. Dean Young also outlined some potential challenges and tasks. He concluded by stating that the hope was to launch the curriculum by September 2012, and that this proposed curriculum integrates the goals outlined in the University Plan and the University's strengths.

Dean Young responded to several questions from Senators regarding his presentation, one of which was whether mounting the foundation year curriculum would require more resources. Dean Young indicated that the new curriculum would cost approximately \$50,000 per year, but that some departments would also be cutting back on iterations of first year courses recognizing that some of their students will be taking the foundation curriculum.

**9.2** Report of the Registrar

**Hanschen**

The Registrar had nothing to report.

**10.0** **Information** (*no material*)

**11.0** **S-201110.13**

**Move to In Camera Session**

General Consent

That the meeting move In Camera.

CARRIED.

**12.0** **S-201110.17**

**Adjournment**

Young / McKenzie

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 4:40 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

November 23, 2011  
3:30 – 5:30 PM

Room 1079 Administration Building (Senate Chambers)

---

**Present:**

E. Annis, G. Ashoughian, S. Beeler, D. Casperson, C. Chasteauneuf, L. Chen, M. Dale, B. Deo, J. Edwards, G. Fondahl, M. Green, S. Green, C. Greening, K. Guest, M. Hadland, L. Handfield, T. Hanschen (Secretary of Senate), W. Haque, I. Hartley, K. Hutchings (Vice Chair), G. Iwama Chair, E. Jensen, G. Johnson, R. Lazenby, D. Macknak, S. McKenzie, B. Murray, C. Myers (Recording), D. Nyce, C. Pacaide, R. Robinson, D. Ryan, P. Sanborn, S. Wagner, E. Wale

**Regrets:**

M. Archie, R. Brouwer, C. Carriere, A. Kitchenham, D. Leighton-Stephens, J. Li, C. O'Callaghan, J. Van Barneveld, J. Young

**Absent:**

A. Dayanandan, A. Nitu

---

The meeting commenced at 3:30 p.m. Dr. Iwama welcomed Senators to the newly-renovated Senate Chambers.

**1.0 S-201111.01**

**Approval of the Agenda**

Ryan / Deo

That the agenda for the November 23, 2011 Public Session of Senate be approved as presented.  
CARRIED.

**2.0 S-201111.02**

**Approval of Senate Minutes**

Deo / Jensen

That the minutes of the October 26, 2011 Public Session of Senate be approved as presented.

A Senator noted that the question regarding the budget related to the Chief Information Officer position was not included in the minutes under the heading "Question Period," and asked that it be added to the minutes.

**Action:** Ms. Myers to revise the minutes accordingly.

CARRIED.

### **3.0 Business Arising from Previous Minutes of Senate (no material)**

#### **3.1 MBA courses at Prince George campus**

**Ryan**

Dean Ryan responded to a question raised at a previous meeting of Senate about whether MBA courses could be moved from the BMO space to the Prince George campus. Dean Ryan indicated that all courses are assigned space and if there are issues with the space assigned then the shortfalls need to be addressed. He added that the process in this case would be to bring the relevant concerns to the Dean and then an attempt would be made to rectify the situation. If it is not possible to address the shortfalls then consideration would be given for holding the courses at the Prince George campus.

### **4.0 President's Report**

**Iwama**

Dr. Iwama indicated that he was delighted to be using this space, and thanked Facilities and ITS for their work on the Senate Chambers renovations. He also expressed his appreciation for the quality of the work and the space. Dr. Iwama apologized for being absent from the last Senate meeting as a result of attending a meeting of the Association of Universities and Colleges of Canada, and thanked Senators for indulging his absence.

With regard to the Wood Innovation and Design Centre, Dr. Iwama reported that he did not have much in the way of an update. A call for expressions of interest was disseminated by the provincial government in October, which generated approximately 30 responses. A Request for Proposals will be forthcoming from the government sometime around February or March 2012.

In relation to Engineering, the Ministry of Advanced Education has encouraged UNBC to consider Civil Engineering in partnership with another university such as the University of British Columbia. A business plan is currently being developed for an engineering program structured similarly to the Environmental Engineering program. Dr. Iwama indicated that some people in the community feel that proceeding with Civil Engineering, as opposed to other forms of engineering, is not the most advantageous approach given UNBC's foci. He added that it would be ideal if UNBC could mount an engineering program that would support the renewable energy field.

Dr. Iwama reported that his trip to India and China in recent weeks had resulted in an agreement being signed with Wenzhou University in China regarding Environmental Engineering, and that he had also met with some individuals at high schools.

To conclude his report, Dr. Iwama stated that he had met yesterday with the Presidents of the regional colleges (College of New Caledonia, Northwest Community College, and Northern Lights College). At this meeting, decreasing enrolment as a result of (mostly male) students choosing to work rather than enroll in post-secondary education was discussed. There is a dire need for workers in the northeastern and northwestern sections of British Columbia, which is forcing companies to recruit from overseas. As a result, a request has been made that UNBC incorporate language and culture educational components into the Engineering proposal, which Dr. Iwama admitted would be challenging. Dr. Iwama expressed that the workforce situation may present an opportunity for UNBC, as courses and programs could be repackaged and offered to workers in camps, for instance.

### **5.0 Report of the Provost**

**Dale**

Dr. Dale reported that, with regard to the Bachelor of Fine Arts, a Working Group had been established to examine options. The Working Group members are Sarah de Leeuw, Gary Wilson, and Nadia Nowak. Dr. Dale will be providing direction to the Working Group and looks forward to receiving their advice, which will be forthcoming to Senate.

A presentation was delivered by Dr. Dale (attached to these minutes as "Appendix I"), providing more in-depth information about the recent university rankings in the Globe and Mail, the National Post, and Maclean's magazine, as well as UNBC's enrolment statistics. He reminded Senators that the Globe and Mail results are based on a survey of students, and the results are summarized as scores which are converted to letter grades. Dr. Dale added that different letter grades may not actually represent significant differences as a result of the small sample size. UNBC's results for several different factors on which universities are graded by the Globe and Mail were displayed, and Dr. Dale noted that there is

not much in the way of meaningful change between the scores from this year and last year. He expressed pleasure with the score UNBC received for environmental commitment, which was highest among all universities in its category. In the National Post survey, UNBC ranked fourth this year and was first last year.

In the Maclean's rankings, UNBC was ranked in relation to 22 similar universities, and is ranked near the top on most factors. Two items of interest that Dr. Dale emphasized were the decrease in ranking on the factors "total research dollars" and library "holdings per student." With regard to the library resources, however, Dr. Dale added that many of the universities which ranked higher than UNBC this year were older institutions that could be expected to have a higher number of library holdings. Dr. Dale expressed dissatisfaction with the "reputational survey" category, in which UNBC ranked ninth. He noted, however, that the methodology used to determine the Maclean's rankings has been the subject of concern from many institutions, but concluded that it would be better if UNBC was ranked higher than it had been in some categories.

With regard to the enrolment snapshot comparing this year's enrolment with last year's enrolment numbers as of October 15, 2011, Dr. Dale acknowledged that the enrolment statistics were not quite what had been hoped for. Of note was the fact that enrolment in Continuing Studies courses was down significantly, as was enrolment by First Nations students, although enrolment of full-time First Nations students had increased. On the other hand, enrolment of international students had increased substantially. Dr. Dale added that potential explanations for the decrease in enrolment in Continuing Studies courses would be examined and a report presented to Senate in the spring. A Senator asked whether a targeted marketing strategy to recruit First Nations students had been considered, as UNBC is completing with industry in the north. Dr. Dale responded that he was aware of this situation, and Ms. Smalcel Pederson added that it is difficult to conduct targeted marketing over such a large area. She stated that developing relationships with First Nations communities is the preferred approach, but that this takes time. UNBC has met with a vendor who targets First Nations students, and this option is being pursued. Ms. Smalcel Pederson indicated that ideas were welcome, and Senator Nyce offered to assist with this initiative.

Dr. Dale presented a table outlining domestic undergraduate headcount by year of study and term, and noted that retention of students between their first and second year of study is a serious issue. He added, however, that to balance the loss of students who leave after their first year, there are students who transfer to UNBC in their second and third year, and showed a table outlining transfer student numbers over the past five years. Dr. Dale admitted that the retention issue is a complicated situation that does not have a simple solution. Of a positive nature was the fact that applications, as well as students who were admitted and registered, all increased between Fall 2010 and Fall 2011. Dr. Dale did indicate that, if UNBC can continue to increase the number of first-time students who enroll, it would help to address the retention issue. He added that focus needs to continue to be placed on retention and transfer students.

## **6.0 Question Period**

A Senator stated that he had looked online for information about past Honorary Degree recipients and could not find anything. He added that it would be useful to have this information available, and recommended that a web page be developed to recognize the recipients. Dr. Iwama thanked the Senator for the suggestion.

A Senator asked for Administration's interpretation of Senate's approval in principle of the Engineering degrees, especially whether it would apply to a 2+2 program. Dr. Dale replied that the approval was for a 4-year UNBC program, and any change to that approach would require a change to the background information and further approval by Senate.

As a result of questions about reasons for students leaving UNBC and a typical retention rate, Dr. Dale explained that some students come to UNBC transitionally, planning to go elsewhere, and that a retention rate of somewhere between 75 – 80% would be desirable. Dr. Iwama added that the reputation of a University increases over time, making it easier to attract students, and that meaningful survey tools are required to understand the reasons students leave UNBC.

A Senator asked whether budget information regarding College priorities could be distributed to Senators, and Dr. Dale replied that the information had already been circulated.

With regard to academic and other program reviews, it was questioned which programs have been reviewed in the past two years and which would be reviewed in the next three years. Dr. Dale responded that he believed that information had been placed on the Provost's web page, but that he would check to ensure it had. The Senator also indicated that the guidelines for program reviews state that results of reviews will be forwarded to Senate, and he noted that he had not seen the reports at Senate from reviews taking place over the past two years. Dr. Dale replied that a couple of the reviews had been delayed while awaiting receipt of responses from the unit or the Dean's office, but that the intent was to bring the reviews to Senate once they were complete. Another Senator outlined issues that had arisen during the review of the School in which he was a member, noting that after 3 years the review is not yet complete. The Senator who asked the original question indicated that the review guidelines document also states that a status report on the implementation of review recommendations will be received four years after recommendations from a review are dealt with by Senate, and asked whether the whole cycle related to reviews from recent years has been halted until they are received by Senate. Dr. Dale replied that the cycle is delayed, and thanked the Senator for the reminder.

## 7.0

### **S-201111.03**

#### **Approval of Motions on the Consent Agenda** *(no material)*

Chasteauneuf / Deo

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

A Senator requested that the following motions be removed from the consent agenda and placed on the regular agenda:

- S-201111.09
- S-201111.35
- S-201111.43
- SCAPP201111.57

CARRIED.

## 8.0 Committee Reports

### 8.1 Senate Committee on Academic Policy and Planning

Dale

#### **"For Approval" Items:**

An Executive Summary of the proposed revisions to the Anthropology Major was included for information.

### **S-201111.04**

#### **Changes to Program Requirements — Anthropology (BA Program)**

Ryan / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the Anthropology (BA Program) on page 71-73 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Anthropology (BA Program)**

Michel Bouchard, Associate Professor and Chair

Richard Lazenby, Professor

Jim McDonald, Associate Professor

Angèle Smith, Assistant Professor  
Farid Rahemtulla, Assistant Professor  
Louis-Jacques Dorais, Adjunct Professor  
Erin Gibson, Adjunct Professor  
Fredy Monterroso, Adjunct Professor

Website: [www.unbc.ca/anthropology](http://www.unbc.ca/anthropology)

Anthropology is the integrated biological and sociocultural investigation of humankind, from the time of our pre-human ancestors to the present, including the study of both small- and large-scale societies. The program includes courses in archaeological, biological, linguistic and sociocultural anthropology. While a small number of mandatory courses will ensure that all students in the program share basic understanding of the range of anthropological approaches, students ~~will be~~ are able to select courses within the program and from other parts of the curriculum to focus on specific interests. The following suggestions illustrate the range of possibilities: a student with an interest in language could ~~have options~~ select courses within the programs in First Nations Studies, International Studies, English and Psychology; a student intending to enter a graduate program in archaeology might select courses from First Nations Studies, Geology, Geography, History ~~an~~ and Environmental Studies programs; a student planning to work in the subfield of sociocultural anthropology could select courses from First Nations Studies, International Studies, Northern Studies, Women's Studies and Social Work; a student interested in biological (or medical) anthropology would include courses in Biology, Environmental Studies and Statistics; and a career in museology or cultural property management might benefit from a background in Resource Recreation and Tourism or administration as well as First Nations Studies, International Studies, History and Northern Studies.

Anthropology prepares students for entrance to a number of graduate programs (Archaeology, Biological and Sociocultural Anthropology, Museology); several types of professional programs (Law, Library and Information Science, Communicative Disorders, Social Work, Education, etc.) or employment in government or the private sector. Students aiming towards specific career goals should discuss their interests with advisors in the program at an early stage.

## Major in Anthropology

Students majoring in anthropology must ~~may declare a major after a first year including ANTH 100-3 (Archaeological and Biological Approaches) and ANTH 101-3 (Peoples and Cultures). The major requires students to take 54 42 credit hours in Anthropology courses (18 courses 14 courses). At least 24 credit hours must be upper division Anthropology courses.~~ Students may not take more than 60 credit hours of Anthropology without written permission of the Program Department Chair.

The minimum requirement for completion of a Bachelor of Arts with a major in Anthropology is 120 credit hours.

## Program Requirements and Recommendations

### Lower-Division ~~Requirement~~ Recommendation

#### 100 level

~~ANTH 100-3 Archaeological and Biological Approaches~~

~~ANTH 101-3 Peoples and Cultures~~

ANTH 102-3 Anthropology: A World of Discovery

### Lower-Division Requirements

#### 200 Level

ANTH 200-3 Biological Anthropology

ANTH 205-3 Introduction to Archaeology

~~ANTH 210-3 Understanding Theory~~

ANTH 213-3 Peoples and Cultures

~~Six additional credit hours from the 200 level from two of the following subfields: Social Anthropology, Biological Anthropology, and Archaeology.~~

### Upper-Division Requirements

#### **300/400 Level**

One of:

<u>    </u> ANTH 300-3	Methods in Social Anthropology
<del>    </del> <input checked="" type="radio"/> ANTH 301-3	Archaeological Lab Methods
<u>    </u> ANTH 310-3	Applied Anthropology
<u>    </u> ANTH 312-3	Human Adaptability

One of:

<u>    </u> ANTH 315-3	Anthropological Theory
<u>    </u> ANTH 325-3	Archaeological Theory

ANTH 460-3 Anthropology Capstone

~~Eighteen additional credits from 300 and 400 level Anthropology courses.~~

Eight additional three credit hour courses in Anthropology of which four courses must be upper-level.

### **Subject Requirement**

~~Nine credit hours of electives at any level in Anthropology to ensure completion of a minimum of 54 credit hours for the major.~~

Students wishing to pursue graduate degrees in anthropology or work as practising anthropologists are encouraged to take an additional five upper-level courses, including field school courses and internships.

### **Elective and Academic Breadth**

Electives at any level in any subject sufficient to ensure completion of a minimum of 120 credit hours including any additional credits necessary to meet the Academic Breadth requirement of the university (see Academic Regulation 15).

## **BA Honours - Anthropology**

The BA Honours - Anthropology provides a higher level of training and specialization for students planning to proceed to academic and professional postgraduate study. Acceptance into the Anthropology Honours Program is by written application to the Program Chair, in which the student identifies the subdiscipline of interest, provides a statement of career objectives and attaches an unofficial copy of their current transcript. The Honours Program is open to all students majoring in Anthropology who:

1. have completed 60 credit hours of course work
2. have completed all lower-level requirements for the major in Anthropology
3. possess a cumulative GPA of 3.33.

In addition to the requirements for the Major in Anthropology, the Honours student will complete 12 additional credit hours, for a minimum total of 132 credit hours to graduate. These 12 credit hours derive from three courses, in a directed sequence of study.

ANTH 500-3	Method and Theory Seminar
ANTH 501-3	Research Prospectus
ANTH 502-6	Honours Thesis

## Joint Major in Anthropology and Geography (BA)

The minimum requirement for completion of a Bachelor of Arts with a Joint Major in Anthropology and Geography is 120 credit hours.

### Program Requirements

#### Lower-Division Requirement

GEOG 428-3	Advanced Medical Geography

### **Elective and Academic Breadth**

Elective course hours as necessary to ensure completion of a minimum of 120 credit hours, of which at least 21 credit hours must be at the 300 and 400 level including any additional credit hours necessary to meet the Academic Breadth requirement of the university (see Academic Regulation 15).

### **Minor in Anthropology: Archaeological Stream**

The minor in Anthropology Archaeological Stream requires completion of a total of seven courses (21 credit hours) (~~seven courses~~), consisting of four lower-division courses (12 credit hours) and three upper-division courses (~~nine~~ 9 credit hours). A maximum of two courses (~~six~~ 6 credit hours) used to fulfill program requirements for a major (or another minor) may also be used to fulfill requirements for a minor in Anthropology Archaeological Stream.

### **Requirements & Recommendations**

#### **Recommended**

ANTH 102-3 Anthropology: A World of Discovery

## Requirements

~~ANTH 100-3 Archaeological and Biological Approaches~~  
ANTH 203-3 Archaeology of the Americas  
ANTH 205-3 Introduction to Archaeology  
ANTH 212-3 Archaeology of the Old World

Select ~~nine~~ 9 credit hours from:

ANTH 301-3 Archaeological Lab Methods  
ANTH 325-3 Archaeological Theory  
ANTH 335-3 Archaeological Heritage Management  
ANTH 380-(3-6) Special Topics in Archaeology  
ANTH 409-3 Topics in British Columbia Archaeology  
ANTH 425-3 Introduction to Zooarchaeology  
ANTH 430-3 Stone Tools in Archaeology  
ANTH 440-(3-6) Internship  
ANTH 498-(3-6) Special Topics in Anthropology  
ANTH 499-(3-6) Independent Study  
ANTH 460-3 Anthropology Capstone

## **Minor in Anthropology: Biological Stream**

The minor requires completion of a total of six courses (18 credit hours) ~~(six courses)~~, consisting of two lower-division courses (~~six~~ 6 credit hours) and four upper-division courses (12 credit hours). With approval of the Chair, a maximum of one course (~~three~~ 3 credit hours) used to fulfill requirements for a non-Anthropology major (or another minor) may also be used to fulfill program requirements for the minor in Anthropology Biological Stream.

## Recommendations

ANTH 102-3 Anthropology: A World of Discovery

## **Requirements**

~~ANTH 100-3 Archaeological and Biological Approaches~~  
ANTH200-3 Biological Anthropology  
ANTH 312-3 Human Adaptability

Select ~~nine~~ 9 credit hours from:

ANTH 311-3 Nutritional Anthropology  
ANTH 320-3 Biology of Circumpolar Peoples  
ANTH 411-(3-6) Topics in Biological Anthropology  
ANTH 420-3 Races, Racism, and Human Biology  
ANTH 499-(3-6) Independent Study  
ANTH 460-3 Anthropology Capstone

## **Minor in Anthropology: General Stream**

The minor requires completion of a total of six courses (18 credit hours) ~~(six courses)~~, consisting of two lower-division courses (~~six~~ 6 credit hours) and four upper-division Anthropology courses (12 credit hours) no more than two of which ~~would~~ may be chosen from any single existing Anthropology Minor Stream.

## Recommendations

ANTH 102-3 Anthropology: A World of Discovery

**Requirements**

One of:

<u>ANTH 200-3</u>	<u>Biological Anthropology</u>
<u>ANTH 205-3</u>	<u>Introduction to Archaeology</u>
<u>ANTH 213-3</u>	<u>Peoples and Cultures</u>

**~~Lower-Division Requirement~~**

~~ANTH100-3 Archaeological and Biological Approaches  
Or ANTh101-3 Peoples and Cultures  
and ANTH 210-3 Understanding Theory~~

**Upper-Division Requirement**

ANTH 315-3 Understanding Theory

Four additional courses, three of which must be upper-division courses, ~~no more than two of which would be chosen from any single existing minor stream.~~

**Minor in Anthropology: Sociocultural Stream**

The minor requires completion of a total of six courses (18 credit hours) ~~(six courses)~~, consisting of two lower-division courses (six 6 credit hours) and four upper-division courses (12 credit hours).

**Requirements**

Select ~~six~~ 6 credit hours from:

<del>ANTH 101-3 Peoples and Cultures</del>
<u>ANTH 213-3 Peoples and Cultures</u>
<del>Or or ANTH 211-3 Anthropology Through Film</del>
<del>And ANTH 210-3 Understanding Theory</del>
<u>ANTH 315-3 Understanding Theory</u>

Select 12 credit hours from:

ANTH 300-3	Methods in Social Anthropology
ANTH 303-3	Archives/Texts/Museums

Precluded: FNST 451-3

#### **S-201111.06**

##### **Course Deletion — ANTH 100-3**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the deletion of ANTH 100-3 Archaeological and Biological Approaches on page 180 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: January 2012

CARRIED (consent agenda).

#### **S-201111.07**

##### **Course Deletion — ANTH 101-3**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the deletion of ANTH 101-3 Peoples and Cultures on page 180 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: January 2012

CARRIED (consent agenda).

#### **S-201111.08**

##### **New Course Approval — ANTH 102-3**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course ANTH 102-3 Anthropology: A World of Discovery be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Using a thematic approach, this course explores what defines the human species. Some of the themes explored may include human evolution and our primate biological kin; archaeology and digging for the past; culture in a global world; communication or the essentials of being a talking and increasingly texting primate; health as social and biological; production and consumption, from the first stone tools to the Big Mac; and other topics that deal with humanity past and contemporary.

**Preclusions:** ANTH 100-3, ANTH 101-3

**S-201111.09**

**New Course Approval — ANTH 213-3**

Ryan / Wagner

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course ANTH 213-3 Peoples and Cultures be approved as proposed.

Proposed semester of first offering: September 2012

A Senator asked whether this motion had been reviewed by the Senate Committee on First Nations and Aboriginal Peoples. Once it had been determined that the motion had not been reviewed by that committee, which would be meeting on November 24, it was suggested that the motion be postponed until it was reviewed by that committee.

**Motion to postpone motion S-201111.09:**

Robinson / Wagner

That motion S-201111.09 be postponed until it is reviewed by the Senate Committee on First Nations and Aboriginal Peoples.

CARRIED.

Dr. Dale indicated that he would look into the process and scheduling associated with getting motions to the Senate Committee on First Nations and Aboriginal Peoples.

**S-201111.10**

**New Course Approval — ANTH 460-3**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course ANTH 460-3 Anthropology Capstone be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course engages students in the contemporary methodological and theoretical debates, and ideological challenges that face anthropologists today. Topics range from ethical considerations over the construction and ownership of knowledge to the practical challenges of how to set up a field/research project. This course prepares students to work within this ever-changing discipline through reinforcing the interlinked nature of sociocultural, biological and archaeological inquiry. Using an integrative approach, this course illustrates how our diverse theory, methods and practice may work together to challenge established rhetoric and create innovative ideas about the past, present and future.

**Prerequisites:** Student must be major, minor or joint major in Anthropology with 90 credit hours.

Regular

**S-201111.11**

**Changes to Elective and Academic Breadth Statement — Bachelor of Health Sciences**

Casperson / Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to Elective and Academic Breadth statement for the Bachelor of Health Sciences in the Undergraduate calendar be approved as proposed.

Effective date: October 2011

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**pg. 142, 2011/2012 calendar**

## **Elective and Academic Breadth for all BHSC Majors**

Electives at any level sufficient to ensure completion of a minimum 122 credit hours including any additional credits necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15). It is highly recommended that students complete the optional course HHSC 105-3 Functional Anatomy before HHSC 111-4.

An Executive Summary of the School of Nursing proposed undergraduate calendar changes was included for information.

### **S-201111.12**

#### **New Course Approval — NURS 215-8**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course NURS 215-8 Nursing Care of the Adult be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course examines principles and practices of nursing adults with health problems. The focus is on the acquisition and application of knowledge in planning, implementing and evaluating the nursing care of clients requiring medical and surgical intervention. Holistic health care of individuals is highlighted. The course includes laboratory instruction in psychomotor skills. The clinical practicum enables the student to integrate theory and skills needed to provide nursing care.

**Prerequisites:** NURS 101-3, NURS 102-3; HHSC 111-4, HHSC 112-4 and HHSC 110-3, or BIO 111-3 and BIO 112-3 and BIO 105-3 at CNC, or BIOL 131-3, BIOL 132-3, and BIOL 133-3 at NWCC, or equivalent.

**Co-requisites:** NURS 201-4, NURS 202-3

**Major Restrictions:** Restricted to students in the NCBNP

**Preclusions:** NURS 210-3, NURS 211-5

### **S-201111.13**

#### **New Course Approval — NURS 323-5.5**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course NURS 323-5.5 Nursing Theory and Practice: Older Adult be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course focuses on health-promoting, person-centred nursing practice with older persons in rural communities. Assessment focuses on the physical and mental health of older persons within the context of their everyday experience and their families and/or cultures. Particular attention is paid to the strengths of the individual as well as the presenting health challenges. Students explore strategies to prevent and/or address common health issues experienced by older persons. In addition, students have

an opportunity to extend knowledge, skills and the application of therapeutic approaches with this population in the community and clinical settings.

**Prerequisites:** NURS 220-5, or permission of the Chair, School of Nursing

**Preclusions:** NURS 313-3, NURS 314-5, NURS 316-2.5, NURS 453-3, NURS 653-3

**S-201111.14**

**New Course Approval — NURS 326-5.5**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course NURS 326-5.5 Nursing Theory and Practice: Mental Health be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course provides knowledge and skills required to care for people living with common mental health and addiction issues encountered in rural nursing practice. A holistic relational nursing focus allows students to apply concepts to a variety of health challenges and to intervene appropriately. Nursing approaches to clinical decision-making with clients who have specific mental health problems such as psychotic, mood, anxiety and personality disorders are highlighted. Nursing practice approaches to addictions, substance use, and crisis intervention, including aggression and suicide attempts, are addressed. Students have opportunity to further develop mental health nursing knowledge and skills in the clinical setting.

**Prerequisites:** NURS 220-5, or permission of the Chair, School of Nursing

**Preclusions:** NURS 312-3, NURS 314-5, NURS 315-2.5, NURS 456-3, NURS 656-3

**S-201111.15**

**New Course Approval — NURS 330-5**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course NURS 330-5 Extended Clinical Practicum II be approved as proposed.

Proposed semester of first offering: May 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course provides the opportunity for consolidated clinical nursing practice with clients who have multiple health care needs. Previous clinical practice experience is considered when determining placement. The practicum occurs in various health care settings in northern BC.

**Prerequisites:** all required 300-level nursing courses in the NCBNP

**Preclusions:** NURS 320-5

**S-201111.16**

**New Course Approval — NURS 418-7**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course NURS 418-7 Introduction to Community Health and Nursing be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course provides an introduction to the concepts of community, primary health care, and nursing in the community and builds upon previous experiences in community health nursing practice. The theory and practice of working as a nurse in the community with individuals, families, and population groups are addressed through the integration and application of community nursing and primary health care theory in nursing practice in northern communities.

**Prerequisites:** NURS 330-5, or permission of the Chair, School of Nursing

**Preclusions:** NURS 415-3, NURS 416-4

**Course Equivalencies:** Equivalent to precluded courses.

**S-201111.17**

**New Course Approval — NURS 435-(6,8)**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course NURS 435-(6,8) Pediatric Nursing be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course examines the theory and practice of pediatric nursing in depth, with particular attention to northern nursing practice. Ethical and cultural issues are explored and the impact of social determinants of health on child health and development are addressed. The concept of primary care is introduced. The NCBNP requires the 8 credit hour course, and Post-Diploma BScN students complete the 6 credit hour course.

**Prerequisites:** NURS 330-5, or permission of the Chair, School of Nursing for 8 credit hour course

**Major Restriction:** Rural Nursing Certificate Program or Post-Diploma BScN students, or permission of the Chair, School of Nursing for 6 credit course

**Preclusions:** NURS 434-3, NURS 445-(3, 5, 8)

**S-201111.18**

**New Course Approval — NURS 461-8**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course NURS 461-8 Rural Health and Nursing be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course prepares students with a focus in rural health and nursing. It provides students with the knowledge and skills to extend their ability to conduct a thorough health assessment for diverse client populations throughout the lifespan. It prepares students to safely utilize the CRNBC Decision Support Tools for RN First Call practice. Students conduct age-appropriate comprehensive health histories and physical examinations, identify health concerns and risks, taking into account culture, ethnicity and health beliefs, and make informed clinical judgments. This course features one or more extended skills-building laboratory/workshop sessions that include evaluation of history and physical assessment skills as well as utilization of the RN First Call Decision Support Tools. Through clinical practicum experiences in rural acute care and primary health care facilities, students integrate and apply knowledge and skills in rural nursing. Upon successful completion students may apply for CRNBC RN First Call Practice Certification.

**Prerequisites:** NURS 330-5, or permission of the Chair, School of Nursing

**Preclusions:** NURS 424-3, NURS 451-3, NURS 442-(3, 5, 8)

**S-201111.19**

**New Course Approval — NURS 497-(6,8)**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course NURS 497-(6,8) Specialty Focus in Nursing be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course comprises both theory and clinical practicum experience in a particular specialty area of nursing practice. The specialty area varies depending on the students' interests and the opportunities for specialty education available.

**Prerequisites:** NURS 330-5 and permission of the Chair, School of Nursing

**S-201111.20**

CARRIED (consent agenda).

**S-201111.40**

**Changes to Course Credit Hours, Title, and Description — NURS 317-3**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the credit hours, title and course description for NURS 317-3 Maternity Nursing Theory, on page 252 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 317-35.5 Nursing Theory and Practice: Maternity Nursing Theory** ~~This course provides a theoretical foundation for the provision of nursing care to diverse and multicultural women, neonates, and families that is woman and family centred. Emphasis is on integration and application of evidence based theory from nursing and related fields, CRNBC standards for nursing practice, communication, and critical thinking with the nursing process.~~

This course takes a women- and family-centred, strengths-based approach to caring for individuals and families of diverse and multicultural backgrounds in the childbearing experience. Emphasis is placed on the integration and application of evidence-based theory, standards for nursing practice, effective communication, critical thinking and use of the nursing process to optimally prepare nurses as caregivers and collaborators with childbearing women, neonates, families, and the health care team.

*Pre- or co-requisites:* NURS 220-5, or permission of the Program Chair, School of Nursing

*Precluded:* NURS 310-3, NURS 311-5, NURS 321-2.5

**S-201111.41**

**Changes to Course Credit Hours, Title, and Description — NURS 318-3**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the credit hours, title and course description for NURS 318-3 Pediatric Nursing Theory, on page 252 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 318-35.5 Nursing Theory and Practice: Pediatrics Nursing Theory** ~~This course emphasizes the nursing care of children and adolescents with acute and chronic conditions who require medical and/or surgical interventions, with particular attention to common health problems found in northern populations and First Nations groups. The course also addresses the impact of illness, hospitalization, surgery, disability, and terminal illness on the child or adolescent and on their family. Concepts related to health promotion, the effect of genetics and environment on the health of children, and the influence of social determinants of health on children and adolescents are introduced.~~

This course emphasizes the health of infants, children, and their families, with a focus on health promotion, risk reduction, disease prevention and common health problems. Particular attention is on northern populations and First Nations groups. Information and clinical practice relating to acute and chronic conditions and medical/surgical interventions are included. The impacts of illness, disability and medical/surgical care on the child and family unit are explored. Concepts of health promotion, effects of genetics and environment on child health and the influence of social determinants of health are introduced. Clinical experiences occur in acute pediatric and selected community settings, providing opportunities to apply pediatric nursing knowledge.

*Pre- or co-requisites:* NURS 220-5, or permission of the Program Chair, School of Nursing

*Precluded:* NURS 310-3, NURS 311-5, 322-2.5

**S-201111.42**

**Changes to Course Credit Hours and Description — NURS 420-3**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the credit hours and course description for NURS 420-3 Community Health Nursing on page 253 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 420-3(6, 8) Community Health Nursing** ~~This course focuses on theory, roles and practices required for community health nursing in a changing system in northern and isolated settings. Emphasis is placed on a population focused approach to nursing care which includes the promotion of health and prevention of disease and disability.~~  
This course provides the opportunity for students to increase their understanding of the theories, roles and practices required for community health nursing in changing primary health care systems in northern and rural settings. Emphasis is placed on a population- and community-focused approach to nursing care, including the promotion of health and prevention of disease and disability. During an extended clinical practicum, students integrate theoretical understandings and evidence into contributing to services and programs in the community. Emphasis is on the nurse as a partner with the community. The NCBNP requires the 8 credit hour course, and Post-Diploma BScN students complete the 6 credit hour course.

~~*Prerequisites:* NURS 415-3 and NURS 416-4, or permission of the Program Chair.~~

~~*Prerequisites:* NURS 418-7, or permission of the Chair, School of Nursing for 8 credit hour course~~

~~*Major Restriction:* Rural Nursing Certificate Program or Post-Diploma BScN students, or permission of the Chair, School of Nursing for 6 credit hour course~~

~~*Precluded:* NURS 440-(3, 5, 8)~~

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the credit hours and course description for NURS 426-3 Acute Care Nursing on page 253 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 426-3(6, 8) Acute Care Nursing** This course examines the knowledge, skills and attitudes required to provide holistic, person-centred care in the acute setting. This course explores the concepts and practices of acute care nursing with various client populations while enabling students to consolidate and extend their knowledge and clinical ability in the acute care setting. Problem solving, complex client situations and expanding the professional role of the nurse are central themes of the course. The NCBNP requires the 8 credit hour course, and Post-Diploma BScN students complete the 6 credit hour course.

~~*Prerequisites:* all required 300-level Nursing courses for either the NCBNP or Post-Diploma BScN, or permission of the Program Chair.~~

~~*Prerequisites:* NURS 330-5, or permission of the Chair, School of Nursing for 8 credit hour course~~

Major Restriction: Rural Nursing Certificate Program or Post-Diploma BScN students, or permission of the Chair, School of Nursing for 6 credit hour course

Precluded: NURS 443-(3, 5, 8)

**S-201111.45**

**Changes to Course Credit Hours and Description — NURS 428-3**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the credit hours and course description for NURS 428-3 Nursing Management on page 253 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 428-36 Nursing Management** This course examines nursing management and leadership theory, current issues and practice in hospitals, health care agencies and communities. Special focus is on ~~first-~~ front-line nursing management within rural and northern communities in a changing health care system. ~~Discussion and explorations are grounded in current health care and nursing management practice and research knowledge.~~ This course permits the extension of skills and knowledge in the practice of nursing leadership and management.

*Prerequisites:* NURS 304-3, NURS 306-3

*Major Restriction:* Restricted to Post-Diploma BScN students, or ~~by~~ permission of the ~~Program~~ Chair, School of Nursing

Precluded: NURS 429-3

**S-201111.46**

**Changes to Course Credit Hours and Description — NURS 430-3**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the credit hours and course description for NURS 430-3 Community Continuing Care Nursing on page 254 or the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 430-36 Community Continuing Care Nursing** This course explores the role, ~~and~~ responsibilities and practices of nursing ~~amongst~~ with a broad range of clients in home settings or long-term care facilities. ~~Concepts and applications of home health, such as gerontology, palliative care, mental health, rehabilitation, disability, family dynamics, and ethics are covered. Specific acute and chronic conditions, therapies in the home and community referral and liaison with institutions are addressed.~~ A multidisciplinary team approach is emphasized. This course enables students to apply concepts and acquire skills of community continuing care professional nursing practice. Students provide direct care in the home setting, develop their clinical judgment, and contribute to decision-making and referral.

*Prerequisites:* NURS 304-3, NURS 306-3

*Major Restriction:* Restricted to Post-Diploma BScN students, or ~~by~~ permission of the ~~Program~~ Chair, School of Nursing

Precluded: NURS 431-3

**Changes to Course Credit Hours and Description — NURS 455-6**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the credit hours and course description for NURS 455-6 Critical Care, Emergency and Trauma on page 255 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 455-6(6, 8) Critical Care, Emergency and Trauma** This course provides students with the practical evidence-based information, skills and tools necessary to identify clients with critical conditions and to intervene appropriately and effectively within the context and confines of rural nursing practice. The most salient aspects of adult, geriatric and pediatric emergency and critical care encountered in rural practice are examined. The course includes a focused lab experience and a practicum. ~~This course is restricted to registered nurses. The NCBNP requires the 8 credit hour course. RNCP and Post-Diploma BScN students complete the 6 credit hour course.~~

Prerequisites: NURS 330-5, or permission of the Chair, School of Nursing for 8 credit hour course

Major Restriction: Restricted to the Rural Nursing Certificate Program or Post-Diploma BScN students only, or by permission of the Chair, School of Nursing for 6 credit hour course

Recommended: NURS 451-3

Precluded: NURS 417-4

Motions S-201111.50 to S-201111.53 were dealt with as an omnibus motion.

**S-201111.50**

**Changes to Program Calendar Description — Academic Performance Paragraph for Nursing**

Ryan / Haque

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the Academic Performance paragraph for Nursing on page 163 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Academic Performance

Students must adhere to all policies and regulations of the institution(s) where they are registered for courses. This requirement includes, but is not limited to, matters related to academic appeals and academic dishonesty. Progression through the program is governed by guidelines on academic standing and continuance. Probation guidelines are governed by UNBC.

Students must obtain the minimum passing grade for all required Nursing and Health Sciences (NURS, HHSC or equivalent) courses as defined under “Qualification for Degree.” Students who do

not meet these criteria may repeat the course once. If, on the second attempt, the student does not meet the minimum passing grade, he/she will be required to withdraw from the program and will not be allowed to reapply to the program at any time in the future. For fourth-year Clinical Focus courses, students may only attempt two courses in total, whether they be the same course or two different Clinical Focus courses.

~~Students who do not demonstrate satisfactory performance in a clinical or theory course will be placed on a Learning Contract/Action Plan. For clinical courses, issues related to the implementation of the Learning Contract/Action Plan must be resolved by the final grade submission or a grade of “F” will automatically be assigned. Students who are may be removed from a clinical setting due to “unsafe or unprofessional” performance/conduct, and may will receive a final grade of “F” in that the clinical component of the course. For theory courses, issues related to the implementation of a Learning Contract/Action Plan must be resolved by the final grade submission or the student will not receive the minimum passing grade for the course. When a student receives a grade of F for the clinical component of a course, the overall course grade will be computed on the basis of the grade achieved in all other components of the course, to a maximum grade of C-.~~

#### **S-201111.51**

#### **Changes to Program Calendar Description — Qualification for Degree Paragraph for Nursing Ryan / Haque**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the Qualification for Degree paragraph for Nursing on page 163 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Qualification for Degree**

It is the responsibility of the student to ensure that his/her degree or certificate requirements are met. Graduation requirements are found in the Regulations and Policies section of this Calendar. To fulfill the requirements of graduation, the student must:

- attain a minimum ~~e~~Cumulative GPA of 2.33 (C+) on all courses used for credit towards the degree or certificate
- attain a minimum passing grade of (P) in NURS 220-5 and NURS 330-5
- obtain a minimum passing grade of 2.00 (C) in the following courses, or their equivalents, as applicable to the specific program. *Note: Students enrolling in any required course must have completed all prerequisites with a grade of (C) or better, or if NURS 220-5 or NURS 330-5 is the prerequisite, a passing grade of (P) is required:*
  - all NURS courses, including NURS electives, ~~with the exception of designated clinical practica nursing courses which require a passing grade of (P)~~
  - all mandatory HHSC courses
  - ANTH 101-3 213-3
  - MATH 240-3
  - POLS 403-3
- complete all requirements for the appropriate program as follows:
  - NCBNP BScN within eight years, starting with the first semester of registration in a NURS course in the NCBNP at UNBC or one of its collaborative partner institutions

- Post-Diploma BScN within eight years, starting with the first semester of registration in a NURS course in the Post-Diploma BScN at UNBC
- Certificate program within six years, starting with the first semester of registration in a NURS course in the Certificate program at UNBC.

and NURS 431-3 Practicum: Community Continuing Care Nursing~~  
or  
~~NURS 432-36 Mental Health Nursing  
and NURS 444-3 Practicum: Mental Health Nursing~~  
or  
~~NURS 434-3 Maternal and Child Nursing  
and NURS 445-3 Practicum: Maternal and Child Nursing~~  
or  
NURS 435-6 Pediatric Nursing  
or  
NURS 454-6 Perinatal Care  
or  
NURS 455-6 Critical Care, Emergency and Trauma  
or  
NURS 497-6 Specialty Focus in Nursing

## **Elective Requirement**

Six credit hours chosen to ensure completion of a minimum of 45 credit hours and fulfillment of the following requirements:

Three credit hours of First Nations Studies at any level.

Three credit hours at the 200 level or above and related to area of clinical concentration (with permission of program).

### **S-201111.54**

#### **Undergraduate and Graduate Semester Dates — Approval of Dates for 2012-2013 and Provisional Dates for 2013-2014**

Hartley / Annis

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the Undergraduate and Graduate Semester Dates for 2012-2013, and the provisional Semester Dates for 2013-2014, be approved as proposed.

Effective date: Dates for 2012-2013 to be released with the next Academic Calendars in March 2012

### **Motion to divide motion S-201111.54:**

Casperson / Liang

That motion S-201111.54 be divided into two parts.

CARRIED.

As a result of the motion to divide motion S-201111.54, the motion was divided into two parts, as follows:

**Part 1:**

Ryan / Hartley

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the Undergraduate and Graduate Semester Dates for 2012-13 be approved as proposed.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## 2012 – 2013 Undergraduate Academic Dates

### Definitions

The academic year extends from September 1 to August 31. Most of the University course offerings are delivered during the day, and courses are available in the evening during the September and January semesters. Each 12-month academic year begins in September and is composed of the following semesters:

- September Semester: September to December
- January Semester: January to April
- May Semester (Includes Spring and Summer Intersessions): May to August

### 2012 September Semester

*[(62 Teaching Days)*

*(Mondays-11, Tuesdays-12, Wednesdays-13, Thursdays-13, Fridays-13)]*

#### September

3	Monday	Labour Day, University Closed
4	Tuesday	Orientation Day
5	Wednesday	First Day of Classes
19	Wednesday	Last Day to Add/Drop Courses without Financial Penalty

#### October

8	Monday	Thanksgiving Day, University Closed
18	Thursday	Last Day to Withdraw Without Academic Penalty

#### November

11	Sunday	Remembrance Day, University Closed
12	Monday	University Closed

#### December

3	Monday	Last Day of Classes
5	Wednesday	First Day of Exam Period
15	Saturday	Last Day of Exam Period
24 – 31	Monday – Monday	University Closed
27	Thursday	Maintenance Shutdown, University Closed

### 2013 January Semester

*[(61 Teaching Days)*

*(Mondays-12, Tuesdays-12, Wednesdays-12, Thursdays-13, Fridays-12)]*

## January

1	Tuesday	University Closed, New Year's Day
3	Thursday	First Day of Classes
17	Thursday	Last Day to Add/Drop Courses without Financial Penalty

## February

14	Thursday	Last Day to Withdraw from Courses without Academic Penalty
18	Monday	Family Day, University Closed
18 – 22	Monday – Friday	Mid-Semester Break

## March

29	Friday	Good Friday, University Closed
----	--------	--------------------------------

## April

1	Monday	Easter Monday, University Closed
8	Monday	Last Day of Classes
10	Wednesday	First Day of Exam Period
20	Saturday	Last Day of Exam Period

December 19, 2012	April 24, 2013	August 28, 2013

\*March 20, 2013: Special Budget Meeting

**Part 2:**

Ryan / Hartley

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the provisional Semester Dates for 2013-14 be approved as proposed.

A Senator suggested voting against this motion until some recommendations regarding the scheduling of examinations had been dealt with by the Senate Committee on Academic Policy and Planning, as he felt there were problems with these proposed dates in relation to the exam schedule. Concern was also expressed that three Monday teaching days were lost in the first term, and that this requires more consideration. The Registrar replied that there were other issues that the University can address to assist with the loss of teaching days. The Senator responded that, every year, Senate raises these concerns and they are not dealt with, and he would like to see that pattern broken.

DEFEATED.

**“For Information” Items:**

**SCAPP201111.10**

**Changes to Course Number, Title, and Prerequisites — ANTH 210-3**

Chasteauneuf / Deo

That the changes to the course number, title, and prerequisites for ANTH 210-3 Understanding Theory on page 182 of the 2011/2012 undergraduate calendar be approved as proposed.

**Change to Course Preclusion — NURS 451-3**

Chasteauneuf / Deo

That the changes to the preclusion for NURS 451-3 Health Assessment and RN First Call on page 255 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 451-3 Health Assessment and RN First Call** This course provides students with the knowledge and skills needed to extend their ability to conduct a thorough health assessment for diverse client populations throughout the lifespan. ~~The competencies required for RN First Call certified practice are taught. It prepares students to safely utilize the CRNBC Decision Support Tools for RN First Call practice.~~ Students conduct age-appropriate comprehensive health histories and physical examinations, identify health concerns and risks, taking into account culture, ethnicity and health beliefs, and make informed clinical judgments. ~~The diagnoses and treatment of minor acute illnesses, as determined by the CRNBC approved Decision Support Tools, are included. An extended skills building workshop is included.~~ This course features one or more extended skills-building laboratory/workshop sessions that include evaluation of history and physical assessment skills as well as utilization of the RN First Call Decision Support Tools. Upon successful completion students may apply for CRNBC RN First Call Practice Certification.

*Major Restriction:* ~~Restricted to the Rural Nursing Certificate Program or Post-Diploma BScN students only, or by permission of the Chair, School of Nursing.~~

*Precluded:* NURS 461-8

**SCAPP201111.69**

**Change to Course Description and Prerequisite — NURS 452-6**

Chasteauneuf / Deo

That the changes to the course description and prerequisite for NURS 452-6 Chronic Disease Management, Palliative Care and Wound Care on page 255 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 452-6 Chronic Disease Management, Palliative Care and Wound Care** This course has three components. The Chronic Disease Management component utilizes current, evidence-based knowledge, skills and management tools to provide effective client-centred care for those with chronic health challenges in rural practice. The Palliative Care ~~section~~ component enables the learners to extend their knowledge surrounding palliative care guidelines and discusses grief and bereavement issues. The Wound Care component examines evidence-based and cost-effective wound care for people residing in rural settings. ~~This course is restricted to registered nurses.~~

*Major Restriction:* ~~Restricted to the Rural Nursing Certificate Program or Post-Diploma BScN students only, or by permission of the Chair, School of Nursing.~~

*Prerequisites:* NURS 330-5, or Rural Nursing Certificate Program or Post-Diploma BScN students, or permission of the Chair, School of Nursing

*Precluded:* NURS 652-6

**SCAPP201111.70**

**Change to Course Preclusion — NURS 453-3**

Chasteauneuf / Deo

That the changes to the preclusion for NURS 453-3 Nursing Practice with Older Persons, on page 255 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 453-3 Nursing Practice with Older Persons** This course focuses on health-promoting, person-centred practice for nurses working with older persons in rural communities. Assessment focuses on the physical and mental health of older persons within the context of their everyday experience and their families and/or cultures. Particular attention is paid to the strengths of the individual as well as the presenting health challenges. Nurses explore strategies to prevent and/or address common health issues experienced by older persons. ~~This course is restricted to registered nurses.~~

*Major Restriction:* ~~Restricted to the~~ Rural Nursing Certificate Program or Post-Diploma BScN students ~~only~~, or ~~by~~ permission of the Chair, School of Nursing.

*Precluded:* NURS 313-3, NURS 316-2.5, NURS 323-5.5, NURS 653-3

**SCAPP201111.71**

**Change to Course Preclusion — NURS 456-3**

Chasteauneuf / Deo

That the changes to the preclusion for NURS 456-3 Mental Health and Addictions, on page 255 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 456-3 Mental Health and Addictions** This course provides knowledge and skills required to care for people living with common mental health and addiction issues encountered in rural nursing practice. A holistic relational nursing focus allows students to apply concepts to a variety of health challenges and to intervene appropriately. Nursing approaches to clinical decision making with clients who have specific mental health problems such as psychotic, mood, anxiety and personality disorders are highlighted. Nursing practice approaches to addictions, substance use, and crisis intervention, including aggression and suicide attempts, are addressed. ~~This course is restricted to registered nurses.~~

*Major Restriction:* ~~Restricted to the~~ Rural Nursing Certificate Program or Post-Diploma BScN students ~~only~~, or ~~by~~ permission of the Chair, School of Nursing

*Precluded:* NURS 312-3, NURS 315-2.5, NURS 326-5.5, NURS 656-3

**SCAPP201111.72**

**Change to Course Description and Prerequisite — NURS 457-3**

Chasteauneuf / Deo

That the changes to the course description and prerequisite for NURS 457-3 Living and Working in a Rural Community on page 256 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 457-3 Living and Working in a Rural Community** This course enables students to gain an understanding and appreciation of the unique challenges facing nurses who live and work in rural communities. Confidentiality, anonymity, cultural safety, inter-professional relationships, population health, and maintaining competence are addressed. Students gain greater knowledge and sensitivity in the provision of ethical and effective health care for First Nations populations. ~~This course is restricted to registered nurses.~~

~~Major Restriction: Restricted to the Rural Nursing Certificate Program or Post-Diploma BScN students only, or by permission of the Chair, School of Nursing.~~

~~Prerequisites: NURS 330-5, or Rural Nursing Certificate Program or Post-Diploma BScN students, or permission of the Chair, School of Nursing~~

**SCAPP201111.73**

**Change to Course Prerequisite — NURS 498-(1-6)**

Chasteauneuf / Deo

That the changes to the prerequisite for NURS 498-(1-6) Special Topics in Nursing, on page 256 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 498-(1-6) Special Topics in Nursing** This course explores a special topic in nursing. The topic varies, depending on student interest and faculty availability. No more than ~~six~~ 6 credit hours in Special Topics courses may be applied towards a BScN degree.

*Prerequisites:* Upper-division standing in Nursing, permission of the instructor, and permission of the ~~Program~~ Chair, School of Nursing.

**SCAPP201111.74**

**Change to Course Prerequisite — NURS 499-(1-6)**

Chasteauneuf / Deo

That the changes to the prerequisite for NURS 499-(1-6) Independent Study in Nursing, on page 256 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 499-(1-6) Independent Study in Nursing** This course explores a selected topic in nursing based on readings and learning experiences directed by an instructor. The course format and requirements are based on a formal contract with the instructor. No more than ~~six~~ 6 credit hours in Independent Study courses may be applied towards a BScN degree.

*Prerequisites:* Upper-division standing in Nursing, permission of the instructor, and permission of the ~~Program~~ Chair, School of Nursing.

**8.2 Senate Committee on Research and Graduate Studies**

**Fondahl / Hartley**

**“For Approval” Items:**

**S-201111.55**

**Changes to Calendar Description — First Nations Studies (MA Program)**

Hartley / Edwards

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change(s) to the First Nations Studies (MA Program) on page 72 of the 2011/2012 graduate calendar be approved as proposed.

Effective date: September 2012

The Chair of the First Nations Studies Program, Dr. Ross Hoffman, was in attendance at the meeting and asked that this motion be postponed as it had not been reviewed by the Senate Committee on First Nations and Aboriginal Peoples.

**Motion to postpone motion S-201111.55:**

Nyce / Casperson

That motion S-201111.55 be postponed until it has been reviewed by the Senate Committee on First Nations and Aboriginal Peoples.

CARRIED.

An Executive Summary of the School of Nursing proposed calendar changes for MScN and MScN: Family Nurse Practitioner Streams was included for information.

Motions S-201111.56 and S-201111.57 were dealt with as an omnibus motion.

**S-201111.56**

**Change to Calendar Description — Titles and Introductory Paragraphs for the Master of Science in Nursing (MScN:FNP and MScN Streams)**

Jensen / Deo

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change(s) to the titles and introductory paragraphs for the Master of Science in Nursing (MScN:FNP and MScN Streams) on page 88 and 89 of the 2011/2012 graduate calendar be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Master of Science in Nursing**

**~~(MScN FNP and MScN Streams)~~**

- **Family Nurse Practitioner Stream ~~(MScN: FNP)~~ (MScN (FNP))**

[www.unbc.ca/nursing/programs/graduate/fnp.html](http://www.unbc.ca/nursing/programs/graduate/fnp.html)

[www.unbc.ca/nursing/programs/graduate/mscn.html](http://www.unbc.ca/nursing/programs/graduate/mscn.html)

The Master of Science in Nursing: Family Nurse Practitioner is a practice-oriented, theory-based degree that prepares graduates to be autonomous practitioners, leaders, role models, and educators in primary health care. The focus of the Family Nurse Practitioner stream ~~will be~~ is general family practice—that is care for individuals, families, groups and communities across all life stages. ~~Family Nurse Practitioners are registered nurses with advanced education, and skills to provide a broad range of health care services from a holistic nursing perspective. In British Columbia, the goal of Family Nurse Practitioners is to improve client health outcomes by increasing accessibility to health care services, expanding clients' health care options, and filling gaps that presently exist in health care delivery. Although the role of Family Nurse Practitioners includes some activities in common with physicians, they are not substitute physicians. They will order diagnostic tests, diagnose, prescribe, and manage diseases, disorders, and conditions within a professionally regulated scope of practice. They will practice in a variety of health care settings, and work in close collaboration with other health care professionals and service providers. Family Nurse Practitioners are health professionals who have achieved the advanced nursing practice competencies at the graduate level of nursing education. Nurse Practitioners, who are regulated by the College of Registered Nurses of British Columbia, provide health~~

care services from a holistic nursing perspective, integrated with the autonomous diagnosis and treatment of acute and chronic illness, including ordering diagnostic tests and prescribing medications.

The ~~Master of Science in Nursing- Academic Masters Program~~ Thesis Stream is ~~leads to an advanced nursing practice degree that is theory-based~~ designed to prepare graduates to become autonomous practitioners, collaborators, nurse researchers, leaders, educators, change agents, and role models. Graduates of the ~~academic~~ thesis stream will work in a variety of health care settings as clinical nurse specialists, educators, administrators, and researchers, and will work with diverse populations across all age groups.

The program is designed to allow professional nurses to complete their degree within two years (three semesters per year) of full-time study, or four years of part-time study. The first year is Both streams focus on the preparation of graduates for advanced nursing practice in rural and northern communities. The streams share five core nursing courses, which built on undergraduate disciplinary learning, and focus on address community and program development and evaluation; engaging in debates influencing health care policy; applying research and undertaking evidence-based practice; promoting the health of Indigenous Peoples; and developing nursing knowledge in relation to advanced practice nursing in northern BC.

Required courses for the MScN are available by distance, with some on-site (face-to-face) requirements and required clinical practice in the MScN (FNP). The streams are designed to allow professional nurses to complete their degree on a full-time or part-time basis.

### **Criminal Records Search**

MScN students are required to undergo criminal records searches prior to being admitted, as well as prior to commencement of their first clinical courses. Proof of criminal records searches must be submitted to the Office of the Registrar.

### **Immunizations**

All students who will be undertaking clinical learning experiences must submit records of current status of the following immunizations prior to commencement of the clinical courses: diphtheria, tetanus, poliomyelitis, measles, mumps, rubella, hepatitis B and varicella.

A Mantoux test (PPD) for tuberculosis is also recommended within one month of entering the clinical setting. Failure to have up-to-date immunizations may result in the student not being permitted to practice in a clinical setting.

### **CPR Certification**

All students who will be undertaking clinical learning experiences must provide proof of current CPR certification, level C, prior to commencement of the clinical courses.

### **College of Registered Nurses of British Columbia Requisite Skills and Abilities**

All students who apply to the UNBC MScN (FNP) and MScN Thesis Streams must demonstrate the capacity to meet College of Registered Nurses of British Columbia's (CRNBC) Requisite Skills and Abilities, and sign the CRNBC form attesting to that capacity.

### **Standards of Professional Conduct**

In addition to fulfilling all University and Program expectations, all students are expected to abide by professional standards as set forth in the current CRNBC Professional Standards for Registered Nurses and Nurse Practitioners and the Canadian Nurses Association (CNA) Code of Ethics for Registered Nurses. Violation of professional standards may result in suspension or dismissal from the program or the educational institution.

## **Misconduct**

Any conduct that violates the ethical or legal standards of UNBC or CRNBC, particularly those related to academic dishonesty and professional conduct, are considered serious offenses. Academic misconduct and/or professional misconduct may result in the student being required to withdraw from the MScN Program and possibly the University. Satisfactory academic performance is not the sole criterion for progression or graduation. The UNBC School of Nursing reserves the right to require a student to withdraw from the student's program if the student is considered to be unsuited to proceed with the study or practice of advanced practice nursing.

## **Academic Performance**

All MScN students must adhere to all Graduate Program Admissions and Regulations as outlined in the UNBC Graduate Calendar. Students may be removed from a clinical learning experience or setting due to "unsafe or unprofessional" performance or conduct and may receive a final grade of F in that course.

### **S-201111.57**

#### **Change to Calendar Description — Admission and Program Pages for the Master of Science in Nursing (MScN:FNP and MScN Academic Streams)**

Jensen / Deo

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the Admission and Program Pages for the Master of Science in Nursing (MScN: FNP and MScN Academic Streams) on pages 89-90 2011-2012 graduate calendar be approved as proposed.  
Effective date: September 2012  
CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **MScN:FNP MScN (FNP) Family Nurse Practitioner Stream**

~~In addition to the core nursing courses, four nurse practitioner-specific courses focus on medical sciences, and one course focuses on the ethics and regulations governing nurse practitioner practice. Also required are two clinical practicum courses, and one internship course. On-site clinical laboratory instruction is a required component of the five courses. Placements for clinical experiences will be in rural and northern communities. A final paper completes the degree.~~

## **MScN: Academic Master's Stream**

~~In addition to the core nursing courses, two advanced practice courses, one in advanced qualitative research approaches in health and human sciences and one in quantitative research and analysis in nursing and health care, are required. As well, students must take at least one three-credit elective in nursing or a related discipline, and complete an independent research thesis.~~

## **Admission**

### **Admission to Family Nurse Practitioner Stream**

In addition to the application requirements outlined in Section 1.0 of the Graduate Academic Calendar, applicants for the Family Nurse Practitioner Stream are required to submit the following for consideration of admission:

- ~~Three letters of reference, Three Assessment Reports on Applicant for Admission to Graduate Studies. Letters of reference may accompany the Assessment Reports, at At least one of which the assessments/letters must be from a health professional from the prospective student's most recent practice setting. For prospective students who have been out of an academic program for more than ten years, three letters of reference from a practice setting, one of which must be from the most recent practice setting, will be acceptable.~~

- An academic transcript showing undergraduate courses in nursing theory, health assessment, and community health nursing, and research.
- Nursing practice ~~resume~~ résumé or curriculum vitae.
- ~~Evidence of a criminal records search.~~
- Criminal records searches prior to being admitted.
- Evidence of at least two years full-time practice experience, or equivalent, following completion of the Baccalaureate degree.
- ~~RNABC/CRNBC practicing membership.~~
- Evidence of active and continuing registration as a nurse in British Columbia. Annual documentation of current, practicing CRNBC licensure is required while enrolled in the program.

### **For Family Nurse Practitioner Stream**

- ~~Evidence of at least two years practice experience following completion of the Baccalaureate degree.~~
- ~~RNABC/CRNBC practicing membership.~~

### **For Academic Stream**

- ~~Applicants must have current active registration (in the jurisdiction in which the student resides while taking the program).~~

Application deadlines are found in this calendar under “Semester Dates” or online at: [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under “Semester Dates.” The ~~Nursing Program (MScN-FNP and MScN)~~ MScN (FNP) Stream accepts students for the September Semester.

For additional information about graduate admissions or to download application materials, go to the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

### **Requirements**

In addition to five core MScN courses (15 credit hours), eight nurse practitioner-specific courses (36 credit hours), are required. On-site instruction is a required component of five courses. Placements for clinical experiences will be in rural and northern communities. A final project completes the degree.

#### **Family Nurse Practitioner Stream**

Core Courses:	15 credit hours
Nurse Practitioner Courses ( <u>includes project</u> ):	36 credit hours
TOTAL:	51 credit hours

#### **Academic Stream**

Core Courses:	15 credit hours
Advanced Practice Courses:	6 credit hours
Elective:	3 credit hours
Thesis:	12 credit hours
TOTAL:	36 credit hours

### **Family Nurse Practitioner Stream Required Courses Requirements**

#### **Core courses**

- NURS 604-3 The Healing and Well-being of Indigenous Peoples
- NURS 606-3 Developing Nursing Knowledge
- NURS 607-3 Applying Research and Evidence to Practice
- NURS 703-3 Health Program Planning, Community Development and Evaluation
- POLS 603-3 Social and Health Policy in the Context of Health and Health Care

*\*Note: POLS 603-3 is precluded if the student already has credit for POLS 403-3. The student is required to choose another course to make up the credit hours upon consultation with their supervisor.*

#### **Nurse Practitioner Courses**

## **Core courses**

### **Nurse Practitioner Courses**

NURS 602-3 Pathophysiology  
NURS 603-3 Health Assessment and Diagnostic Reasoning  
NURS 720-6 Practicum: Integrating Primary Health Care I  
NURS 605-3 Pharmacological Management and Therapeutic Interventions  
NURS 730-6 Practicum: Integrating Primary Health Care II  
NURS 608-3 Ethics, Accountability and Responsibility for Practice  
NURS 790-9 Nurse Practitioner Internship  
NURS 798-3 Nurse Practitioner Project

## **Program Costs**

Costs associated with study in the MScN (FNP) are the responsibility of the individual student, including transportation costs, and any expenses involved in academic studies, lab, and clinical practica. This includes travel, accommodation, and living expenses associated with required clinical practice or travel to campus for required face-to-face (on-campus) course work. See the Fees section in this calendar.

## **MScN Thesis Stream**

### **Admission to MScN Thesis Stream**

In addition to the application requirements outlined in Section 1.0 of the Graduate Academic Calendar, applicants for the Academic Master's Stream are required to submit the following for consideration of admission:

- Three Assessment Reports on Applicant for Admission to Graduate Studies. Letters of reference may accompany the Assessment Reports. At least one of the assessments/letters must be from a health professional from the prospective student's most recent practice setting.
- An academic transcript showing undergraduate courses in nursing theory, health assessment, community health nursing, and research.
- Nursing practice résumé or curriculum vitae.
- Criminal records searches prior to being admitted.
- Applicants must have current active registration (in the jurisdiction in which the student resides while taking the program). Annual documentation of current licensure is required while enrolled in the program.

Application deadlines are found in this calendar under "Semester Dates" or online at [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under "Semester Dates." The MScN accepts students for the September and January Semesters.

For additional information about graduate admissions or to download application materials, go to the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

### **Academic Thesis Stream Required Courses Requirements**

In addition to the core courses, one elective and two advanced nursing practice courses are required. As well, students must complete an independent research thesis.

#### **Thesis Stream**

Core Courses:	15 credit hours
Advanced Practice Courses:	6 credit hours
Elective:	3 credit hours
Thesis:	12 credit hours
TOTAL:	36 credit hours

#### **Core courses**

NURS 604-3 The Healing and Well-being of Indigenous Peoples  
NURS 606-3 Developing Nursing Knowledge  
NURS 607-3 Applying Research and Evidence to Practice

NURS 703-3 Health Program Planning, Community Development  
and Evaluation  
POLN 603-3 Social and Health Policy in the Context of Health and  
Health Care

*\*Note: POLN 603-3 is precluded if the student already has credit for  
POLN 403-3. The student is required to choose another course to  
make up the credit hours upon consultation with their supervisor.*

### **Advanced Nursing Practice Courses**

#### **Advanced Nursing Practice Courses**

NURS 609-3 Qualitative Research Approaches in Nursing and  
Health  
NURS 610-3 Quantitative Research in Nursing and Health

### **Electives**

#### **Electives**

At least 3 credit hours of graduate-level study (i.e., at or above the  
600 level). The purpose is to broaden the student's depth and scope  
of learning on a particular topic of interest. The supervisory committee  
will ensure the appropriate selection of relevant elective course(s).

### **Thesis**

#### **Thesis**

NURS 799-12 Thesis

MScN (academic) Academic Thesis Stream students must write and defend an independent  
research thesis. The thesis entails research in a topic area developed  
in consultation with the student's supervisory committee. Oral  
examination is required as per University regulations.

### **Program Policies**

~~All students are expected to maintain RNABC/CRNBC practicing  
membership throughout their program, and provide evidence of  
registration annually.~~

### **Program Costs**

Costs associated with study in the MScN are the responsibility of the  
individual student, including transportation costs, and any expenses  
involved in academic studies, lab, and clinical practica. This includes  
travel, accommodation, and living expenses associated with required  
clinical practice or travel to campus for required face-to-face course  
work. See the Fees section in this calendar.

#### **S-201111.58**

#### **Change to Credit Hours and Course Description — NURS 681-3**

Chasteauneuf / Deo

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the  
change(s) to the credit hours and the course description for NURS 681-3 on page 128 of the 2011/2012  
Graduate Calendar be approved as proposed.

Effective date: January 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by  
~~striethrough~~, new text indicated by underline, and [commentary, where included, in  
Courier New font within square brackets]):

#### **NURS 681-3 (1-6) Independent Study**

The details of this course are determined on an individual basis between faculty and graduate  
students.

**S-201111.59**

**Change to Grade Mode — NURS 798-3**

Annis / Wagner

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change to the grade assignment for NURS 798-3 Nurse Practitioner Project, from Normal grade mode to "Pass/Fail," be approved as proposed.

Effective date: September 2012

CARRIED.

**"For Information" Items:**

**SCRGS201111.03**

**Change to Course Description — EDUC 719-3**

Chasteauneuf / Deo

That the change to the course description for EDUC 719-3 Counselling Practicum, on page 112 of the 2011/2012 graduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**EDUC 719-3 Counselling Practicum** This course includes a practicum placement in at least one school, agency or institutional setting; scheduled seminars; and individual supervision. Students are required to complete ~~420~~ 150 hours of direct client contact time at their practicum. This course is restricted to MEd Counselling students.

**SCRGS201111.08**

**Change to Course Description — NURS 603-3**

Chasteauneuf / Deo

That the change to the course description for NURS 603-3 Health Assessment and Diagnostic Reasoning, on page 127 of the 2011/2012 graduate calendar be approved as proposed.

Effective date: January 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

NURS 603-3 Health Assessment and Diagnostic Reasoning: This course prepares students to perform comprehensive advanced health assessments with clients across the life-span. The integration of interpersonal communication and physical assessment skills with diagnostic reasoning, critical thinking and clinical decision-making in determining differential diagnoses is emphasized. Students learn health assessment and diagnostic reasoning in accordance with Nurse Practitioner professional regulations and ~~standards of nursing~~ within the context of interpersonal practice.

**Prerequisites or Co-requisites:** NURS 602-3 or permission of the ~~instructor~~ Program Coordinator or Chair, School of Nursing

**SCRGS201111.09**

**Change to Course Prerequisites — NURS 605-3**

Chasteauneuf / Deo

That the change(s) to the prerequisites for NURS 605-3 Pharmacological Management and the Therapeutic Interventions, on page 127 of the 2011/12 graduate calendar be approved as proposed.

Effective date: January 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 605-3 Pharmacological Management and Therapeutic Interventions:** This course provides students with the most current advanced knowledge of pharmacology, including pharmacokinetics and pharmacodynamics. Students learn about evidence-based practice in the selection, prescription and monitoring of drugs to treat diseases, disorders, conditions and injuries commonly used in primary health care settings within the CRNBC limits and conditions prescribing and dispensing regulations. Based on client health history, disease, disorder or condition, this course involves in-depth study of the mechanisms of drug interactions, therapeutic and adverse effects, drug interactions, and client education. Emphasis is on clinical decision-making applied in case studies that span a variety of age groups and conditions.

**Prerequisites:** NURS 602-3, ~~NURS 720-6~~

**SCRGS201111.10**

**Change to Course Description and Preclusions — NURS 610-3**

Chasteauneuf / Deo

That the change(s) to the course description and preclusions for NURS 610-3 Quantitative Research in Nursing and Health on page 128 of the 2011/2012 graduate calendar be approved as proposed.

Effective date: January 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 610-3 Quantitative Research in Nursing and Health**

This course introduces students to a range of quantitative research designs, methods and statistical approaches that are commonly used in nursing practice, nursing education and health care. The course prepares students ~~with research and statistical~~ by providing methodological tools required to undertake a thesis.

*Precluded:* ~~EDUC 602-4~~, SOCW 609-3

**SCRGS201111.11**

**Change to Course Prerequisites — NURS 720-6**

Chasteauneuf / Deo

That the change(s) to the prerequisites for NURS 720-6 Practicum: Integrating Primary Health Care I, on page 129 of the 2011/2012 graduate calendar be approved as proposed.

Effective date: January 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 720-6 Practicum: Integrating Primary Health Care I** This course enables students to consolidate and practice knowledge and skills in assessing, diagnosing and managing physical and mental health/illness of adults, older adults and their families. The focus is on the management of common episodic and chronic health conditions of individuals across the lifespan, within the context of family and community in northern primary health care settings. Emphasis is placed on health promotion and illness/injury prevention strategies and on chronic self-care management. Situations requiring physician referral and managing rapidly changing situations are also addressed. This two-part course, which consists of on-site practice seminars and a clinical practicum, includes structured clinical evaluation.

Prerequisites: NURS 602-3, NURS 603-3, ~~NURS 604-3~~, or permission of the instructor., NURS 605-3, NURS 607-3, NURS 608-3, or permission of the Program Coordinator or Chair, School of Nursing.

**SCRGS201111.12**

**Change to Course Prerequisites — NURS 730-6**

Chasteauneuf / Deo

That the change(s) to the prerequisites for NURS 730-6 Practicum: Integrating Primary Health Care II on page 129 of the 2011/2012 graduate calendar be approved as proposed.

Effective date: January 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

NURS 730-6 Practicum: Integrating Primary Health Care II This course enables students to extend their knowledge and practice skills in northern primary health care settings with an emphasis on the development of core family nurse practitioner competencies related to caring for perinatal women, infants, children and adolescents. Emphasis is placed on health promotion and illness/injury prevention strategies and on chronic self-care management. Situations requiring physician referral and managing rapidly changing situations are also addressed. This two-part course, which consists of on-site practice and seminars and a clinical practicum, includes a structured clinical evaluation.

Prerequisites: ~~NURS 605-3, NURS 606-3, NURS 720-6~~ or permission of the instructor or permission of the Program Coordinator or Chair, School of Nursing.

**SCRGS201111.13**

**Change to Course Prerequisites — NURS 790-9**

Chasteauneuf / Deo

That the change(s) to the prerequisites for NURS 790-9 Nurse Practitioner Internship on page 129 of the 2011/2012 graduate calendar be approved as proposed.

Effective date: January 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

NURS 790-9 Nurse Practitioner Internship This final practicum course, consisting of seminars and concentrated clinical practice, sees students building upon previously acquired family nurse practitioner knowledge and skills. Students undertake autonomous, collaborative primary health care practice, through consolidating their skills and judgment in the assessment, management and care of individuals and families across the lifespan. Students collaborate with other health professionals to provide comprehensive care, and begin to take on leadership roles in addressing population health needs, service gaps and the promotion of health in primary care settings.

Prerequisites: ~~NURS 607-3, NURS 608-3, NURS 730-6~~ or permission of the instructor. Program Coordinator or the Chair, School of Nursing.

CARRIED (consent agenda).

## 8.4 Steering Committee of Senate

Iwama

**S-201111.60****Revisions to Senate Handbook — Membership of Senate Committee on Honorary Degrees and Other Forms of Special Recognition**

Fondahl / Beeler

That the revisions to the Senate Handbook (addition of Vice President, External Relations to the membership of Senate Committee on Honorary Degrees and Other Forms of Special Recognition) be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

**9.0 Other Business** *(no material)*

**9.1** Report of the Registrar

**Hanschen**

The Registrar provided a report regarding activities he is currently focusing on, including relationship-building, attending meetings with other units, re-engaging with the services on campus, and re-opening lines of communication between the Office of the Registrar and other University departments. He is also working on ensuring technology is used to the greatest extent possible to address concerns. One of the specific tasks being examined is course scheduling, which Mr. Hanschen reminded Senators is a University-wide concern. With regard to course scheduling, information is being gathered in order to utilize the scheduling software in a more productive manner. The Registrar is also attempting to address concerns raised in relation to examination scheduling, and as a result is examining options such as the use of the Northern Sport Centre. Working with Graduate Studies, the Registrar is attempting to streamline graduate student processes. Mr. Hanschen added that he is also working to identify areas in which policies, procedures, and forms can be streamlined; for instance, with regard to academic standing and the requirement to withdraw, he is looking into whether this task needs to be undertaken in the September semester.

The Registrar noted that there are several Working Groups that he is either a member of or assisting with at the current time. The SCAPP Working Group on Academic Structure was tasked with restructuring the calendar, reviewing terminology related to streams, specializations, focuses, and the like, and looking at the policy regarding academic Minors. Another working group is examining course numbering, including the lack of consistency between graduate and undergraduate courses which deal with special topics, for instance. Finally, there is a working group looking into Continuing Studies courses that are offered for credit, as there have been a number of issues raised with these courses, including that some have no required prerequisites and that international students are taking them at a lower tuition cost than the identical credit course.

Mr. Hanschen indicated that he welcomed questions, comments, or concerns from Senators, and invited them to contact him any time.

**10.0 Information**

There were no items for information.

**11.0 S-201111.61  
Move to In Camera Session**

Ryan / Casperson  
That the meeting move In Camera.  
CARRIED.

### 3.0 Business Arising from Previous Minutes of Senate

Motions S-201112.03 to S-201112.07 were dealt with as an omnibus motion.

#### **S-201112.03**

##### **New Course Approval — ANTH 213-3**

Ryan / Robinson

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course ANTH 213-3 Peoples and Cultures be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course examines the diversity of human cultures and languages through the comparison of contemporary societies, and patterns of social organization.

#### **S-201112.04**

##### **Course Deletion — NURS 441-(3,5,8)**

Ryan / Robinson

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the deletion of NURS 441-(3,5,8) Practicum: First Nations Health and Nursing (course description on page 254 of the 2011/2012 undergraduate calendar) be approved as proposed.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~**NURS 441-(3, 5, 8) Practicum: First Nations Health and Nursing** This course provides clinical experiences for nursing students interested in working with First Nations clients, families, and communities. Clinical experiences are in agencies within First Nations Communities, or in agencies that primarily serve First Nations clients. The NCBNP requires a 5 or 8 credit practicum, and Post Diploma BScN students complete a 3 credit practicum.~~

~~*Prerequisites:* NURS 415 3 and NURS 416 4, or permission of the Program Chair~~

~~*Co-requisites:* NURS 422 3~~

#### **S-201112.05**

##### **Changes to Course Credit Hours and Description — NURS 422-3**

Ryan / Robinson

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the credit hours and course description for NURS 422-3 First Nations Health and Nursing on page 253 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~**NURS 422-3(6, 8) First Nations Health and Nursing** This course examines historical and current social, political, and economic factors influencing the health of First Nations people in Canada. Current health issues and related nursing implications are emphasized. Topics include: the impact of colonization on health, effects of rapid cultural changes, nursing management of~~

~~specific health issues, culturally sensitive approaches to nursing care, the health transfer process, and special topics related to health.~~

This course provides the opportunity for students to increase their understanding of the theories, roles and practices required by nurses in First Nations communities. Included are the theoretical and practical exploration of the impact of colonization on health, effects of rapid cultural changes, nursing management of specific health issues, culturally sensitive approaches to nursing care, the health transfer process, and special topics related to health. During an extended clinical practicum, students integrate theoretical understandings and evidence into contributing to services and programs in First Nations communities, or in agencies that primarily serve First Nations clients. The NCBNP requires the 8 credit hour course, and Post-Diploma BScN students complete the 6 credit hour course.

~~*Prerequisites:* NURS 415-3 and NURS 416-4, or permission of the Program Chair.~~

*Prerequisites:* NURS 418-7, or permission of the Chair, School of Nursing for 8 credit hour course

*Major Restriction:* Rural Nursing Certificate Program or Post-Diploma BScN students, or permission of the Chair, School of Nursing for 6 credit hour course

*Precluded:* NURS 441-(3, 5, 8)

### **S-201112.06**

#### **Change to Course Prerequisite — NURS 205-3**

Ryan / Robinson

That the changes to the prerequisite for NURS 205-3 Introduction to First Nations Health on page 251 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 205-3 Introduction to First Nations Health** This course provides an overview of First Nations health, factors influencing health status, and issues arising from ~~Northern~~ northern and remote living. Historical events and their impact on health are introduced. Current barriers to health, along with culturally sensitive nursing implications, are explored.

*Pre- or co-requisites:* ANTH ~~401-3~~ 213-3 or equivalent. Admission for non-nursing students by permission of the instructor.

*Precluded:* FNST 302-3

### **S-201112.07**

#### **Changes to Calendar Description — First Nations Studies (MA Program)**

Ryan / Robinson

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change(s) to the First Nations Studies (MA Program) on page 72 of the 2011/2012 graduate calendar be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **First Nations Studies (MA Program)**

Ross Hoffman, ~~Assistant~~ Associate Professor and Chair

Antonia Mills, Professor  
Margaret Anderson, Professor Emeritus  
Fyre Jean Graveline, Professor  
Margo Greenwood, Associate Professor  
Josée Lavoie, Associate Professor (Community Health Sciences)  
Blanca Schorcht, Associate Professor (English)  
Wendy Aasen, Adjunct Professor  
Tina Fraser, ~~Assistant~~ Adjunct Professor  
Earl Henderson, Adjunct Professor  
Travis Holyk, Adjunct Professor  
Marilyn Iwama, Adjunct Professor  
Paul Michel, Adjunct Professor  
Deanna Nyce, Adjunct Professor  
Karen Sharp, Lecturer

Website: [www.unbc.ca/firstnations](http://www.unbc.ca/firstnations)

The UNBC MA program in First Nations Studies establishes the points of view of First Nations people and communities as the starting point for description and analysis, and contextualizes issues from this perspective. Courses ~~will~~ orient students to question underlying assumptions of everyday study. A special emphasis ~~will be~~ is placed on creating opportunities for students to learn from and about the First Nations of the north, including courses taught in First Nations communities, internships, and community-based research projects. Each student's program ~~will~~ culminates in completion of either a thesis or major project.

In addition to the high priority on the First Nations of northern British Columbia, offerings ~~will~~ include topics relevant to the First Nations of Canada and indigenous peoples of the world. The two specific streams of study within the program are First Nations Issues and Approaches, emphasizing the development of theory and method for the understanding of contemporary issues, and Northern Nations, which ~~will~~ facilitates students who aim to develop skills, knowledge, and experience in the study of the languages and cultures of northern British Columbia. Links to other graduate programs at UNBC ~~will~~ enrich the options for interdisciplinary work in areas such as Women's Studies, History, Environmental Studies, and Geography, etc. Application deadlines are found in this calendar under "Semester Dates" or online at: [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under "Semester Dates." The First Nations Studies MA Program accepts students for the September ~~and January~~ Semesters only.

#### **4.0 President's Report**

**Iwama**

A verbal report was presented, which highlighted the following points:

- Opportunities for UNBC with regard to the shortage of skilled workers in northern BC
- International student recruitment priorities of the federal and provincial governments
- Proposal for the second stage of the Bioenergy initiative at UNBC
- Update on the Engineering Program and the Wood Innovation and Design Centre

A summary of Dr. Iwama's report is appended to these minutes, as "Appendix I."

#### **5.0 Report of the Provost**

**Dale**

Dr. Dale reported on several items, and his report is attached to these minutes as "Appendix II."

## 6.0 Question Period

A question was asked about the status of the M.Sc. in Biochemistry which was currently being reviewed by the Degree Quality Assessment Board (DQAB). As a result of this discussion, two action items were forthcoming:

**Action:** Dean Hartley to consult with the Ministry to determine whether students can be admitted to this degree now.

Dr. Dale and Dr. Iwama to investigate mobilization of a document-storage process.

Clarification was sought regarding the recent audit of the Board of Governors to which Dr. Iwama responded, noting that this audit was an initiative of the Auditor General's office. Two additional questions were raised, namely whether the Ministry had indicated that this year's budget would be cut, to which Dr. Iwama responded it had not, and whether the administration had a position on the advisability of Bill 18. Dr. Iwama also responded to the second question, indicating that the Research University Council of BC had conferred about the Bill briefly but had decided not to discuss it any further until it is considered in the Legislature.

## 7.0 S-201112.08

### **Approval of Motions on the Consent Agenda**

Ryan / Hartley

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

## 8.0 Committee Reports

### 8.1 Senate Committee on Academic Policy and Planning

Dale

#### S-201112.09

#### **Changes to Program Requirements — Joint Major in Anthropology and Geography**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the Joint Major in Anthropology and Geography, on page 72 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

This motion was WITHDRAWN.

#### S-201112.10

#### **Changes to Program Requirements — English (BA Program)**

Ryan / Hartley

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the Department of English (BA Program), on page 105-109 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Major in English

The major in English requires students to take 18 English courses (54 credit hours), at least 30 credit hours of which must be upper-division courses (300 and 400 level) with at least ~~nine~~ 9 credit hours of these at the 400 level. Students wishing to take more than 66 credit hours in English must obtain written permission from the Department Chair. The minimum requirement for completion of a Bachelor of Arts with a major in English is 120 credit hours.

# Program Requirements

## Subject Requirement

The major in English requires students to take 18 courses (54 credit hours) of English or approved ancillary courses and must include:

One of:

ENGL 100-3 Introduction to Literary Structures  
ENGL 102-3 Introduction to Poetry  
ENGL 103-3 Introduction to Fiction  
ENGL 104-3 Introduction to Drama and/or Film

Both:

ENGL 211-3 Survey of English Literature I  
ENGL 212-3 Survey of English Literature II

One of:

ENGL 200-3 Gender and Literary Theory  
ENGL 300-3 Theory  
ENGL 400-3 Contemporary Theory

Two of:

ENGL 210-3 Women and Literature: A Survey  
ENGL 280-3 Shakespeare  
    or ENGL 281-3 Introduction to Renaissance Literature  
    or ENGL 381-3 Renaissance Literature  
ENGL 282-3 Introduction to Restoration and 18th Century Literature  
    or ENGL 382-3 Restoration and 18th Century Literature  
ENGL 283-3 Introduction to Romantic Literature  
    or ENGL 383-3 Romantic Literature  
ENGL 284-3 Introduction to Victorian Literature  
    or ENGL 384-3 Victorian Literature  
    or ENGL 386-3 19th Century Literature in the United States  
ENGL 285-3 Modern British Literature  
    or ~~ENGL 385-3 Modern and Contemporary Literature in the United States~~

Two of:

ENGL 320-3 First Nations Literature  
ENGL 331-3 Genres in Canadian Literature  
ENGL 340-3 Postcolonial Literature  
ENGL 350-3 Comparative Literature  
ENGL 410-3 Contemporary Women's Literature  
ENGL 420-3 Advanced First Nations Literature  
ENGL 430-3 Special Topics in Canadian Literature  
ENGL 440-3 Postcolonial Literature I  
ENGL 450-3 Special Topics in Comparative Literature

An additional 10 courses (30 credit hours) of English or approved ancillary courses (chosen to ensure fulfillment of upper-division requirement).

### Approved Ancillary Courses for a Major in English

Up to three of the following ancillary courses may be counted towards the English major requirements, but none may be counted towards an English minor.

WMST 209-3 Gender and Cultural Studies: An Introduction  
WMST 304-3 Contemporary Women's Writing in an International Frame  
WMST 306-3 Indigenous Women: Perspectives  
WMST 309-3 Gender and Film  
WMST 311-3 History of Feminist Theories  
WMST 401-3 Cultural Studies: Gender, Race and Representation  
WMST 411-3 Contemporary Feminist Theories

Note: A maximum of three ancillary courses (nine 9 credit hours) may be used to fulfill English subject requirements. Students planning to continue on to a graduate degree in English should consult with English faculty and/or the receiving institution to assist them in determining which courses are most appropriate in fulfilling the additional 10 courses (30 credit hours) of English subject requirements.

## Upper-Division Requirement

At least 30 credit hours of the 54 required must be at 300 or 400 level, with at least ~~nine~~ 9 credit hours of these at the 400 level. Any of the required 300- or 400-level courses specified above can count towards the 30 credit hours required at the 300 or 400 level.

## Elective and Academic Breadth

Electives at any level in any subject sufficient to ensure completion of a minimum of 120 credit hours including any additional credit hours necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

# Joint Major in English and Environmental Studies

The English/Environmental Studies joint major equips students with communication skills and knowledge of environmental issues, regulations and policies. The major prepares students to have a positive influence on the environment through written and other forms of expression. This joint major is of particular interest to students who wish to pursue a career in environmental writing, creative non-fiction, science writing and/or journalism.

## Program Requirements

### Lower-Division Requirement

ENGL104-3 Introduction to Film  
ENGL 209-3 Introduction to TV Studies

SOCW 449-3 Gender and Sexuality

## Elective and Academic Breadth

Electives at any level in any subject sufficient to ensure completion of a minimum of 120 credit hours including any additional credit hours necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

## Minor in English

The minor in English requires that students take at least six English courses (18 credit hours), at least four (12 credit hours) of which must be upper-division. A maximum of two courses (~~six~~ 6 credit hours) used to fulfill program requirements for a major or another minor may also be used to fulfill requirements for a minor in English. The minor must include:

One of:

ENGL 200-3 Gender and Literary Theory  
ENGL 300-3 Theory  
ENGL 400-3 Contemporary Theory

~~Five~~ 5 English courses selected to ensure a minimum of four courses are completed at the 300 or 400 level.

### **S-201112.11**

#### **New Program Approval — Foundation Year Curriculum Program**

Deo / Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new Foundation Year Curriculum Program be approved as proposed.

Proposed start date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **Foundation Year Curriculum Program (FNDS)**

The Foundation Year Curriculum Program at UNBC offers first-year students a rich and unique learning experience. Supported by seven academic units in the College of Arts, Social and Health Sciences (Anthropology, Economics, English, First Nations Studies, International Studies, Political Science, and Northern Studies), FNDS delivers an integrated and interdisciplinary curriculum. FNDS is cohort based: small groups of students will work together across courses. Intake for FNDS is limited to 65 students who self-select to take part in the Program. FNDS courses are accepted as meeting the degree requirements for the seven departments listed above.

The FNDS is made up of 18 credit hours spread out over two terms. However, FNDS does not occupy the full first year, as students can register for other courses and programs. That is, 9 credit hours are taken in the September Semester and 9 credit hours are taken in the January Semester. The courses blend content and teaching in ways that prepare students for success in university and beyond.

Curriculum in FNDS focuses on learning outcomes and on content breadth across the Liberal Arts. Learning outcomes in FNDS *include the following: 1) Appropriate depth and breadth of knowledge and skills; 2) Analytical, critical, and creative thinking skills; 3) Liberality, inclusiveness, and an appreciation of diversity; 4) Personal growth, leadership skills and effective communication; 5) Life-long learning and intellectual development; 6) Engaged citizenship from the local to global levels.*

FNDS is recommended for students entering UNBC for the first time in one of the seven academic units listed above and who desire to work with a small group of students in a learning environment designed to facilitate student engagement with their peers. Through interaction with a small group of professors, this program will also assist first-year students to achieve improved academic performance throughout their four years at UNBC.

#### **Curriculum:**

- FNDS 101-3: Ways of Knowing
- FNDS 102-3: Waves of Globalization
- FNDS 103-3: Foundations of Learning I
- FNDS 104-3: Peoples, Places and Culture
- FNDS 105-3: What is Security?
- FNDS 106-3: Foundations of Learning II

Motions S-201112.12 to S-201112.17 were dealt with as an omnibus motion.

### **S-201112.12**

#### **New Course Approval — FNDS 101-3**

Chen / Jensen

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNDS 101-3 Ways of Knowing be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course introduces students to the "ways of knowing" that inform and shape the Humanities and Social Sciences. It is based on three main questions related to knowledge: What is it and how is it defined? How do we assess it? How do we communicate it? Related questions include: What forms does knowledge take? What counts as knowledge? Who has the power to define what counts as knowledge? Is there only one "truth?" How do we know what is credible? How do we share knowledge? Who gets to share knowledge? In other words, is knowledge political? What practices define the ways Humanities and Social Science disciplines define, assess and communicate knowledge? Student participation in "hands-on" learning is a key element of the course structure.

**Co-requisites:**

Students will be required to register in all six FNDS courses offered that year

**S-201112.13**

**New Course Approval — FNDS 102-3**

Chen / Jensen

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNDS 102-3 Waves of Globalization be approved as proposed.

Proposed semester of first offering: January 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

“Globalization” is one of the most popular words in the Social Sciences today. It is also one whose meaning has been much debated. The purpose of this course is to introduce students to the ways in which globalization has occurred, its causes and its consequences, as a way of better understanding what the concept means and how it affects us today.

**Co-requisites:**

Students will be required to register in all six FNDS courses offered that year

**S-201112.14**

**New Course Approval — FNDS 103-3**

Chen / Jensen

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNDS 103-3 Foundations of Learning I be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course parallels and complements the other two FNDS courses offered during the same semester, and integrates foundational readings and course content. The course focuses on critical thinking; academic reading and writing; oral presentation; library skills; and peer learning. Students meet the course objectives by working together in cohorts to discuss and practice university-level standards for writing and critical thought.

**Co-requisites:**

Students will be required to register in all six FNDS courses offered that year

**S-201112.15**

**New Course Approval — FNDS 104-3**

Chen / Jensen

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNDS 104-3 Peoples, Places and Culture be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course focuses on how people are shaped by and shape their worlds and where they live. People's attachment to place is meaningful and the sense of place influences our identity and our social and cultural interactions with others and with the world. Different cultures and peoples within those cultures may hold various and diverse meanings of place. One person throughout their lifetime may even understand their place, and their place in the world, in different and changing ways. All of us are always "in place" somewhere. The goal of this course is to become aware of the impact "being in place" has on our lives and the lives of others by exploring the key concepts of place, identity and belonging.

**Co-requisites:**

Students will be required to register in all six FNDS courses offered that year

**S-201112.16**

**New Course Approval — FNDS 105-3**

Chen / Jensen

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNDS 105-3 What is Security? be approved as proposed.

Proposed semester of first offering: January 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Focusing on different interpretations of the concept of security, students explore how security is subject to various interpretations over time and how different locations in society and across cultures can result in alternative understandings of security.

**Co-requisites:**

Students will be required to register in all six FNDS courses offered that year

**S-201112.17**

**New Course Approval — FNDS 106-3**

Chen / Jensen

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNDS 106-3 Foundations of Learning II be approved as proposed.

Proposed semester of first offering: January 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course parallels and complements the other two FNDS courses offered during the same semester, and integrates foundational readings and course content. The course focuses on critical thinking; academic reading and writing; oral presentation; library skills; and peer learning. Students meet the course objectives by working together in cohorts to discuss and practice university-level standards for writing and critical thought.

**Prerequisites:**

Method and Applications I

**Co-requisites:**

Students will be required to register in all six FNDS courses offered that year

**S-201112.18**

**Changes to Degree Requirements — Psychology (BSc Honours)**

Ryan / Hartley

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the calendar description for the BSc Honours Psychology degree requirements, on page 173 of the 2010/11 undergraduate calendar, be approved as proposed.

Effective date: September 2011

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**BSc Honours – Psychology**

Honours students are required to complete 122 credit hours. Students must successfully complete the 56 credit hours for the Psychology BSc program, 54 credit hours of electives and 12 credit hours from the courses listed below.

PSYC 490-3 Honours Thesis I

PSYC 495-3 Honours Thesis II

PSYC 497-3 Senior Seminar

and one additional 400-level Psychology course.

Each student ~~will~~ must complete a thesis project [PSYC 490-3 (Honours Thesis I), PSYC 495-3 (Honours Thesis II)] under the supervision of a faculty member. Admission to the ~~h~~Honours ~~p~~Program ~~will~~ takes place after the end of the second year (i.e., upon completion of 60 credit hours) and ~~will~~ requires a minimum Cumulative GPA of 3.33. Attaining the minimum requirement ~~will~~ does not guarantee admission to the ~~h~~Honours ~~p~~Program, which will be at the discretion of the Department. To remain in the ~~h~~Honours ~~p~~Program students must maintain a minimum Cumulative GPA of 3.33 to be calculated at the end of each semester as well as receive no grade lower than a C+ in any course after admittance to the Honours Program.

The minimum requirement for completion of a BSc Honours - Psychology is 122 credit hours.

**S-201112.19**

**New Course Approval — PSYC 408-3**

Ryan / Hartley

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course PSYC 408-3 Environmental Problems and Human Behaviour be approved as proposed.

Proposed semester of first offering: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course is a study of the individual's role in environmental conservation. Many environmental problems have their origin in human behaviour. The field of psychology is able to identify factors within and outside the individual that give rise to unsustainable lifestyles and, therefore, to identify approaches to conservation that take human psychology and well-being into consideration.

**Prerequisites:** Upper division standing. Recommended: PSYC 102, PSYC 301

**SCAPP20111130.12**

**Changes to Calendar Course Description and Preclusions — HHSC 473-3**

Ryan / Hartley

That the change(s) to the calendar course description and preclusions for HHSC 473-3 be approved as proposed.

Effective date: January 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Pg 235, 2011/2012 Calendar  
1st Column**

**HHSC 473-3 Health Promotion** This course examines health promotion theories, principles, and underlying philosophies ~~within a primary health care framework~~. Students identify and critique health promotion issues and ~~explore strategies which promote well-being among individuals, groups, and communities~~ also gain experience in developing strategies to promote health and well-being at individual, group and community levels.

Prerequisites: Upper-level standing in the BHSc program.

Precluded: ~~NURS 402-3~~

**8.2 Senate Committee on Research and Graduate Studies**

**Fondahl / Hartley**

**SCRGS20111130.03**

**Changes to Course Description and Prerequisites — EDUC 613-3**

Ryan / Hartley

That the changes to the course description and prerequisites for EDUC 613-3 Interpersonal Counselling Skills, on page 109 of the 2011/2012 graduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**EDUC 613-3 Interpersonal Counselling Skills** ~~This course is an interpersonal communication course that links counselling theory and counselling practice using the~~

~~Rogerian Person-Centered approach to counselling, based on post-modern and post-structuralist theory.~~

Effective Date: 2011-2012 Academic Year

CARRIED (consent agenda).

**8.4 Senate Committee on Nominations**

**Kitchenham**

In the absence of Senator Kitchenham, Senator Johnson delivered the report from this committee.

**S-201112.22**

**Membership Changes to Senate Committees**

Hutchings / Fondahl

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate committees as indicated, be appointed as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

**SENATE OR SENATE COMMITTEE POSITION TO BE FILLED**  
*(except as otherwise noted, all terms begin immediately)*

**CANDIDATE**

**Senate Committee on Academic Appeals**

Faculty Member

(replacing Ted Binnema, until March 31, 2014)

Kuo-Hsing Kuo

**9.0 Other Business**

- 9.1** Presentation — “Implementation of the University Plan and Vice-Presidential Action Plans in Support of the University Plan” **Iwama**

Dr. Iwama delivered a presentation to Senate regarding the University Plan and updated Vice-Presidential Action Plans, which is attached to these minutes as “Appendix III.” Vice President Fondahl and Dr. Dale, Provost, provided information about developments in their portfolios.

- 9.2** Report of the Registrar — Minutes of Senate Meetings **Hanschen**

Mr. Hanschen reported on recent discussions regarding what should and should not be recorded in the Senate minutes. The report is attached to these minutes as “Appendix IV.”

**10.0 Information**

- 10.1** 2010-2011 Annual Report from the College of Arts, Social and Health Sciences

This report was provided for the information of Senators.

- 11.0** **S-201112.23**  
**Move to In Camera Session**

That the meeting move In Camera.

Prior to dealing with the motion to adjourn the Senate meeting, the following motion was forthcoming:

Young / Lazenby

That former Senator Ted Binnema be thanked on behalf of Senate for serving as Chair of the Senate Committee on Academic Appeals.

CARRIED.

- 12.0** **S-201112.28**  
**Adjournment**

Hutchings / Young

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 4:40 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

January 25, 2012  
3:30 – 5:30 PM

Room 1079 Administration Building (Senate Chambers)

---

**Present:**

E. Annis, G. Ashoughian, S. Beeler, D. Casperson, M. Dale, A. Dayanandan, B. DeWiel (representative of J. Young), J. Edwards, G. Fondahl, M. Green, S. Green, C. Greening, K. Guest, L. Handfield, T. Hanschen (Secretary of Senate), W. Haque, I. Hartley, K. Hutchings (Vice Chair), G. Iwama (Chair), E. Jensen, G. Johnson, A. Kitchenham, D. Leighton-Stephens, J. Li, D. Macknak, S. McKenzie, B. Murray, C. Myers (Recording), D. Nyce, C. O'Callaghan, C. Pacaide, D. Ryan, P. Sanborn, S. Wagner, E. Wale

**Regrets:**

M. Archie, L. Chen, B. Deo, R. Lazenby, R. Robinson, J. Young

**Absent:**

R. Brouwer, C. Carriere, M. Hadland, A. Nitu

---

The meeting commenced at 3:30 p.m.

**1.0 S-201201.01**

**Approval of the Agenda**

Annis / Kitchenham

That the agenda for the January 25, 2012 Public Session of Senate be approved as presented.

A Senator reported that he planned to provide a notice of motion under "Other Business."

CARRIED.

**2.0 S-201201.02**

**Approval of Senate Minutes**

Kitchenham / Wale

That the minutes of the December 14, 2011 Public Session of Senate be approved as presented.

CARRIED.

**3.0 Business Arising from Previous Minutes of Senate**

**3.1 Master of Science in Biochemistry**

Dean Hartley provided a written response to Senators with regard to questions raised about this matter at the previous meeting of Senate.

#### 4.0 President's Report

Iwama

Dr. Iwama provided a report on several matters, including the restructuring of Board of Governors committees, engineering programs, and renewable energy systems (report attached to these minutes as "Appendix I").

#### 5.0 Report of the Provost

Dale

The Provost had only one item to report, namely that Greg Condon had been appointed as the new Chief Information Officer and would begin working at UNBC on March 12, 2012.

#### 6.0 Question Period

With regard to the Master of Science in Mathematical, Computer, and Physical Sciences, a Senator asked whether the paperwork associated with the establishment of the degree had been recovered, and Dean Hartley responded that the Ministry had been contacted about this but UNBC still did not have the information.

A Senator asked for clarification about whether UNBC is a member of Mitacs Globalink in 2012. Vice-President Fondahl responded, providing information about UNBC's status with regard to Mitacs Globalink, particularly that UNBC cannot participate in pilot programs but can participate in some initiatives using a pay-per-use option. The Senator followed up by asking what UNBC's total budget was for those types of initiatives and institutes, and Dr. Fondahl replied that she did not know offhand, but would bring this information back to the next Senate meeting. Dr. Iwama added that there is no set budget for these types of research initiatives, but that they are addressed when they come up.

**Action:** Dr. Fondahl to provide information at the next Senate meeting about the budget for research initiatives like Mitacs Globalink.

#### 7.0 S-201201.03

##### **Approval of Motions on the Consent Agenda** (no material)

Ryan / Pacaide

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

A Senator requested that motion S-201201.20 (Changes to Degree Requirements — BA Major in Environmental Studies) be moved from the consent agenda to the regular agenda.

CARRIED.

#### 8.0 Committee Reports

##### 8.1 Senate Committee on Academic Policy and Planning

Dale

##### "For Approval" Items:

##### S-201201.04

##### **New Course Approval — PHIL 210-3**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course PHIL 210-3 Philosophy of Mind be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course provides an introduction to fundamental issues in the philosophy of mind including the nature of the mind, the relationship between the mind and the body, and the nature of our thoughts and perceptions. Also included is an introduction to the works of some of the leading philosophers in the field.

Precluded: PSYC 202-3

Prerequisites: None

Recommended: PSYC 101-3

**S-201201.05**

**New Course Approval — PHIL 325-3**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course PHIL 325-3 Moral Philosophy be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course is a survey of historical and contemporary western moral philosophy. Topics include philosophical ideas such as Platonism, virtue ethics, voluntarism, naturalism, Kantianism, social contract theory and consequentialism.

Precluded: POLS 317-3

**S-201201.06**

**Changes to Program Requirements — Minor in Philosophy**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the revision to the Minor in Philosophy, on page 169 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Required**

PHIL 205-3 Introduction to the History of Philosophy  
PHIL 305 History of Philosophy: Early Modernity to Post-Modernity  
or POLS 370 Political Philosophy: Early Modernity to Post-Modernity

One of:

ECON 202-3 History of Economic Thought  
ENGL 200-3 Gender and Literary Theory  
PHIL 200-3 Critical Thinking  
PHIL 201-3 Philosophy of Science  
PHIL 202-3 Comparative Religion  
PHIL 210-3 Philosophy of Mind  
or PSYC 202-3 Philosophy of Mind  
POLS 270-3 Political Philosophy: Antiquity to Early Modernity

Three of:

COMM 332-3 Business and Professional Ethics  
ENGL 300-3 Theory  
FNST 303-3 First Nations Religion and Philosophy

FNST 304-3	First Nations Environmental Philosophy and Knowledge
HIST 300-3	Historiography: The Nature of the Historical Discipline
<u>PHIL 325-3</u>	<u>Moral Philosophy</u>
or POLS 317-3	<u>Ethics Moral Philosophy</u>
WMST 311-3	History of Feminism
ANTH 401-3	Anthropological Perspectives on Inequality
ANTH 405-3	Topics in Landscapes and Place
ANTH 406-3	Feminist Perspectives in Anthropology
ENGL 400-3	Contemporary Theory
ENVS 414-3	Environmental and Professional Ethics
POLS 400-(3-6)	Classics in Political Theory <u>Philosophy</u>
POLS 472-3	<del>Contemporary Theories of Political Community</del> <u>Seminar in Political Philosophy</u>
WMST 411-3	Contemporary Feminist Theories

**S-201201.07**

**Course Deletion — POLS 250-3**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, POLS 250-3 Law and Municipal Government be deleted from the calendar, on page 259 of the 2010/2011 undergraduate calendar, as proposed.

Effective date: May 2012

CARRIED (consent agenda).

**S-201201.08**

**Course Deletion — POLS 251-3**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, POLS 251-3 Local Services and Public Policy be deleted from the calendar, on page 259 of the 2010/2011 undergraduate calendar, as proposed.

Effective date: May 2012

CARRIED (consent agenda).

**S-201201.09**

**Course Deletion — POLS 260-3**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, POLS 260-3 Politics of Public Finance be deleted from the calendar, on page 259 of the 2010/2011 undergraduate calendar, as proposed.

Effective date: May 2012

CARRIED (consent agenda).

**S-201201.10**

**New Course Approval — POLS 344-3**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course POLS 344-3 Society, Policy and Administration of Natural Resources be approved as proposed.

Proposed semester of first offering: September 2012 or January 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course on natural resource and environmental management explores the ways in which ideas and interests are articulated and conflicts are resolved within the policy process.

Prerequisites: Upper-division standing or permission of the instructor

Precluded: NREM 306-3 and POLS 334-3

**S-201201.11****New Course Approval — POLS 350-3**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course POLS 350-3 Law and Municipal Government be approved as proposed.

Proposed semester of first offering: May 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course is an examination of the legislation, regulations and court decisions relevant to municipal governments in British Columbia.

Prerequisites: Upper-division standing or permission of the instructor

Precluded: POLS 250-3

**S-201201.12****New Course Approval — POLS 351-3**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course POLS 351-3 Local Services and Public Policy be approved as proposed.

Proposed semester of first offering: May 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course examines local government services and the challenges involved in their delivery to local communities. Topics include public works, protective services, refuse collection, recreation and cultural services, health and social services and environmental protection.

Prerequisites: Upper-division standing or permission of the instructor

Precluded: POLS 251-3

**S-201201.13****New Course Approval — POLS 360-3**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course POLS 360-3 Politics of Public Finance be approved as proposed.

Proposed semester of first offering: May 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course examines budgeting with a particular focus on local government. Topics include assessment, taxation collection, the development of local budgets, provincial and federal government transfers and long-term financial planning.

Prerequisites: Upper-division standing or permission of the instructor

Precluded: POLS 260-3

**S-201201.14**

**New Course Approval — POLS 422-(3-6)**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course POLS 422-(3-6) Ethnographic Research Project be approved as proposed.

Proposed semester of first offering: May 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Ethnographic Research Project-(3-6):** This course gives students the experience of a field school in which they study selected aspects of politics, cultures and peoples in order to design and carry out a major research project. Course materials vary depending on the location of the field school and on the general research topic. This course may be repeated to a maximum of 6 credit hours.

Prerequisites: Upper-division standing and permission of the Chair

Precluded: ANTH 422-(3-6)

**S-201201.15**

**Changes to Program Requirements — Certificate in Public Administration**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the revision to the Certificate in Public Administration, on page 175 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Certificate Requirements**

**100 Level**

ENGL 170-3 Writing and Communication Skills  
ECON 101-3 Macroeconomics  
POLS 100-3 Contemporary Political Issues

**200 Level**

COMM 210-3 Financial Accounting  
POLS 200-3 Canadian Government and Politics  
~~POLS 250-3\* Law and Municipal Government~~  
~~POLS 251-3\* Local Services and Public Policy~~  
~~POLS 260-3\* Politics of Public Finance~~

**300 Level**

POLS 316-3\* Municipal Government and Politics  
POLS 350-3\* Law and Municipal Government  
POLS 351-3\* Local Services and Public Policy  
POLS 360-3\* Politics of Public Finance

Three credit hours of electives at any level and in any subject.

\*Courses for the MOA Intermediate Certificate in Municipal Administration.

An Executive Summary of the proposed revisions to the Major in Environmental Science was included for information.

### **S-201201.16**

#### **Changes to Program Requirements — Major in Environmental Science**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the required courses and credit hours for the Major in Environmental Science on page 117-120 of the 2010/2011 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **Major in Environmental Science**

The Environmental Science Bachelor of Science is an interdisciplinary degree in which students take a core curriculum ~~in the environmental sciences along with focus in the area of their choice. Students in this degree will gain an appreciation an area of specialization.~~ The core curriculum is designed to provide students with knowledge of the fundamental biological, chemical ~~and~~, physical and applied aspects integral to the field of environmental science. In addition, ~~they will~~ students receive exposure to many of the human dimensions that underlie ~~many of these~~ environmental issues. This approach ~~will ensure~~ a uniform preparation among students and allows for the development of a diversity of expertise necessary to address the complexity of present, future and unanticipated environmental problems.

The ~~program~~ degree has been designed in part to address educational components of the National Occupational Standards (NOS) for Environmental Employment set out by ~~The Canadian Council for Human Resources in the Environment Industry (CCHREI)~~ Environmental Careers Organization (ECO Canada). The NOS forms the basis of the Canadian Certified Environmental Practitioner (CCEP) accreditation process of the Canadian Environmental Certification Approvals Board (CECAB).

Degree requirements: 103 credit hours

Area of focus: 12 credit hours

~~Elective credit hours in any subject as necessary to ensure completion of a minimum of 127 credit hours.~~

~~Note: Students without a background in Political Science should take~~ POLS 100-3 (Contemporary Political Issues).

### **Program Requirements**

~~\*Important: Courses with an asterisk (\*) have prerequisites not taken in the major requirements; it is the student's responsibility to ensure that they have completed the required prerequisites.~~

#### **Lower Division Requirement**

##### **100 Level**

- ~~BIOL 101-4~~ - Introductory Biology I
- ~~BIOL 102-4~~ - Introductory Biology II
- ~~CHEM 100-3~~ - General Chemistry I
- ~~CHEM 101-3~~ - General Chemistry II

- CHEM 120-4 - General Chemistry Lab I
- CHEM 121-4 - General Chemistry Lab II
- MATH 100-3 - Calculus I
- MATH 101-3 - Calculus II
- PHYS 100-4 - Introduction to Physics I
- and PHYS 101-4 - Introduction to Physics II
- or PHYS 110-4 - Introductory Physics I: Mechanics
- and PHYS 111-4 - Introductory Physics II: Waves and Electricity

### 200 Level

- BIOL 201-3 - Ecology
- BIOL 203-3 - Microbiology
- CHEM 201-3 - Organic Chemistry I
- CHEM 250-4 - Organic Chemistry Lab I
- ENSC 201-3 - Weather and Climate
- ENSC 202-3 - Introduction to Aquatic Systems
- FSTY 205-3 - Introduction to Soil Science
- GEOG 205-3 - Cartography and Geomatics
- GEOG 210-3 - Geomorphology
- MATH 240-3 - Basic Statistics
- 
- or MATH 371-3 - Probability and Statistics for Scientists and Engineers

### Upper Division Requirement

#### 300 Level

- ENSC 308-3 - Northern Contaminated Environments
- ENPL 305-3 - Environmental Impact Assessment

Two of:

- CHEM 200-3 - Physical Chemistry I
- CHEM 203-3 - Organic Chemistry II
- with CHEM 251-4 - Organic Chemistry Lab II
- CHEM 210-3 - Analytical Chemistry I
- CHEM 204-3 - Introductory Biochemistry
- CHEM 302-4 - Environmental Chemistry I
- PHYS 307-3 - Environmental Physics

Two of:

- BIOL 302-3 - Limnology
- ENSC 312-3 - Boundary-layer Meteorology
- ENSC 350-3 - Fluid Mechanics
- ENSC 408-3 - Storms
- ENSC 425-3 - Global Change Science

- ENSC 435-3 - Soil Biological Processes and the Environment
- ENSC 454-3 - Snow and Ice
- ENSC 460-3 - Soil Chemical Processes and the Environment
- GEOG 310-3 - Hydrology
- GEOG 311-3 - Concepts in Geomorphology

One of:

- ENVS 309-3 - Women and Environmental Studies
- FNST 304-3 - First Nations Environmental Philosophy and Knowledge
- GEOG 401-3\* - Resource Geography
- GEOG 402-3\* - Geography of the Circumpolar North
- GEOG 403-3\* - Aboriginal Geography
- INTS 307-3\* - Global Resources
- INTS 340-3\* - The Circumpolar North in Global Perspective
- INTS 410-3\* - Environment and Development in the Circumpolar North

#### 400 Level

- ENSC 406-3 - Environmental Modelling
- ENSC 418-3 - Environmental Measurement and Analysis
- ENPL 401-3\* - Environmental Law
- ENVS 414-3 - Environmental and Professional Ethics

Two of:

- ENSC 302-3 - Energy Development
- ENSC 404-3 - Waste Management
- ENSC 412-3 - Air Pollution
- ENSC 451-3 - Groundwater Hydrology
- ENSC 452-3 - Reclamation and Remediation of Disturbed Environments
- ENSC 453-3 - Environmental Resources Management and Decision Making
- NREM 410-3 - Watershed Management

#### Areas of Focus

Students must choose to focus in an environmental system (atmospheric, aquatic, terrestrial or ecological), in Environmental Chemistry or in Environmetrics (environmental techniques). Four courses chosen from one of the following lists are required, with the following provisions:

1. at least two of the courses must be at the upper division (300 or 400 level); and
2. courses used to fulfill major requirements above may not be used to fulfill an area of focus requirement.

**Note:** For the courses listed below, it is the student's responsibility to ensure prerequisite courses have been completed.

#### Aquatic Systems

- BIOL 204-3 - Plant Biology
- BIOL 302-3 - Limnology
- BIOL 307-3 - Ichthyology and Herpetology

- BIOL 402-3 - Aquatic Plants
- BIOL 406-3 - Fish Ecology
- ENSC 350-3 - Fluid Mechanics
- ENSC 451-3 - Groundwater Hydrology
- ENSC 454-3 - Snow and Ice
- GEOG 310-3 - Hydrology
- GEOG 405-3 - Fluvial Geomorphology
- NREM 410-3 - Watershed Management
- or one of: - ([Environmetrics list](#))

### Atmospheric Systems

- CHEM 200-3 - Physical Chemistry I
- CHEM 302-4 - Environmental Chemistry I
- ENSC 312-3 - Boundary-layer Meteorology
- ENSC 408-3 - Storms
- ENSC 412-3 - Air Pollution
- ENSC 425-3 - Global Change Science
- ENSC 454-3 - Snow and Ice
- PHYS 307-3 - Environmental Physics
- or one of: - ([Environmetrics list](#))

### Ecological Systems

- BIOL 202-3 - Invertebrate Zoology
- BIOL 204-3 - Plant Biology
- BIOL 210-3 - Genetics
- BIOL 301-3 - Systematic Botany
- BIOL 307-3 - Ichthyology and Herpetology
- BIOL 308-3 - Ornithology and Mammalogy
- BIOL 401-3 - Plant-Microbial Interactions
- BIOL 402-3 - Aquatic Plants
- BIOL 404-3 - Plant Ecology
- BIOL 406-3 - Fish Ecology
- BIOL 410-3 - Population and Community Ecology
- BIOL 411-3 - Conservation Biology
- FSTY 206-3 - Forest Biology
- or one of: - ([Environmetrics list](#))

### Terrestrial Systems

- ENSC 325-3 - Soil Physical Processes and the Environment
- ENSC 404-3 - Waste Management
- ENSC 435-3 - Soil Biological Processes and the Environment
- ENSC 451-3 - Groundwater Hydrology
- ENSC 460-3 - Soil Chemical Processes and the Environment

- FSTY 415-3 - Forest Soils
- FSTY 425-3 - Soil Formation and Classification
- GEOG 311-3 - Concepts in Geomorphology
- GEOG 405-3 - Fluvial Geomorphology
- GEOG 411-3 - Advanced Elements in Geomorphology
- GEOG 412-3 - Geomorphology of Cold Regions
- GEOG 414-3 - Weathering Processes
- Or one of: - (~~Environmetrics list~~)

### Environmental Chemistry

**Note:** Students selecting this focus area and who have not taken ~~CHEM 210-3~~ elsewhere in their program must select it here.

- ~~CHEM 200-3~~ - Physical Chemistry I
- ~~CHEM 203-3~~ - Organic Chemistry II
- ~~CHEM 210-3~~ - Analytical Chemistry I
- ~~CHEM 302-4~~ - Environmental Chemistry I
- ~~CHEM 310-3~~ - Analytical Chemistry II
- ~~CHEM 311-3~~ - Analytical Chemistry III
- ~~CHEM 400-3~~ - Topics in Environmental Chemistry
- ~~CHEM 403-3~~ - Topics in Inorganic Chemistry
- ~~CHEM 405-3~~ - Topics in Biochemistry
- ~~CHEM 408-3~~ - Environmental Chemistry II
- ~~CHEM 410-3~~ - Topics in Analytical Chemistry
- ~~ENSC 460-3~~ - Soil Chemical Processes and the Environment
- Or one of: - (~~Environmetrics List~~)

### Environmetrics

- ~~CPSC 110-3~~ - Introduction to Computer Systems and Programming
- ~~CPSC 311-3~~ - Computer Applications Programming
- ~~ENSC 450-3~~ - Geophysical Data Analysis
- ~~ENSC 453-3~~ - Environmental Resources Management and Decision Making
- ~~GEOG 300-3~~ - Geographic Information Systems
- ~~GEOG 413-3~~ - Advanced GIS
- ~~GEOG 432-3~~ - Remote Sensing
- ~~MATH 200-3~~ - Calculus III
- ~~MATH 220-3~~ - Linear Algebra
- ~~MATH 230-3~~ - Linear Differential Equations and Boundary Value Problems
- ~~MATH 335-3~~ - Numerical Analysis I
- ~~MATH 336-3~~ - Intermediate Differential Equations
- ~~MATH 372-3~~ - Mathematical Statistics
- ~~MATH 441-3~~ - Nonparametric Statistics

### Elective and Academic Breadth Requirement

Elective Undergraduate students are required to take a total of 97 credit hours of program core requirements in addition to an Area of Specialization as indicated below. The Area of Specialization allows students to develop expertise within an area of their interest. The major requires elective credit hours as necessary to ensure completion of a minimum of ~~127~~124 credit hours, including any additional credit hours necessary to meet the Academic Breadth requirement of the University (see Undergraduate Academic Regulation 15).

### **Program Core Requirements**

#### **Lower-Division Requirement**

BIOL 101-4 Introductory Biology I

BIOL 102-4 Introductory Biology II

CHEM 100-3 General Chemistry I

CHEM 101-3 General Chemistry II

CHEM 120-1 General Chemistry Lab I

CHEM 121-1 General Chemistry Lab II

ENSC 111-1 Introduction to Environmental Science

MATH 100-3 Calculus I

MATH 101-3 Calculus II

PHYS 100-4 Introduction to Physics I

and PHYS 101-4 Introduction to Physics II

OR

PHYS 110-4 Introductory Physics I: Mechanics

and PHYS 111-4 Introductory Physics II: Waves and Electricity

(PHYS 110-4 and PHYS 111-4 are strongly recommended.)

BIOL 201-3 Ecology

BIOL 203-3 Microbiology

ENSC 201-3 Weather and Climate

ENSC 202-3 Introduction to Aquatic systems

FSTY 205-3 Introduction to Soil Science

GEOG 205-3 Cartography and Geomatics

GEOG 210-3 Geomorphology

MATH 240-3 Basic Statistics

or MATH 371-3 Probability and Statistics for Scientists and Engineers

3 credit hours of any 200-level CHEM

#### **Upper-Division Requirement**

ENPL 305-3 Environmental Impact Assessment

ENSC 308-3 Northern Contaminated Environments

ENPL 401-3 Environmental Law

ENSC 406-3 Environmental Modelling

ENSC 418-3 Environmental Measurement and Analysis

ENSC 440-3 Internship\*

or ENSC 499-3 Independent Study

ENSC 450-3 Environmental and Geophysical Data Analysis

ENVS 414-3 Environmental and Professional Ethics

One of:

FNST 304-3 First Nations Environmental Philosophy and Knowledge

GEOG 401-3 Resource Geography

INTS 307-3 Global Resources

ENVS 325-3 Global Environmental Change: Science and Policy

OR 3 credit hours of any upper-division ENVS course

Two of:

ENSC 404-3 Waste Management

ENSC 412-3 Air Pollution

ENSC 451-3 Groundwater Hydrology

ENSC 452-3 Reclamation and Remediation of Disturbed Environments

And 6 credit hours from the following (if not already taken above):

ENSC 302-3 Energy Development

ENSC 312-3 Biometeorology

ENSC 325-3 Soil Physical Properties and the Environment

ENSC 350-3 Fluid Mechanics

ENSC 404-3 Waste Management

ENSC 408-3 Storms

ENSC 412-3 Air Pollution

ENSC 425-3 Climate Change and Global Warming

ENSC 435-3 Soil Biological Processes and the Environment

ENSC 440-(3) Internship

ENSC 451-3 Groundwater Hydrology

ENSC 452-3 Reclamation and Remediation of Disturbed Environments

ENSC 454-3 Snow and Ice

ENSC 460-3 Soil Chemical Processes and the Environment

ENSC 498-(1-6) Special Topics

ENSC 499 (3) Independent Study

FSTY 415-3 Forest Soils

FSTY 425-3 Soil Formation and Classification

GEOG 300-3 Geographic Information Systems (GIS)

GEOG 310-3 Hydrology

or NREM 410-3 Watershed Management

GEOG 311-3 Drainage Basin Geomorphology

GEOG 312-3 Geography of Cold Regions

GEOG 320-3 Sedimentology

GEOG 405-3 Fluvial Geomorphology

GEOG 411-3 Quaternary and Surficial Geology

GEOG 413-3 Advanced GIS

GEOG 414-3 Weathering Processes

GEOG 432-3 Remote Sensing

GEOG 457-3 Advanced Remote Sensing

\*Students with extensive experience related to the environment may be waived from this degree requirement with approval from the Program

### **Area of Specialization Requirement for BSc (Major) in Environmental Science**

Environmental Science majors are required to complete an area of specialization satisfying the requirements of any available minor at UNBC as part of their degree. A minor allows students to specialize in a subject area relevant to the advancement, utilization and dissemination of environmental knowledge. Some minors may result in students taking more than the required 124 credit hours in order to obtain the Environmental Science Major. Many minors allow 100-level prerequisite courses and an additional 6 credit hours of other courses to be used for meeting the requirements of both the major and minor. Check the current UNBC undergraduate calendar for the requirements of the following minors available at UNBC.

### **BSc (Honours) in Environmental Science**

The BSc Honours-Environmental Science provides a higher level of specialization and research experience, especially for students planning to proceed to postgraduate work.

Honours students are required to complete the degree requirements for the BSc Environmental Science Major. ~~In addition to the total number of credits required for the Environmental Science Major (i.e. Degree Requirements plus Area of Focus courses and Electives), each student must complete 6 credit hours of upper division courses selected from their Area of Focus, as well as ENSC 430-6 or NRES 430-6,~~ with the exception that Honours students must complete an undergraduate thesis chosen from ENSC 430-6 (Undergraduate Thesis), or NRES 430-6 (Undergraduate Thesis) in place of the requirement for ENSC 440-3 (Internship) or ENSC 499-3 (Independent Study). ENSC 440-3 or ENSC 499-3 may be taken by Honours students, but they are not required for the Honours degree. The undergraduate thesis must be conducted under the supervision of a faculty member.

~~The honours program is available after completing 60 credits in the Environmental Science Major and attaining a CGPA of not less than 3.33. The minimum requirement for a BSc Honours degree is 127 credit hours. Students are responsible to find their own undergraduate thesis research supervisor. Faculty members are under no obligation to supervise Honours students.~~

To be admitted to the ~~H~~ Honours degree program, students must have completed 60 credit hours and obtained a minimum Cumulative GPA of 3.33. Attaining the minimum requirement will not guarantee admission into the ~~H~~ Honours program, which will be at the discretion of the ~~Program~~ Environmental Science ~~p~~Program. Maintenance of a Cumulative GPA of 3.33 is required to remain in the ~~H~~ Honours program.

#### **S-201201.17**

#### **New Course Approval — ENSC 111-1**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course ENSC 111-1 Introduction to Environmental Science be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course introduces students to the discipline of environmental science. Students are exposed to a variety of environmental science topics through seminars, lectures, assignments and invited presentations. Some field trips may be required.

### **S-201201.18**

#### **New Program Approval — Minor in Aquatic Science**

Ryan / McKenzie

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new Minor in Aquatic Science be approved as proposed.

Proposed start date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **Minor in Aquatic Science**

The minor in Aquatic Science provides students with an opportunity to focus on aquatic processes associated with different water environments, such as rivers, lakes and groundwaters. Emphasis is given to physical, chemical and biological processes that govern the movement, fate and management of water on timescales of seconds to decades.

Students are required to take 35 credit hours. Of these, 14 credit hours are foundational courses in Chemistry, Mathematics, and Physics; 12 credit hours are required aquatic science courses; and 9 credit hours are selected from a list of suggested elective courses. In addition to the 14 credit hours of foundational courses at the 100 level, an additional 6 credit hours of upper-division courses can also be used to meet the requirements of a major or another minor.

#### **Curriculum:**

##### **Required Courses**

CHEM 100-3 General Chemistry I

CHEM 120-1 General Chemistry Lab I

MATH 100-3 Calculus I

MATH 101-3 Calculus II

PHYS 100-4 Introduction to Physics I

or PHYS 110-4 Introductory Physics I: Mechanics

(PHYS 110-4 is strongly recommended.)

ENSC 202-3 Introduction to Aquatic Systems

BIOL 302-3 Limnology

GEOG 310-3 Hydrology

or NREM 410-3 Watershed Management

ENSC 451-3 Groundwater Hydrology

##### **Elective Courses\***

Nine credit hours from the following list:

GEOG 311-3 Drainage Basin Geomorphology

ENSC 350-3 Fluid Mechanics

GEOG 405-3 Fluvial Geomorphology

ENSC 450-3 Environmental and Geophysical Data Analysis

ENSC 454-3 Snow and Ice

BIOL 402-3 Aquatic Plants

BIOL 406-3 Fish Ecology

\*Students must ensure that all prerequisites are fulfilled prior to registering in any course.

### **S-201201.19**

#### **New Program Approval — Minor in Atmospheric Science**

Ryan / Jensen

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new Minor in Atmospheric Science be approved as proposed.

Proposed start date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **Minor in Atmospheric Science**

The minor in Atmospheric Science provides students with an opportunity to focus on atmospheric processes.

Atmospheric Science, or meteorology, is the study of Earth's atmosphere, weather and climate. The minor in Atmospheric Science provides students with an opportunity to focus on atmospheric processes that occur near Earth's surface. Emphasis is given to physical and chemical processes that govern the development of weather systems on timescales of days and that regulate Earth's climate on timescales of decades.

Students are required to take 35 credit hours. Of these, 17 credit hours are foundational courses in Chemistry, Geography, Mathematics, and Physics; 12 credit hours are required atmospheric science courses; and 6 credit hours are selected from a list of suggested elective courses. In addition to the 17 credit hours of foundational courses at the 100 level, an additional 6 credit hours of upper-division courses can also be used to meet the requirements of a major or another minor. NOTE: Some upper-division courses may be taught in alternate years; students should consider this when planning their course schedules.

#### **Required Courses**

CHEM 100-3 General Chemistry I

CHEM 120-1 General Chemistry Lab I

ENSC 201-3 Weather and Climate

ENSC 312-3 Biometeorology

ENSC 408-3 Storms

ENSC 425-3 Climate Change and Global Warming

GEOG 100-3 Environments and People: The Geography of Natural Hazards

MATH 100-3 Calculus I

MATH 101-3 Calculus II

PHYS 100-4 Introduction to Physics I

or PHYS 110-4 Introductory Physics I: Mechanics

(PHYS 110-4 is strongly recommended.)

#### **Elective Courses\***

Six credit hours from the following list

ENSC 412-3 Air Pollution

ENSC 450-3 Environmental and Geophysical Data Analysis

ENSC 454-3 Snow and Ice

GEOG 310-3 Hydrology

or NREM 410-3 Watershed Management

\*Students must ensure that all prerequisites are fulfilled prior to registering in any course.

### **S-201201.20**

#### **Changes to Degree Requirements — BA Major in Environmental Studies**

Jensen / Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the degree requirements for the BA Major in Environmental Studies, on page 120 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

Dr. Annie Booth requested a revision to the required courses for the “Communities and Environmental Citizenship” Area of Focus for this degree, noting that the change was requested because there had been an issue associated with scheduling the initially-proposed course on a regular basis.

CARRIED, with the proposed revisions as requested.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Environmental Studies (BA Program)**

### **Major in Environmental Studies**

The Bachelor of Arts in Environmental Studies emphasizes a ~~s~~Social ~~s~~Science and ~~h~~Humanities perspective on environmental issues. The program provides a strong philosophical, social and scientific basis for understanding the full diversity of environmental issues and positions students to be effective agents for mitigation of, and/or adaptation to, environmental change. An emphasis is placed upon understanding Environmental Citizenship.

Degree requirements: ~~72 credit hours~~

~~Area of focus: 24 to 29 credit hours~~

Students must complete the common degree requirements, the requirements of the area of focus and elective credit hours in any subject as necessary to ensure completion of a minimum of 120 credit hours, including any additional credits necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

### Program Requirements

#### Lower-Division Requirement

##### 100 Level

<del>ANTH 101-3</del>	<del>Peoples and Cultures</del>
<u>ANTH 102-3</u>	<u>Anthropology: A World of Discovery</u>
or FNST 100-3	The Aboriginal Peoples of Canada
BIOL 110-3	Introductory Ecology
CHEM 110-3	Chemistry for Everyday Life
or CHEM 100-3	General Chemistry I
or <u>PHYS 150-3</u>	<u>Physics for Future Leaders</u>
ENPL 104-3	Introduction to Planning
ENVS 101-3	Introduction to Environmental Citizenship
<del>GEOG 100-3</del>	<del>Environments and People</del>
<u>GEOG 101-3</u>	<u>Human Geographies of Global Change</u>
POLS 100-3	Contemporary Political Issues

**Note:** CPSC 150-3 (*Computer Applications*) is recommended for students without computing

*experience. Students who wish to take the Science, Technology and Society area of focus should take BIOL 101-4 and 102-4 instead of BIOL 110. Students who wish to take the First Nations area of focus should choose FNST 100-3.*

#### 200 Level

ENGL 270-3	Expository Writing
or ENGL 271-3	Creative Writing
<del>ENPL 205-3</del>	- <del>Environment and Society</del>
GEOG 204-3	GIS for the Social Sciences
or GEOG 300-3	Geographic Information Systems
GEOG 205-3	Cartography and Geomatics
PHIL 202-3	Comparative Religion
or FNST 303-3	First Nations Religion and Philosophy

#### Upper-Division Requirement

#### 300 Level

ENPL 319-3	Social Research Methods
<u>ENVS 306-3</u>	<u>Human Ecology</u>
<u>ENVS 309-3</u>	<u>Gender and Environmental Studies</u>
ENVS 325-3	Global Environmental Change: Science and Policy
ENVS 326-3	Natural Resources, Environmental Issues and Public Engagement
INTS 307-3	Global Resources
or GEOG 401-3	Resource Geography
or HIST 360-3	An Introduction to Environmental History
NREM 303-3	First Nations' Approaches to Resource Management
or GEOG 401-3	Resource Geography
or ENPL 208-3	First Nations Community and Environmental Planning

#### 400 Level

ENPL 401-3	Environmental Law
ENVS 414-3	Environmental and Professional Ethics
ENVS 440-3	Internship
<del>GEOG 424-3</del>	- <del>Social Geography of Northern Communities</del>
NRES 421-1 and NRES 422-2	Professional Writing <b>and</b> Undergraduate Report
or NRES 430-6	Undergraduate Thesis
<del>POLS 434-3</del>	<del>Resource Communities in Transition</del>
<u>PSYC 408-3</u>	<u>Environmental Problems and Human Behaviour</u>
or <u>ORTM 408-3</u>	<u>The Psychology of Recreation and Tourism</u>
<u>GEOG 420-3</u>	<u>Geographies of Environmental Justice</u>
or <u>GEOG 305-3</u>	<u>Political Ecology</u>

## Areas of Focus

Students must choose one of the following areas of focus. Courses used to fulfill major requirements above may not be used to satisfy an area of focus requirement.

1. Global Environmental Studies
2. Communities and Environmental Citizenship
3. Natural Resource Management
4. Science, Technology and Society
5. First Nations

## Global Environmental Studies

### Required

INTS 101-3 Canada and the World

or INTS 205-3 Introduction to International Studies

~~GEOG 101-3 Human Geography~~

GEOG 206-3 Social Geography

Choose ~~seven~~ eight of the following:

~~ANTH 405-3 Landscape, Place and Culture~~

FNST 416-3 Indigenous Perspective

GEOG 306-3 Geography of International Development

GEOG 402-3 Geography of Circumpolar North

~~GEOG 422-3 Geography of World Economy~~

GEOG 426-3 Geography of Culture, Rights and Power

INTS 309-3 Global Science and Technology

INTS 371-3 Globalization

INTS 410-3 Environment and Development in the Circumpolar North

INTS 470-3 International Environmental Policy

INTS 480-3 Pacific Environment

NORS 101-3 Introduction to Circumpolar North

NORS 311-3 Lands and Environment of the Circumpolar North 1

NORS 331-3 Contemporary Issues of the Circumpolar North

ORTM 403-3 International Dimensions of Outdoor Recreation and Tourism

ORTM 414-3 Polar Tourism and Recreation

~~POLS 415-3 Comparative Northern Development~~

## Communities and Environmental Citizenship (GEOG 101)

Required: ENPL 301-3 Sustainable Communities: Structure and Sociology

GEOG 206-3 Social Geography

GEOG 426-3 Culture, Rights and Power

~~POLS 335-3 Community Politics~~

——— Or POLS 316-3 Community Government and Politics

Choose ~~five~~ six of:

~~ANTH 405-3 Topics in Landscape and Place~~

COMM 100-3 Introduction to Canadian Business

COMM 230-3 Organizational Behaviour  
ENPL 205-3 Environment and Society  
ENPL 304-3 Mediation, Negotiation and Public Participation  
ENPL 313-3 Rural Community Economic Development  
FNST 215-3 Issues in External Relations for Contemporary Indigenous Peoples  
FNST 407-3 First Nations Perspectives on Race, Class, Gender and Power  
GEOG 308-3 Introduction to Medical Geography  
GEOG 309-3 Geography of Migration and Settlement  
ORTM 100-3 Leisure in Life  
ORTM 200-3 Sustainable Outdoor Recreation and Tourism  
ORTM 407-3 Recreation, Tourism and Communities  
POLS 316-3 Community Government and Politics

### **Natural Resource Management**

**Students should note that some of these courses have pre-requisites. It is the student's responsibility to ensure they have completed these pre-requisites.**

Required: NREM 100-3 Natural Resources Management I  
NREM 101-3 Natural Resources Management II  
NREM 210-3 Integrated Resource Management  
ORTM 100-3 Leisure in Life

Choose one of:

FNST 203-3 Introduction to Traditional Ecological Knowledge  
NREM 203-3 Resource Inventories and Measurements  
ORTM 200-3 Sustainable Outdoor Recreation and Tourism

Choose four of:

ENPL 304-3 Mediation, Negotiation and Public Participation  
ENPL 305-3 Environmental Impact Assessment  
ENSC 302-3 Energy Development  
GEOG 401-3 Resource Geography  
HIST 360-3 Introduction to Environmental History  
INTS 307-3 Global Resources  
INTS 309-3 Global Science and Technology  
NREM 333-3 Field Applications in Resource Management  
NREM 400-3 Natural Resources Planning  
ORTM 300-3 Recreation and Tourism Impacts  
ORTM 305-3 Protected Areas Planning and Management  
ORTM 400-3 Conservation Area Design and Management  
POLS 315-3 Contemporary Issues in Circumpolar World

### **Science, Technology, and Society**

**Students should note that some of these courses have pre-requisites. It is the student's responsibility to ensure they have completed these pre-requisites.**

Required: BIOL 101-4 Introductory Biology I

BIOL 102-4 Introductory Biology II  
BIOL 201-3 Ecology  
INTS 309-3 Global Science and Technology

Choose six of:

ENSC 201-3 Weather and Climate  
ENSC 202-3 Introduction to Aquatic Systems  
ENPL 303-3 Spatial Planning with Geographical Information  
ENSC 308-3 Northern Contaminated Environments  
ENSC 404-3 Waste management  
ENSC 425-3 Global Change Science  
FSTY 205-3 Introduction to Soil Science  
INTS 205-3 Introduction to International Studies  
NREM 333-3 Field Applications in Resource Management

### **First Nations**

Choose at least one FNST course and two additional courses from the following:

ANTH 206-3 Ethnography in Northern B.C.  
FNST 215-3 Issues in External Relations for Contemporary Indigenous Peoples  
FNST 216-3 Issues in Internal Organization for Contemporary Indigenous Peoples  
FNST 249-3 Aboriginal Resource Planning  
GEOG 206 -3 Social Geography  
POLS 220-3 Canadian Law and Aboriginal Peoples

Choose six of:

~~ANTH 405-3 Topics in Landscape and Place~~  
BIOL 350-3 Ethnobotany  
ENPL 208-3 First Nations Community and Environmental Planning  
FNST 280-3 Aboriginal Medicines I - Harvesting and Preservation  
FNST 300-3 Research Methods in First Nations Studies  
FNST 303-3 First Nations Religion and Philosophy  
FNST 304-3 First Nations Environmental Philosophy and Knowledge  
FNST 416-3 International Perspectives  
FNST 451-3 Traditional Use Studies  
GEOG 301-3 Cultural Geography  
GEOG 403-3 Aboriginal Geography  
HIST 390-3 Aboriginal People in Canada  
NREM 303-3 First Nations Approach to Resource Management  
ORTM 306-3 Indigenous Tourism and Recreation  
POLS 412-3 Comparative Aboriginal State Relations

### **Elective Requirement**

Elective credit hours in any subject as necessary to ensure completion of a minimum of 120 credit hours.

## Minor in Environmental Studies

The minor in Environmental Studies offers an opportunity for students in other disciplines to learn how individual lives are connected ~~with~~ to environmental systems, and to gain understanding and perspective on key environmental issues. A maximum of two courses (~~six~~ 6 credit hours) used to fulfill program requirements for a major or another minor may also be used to fulfill requirements for a minor in Environmental Studies.

The minor in Environmental Studies requires the completion of 18 credit hours, 12 of which must be at the upper division level.

### Required

ENVS 101-3	Introduction to Environmental Citizenship
ENVS 325-3	Global Environmental Change: Science and Policy
ENVS 414-3	Environmental and Professional Ethics

### Three of:

ENPL 205-3	Environment and Society
ENPL 301-3	Sustainable Communities: Structure and Sociology
ENPL 401-3	Environmental Law
<del>ENSC 308-3</del>	<del>- Northern Contaminated Environments-</del>
ENVS 301-3	Natural resources, Environmental Issues and Public Engagement
<u>ENVS 309-3</u>	<u>- Gender and Environmental Studies</u>
FNST 203-3	Introduction to Traditional Environmental Knowledge
FNST 304-3	First Nations Environmental Philosophy and Knowledge
<del>GEOG 100-3</del>	<del>- Environments and People-</del>
<u>GEOG 305-3</u>	<u>Political Ecology</u>
<u>GEOG 420-3</u>	<u>Geographies of Environmental Justice</u>
NREM 303-3	First Nations' Approaches to Resource Management
ORTM 100-3	Leisure in Life
<u>ORTM 200-3</u>	<u>Sustainable Outdoor Recreation and Tourism</u>
<u>ORTM 408-3</u>	<u>The Psychology of Recreation and Tourism</u>
<u>PSYC 408-3</u>	<u>Environmental Problems and Human Behaviour</u>

## Minor in Global Environmental Change

The minor in Global Environmental Change offers a way for UNBC students to obtain a well-rounded perspective and knowledge-base on global change issues that encompasses not only the science of global change and change predictions, but also the political realities of environmental change and the way policy intersects with science.

The minor in Global Environmental Change requires the completion of 21 credit hours, 12 of which must be at the upper\_division level. A maximum of two courses (~~six~~ 6 credit hours) used to fulfill program requirements for a major or another minor may also be used to fulfill requirements for a minor in Global Environmental Change.

Students must complete ENV5 325-3 and at least 9 credit hours from each of the two lists of courses indicated below for a total of 21 credit hours overall. Nine of these credit hours selected from the approved lists below must be from upper\_division courses.

### Required

ENV5 325-3                      Global Environmental  
Change: Science and  
Policy

Three of:

BIOL 110-3                      Introductory Ecology  
    or BIOL 201-3                  Ecology  
BIOL 404-3                      Plant Ecology  
ENSC 201-3                      Weather and Climate  
ENSC 308-3                      Northern Contaminated  
Environments  
ENSC 312-3                      Biometeorology  
ENSC 408-3                      Storms  
ENSC 412-3                      Air Pollution  
ENV5 306-3                      Human Ecology  
PHYS 307-3                      Selected Topics in  
Environmental Physics  
GEOG 100-3                      Environments and People  
GEOG 432-3                      Remote Sensing

Three of:

ENPL 205-3                      Environment and Society  
ENPL 301-3                      Sustainable Communities:  
Structure and Sociology  
ENPL 305-3                      Environmental Impact  
Assessment  
ENPL 401-3                      Environmental Law  
GEOG 305-3                      Political Ecology  
GEOG 420-3                      Geographies of Environmental

	<u>Justice</u>
GEOG 401-3	Resource Geography
ECON 305-3	Environmental Economics
HIST 360-3	Introduction to Environmental History
HIST 421-(3-6)	Topics in Environmental History
INTS 205-3	Introduction to International Studies
INTS 300-3	International Organization
INTS 307-3	Global Resources
ORTM 200-3	Sustainable Resource Recreation and Tourism
POLS 100-3	Contemporary Political Issues
POLS 334-3	Society, Policy and Administration of Natural Resources
<del>—or NREM 306-3</del>	<del>Society, Policy and Administration</del>
<u>PSYC 408-3</u>	<u>Environmental Problems and Human Behaviour</u>

**S-201201.21**

**Changes to List of Eligible Minors — Forest Ecology and Management Major**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the list of eligible minors for the Forest Ecology and Management major, on page 152 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: January 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Eligible minors include:

- Biology and Conservation
- Earth Sciences
- Environmental Planning
- Environmental Science
- Environmental Studies
- Forest Recreation
- General Business
- Geographic Information Systems (GIS)
- Global Environmental Change
- Indigenous Ecological Knowledge

- Natural Resources Planning and Operations
- Social Dimensions of Natural Resources Management
- Soils and the Environment

#### **S-201201.22**

#### **Changes to Academic Regulation 15 (Academic Breadth)**

Ryan / Pacaide

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to Academic Regulation 15 (Academic Breadth), on page 54 of the 2011-2012 Undergraduate Calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **15. Academic Breadth**

Students pursuing the degrees of BA, BComm, BHSc, and BSc are required to meet the University's Academic Breadth requirement as a condition of graduation. Each graduate is required to have completed successfully at least ~~one course~~ 3 credit hours from each of the following four areas, or to have transferred to UNBC from another institution acceptable ~~course(s)~~ credit hours such that the requirement is met:

Arts and Humanities: At least ~~one course~~ 3 credit hours of courses with the prefix ENGL, HIST, PHIL, WMST.

Social Science: At least ~~one course~~ 3 credit hours of courses with the prefix ANTH, COMM, ECON, EDUC, ENPL, FNST, INTS, NORs, ORTM, POLS, PSYC, RRT.

Natural Science: At least ~~one course~~ 3 credit hours of courses with the prefix BIOL, GEOG, ENSC, ENVS, FSTY, HHSC, NREM.

Physical Science: At least ~~one course~~ 3 credit hours of courses with the prefix CHEM, CPSC, MATH, PHYS, STAT.

This requirement applies to all students admitted or readmitted to UNBC for studies beginning with the September 2010 Semester or later.

Students pursuing the degrees of BSc Biology and BSc Natural Resources Management (majors in Forest Ecology and Management, and Wildlife and Fisheries) are exempt from this regulation because academic breadth has been incorporated within the curricula.

#### **S-201201.23**

#### **Changes to Academic Regulation 24 (Minors)**

Kitchenham / Jensen

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to Academic Regulation 24 (Minors), on page 56 of the 2011-2012 Undergraduate Calendar, be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **24. Minors**

~~Minors are permitted in all undergraduate programs other than in programs leading to the degrees of BAsC, BEd, BFA or BScN. Minors are not required except in the Forest Ecology and Management major.~~

Except as specified in Program regulations, a minor must be in a different discipline than that of the major. A Minor requires a minimum of 18 credit hours, at least 12 of which must be upper division. In most cases, the upper limit requirement for a Minor is 27 credit hours, at least 12 of which must be upper division. Normally, a maximum of two courses (six to eight credit hours) used to fulfill requirements for a Major (or another Minor) may also be used to fulfill requirements for a Minor. In all Minors in the College of Science and Management (See [Academic Structure pages](#)) that require a minimum of 24 credits, the 100-level credits used to fulfill requirements for a Major (or another Minor) may also be used to fulfill requirements for a Minor, and in some such Minors further credits used to fulfill requirements for a Major (or another Minor) may also be used to fulfill requirements for a Minor. Please refer to the program pages for specific details. Students are not permitted to include more than two Minors in the same degree program.

UNBC offers Minors in a number of subject areas, as outlined in the Undergraduate Calendar. A Minor requires a minimum of 18 credit hours and, in most cases, a maximum of 27 credit hours. At least 12 credit hours of any Minor must be completed at the upper-division level. A maximum of two courses (6 to 8 credit hours) used to fulfill the requirements for a Major (or another Minor) may also be used to fulfill the requirements for a Minor, except when specified in program regulations for individual Minors. Students are not permitted to include more than two Minors in the same degree program. Some degree programs require the mandatory completion of a Minor in order to meet degree completion requirements. Please refer to the Undergraduate Programs pages for specific details. Minors are recorded on a student's official transcript.

**SCAPP201201.06**

**Changes to Calendar Course Description — PHIL 205-3**

That the course description for PHIL 205-3, on page 258 of the 2011/2012 undergraduate calendar, be revised as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**PHIL 205-3 Introduction to the History of Philosophy** This course is an introductory survey of ~~w~~Western philosophy from the ancient Greeks to the ~~early moderns~~ late medieval period, including such thinkers as Pythagoras, Parmenides, Plato, Aristotle, Augustine, and Aquinas, Hobbes, Descartes, Locke, Hume, Rousseau, Kant, Hegel, Mill and Nietzsche. The course provides an overview of philosophical topics including ontology, epistemology and ethics, metaphysics and epistemology.

Prerequisites: none

**SCAPP201201.07**

**Changes to Prerequisite — PHIL 305-3**

That the prerequisite for PHIL 305-3, on page 258 in the 2011/2012 undergraduate calendar, be revised as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**PHIL 305-3 History of Philosophy: Early Modernity to Post-Modernity** This course traces the history of ~~w~~Western philosophy from early modernity to the early twentieth century.

Thinkers discussed may include Aquinas, Ockham, Descartes, Hobbes, Locke, Hume, Kant, Schopenhauer, Rousseau, Fichte, Hegel, Marx, Nietzsche and Heidegger.

Prerequisites: ~~PHIL 205-3~~ Upper-division standing or permission of the instructor  
Precluded: POLS 370-3

#### **SCAPP201201.17**

##### **Changes to Course Title, Description, and Preclusion — POLS 317-3**

That the course title, description and preclusion for POLS 317-3, on page 262 of the 2011/2012 undergraduate calendar, be revised as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**POLS 317-3 Ethics Moral Philosophy** ~~This course provides an overview of the theories of moral philosophy used to understand the major ethical problems of modern society. This course is a survey of historical and contemporary Western moral philosophy. Topics include philosophical ideas such as Platonism, virtue ethics, voluntarism, naturalism, Kantianism, social contract theory and consequentialism.~~ This course is a survey of historical and contemporary Western moral philosophy. Topics include philosophical ideas such as Platonism, virtue ethics, voluntarism, naturalism, Kantianism, social contract theory and consequentialism.

*Prerequisites:* Upper-division standing

**SCAPP201201.21**

**Changes to Course Description — CHEM 320-3**

That the change(s) to the course description for CHEM 320-3 Inorganic Chemistry II be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**CHEM 320-3 Inorganic Chemistry II** ~~A lecture-based course that is focused on the chemistry of the first row of transition elements, along with symmetry and group theory.~~ This lecture-based course is focused on symmetry and group theory, along with the organometallic chemistry of the transition elements.

Prerequisites: CHEM 202-3

**SCAPP201201.22**

**Changes to Course Description — CHEM 321-3**

That the change(s) to the course description for CHEM 321-3 Inorganic Chemistry III be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**CHEM 321-3 Inorganic Chemistry III** ~~A lecture-based course that is focused on the chemistry of the second and third row transition elements. In addition, organometallic chemistry (particularly as it applies to industrial processes) is discussed.~~ This lecture-based course is focused on the general chemical principles within transition elements, along with their descriptive chemistry. Bio-Inorganic Chemistry is also examined.

Prerequisites: CHEM 202-3

**SCAPP201201.23**

**Changes to Course Title and Description — CPSC 495-3**

That the change(s) to the course title and description for CPSC 495-3 Undergraduate Research Project I be approved as proposed.

Effective date: May 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**CPSC 495-3 Undergraduate Research Project-I** This course consists of a small research project undertaken by the student or by teams of students. Projects ~~will~~ consist of the definition of a problem in computing and a literature survey of recent work in the field. Students ~~will be~~ are encouraged to define their own possible solutions and to prototype the solutions where appropriate. Regular review of progress ~~will be~~ is made in meetings. Students develop skills ~~will be developed~~ in the preparation of topic survey notes and in the

development of arguments in support of or against published approaches to problems in computing. Students ~~will be~~ are expected to prepare and present their work. This course may be repeated provided all topics are distinct.

**Prerequisites:** ~~p~~Permission of the instructor

#### **SCAPP201201.28**

##### **Changes to Course Description — ENSC 412-3**

That the changes to the course description for ENSC 412-3 Air Pollution be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**ENSC 412-3 Air Pollution** A This is a multidisciplinary course focusing on air pollution: emissions, chemistry, air pollution meteorology and dispersion modelling, engineering and legislative controls, health effects, and airshed planning.

*Prerequisites:* ENSC 201-3, ~~ENSC 312-3~~ or ENVS 201-3 ~~and ENVS 312-3~~, or permission of instructor

*Precluded:* ENVS 412-3, ENSC 612-3, ENVS 612-3

#### **SCAPP201201.29**

##### **Changes to Course Description — ENSC 450-3**

That the changes to the course description for ENSC 450-3 Geophysical Data Analysis be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~ENSC 450-3 Geophysical Data Analysis This course focuses on the practical and theoretical aspects of advanced geophysical data analysis methods, including time series analysis, linear multivariate statistical analysis, nonlinear statistical methods based on neural network, inverse theory and optimal estimate of space-state. Emphasis is placed on the environmental analysis and prediction using large datasets (e.g., the global satellite observations) and dynamical models (space-state models). Course format consists of lectures and labs.~~  
Environmental and Geophysical Data Analysis The focus of this course is on the principles and practicality of the most common environmental and geophysical data analysis methods, including time series analysis and multivariate statistical analysis as well as their application in the environmental and natural sciences. This course consists of lectures and labs, where students apply theories and methods learned in lectures to solve practical problems using computers and software for statistical data analysis.

*Prerequisites:* MATH 240 or MATH 371

*Precluded:* ENSC650

Smalcel Pederson

#### **“For Approval” Items:**

##### **S-201201.24**

##### **Changes to “Admission from Secondary Schools and CEGEP in Other Canadian Provinces”**

Ryan / Dale

That, on the recommendation of the Senate Committee on Admissions and Degrees, the change(s) to the section “Admission from Secondary Schools and CEGEP in Other Canadian Provinces,” in the 2012-2013 undergraduate calendar, be approved as proposed.

Effective date: January 2012  
CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Admission from Secondary Schools and CEGEP in Other Canadian Provinces

### Alberta, the Northwest Territories and Nunavut

Successful completion of an academic grade 12 program that leads to graduation and includes at least five courses with an overall 65% average selected from:

~~English 30-1~~ or English Language Arts 30-1

at least three additional courses selected from the following: Aboriginal Studies 30, Biology 30, Blackfoot Language & Culture 30, Chemistry 30, Chinese Language & Culture 30, Cree 30, Cree Language and Culture 30, English 35, Français 30-1 or 30-2, French 30, French 31A/B/C, French Language Arts 30-1 or 30-2, German 30/30S, German 31, German Language Arts 30, German Language & Culture 30, Gonawo K'e 35, Inuktitut 35, Inuktitut Studies 35, Italian Language & Culture 30, Japanese Language & Culture 30, Latin 30, Mathematics 30-1, Mathematics 31, Physics 30, Pure Mathematics 30, Science 30, Social Studies 30-1 or 30-2, South Slavey 35, Spanish Language & Culture 30, Tilcho Yati 25, Ukrainian Language & Culture 30/30S, Ukrainian Language Arts 30

additional level 30 or level 31 courses necessary for the successful completion of grade 12. The fifth course subject must be distinct from the four academic courses (e.g., English Language Arts 30-1 and English Language Arts 30-2 cannot both be used).

### Saskatchewan

Successful completion of an academic level three (grade 12) program that leads to graduation and includes at least seven academic courses with an overall 65% average (five of which are at the 30 level) selected from:

- ▶ English A30 and B30
- ▶ Math A30, or B30, or C30
- ▶ at least three additional courses numbered 30 or 30H selected from the following subjects: Biology 30, Calculus 30, Chemistry 30, Computer Science 30, Economics 30, Français A30 or B30, French 30, Geography 30, Geology 30, German 30, Latin 30, Law 30, History 30, ~~other languages~~ Mandarin 30, Mathematics 30, Native Studies 30, Physics 30, Psychology 30, Social Studies 30, Spanish 30, Ukrainian 30, Ukrainian Language Arts 30.
- ▶ additional acceptable courses necessary to graduate

### Manitoba

Successful completion of an academic Sr 4 level (grade 12) program that leads to graduation and includes at least five courses with an overall average of 65% selected from:

- ▶ English 40S or 40U
- ▶ three or more of the additional courses should be selected from the following: Biology 40S, Chemistry 40S, Computer Science 40S, Français 40S, Geography 40S, History 40S, Language 40S, Law 40S, Mathematics 40S, Native Canadian Languages 40S, Physics 40S, Pre Calculus 40S, Social Science 40S/World Issues 40S, Western Civilization 40S
- ▶ one additional course from above or another area at the 40A (advanced), 40G (general), or 40S (specialized) level and any further work necessary to graduate

### Ontario

Successful completion of the Ontario Secondary School Diploma (OSSD), or equivalent, including five grade 12 U or U/C courses with an overall 65% average including:

- ▶ Grade 12 U English
- ▶ four additional Grade 12 4U/4M or U/C courses

All high school courses applied as prerequisites for UNBC courses must be drawn from the “University” designation. Not more than one course proposed for admission may be drawn from the “Arts” category.

### Quebec

Successful completion of at least 12 acceptable university preparatory CEGEP courses with a minimum overall average of 70%, selected from:

- ▶ at least two pre-university English courses
- ▶ 10 additional pre-university courses deemed appropriate for entry into the academic program of choice

Students who complete more than 12 pre-university CEGEP courses with a minimum grade of 70% in each course may receive up to 30 credit hours of transfer credit.

### Quebec Grade 12

Applicants who successfully complete a Quebec grade 12 program with an overall 65% average must present:

- ▶ English
- ▶ at least three additional university preparatory courses selected from Mathematics, Sciences, Languages, Literature, Social Sciences, History, Geography
- ▶ additional academic subjects required for graduation

### New Brunswick

Successful completion of an academic (college preparatory) program that leads to graduation with an overall 65% average and including at least six courses from:

- ▶ English 121 or 122
- ▶ at least three additional grade 12 academic courses coded 120/121/122 selected from Advanced Mathematics, Atlantic Literature, Biology, Calculus, Canadian Literature, Chemistry, Computer Science, Education, Economics, English, Environmental Science, Studies, Français, French, Geography, Geology, History, Latin, Mathematics, Physics, Political Science, Psychology, Sociology, Spanish, Statistics, Writing, World Issues
- ▶ additional academic course(s) necessary to graduate

### Prince Edward Island

Successful completion of an academic or advanced academic program that leads to graduation with an overall 65% average and including:

English 621 or 611

at least three additional courses numbered 611 or 621 selected from Biology, Chemistry, Computer Studies, Economics, Exploring Civilizations, Français, French, Geography, History, Mathematics, other languages, Physics, Political Science, Sociology

additional academic course(s) necessary to graduate

### **Nova Scotia**

Successful completion of an academic program (university preparatory) that leads to graduation with an overall 65% average and including at least five subjects from:

English 12, or ~~English Enriched 12~~ English 12: African Heritage

at least two courses numbered 12 selected from Biology, Canadian Literature, Chemistry, French, Gaelic, Geography, German, Global History, Latin, Mathematics, Advanced Mathematics, Pre-Calculus Mathematics, other languages, Physics, Spanish

additional 12 courses from above or from Comparative Religion, Computer Studies, Earth Sciences, Economics, Entrepreneurship, Food Science, Global Geography, Geology, ~~Home Economics~~, Law, Modern World Problems, Music, ~~Physical and Health Education~~, Political Science, Sociology or Statistics

additional academic course(s) necessary to graduate

### **Newfoundland and Labrador**

Successful completion of an academic program that leads to graduation with an overall 65% average, and including at least 13 credits selected from:

English 3201 or completion of the former Language 3101 and either Thematic Literature 3201 or Literary Heritage 3202

Mathematics 3200, 3201 or ~~3203~~ 3204 or 3205

at least one of Biology 3201, Chemistry 3202, ~~Geology 3203~~, Physics 3204, Earth Systems 3209

at least one of Advanced Writing 3103, Computer Technology 3200, Environmental Science 3205, Global Issues 3205, World Literature 3216, World Religions 3101/3106 or Geography, History or languages at the 3000 level

at least two additional credits at the 3000 level

additional academic course(s) necessary to graduate

\*\* UNBC accepts English First Peoples 12 as an acceptable equivalent to English 12.

\*\* Approved AP and IB courses can be used in place of any approved Grade 12 Canadian high school course.

\*\*\* **A fifth Grade 12 Course:** Any other of the approved Grade 12 courses, and also any Grade 12 course taught in the secondary school including locally-developed courses: e.g. (First Nations Languages), career preparation courses (Construction 12, etc.), or others (Art 12, Band 12, Information Technology 12, Communications 12, CAPP 12, etc.) or any Advanced Placement or International Baccalaureate courses.

\*\*\*\***Nursing:** UNBC's partner institutions, the College of New Caledonia (CNC) and Northwest Community College (NWCC) are processing admissions to the Northern Collaborative Baccalaureate Nursing Program. If you wish to apply to our Prince George or Quesnel campuses, please apply through CNC: [www.cnc.bc.ca](http://www.cnc.bc.ca); if you wish to apply to our Terrace campus, please apply through NWCC: [www.nwcc.bc.ca](http://www.nwcc.bc.ca)

† Students interested in pursuing the BHSc Biomedical Studies Major are strongly encouraged to take Pre-Calculus 12 or Principles of Mathematics 12, and Chemistry 12 before entering the Program.

**Note: Table excludes second year entry professional programs (Education, Social Work).**

### **S-201201.26**

#### **Changes to the English Language Requirements in the Admissions Section**

Ryan / Jensen

That, on the recommendation of the Senate Committee on Admissions and Degrees, the change(s) to the English Language Requirements in the Admissions Section, on page 33 in the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: January 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

English is the primary language of instruction and communication at UNBC. Consequently, it is expected that an applicant be able to demonstrate an acceptable level of proficiency in the use of English in order to receive and participate in classroom instruction and discussion as well as to complete written assignments.

Applicants whose first language is not English, regardless of citizenship or country of origin, must submit evidence of English language proficiency prior to admission. French-speaking Canadians and Canadian First Nations language speakers are exempted from this requirement. Students who completed five consecutive years of instruction and examination entirely in the English language immediately before admission are exempted from this requirement.

Acceptable evidence of English language proficiency may be any one of the following:

TOEFL (Test of English as a Foreign Language) score of 88 or higher in the internet-based test, with not less than 20 in any each of the Reading, Listening, Writing or Speaking components; ~~or equivalent other TOEFL score.~~ Score of at least 230 in the computer based test or at least 570 in the paper based test. UNBC's institutional TOEFL code is 0320.

IELTS (International English Language Testing System) score of at least 6.5 overall, with not less than 6.0 in ~~any~~ each of the four modules.

LPI (Language Proficiency Index) score of at least 5.

~~— Comparable results in any other internationally recognized English Language Assessment test considered as equivalent to TOEFL or IELTS.~~

A final grade of 2.00 (C) or better in the UNBC English Language Studies 50 Component 1 and 2.

A final grade of 70% or better in English 12 from the British Columbia secondary system.

A final grade of 75% (B) or better in a University Transferable English course.

A final grade of 4 or better in Advanced Placement (AP) English Language & Composition or AP Literature & Composition.

A final grade of 5 or better in International Baccalaureate (IB) English A1 or A2 (higher or subsidiary level).

CELP Academic Test score of 4H or higher in each of the Reading, Listening, Writing, and Speaking components.

CAEL (Canadian Academic English Language) Assessment score of at least 70.

University of Cambridge ESOL grade B on the Certificate of Advanced English (CAE).

Comparable results in any other internationally recognized English Language Assessment test considered as equivalent to TOEFL or IELTS.

In order to be considered valid, these scores must be sent directly from the testing agency/institution to the Office of the Registrar.

## 8.5 Steering Committee of Senate

Iwama

### **S-201201.27**

#### **Revisions to Policy — Selection Procedures for the Search Committee for the Vice-President Academic and Provost**

Ryan / Haque

That the revisions to the policy entitled “Selection Procedures for the Search Committee for the Vice-President Academic and Provost” be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

### **S-201201.28**

#### **Revisions to Policy — Selection Procedures for Vice-President Administration & Finance**

Ryan / Jensen

That the revisions to the policy entitled “Selection Procedures for Vice-President Administration & Finance” be approved as proposed.

Effective date: Immediately upon approval by Senate

It was suggested that the phrase “unless otherwise directed by the Board” be added to the end of the sentence at the first bullet under the heading “4. Process,” similar to what has been done with the policy entitled “Selection Procedures for the Search Committee for the Vice-President Academic and Provost.”

It was also noted that, in the third bullet under heading “2. Search Committee Membership” the title should read “VP Academic and Provost.” Also under that same heading, it was pointed out that there are 12 voting members, not 13 voting members as is currently indicated.

Dr. Iwama indicated that he would ensure the Board of Governors received these comments.

CARRIED.

**S-201201.29**

**Revisions to Policy — Review of the Vice-President Academic and Provost Prior to Reappointment: Terms of Reference**

Kitchenham / Ryan

That the revisions to the policy entitled “Review of the Vice-President Academic and Provost Prior to Reappointment: Terms of Reference” be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

**S-201201.30**

**New Policy — Selection Procedures for Dean of Graduate Programs**

Kitchenham / Ryan

That the new policy entitled “Selection Procedures for Dean of Graduate Programs” be approved as proposed.

Effective date: Immediately upon approval by Senate

A Senator pointed out that it was illogical for the “One representative of the Faculty Association” to be appointed by Senate as listed under the section titled “2. Search Committee Membership.”

**Amendment:**

Jensen / Casperson

That the sentence at the ninth bulleted item under the heading “2. Search Committee Membership” be changed to read “~~54~~ Faculty members with tenured or tenure-track appointments, appointed by Senate, to include:” and that the first bulleted item beneath that, reading “One representative of the Faculty Association”, be moved up one level to sit separately.

CARRIED.

It was also requested that the Board consider adding the phrase “unless otherwise directed by the Board” to the end of the sentence at the first bullet under the heading “4. Process”.

The motion, as amended, was CARRIED.

**S-201201.31**

**New Policy — Selection Procedures for Vice-President External Relations**

Ryan / Jensen

That the new policy entitled “Selection Procedures for Vice-President External Relations” be approved as proposed.

Effective date: Immediately upon approval by Senate

It was requested that the Board consider adding the phrase “unless otherwise directed by the Board” to the end of the sentence at the first bullet under the heading “4. Process”.

It was also recommended that, at the third bullet under the bulleted item “3 Staff members, to include:”, listed under the heading “2. Search Committee Membership”, the phrase “reporting directly to the Vice-President External Relations” be removed as there are no Senior Administrative Directors reporting to the Vice-President External Relations.

Finally, it was noted that the number of voting members listed under the heading “2. Search Committee Membership” is 12, not 13.

CARRIED.

**S-201201.32**

**New Policy — Selection Procedures for the Search Committee for the Vice-President Research**

Kitchenham / Ryan

That the new policy entitled “Selection Procedures for the Search Committee for the Vice-President Research” be approved as proposed.

Effective date: Immediately upon approval by Senate

It was requested that the Board consider adding the phrase "unless otherwise directed by the Board" to the end of the sentence at the first bullet under the heading "4. Process".

It was also noted that the title in the third bulleted item under heading "2. Search Committee Membership" should read "Vice-President Academic and Provost."

CARRIED.

**S-201201.33**

**New Policy — Review of the Dean of Graduate Programs Prior to Reappointment: Terms of Reference**

That the new policy entitled "Review of the Dean of Graduate Programs Prior to Reappointment: Terms of Reference" be approved as proposed.

Effective date: Immediately upon approval by Senate

It was noted that, similar to the amendment approved in relation to the policy entitled "Selection Procedures for Dean of Graduate Programs," "One representative of the Faculty Association" should be moved up one level so that the person is not to be appointed by Senate. This revision would necessitate also changing the number of faculty members to be appointed by Senate to "4" from "5."

**Amendment:**

Jensen / Murray

That the sentence at the ninth bulleted item under the heading "3.0 Composition" be changed to read "~~54~~ Faculty members with tenured or tenure-track appointments, appointed by Senate, to include:" and that the first bulleted item beneath that, reading "One representative of the Faculty Association", be moved up one level to sit separately.

CARRIED.

Two typographical errors were also pointed out in the document.

The motion, as amended, was CARRIED.

**8.5 Senate Committee on Nominations**

**Kitchenham**

**8.5.1 Senate Vacancies**

Senator Kitchenham reported on current Senate vacancies (report attached to these minutes as "Appendix II").

**9.0 Other Business**

**9.1 Notice of Motion**

Senator Casperson provided notice of motion for the next regular meeting of Senate (February 29, 2012), as follows:

That Senate strongly recommend that, consistent with general historic practice, complete draft budget documents be presented to the special meeting of Senate to consider the Budget in March.

**9.2 Presentation — Regional Planning**

**Macknak**

Senator Macknak provided a presentation on Regional Planning, noting that his presentation was a summary and highlights of the report distributed to Senators in advance of the Senate meeting (report attached to these minutes as "Appendix III").

**9.3** Report of the Registrar **Hanschen**

Mr. Hanschen provided a report about activities related to the Office of the Registrar (attached to these minutes as "Appendix IV").

**10.0 Information**

**10.1** "Rules of Order" Diagram **Casperson**

Senator Casperson provided a brief overview of the "Rules of Order" diagram that had been provided to Senators.

**11.0** **S-201201.34**  
**Move to In Camera Session**

Casperson / Wagner  
That the meeting move In Camera.  
CARRIED.

**12.0** **S-201201.38**  
**Adjournment**

Hutchings / Casperson  
That the Senate meeting be adjourned.  
CARRIED.

The meeting ended at 5:25 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

February 29, 2012 (*moved from February 22, 2012*)  
3:30 – 5:30 PM  
Room 1079 Administration Building (Senate Chambers)

---

**Present:**

E. Annis, R. Brouwer, C. Carriere, D. Casperson, A. Dayanandan, J. Edwards, M. Green, C. Greening, T. Hanschen (Secretary of Senate), W. Haque, I. Hartley, K. Hutchings (Vice Chair), G. Iwama (Chair), E. Jensen, G. Johnson, A. Kitchenham, R. Lazenby, D. Macknak, B. Murray, C. Myers (Recording), A. Nitu, C. O'Callaghan, C. Pacaide, S. Wagner, E. Wale, J. Young

**Regrets:**

M. Archie, G. Ashoughian, M. Dale, B. Deo, G. Fondahl, K. Guest, M. Hadland, D. Leighton-Stephens, J. Li, S. McKenzie, D. Nyce, D. Ryan, P. Sanborn

**Absent:**

S. Beeler, L. Chen, S. Green, L. Handfield, R. Robinson

---

The meeting commenced at 3:30 p.m.

**1.0**      **S-201202.01**  
**Approval of the Agenda**  
Macknak / Kitchenham  
That the agenda for the February 29, 2012 Public Session of Senate be approved as presented.  
CARRIED.

**2.0**      **S-201202.02**  
**Approval of Senate Minutes**  
Jensen / Hartley  
That the minutes of the January 25, 2012 Public Session of Senate be approved as presented.  
CARRIED.

**3.0**      **Business Arising from Previous Minutes of Senate**

**3.1**      UNBC Memberships Funded by Research Office **Fondahl**

In Vice President Fondahl's absence, Dean Hartley offered to respond to questions regarding the written information that was provided. A Senator asked about membership in some particular organizations and Dean Hartley responded. The Senator also asked whether there was a policy framework, and how decisions were taken with regard to joining organizations. Dean Hartley responded that, as far as he was aware, no policy framework existed in this regard. The Senator suggested it

might be useful to create one, and Dean Hartley offered to take this recommendation back to the Vice President Research, Dr. Fondahl.

**Action:** Dean Hartley to advise Dr. Fondahl of the recommendation that a policy framework be created for purposes of decision-making related to memberships funded by the Research Office.

**4.0 President's Report** **Iwama**

Dr. Iwama reported on the provincial budget and opportunities for UNBC (report attached to these minutes as "Appendix I").

**5.0 Report of the Provost** **Dale**

As Dr. Dale was unable to attend the meeting, he did not provide a report.

**6.0 Question Period**

A Senator asked whether, now that it has reached second reading in the legislature, UNBC planned to formulate a position with regard to Bill 18. Dr. Iwama replied that this Bill has important implications for the post-secondary sector, particularly bicameral institutions. The Bill proposes to reduce the elected members of Senate by 75%. The Research Universities' Council of British Columbia (RUCBC) has discussed the Bill and takes the view that it is unfair to target only the elected members. Dr. Iwama agreed to circulate the Bill, and some analysis by RUCBC, to Senators. He suggested that the matter could be discussed at the Senate meeting of March 21 unless it needs to be considered prior to that, in which case the information could be shared, comments gathered, and a special meeting be held to discuss the Bill.

A Senator asked whether the letter approving the establishment of the Mathematical, Computer, and Physical Sciences degree had been located, noting that he had heard the person working on this matter had left the University. Dean Hartley responded that Tim Thomas had been the contact with the Ministry's Degree Quality Assessment Board, and he has left the University. Dean Hartley offered to seek an update from the Provost in this regard and report back at the next Senate meeting.

**Action:** Dean Hartley to provide an update at the next Senate meeting regarding the status of locating the letter approving the establishment of the Mathematical, Computer, and Physical Sciences degree.

A Senator noted that the Chairs in the College of Science and Management had been told they should be aware of a potential 2% budget cut, and asked why this was happening. Dr. Iwama responded that the Provost was working with the Deans to anticipate what may be coming from the Ministry in terms of budget cuts, as an anticipatory measure.

**7.0 S-201202.03  
Approval of Motions on the Consent Agenda (no material)**  
Hartley / Kitchenham

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.  
CARRIED.

**8.0 Committee Reports**

**8.1 Senate Committee on Academic Policy and Planning** **Dale**

In Dr. Dale's absence, the report from SCAPP was presented by Dean Young.

**“For Approval” Items:**

**S-201202.04**

**Approval of New Dorset UNBC Science Foundation Program Between UNBC and Dorset College  
Casperson / Wagner**

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new Dorset UNBC Science Foundation Program between UNBC and Dorset College be approved as proposed.

Effective date: September 2012

CARRIED.

**S-201202.05**

**Extension of Curtailment on Admissions to the BFA (Fine Arts and Creative Writing) Program**

Jensen / Hartley

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the curtailment on new admissions to the BFA (Fine Arts and Creative Writing) Program be extended through 2012.

Effective Date: Immediately upon approval by Senate

CARRIED.

**8.2 Senate Committee on Research and Graduate Studies**

**Fondahl / Hartley**

**“For Approval” Items:**

**S-201202.06**

**Course Deletion — CPSC 601-3**

Hartley / Kitchenham

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the course CPSC 601-3 Software Engineering for Real-Time Systems on page 104 of the 2011/2012 graduate calendar be deleted.

Effective date: May 2012

CARRIED (consent agenda).

**S-201202.07**

**Course Deletion — CPSC 634-3**

Hartley / Kitchenham

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the course CPSC 634-3 Hardware Architecture on page 105 of the 2011/2012 graduate calendar be deleted.

Effective date: May 2012

CARRIED (consent agenda).

**S-201202.08**

**Course Deletion — CPSC 640-3**

Hartley / Kitchenham

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the course CPSC 640-3 Computer Networks on page 105 of the 2011/2012 graduate calendar be deleted.

Effective date: May 2012

CARRIED (consent agenda).

**S-201202.09**

**Course Deletion — CPSC 643-3**

Hartley / Kitchenham

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the course CPSC 643-3 Mobile Computing on page 105 of the 2011/2012 graduate calendar be deleted.

Effective date: May 2012

CARRIED (consent agenda).

**“For Information” Items:****SCSB20120125.03****New Terms and Conditions — Rising Star Health Service Award**

Hartley / Kitchenham

That the new Terms and Conditions for the Rising Star Health Service Award be approved.

Effective Date: 2012-2013 Academic Year

CARRIED (consent agenda).

**SCSB20120125.04****Revised Terms and Conditions — TD Bank Financial Group Bursary**

Hartley / Kitchenham

That the revised Terms and Conditions for the TD Bank Financial Group Bursary be approved.

Effective Date: 2012-2013 Academic Year

CARRIED (consent agenda).

**SCSB20120125.05****Revised Terms and Conditions — TD Canada Trust Bursary**

Hartley / Kitchenham

That the revised Terms and Conditions for the TD Canada Trust Bursary be approved.

Effective Date: 2012-2013 Academic Year

CARRIED (consent agenda).

## 8.4 Senate Committee on Admissions and Degrees

Smalcel Pederson

**“For Approval” Items:****S-201202.10****Changes to “Advanced Placement” Description in the Admissions Section**

Jensen / Hartley

That, on the recommendation of the Senate Committee on Admissions and Degrees, the change(s) to the “Advanced Placement” description in the Admissions section, on page 29 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Advanced Placement**

Students who take the College Board Advanced Placement courses in high school may be awarded transfer credit upon receipt of the official exam results from the College Board. Courses completed with a grade of four or above will be awarded transfer credit. Students who have completed AP courses with a grade of three may be considered for Advanced Standing ~~in a first year course~~. Advanced Standing allows a student to register in a higher level course without the required prerequisite. However, as credit is not awarded advanced standing will not reduce the number of credits that a student must accumulate to obtain a UNBC degree. As a result a student must make up this credit by completing another course to be used towards their degree requirements. A listing of acceptable AP courses for transfer credit is available ~~in the~~ on the BC Transfer Guide’s website at <http://bctransferguide.ca/guides/ap> ~~(available online at <http://www.bccat.ca/> -/)-~~.

## 8.5 Senate Committee on Nominations

Kitchenham

Dr. Iwama expressed his thanks to all Senators on this list for their service to Senate.

**For Information of Senate:**

**Senators Elected for Terms of Office Commencing April 1, 2012:**

Faculty Senators (until March 31, 2015):

Eleanor Annis (CASHS)  
Kevin Hutchings (CASHS)  
Kuo-Hsing Kuo (CASHS)  
Jalil Safaei Boroojeny (CASHS)  
Shannon Wagner (CASHS)  
Baotai Wang (CASHS)  
David Casperson (CSAM)  
Elie Korkmaz (CSAM)  
Catherine Nolin (CSAM)  
Todd Whitcombe (CSAM)  
Saif Zahir (CSAM)  
Rick Tallman (At Large)

Student Senators (until March 31, 2013):

Jordan Crosina (Undergraduate)  
Kael Walske (Undergraduate)  
Patrick Hickey (Undergraduate)  
Fakhar-UI Islam (Graduate)  
Dean McDonald (Graduate)  
Waqar Younas (Graduate)

**9.0 Other Business**

**S-201202.11**

**Discussion of the Senate Special Session on the Budget** *(no material)*

Casperson / Annis

That Senate strongly recommend that, consistent with historical practice, Senators be given complete draft budget documents in preparation for the March special meeting of Senate to consider the Budget. Effective date: Immediately upon approval by Senate

This motion was discussed. A Senator noted that historical practice was for Senators to receive the draft budget documents, and that this was necessary in order to facilitate informed Senate discussion. Concern was expressed that Senate may be attempting to do the work of the Senate Committee on the University Budget (SCUB). A Senator also articulated that the motion could be viewed as distrustful of SCUB and the Board of Governors. Another Senator stated that, if Senators have issues with the budget, they should be discussing their concerns far in advance of the Senate meeting on March 21.

CARRIED.

**9.1 Presentation — International Partnership Agreements**

**Russell**

Ms. Russell delivered a presentation regarding International Partnership Agreements (attached to these minutes as "Appendix II." In her presentation, Ms. Russell made a recommendation that a "Senate Task Force on International" be created, with terms of reference to "recommend to Senate policies and/or actions that will shape the university's international education strategy." After the presentation was complete, Ms. Russell responded to Senators' questions.

**9.2 Report of the Registrar** *(no material)*

**Hanschen**

The Registrar reported that a request had been made to the Senate Committee on Academic Policy and Planning (SCAPP) and the Senate Committee on Research and Graduate Studies (SCRGS) to merge the two committees, and that he had been asked to look into this request. He planned to provide information to the next meetings of SCAPP and SCRGS for discussion, and invited Senators to provide feedback in this regard to himself or Ms. Myers. Mr. Hanschen noted that the proposal, if approved by

SCAPP, SCRGS, and the Steering Committee of Senate, would come to Senate for consideration in the near future.

**10.0 Information**

There were no items for information. A Senator asked, however, whether Senate would follow up on Ms. Russell's recommendation and create the task force on international. Dr. Iwama responded that this recommendation would be considered by the Steering Committee of Senate and then brought to Senate.

**11.0 S-201202.12  
Move to In Camera Session**

Kitchenham / Pacaide  
That the meeting move In Camera.  
CARRIED.

**12.0 S-201202.16  
Adjournment**

Pacaide / Wale  
That the Senate meeting be adjourned.  
CARRIED.

The meeting ended at 5:00 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

March 21, 2012 (*moved from March 28, 2012*)  
3:30 – 5:30 PM  
Room 1079 Administration Building (Senate Chambers)

---

**Present:**

E. Annis, S. Beeler, C. Carriere, D. Casperson, A. Dayanandan, J. Edwards, G. Fondahl, M. Green, C. Greening, K. Guest, L. Handfield, T. Hanschen (Secretary of Senate), W. Haque, K. Hutchings (Vice Chair), G. Iwama (Chair), E. Jensen, G. Johnson, A. Kitchenham, J. Li, D. Macknak, S. McKenzie, B. Murray, C. Myers (Recording), A. Nitu, D. Nyce, C. O'Callaghan, C. Pacaide, R. Robinson, D. Ryan, S. Wagner, E. Wale

**Regrets:**

M. Archie, G. Ashoughian, R. Brouwer, M. Dale, B. Deo, S. Green, I. Hartley, R. Lazenby, D. Leighton-Stephens, P. Sanborn, J. Young

**Absent:**

L. Chen, M. Hadland

---

The meeting commenced at 3:30 p.m. Dr. Iwama thanked Senators completing their terms of office for their service to Senate.

**1.0 S-201203.01**

**Approval of the Agenda**

Kitchenham / Annis

That the agenda for the March 21, 2012 Public Session of Senate be approved as presented.

Dr. Iwama indicated that Dr. Dale, who was unable to attend the meeting, had asked that agenda item 3.3 (Task Force on International Initiatives) be added under Business Arising, to be addressed by the Secretary of Senate. There were no objections to this request.

The motion to approve the agenda, as amended, was CARRIED.

**2.0 Approval of Senate Minutes**

**S-201203.02**

**Minutes of February 29, 2012**

Hutchings / Annis

That the minutes of the February 29, 2012 Public Session of Senate be approved as presented.

CARRIED.

**S-201203.03**

**Minutes of February 16, 2012**

Kitchenham / Haque

That the minutes of the electronic meeting of Senate of February 16, 2012 be approved as presented.  
CARRIED.

**3.0 Business Arising from Previous Minutes of Senate**

**3.1** Follow-up on question related to letter regarding Mathematical, Computer, and Physical Sciences degree

The Registrar reported, on behalf of Dean Hartley, that the letter in question had been located. Dean Hartley will provide further information at the April meeting of Senate.

**3.2** UNBC Memberships Funded by the Office of Research

Vice President Fondahl reported that the Office of Research supports only institutional, not individual, memberships.

**3.3** Task Force on International Initiatives

Mr. Hanschen reported that Dr. Dale had proposed a motion regarding the Task Force that had been recommended by Ms. Russell during her presentation at the last meeting of Senate. He read the motion, and then asked for a mover and seconder.

**S-201203.03A**

**Task Force on International Initiatives**

Ryan / Pacaide

That Senate establish a Task Force on international initiatives that will recommend to Senate policies and actions that will help shape the University's international education strategy, as suggested in last month's presentation to Senate.

Mr. Hanschen also outlined the membership that Dr. Dale had recommended for the task force, to include Carolyn Russell as Chair, with Annick Pereira, John Young, Paul Pan, and an international undergraduate student as other members. The Task Force should complete its work by mid-May 2012. A Senator asked whether the membership was to be included as part of the motion. As a result of discussion on this question, the following motion was moved:

**Amendment:**

Ryan / Pacaide

That the membership of the task force, as recommended by Dr. Dale, be included as part of the motion.  
CARRIED.

**Motion as amended:**

That Senate establish a Task Force on international initiatives that will recommend to Senate policies and actions that will help shape the University's international education strategy, as suggested in last month's presentation to Senate. The membership of the task force will include Carolyn Russell as Chair, with Annick Pereira, John Young, Paul Pan, and an international undergraduate student as other members.

CARRIED.

**4.0 President's Report**

**Iwama**

Dr. Iwama reported on several matters, including the Provincial government budget, enrolment, the Wood Innovation and Design Centre, Engineering programs, and the 2015 Canada Winter Games (report attached to these minutes as "Appendix I").

**5.0 Report of the Provost** **Dale**

As the Provost was unable to attend the meeting, he did not provide a report.

**6.0 Question Period**

A Senator asked whether, in relation to Dr. Iwama's report on the 2015 Canada Winter Games, UNBC has struck a committee to deal with this event. Dr. Iwama responded that Vice President van Adrichem sits on the city's committee, which had just begun generating decision items. Dr. Iwama agreed that a UNBC committee would be useful, and he anticipated matters coming to Senate for decision.

It was questioned if there were any updates on the status of Bill 18. President Iwama responded that the Research Universities' Council of British Columbia (RUCBC) had prepared a position containing commentary on the proposals of the legislation and provided that information to Board Chairs. He added that he would get an update from RUCBC and, if necessary, forward the information electronically to Senators.

**7.0 Presentation — 2012-2013 Proposed Budget** **Bray**

Ms. Bray delivered a presentation on the 2012-2013 proposed budget (attached to these minutes as "Appendix II"). Ms. Bray noted that the University had not yet received the budget letter from the Ministry, so she had provided that information for the presentation from the provincial government budget. She added that she would be meeting with the Ministry tomorrow in relation to the budget.

Dr. Iwama suggested that questions and discussion be undertaken after the presentation from the Chair of the Senate Committee on the University Budget had been delivered.

**8.0 Committee Reports**

**8.1 Senate Committee on the University Budget** **Dayanandan**

**"For Information" Items:**

**SCUB20120319.01**

**2012 Annual Report from the Senate Committee on the University Budget** (*no material — to be distributed electronically when available*)

That the 2012 Annual Report from the Senate Committee on the University Budget be approved and forwarded to Senate for information.

Effective date: March 19, 2012

Senator Dayanandan provided a presentation in relation to the report from the Senate Committee on the University Budget (SCUB) (attached to these minutes as "Appendix III"). Dr. Iwama thanked SCUB members for their work and report.

The budget was discussed and questions from Senators were responded to by Vice President Bray and Senator Dayanandan.

**8.2 Senate Committee on Nominations** **Kitchenham**

**S-201203.04**

**Membership Changes to Senate**

Jensen / Wagner

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate, be elected to Senate in accordance with Section 3(q)(i) of the Senate Handbook.

Effective date: Immediately upon approval by Senate

**SENATE POSITION TO BE FILLED***(except as otherwise noted, all terms begin April 1, 2012)***CANDIDATE**

Senator Representing Wilp Wilxo'oskwhl Nisga'a (until March 31, 2015)  
 Regional Senator — South-Central Region (until March 31, 2014)  
 Regional Senator — Northwest Region (until March 31, 2015)  
 Regional Senator — Aboriginal / First Nations Communities  
 (until March 31, 2015)

Deanna Nyce  
 Michael Archie  
 Rick Brouwer  
  
 Debbie Leighton-Stephens

Senator Kitchenham asked for further nominations thrice, and in the absence of any further nominations, the candidates were elected by acclamation.

CARRIED.

**S-201203.05****Membership Changes to Senate Committees**

Hutchings / Jensen

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate committees as indicated, be appointed as proposed.

Effective date: Immediately upon approval by Senate

Rick Tallman  
Brenda Koller  
Jeff Kormos  
Johnathan Alec

Senator Kitchenham noted an error in the list of proposed appointees, asking that Catherine Nolin's name be removed from the list of appointees to the Senate Committee on Academic Policy and Planning. He then asked for further nominations three times, and there were no further nominations.

CARRIED.

**9.0 Other Business**

No other business was identified.

**10.0 Information**

There were no items for information.

**11.0 S-201203.06**

**Adjournment**

Kitchenham / McKenzie  
That the Senate meeting be adjourned.  
CARRIED.

The meeting ended at 5:30 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

April 26, 2012  
2:30 – 4:30 PM

Room 1079 Administration Building (Senate Chambers)

---

**Present:**

E. Annis, G. Ashoughian, D. Casperson, M. Dale, M. Green, S. Green, L. Handfield, T. Hanschen (Secretary of Senate), I. Hartley, P. Hickey, K. Hutchings (Vice Chair), F. Islam, G. Iwama (Chair), A. Kitchenham, E. Korkmaz, K. Kuo, D. Leighton-Stephens, J. MacDonald, D. Macknak, D. McDonald, B. Murray, C. Myers (Recording), K. Mytting, M. Nitz, C. Nolin, R. Robinson, J. Safaei Boroojeny, P. Sanborn, C. Silva, A. Stroet, R. Tallman, S. Wagner, K. Walske, B. Wang, T. Whitcombe, W. Younas, J. Young, S. Zahir

**Regrets:**

M. Archie, R. Brouwer, J. Crosina, B. Deo, G. Fondahl, K. Guest, D. Nyce, D. Ryan

---

The meeting commenced at 2:30 p.m. Dr. Iwama welcomed new Senators to the meeting.

**1.0 S-201204.01**

**Approval of the Agenda**

Kitchenham / Annis

That the agenda for the April 26, 2012 Public Session of Senate be approved as presented. Dr. Dale indicated that the Faculty Association had requested that motion S-201204.22 (revisions to Senate Handbook — Merger of Senate Committee on Academic Policy and Planning and Senate Committee on research and Graduate Studies) be postponed until it could be discussed further.

**Motion:**

Casperson / Whitcombe

That motion S-201204.22 be removed from the agenda.

CARRIED.

The main motion was also CARRIED.

**2.0 S-201204.02**

**Approval of Senate Minutes**

Hutchings / Hartley

That the minutes of the March 21, 2012 Public Session of Senate be approved as presented.

CARRIED.

### 3.0 Business Arising from Previous Minutes of Senate

- 3.1 Follow-up on question related to letter regarding Mathematical, Computer, and Physical Sciences degree Hartley

Dr. Hartley provided a report on the status of this situation. The University needs to provide the Ministry with evidence that the degree UNBC has been conferring meets the requirements of the degree that was approved by the Ministry's Degree Quality Assessment Board. This letter needs to be given to the Ministry by the end of May, and the University will then await a response from the Ministry after they meet in June. Dean Hartley agreed to present Senators with an update at the June meeting of Senate. A Senator recommended that students graduating this year be given parchments and transcripts noting the name of the current degree. Dean Hartley responded that he would be discussing this detail with the Ministry. Dr. Mandy, Graduate Program Chair for the MCPS Program, noted that the Ministry has told the University that parchments can be reissued with the updated degree name.

Dean Hartley thanked those involved for their assistance in investigating this matter, and Dr. Iwama thanked Dean Hartley for his work to resolve the issue.

**Action:** Dean Hartley to provide Senators with an update on the status of the MCPS Degree at the June meeting of Senate.

### 4.0 President's Report Iwama

Dr. Iwama apologized in advance for needing to depart the Senate meeting at 3:25 p.m. He invited Senators to observe a moment of silence for those affected by the Lakeland Mills disaster. Dr. Iwama then reported on the Wood Innovation and Design Centre, a meeting held at UNBC with the members of the Research Universities' Council of British Columbia, and two UNBC undergraduate students who had received prestigious 3M awards (President's Report attached to these minutes as "Appendix I").

### 5.0 Report of the Provost Dale

Following up on Dr. Iwama's comments regarding the Wood Innovation and Design Centre and Engineering, Dr. Dale clarified that undergraduate engineering will not take place at the WIDC. He expects that a Master of Engineering (a one year by coursework degree) is what will be offered out of the Centre. UNBC will also be proposing an MSc in Engineering, which will enable the faculty members who will be appointed to teach in the Master of Engineering to have graduate students as part of the research endeavour. Dr. Dale anticipated that the graduate Engineering initiative will proceed and he will therefore bring a proposal for approval in principle of those two graduate degrees to the Senate Committee on Research and Graduate Studies, and Senate, in the near future. Dr. Dale indicated that the intention is to begin hiring faculty members for these programs in the summer of 2013.

### 6.0 Question Period

Several questions were posed. A Senator asked by what means UNBC could respond to the current labour shortage, especially the process for creating degrees in geophysics and geology, for instance. Dr. Iwama responded that these initiatives need to be championed, but also noted that, despite the labour shortage, the situation is problematic—students are not lining up at educational institutions to seek the training required to do these jobs. A Senator added that UNBC could do a better job of marketing its programs in the northeast region.

A question was raised with regard to some agreements that UNBC had entered into with Babine First Nation and Treaty 8 First Nations, focusing in particular on whether the agreements had been approved by Senate or been reviewed by the Senate Committee on First Nations and Aboriginal Peoples. Dr. Iwama agreed that these agreements hold important and far-reaching implications and suggested that Dr. Fondahl should be asked to report on these agreements at the next meeting of Senate.

**Action:** Ms. Myers to relay this request to Dr. Fondahl.

**7.0 S-201204.03**  
**Approval of Motions on the Consent Agenda**

Casperson / Whitcombe

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

Senators requested that motions S-201204.05 and S-201204.13 be removed from the consent agenda.

The motion to approve the consent agenda, as amended, was CARRIED.

**8.0 Committee Reports**

**8.1 Senate Committee on Academic Policy and Planning**

**Dale**

**“For Approval” Items:**

**S-201204.04**

**Changes to Program Requirements — Joint Major in Anthropology and Geography**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the Joint Major in Anthropology and Geography, on page 72 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Joint Major in Anthropology and Geography (BA)

The minimum requirement for completion of a Bachelor of Arts with a Joint Major in Anthropology and Geography is 120 credit hours.

### Program Requirements

#### Recommendation

#### ANTH 102-3 Anthropology: A World of Discovery

Students wishing to pursue graduate degrees in Anthropology or Geography are encouraged to take additional anthropology or geography courses up to 90 credit hours.

#### Lower-Division Requirement

~~ANTH 100-3 Archaeological and Biological Approaches~~  
~~ANTH 101-3 Peoples and Cultures~~

One of:

~~ECON 100-3 Microeconomics~~

~~ECON 101-3 Macroeconomics~~

GEOG 100-3 Environments and People

GEOG 101-3 Human Geography

~~POLS 100-3 Contemporary Political Issues~~

One of:

~~FNST 100-3 Aboriginal Peoples of Canada~~

~~HIST 110-3 Indigena~~

~~HIST 210-3 Canada Before Confederation~~  
~~HIST 211-3 Canada Since Confederation~~

ANTH 200-3 Biological Anthropology  
ANTH 205-3 Introduction to Anthropology  
~~ANTH 210-3 Understanding Theory~~  
ANTH 213-3 Peoples and Cultures

One of:

~~ANTH 201-3 Medical Anthropology~~  
~~ANTH 206-3 Ethnography in Northern British Columbia~~  
~~ANTH 207-3 Popular Culture~~  
~~ANTH 209-3 Pacific Ethnography~~  
~~ANTH 211-3 Anthropology Through Film~~  
~~ANTH 214-3 Anthropology of Europe~~  
~~ANTH 215-3 Anthropology of Canada~~

ECON 205-3 Statistics for Social and Management Sciences  
~~GEOG 202-3 Economic Geography~~  
~~GEOG 204-3 Introduction to GIS for the Social Sciences~~  
~~GEOG 206-3 Social Geography~~

Or MATH 240-3 Basic Statistics  
Or STATS 240-3 Basic Statistics

Four of:

GEOG 200-3 British Columbia: People and Places  
GEOG 202-3 Economic Geography of Resources and Sustainability  
GEOG 203-3 Roots, Ruggedness, and Rituals: A Geography of Canada  
GEOG 204-3 Introduction to GIS for the Social Sciences  
GEOG 206-3 Society and Space  
GEOG 209-3 Migration and Settlement

GEOG 401-3 Resource Geography  
GEOG 422-3 Geography of the World Economy  
GEOG 424-3 Social Geography of Northern Communities  
GEOG 426-3 Culture, Rights & Power  
GEOG 428-3 Advanced Medical Geography~~

Six of:

GEOG 301-3 Cultural Geography  
GEOG 305-3 Political Ecology  
GEOG 306-3 Geography of International Development: Places, People, Policies, and Promises  
GEOG 307-3 Changing Arctic: Human and Environmental Systems  
GEOG 308-3 Environments of Health and Care  
GEOG 401-3 Tenure, Conflict, and Resource Geography  
GEOG 403-3 First Nations and Indigenous Geography  
GEOG 420-3 Geographies of Environmental Justice

21 additional credit hours of upper-division courses in any subject

## Elective and Academic Breadth

Elective course hours as necessary to ensure completion of a minimum of 120 credit hours, ~~of which at least 21 credit hours must be at the 300 and 400 level~~ including any additional credit hours necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

### **S-201204.05**

#### **Changes to Program Requirements — Major in Psychology**

Whitcombe / Hutchings

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the Major in Psychology program requirements, on page 173 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

Not intending to single out the Major in Psychology, a Senator expressed concern at the fact that some degrees only require students to take 12 courses at the upper-division level. The Registrar responded that the residency requirement is that students take 30 upper-division credit hours, partly because students transferring to UNBC may come in with up to 90 credit hours. Another Senator added that the number of required upper-division credit hours may be low as a result of potential difficulty obtaining prerequisites. Dr. Dale suggested that this issue be added to the agenda of the Senate Committee on Academic Policy and Planning for discussion.

<b>Action:</b> Ms. Myers to add this item to the agenda for the next meeting of the Senate Committee on Academic Policy and Planning.
---

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

# Major in Psychology

Undergraduate students are required to take 17 Psychology courses (53 credit hours). Of these, at least 12 (38 credit hours) must be upper-division courses.

The minimum requirement for completion of a Bachelor of Science with a major in Psychology is 122 credit hours.

## Program Requirements

### Lower Division Requirement

100 and 200 Level

~~CPSC 150-3 Computer Applications~~

PSYC 101-3 Psychology as a Science

PSYC 102-3 Psychology and Human Problems

PSYC 215-3 Research Design and Methodology in Psychology I

Two additional Psychology 200-level courses

Note: It is strongly recommended that students planning to major in Psychology select at least one elective course in Mathematics and one in Biology within the first two years.

### Upper Division Requirement

300 and 400 Level

PSYC 315-4 Design and Analysis of Psychological Research I

PSYC 316-4 Design and Analysis of Psychological Research II

Two of:

PSYC 307-3 Motivation and Emotion

PSYC 317-3 Psychobiology

PSYC 318-3 Sensation and Perception

PSYC 320-3 The Psychology of Learning

PSYC 330-3 Cognition

Two of:

PSYC 301-3 Social Psychology

PSYC 303-3 Introduction to Abnormal Psychology

PSYC 306-3 Theories of Personality

PSYC 309-3 Introduction to Health Psychology

PSYC 345-3 Lifespan Development

One of:

PSYC 442-3 Methods in Developmental Psychology

PSYC 445-3 Methods in Perception and Psychophysics

PSYC 450-3 Tests and Measures

PSYC 455-3 Methods in Social Psychology

PSYC 460-3 Methods in Cognitive Psychology

PSYC 470-3 Psychophysiology

PSYC 475-3 The Evaluation of Social Programs

PSYC 480-3 Critical Analysis in Psychology and the Health Sciences

PSYC 485-3 Current Topics in Psychological Research

Fifteen credit hours of 300- or 400-level Psychology courses, of which six credit hours must be at the 400 level.

### Elective and Academic Breadth

Electives at any level in any subject sufficient to ensure completion of a minimum of 122 credit hours including any additional credits necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

## BSc Honours - Psychology

Honours students are required to complete 122 credit hours. Students must successfully complete the 56 credit hours for the Psychology BSc program, 54 credit hours of electives and 12 credit hours from the courses listed below.

PSYC 490-3 Honours Thesis I  
PSYC 495-3 Honours Thesis II  
PSYC 497-3 Senior Seminar  
and one additional 400-level Psychology course.

#### **S-201204.06**

##### **Changes to Calendar Description — BSc Honours - Biology**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the calendar description of the BSc Honours - Biology be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **BSc Honours-Biology**

The Honours in Biology ~~offers students a higher level of education and substantial research experience for proceeding to post graduate studies.~~ recognizes undergraduate students who both excel at their studies and who complete the Undergraduate Thesis (normally NRES 430-6).

To ~~be admitted to enter~~ the Honours degree program Program, students must have completed 60 credit hours and obtained a minimum Cumulative GPA of 3.33. Attaining the minimum Cumulative GPA requirement ~~will~~ does not guarantee admission entry into the Honours pProgram, which ~~will be~~ is at the discretion of the Ecosystem Science and Management Program. Maintenance of a Cumulative GPA of 3.33 is required to remain in the Honours Program.

Honours students are required to complete the degree requirements for the BSc in Biology. In addition, each student must also complete an additional ~~six 6~~ credit hours in the form of an undergraduate thesis ~~chosen from NRES 430-6, ENSC 430-6, or BCMB 430-6~~ under the supervision of a Faculty member. ~~Students are responsible to find their own undergraduate thesis research supervisor. Faculty members are under no obligation to supervise honours students.~~

Note: Students are responsible for finding their own undergraduate thesis research supervisor. Faculty members are under no obligation to supervise Honours students.

#### **S-201204.07**

##### **Approval of New Honours Degree Program — Bachelor of Science in Computer Science (BSc) Honours**

Whitcombe / Zahir

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new Bachelor of Science in Computer Science (BSc) Honours program be approved as proposed.

Proposed start date: January 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Entry to the Computer Science Honours Program takes place after completion of 60 credit hours and requires a minimum Cumulative GPA of 3.33 over the previous 30 credit hours, and the permission of the Department Chair. Candidates are required to consult with their Student Advisor prior to entry to the program. Attaining the minimum requirement does not guarantee entry to the Honours Program, which is at the discretion of the Department and

depends on the availability of a supervisor. Faculty members are under no obligation to supervise Honours students. To remain in the Honours Program requires the maintenance of a minimum Cumulative GPA of 3.33.

To be awarded the BSc Honours degree students will

- complete 120 credits hours required for a BSc in Computer Science
- complete an additional 6 credit hours of CPSC 491 and an undergraduate thesis under the supervision of a faculty member
- complete Math 371

**S-201204.08**

**Approval of New Course — CPSC 430-(3,6)**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course CPSC 430-(3,6) Undergraduate Thesis, be approved as proposed.

Proposed semester of first offering: January 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**CPSC 430-(3,6) Undergraduate Thesis:**

This undergraduate thesis allows students to examine and research a topic in the field of computer science. Students must have completed at least 90 credit hours and be computer science majors. This thesis may be taken in one or two semesters. CPSC 430 is normally taken over two semesters and requires that a student find an Undergraduate Thesis research supervisor. Therefore, students are encouraged to apply to potential supervisors well in advance of completing 90 credit hours. This course may be repeated for a total of 6 credit hours.

**Prerequisites:** Honours standing and permission of the Instructor and Department Chair

**Prerequisites:** Permission of the Instructor and Department Chair

**S-201204.09**

**Changes to Degree Requirements — Environmental Planning Majors (Major in Northern and Rural Community Planning, Major in First Nations Planning, and Major in Natural Resources Planning)**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the degree requirements for the Environmental Planning Majors (Major in Northern and Rural Community Planning, Major in First Nations Planning, and Major in Natural Resources Planning) in the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**S-201204.10**

**Approval of New Honours Program — Natural Resources Management (Major in Wildlife and Fisheries)**

Whitcombe / Kitchenham

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new Bachelor of Science Honours - Natural Resources Management for the major in Wildlife and Fisheries be approved as proposed.

Proposed start date: September 2012  
CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **General Calendar Description:**

#### **BSc Honours-Natural Resources Management (Wildlife and Fisheries)**

The Honours in Natural Resources Management (Wildlife and Fisheries) recognizes Undergraduate students who both excel at their studies and who complete the Undergraduate Thesis (normally NRES 430).

To enter the Honours Program, students must have completed 60 credit hours and obtained a minimum Cumulative GPA of 3.33. Attaining the minimum GPA requirement does not guarantee entry into the Honours Program, which is at the discretion of the Ecosystem Science and Management Program. Maintenance of a Cumulative GPA of 3.33 is required to remain in the Honours Program.

Honours students are required to complete the degree requirements for the BSc in Natural Resources Management (Wildlife and Fisheries). Each student also must complete a 6-credit Undergraduate Thesis (as part of their elective credits) under the supervision of a Faculty member.

**Note:** Students are responsible to find their own undergraduate thesis research supervisor. Faculty members are under no obligation to supervise Honours students.

#### **S-201204.11**

##### **Approval of New Honours Degree Program — Physics**

Hartley / Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new Honours Degree in Physics be approved as proposed.

Proposed start date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **General Calendar Description:**

The Honours Program in Physics offers students a higher level of physics education and physics research experience for proceeding to postgraduate studies in physics or related fields. Honours students must complete the program requirements for the BSc degree in Physics (Major in Physics). In addition, they must complete PHYS 402 and submit for approval an undergraduate thesis or research project report under the supervision of a faculty member.

Students can seek entry to the Honours program after the completion of 60 credit hours with a Cumulative GPA of at least 3.33, and their continuance in the program also requires maintaining a Cumulative GPA of 3.33 or better. Entry to the Honours Program is at the discretion of the Physics Department.

## **S-201204.12**

### **Changes to Program Requirements — Major in Public Administration and Community Development**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the requirements for the Major in Public Administration and Community Development, on page 134 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Major in Public Administration and Community Development**

The Public Administration and Community Development major gives students the skills to function within a range of groups, organizations, and offices. The graduate is able to interact with appropriate professionals, receive their input and reports, and collate a wide range of information and material in service of their group/organization/office. Skills in analysis and synthesis are complemented by an ability to work cooperatively and effectively, and an ability to communicate clearly through written, oral, and graphic mediums.

The Public Administration and Community Development major requires completion of 120 credit hours, 48 of which must be at the upper-division level. At the ~~1st and 2nd year level~~ (lower-division level), students must take the 7seven required courses and a minimum of 1one course from each of the 7seven focus categories. At the ~~3rd and 4th year level~~ (upper-division level), students must take the 4four required courses and a minimum of 1one course from each of the 7seven focus categories. To complete the 120 credit hours, students must take 45 credit hours of electives, of which 18 credit hours must be at the upper-division level.

It is possible for students to organize their course choices (focus categories and electives) to achieve a “specialization” of course work, ~~which. A specialization will~~ requires 24 credit hours ~~of courses~~ (8eight courses) ~~from in~~ one of the specialization lists following:

- Specialization in Local Public Administration
- Specialization in Aboriginal Community Development
- Specialization in Planning

ENPL 208-3 First Nations Community and Environmental Planning  
ENPL 313-3 Rural Community Economic Development  
ENPL 409-3 Advanced First Nations Community and Environment Planning  
ENPL 419-3 Social Research Methods

### **S-201204.13**

#### **Changes to Undergraduate Academic Regulation 5 (Course Load)**

Casperson / Murray

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the revisions to Undergraduate General Academic Regulation 5 - Course Load on page 53 of the 2011/2012 Undergraduate Calendar be approved as proposed.

Effective date: September 2012

Some Senators expressed concern that changing this regulation may allow some students to take up to 7 courses.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### 5. Course Load

A full course load for a student is considered to be five courses (15 credit hours) in any one semester. Not more than ~~20~~ 21 credit hours may be attempted in a semester except by permission of the Dean of the ~~relevant~~ College in which the student is majoring or has indicated an intention to complete a degree.

### **S-201204.14**

#### **Changes to Undergraduate Academic Regulation 31 (Repeating Courses)**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the revisions to Undergraduate General Academic Regulation 31 – Repeating Courses on page 56 of the 2011/2012 Undergraduate Calendar be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### 31. Repeating Courses

Except by permission of the ~~Dean~~ Chair, students are allowed to repeat a course only once. Both grades are recorded on ~~the~~ a student's transcript, and only the higher (passing) grade will be calculated into a student's GPA ~~of either attempt and may be used for credit towards a credential the degree and only that grade will be calculated into the GPA~~. In the case of more than one failed attempt, only the result of the later most recent attempt will be calculated into the GPA ~~Grade Point Average~~. In cases where the repeated course is a required course for a specific degree, two failed attempts may result in the student being required to withdraw from that degree program.

#### **S-201204.15**

##### **Approval of Revisions to Document Entitled "External Reviews of Academic Units: A Reference Guide"**

Hutchings / Hartley

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the revisions to the document entitled "External Reviews of Academic Units: A Reference Guide" be approved as proposed.

Effective date: Immediately upon approval by Senate

#### **Amendment:**

Hutchings / Hartley

That the sentence "In the case of new programs, they will be reviewed in the fifth year" be added after the first sentence in the second paragraph under the heading entitled "2. The Review Process" on page 3 of 19 of the document.

CARRIED.

At 3:30 p.m. Dr. Iwama had to depart the meeting so the Chair was assumed by Senator Hutchings, Vice Chair.

It was suggested that the "Revision History" information on page 19 of 19 of the document be retained in the document rather than deleted. Dr. Dale was amenable to this suggestion.

The main motion was CARRIED.

#### **"For Information" Items:**

##### **SCAPP201204.03**

##### **Changes to Calendar Course Description and Credit Hours — FNST 298-(1-3)**

Casperson / Whitcombe

That the changes to the course description and credit hours for FNST 298-(1-3) Special Topics in First Nations Studies, on page 225 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

FNST 298-(4-3) Special Topics in First Nations Studies

This course may be repeated to a maximum of 6 credit hours if the material is substantially different.

Prerequisites: ~~p~~Permission of the instructor and Department Program ~~Program~~ Chair

**SCAPP201203.08**

**Changes to Calendar Course Description — NRES 430-6**

Casperson / Whitcombe

That the changes to the course description for NRES 430-6 Undergraduate Thesis on page 248 of the 2011/2012 Undergraduate Calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~NRES 430 - Undergraduate Thesis-Students must have completed at least 90 credit hours of study and be an NRES major. The thesis may be taken in one or two semesters of the senior year.~~

An undergraduate thesis offers students substantial research experience, which may be helpful for proceeding to postgraduate studies. The course requirements include conducting supervised research, writing a thesis, and presenting the results orally. Students taking this course would normally be majoring in Biology, Environmental Studies, Natural Resources Management (Forest Ecology and Management, Outdoor Recreation and Conservation, or Wildlife and Fisheries), or Nature-Based Tourism Management. NRES 430 is normally taken over two semesters and requires that a student find an Undergraduate Thesis research supervisor. Students are encouraged to apply to potential supervisors well in advance of completing 90 credit hours.

Prerequisites: Completion of at least 90 credit hours of study and permission of an Undergraduate Thesis research supervisor and a Program Chair.

**8.2 Senate Committee on Research and Graduate Studies**

**Fondahl / Hartley**

**“For Approval” Items:**

**S-201204.16**

**New Course Approval – SOCW 640-3**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course SOCW 640-3 Social Work Supervision and Leadership be approved as proposed.

Proposed semester of first offering: January 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course examines leadership and supervision from a social work perspective and it also draws on interdisciplinary knowledge from related fields of practice in health, education, business, and human services. The course emphasizes social justice and the effective and responsible use of human and material resources. Components of supervision and leadership such as administration, support, education, clinical supervision, performance management, recruitment and retention of employees, organizational context, interdisciplinary practice, and problem solving are addressed in this course. The course also encourages the development of styles of leadership and supervision that are respectful and anti-oppressive in nature.

#### **S-201204.17**

#### **Changes to Regulation 1.9 (Permission for Undergraduates to Take Graduate Coursework)**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the Graduate Programs Admissions and Regulations, Regulation 1.9 (Permission for Undergraduates to Take Graduate Coursework), on page 37 of the 2011/2012 Graduate Academic Calendar, be approved as proposed.

Effective date: May 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **1.9 Permission for Undergraduates Students to Take Graduate Coursework**

**1.9.1** Students in their final year of a Bachelor's degree program at the University of Northern British Columbia who have a grade point average of at least 3.33 (B+) in the last 30 credit hours of course work attempted and have completed all required lower-division course work may be permitted to register in a maximum of ~~six~~ six credit hours of graduate courses at the Master's level with ~~on the recommendation permission~~ of the Instructor and the Graduate Program concerned and with the ~~consent approval~~ of the Dean of Graduate Programs. If a student is subsequently admitted to a Graduate Program, graduate courses used for credit toward an undergraduate program cannot be used for credit toward a graduate program.

This policy gives academically strong undergraduate students the opportunity to experience graduate-level instruction without commitments being made by either the student or the University about admission into graduate programs, or academic credit being awarded for the courses if a student is subsequently admitted to a graduate program.

Please see the Graduate Studies Officer in the Office of the Registrar for further information.

#### **S-201204.18**

#### **Changes to Regulation 2.5 (Withdrawal from the University)**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the Graduate Programs Admissions and Regulations, Regulation 2.5 (Withdrawal from the University), on page 38 of the 2011/2012 Graduate Academic Calendar, be approved as proposed.

Effective date: May 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **2.5 Leave of Absence or Withdrawal from the University**

Students in degree programs who wish to withdraw, either temporarily or permanently, must do so formally in accordance to the following procedures. ~~Requests for permanent withdrawal must be made to the Dean of Graduate Programs.~~

**2.5.1 ~~Leave of Absence~~** Students who wish to request a leave of absence must apply using the Leave of Absence Form to the Dean of Graduate Programs, with supporting documentation from their supervisor, and with detailed documentation (e.g., a doctor's note) explaining the need for such a leave. ~~A leave of absence is granted for one semester only. Students must register for the next semester or request a further leave of absence.~~ A student may normally have a leave of absence for no more than 3 semesters in a Master's graduate degree program. Under exceptional circumstances and only as recommended by the supervisor and approved by the Dean of Graduate Programs, a further leave of absence may be granted. Students cannot undertake academic or research work nor use any of the University's facilities during the period of leave. After the leave of absence is completed, students must register for the next semester. The transcript will record the notation: "Leave of Absence".

**2.5.23** Students who wish to withdraw from their Graduate Program and have their transcript indicate that they were in good standing when they withdrew, must apply using the Request to Withdraw Form ~~in writing~~ to the Dean of Graduate Programs, with supporting documentation from their supervisor. The transcript will record the notation:

"Withdrawn with Permission". The transcript of students who fail to notify the University of their intention to withdraw from their graduate program will record the notation: "Withdrawn without Permission".

**2.5.32** Time spent on an approved leave of absence (see Regulation 2.5.1) is not counted as part of the total time allowed for completion of the degree program (see Regulation 4.2).

**2.5.4** The transcript of students who fail to notify the University of their intention to withdraw from their Graduate Program or who have not maintained continuity of registration in accordance with Regulation 2.2.1 will record the notation "Withdrawn without Permission."

## **S-201204.19**

### **Changes to Regulation 4.3 (Academic Performance)**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the Graduate Programs and Admissions Regulations, Regulation 4.3 (Academic Performance), on page 40 of the 2011/2012 Graduate Academic Calendar, be approved as proposed. Effective date: May 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **4.3 Academic Performance**

A student who fails to meet academic standards, or whose thesis, project, practicum, or comprehensive examination is not progressing satisfactorily, may be required to withdraw by the Dean of Graduate Programs on the advice of the supervisor and supervisory committee.

**4.3.1** Students must attain a semester grade point average of at least 3.00 ("B") for every semester in which they are registered. Individual programs may set higher standards. Any student with a semester grade point average below 3.00 ~~will not may~~ be allowed to register in the next semester ~~until~~ while their academic performance ~~has been~~ is reviewed by their supervisory committee and continuation in their Graduate Program is ~~approved~~ recommended by the supervisory committee and approved by the Dean of Graduate Programs.

Students who were registered in one course in a semester that resulted in a semester grade point average less than 3.00 based on a B- grade may be allowed to continue in their graduate program. However, if the student's cumulative grade point average is lower than a 3.00, a continuance review is needed.

[Many graduate students are registered in one course in a semester and may receive a grade of B-. It is an acceptable grade at UNBC and therefore it should not be a reason for a continuance review. However, if the cumulative grade point average in the graduate degree is less than 3.00, and since CGPA=3.00 is required for graduation, a continuance review will be needed.]

**4.3.2** ~~Every A~~ Every A grade ~~lower than "B" of F~~ in a course taken for credit in a Graduate Program must be reviewed by the supervisory committee and a recommendation must be made to the Dean of Graduate Programs concerning continuance of the student in the program. Such students will not be allowed to register in the next semester until approved to do so by the Dean of Graduate Programs.

[There is no grade lower than a B- for graduate courses except for the grade of 'F'.]

**4.3.3** Graduate students may not repeat graduate courses except under exceptional circumstances, ~~and only with the if approval recommended by the supervisory committee and approved by of the Dean of Graduate Programs on the recommendation of the supervisory committee.~~

**4.3.4** Students registered in a thesis, project, practicum or comprehensive examination will have their progress evaluated through progress reports completed by their supervisor in consultation with the supervisory committee (if applicable) and the student, and submitted to the Dean of Graduate Programs. If the progress report indicates a second Needs Improvement or Unsatisfactory progress, the student's continuation is reviewed by their supervisory committee with the Graduate Program Chair. Recommendations are submitted to the Dean of Graduate Programs for final decision.

[The addition of the 'Needs Improvement' was added to the progress reports where it was either 'Satisfactory' or 'Unsatisfactory'. If the supervisor feels that the student's progress is not yet satisfactory and not unsatisfactory, but can be improved, the 'Needs Improvement' can be indicated. If, however, the student has been

again marked as 'Needs Improvement' or 'Unsatisfactory', then a continuance review will be needed.]

4.3.5 Conditions may be imposed by the Dean of Graduate Programs for continuation in the program. The conditions normally must be met within the next semester or the student will be required to withdraw.

#### **S-201204.20**

#### **Changes to Regulation 4.5.1 (Final Oral Examinations and Examining Committees—General Regulations)**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the Graduate Programs and Admissions Regulations, Regulation 4.5.1 (Final Oral Examinations and Examining Committees—General Regulations), on page 41 of the 2011/2012 Graduate Academic Calendar, be approved as proposed.

Effective date: May 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **4.5 Final Oral Examinations and Examining Committees**

##### **4.5.1 General Regulations**

a. Master's degrees require a final ~~oral~~ examination.

~~b.~~ Degrees that have a final examination by project, comprehensive exam, major paper, etc., may be examined ~~and certified~~ in a manner agreed upon by the Program and the Dean of Graduate Programs; otherwise, the examination shall be as for theses.

~~b- c.~~ For all theses, Students may proceed to an oral examination when the supervisory committee is satisfied that the ~~thesis, project or other~~ scholarly work represents an examinable document for the degree requirements. The supervisory committee and student confirms this by signing the *Request for Oral Examination and Appointment of an External Examiner* form. This form must be submitted to the Dean of Graduate Programs at least six weeks before the anticipated date of oral examination. Two copies of the document ~~will be~~ are required by the Office of Research and Graduate Programs upon submission of the *Request for Oral Examination and Appointment of an External Examiner* form. One copy of the document will be forwarded to the External Examiner by the Office of Research and Graduate Programs.

[There is a section on the *Request for Oral Examination and Appointment of an External Examiner* form for the student to sign. It is mandatory that the student signs the request as well as scheduling of the defence will not proceed until that signature is obtained.]

~~ed.~~ Before proceeding to the ~~oral final~~ examination, all courses taken for credit in Graduate Programs must be completed with a cumulative grade point average of not less than 3.00 (B) and with no grade in any course less than B- (or the higher standard set by the individual program). Any language requirement must be met before the student proceeds to the ~~oral~~ examination.

~~de.~~ The Dean of Graduate Programs (or designate) ~~will act~~ as Chair at the ~~final~~-oral examination. Any tenured member of the faculty at the Associate Professor level or higher with extensive experience in Graduate Programs is eligible to serve as the Dean's ~~nominee~~ designate.

[The change brings the use of consistent language.]

f. Normally, the oral examinations are open to the University community. Copies of the thesis abstract shall be made available to all those attending the examination. The Dean of Graduate Programs or designate shall have the right to attend all phases of the examination. In rare circumstances where a public examination would be detrimental to the student or the sponsor of the research to have it made public, the author of the thesis, project or dissertation may request a closed oral examination. The request for a closed oral examination must be made in writing to the Dean of Graduate Programs for review and approval when the Request for Oral Examination is made.

[The proposed section formalizes that defences are normally open to the University community. However, in light of some restrictions on disclosure of defence material that may cause harm (i.e., patent application, contract obligations, etc.), a closed oral defence is allowed.]

**S-201204.21**

**Approval of Revisions to Document Entitled “External Reviews of Academic Units: A Reference Guide”**

Dale / Murray

There were no items for information.

**11.0 S-201204.24  
Adjournment**

Whitcombe / Kitchenham  
That the Senate meeting be adjourned.  
CARRIED.

The meeting ended at 4:00 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

May 23, 2012

3:30 – 5:30 PM

Senate Chambers (Room 1079 Administration Building)

---

**Present:**

E. Annis, G. Ashoughian, R. Brouwer, D. Casperson, J. Crosina, G. Fondahl, S. Green, K. Guest, T. Hanschen (Secretary of Senate), I. Hartley, P. Hickey, K. Hutchings (Vice Chair), F. Islam, G. Iwama (Chair), E. Korkmaz, D. Leighton-Stephens, D. Macknak, D. McDonald, C. Myers (Recording), K. Mytting, D. Nyce, R. Robinson, P. Sanborn, S. Wagner, T. Whitcombe, W. Younas, J. Young, S. Zahir

**Regrets:**

M. Archie, M. Dale, B. Deo, M. Green, L. Handfield, A. Kitchenham, K. Kuo, B. Murray, M. Nitz, C. Nolin, D. Ryan, J. Safaei Boroojeny, C. Silva, A. Stroet, R. Tallman, K. Walske, B. Wang

---

The meeting commenced at 3:35 p.m.

**1.0**      **S-201205.01**  
**Approval of the Agenda**

Zahir / Whitcombe

That the agenda for the May 23, 2012 Public Session of Senate be approved as presented.

Dr. Iwama suggested that, since the meeting was barely quorate and there was important business to be attended to in the in camera session, the in camera session be held prior to the public session.

**Motion:**

Whitcombe / Zahir

That the agenda be amended by moving the in camera session to the top of the agenda.

CARRIED.

The motion to approve the agenda, as amended, was CARRIED.

**2.0**      **S-201205.15**  
**Move to In Camera Session**

General Consent

That the meeting move In Camera.

CARRIED.

### 3.0 Approval of Senate Minutes

#### S-201205.02

##### Minutes of April 26, 2012

Hutchings / Zahir

That the minutes of the April 26, 2012 Public Session of Senate be approved as presented.

CARRIED.

#### S-201205.03

##### Minutes of February 20, 2012

Younas / Hutchings

That the minutes of the electronic meeting of Senate of February 20, 2012 be approved as presented.

CARRIED.

### 4.0 Business Arising from Previous Minutes of Senate

#### 4.1 Agreements Involving First Nations

Fondahl

Vice President Fondahl provided information in response to a question raised at the last meeting of Senate. She noted that UNBC has two broad memoranda of understanding with First Nations, namely the Babine Lake First Nation and the Treaty 8 Tribal Association. She added that some of the wording in the agreements is problematic, but that protocol committees, as provided for in the agreements, have been established and will examine these concerns. The Treaty 8 agreement has an "escape clause," which does not exist in the Babine Lake agreement, and Dr. Fondahl noted that this would likely be one of the issues that is discussed when the protocol committee for the Babine Lake agreement meets. Finally, Dr. Fondahl agreed with Senators that agreements of this type should be vetted through the appropriate Senate committees and Senate prior to being signed. The Registrar stated that he was currently working on establishing some approval process guidelines for several different types of agreements, which should come forward within the next few months.

#### 5.0 President's Report

Iwama

Dr. Iwama reported on several matters, including a recent trip to Japan (report attached to these minutes as "Appendix I").

#### 6.0 Report of the Provost

Dale

As Dr. Dale was unable to attend the meeting, he did not provide a report.

#### 7.0 Question Period

A Senator asked in which sports UNBC would be participating with Canadian Interuniversity Sport, and Dr. Iwama responded that UNBC currently fields teams in basketball and soccer but that he hoped more sports would be added in the future. The Senator indicated that he was involved with the UNBC Table Tennis club and would be interested in joining. Dr. Iwama replied that he would like to hear more about this.

It was questioned whether Bill C-38, an act to amend budget implementation, would have any impact on the university sector. Dr. Iwama responded that he was not aware of any potential impact but that he would ask the Research Universities' Council of BC (RUCBC) to follow up on this question and would report back to Senate.

<b>Action:</b> Dr. Iwama to check with the RUCBC regarding whether Bill C-38 poses any potential impact to the university sector and to report back to Senate.
--

A Senator asked about the status of the University Industry Liaison Officer position. Vice President Fondahl replied that there had been an attempt to fill this position about two years ago which failed. As a result, the decision had been made to focus on the New North Foundation and someone had been hired

in a temporary capacity to do the work. That position was recently extended for 6 months and Dr. Fondahl will be providing some recommendations to the new VP Research so that person can make a decision about how to proceed.

A Senator raised a concern about the number of dropped cell phone calls as a result of dead zones on campus and asked whether there were any plans to address this situation. Dr. Iwama responded that he did not know, but would find out from the Vice President Administration and Finance and report back to Senate.

**Action:** Dr. Iwama to check with Ms. Bray regarding whether there are any plans to address concerns with the wireless network and report back to Senate.

**8.0 S-201205.04**  
**Approval of Motions on the Consent Agenda**

Casperson / Whitcombe

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

**9.0 Committee Reports**

**9.1 Senate Committee on Academic Policy and Planning**

**Dale**

### **S-201205.11**

#### **Changes to Calendar Description — Major in International Business**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change in the calendar description for the Major in International Business, on page 82 of the 2011-2012 Undergraduate Academic Calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Major in International Business:

In recent years the importance of an international perspective for ~~Business~~ students of business has increased as a result of the increasing globalization of the economy. The International Business major exposes students to the impact of the international environment on the functional areas of business management. In conjunction with the courses in the International Studies program, the major in International Business allows students to focus on a country or a region of the world, providing education in language, culture and business practice. All students, particularly those majoring in International Business, are encouraged to take courses in International Business, at institutions / universities abroad approved by the UNBC International Exchange & Student Programs Office in order to gain practical international exposure as part of their Bachelor of Commerce program. For more information on exchange opportunities refer to [www.unbc.ca/international](http://www.unbc.ca/international). Graduates are suited to work in work in firms or governments agencies involved in international operations.

The minimum requirement for a Bachelor of Commerce with major in International Business is 120 credit hours.

### **S-201205.12**

#### **Approval of New Course — COMM 305-3**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course COMM 305-3 Case Studies in Business be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course develops critical skills in the development and analysis of business cases. The course includes the development of new cases, practical methodology for analysis and presentation of case studies in all areas of business.

**Prerequisites: 60 Credit hours in Business**

### **S-201205.13**

#### **Approval of New Course — COMM 316-3**

Casperson / Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course COMM 316-3 Financial Statement Analysis be approved as proposed.

Proposed semester of first offering: January 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Users of financial statements must be able to interpret financial reports, construct measures of financial performance and analyse the reporting choices made by companies. Reading and interpreting financial statements is a skill that impacts almost any business decision. This course focuses on application of accounting knowledge and reading and interpreting financial statements.

**Prerequisites: Comm 220-3 Financial Management I**

**S-201205.14**

**Approval of UNBC Semester Dates for January 2015**

Zahir / Annis

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the UNBC Semester Dates for January 2015 be approved as proposed.

Effective date: Immediately upon approval by Senate; to be released with the Academic Calendars in May 2014

A Senator spoke against this motion opining that the two-week break would have a serious negative impact on students. Others spoke in favour of the motion suggesting that lengthening the break would provide students with the opportunity to volunteer or otherwise partake of the numerous events occurring in Prince George in 2015. It was noted that the Winter Games provided an opportunity to showcase UNBC. The Registrar was asked whether he anticipated any issues as a result of the shortened examination period and he responded that he did not, particularly in light of the recent establishment of some administrative processes that should assist in this regard.

CARRIED.

**“For Information” Items:**

**SCAPP201205.13**

**Changes to Calendar Course Description and Prerequisites — COMM 251-3**

Casperson / Whitcombe

That the changes to the calendar description and prerequisites for COMM 251-3 Introduction to Management Science, on page 194 in the 2011-2012 Undergraduate Academic Calendar, be approved as proposed.

**Approval of Terms and Conditions**

Casperson / Whitcombe

That the Terms and Conditions for motions SCSB20120328.05, SCSB20120425.03 and SCSB20120425.04 be approved.

Effective Date: April 2012

CARRIED (consent agenda).

**SCSB20120509.11**

**Approval of Terms and Conditions**

Casperson / Whitcombe

That the revised terms and conditions of items 4.1.1, 4.1.2, 4.1.3, 4.1.4 and 4.1.5 all be approved omnibus.

Effective Date: May 2012

CARRIED (consent agenda).

**10.0 Other Business**

**10.1** Report of the Registrar

**Hanschen**

The Registrar had nothing to report.

**11.0 Information**

There were no items for information.

12.0

**S-201205.22**

**Adjournment**

Whitcombe / Hutchings

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 4:30 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

June 27, 2012  
3:30 – 5:30 PM

Senate Chambers (Room 1079 Administration Building)

---

**Present:**

M. Archie, G. Ashoughian, R. Brouwer, D. Casperson, M. Dale, B. Deo, G. Fondahl, K. Guest, T. Hanschen (Secretary of Senate), K. Hutchings (Vice Chair), F. Islam, G. Iwama (Chair), A. Kitchenham, E. Korkmaz, D. Macknak, P. MacMillan (Acting Dean, Graduate Programs), D. McDonald, B. Murray, C. Myers (Recording), K. Mytting, M. Nitz, C. Nolin, J. Safaei Boroojeny, A. Stroet, S. Wagner, T. Whitcombe, W. Younas, S. Zahir

**Regrets:**

E. Annis, J. Crosina, M. Green, S. Green, L. Handfield, P. Hickey, K. Kuo, D. Leighton-Stephens, D. Nyce, R. Robinson, D. Ryan, P. Sanborn, C. Silva, R. Tallman, K. Walske, B. Wang, J. Young

---

The meeting commenced at 3:30 p.m.

**1.0 S-201206.01**

**Approval of the Agenda**

That the agenda for the June 27, 2012 Public Session of Senate be approved as presented.  
MacMillan  
CARRIED.

**2.0 S-201206.02**

**Approval of Senate Minutes**

That the minutes of the May 23, 2012 Public Session of Senate be approved as presented.  
Deo  
CARRIED.

**3.0 Business Arising from Previous Minutes of Senate**

**3.1 Bill C-38**

**Iwama**

Dr. Iwama reported that he had asked the Research Universities' Council of BC about any potential impact of this Bill on the post-secondary education sector, and they had responded that they had received no queries or concerns about the Bill. Another Senator reported that the Canadian Association of University Teachers has stated that the Bill essentially curtailed a number of research projects.

**3.2 Plans to Address Concerns with the Wireless Network**

**Iwama**

Dr. Iwama reported that Information Technology Services continues to increase cell phone coverage on campus, which should improve by mid-July when a new tower is installed.

**3.3 Upper-Division Course Requirements Dale**

Dr. Dale indicated that a written report from the Senate Committee on Academic Policy and Planning, in relation to this request from Senate, was included for information.

**3.4 Update on MCPS Degree Dale**

Dr. Dale reported that Dean Hartley had communicated with the Ministry with regard to this degree and had not yet received a response.

**4.0 President's Report Iwama**

Dr. Iwama reported on two matters (report attached to these minutes as Appendix I), namely the appointment of a new Vice President, Research and the University's decision to discontinue Access Copyright.

**5.0 Report of the Provost Dale**

Dr. Dale noted that Ms. Ashoughian would be leaving UNBC in August and thanked her for her service. He added that an acting University Librarian would be appointed in the interim. The search committee struck to hire a new University Librarian will begin their work as soon as possible.

**6.0 Question Period**

A Senator suggested that the issue of copyright be discussed at Senate. Dr. Iwama liked the suggestion and responded that it would be taken into consideration as a presentation topic. He also invited Senators to submit topics to Dr. Dale that they would like to see discussed at Senate.

**7.0 S-201206.03**

**Approval of Motions on the Consent Agenda**

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

Deo  
CARRIED.

**8.0 Committee Reports**

**8.1 Senate Committee on Academic Policy and Planning Dale**

**"For Approval" Items:**

**S-201206.04**

**Approval of International Partnership with Wenzhou University, China, to Develop a 1+1 Master of Science Program under the MSc NRES (Environmental Science) Degree**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning and the Senate Committee on Research and Graduate Studies, the motion for UNBC to establish an international partnership with Wenzhou University, China, to develop a 1+1 Master of Science Program under the MSc NRES (Environmental Science) degree, be approved as proposed.

Proposed start date: September 2012

CARRIED.

**S-201206.05****Approval of New Course — MATH 530-(3,6)**

Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course MATH 530-(3,6) Undergraduate Thesis be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (Consent Agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This undergraduate thesis allows students to examine and research a topic in the field of mathematics. Students must have completed at least 90 credit hours and be a Mathematics major. This thesis may be taken in one or two semesters. MATH 530 is normally taken over two semesters and requires that a student find an Undergraduate Thesis research supervisor. Therefore, students are encouraged to apply to potential supervisors well in advance of completing 90 credit hours. This course is taken for a total of 6 credit hours.

**Prerequisites:** Honours standing and permission of the Instructor and Department Chair.

**Preclusions:** STAT 530-(3,6) Undergraduate Thesis

**S-201206.06****Approval of New Course — STAT 530-(3,6)**

Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course STAT 530-(3,6) Undergraduate Thesis be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (Consent Agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This undergraduate thesis allows students to examine and research a topic in the field of statistics. Students must have completed at least 90 credit hours and be a Mathematics major. This thesis may be taken in one or two semesters. STAT 530 is normally taken over two semesters and requires that a student find an Undergraduate Thesis research supervisor. Therefore, students are encouraged to apply to potential supervisors well in advance of completing 90 credit hours. This course is taken for a total of 6 credit hours.

**Prerequisites:** Honours standing and permission of the Instructor and Department Chair.

**Preclusions:** MATH 530-(3,6) Undergraduate Thesis

**S-201206.07****Approval of New Honours Program — Bachelor of Science in Mathematics (BSc) Honours Program**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new Bachelor of Science in Mathematics (BSc) Honours program be approved as proposed.

Proposed start date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **BSc Mathematics Honours**

The Honours in Mathematics recognizes undergraduate students who develop a breadth of knowledge through coursework and research. Students considering graduate work or industrial research gain experience and confidence in working in areas where the outcome is unknown.

Entry to the Mathematics Honours Program takes place after completion of 60 credit hours and requires a minimum Cumulative GPA of 3.33 over the previous 30 credit hours, and the permission of the Department Chair. Candidates are required to consult with their Student Advisor prior to applying for the program. Attaining the minimum requirement does not guarantee entry to the Honours Program, which is at the discretion of the Department of Mathematics and Statistics and depends on the availability of a supervisor. Faculty members are under no obligation to supervise Honours students. To remain in the Honours Program requires the maintenance of a minimum Cumulative GPA of 3.33.

To be awarded the BSc Honours degree students will

- complete 126 credit hours
- satisfy the requirements for a BSc in Mathematics
- within the existing 400-level requirements take
  - one of MATH 420-3 Structure of Groups and Rings or MATH 421-3 Field Theory
  - one of MATH 402-3 Topological and Normed Linear Spaces or MATH 403-3 Measure Theory and Integration
  - one of STAT 471-3 Linear Models, or MATH 472-3 Survey Sampling Design and Analysis, or MATH 473-3 Experimental Design and Analysis
- complete 6 credit hours of MATH 530 or STAT 530, with the outcome of one undergraduate thesis under the supervision of a faculty member.

**Note:** Because faculty are under no obligation to supervise undergraduate theses, students are encouraged to find an Undergraduate Thesis supervisor well in advance of completing 90 credit hours.

### **S-201206.08**

#### **Changes to Degree Requirements — Joint Major in English and Environmental Studies**

Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the degree requirements for the Joint Major in English and Environmental Studies, on page 106 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (Consent Agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Joint Major in English and Environmental Studies**

The English/Environmental Studies joint major equips students with communication skills and knowledge of environmental issues, regulations and policies. The major prepares students to have a positive influence on the environment through written and other forms of expression. This joint major is of particular interest to students who wish to pursue a career in environmental writing, creative non-fiction, science writing and/or journalism.

### **Program Requirements**

#### **Lower-Division Requirement**

ENGL104-3 Introduction to Film

ENGL 209-3 Introduction to TV Studies

ENGL 231-3 An Introduction to Canadian Literature  
ENGL 283-3 Introduction to Romantic Literature  
BIOL 110-3 Introductory Ecology  
FNST 100-3 Aboriginal Peoples of Canada  
ENVS 101-3 Introduction to Environmental Citizenship  
~~GEOG 100-3 Environments and People~~  
GEOG 101-3 Human Geographies of Global Change  
~~ENPL 205-3 Environment and Society~~  
PHIL 202-3 Comparative Religion

or FNST 303-3 First Nations Religion and Philosophy

*Note: CPSC 150-3; Computer Applications; or ~~ENGL 201-3 Computing in the Humanities~~ are is recommended for students without computing experience.*

One of:

ENGL 102-3 Introduction to Poetry  
ENGL 103-3 Introduction to Fiction  
ENGL 270-3 Expository Writing  
ENGL 271-3 Introduction to Creative Writing

One of:

ENGL 200-3 Gender and Literary Theory  
ENGL 300-3 Theory  
ENGL 400-3 Contemporary Theory

One of:

ENGL 211-3 Survey of English Literature I  
ENGL 212-3 Survey of English Literature II  
ENGL 284-3 Introduction to Victorian Literature  
ENGL 285-3 Modern British Literature

One of:

~~GEOG 101-3 Human Geography~~  
NREM 101-3 Introduction to Natural Resources Management and Conservation  
GEOG 206-3 Social Geography  
INTS 101-3 Canada and the World

Upper-Division Requirement

The following ~~thirty~~ 30 credit hours (~~ten~~ 10 courses) of environmental courses at the 300 or 400 level:

~~ENPL 319-3 Social Research Methods~~  
ENVS 309-3 Women and Environmental Studies  
or HIST 421-3 Special Topics in Environmental History  
or INTS 470-3 International Environmental Policy  
ENVS 325-3 Global Environmental Change: Science and Policy  
ENVS 326-3 Natural Resources, Environmental Issues and Public Engagement  
HIST 360-3 Introduction to Environmental History  
NREM 303-3 First Nations' Approaches to Resource Management  
or FNST 304-3 First Nations Environmental Philosophy  
NREM 306-3 Society, Policy and Administration  
ENVS 414-3 Environmental and Professional Ethics  
ENVS 440-3 Internship

or ENGL 444-(2-6) Internship  
GEOG 420-3 Geographies of Environmental Justice  
or GEOG 305-3 Political Ecology  
PSYC 408-3 Environmental Problems and Human Behaviour  
or ORTM 408-3 The Psychology of Recreation and Tourism

Twenty-four credit hours (eight courses) of English courses at the 300 or 400 level:

One of:

ENGL 309-3 Intermediate Studies in Film or Television  
ENGL 331 Genres in Canadian Literature  
ENGL 383-3 Romantic Literature  
ENGL 384-3 Victorian Literature

Two of:

ENGL 430-3 Special Topics in Canadian Literature  
ENGL 431-3 Northern BC Literature  
ENGL 480-3 Science Fiction  
ENGL 483-3 Special Topics in Romantic Literature  
ENGL 486-3 Literature of the Fantastic  
ENGL 493-3 Cultural Studies

Fifteen additional credit hours of English (five courses) are required to ensure the fulfillment of the 24 credit hour upper division requirement in English. Two courses may be chosen from the following list of English ancillary courses:

WMST 304-3 Contemporary Women's Writing in an International Frame  
WMST 306-3 Indigenous Women: Perspectives  
WMST 309-3 Gender and Film  
WMST 401-3 Cultural Studies: Gender, Race and Representation  
WMST 411-3 Contemporary Feminist Theories

Elective and Academic Breadth

Elective credit hours as necessary to ensure a minimum of 120 credit hours including any additional credit hours necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15). Electives may be at any level in any subject sufficient to ensure completion of a minimum of 120 credit hours.

**"For Information" Items:**

**SCAPP201206.04**

**Changes to Calendar Course Description — MATH 336-3**

Deo

That the change to the course description for MATH 336-3 Intermediate Differential Equations on page 246 of the 2011/2012 undergraduate calendar be approved as proposed.

Effective date: September 2012

CARRIED (Consent Agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH 336-3 Intermediate Differential Equations** This course is a continuation of MATH 230-3 and is designed to increase the depth and breadth of students' knowledge pertaining to differential equations. Topics include existence and uniqueness theory for ordinary differential equations, series solutions of differential equations, linear system theory, phase plane analysis and stability, boundary value problems and Green's Functions, ~~general introduction to the theory~~ review of Fourier Series, with ~~an~~ additional applications to boundary value problems for the Heat Equation, Wave Equation and Laplace's Equation.

**SCAPP201206.05**

**Changes to Course Prerequisites — MATH 403-3**

Deo

That the change(s) to the prerequisite for MATH 403-3 Measure Theory and Integration, on page 246 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (Consent Agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH 403-3 Measure Theory and Integration** This course focuses on the development and properties of Lebesgue measure and the Lebesgue integral, with generalization to integration in abstract measurable spaces. Topics include outer measure, measurable sets and Lebesgue measure, measurable functions, differentiation of integrals, and the extension of these concepts to more general settings.

*Prerequisites:* MATH 302-3 ~~or permission of the instructor~~

8.2 Senate Committee on Research and Graduate Studies Fondahl

**"For Approval" Items:**

**S-201206.09**

**Changes to Admission Semesters — MSc Mathematical, Computer, and Physical Sciences**

Deo

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the admission semesters for the MSc Mathematical, Computer, and Physical Sciences, on pages 32 and 33 and on page 79 in the 2011/2012 graduate calendar, be approved as proposed.

Effective date: Upon approval by Senate

CARRIED (Consent Agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Admission, Regulations and Committee Structures**

### **Admission Requirements**

In addition to the admission application requirements outlined in Section 1.0 of the Graduate Academic Calendar, acceptance to the MSc program is contingent upon the prospective student finding a member of the faculty to serve as her/his supervisor. Applicants must also provide a completed Teaching Assistantship Application and a completed Funding Worksheet. Both forms are included with the application material for this program. Normally, at least two of the three letters of recommendation, exclusive of any letter provided by an intended supervisor, must be from individuals who are able to comment on the applicant's academic and research potential. Application deadlines are found in this calendar under "Semester Dates" or online at: [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under "Semester Dates." The Mathematical, Computer and Physical Sciences MSc Program accepts students for the September and January Semesters. At the specific request of the prospective supervisor, an applicant may be considered for May admission. For additional information about graduate admissions or to download application materials, go to the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

### **"For Information" Items:**

#### **SCRGS201206.06**

#### **Course Prerequisite Change — MATH 603-3**

Deo

That the change(s) to the prerequisite for MATH 603-3 Measure Theory and Integration, on page 122 of the 2011/2012 graduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (Consent Agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**MATH 603-3 Measure Theory and Integration** This course focuses on the development and properties of Lebesgue measure and the Lebesgue integral, with generalization to integration in abstract measurable spaces. Topics include outer measure, measurable sets and Lebesgue measure, measurable functions,

differentiation of integrals, and the extension of these concepts to more general settings.

**Adjournment**

Whitcombe

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 4:25 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

August 22, 2012

3:30 – 5:30 PM

Senate Chambers (Room 1079 Administration Building)

---

**Present:**

E. Annis, D. Casperson, J. Crosina, M. Dale, B. Deo, M. Green, S. Green, K. Guest, L. Handfield, T. Hanschen (Secretary of Senate), G. Iwama (Chair), E. Korkmaz, C. Lee (Acting Dean, Graduate Programs), D. McDonald, B. Murray, C. Myers (Recording), M. Nitz, C. Nolin, R. Robinson, D. Ryan, J. Safaei Boroojeny, A. Stroet, R. Tallman, T. Whitcombe, W. Younas, J. Young

**Regrets:**

K. Hutchings (Vice Chair), K. Kuo, P. Hickey, F. Islam, D. Leighton-Stephens, K. Mytting, G. Payne (Acting Vice President, Research), P. Sanborn, C. Silva, S. Wagner, K. Walske, B. Wang, S. Zahir

**Absent:**

M. Archie, R. Brouwer, D. Macknak, D. Nyce

---

The meeting commenced at 3:30 p.m.

**1.0 S-201208.01**

**Approval of the Agenda**

Whitcombe

That the agenda for the August 22, 2012 Public Session of Senate be approved as presented.

Senator Lee requested that motion number S-201208.28 be removed from the agenda. As there was no objection to removing the motion, it was removed. A Senator then asked that an item be added under "Other Business," as he wished to discuss the process that would be taken with the motion that was removed from the agenda.

The motion to approve the agenda, as amended, was CARRIED.

**2.0 S-201208.02**

**Approval of Senate Minutes**

Whitcombe

That the minutes of the June 27, 2012 Public Session of Senate be approved as presented.

CARRIED.

**3.0 Business Arising from Previous Minutes of Senate**

No business arising was identified.

**4.0 President's Report Iwama**

Dr. Iwama reported on several matters relating the Ministry of Advanced Education, including a cost-savings exercise, "Quality Assurance Initiative," the Wood Innovation and Design Centre, and Engineering programs. Dr. Iwama's report is attached to these minutes as "Appendix I."

**5.0 Report of the Provost Dale**

Dr. Dale reported that, in accordance with a recommendation from the external review team, the Dean of Graduate Programs will now report solely to the Provost / Vice President Academic, effective September 1, 2012.

**6.0 Report of the Registrar Hanschen**

The Registrar reported on several matters, and his report is attached to these minutes as "Appendix II."

**7.0 Question Period**

A Senator asked whether it is being made clear in the discussions with the Ministry that, when discussing procurement, only operational, and not research, procurement is under consideration. Dr. Iwama responded that this is correct. It was also asked whether the discussions were limited only to reducing administrative costs or whether academic costs were also being considered. Dr. Iwama replied that they are looking for savings in "back room costs" and attempting to limit the impact on the academic side.

Another Senator indicated that CUFA BC had reported concerns that outsourcing is at the root of this exercise, and asked whether the President felt this was a premature conclusion. Dr. Iwama responded in the affirmative and added that data was just now being submitted. He reiterated that he would keep Senators apprised of developments.

It was asked whether the University had considered contacting MCPS students to ask them if they would like to change the nomenclature for their degree. The Provost replied that some avenues had been explored and that the University was considering sending a letter to students to explain the situation to them. A request was made to attach the letter from the Ministry to the Senate minutes, and the Secretary of Senate responded that he would ensure it was attached to his report.

**8.0 S-201208.03  
Approval of Motions on the Consent Agenda (no material)**

Whitcombe

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

**9.0 Committee Reports**

**9.1 Senate Committee on Academic Policy and Planning Dale**

**"For Approval" Items:**

**S-201208.04  
Changes to Academic Dates**

Lee

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the Academic Dates on page 48 of the 2012-2013 Undergraduate Calendar be amended as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## February

- 11 Monday Family Day, University Closed  
14 Thursday Last day to withdraw from January Semester courses without academic penalty, 50% tuition refund  
~~18 Monday Family Day, University closed~~  
18-22 Mon. to Fri. Mid-Semester Break (no classes February 18-22)

### **S-201208.05**

#### **Approval of New Course — COMM 452-3**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course COMM 452-3 Logistics and Supply Chain Management be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course introduces students to the application of logistics and supply chain management concepts. The course examines the nature and scope of supply chain, logistics framework, purchasing and procurement, processing, transportation, warehousing, and distribution logistics, role of information and simulation technology, reverse logistics and contemporary issues.

**Prerequisites:** COMM 350

### **S-201208.06**

#### **Changes to Program Requirements — Major in First Nations Studies**

Casperson

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the program requirements for Major in First Nations Studies, on page 132 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### Upper-Division Requirement

300 Level

FNST 305-3 Seminar in First Nations Studies

400 Level

FNST 440-3 Internship in First Nations Studies

~~Eighteen~~ Fifteen credit hours of 300- or 400-level First Nations Studies courses or approved ancillary courses for the major in First Nations Studies.

## S-201208.07

### **Changes to Degree Requirements — History (BA Program)**

Lee

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the History (BA Program) on pages 143-145 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **History (BA Program)**

Charles Jago, Professor Emeritus

~~Historians study what people have thought, said, and done in the past. By description, examination, and analysis they attempt to the past in order to understand the present. The explain study of history contributes to critical thinking, helps to develop intellectual maturity, and assists students to present ideas clearly and accurately.~~

~~The study of history, as well as being valuable in itself, can lead to a career in business, government service, teaching, law, journalism, archival and museum work.~~

Tracing the origins of their discipline to the Ancient Greek scholar Herodotus (fifth century B.C.E.), historians examine the records of the human past, with the goal of understanding change over time. We are particularly interested in establishing cause and effect in the patterns of how society, politics, economies, culture, identity, and thought developed. Traditionally, historians have examined prominent individuals or critical events in politics, warfare, diplomacy, economics and intellectual activity. But in recent decades, the scope of historical study has expanded to encompass a wide range of phenomena and a broad spectrum of society. Women's roles in history, the daily life of ordinary men and women in the past, and the impact of imperialism and colonialism are just a few of the topics that have come under intense historical scrutiny in recent years. Of particular interest to the current generation of historians are the relationship of the individual to society; encounters between diverse cultures; the dynamics of class, race, and gender; and the expression of power and authority (political, social, or cultural).

The study of history has direct relevance on the present. It provides an enlightening perspective on the cultures and societies of the past and on how the ideals, institutions, and

issues of today arose and evolved over time. The discipline of History also requires intellectual rigour, and cultivates critical thinking, creative analysis, and both oral and written communication skills. History majors are highly sought after in fields such as law, education, journalism, business, government service, and “public history” (i.e., museums, historical sites, and archives). A History major is also an ideal foundation for graduate study in the Humanities and Social Sciences.

## **Major in History**

A degree in History requires students to complete 54 credit hours of History courses, at least 30 credit hours of which must be upper-division courses. ~~Students may not take more than 57 credit hours of history without written permission from the Chair of the History program.~~

## **Program Requirements**

### **Lower-Division Requirement**

#### **100 and 200 Level**

~~HIST 190-3 The West and the World to 1660~~

HIST 190-3 World History to 1550

~~HIST 191-3 The West and the World since 1660~~

HIST 191-3 The West and the World since 1550

Twelve additional credit hours in 200-level History courses.

### **Upper-Division Requirement**

#### **300 and 400 Level**

HIST 300-3 Historiography: The Nature of the Historical Discipline

Eighteen credit hours of History at the 300 level courses, in addition to HIST 300-3.

Nine credit hours of History at the 400 level.

### **Subject Requirement**

Six additional credit hours of History at any level to ensure completion of 54 credit hours of History in total.

### **Elective and Academic Breadth**

Electives at any level in any subject sufficient to ensure completion of a minimum of 120 credit hours including any additional credit hours necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

## **BA Honours – History**

The BA Honours – History provides a higher level of training and specialization for students planning to proceed to postgraduate work or professional schools. The program of study is offered to students majoring in history who have completed their first two years (60 credit hours).

In order to enter the honours degree program, students must have completed HIST 190-3 World History to 1550 and HIST 191-3 The West and the World since 1550; ~~HIST 190-3 (The West and the World to 1660), HIST 191-3 (The West and the World Since 1660)~~; 12 credit hours in 200-level history courses; HIST 300-3 Historiography: The Nature of the Historical Discipline; and have attained a cumulative GPA of no less than 3.33 upon completion of second year (i.e. 60 credit hours). Having fulfilled the requirements of admission to the History honours degree program, students must then complete 18 credit hours in 300-level history courses; 15 credit hours in 400-level history courses; and 12 credit hours in four additional history courses designed for honours students, for a total of 66 credit hours as a component of an undergraduate degree totaling 120 credit hours. These honours history courses are designed to be taken in the sequence indicated, which can be altered only under exceptional circumstances and with the permission of the ~~Program~~ Chair.

- HIST 501-3 Honours Directed Readings  
(September Term of third year)
- HIST 500-3 History: Contemporary Theories and Methods  
(January Term of third year)
- HIST 505-6 Honours Thesis  
(September and January Term of fourth year)

A cumulative GPA of not less than 3.33 must be maintained while in the honours program.

The minimum requirement for completion of a BA Honours – History is 120 credit hours.

## **Joint Major in English/History**

See Calendar entry under English

## **Joint Major in English/History**

(taken from the section on ‘English’)

The minimum requirement for completion of a Bachelor of Arts with a Joint Major in English and History is 120 credit hours.

## **Program Requirements**

### **Lower-Division Requirements**

- ENGL 211-3 Survey of English Literature I
- ENGL 212-3 Survey of English Literature II
- ~~HIST 190-3 The West and the World to 1660~~
- HIST 190-3 World History to 1550
- ~~HIST 191-3 The West and the World since 1660~~
- HIST 191-3 The West and the World since 1550

One of:

ENGL 100-3 Introduction to Literary Structures  
 ENGL 102-3 Introduction to Poetry

**Changes to Course Description / Course SCH — HIST 190-3**

Whitcombe

That the change(s) to the course description / course SCH for HIST 190-3 The West & the World to 1660), on page 236 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**HIST ~~190-3~~ 190-3 World History to ~~1660~~ 1550** ~~This course examines the history of the Western world from antiquity to 1660, with a particular focus on the history of the West's interactions with other non-western societies. Topics to be covered will include the Roman Empire, Christianity, feudalism, the Renaissance, the Reformation, and European expansion overseas. These developments changed Europe, and the world beyond Europe, and are affecting us till. Students will also be introduced to the discipline of history and its practical skills in effective reading, research, analysis, and presentation.~~ This course explores the history of Asia, Africa, Europe and the Americas from human origins to 1550. Although the course is organized chronologically, it does not cover all or even most aspects of World History during this time period. Rather, it focuses on certain themes to consider the development of various civilizations. At the same time, students work on developing their skills as historians by reading, writing and discussing primary and secondary sources through a number of different historical lenses.

Prerequisites: None

**SCAPP201208.29**

**Changes to Course Description / Course SCH — HIST 191-3**

Whitcombe

That the change(s) to the course description / course SCH for HIST 191-3 The West and the World since 1660, on page 236 of the 2011/2012 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~HIST 191-3 The West and the World Since 1660 1550 This course examines the history of the Western world since the rise of absolutist monarchies in the late 17<sup>th</sup> century, with a particular focus on the history of the West's interactions with other, non-western societies. Topics to be covered include absolutism, nationalism, industrialization, the French Revolution and the world wars of the 20<sup>th</sup> century. These developments changed Europe, the world beyond Europe, and are affecting us still. Students will also be introduced to the discipline of history and its practical skills in effective reading, research, analysis, and presentation.~~

This course examines the history of European society and its interactions with the civilizations and peoples of Asia, Africa, and the Americas from the mid-seventeenth century through the end of the twentieth. The global movement of people, ideas, and economic practices between these different regions receive particular attention, as do processes of imperialism and colonialism. Topics covered include the rise of Absolutism; the expansion of European empires; the American, French, and Russian Revolutions; the Industrial Revolution; the two World Wars; and the Cold War. Students are also introduced to the discipline of History and to the skills of document analysis, historical writing, and primary source research.

**Change to Degree Requirements — History (MA Program)**

Deo

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change(s) to the History (MA Program) on page 74 of the 2011/2012 graduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## History (MA Program)

Jacqueline Holler, Associate Professor and Chair  
Theodore Binnema, Professor ~~and Acting Chair~~  
Jonathan Swainger, Professor  
~~Stephanie Cousineau, Assistant Professor~~  
Alexander Auerbach, Assistant Professor  
Dana Wessell Lightfoot, Assistant Professor

Website: [www.unbc.ca/history](http://www.unbc.ca/history)

~~History is society's memory. Like an individual with amnesia, a society without history lacks direction. By understanding the past and where we have come from, we will think more clearly about the present and perhaps even better determine the future. This general truism is nowhere more valid than in northern British Columbia. So far, the history of this province has been written as if the north did not exist, and a graduate program in History at UNBC will begin to make up that deficiency. At the same time, no region should or can be seen in isolation. Parochialism and narrowness must be avoided, for we can understand the past of our own area only by reference to the history of other places. So graduate students in history will begin by taking broad, thematic courses. They will then apply the ideas and generalizations learned in these courses to the writing of an MA thesis on a particular topic. Many, though not necessarily all, student theses will be on the history of northern British Columbia.~~

~~The graduate program in history will not cover all things, but will focus on areas of strength. Thus, it will concentrate on northern, First Nations, gender, and environmental history, along with some aspects of the history of international relations.~~

~~The History program offers the opportunity for graduate study leading to the MA degree. The major areas of study are Canada, the United States, Europe, and the Pacific, with an emphasis on Native, northern, gender, and environmental history, as well as the history of international relations. Students will be accepted only in the areas of specialization in the History program subject to the availability of an appropriate supervisor.~~

The Department of History offers the opportunity for graduate study leading to the MA degree. The program's regional specifications are Canada, Britain and its empire, and the Iberian world. Gender, legal, environmental, and indigenous histories are particular areas of strength. Students will be accepted subject to the availability of an appropriate supervisor.

The MA program comprises two streams. Thesis students complete 15 credit hours of graduate coursework and a 100-page thesis based on original research. Project students complete 18 credit hours of coursework and a substantial project.

Upon admission to the MA program, each student ~~will be~~ is assigned a supervisor who ~~will be~~ is responsible for the student's program and progress. There are two components to the MA program: course work and thesis/project; ~~students~~ Students will ~~are~~ normally be expected to complete their course work in two semesters, and the total program in four semesters.

## Admission

In addition to the admission application requirements outlined in Section 1.0 of the Graduate Academic Calendar, applicants must also supply a sample of written work (thesis or paper) as part of their application.

Application deadlines are found in this calendar under “Semester Dates” or online at: [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under “Semester Dates.” The History MA Program accepts students for the September and January ~~Semester~~ Semesters.

For additional information about graduate admission or to download application materials, go to the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

## Requirements

Candidates for the MA degree must satisfy the following requirements:

### Course Work

Each student will be required to write a thesis or project.

### Thesis

HIST 750-15 MA Thesis

~~Thesis students are~~ ~~Students will be~~ expected to take ~~five~~ ~~four~~ graduate courses for ~~(15~~ ~~12~~ ~~hours of credit~~ hours). Courses will be thematic in approach, and students will, in consultation with their supervisor, select from the following list of courses below, with the exception of HIST 700-3 and HIST 745-3 which are ~~the Seminar in Historical methodology and Research (HIST 700-3) which is~~ compulsory. Students may take one of their courses in another a related program.

### ~~Thesis/Project~~

~~Each student will be required to write a thesis or project.~~ Students ~~will be~~ are expected to decide on their thesis topic, sources, and approach as part of HIST 745-3 ~~700-3 (Seminar in Historical Methodology and Research)~~, which ~~will is~~ normally be taken in their second semester. The thesis must be based on original research, and demonstrate an understanding of historical writing and practice, as well as independent, critical thought.

### Project

HIST 749-12 Graduate Project

Project students are required to pass six graduate courses (18 credit hours). Students must select courses from the list below, with the exception of HIST 700-3 and HIST 745-3, which are compulsory. Students may take two of their courses in a related program.

The project ~~will be~~ is an ~~equivalent~~ alternative to a thesis. Candidates ~~will~~ must defend the project before a committee of academic and community examiners. The criteria for examination stipulate that the project must be substantial (~~the equivalent in terms of research and preparation of a 100-page thesis~~), must have practical application, and must include actual implementation or an implementation plan.

## Required Courses

HIST 700-3 Seminar in Historical Methodology and Research  
HIST 745-3 Historical Methods and Approaches

## Elective Courses

HIST 701-3 Themes in the History of Gender  
HIST 702-3 Themes in Native History  
HIST 704-3 Themes in Environmental History  
HIST 705-3 Themes in the History of International Relations  
~~HIST 706-3 Themes in Intellectual History~~  
HIST 707-3 Themes in Cultural History  
HIST 708-3 Themes in Social History  
HIST 709-3 Themes in Legal History  
HIST 799-3 Independent Study

### **S-201208.36**

#### **Course Deletion — HIST 706-3**

Whitcombe

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the deletion of the course, HIST 706-3 Themes in Intellectual History, on page 120 of the 2011/2012 graduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

~~**HIST 706-3 Themes in Intellectual History** — This course explores aspects of the history of ideas and may draw on literature from a number of different communities and time periods.~~

### **S-201208.37**

#### **New Course Approval — HIST 709-3**

Whitcombe

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course HIST 709-3 Themes in Legal History be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Exploring themes in legal history, this course may draw on literature from various countries and eras.

### **S-201208.38**

#### **New Course Approval — HIST 745-3**

Whitcombe

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course HIST 745-3 Historical Methods and Approaches be approved as proposed.

Proposed semester of first offering: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Historical methods and research techniques are examined in this seminar; students also learn about research design and prepare thesis proposals.

**S-201208.39**

**Change to Program Preamble — Interdisciplinary Studies**

Nolin

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the program preamble for Interdisciplinary Studies, on page 75 of the 2011/2012 graduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The Interdisciplinary Studies (IDIS) program covers the scope of multiple disciplines, enabling and in doing so faculty from other graduate programs ~~are able to~~ participate in this program. Therefore, the IDIS Graduate Program welcomes all faculty members eligible to be supervisors to ~~be part of~~ participate in the IDIS Graduate Program. ~~For further information contact the Office of the Dean of Graduate Programs; grad-office@unbc.ca.~~

Not all advances in knowledge, or in creativity, take place within established disciplines. In fact, innovative thinking and creativity may be unleashed by diminishing, bridging, or deliberately removing the boundaries between disciplines ~~or by bridging the boundaries~~. The University of Northern British Columbia provides two options for interdisciplinary inquiry.

The MA option in Interdisciplinary Studies is specifically designed to enable students to pursue intellectual development outside the constraints of traditional disciplines in the Humanities and Social Sciences. The MSc option in Interdisciplinary Studies is specifically designed to enable students to go beyond the constraints of traditional disciplines in the Physical and Life Sciences. Applicants interested in interdisciplinary studies should consult the ~~Dean of Graduate Programs~~ Chair of the IDIS Program directly for advice on which option would be most appropriate for their research interests, and on how to tailor a course of study appropriate to their interests.

~~An applicant~~ may undertake an Interdisciplinary Studies ~~p~~Program ~~only~~ under the following circumstances:

- ~~The applicant's proposed course of study cannot be pursued within an existing degree.~~
- The applicant has a well-conceived idea of the courses needed for ~~a program of study,~~ the IDIS Program and of a thesis topic that the applicant wishes to pursue.

~~An interdisciplinary degree program shall normally follow the following guidelines or criteria:~~

- The intellectual rationale of the thesis must be ~~truly~~ interdisciplinary; that is, it must draw from at least two of the university programs described in the UNBC Graduate Calendar.

Students in the Program must complete the following requirements:

- All interdisciplinary programs shall include a 12 credit-hour thesis, and shall be composed of a minimum total of ~~27~~ 24 credit hours.
- The number of courses included in an ~~Interdisciplinary Studies~~ IDIS Program shall be at least five, but may be more if it is deemed by the supervisor and supervisory committee that additional courses are necessary. four in addition to the IDIS core course.
- A student may not take all courses, nor all but one course, from the same program.
- ~~It must be clearly demonstrated in the proposal that the subject of study cannot be contained within one graduate program.~~
- ~~For administrative purposes, only the program to which the thesis supervisor is appointed shall be deemed the student's discipline.~~

**Steps to Take in Arranging an Interdisciplinary Graduate Program**

It is the applicant's responsibility to provide a ~~detailed description of the program of study and research proposal.~~ one page research statement. To assist in the preparation of the needed documentation, applicants should follow the steps below:

1. Determine that you meet the general graduate admission requirements at the University of Northern British Columbia by reviewing the admission requirements in the calendar. See Graduate Admissions and Regulations.
2. Determine that your research ~~proposal~~ topic is interdisciplinary in nature. ~~could not be undertaken in any established graduate program at the University of Northern British Columbia by reviewing the calendar and speaking with graduate advisors from the programs that might constitute your proposed program of study.~~
3. ~~Also~~ Consult the graduate advisors from the academic units relevant to your proposal to obtain specific information on course requirements and prerequisites.
4. Prepare a one page research statement ~~as detailed a draft of your research proposal as possible~~ to give to potential supervisors (for assistance see the section on Guidelines for Preparing a Research Proposal presented below).
5. ~~Identify~~ Select/confirm potential supervisors using the faculty listings in the University Calendar as well as the program websites. Arrange meetings or contact ~~suitable~~ potential supervisors by telephone or e-mail. (Do not send inquiries to every faculty member in a program. Choose the appropriate contacts.)
6. ~~Work with the supervisor to choose potential committee members. Committee members must be eligible to supervise graduate students and to contribute expertise to the research.~~
7. ~~Contact the potential committee members with your proposal.~~
8. ~~Once you have a potential committee established, meet or consult with your proposed supervisor and members to indicate their approvals.~~

9. Prepare the Interdisciplinary Graduate Program Proposal Checklist and have it signed by your proposed supervisor(s) and committee member(s).
10. Get signatures from the chairs or directors of the programs/schools (at least two) to which your committee members are attached. The signatures indicate that these programs are willing to participate in your academic program.
6. Program willingness to participate in your academic program is required, necessitating signatures on the Interdisciplinary Graduate Program Proposal Coversheet as follows:
- Student signs form and gives it to the Supervisor who then obtains signatures from the Supervisor's Chair, IDIS Program Chair, and Dean of Graduate Programs.
7. Submit your completed Application for Admission and the Interdisciplinary Graduate Program Proposal Coversheet Checklist, along with your research statement proposal and research plan, to the Graduate Studies Officer, Office of the Registrar. ~~If courses are listed which are in programs other than those of the supervisory committee members, include written permission from the program to enroll in these courses.~~ In addition, you need to identify a minimum of two at least one courses that will be taken in the first semester, along with the required IDIS Core Course.
8. Arrange for official transcripts and three academic reference letters (at least two of the letters are to be academic) to be sent directly to the Graduate Studies Officer, Office of the Registrar.

#### Admission

Application deadlines are found in this calendar under "Semester Dates" or online at: **[www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate)**, also under "Semester Dates." The Interdisciplinary Studies MA and Msc Program accepts students for the September, ~~and~~ January and May Semesters.

For additional information about graduate admissions or to download application materials, go to the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

~~An applicant's undergraduate qualifications will be evaluated as one of the principal determinants of his/her preparation to successfully complete the chosen course of studies and thesis research. To be considered for entry, an applicant must hold a four-year baccalaureate degree, and have achieved a GPA of at least 3.33 on the most recently completed 60 credit hours.~~

~~Applicants may wish to consult with the Dean of Graduate Programs prior to applying for the Interdisciplinary Studies program. The Dean of Graduate Programs may advise the applicant to apply to an existing program, or may advise the applicant to contact members of the faculty who may have interests suitable to the course of study the applicant wishes to pursue.~~

~~Persons Students seeking admission to an the Interdisciplinary Studies Program should apply directly to the Office of the Registrar. An Interdisciplinary Studies MA Committee will evaluate applications to the MA option; an Interdisciplinary Studies MSc Committee will evaluate applications to the MSc option. Each committee consists of at least three faculty members, and is chaired by the Dean of Graduate Programs.~~

~~Before the committees will consider an application, the applicant must have a proposed thesis supervisor. In addition, the applicant must select, and have approved by the proposed supervisor and the proposed supervisory committee, the courses which are to be taken. The applicant must submit a completed application, including the research proposal, to the Office of the Registrar before the deadlines. This proposal must adhere to the following guidelines.~~

#### **Guidelines for Preparing a Research Proposal for an Interdisciplinary Program**

~~Normally, a~~ A research proposal is approximately In the one page statement should not exceed two pages in length. In it, you must identify the topic and approach that you wish to undertake, and justify the relevance of the program of study and the supervisory committee membership. You also ~~need to~~ must explain why the proposal requires an interdisciplinary approach.

The guidelines that follow are designed to assist you in preparing a properly documented ~~proposal application~~. You should put together an outline of your ideas, so that you can share this with potential supervisors. Once you have the agreement of a potential supervisor, you can seek their assistance in refining and completing the ~~proposal application~~.

#### **I. Research Proposal Statement**

1. Please specify the working title of your research. This should describe the topic and its key elements (e.g., time period, place, texts/authors, etc.).
2. Provide a statement of your research question(s) or research objective(s). The statement should be a clear, brief description of the topic area, with emphasis on the particular issue to be investigated in this area. Make sure to define terms and use language accessible to a non-specialist audience.
3. ~~Provide a general description of the approach that you plan to take in the proposed investigation. Briefly describe: how you will go about carrying out this research; how you will collect your data; and how you will attempt to analyze it.~~

#### **II. Necessity for Interdisciplinary Studies.**

4. ~~Summarize the contribution you hope your research will make.~~
5. 3. Identify what makes your research proposal statement an interdisciplinary project and explain why it cannot be carried out within an existing disciplinary program.
  - Identify the academic courses and the experiences that have prepared you to undertake the proposed research project.
  - Specify the prospective courses that you wish to include in your program of study.

#### **III. Proposed Program of Study**

6. ~~Identify the academic courses and the experiences that have prepared you to undertake the proposed research project.~~
7. ~~Specify the prospective courses that you wish to include in your program of study.~~

~~8. Identify the courses that will provide you with the methodological and linguistic (if relevant) skills needed for your research proposal.~~

~~-~~

~~9. Briefly explain how the proposed program of study will contribute to the goals of your research.~~

#### **IV. Proposed Supervisory Committee**

~~10.4. Consider~~ Identify the members of your proposed supervisory committee and the relevant expertise they will bring to the project.

Any eligible faculty member at UNBC may supervise students in the Interdisciplinary Studies Program.

~~Any faculty members associated with other Graduate programs listed in the current Graduate Calendar may supervise students in the Interdisciplinary Studies Program. Other faculty members who may supervise students are listed at the beginning of this program.~~

#### **S-201208.40**

##### **New Course Approval — IDIS 704-3**

Whitcombe

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course IDIS 704-3 Graduate Seminar in Interdisciplinary Studies be approved as proposed.

Proposed semester of first offering: January 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Calendar Course Description:** The weekly seminar course allows students to investigate and present ideas and results pertaining to current research in interdisciplinary studies. The offerings may include presentations of current literature, research methodology, and topics related to students' own research work. Students participate in discussions and critique the work presented.

All IDIS students must successfully complete this seminar course once during their program of studies. MA and MSc students are required to attend and participate in all seminar sessions to obtain credit for the course. This is a PASS/FAIL course.

**Prerequisites:** Must be admitted as an IDIS student

**Course Equivalencies:** MATH 704; NRES 704; CPSC 704; MCPS 704

#### **S-201208.41**

##### **Change to Degree Requirements — Political Science (MA Program)**

Younas

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the Political Science MA Program on pages 90-91 of the 2011/2012 graduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

# Political Science (MA Program)

A Master's degree in Political Science is designed for students who normally would have the equivalent of an undergraduate major in Political Science and want to undertake advanced training in scholarly research.

The focus of the graduate program in Political Science is on comparative politics related to small towns and rural areas. The politics of northern communities, resource development, and aboriginal self-government are areas of concentration. This focus also extends beyond Canada: faculty expertise on Russian local government, and aboriginal politics in Siberia and the Russian North offers students the best opportunity in western Canada to pursue graduate research connected to Russian politics.

Students have the opportunity to pursue graduate research on the quality of life, including the assessment of government services, in small towns and rural areas.

The graduate program provides students with an advanced education in the discipline of Political Science at all levels including local, regional, national and international spheres. We specialize in comparative politics, political philosophy and Aboriginal-state relations, with additional specialties in other areas. Each student's program of study is designed individually to meet his or her scholarly interests.

## Admission

Successful applications to the program will hold a four-year baccalaureate in Political Science, and will have obtained a GPA of at least 3.0. UNBC and the Department of Political Science program are committed to interdisciplinary co-operation, so students without undergraduate majors in Political Science may be admitted with special provisions made regarding course work and thesis research programs.

Application deadlines are found in this calendar under "Semester Dates" or online at: [www.unbc.ca/calendar/graduate](http://www.unbc.ca/calendar/graduate), also under "Semester Dates." The Political Science MA Program accepts students for the September and January Semesters.

For additional information about graduate admissions or to download application materials, go to the Graduate Programs website at [www.unbc.ca/graduateprograms](http://www.unbc.ca/graduateprograms).

## Requirements

Students may choose either a Thesis, ~~or~~ a Project, or a Course-based option.

### Thesis Option

~~R~~ The requirements for the thesis option comprise are four graduate courses, a thesis proposal, and a 12 credit-hour thesis. ~~†~~ At least three of the four required graduate courses must be from the disciplines of Political Science and must include POLS 702-3 Scope and Methods of Political Science or a suitable alternative chosen by the student's supervisor.

### Project Option

~~R~~ The requirements for the project option comprise are five graduate courses and a 9 credit-hour project. ~~†~~ At least three of the five required graduate courses must be from the disciplines of Political Science and must include POLS 702-3 Scope and Methods of Political Science or a suitable alternative chosen by the student's supervisor.

### Course-based option

The requirements for the course-based option are eight graduate courses. At least five of the eight required graduate courses must be from the discipline of Political Science and must include POLS 702-3 Scope and Methods of Political Science or a suitable alternative chosen by the student's supervisor, and POLS 795-3 Major Research Paper, which is overseen and graded by the student's supervisor.

## Course Offerings

POLS 600-3 Classics in Political Theory  
POLS 601-3 Resource Politics  
POLS 603-3 Social and Health Policy and Administration  
POLS 605-3 Topics in Society and Democracy  
POLS 612-3 Aboriginal-State Relations  
POLS 613-3 Democracy, Citizenship and Human Rights  
POLS 614-3 Comparative Federalism  
POLS 615-3 Comparative Northern Development  
POLS 617-3 Ethical Leadership

POLS 634-3 Resource Communities in Transition  
POLS 672-3 Contemporary Theories of Political Community  
POLS 698-3 Special Topics in Political Science  
POLS 702-3 Scope and Methods of Political Science  
POLS 704-3 Independent Study  
POLS 795-3 Major Research Paper  
POLS 797-9\* Graduate Project [asterisk marked as strikethrough for removal]  
POLS 799-12 Master's Thesis

**S-201208.42**

**New Course Approval — POLS 795-3**

Whitcombe

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course POLS 795-3 Major Research Paper be approved as proposed.

Proposed semester of first offering: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course is intended for students in the Political Science Master's degree program who have chosen the course-based option. The content of the course is determined by the student's graduate supervisor, who oversees the student's research and grades the final paper. It is normally the final course in the student's program of studies.

**"For Information" Items:**

**SCRG201208.12**

**Changes to Course Description — HIST 700-3**

Whitcombe

That the change(s) to the course description for HIST 700-3 Seminar in Historical Methodology, on page 120 of the 2011/2012 graduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**HIST 700-3 Seminar in Historical Methodology and Research** ~~Historical method and research techniques will be examined and students will prepare a particular research project.~~ This course traces the development of modern historical thought.

**SCRG201208.13**

**Changes to Course Description — HIST 701-3**

Whitcombe

That the change(s) to the course description for HIST 701-3 Themes in the History of Gender, on page 120 of the 2011/2012 graduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~Prerequisite: Graduate enrolment~~

**SCRGS201208.18**

**Changes to Course Description — HIST 750-3**

Whitcombe

That the change(s) to the course description for HIST 750-3 MA Thesis, on page 120 of the 2011/2012 graduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**HIST 750-42 15 MA Thesis** Working under the guidance of a supervisor, each student must plan a study requiring original research, and sophisticated analysis, to produce and defend a substantial thesis (85-100 pages long). The entire thesis, from beginning to completion, is intended to require approximately twelve months of full-time work.

**SCRGS201208.07**

**Changes to Course Description — IDIS 798-12**

Whitcombe

That the change(s) to the course description for IDIS 798–12 MSc Thesis, on page 120 of the 2011/2012 graduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

IDIS 798-12 MSc Thesis

The MSc thesis requires that a student undertake original research involving a literature review and the development of a research design and methodology appropriate to the research problem. The implementation of the research methodology normally includes original investigation and data collection, the analyses and discussion of which constitute the major part of the completed research thesis. The thesis may involve, but is not confined to, the testing of a specific hypothesis or hypotheses.

**10.0 Other Business**

**10.1 Process Regarding Motion to Revise Policy Entitled “Research Involving Human Participants”**

A Senator asked how this motion, which had been removed from the agenda, would be handled in terms of process. Dr. Lee, Acting Dean of Graduate Programs, responded that it would be presented to College Councils, for discussion and feedback, at their September meetings. After appropriate consultation has taken place the motion will then be returned to the Senate Committee on Research and Graduate Studies and then advanced to Senate. It was requested that before being presented to College Councils the motion be clarified by distinguishing between what is mandated by the government and what the University administration wants to put in place, and why.

**10.2 Quasi-Committee of the Whole**

**Open Discussion**

**10.2.1 Academic Dates**

**Dale**

**S-201208.43**

**Quasi-Committee of the Whole — Motion to Convene**

Casperson

That Senate move into Committee of the Whole for the purpose of discussing the academic dates, and that the discussion be limited to one hour in length.

CARRIED.

Academic Dates were discussed from several angles, including examination period length and structure, beginning Fall Semester classes earlier, offering classes on a different schedule or in a block format, making up missed Mondays on another day of the week, and treating first-year courses differently from courses from other years. The following action items resulted from the discussion:

1. Mr. Hanschen to provide Senate with the distribution of classes so Senate has this information for decision-making purposes
2. Dr. Dale and Mr. Hanschen to summarize the discussion from this meeting
3. Mr. Hanschen to look more in-depth into asymmetrical scheduling

Dr. Iwama was in favour of presenting the discussions to date to a Town Hall meeting or something similar, at a later date.

**S-201208.44**

**Quasi-Committee of the Whole — Motion to Rise**

Casperson

That the Committee of the Whole rise.

CARRIED.

**11.0 Information**

No items were presented for information.

**12.0 S-201208.45**

**Adjournment**

Whitcombe

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 5:25 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

September 26, 2012  
3:30 – 5:30 PM

Senate Chambers (Room 1079 Administration Building)

---

**Present:**

E. Annis, R. Brouwer, C. Carriere, D. Casperson, L. Copeland, J. Crosina, R. Currie-Wood, B. Deo, S. Green, K. Guest, L. Handfield, T. Hanschen (Secretary of Senate), K. Hutchings (Vice Chair), G. Iwama (Chair), E. Korkmaz, C. Lee (Acting Dean, Graduate Programs), D. Macknak, D. McDonald, C. Myers (Recording), K. Mytting, M. Nitz, C. Nolin, D. Ryan, J. Safaei Boroojeny, P. Sanborn, A. Stroet, R. Tallman, S. Wagner, B. Wang, T. Whitcombe, S. Zahir

**Regrets:**

M. Dale, M. Green, K. Kuo, D. Leighton-Stephens, B. Murray, G. Payne (Acting Vice President, Research), R. Robinson, K. Walske, J. Young

**Absent:**

M. Archie, F. Islam, D. Nyce, C. Silva, W. Younas

---

The meeting commenced at 3:30 p.m. Dr. Iwama welcomed a new undergraduate student Senator, Ms. Chantal Carriere, as well as the new acting University Librarian, Ms. Lynn Copeland.

1.0

**S-201209.01**

**Approval of the Agenda**

Deo

That the agenda for the September 26, 2012 Public Session of Senate be approved as presented.

It was requested that the motions under the report of the Senate Committee on Academic Policy and Planning be reordered so that motion S-201209.06 could be dealt with prior to motion S-201209.04. As there were no objections to this request, the motion to approve the agenda, as amended, was CARRIED.

2.0

**S-201209.02**

**Approval of Senate Minutes**

Casperson

That the minutes of the August 22, 2012 Public Session of Senate be approved as presented.

CARRIED.

3.0

**Business Arising from Previous Minutes of Senate**

No business arising was identified.

#### 4.0 President's Report

Iwama

Dr. Iwama reported on several matters (report attached to these minutes as "Appendix I").

#### 5.0 Report of the Provost

Dale

As Dr. Dale was unavailable to attend the Senate meeting, there was no report from the Provost.

#### 6.0 Report of the Registrar

Hanschen

Mr. Hanschen reported on the academic dates discussion held at a previous Senate meeting, namely the distribution of classes and asymmetrical scheduling (report attached as "Appendix II").

#### 7.0 Question Period

A Senator asked about the fundraising campaign Dr. Iwama had mentioned in his report, specifically whether the campaign had a theme. Dr. Iwama replied that they have some ideas to present to the UNBC community, and would like to emphasize sustaining vibrant communities, which is a theme that might be inclusive of the disciplines on campus and the nature of the University.

Dr. Iwama was asked if he could comment on the University Plan that was presented to the Board of Governors in August. Dr. Iwama responded that every year in August, the President and Vice Presidents meet, and one of the matters discussed is whether the University Plan needs to be updated. This year it was determined that no updates were required because the framework and objectives are still valid and relevant. However, every year the Action Plans under the portfolios of the Vice Presidents are updated. The updated Plans, which are inserted into the University Plan, are currently in production.

A question was asked about whether, given the tremendous economic activity in the north and the constraints in the government's ability to provide extra funding, University management has proactive plans to take advantage of that activity so the University can benefit from this situation. Dr. Iwama replied that he would like to have appropriate fora on campus to discuss such matters. He added that, during the Board trip to Kitimat and Terrace, a Board member was recounting the challenges faced by the young people in industries that come to their territories. It was suggested that graduate student housing and housing dedicated to specific First Nations could be created. Dr. Iwama would like to put these visions into place moving forward into the fundraising campaign.

A question was asked about the University Librarian position, namely whether and why the position had no set term. Concern was expressed that, unlike decanal positions, for instance, without a set term there is no mechanism for review partway through the term. Dr. Iwama explained that a Dean's position is rooted in a faculty position, while the Librarian's position is not. It was questioned whether this matter might be revisited by the selection committee. A member of the selection committee responded that Dr. Dale had spoken of making changes to the terms and conditions for the position to make it more like a Dean's position. Any changes in this regard would need to be approved by Senate. Dr. Iwama indicated that clarity would be provided by Dr. Dale upon his return.

**Action:** Dr. Dale to provide Senators with information about the term for the University Librarian position.

With regard to enrolments, a Senator asked if it was known why additional applications had not resulted in greater enrolment numbers and what plans were in place for increasing enrolment. In response, it was noted that enrolments at the College of New Caledonia were in decline and that UNBC continues to work in digital media and with advertising campaigns in Calgary and Toronto to promote UNBC strategically. Ms. Amanda Hancock, representing Senator Gouger, was invited to comment, and she added that "on the spot" application processing had contributed to an increase in applications.

A Senator asked whether the position of Dean of Student Success and Enrolment Management would be filled permanently, to which Dr. Iwama responded it would be and that Dr. Dale could provide further information in this regard. The Senator also asked whether the position of Assistant Provost would be filled. Dr. Iwama replied that it would not, as the term was ended and the decanal position was revived. He added that Dr. Dale could also speak to this matter.

**Action:** Dr. Dale to provide Senators with information about the positions of Dean of Student Success and Enrolment Management, and Assistant Provost.

A question was raised about whether another date had been selected for the joint meeting of the Board of Governors and Senate. Dr. Iwama replied that another date had not yet been considered, and asked Senators whether they were interested in meeting in December or at another time when Board members would be at UNBC. A Senator indicated that the fundraising campaign would be a good topic for discussion by the two bodies.

Enrolment numbers were requested, and Dr. Iwama responded that Dr. Dale could provide these at the next meeting of Senate.

**Action:** Dr. Dale to provide Senators with enrolment numbers at the next meeting of Senate.

A Senator asked whether student retention was still an issue, and if an exit survey had been devised. Dr. Iwama responded that admissions from local high schools had decreased this year while the number of transfer students from other institutions increased. Mr. Hanschen added that more continuing students are registered this year and there are slightly fewer new students. More students have been retained this year compared with last year.

The timing of the budget process this year was asked about, and Dr. Iwama responded that the process would begin earlier this year. He added that the budget schedule / calendar was available and could likely be provided to Senate at their next meeting.

**Action:** That a report on the status of the budget process be provided at the next meeting of Senate.

## 8.0 **S-201209.03**

### **Approval of Motions on the Consent Agenda** (*no material*)

Ryan

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

It was requested that motion S-201209.06 be moved from the Consent agenda to the Regular agenda.

CARRIED.

## 9.0 **Committee Reports**

### 9.1 **Senate Committee on Academic Policy and Planning**

**Dale**

In the absence of Dr. Dale, Dean Ryan delivered the report from this committee.

#### **“For Approval” Items:**

### **S-201209.06**

#### **Approval of New Course — NURS 329-1**

Hutchings

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course NURS 329-1 Third Year Objective Structured Clinical Examination be approved as proposed.

Proposed semester of first offering: May 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course requires students to successfully complete a number of Objective Structured Clinical Examination (OSCE) scenarios as a prerequisite to commencing NURS 330-4 Extended Clinical Practicum II. An OSCE is a method of evaluation used to measure whether specific practice performance expectations are met, and to evaluate students' clinical judgment and integration of theory and practice in standardized situations of simulated patient care. Thirty-six hours of nursing laboratory practice must be completed within eight months of undertaking the OSCE. Lab hours must be approved by an instructor.

**Prerequisites:** all required 300-level nursing courses in the NCBNP

#### **S-201209.04**

#### **Changes to the “Qualification for Degree” Section in the Northern Collaborative Baccalaureate Nursing Program**

Casperson

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the Qualification for Degree section in the Northern Collaborative Baccalaureate Nursing Program, on page 171 of the 2012-2013 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **Qualification for Degree**

It is the responsibility of the student to ensure that his/her degree or certificate requirements are met. Graduation requirements are found in the Regulations and Policies section of this Calendar. To fulfill the requirements of graduation, the student must:

- attain a minimum Cumulative GPA of 2.33 (C+) on all courses used for credit towards the degree or certificate
- attain a minimum passing grade of (P) in NURS 220-5, NURS 329-1 and NURS 330-5-4, as applicable to the specific program
- obtain a minimum passing grade of 2.00 (C) in the following courses, or their equivalents, as applicable to the specific program. *Note: Students enrolling in any required course must have completed all prerequisites with a grade of (C) or better, or if NURS 220-5, NURS 329-1 or NURS 330-5-4 is the prerequisite, a passing grade of (P) is required:*
  - all NURS courses, including NURS electives
  - all mandatory HHSC courses
  - ANTH 213-3
  - STAT 240-3
  - POLS 403-3
- complete all requirements for the appropriate program as follows:
  - NCBNP BScN within eight years, starting with the first semester of registration in a NURS course in the NCBNP at UNBC or one of its collaborative partner institutions
  - Post-Diploma BScN within eight years, starting with the first semester of registration in a NURS course in the Post-Diploma BScN at UNBC
  - Certificate program within six years, starting with the first semester of registration in a NURS course in the Certificate program at UNBC.

**S-201209.05**

**Changes to Program Requirements — Northern Collaborative Baccalaureate Nursing Program**  
Zahir

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change to the 300-level requirements for the NCBNP, on page 173 of the 2012-2013 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**300 Level**

- NURS 304-3 Introduction to Nursing Knowledge
- NURS 306-3 Introduction to Epidemiology
- NURS 308-3 Ethics and Law in Nursing
- NURS 317-5.5 Nursing Theory and Practice: Maternity
- NURS 318-5.5 Nursing Theory and Practice: Pediatrics
- NURS 323-5.5 Nursing Theory and Practice: Older Adult
- NURS 326-5.5 Nursing Theory and Practice: Mental Health
- NURS 329-1 Third-Year Objective Structured Clinical Examination
- NURS 330-~~5~~-4 Extended Clinical Practicum II

**“For Information” Items:**

**SCAPP201209.06**

**Change to Credit Hours — NURS 330-5**

Ryan

That the change to the credit hours for NURS 330-5, on page 261 of the 2012-2013 undergraduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 330-~~5~~4 Extended Clinical Practicum II** This course provides the opportunity for consolidated clinical nursing practice with clients who have multiple health care needs. Previous clinical practice experience is considered when determining placement. The practicum occurs in various health care settings in northern BC.

*Prerequisites:* ~~all required 300-level nursing courses in the NCBNP~~ NURS 329-1

*Precluded:* NURS 320-5

**SCAPP201209.07**

**Approval of 2012 Annual Report**

Ryan

That the 2012 Annual Report (September 1, 2011 to August 31, 2012) from the Senate Committee on Academic Policy and Planning be approved by the Committee and forwarded to Senate for information.

Effective date: September 5, 2012

CARRIED (consent agenda).

A Senator commented about the number of vacancies on SCAPP, and Dean Ryan suggested that Dr. Dale could provide Senators with further information in this regard.

In the absence of both Co-Chairs, Dr. Iwama delivered the report from this committee.

**“For Approval” Items:**

**S-201209.07**

**Changes to Program Requirements — English MA**

Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change(s) to the number of credit hours for the English MA thesis and to the total number of credit hours for the English MA program, on pages 73-74 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Requirements

The course of study is composed of a minimum total of ~~27~~ 30 credit hours of work. First, students are required to complete five courses totaling 15 credit hours, including [ENGL 690-3](#), Bibliography, the mandatory course in research methodologies; [ENGL 700-3](#), the mandatory course in Literature, Culture and Place; and three elective courses. In the required courses, students have the opportunity to engage in close intellectual dialogue and debate with fellow graduate students and professors, thereby cultivating the productive collegial relationships crucial to the development of a dynamic graduate student culture. With the exception of [ENGL 699-3](#) (Advanced Independent Study in Literature, which faculty members supervise on an individual basis), all courses are offered as seminar courses. The three elective courses conform to pedagogical models followed by all 600-level courses listed in the UNBC Graduate Calendar. Second, students are required to produce both a detailed thesis proposal and bibliography at the beginning of their second year of study, and to defend, in a formal oral examination, a ~~12~~ 15 credit-hour thesis of approximately 100 pages in length.

Creative Writing Thesis Option

Although UNBC does not offer degrees in Creative Writing, the English Program offers MA candidates the opportunity to complete a ~~12~~ 15 credit-hour creative thesis in lieu of an academic thesis. Successful applicants who wish to pursue this option are admitted on the same basis and must fulfill the same course and thesis requirements as other English MA candidates. Permission to undertake a creative thesis is at the discretion of the department. An applicant interested in the creative thesis option must include, in addition to their application for admission to the MA, a proposal for a creative thesis and an 8-10-page sample of previous creative work consisting of one or more of the following: original poetry or prose such as a short story or novel excerpt; a dramatic script or screenplay; or a combination of these genres. Both published and unpublished work are considered for the purpose of the application. The proposal should outline the form, scope, and subject matter of the Creative Writing thesis. In addition, students must demonstrate some critical and theoretical awareness of the approach they plan to take for the creative thesis; and, for applicants admitted to the program, the finished thesis must include an introduction of no fewer than 15 pages delineating this critical

and theoretical awareness. Because of the high standards expected for the creative project and the Department's limited faculty resources in the area of creative writing, a limited number of students will be permitted to undertake this alternative. Therefore, admission to the MA program in English does not guarantee permission to write a creative thesis.

#### Required Courses

<a href="#">ENGL 690-3</a>	Bibliography
<a href="#">ENGL 700-3</a>	Studies in Literature, Culture and Place

#### Required Thesis

ENGL 799-15	<u>English</u> MA Thesis

#### **"For Information" Items:**

##### **SCRGS201209.02**

##### **Changes to Course Description and Credit Hours — ENGL 799-12**

Ryan

That the change(s) to the course description and course credit hours for ENGL 799-12 English MA Thesis, on page 117 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2012

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

ENGLISH 799-15 English MA Thesis Under the guidance of a supervisor, students are required to produce and defend an academic thesis of approximately 100 pages in length. At the discretion of the Department, students may complete a creative thesis that meets the requirements outlined in the English (MA program) section of the Graduate Calendar. The thesis is intended to require approximately 12 months of full-time work.

#### **9.3 Senate Committee on Nominations**

**Zahir**

##### **9.3.1 Nominations and Election of Vice Chair of Senate**

The Chair called for nominations from the floor. Senator Nolin was nominated by Senator Hutchings. There being no further nominations, Senator Nolin was elected, by acclamation, as Vice Chair of Senate.

Dr. Iwama thanked both Senator Hutchings for serving admirably as Vice Chair of Senate for the past two years and Senator Nolin for her willingness to assume the Vice Chair position for the coming year.

#### **"For Approval" Items:**

Chair of the Senate Committee on Nominations, Senator Zahir, requested Senators' indulgence to add two names to the lists below:

- 1) Senator Whitcombe to be added under motion S-201209.08 as a Faculty Senator to serve on the Senate Committee on Academic Policy and Planning for a term ending March 31, 2015.
- 2) Undergraduate Student Senator Rob Currie-Wood to be added to the list of "Senators Elected for Terms of Office Commencing Immediately" in the items presented for information.

As there was no objection to adding these names, they were included in the lists below.

**S-201209.08**

**Membership Changes to Senate Committees**

Ryan

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate committees as indicated, be appointed as proposed.

Effective date: Immediately upon approval by Senate

<b><u>SENATE OR SENATE COMMITTEE POSITION TO BE FILLED</u></b> <i>(except as otherwise noted, all terms begin immediately)</i>	<b><u>CANDIDATE</u></b>
---	-------------------------

<u>Senate Committee on Admissions and Degrees</u> Faculty Member (until March 31, 2015)	Kristen Guest
--	---------------

<u>Senate Committee on Academic Policy and Planning</u> Faculty Senator (until March 31, 2015)	Todd Whitcombe
---	----------------

<u>Steering Committee of Senate</u> Student Senator (until March 31, 2013)	Chantal Carriere
---	------------------

<u>Senate Committee on Regional Policy and Inter-Institutional Relations</u> Student Senator (until March 31, 2013)	Chantal Carriere
--	------------------

Three times, the Chair called for further nominations. There being no further nominations forthcoming, the motion was CARRIED.

**For Information of Senate:**

Senators Elected for Terms of Office Commencing Immediately:

Student Senators (until March 31, 2013):  
 Chantal Carriere (Undergraduate) (by acclamation)  
 Rob Currie-Wood (Undergraduate) (by acclamation)

Senate Vacancies:

One Faculty Senator — CASHS (until March 31, 2014; Senator Kitchenham sabbatical)  
 One Student Senator (until March 31, 2013; Senator Hickey resignation — now replaced by Senator Currie-Wood)

Membership of the SCAPP and SCRGS Subcommittee on Curriculum and Calendar (to be reported at the September meeting of Senate each year in accordance with the Committee’s terms of reference):

Dr. George Iwama	President ( <i>ex officio</i> )
Dr. Mark Dale	Provost ( <i>ex officio</i> )
Dr. Kevin Hutchings	Faculty Senator, designate of Dean of CASHS
Dr. David Casperson	Faculty Senator, designate of Dean of CSAM
Dr. Brent Murray	Faculty Senator, designate of Dean of Graduate Programs
Ms. Heather Empey	Designate of the University Librarian
Mr. Troy Hanschen	Secretary of Senate (non-voting)

**10.0 Other Business**

**10.1 Presentation — *Green University Planning Committee: Overview and How to Increase Participation* Palazuelos**

Mr. Palazuelos provided Senators with a presentation regarding the Green University Planning Committee (attached to these minutes as “Appendix III”). He responded to questions after the presentation, and agreed to provide Senators with a copy of the UNBC Sustainability Report (also attached to these minutes as part of Appendix III).

**11.0 Information** *(no material)*

No items for information were provided.

**12.0 S-201209.09  
Adjournment**

Hutchings  
That the Senate meeting be adjourned.  
CARRIED.

The meeting ended at 4:50 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

October 24, 2012  
3:30 – 5:30 PM

Senate Chambers (Room 1079 Administration Building)

---

**Present:**

E. Annis, M. Archie, D. Casperson, R. Currie-Wood, M. Dale, B. Deo, M. Green, S. Green, K. Guest, L. Handfield, T. Hanschen (Secretary of Senate), K. Hutchings, E. Korkmaz, C. Lee (Acting Dean, Graduate Programs), D. Leighton-Stephens, D. Macknak, D. McDonald, C. Myers (Recording), K. Mytting, D. Nyce, G. Payne (Acting Vice President, Research), R. Robinson, J. Safaei Boroojeny, P. Sanborn, A. Stroet, R. Tallman, S. Wagner, B. Wang, T. Whitcombe, S. Zahir

**Regrets:**

C. Carriere, L. Copeland, J. Crosina, G. Iwama (Chair), D. Ryan, J. Young, K. Kuo, B. Murray, C. Nolin (Vice Chair), F. Islam, M. Nitz

**Absent:**

R. Brouwer, C. Silva, K. Walske, W. Younas

---

The meeting commenced at 3:30 p.m. In the absence of both the Chair and Vice Chair of Senate, the meeting was chaired by Dr. Dale in accordance with section 3(c)(iii) of the Senate Handbook. As there were new Senators in attendance at the meeting, Dr. Dale invited Senators to introduce themselves which they did.

**1.0** **S-201210.01**

**Approval of the Agenda**

Zahir

That the agenda for the October 24, 2012 Public Session of Senate be approved as presented.  
CARRIED.

**2.0** **S-201210.02**

**Approval of Senate Minutes**

Whitcombe

That the minutes of the September 26, 2012 Public Session of Senate be approved as presented.  
CARRIED.

**3.0** **Business Arising from Previous Minutes of Senate**

**3.1** **Information about the Term for the University Librarian position**

**Dale**

Dr. Dale reported that the selection committee for this position had voted to make the term for the position five years in length, renewable upon review. These stipulations will form part of the letter of appointment.

**3.2 Information about the Positions of Dean of Student Success and Enrolment Management, Dale and Assistant Provost**

Dr. Dale reminded Senators that Dr. Owen is the acting Dean of Student Success and Enrolment Management and reported that the Assistant Provost position was a term position which is not open at the moment. He added that the job description and perhaps the title for the Dean's position will be revised to reflect a change in the duties for that position.

**3.3 Enrolment Numbers Dale**

A presentation on enrolment numbers was delivered by Dr. Dale (presentation attached to these minutes as "Appendix I"). It was noted that statistical information could be accessed from UNBC's Institutional Data Analysis and Reporting Team (IDART) website.

**3.4 Report on the Status of the Budget process Bray**

Dr. Dale indicated that the draft budget schedule had been distributed at the Senate meeting in hard copy, and that Ms. Bray would be at the next meeting of Senate to respond to any questions.

**4.0 President's Report Iwama**

As Dr. Iwama was not in attendance at the meeting, there was no report from the President.

**5.0 Report of the Provost Dale**

Dr. Dale reported that the Globe and Mail's report had been released, and that in relation to UNBC, some portions of it were positive while others were not. He added that he would speak about this report and the Maclean's magazine rankings at a later meeting of Senate. Dr. Dale reminded Senators that the Globe and Mail report is based on surveys of students, which are important, but do not tell the whole story, so it needs to be discussed in context with other information.

**6.0 Report of the Registrar Hanschen**

Mr. Hanschen had nothing to report.

**7.0 Question Period**

A Senator asked about enrolment numbers for Continuing Studies for credit courses, and Dr. Dale indicated he had that information on his desk. He also added that a presentation on this matter could be undertaken at a future meeting of Senate.

The meeting schedule of the Continuing Studies Credit Committee was questioned, and Dr. Dale responded that the committee had not met in some time. It was also questioned whether the Manager of Continuing Studies position was still vacant, and Dr. Dale replied that he would find out and report back to Senate.

**Action:** Dr. Dale to determine the status of the Manager of Continuing Studies position and report back to Senate.

The status of the proposed merger of SCAPP and SCRGs was questioned, and Dr. Dale responded that the matter would be coming back to Senate in the near future.

A Senator asked about the timeline for the approval of the research policies that were under discussion. Dr. Payne replied that the policies had been forwarded to the Colleges for review and that he is currently going through the feedback received and making revisions where possible. The revised policies will then be directed back to the Colleges and SCAPP and SCRGs, and will subsequently come back to Senate, hopefully for the December meeting.

The joint meeting of the Board of Governors and Senate which had been postponed in May was mentioned, and a Senator asked whether a new date had been set for the meeting. Dr. Dale responded that a date had not yet been set.

**8.0 S-201210.03**

**Approval of Motions on the Consent Agenda**

Whitcombe

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

**9.0 Committee Reports**

**9.1 Senate Committee on Research and Graduate Studies**

Payne / Lee

**“For Approval” Items:**

**S-201210.04**

**Course Deletion — PSYC 801-2**

Whitcombe

That, on the recommendation of the Senate Committee on Research and Graduate Studies, PSYC 801-2 Graduate Seminar II, on page 136 of the 2012-2013 graduate calendar, be deleted and removed from the calendar.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~PSYC 801-2 Graduate Seminar II The graduate seminars are geared toward developing critical thinking skills and aim to help students evaluate a broad spectrum of topics. The seminars will function to generate debate on key issues, promote interaction with faculty members and other students in the program, and to act as a context for presentations by the students. Each student is expected to give, in a manner acceptable for a national or international conference presentation, one presentation in each of the two semesters of enrolment.~~

**S-201210.05**

**Change to Program Requirements — Psychology PhD Program**

Zahir

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the change(s) to the program requirements for the Department of Psychology PhD program, on page 96 of the 2012-2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Students in the PhD program are required to complete a minimum of ~~46~~ 12 credit hours of course work consisting of ~~two~~ one graduate seminars:

~~PSYC 800-2 Graduate Seminar I~~

~~PSYC 801-2 Graduate Seminar II~~

PSYC 800-3 Graduate Seminar

6 3 credit hours of research practica:  
PSYC 860-(3-6) Research Practicum

and two courses from:

PSYC 810-3 Cognitive Neuroscience  
PSYC 815-3 Social Psychology  
PSYC 820-3 Health Psychology  
PSYC 822-3 Cross-Cultural Communication in Health Care  
Settings  
PSYC 825-3 Cognitive Neuropsychological Assessment  
PSYC 826-3 Personality Assessment  
PSYC 830-3 Psychological Interventions  
PSYC 831-3 Psychopathology  
PSYC 835-3 Cognition and Learning  
PSYC 845-3 Developmental Psychology

### **S-201210.06**

#### **Change to Program Requirements — Psychology MSc Program**

Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the changes to the program requirements for the Psychology MSc Program, on page 95 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Students in the MSc Program are required to complete a minimum of ~~23-20~~ credit hours of course work consisting of two quantitative methods courses:

PSYC 600-4 Quantitative Methods I  
PSYC 605-4 Quantitative Methods II

~~an ethics course:~~

~~PSYC 740-3 Ethical and Legal Issues in Psychology~~

and four courses, two of which must be from among the following:

PSYC 610-3 Cognitive Neuroscience  
PSYC 615-3 Social Psychology  
PSYC 620-3 Health Psychology  
PSYC 631-3 Psychopathology  
PSYC 635-3 Cognition and Learning  
PSYC 645-3 Developmental Psychology  
Required graduate courses in Psychology are offered on a two-year schedule.

**Absent:**

K. Walske

---

The meeting commenced at 3:30 p.m.

1.0

**S-201211.01**

**Approval of the Agenda**

Annis

That the agenda for the November 28, 2012 Public Session of Senate be approved as presented.

A Senator requested that, unless it is discussed elsewhere on the agenda, an agenda item called "Introduction of Free Block(s) in Course Schedule" be added under "Other Business." There were no objections to this request.

The motion to approve the agenda, as amended, was CARRIED.

2.0

**S-201211.02**

**Approval of Senate Minutes**

Whitcombe

That the minutes of the October 24, 2012 Public Session of Senate be approved as presented.  
CARRIED.

### **3.0 Business Arising from Previous Minutes of Senate**

#### **3.1 Status of the Manager of Continuing Studies Position Dale**

Dr. Dale reported that the position of Manager of Continue Studies was no longer advertised. He added that Aaron LeBlanc, Director of Ancillary Services, planned to attend Senate today to discuss Continuing Studies but is unable to do so. He will be asked to attend a future meeting of Senate.

#### **4.0 President's Report Iwama**

Dr. Iwama reported on several matters, and his report is attached to these minutes as "Appendix I."

#### **5.0 Report of the Provost Dale**

Dr. Dale delivered a presentation on the recent university ranking results published in Maclean's magazine and the Globe and Mail (presentation attached to these minutes as "Appendix II"). Dr. Dale asked Senators to remember that the Globe and Mail report is based on student opinions only, and that the difference between the scores ("A," "B," and "C") may not be statistically significant. With regard to the Maclean's rankings, Dr. Dale indicated that UNBC had done less well in the research category this year, but improved overall. He concluded that the results are positive but there are a few areas for concern.

Dr. Dale also reported that to attract international students, UNBC had been pursuing a partnership with a group called Navitas, who declined to participate. UNBC is also looking into partnering with another group called "Study Group" for the same purpose.

#### **6.0 Report of the Registrar Hanschen**

##### **6.1 Distribution of UNBC Courses**

Mr. Hanschen provided Senators with data regarding the distribution of UNBC courses for the Fall 2012 and January 2013 semesters. He noted that the number of courses offered on Fridays is substantially lower than for other weekdays. He also asked that any discussion in relation to this information be undertaken when the motions to approve the academic dates are considered.

Mr. Hanschen also reported about a few other matters, which are contained in his report attached to these minutes as "Appendix III".

#### **7.0 Question Period**

A Senator noted that the Canadian Museum of Civilization was being renamed the Museum of Canadian History and that their archaeological programs were subsequently being reduced or discontinued. He asked whether the University of the Arctic was considering taking over this work. Dr. Iwama responded that he did not know, but "thematic networks" are a feature of the University of the Arctic, and if the works fits with these thematic networks, they may pursue it. Dr. Iwama added that Douglas Cardinal, the man who designed the Museum of Civilization, ask to meet when Dr. Iwama was in Ottawa recently. Mr. Cardinal would like to come to UNBC again. One of the communities Mr. Cardinal developed in Quebec was named a model community by the United Nations.

A Senator asked about the status of the search for the Dean of Graduate Programs position. Dr. Dale replied that the committee will be meeting on December 3 to discuss how to proceed.

A question was raised about whether further information had been obtained regarding the use of electronic textbooks. Dr. Dale responded that he had discussed this matter with Rob Fleming from the British Columbia Council on Admissions and Transfer, and perhaps modules can be adopted rather than complete textbooks. Acting Dean Owen added that flexibility should be an option. The Senator expressed concern that, if UNBC does not choose to adopt the use of electronic textbooks, the University may loses students who will decide to attend another institution that does use electronic

textbooks, as a result of the cost savings. Dr. Dale concluded that this initiative is an opportunity for UNBC and the province to move toward uniformity, but it could also be a threat to institutional autonomy.

**8.0 S-201211.03**  
**Approval of Motions on the Consent Agenda**

Ryan

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

**9.0 Committee Reports**

**Dale**

**“For Approval” Items:**

**S-201211.04**

**Approval of Undergraduate Academic Dates for the 2013-2014 Undergraduate Academic Calendar**

Zahir

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the Undergraduate Academic Dates for the 2013-2014 Undergraduate Academic Calendar be approved as proposed.

Effective date: September 2013

Mr. Hanschen provided information regarding the academic dates, noting that the maintenance shutdown has shortened the examination period in the September 2013 semester, as has Easter in the January 2014 semester. Mr. Hanschen noted that, every year, UNBC's Convocation date conflicts with the Congress of the Humanities and Social Sciences. He had been asked to consider moving Convocation to a different date so that more faculty members can attend Convocation, as they are away at Congress every year. He therefore asked whether changing the traditional Convocation dates should be investigated. The possibility of moving the Convocation one week ahead and one week later was discussed. Dr. Iwama indicated that any change should be made next year, as this year's Convocation date has already been advertised. Mr. Hanschen responded that moving Convocation up by a week would really be pushing it with regard to all the processes that need to be completed by the Office of the Registrar after the examination period has ended, as they have asked for a 28-day period to complete these tasks. It was suggested that students and faculty members be polled to determine who can attend Convocation if it was moved one week either side of the current date. The implications of postponing this motion to the December meeting of Senate to gather further information were questioned. Mr. Hanschen replied that he would like the dates to be approved as soon as possible. He was asked to provide information about the implications for workload on staff members if Convocation was held a week earlier than is now the case. Dr. Iwama indicated there may be complications for awarding parchments on stage, for instance.

**Motion to postpone:**

Whitcombe / Wagner

That Senate motion S-201211.04 be postponed to the December meeting of Senate to allow the Registrar to gather further information pertinent to the discussion of moving the Convocation date.

CARRIED.

**S-201211.05**

**Approval of Guidelines for the Approval of Transfer Agreements and Memorandums of Understanding (MOUs)/Memorandums of Agreement (MOAs)**

Deo

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the Guidelines for the Approval of Transfer Agreements and Memorandums of Understanding (MOUs)/Memorandums of Agreement (MOAs) be approved as proposed.

Effective date: January 2013

CARRIED.

**S-201211.06**

**Changes to Calendar Description — BSc Honours – Forest Ecology and Management**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the calendar description of the BSc Honours-Forest Ecology and Management be approved as proposed.

Effective date: January 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**BSc Honours-Forest Ecology and Management**

The Honours in Forest Ecology and Management ~~offers students a higher level of education and research experience for proceeding to post-graduate studies.~~ recognizes undergraduate students who both excel at their studies and complete the Undergraduate Thesis (normally NRES 430-6).

Honours students are required to complete the degree requirements for the BSc Natural Resources Management (Forest Ecology and Management Major). In addition, required hours of electives credits must be at the 300 or 400 level and each student must complete a 6 credit-hour research thesis under the supervision of a faculty member.

~~Admission-Entry into the Hhonours Pprogram will takes place after the completion of 60 credit hours and will requires a minimum Cumulative GPA of 3.33. Attaining the minimum requirement will does not guarantee admission entry into the Hhonours Pprogram, which will be is at the discretion of the Ecosystem Science and Management Program. Maintenance of a Cumulative GPA of 3.33 is required to remain in the Hhonours Pprogram.~~

Elective credit hours are determined to be the number of credit hours needed to ensure completion of a minimum of 123 credit hours; not including thesis.

Note: Students are responsible for finding their own undergraduate thesis research supervisor. Faculty members are under no obligation to supervise Honours students.

**S-201211.07**

**Changes to Degree Requirements — Major in Environmental Studies (Okanagan Diploma in Environmental Studies Degree Completion)**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the degree requirements for the Major in Environmental Studies (Okanagan Diploma in Environmental Studies Degree Completion), on page 128 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: January 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Major in Environmental Studies (Okanagan Diploma in Environmental Studies Degree Completion)**

This 60 credit-hour program of study is available only to students from Okanagan College with a diploma in Environmental Studies (Environmental Management Option or Interdisciplinary Environmental Arts Option).

**Degree requirements:** Diploma in Environmental Studies from Okanagan College, minimum cumulative GPA of 2.5, plus 33 credit hours

**Area of focus:** 24 to 29 credit hours

Elective credit hours in any subject as necessary to ensure completion of a minimum of 60 credit hours at UNBC.

Lower-Division Requirement

<a href="#">BIOL 110-3</a> *	Introductory Ecology
or <a href="#">POLS 100-3</a>	Contemporary Political Issues
<a href="#">ENPL 104-3</a>	Introduction to Planning
<a href="#">ENVS 101-3</a>	Introduction to Environmental Citizenship

\* Students who completed the Interdisciplinary Arts diploma option should take BIOL 110-3, and students who completed the Environmental Management diploma option should take POLS 100-3.

Upper-Division Requirement

300 Level

<a href="#">GEOG 300-3</a>	Geographic Information Systems
<a href="#">ENVS 325-3</a>	Global Environmental Change: Science and Policy
<a href="#">ENVS 326-3</a>	Natural Resources, Environmental Issues and Public Engagement

**"For Approval" Items:**

**S-201211.08**

**Approval of Graduate Academic Dates for the 2013-2014 Graduate Academic Calendar**

Deo

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the Graduate Academic Dates for the 2013-2014 Graduate Academic Calendar be approved as proposed. Effective date: September 2013

Mr. Hanschen noted that these academic dates are slightly different from those presented under the SCAPP report.

**Motion to postpone:**

Hutchings / Whitcombe

That Senate motion S-201211.08 be postponed to the December meeting of Senate to allow the Registrar to gather further information pertinent to the discussion of moving the Convocation date. CARRIED.

A Senator asked that, for the December meeting of Senate when these motions will be presented again, Senators be provided with information about how much money is being saved by moving the date of the University closure for maintenance.

**S-201211.09**

**Approval of Guidelines for the Approval of Transfer Agreements and Memorandums of Understanding (MOUs)/Memorandums of Agreement (MOAs)**

Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the Guidelines for the Approval of Transfer Agreements and Memorandums of Understanding (MOUs)/Memorandums of Agreement (MOAs) be approved as proposed.

Effective date: January 2013

CARRIED.

**S-201211.10**

**Changes to Requirements — Leading for Learning Certificate**

Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the requirements for the Leading for Learning Certificate be changed from five required courses to two required courses and a choice of three of five electives.

Effective date: January 1, 2013 but fee structure retroactive for students already admitted under the BCELIC certificate portability process

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

[Admission requirements are the same as for the MEd degree]

The Leading for Learning Graduate Certificate requires 15 credit hours of course work — that is, five courses, two of which are required courses in the MEd Multidisciplinary Leadership (MDL) specialization, and the other three of which are part of a series of acceptable courses for the Educational Leadership Focus Area of the MDL. The certificate courses are normally offered over a four-semester cycle. While it is expected that most certificate completers will continue with completion of a Masters of Education Multidisciplinary Leadership degree, students may choose to complete only the certificate. The schedule of courses offered on most UNBC campuses allows completion of the certificate first and in the sequence of courses as follows, but this is not a requirement. Variation from this schedule of courses requires the permission of the MEd MDL Coordinator and School Chair. It is also possible to complete the MEd MDL without meeting all the requirements of the certificate. ~~The five required courses in their intended sequence are:~~

**Required Courses:**

- ~~1. EDUC 626-3 Inclusive Education: Learning for All~~

**EDUC 606-3 Leading for Change**

- ~~2.—~~EDUC 609-3 Aboriginal/Indigenous Learners: History, Culture and Ways of Knowing

**Plus three of:**

- ~~1.~~ EDUC 615-3 The School Principalship
- ~~2.~~ EDUC 616-3 Policy and Politics in Public Education
- ~~3.—~~EDUC 617-3 Leading for Learning: Teacher Leadership and Principal Preparation
- ~~4.—~~EDUC 626-3 Inclusive Education: Learning for All
- ~~5.—~~EDUC 656-3 Instructional Leadership

**A Leadership Development Portfolio and an Inquiry Project must also be completed concurrently in order to meet requirements of the certificate.**

Students applying to UNBC's Master of Education Multidisciplinary Leadership specialization with a fully or partially completed graduate diploma or certificate, developed under the BC Educational Leadership Council process in conjunction with the Association of BC Deans of Education, may be eligible to receive up to 15 credit hours of transfer credit, at the discretion of the Chair of the School of Education. For each course so credited the student

will be rebated the equivalent of one 3 credit-hour, non-degree graduate course fee against the student's total Masters of Education tuition.

Regular

**S-201211.11**

**Revisions to “Application for Admissions Deadline Dates” Table for Education (MEd — Multidisciplinary Leadership Specialization)**

Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the “Application for Admissions Deadline Dates” table on page 35 of the 2012/2013 of the Graduate Calendar be altered to change the “no intake” for the “Education (MEd — Multidisciplinary Leadership Specialization)” to “February 15<sup>\*\*\*</sup>” with the <sup>\*\*\*</sup> footnote to indicate a May or September entry with a delay to January on a case by case basis for selected individuals based on approval due to extenuating circumstances by the School of Education.

Effective date: January 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Education (MEd -- Multidisciplinary Leadership Specialization)	February 15 <sup>**</sup>	<del>no intake</del> <u>February 15<sup>***</sup></u>	February 15 <sup>**</sup>
--	---------------------------	---	---------------------------

\* Applications for admission should be submitted as early as possible to the Office of the Registrar. Incomplete applications and applications received after the deadlines will be considered late and may not be processed in time to permit admission.

\*\* Applications for admission are accepted for one semester only. Applicants must indicate whether they are applying to the May or September Semester.

\*\*\* Indicates a May or September entry with a delay to January on a case by case basis for selected individuals based on approval due to extenuating circumstances by the School of Education.

**S-201211.12**

**Creation of a Health Research Institute**

Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the creation of a Health Research Institute be approved as proposed.

Effective date: Immediately upon approval by Senate

Dr. Martha MacLeod, Chair of the School of Nursing, joined the Senate meeting by telephone to provide information regarding this proposal. A Senator expressed a number of concerns about the proposal, particularly that it had not been reviewed by the Senate Committee on First Nations and Aboriginal Peoples (SCFNAP). Dr. MacLeod responded that the proposal adheres to the UNBC policy for the establishment of research institutes, but agreed that, if required, it should be forwarded to SCFNAP. The Senator elaborated that, as a member of that Senate Committee, he would like to ask SCAPP and SCRGS not to review motions with aboriginal content before they are sent to SCFNAP.

**Motion to refer:**

Casperson / Hutchings

That motion S-201211.12 be referred to the Senate Committee on First Nations and Aboriginal Peoples, to report back to Senate as soon as possible.

CARRIED.

**“For Information” Items:**

**SCRG201211.07**

**Changes to Course Title and Description — EDUC 609-3**

Ryan

That the changes to the course title and description for EDUC 609-3 Aboriginal Learners: History, Culture, and Ways of Knowing, on pages 69 and 112 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: January 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**EDUC 609-3 Aboriginal/Indigenous Learners: History, Culture, and Ways of Knowing** This course explores the difficult history Aboriginal/Indigenous people have had with ~~w~~Western education. It also explores indigenous ways of knowing, contemporary education theory, and instructional practices in relation to the needs and resources of Aboriginal/Indigenous students in rural and urban northern communities. Students ~~will be~~ are encouraged to examine achievement data and to explore cultural assumptions around definitions of Aboriginal/Indigenous student success. Students ~~will~~ consider the cultural relevance of teaching ing resources, assessment tools, and school improvement interventions., issues of Aboriginal/Indigenous access, retention, and participation in education systems ~~will be~~ are emphasized, along with the need for rebuilding trust among education institutions and Aboriginal/Indigenous communities.

**SCRG201211.08**

**Changes to Course Title and Description — EDUC 619-3**

Ryan

That the changes to the course title and calendar description for EDUC 619-3 First Nations Counselling, on pages 69 and 112 of the 2012/2013 graduate calendar, be approved as follows

Effective date: January 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**EDUC 619-3 Counselling for Aboriginal/Indigenous Peoples** This course ~~is an examination of~~ the place of counselling in the holistic context of Aboriginal/Indigenous approaches to health and healing. In particular, ~~the course will~~ it examines the counselling processes that are inherent in traditional healing practices such as the sweat lodge, concentric circle, talking circle and vision quest.

9.3 **Senate Committee on Scholarships and Bursaries**

**Owen**

**“For Information” Items:**

**SCSB20120718.01**

**New Terms and Conditions — Gorton Family Lakeland Mills Relief Award**

Ryan

That the new Terms and Conditions for the Gorton Family Lakeland Mills Relief Award be approved.

Effective date: January 2013

**“For Approval” Items:****S-201211.13****Merger of SCAPP and SCRGs**

Dale

That, on the recommendation of the Steering Committee of Senate, Senate Committee on Academic Policy and Planning, and Senate Committee on Research and Graduate Studies, the Senate Handbook be revised to reflect the merger of two current Senate committees (*Senate Committee on Academic Policy and Planning* and *Senate Committee on Research and Graduate Studies*) into a new committee called the Senate Committee on Academic Affairs.

Effective date: April 1, 2013

The Registrar asked if Senators would be amenable to changing the effective date of this motion from January 1, 2013 to April 1, 2013. Doing so would allow more time for the logistical issues to be dealt with and also coincides with the start dates of new terms of office for Senate committee members. As there were no objections to this request, the effective date of this motion was changed to April 1, 2013.

CARRIED, with change of effective date from January 1, 2013 to April 1, 2013.

**10.0 Other Business****10.1 Presentation — *Campus Master Plan*****Bray / Rennick**

Ms. Bray and Ms. Rennick delivered a presentation about the Campus Master Plan (attached to these minutes as “Appendix IV”) and responded to questions from Senators afterward.

During the presentation, the following motion was put:

**Motion:**

Casperson / Whitcombe

That the Senate meeting be extended past 5:30pm.

CARRIED.

**10.2 Introduction of Free Block in Course Schedule**

A Senator proposed that, in order to allow time for faculty meetings and other obligations, a free block be introduced into the schedule.

After a brief discussion, the following motion was put:

**S-201211.13A:**

Whitcombe / Ryan

That a free block be introduced in the course schedule.

The Provost suggested that the Registrar be provided with time to pull together some information in relation to this proposal.

**Motion to postpone:**

Dale / Ryan

That motion S-201211.13A be postponed based on implications for scheduling.

CARRIED.

It was suggested that this motion be brought back to the December Senate meeting and be incorporated into the discussion regarding the academic dates, if possible. The Registrar replied that there is a Scheduling Committee that should be involved in this discussion. Another Senator asked how many blocks would be required to make this initiative effective. It was noted that Senators can request that their courses not be scheduled during the Senate meeting, for instance, and the Senator providing that information added that not all faculty members may be aware of, or take advantage of, this convenience.

**11.0 Information**

The following documentation was provided to Senators for information.

**11.1** External Review — Biochemistry and Molecular Biology

**11.2** External Review — Psychology

**12.0 S-201211.14**

**Move to In Camera Session**

Casperson

That the meeting move In Camera.

CARRIED.

**13.0 S-201211.18**

**Adjournment**

Casperson

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 5:55 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

December 12, 2012

3:30 – 5:30 PM

Senate Chambers (Room 1079 Administration Building)

---

**Present:**

E. Annis, R. Brouwer, D. Casperson, R. Currie-Wood, M. Dale, B. Deo, M. Green, S. Green, L. Handfield, T. Hanschen (Secretary of Senate), K. Hutchings, F. Islam, G. Iwama (Chair), E. Korkmaz, D. Leighton-Stephens, D. McDonald, B. Murray, C. Myers (Recording), K. Mytting, M. Nitz, C. Nolin (Vice Chair), D. Nyce, G. Payne (Acting Vice President, Research), D. Ryan, J. Safaei Borojeny, P. Sanborn, C. Silva, A. Stroet, R. Tait (Acting Dean, CASHS), S. Wagner, B. Wang, T. Whitcombe, W. Younas, S. Zahir

**Regrets:**

M. Archie, C. Carriere, L. Copeland (Acting University Librarian), J. Crosina, K. Guest, K. Kuo, C. Lee (Acting Dean, Graduate Programs), R. Robinson

**Absent:**

D. Macknak, R. Tallman, K. Walske

---

The meeting commenced at 3:30 p.m.

**1.0**      **S-201212.01**

**Approval of the Agenda**

Whitcombe

That the agenda for the December 12, 2012 Public Session of Senate be approved as presented.  
CARRIED.

**2.0**      **S-201212.02**

**Approval of Senate Minutes**

That the minutes of the November 28, 2012 Public Session of Senate be approved as presented.

It was reported that the minutes of the meeting of November 28, 2012 were not yet available. A motion to postpone this motion until the next meeting of Senate was recommended.

**Motion to postpone:**

Whitcombe / Casperson

That motion S-201212.02 be postponed.  
CARRIED.

**3.0 Business Arising from Previous Minutes of Senate**

**3.1 Continuing Studies Dale**

Dr. Dale introduced Mr. Aaron LeBlanc, Director – Ancillary Services, who is responsible for Continuing Studies. Mr. LeBlanc provided Senators with information about Continuing Studies. In particular, he indicated that Continuing Studies was in the process of improving its business processes and would be adding resources to increase its non-credit course offerings. With regard to the position of Manager of Continuing Studies, Mr. LeBlanc reported that the position was currently vacant and would not be filled at this time. He added that the intention was to reassess the need for the position in about 12 months.

**3.2 Free Block in the Schedule Hanschen**

Mr. Hanschen reported that he had gathered information with regard to the request to introduce a free block into the schedule. He concluded that, while this could be done, he did not recommend doing so without looking at the implications for the schedule as a whole. He suggested passing the request on to the Scheduling Committee to review, as introducing a free block at this point in time could affect other matters being addressed.

**Motion:**

Whitcombe

That the motion posed at the November meeting of Senate (“That a free block be introduced in the course schedule”), which was subsequently postponed based on implications for scheduling, be referred to the Scheduling Committee for a recommendation by the end of this academic year.

CARRIED.

**S-201212.03**

**Approval of Undergraduate Academic Dates for the 2013-2014 Undergraduate Academic Calendar**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the Undergraduate Academic Dates for the 2013-2014 Undergraduate Academic Calendar be approved as proposed.

Effective date: September 2013

Mr. Hanschen read a written response from Ms. Shelley Rennick regarding a question about the savings resulting from the change to the maintenance shutdown date. Ms. Rennick indicated in her response that the savings had not been calculated, as the change was based upon not being able to obtain contractors during the holidays and a desire to discontinue scheduling University employees to work during the holidays year after year.

The implications of shifting the Convocation date in future years were discussed and it was decided to leave the date as it currently exists but to continue to explore alternatives.

CARRIED.

**S-201212.04**

**Approval of Graduate Academic Dates for the 2013-2014 Graduate Academic Calendar**

Whitcombe

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the Graduate Academic Dates for the 2013-2014 Graduate Academic Calendar be approved as proposed.

Effective date: September 2013

CARRIED.

**4.0 President’s Report Iwama**

Dr. Iwama reported on the Circumpolar North and University of the Arctic as noted under agenda item 10.1 (“Presentations”). His report is attached to these minutes as “Appendix I.”

**5.0 Report of the Provost Dale**

Dr. Dale reported on the University's investigation of an initiative called "Study Group," noting that a person from the group had come to visit UNBC. The purpose of investigating "Study Group" is to diversify geographic sources of international students. The College Deans met with the representative and, although there are some issues with the model, the University will be pursuing further conversations with the group. When asked how many students the University expected to attract with this initiative, Dr. Dale replied that the intention was to limit the cohort to approximately 30 students, and that the students could be requested from particular geographic areas if desired.

## 6.0 Report of the Registrar

Hanschen

Mr. Hanschen reminded Senators that, with the end of the semester coming up, grade processing is also underway. He asked that grades be submitted by midnight on December 19, 2012. The use of the Northern Sport Centre for examinations was discussed, and it was noted that a clock is needed for students to refer to when writing exams. He also acknowledged a concern expressed regarding the fact that sports continue to be played during exams, but stated that the University is unable to control that factor as it does not own the Northern Sport Centre.

## 7.0 Question Period

A Senator asked about the status of recruiting candidates to fill some academic staff positions. With regard to the Dean of Graduate Programs, Dr. Dale responded that the selection committee would be meeting the following day. In relation to the position of University Librarian, a meeting of the committee would be scheduled shortly, and the committee to select the Dean of CASHS would begin meeting in January. Finally, Dr. Dale indicated that the job description for the position of the Dean of Student Success and Enrolment Management was in the process of being revised and would need to be forwarded to the Board of Governors and Senate for approval. The Senator asked Dr. Dale if he anticipated this revised job description being available for the January Senate meeting and Dr. Dale replied that he did.

A Senator asked Dr. Iwama if he could provide a budget update. Dr. Iwama responded that the process was moving along and that he had met with the Senate Committee on the University Budget. He added that those involved with the Ministry of Advanced Education's initiative to find savings were still awaiting the report from Deloitte, which he hoped would be available soon. Dr. Iwama added that he would provide Senators with the outcome of this exercise as soon as it was available. A Senator indicated that a few years ago the special purpose teaching universities had implemented an initiative to share research instrumentation and asked whether this possibility was being discussed by the research-intensive universities. Dr. Iwama replied that there are some initiatives in place with regard to specific pieces of equipment but that it would be worthwhile to have more discussion of this matter to avoid duplication.

## 8.0 S-201212.05

### **Approval of Motions on the Consent Agenda** (*no material*)

Zahir

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

It was requested that motions S-201212.06, S-201212.07, S-201212.09 and S-201212.10, as well as SCSB20120822.22 be removed from the consent agenda and included on the regular agenda.

CARRIED.

## 9.0 Committee Reports

**“For Approval” Items:**

Motions S-201212.06 and S-201212.10 were moved as an omnibus motion.

**S-201212.06****New Course Approval — POLS 427-3**

Tait

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course POLS 427-3 Ethics and Public Affairs be approved as proposed.

Proposed semester of first offering: September 2013

A Senator asked whether, given the existence of the course POLS 327, the content for this proposed new course could be merged with that course. Dr. DeWiel, Department Chair, responded that the context for the two courses is very different.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course is an exploration of the ethical foundations of domestic and foreign policy making in contemporary democratic states. Special emphasis is placed on the tension that frequently arises between moral idealism and political realism in the conduct of public affairs.

**Prerequisites:** Upper-division standing or permission of the instructor

**“For Information” Items:****SCAPP201212.05****Changes to Course Title and Calendar Course Description — POLS 413-3**

Zahir

That the changes to the course title and calendar course description for POLS 413-3 Democracy, Citizenship and Human Rights, on page 272 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~POLS 413-3 Democracy, Citizenship and Human Rights and Diversity~~ This course examines key socio-political forces that are shaping democratic governance and challenging the traditional connection between rights and citizenship. Specific topics may include democracy and the secular-religious divide; human rights and the limits of toleration; the politics of ethno-nationalism and multiculturalism; human rights and human security; and the role of truth, amnesty and retribution in the reconciliation of historic injustices. is an exploration of the politics of ethnic, racial and religious diversity and its impact on the theory and practice of democracy in the 21st Century. Theoretical concepts and models are examined in relation to case studies drawn from Canada and around the globe.

**SCAPP201212.06****Changes to Calendar Course Description and Prerequisites — BIOL 201-3**

Zahir

That the changes to the calendar course description and prerequisites for BIOL 201 Ecology, on page 195 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: January 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**BIOL 201-3 Ecology** This course provides students with an understanding of the relationship of the environment to organisms, principles of animal and plant ecology, populations, communities, ecosystems and human ecology.

*Prerequisites:* BIOL 101-4 and BIOL 102-4

*Prerequisite:* BIOL 102-4

*Prerequisite or co-requisite:* BIOL 101-4

#### **SCAPP201212.07**

##### **Changes to Calendar Course Description and Prerequisites — BIOL 210-3**

Zahir

That the changes to the calendar course description and prerequisites for BIOL 210 Genetics, on page 196 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: January 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**BIOL 210-3 Genetics** This course emphasizes principles of both modern and classical genetics.

*Prerequisites:* BIOL 101-4 and BIOL 102-4

*Prerequisite:* BIOL 101-4

*Prerequisite or co-requisite:* BIOL 102-4

#### **SCAPP201212.08**

##### **Changes to Course Prerequisites — FSTY 405-3**

Zahir

That the changes to the course prerequisite for FSTY 405-3 Forest Growth and Yield, on page 239 in the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**FSTY 405-3 Forest Growth and Yield** This course explores factors influencing forest yields, traditional prediction methods, and growth and yield simulation. The course also explores stand dynamics, quantitative implications of management treatments and environmental limitations to tree and stand growth.

*Prerequisites:* NREM 203-3 and MATH 152-3, ~~MATH 342-3~~ STAT 240-3 and FSTY 305-4

## **9.2 Senate Committee on Research and Graduate Studies**

**Payne / Lee**

### **"For Approval" Items:**

An Executive Summary of the proposed changes to the Health Sciences curriculum was included for information.

#### **S-201212.07**

##### **New Course Approval — HHSC 820-3**

Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course HHSC 820-3 Directed Readings be approved as proposed.

Proposed semester of first offering: January 2013

Mr. Hanschen asked that the number of this course be changed from 820 to 880 and that the number of HHSC 880 be changed to 820, for purposes of adhering to course numbering standards. The following motion resulted:

**Motion to amend course numbers:**

Casperson

That the course number associated with motion S-201212.07 be changed from HHSC 820-3 to HHSC 880-3, and that the course number associated with motion S-201212.09 be changed from HHSC 880-3 to HHSC 820-3.

CARRIED.

**Amended motion:**

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course HHSC 880-3 Directed Readings be approved as proposed.

Proposed semester of first offering: January 2013

The motion, as amended, was CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course provides a concentration on a particular topic or topics agreed upon by the student and instructor. This course may be repeated for up to 6 credit hours total (with the permission of the instructor and program chair).

**S-201212.08**

**New Course Approval — HHSC 840-3**

Zahir

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course HHSC 840-3 Special Topics in Health Sciences be approved as proposed.

Proposed semester of first offering: January 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The topics for this course vary depending on student interest and faculty availability. This course may be repeated for up to 6 credit hours total (with the permission of the instructor and program chair).

Prerequisites: Permission of the instructor and program chair

**S-201212.09**

**New Course Approval — HHSC 880-0**

Hutchings

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course HHSC 880-0 Qualifying Examination and Dissertation Proposal Defense be approved as proposed.

Proposed semester of first offering: January 2013

When dealing with motion S-201212.07, Mr. Hanschen asked that the number of this course be changed from HHSC 880 to 820, for purposes of adhering to course numbering standards. The following motion resulted:

**Motion to amend course numbers:**

Casperson

That the course number associated with motion S-201212.07 be changed from HHSC 820-3 to HHSC 880-3, and that the course number associated with motion S-201212.09 be changed from HHSC 880-0 to HHSC 820-0.

CARRIED.

**Amended motion:**

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course HHSC 820-0 Qualifying Examination and Dissertation Proposal Defense be approved as proposed.

Proposed semester of first offering: January 2013

The motion, as amended, was CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course is a two-part process, beginning with the Qualifying Examination. Students must submit a paper addressing a research question or topic chosen in collaboration with his/her Supervisory committee. The Qualifying Paper must include a critical review of literature relevant to the research question, discussion of the theoretical frameworks used to understand or frame the research question, or an in-depth analysis of a specific content area. Subsequent to the Qualifying Examination, students prepare and defend a research Dissertation Proposal that integrates theory, current research and methods in fields related to the selected research problem.

**S-201212.10**

**New Course Approval — POLS 627-3**

Tait

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course POLS 627-3 Ethics and Public Affairs be approved as proposed.

Proposed semester of first offering: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course is an exploration of the ethical foundations of domestic and foreign policy making in contemporary democratic states. Special emphasis is placed on the tension that frequently arises between moral idealism and political realism in the conduct of public affairs.

**S-201212.11**

**New Course Approval — COMM 651-3**

Zahir

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course COMM 651-3 Quantitative Decision Analysis be approved as proposed.

Proposed semester of first offering: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

There is a large variety of quantitative tools and techniques available in literature and the topics such as applications of decision analysis models, forecasting models, linear programming models, network models, inventory, quality, scheduling, waiting lines and simulation related models are included in this course to enhance the decision analysis skills of students.

**S-201212.12**

**New Course Approval — COMM 751-3**

Zahir

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the new course COMM 751-3 Project Management be approved as proposed.

Proposed semester of first offering: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The course content includes project life cycle, project planning, scheduling, budgeting, resource loading, resource leveling and planning, cost estimation and crashing. It also includes project evaluation, auditing, communication, and termination; and includes the use of basic statistical tools and project management related software for project management related exercises and for practical case studies.  
Prerequisites: COMM 650

**“For Information” Items:**

**SCRGS201212.08**

**Changes to Course Title and Calendar Course Description — POLS 613-3**

Zahir

That the changes to the course title and calendar course description for POLS 613-3 Democracy, Citizenship and Human Rights, on page 134 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~POLS 613-3 Democracy, Citizenship and Human Rights and Diversity~~ This course ~~examines key socio-political forces that are shaping democratic governance and challenging the traditional connection between rights and citizenship. Specific topics may include democracy and the secular-religious divide; human rights and the limits of toleration; the politics of ethno-nationalism and multiculturalism; human rights and human security; and the role of truth, amnesty and retribution in the reconciliation of historic injustices.~~ is an exploration of the politics of ethnic, racial and religious diversity and its impact on the theory and practice of democracy in the 21st Century. Theoretical concepts and models are examined in relation to case studies drawn from Canada and around the globe.

**9.3 Senate Committee on Scholarships and Bursaries**

**Owen**

**“For Approval” Items:**

**SCSB20120822.22**

**Revised Policy and Procedures for Graduate Awards**

Ryan

That the revised policy and procedures for graduate awards be approved.

Effective date: August 22, 2012

A Senator asked the Chair of the Senate Committee on Scholarships and Bursaries whether the committee was clear on its mandate with regard to matters that are for the approval, as opposed to the information, of Senate. Dr. Owen replied that he did not have the Terms of Reference in front of him. The Senator indicated that this motion was not under the purview of the Senate Committee to approve, and that it would have gone through to Senate for information had the Steering Committee of Senate not identified it as requiring approval. Dr. Owen agreed to take Senate's comments back to the Committee.

CARRIED.

**“For Information” Items:**

**SCSB20120822.03-11**

**New Terms and Conditions — Omnibus Motion**

Zahir

That the New Terms and Conditions of items 4.1.1, 4.1.2, 4.1.3, 4.1.4, 4.1.5, 4.1.6, 4.1.7, 4.1.8, 4.1.9 be approved omnibus.

Effective date: August 2012

CARRIED (consent agenda).

**SCSB20120822.12-15**

**Revised Terms and Conditions — Omnibus Motion**

Zahir

That the Revised Terms and Conditions of items 4.2.1, 4.2.2, 4.2.3, 4.2.4 be approved omnibus.

Effective date: August 2012

CARRIED (consent agenda).

**SCSB20120822.17**

**Annual Disbursement of Select Endowed Funds/Awards**

Zahir

That the annual disbursement of select endowed funds/awards as set out in the Endowed Awards – Reductions to Awards Guide, attached as Schedule “A”, be approved as presented.

Effective date: 2012 – 2013 Academic Year

CARRIED (consent agenda).

**SCSB20120822.18**

**UNBC Leadership Award Criteria Expansion**

Zahir

That the UNBC Leadership award criteria be expanded to include all newly admitted undergraduate students.

Effective date: September 2012

CARRIED (consent agenda).

**SCSB20121024.3-10+12**

**New Terms and Conditions, Revised Terms and Conditions, Awards Recipients, and Deferral — Omnibus Motion**

Zahir

That the New Terms and Conditions of items 4.1.1, 4.1.2, 4.1.3; Revised Terms and Conditions of items 4.2.1, 4.2.2, 4.2.3, 4.2.4; Award Recipients 5.1; Deferral 5.3 be approved omnibus.

Effective date: October 2012

The “Awards Recipients” document noted in this motion was dealt with in the In Camera session, and the “Deferral” motion was not included as it is not required to be reported to Senate.

CARRIED (consent agenda).

**10.0 Other Business**

**10.1 Presentations:**

**10.1.1 The Legacy of the Cariboo Chilcotin Weekend University**

**Schorcht**

Dr. Iwama introduced Dr. Schorcht and thanked her for attending the Senate meeting in person from the Quesnel Campus. He added that he is impressed that the former “Weekend University” has continued in some capacity despite having lost resources. Dr. Schorcht delivered her presentation, notes from which are attached to these minutes as “Appendix II.” She then responded to questions from Senators. Dr. Iwama thanked Dr. Schorcht for her presentation and for her work with the Program. He added that he met with former students of Program in 2011 and that they were very appreciative of the University’s efforts. In closing, he stated that asking First Nations students to come to universities outside their communities is a declining model as it does not work well. Delivering access to university courses in the manner provided by the Weekend University is a better model.

10.1.2 Circumpolar North / University of the Arctic

Iwama

Dr. Iwama's presentation is appended to these minutes as "Appendix I."

11.0 **Information**

There were no items for information.

12.0 **S-201212.13**

**Move to In Camera Session**

Zahir

That the meeting move In Camera.

CARRIED.

13.0 **S-201212.18**

**Adjournment**

Whitcombe

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 5:15 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

January 23, 2013

3:30 – 5:30 PM

Senate Chambers (Room 1079 Administration Building)

---

**Present:**

R. Bird, C. Carriere, D. Casperson, J. Crosina, R. Currie-Wood, M. Dale, B. Deo, M. Green, S. Green, K. Guest, L. Handfield, T. Hanschen (Secretary of Senate), K. Hutchings, G. Iwama (Chair), E. Korkmaz, C. Myers (Recording), K. Mytting, M. Nitz, C. Nolin (Vice Chair), D. Nyce, R. Robinson, D. Ryan, J. Safaei Boroojeny, P. Sanborn, A. Stroet, R. Tait (Acting Dean, CASHS), R. Tallman, S. Wagner, B. Wang, T. Whitcombe, W. Younas, S. Zahir

**Regrets:**

E. Annis, M. Archie, R. Brouwer, L. Copeland (Acting University Librarian), D. Leighton-Stephens, B. Murray, F. Islam, D. McDonald, C. Silva

**Absent:**

K. Kuo, D. Macknak, K. Walske

---

The meeting commenced at 3:30 p.m. Dr. Iwama introduce the new Vice President Research, Dr. Ranjana Bird.

**1.0**      **S-201301.01**  
**Approval of the Agenda**  
Whitcombe

That the agenda for the January 23, 2013 Public Session of Senate be approved as presented.

A Senator suggested that, in relation to the report from the Senate Committee on Academic Policy and Planning, it would be illogical to approve some of the motions on the consent agenda prior to considering some that were on the regular agenda. The following motion was therefore proposed:

**Motion to amend the agenda:**

Whitcombe / Deo

That agenda item 8.0 (Approval of Motions on the Consent Agenda) be moved to become agenda item 9.1.1.

It was requested that motions SCAPP201201.12 to SCAPP201201.14 be removed from the consent agenda and placed on the regular agenda. However, as those motions were for the information of Senate only, it was suggested that the Senator simply ask the questions he had about the motions when they were reached on the agenda, to which he agreed.

CARRIED.

The motion to approve the agenda, as amended, was also CARRIED.

## 2.0 Approval of Senate Minutes

### **S-201301.02**

#### **Senate Minutes of December 12, 2012**

Zahir

That the minutes of the December 12, 2012 Public Session of Senate be approved as presented.  
CARRIED.

### **S-201301.03**

#### **Senate Minutes of November 28, 2012**

Deo

That the minutes of the November 28, 2012 Public Session of Senate be approved as presented.  
CARRIED.

## 3.0 Business Arising from Previous Minutes of Senate

### 3.1 Job description and selection procedures — Vice Provost, Student Engagement **Dale**

Dr. Dale noted that this position was the heir to the Dean of Student Success and Enrolment Management. That area has undergone changes and the new position is a Vice Provost, similar to what other universities are doing. Student Engagement is an appropriate title for the list of duties associated with the position. The selection procedures for this position are similar to those used for recruiting Deans. Dr. Dale indicated that he was seeking to have these documents approved by Senate and that they would then be forwarded to the Board of Governors for consideration. As a result, the following motion was put:

#### **Motion:**

Zahir / Casperson

That the job description and appointment procedures for the position of Vice Provost, Student Engagement be approved.

A Senator suggested that someone representing the interests of Aboriginal engagement should be added to the membership for the selection committee.

#### **Friendly amendment:**

That a representative from the First Nations Centre (for example, the Director) or someone similarly representing the interests of Aboriginal engagement or initiatives be added to the membership for the search committee.

The main motion and amendment were CARRIED.

### 3.2 **S-201301.04**

#### **Creation of a Health Research Institute**

Ryan

That, on the recommendation of the Senate Committee on Research and Graduate Studies, the creation of a Health Research Institute be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

## 4.0 President's Report **Iwama**

Dr. Iwama reported on a number of matters. His report is attached to these minutes as "Appendix I."

## 5.0 Report of the Provost **Dale**

Dr. Dale reported to Senators on the status of current recruitment activities. He noted that the selection committee for the Dean of CASHS would be meeting tomorrow. The Librarian search committee was organized and had identified a search firm but had not yet met. The Green Manager position received very few applications so a search firm had been engaged to develop a larger pool of candidates.

## 6.0 Report of the Registrar

Hanschen

The Registrar provided a report to Senate, which is attached to these minutes as “Appendix II.” He also made a presentation to Senate (attached to these minutes as Appendix III).

## 7.0 Question Period

A Senator asked about the process for parking courses, so Dr. Dale explained the mechanism that was passed by Senate, noting the process had not yet been undertaken.

A Senator indicated he had heard that the report by Deloitte (regarding the possibility of saving money in the post-secondary education sector by sharing services and resources) was near the point of being ready for release, and asked Dr. Iwama if he was able to comment. Dr. Iwama replied that the report has not yet been released and that he expects the Ministry of Advanced Education needs to review and approve the report before that can happen.

The President was asked whether he could provide an update with regard to the fundraising campaign being undertaken. Dr. Iwama responded that the Development Office has a meeting planned with two companies, one from Vancouver and one from the east coast, to discuss the development of a proposal, including the structure and an action plan. He offered to report progress after that meeting.

A Senator asked about the cost to the University of implementing the new website. Dr. Iwama replied that he did not know, but that most of the work was done by UNBC employees so he could attempt to get an estimate of incremental costs.

It was questioned whether there are emergency student scholarships available. Acting Dean Owen responded that there are funds available through the Awards and Financial Aid Office. A student Senator added that the Northern Undergraduate Student Society also offers emergency funds and has a food bank for students.

Clarification with regard to the status of the Sustainability Manager position was sought. The incumbent had involvement with faculty and staff members, and projects were affected by his departure. The Senator noted that the optics were problematic and asked that clarification be provided to help people understand the process that was undertaken in relation to this position, such as why the contract could not have been extended, for instance. Dr. Dale replied to the Senator’s concerns, noting that the University was taken aback by the very small pool of candidates and have engaged a search firm to assist them with recruitment. He also apologized for the lack of a smooth transition with getting a permanent appointment to this position, and asked Senators to share information about this position to any potential candidates.

A Senator asked Senator Nolin how many students were participating in the block courses, and she noted there were 8 students taking all courses, 13 in her course, and 10 in Dr. Neil Hanlon’s course. The Senator asked whether the University planned on expanding block offerings and asked how we could accommodate courses that generally have 80 students in them. Dr. Iwama replied that one university has been teaching this way successfully for 30 years and that he would be happy to discuss those details. He added that it is difficult to mix block teaching with formal ways of scheduling.

## 8.0 S-201301.05

### **Approval of Motions on the Consent Agenda**

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

As a result of the agenda being amended, this motion was moved to become agenda item 9.1.1.

## 9.0 Committee Reports

### 9.1 Senate Committee on Academic Policy and Planning

Dale

**“For Approval” Items:**

**S-201301.06**

**Approval of New Degree — Joint Major in Environmental Studies / Political Science**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new Joint Major in Environmental Studies/Political Science be approved as proposed.

Proposed start date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The Joint Major in Environmental Studies and Political Science is for students who want both a broad understanding of environmental issues and the political knowledge needed to respond to those issues.

The minimum requirement for completion of a Bachelor of Arts with a Joint Major in Environmental Studies and Political Science is 120 credit hours.

### **Elective and Academic Breadth**

Electives at any level in any subject sufficient to ensure completion of a minimum of 120 credit hours including any additional credit hours necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

An executive summary of the proposed changes to the BCMB Curriculum was included for information.

#### **S-201301.07**

#### **Changes to Program Requirements — Biochemistry and Molecular Biology**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the BCMB program description, on pages 77-79 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Biochemistry & Molecular Biology (BSc Program)**

Biochemistry and Molecular Biology (BCMB) investigates how molecules work in living systems. There is no clear line dividing living from non-living systems; rather, there is a gradual increase in complexity from clearly inanimate molecules up to obviously complex organisms. The goal of biochemistry and molecular biology is to

understand how simple, inanimate molecular interactions support life and how living systems are shaped by their molecular foundation. The BCMB degree has two main components: learning about molecules, and learning about the scientific method. The former involves acquiring expertise in the foundations of biochemistry, such as organic and physical chemistry, and then exploring biological molecules and how they operate in living systems. The latter involves exploring how science asks questions to understand the workings of nature, while developing competence in laboratory skills and analysis. These two aspects are linked in that understanding how information is acquired is as important as the information itself, since different experimental systems can yield different insights into complex biological problems.

BCMB majors continue on to successful careers in a diverse range of fields, notably medicine, teaching, pharmacy, the biotechnology industry, science policy, and law. BCMB majors acquire strong skills in laboratory techniques, and are therefore qualified for many kinds of research positions, including graduate programs such as immunology, molecular genetics, and developmental biology. For students with interests in human health but not necessarily its molecular basis, UNBC also offers a degree in Health Science (the BHSc degree), which focuses on the social determinants of health and how health care is delivered. BCMB majors are encouraged to pursue their interests by combining the BCMB degree with minors in other fields, such as computer science, physics, business, or education.

## Major in Biochemistry and Molecular Biology

The major in Biochemistry and Molecular Biology requires students to take at least ~~85~~74 credit hours of Biochemistry and Molecular Biology-oriented courses, of which ~~42~~33 credit hours must be ~~upper-division~~ upper division (i.e., 300 or 400 level). The minimum requirement for completion of a Bachelor of Science with a major in Biochemistry and Molecular Biology is ~~429~~127 credit hours.

~~BIOL 425-3 Applied Genetics and Biotechnology~~  
BCMB 404-3 Proteins and Enzymology  
~~BCMB 409-3 Enzymology~~

One Four of:

BCMB 401-3 Basic Science of Oncology  
BCMB 402-3 Macromolecular Structure  
BCMB 403-3 Advanced Nucleic Acids  
BCMB 405-3 Special Topics in Biochemistry  
BIOL 312-3 Molecular Cell Physiology  
BIOL 323-3 Evolutionary Biology  
BIOL 423-3 Molecular Evolution and Ecology  
BIOL 425-3 Applied Genetics and Biotechnology

### Subject Requirements

Twelve additional credit hours chosen from the following, of which at least 6 credit hours must be at the 300 or 400 level:

Any 200-level or above BCMB, BIOL or CHEM courses

CPSC 450-3 Bioinformatics

HHSC 301-3 Pathophysiology

~~HHSC 430-3 Toxicology and Environmental Health~~

PSYC 317-3 Psychobiology

PSYC 318-3 Sensation and Perception

PSYC 419-3 Neuropsychology

Note: NRES 430-6 can count towards this requirement with permission of the Program Chair.

### Elective and Academic Breadth

Elective credit hours as necessary to ensure completion of ~~429~~ 127 credit hours including any additional credit hours necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

Note: no more than 3 credit hours of continuing education courses may be used towards the BCMB major.

#### **S-201301.08**

#### **Changes to Program Requirements — Biochemistry and Molecular Biology (Honours Degree)**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the degree description for the BCMB Honours Degree, on page 78 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

# BSc Honours – Biochemistry and Molecular Biology

The BSc Honours in Biochemistry and Molecular Biology offers students a higher level of specialization and research experience, especially for students planning to pursue postgraduate work.

Honours students ~~are required to~~ must complete the degree requirements for the BSc – Biochemistry and Molecular Biology Major. In addition

to the total number of credit hours required for the Biochemistry and Molecular Biology Major, each student must complete 6 credit hours of undergraduate thesis course work, normally of BCMB 430-6, under the supervision of a faculty member. Another undergraduate thesis course

can be substituted with approval of the BCMB Curriculum Chair. Students may apply to the BCMB Honours Program after completion of 60 credit hours in the Biochemistry and Molecular Biology major with a Cumulative GPA of not less than 3.33. Meeting these minimum requirements does not guarantee entry to the Honours Program. Entrance to the Honours Program in Biochemistry and Molecular Biology is at the discretion of the BCMB Program, and is contingent on the availability of a faculty member willing to supervise the undergraduate research thesis.

~~The Honours program is available after completed 60 credit hours in the Biochemistry and Molecular Biology Major and attaining a Cumulative GPA of not less than 3.33. Attaining the minimum requirement will not guarantee admission to the Honours program, which will be at the discretion of the Program and contingent on the availability of a faculty member willing to supervise the research thesis.~~ Maintenance of a Cumulative GPA of 3.33 is required to remain in the Honours pProgram.

The minimum requirement for completion of a BSc Honours – Biochemistry and Molecular Biology is ~~435~~ 133 credit hours.

## **S-201301.09**

### **Changes to Program Requirements — Biochemistry and Molecular Biology (Minor)**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the minor requirements for BCMB, on pages 78-79 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

A Senator noted that, on page 91 of 225 of the Senate meeting package, there were two numbers that needed to be corrected. First, in the second-last line of the first paragraph under the heading “2. Proposed revision with changes underlined and deletions indicated clearly:” the phrase “41 credit hours” should be changed to “42 credit hours.” Second, the course “BCMB 255-1” listed under the heading “200 level” should be changed to “BCMB 255-2.”

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The minor in Biochemistry and Molecular Biology is designed to provide students with a core of study in the field of Biochemistry and Molecular Biology. The program of study includes a grounding in chemistry and biology since these are the disciplines from which modern biochemistry and molecular biology arose. The minimum requirement for completion of the minor in Biochemistry and Molecular Biology is ~~44~~ 42 credit hours, of which at least 12 credit hours must be at the upper-division level.

100 Level

BIOL 101-4 Introductory Biology I

BIOL 102-4 Introductory Biology II

CHEM 100-3 General Chemistry I

CHEM 101-3 General Chemistry II

CHEM 120-1 General Chemistry Lab I

CHEM 121-1 General Chemistry Lab II

200 Level

BIOL 210-3 Genetics

CHEM 201-3 Organic Chemistry I

CHEM 203-3 Organic Chemistry II

Note: Students are allowed to double-count all applicable first- and second-year courses; however, they must take upper-division courses for the minor that are not included in their major requirements or upper-division subject requirements to ensure completion of 12 upper-division credit hours outside of their major. Students must ensure that all prerequisites are fulfilled prior to taking a course at the 300 and 400 Level

12 credit hours must be chosen from the following:

BCMB 306-3 Intermediary Metabolism

~~BCMB 307-3 Proteins~~

BCMB 308-3 Biochemistry Lab II

~~BCMB 330-3 Nucleic Acids~~

BCMB 340-3 Physical Biochemistry

BCMB 401-3 Basic Science of Oncology

BCMB 402-3 Macromolecular Structure

BCMB 403-3 Advanced Nucleic Acids

BCMB 404-3 Proteins and Enzymology

BCMB 405-3 Topics in Biochemistry and Molecular Biology

~~BCMB 409-3 Enzymology~~

BIOL 311-3 Cell and Molecular Biology

BIOL 312-3 Molecular Cell Physiology

BIOL 323-3 Evolutionary Biology

BIOL 423-3 Molecular Evolution and Ecology

BIOL 425-3 Applied Genetics and Biotechnology

CHEM 405-3 Topics in Biochemistry

#### **S-201301.10**

##### **Course Deletion — BCMB 307-3**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the course BCMB 307-3 Proteins, on page 194 of the 2012/2013 undergraduate calendar, be deleted as proposed.

Effective date: September 2013

CARRIED (consent agenda).

#### **S-201301.11**

##### **Course Deletion — BCMB 330-3**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the course BCMB 330-3 Nucleic Acids, on page 194 of the 2012/2013 undergraduate calendar, be deleted as proposed.

Effective date: September 2013

CARRIED (consent agenda).

#### **S-201301.12**

##### **Course Deletion — BCMB 409-3**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the course BCMB 409-3 Proteins, on page 195 of the 2012/2013 undergraduate calendar, be deleted as proposed.

Effective date: September 2013

CARRIED (consent agenda).

#### **S-201301.13**

##### **New Course Approval — BCMB 404-3**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course BCMB 404-3 Proteins and Enzymology be approved as proposed.

Proposed semester of first offering: January 2014

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This lecture-based course provides knowledge of contemporary protein biochemistry and emphasizes the importance and role of enzymes in biochemistry and molecular biology. Topics include the structure and function of proteins, protein biotechnology, mechanisms of enzyme action, kinetic analysis of enzymes and regulation of protein activity.

**Prerequisites:** CHEM 204 with a minimum grade of C

**Preclusions:** BCMB 409

#### **S-201301.14**

##### **Changes to Course Credit Hours — BCMB 255-1**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the course credit hours for BCMB 255-1 be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~BCMB 255-1~~ **BCMB 255-2 Biochemistry Lab I** This is a laboratory-based course in which students explore basic biochemical and molecular biological laboratory techniques. Topics include buffers, calculations in biochemistry, enzyme kinetics, and ~~carbohydrates and protein purification~~ purification of carbohydrates and proteins. Techniques include centrifugation, chromatography, spectrophotometry, and electrophoresis.

#### **S-201301.15**

##### **New Course Approval — ENSC 303-3**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course ENSC 303-3 Energy Systems and Sustainability be approved as proposed.

Proposed semester of first offering: September 2014

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course provides an overview of where our energy comes from, the services we derive from energy use, such as heat, motion, and light, and the environmental implications of increasing energy demand. Topics include electricity and fuel production, energy demand for buildings, transportation and industry, and the potential of electrification and energy efficiency to reduce energy demand. The course examines future energy scenarios that limit greenhouse gas emissions through both changes in how energy is used and the integration of low-carbon energy sources.

**Prerequisites:** 30 credit hours

An executive summary of the proposed changes to the ORTM Curriculum was included for information.

#### **S-201301.16**

##### **Changes to Program Requirements — BA in Nature-Based Tourism Management**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the program requirements for the BA in Nature-Based Tourism Management and the Minor in Outdoor Recreation and Tourism Management, on pages 164-166 of the 2012/2013 undergraduate calendar, be revised as proposed.

Effective date: September 2013

It was noted that another motion associated with these two motions (to change the breadth requirement for ORTM) had been postponed at the last meeting of the Senate Committee on Academic Policy and Planning (SCAPP) as a result of there being nobody from the program in attendance to respond to questions. It was thus asked whether this motion should also be postponed until that motion was dealt with by SCAPP. It was subsequently decided that the motion need not be postponed, but the following motion was proposed:

**S-201301.16A:**

Ryan / Zahir

That the section regarding the breadth requirement (on page 122 of 225 of the Senate meeting package) not be stricken from the calendar text as requested until the associated motion to change the breadth requirement is approved by Senate.

CARRIED.

A Senator from the Department of Geography noted that many of the titles for the Geography courses in the updated calendar text being proposed were out of date. The Program Chair agreed to make these revisions.

The main motion, with the approved amendments to the calendar text, was also CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Nature-Based Tourism Management  
(BA Program)**

Website: [www.unbc.ca/ortm](http://www.unbc.ca/ortm)

Tourism has become the largest industry and employer in the world. One of the most important and fastest growing sectors in tourism is nature-based tourism, which comprises attractions, activities and experiences involving interaction with natural and cultural resources (e.g., ecotourism, adventure tourism, indigenous tourism). This degree examines the various components of the nature-based tourism system, giving emphasis to the entrepreneurial perspectives and sustainability issues in the industry. Reflecting the interdisciplinarity of the field, and related career directions, students select from the following Areas of Specialization: marketing and entrepreneurship, outdoor education and leadership, indigenous/cultural tourism, or environment and society. ~~Students also choose to specialize in other content areas and disciplines closely related to nature-based tourism, such as tourism marketing, indigenous tourism, geography, international studies, environmental planning, political science, and natural resource management.~~

Major in Nature-Based Tourism Management

~~Undergraduate students are required to complete a minimum of thirteen (13) Outdoor Recreation & Tourism Management courses (39 credit hours).~~

Students must complete a minimum of 120 credit hours through (a) the common degree requirements, (b) the requirements of an Area of Specialization and (c) elective credit hours in any subject.

~~The minimum requirement for completion of a Bachelor of Arts with a major in Nature-Based Tourism Management is 122 credit hours.~~

## Course Prerequisites

Students should review all proposed course selections in advance to make sure course prerequisites are taken where needed.

### ~~\*\*Electives and Academic Breadth~~

~~Electives at any level in any subject sufficient to ensure completion of a minimum of 1220 credit hours including any additional credits necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).~~

~~\*\*NOTE: The text proposed for this section was the following; however, by motion of Senate (motion S-201301.16A), it will not be revised until an associated motion to change the breadth requirement is approved by Senate:~~

### ~~Electives and Academic Breadth~~

~~Electives at any level in any subject sufficient to ensure completion of a minimum of 1220 credit hours including any additional credits necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).~~

### ~~Optional Streams~~

~~The following streams in the Nature-Based Tourism degree provide students with the opportunity to focus course selections, towards possible career options. Students are not required to follow these particular streams. Courses with NOLS prefixes in the Outdoor Education and Leadership stream are taught through a partnership agreement with the National Outdoor Leadership School (NOLS). Students must enrol in a NOLS field-based program in order to access these courses, and there are additional tuition costs for such a program.~~

#### ~~Tourism Marketing Stream~~

~~COMM 100-3 Introduction to Canadian Business  
 ECON 100-3 Microeconomics  
 COMM 230-3 Organizational Behaviour  
 COMM 240-3 Introduction to Marketing  
 COMM 302-3 Entrepreneurship  
 COMM 342-3 Services Marketing  
 COMM 343-3 Behavioural Marketing  
 ORTM 408-3 The Psychology of Recreation and Tourism~~

~~At least two of:~~

~~NOLS 301-2 Group Leadership Techniques~~  
~~NOLS 302 (2-6) Wilderness Skills Practicum~~  
~~NOLS 303-2 Risk Management, Assessment and Decision Making~~

#### **BA Honours – Nature-Based Tourism Management**

The Honours in Nature-Based Tourism Management offers students a higher level of education and substantial research experience for proceeding to postgraduate studies.

~~To be admitted to enter the Honours degree program~~, students must have completed 60 credit hours and obtained a minimum Cumulative GPA of 3.33. Attaining the minimum requirement will not guarantee ~~admission~~ entry into the Honours ~~program~~, which will be at the discretion of the Outdoor Recreation and Tourism Management Program. Maintenance of a Cumulative GPA of 3.33 is required to remain in the Honours ~~program~~.

Honours students ~~are required to~~ must complete the degree requirements for the BA in Nature-Based Tourism Management. In addition, each student must also complete an additional 6 credit hours in the form of an undergraduate thesis (NRES 430-6) under the supervision of a faculty member.

Note: Students are responsible to find their own undergraduate thesis research supervisor. Faculty members are under no obligation to supervise ~~h~~ Honours students.

#### **Minor in Outdoor Recreation and Tourism Management**

The minor in Outdoor Recreation and Tourism Management is designed to afford students an opportunity to gain foundational knowledge in tourism and recreation while pursuing another major. The minor requires students to take a total of 18 credit hours. The minor has three required courses basic to the field of Outdoor Recreation and Tourism Management (~~nine 9~~ credit hours) and a set of elective courses (minimum of ~~nine 9~~ credit hours). A maximum of two courses (~~six 6~~ credit hours) used to fulfill program requirements for a major (or another minor) may also be used to fulfill requirements for this minor.

#### Required Courses

~~ORTM 100-3 Leisure in Life~~ Foundations of Outdoor Recreation and Tourism

One of:

~~ORTM 200-3 Sustainable Recreation and Tourism~~  
~~ORTM 202-3 Ecotourism and Adventure Tourism~~  
ORTM 205-3 Outdoor Skills and Leadership  
~~ORTM 204-3 Visitor Behavior~~  
~~ORTM 300-3 Recreation and Tourism Impacts~~

#### Elective Courses

Nine credit hours from the following list with a minimum of ~~six 6~~ credit hours at the 400 level:

~~ORTM 301-3 Environmental Interpretation~~  
~~ORTM 305-3 Protected Area Planning and Management~~  
~~ORTM 306-3 Indigenous Tourism and Recreation~~  
ORTM 332-3 Outdoor, Education and Leadership-Environmental, and Experiential Education

ORTM 403-3	International Dimensions in Recreation and Tourism
ORTM 407-3	Recreation, Tourism and Communities
ORTM 408-3	The Psychology of Recreation and Tourism
ORTM 412-3	Issues and Trends in Recreation and Tourism
ORTM 414-3	Polar Tourism and Recreation
ORTM 409-3	<u>Critical Approaches to Outdoor Recreation Activities</u>

### **S-201301.17**

#### **Changes to Program Requirements — BSc Natural Resources Management (Major in Outdoor Recreation and Conservation and Minor in Forest Recreation)**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the program requirements for the BSc Natural Resources Management (Major in Outdoor Recreation and Conservation and the Minor in Forest Recreation), on pages 159-161, 162 of the 2012/2013 undergraduate calendar, be revised as proposed.

Effective date: September 2013

It was noted that another motion associated with these two motions (to change the breadth requirement for ORTM) had been postponed at the last SCAPP meeting as a result of there being nobody from the program in attendance to respond to questions. It was thus asked whether this motion should also be postponed until that motion was dealt with by SCAPP. It was subsequently decided that the motion need not be postponed, but the following motion was proposed:

### **S-201301.17A:**

Ryan / Deo

That the section regarding the breadth requirement (on page 134 of 225 of the Senate meeting package) not be stricken from the calendar text as requested until the associated motion to change the breadth requirement is approved by Senate.

CARRIED.

A Senator from the Department of Geography noted that many of the titles for the Geography courses in the updated calendar text being proposed were out of date. The Program Chair agreed to make these revisions.

The main motion, with the approved amendments to the calendar text, was also CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **Major in Outdoor Recreation and Conservation**

This BSc Major in Outdoor Recreation and Conservation focuses on the natural and ~~social~~ human dimensions of outdoor recreation and conservation planning and management within an integrated natural resource management framework. Emphasis in this major is placed on planning and managing environmentally and culturally sensitive recreation and conservation opportunities in natural environment settings.

Northern British Columbia provides an unparalleled setting for learning, teaching, and researching the various aspects of outdoor recreation and conservation management. British Columbia has a large land base and a range of natural environments that support a vast array of dispersed and concentrated outdoor recreation opportunities. The program examines the components of planning and managing recreation opportunities through the study of such subject areas as ecology, integrated resource management, planning, protected areas management, ~~tourism management~~, environmental studies and geography (e.g., GIS).

~~Undergraduate students are required to take a minimum of 12 Outdoor Recreation and Tourism Management courses (36 credit hours). Of these, 9 courses are upper division.~~

Students must complete a minimum of 120 credit hours through (a) the common degree requirements, (b) the Area of Specialization requirements and (c) elective credit hours in any subject.

~~The minimum requirement for the completion of a Bachelor of Science with a major in Outdoor Recreation and Conservation is 120 credit hours.~~

## **Program Requirement Common Degree Requirements**

### **Lower-Division Requirement**

#### **100 Level**

BIOL 101-4 Introductory Biology I  
BIOL 102-4 Introductory Biology II  
CHEM 100-3 General Chemistry I  
CHEM 101-3 General Chemistry II  
or PSYC 101-3 Psychology as a Science  
or PHYS 100-4 Introduction to Physics I  
ECON 100-3 Microeconomics  
or ENVS 101-3 Introduction to Environmental Citizenship  
or FNST 100-3 The Aboriginal Peoples of Canada  
or GEOG 100-3 Environments and People: The Geography of Natural Hazards  
NREM 100-3\* Field Skills  
ORTM 100-3 Leisure in Life Foundations of Outdoor Recreation and Tourism Management

~~Students with little or no computer experience are strongly encouraged to take CPSC 150-3 or CPSC 110-3.~~

\*Note: Applications for exemption from NREM 100-3 must be made within the first year of study in any Natural Resource Management major.

#### **200 Level**

BIOL 201-3 Ecology  
ECON 205-3 Statistics for the Social and Management Sciences  
or STAT 240-3 Basic Statistics  
GEOG 204-3 Introduction to GIS for the Social Sciences  
or ~~GEOG 205-3 Cartography and Geomatics~~  
or GEOG 300-3 Geographic Information Systems  
NREM 203-3 Resource Inventories and Measurements  
or NREM 204-3 Introduction to Wildlife and Fisheries  
or GEOG 210-3 Geomorphology  
NREM 210-4 Integrated Resource Management  
ORTM 200-3 Sustainable Recreation and Tourism  
ORTM 205-3 Outdoor Skills and Leadership  
~~ORTM 204-3 Visitor Behaviour~~

### **Upper-Division Requirement**

Six credit hours from the following:

~~ORTM 306-3 Indigenous Tourism and Recreation~~  
~~ORTM 332-3 Outdoor Education and Leadership~~  
~~ORTM 403-3 International Dimensions in Recreation and Tourism~~  
~~ORTM 407-3 Recreation, Tourism and Communities~~  
~~ORTM 408-3 The Psychology of Recreation and Tourism~~  
~~ORTM 414-3 Polar Tourism and Management~~  
~~ORTM 433 (1-6) Field School II~~  
~~ORTM 440 (2-6) Internship~~  
~~ORTM 498 (1-3) Special Topics~~  
~~ORTM 499 (1-6) Independent Study~~  
~~NOLS 300-2 Environmental Ethics, Leave No Trace and Leadership~~  
~~NOLS 301-2 Group Leadership Techniques~~  
~~NOLS 302 (2-6) Wilderness Skills Practicum~~  
~~NOLS 303-2 Risk Management, Assessment and Decision Making~~

~~Only 3 credit hours of any combination of ORTM 332, ORTM 433, ORTM 440, ORTM 498, ORTM 499 and NOLS prefixed courses can count towards this category. Any additional credit can be used as elective credit.~~

#### **300 Level**

~~ENPL 305-3 Environmental Impact Assessment~~  
NREM 303-3 First Nations' Approaches to Resource Management  
or FNST 304-3 First Nations Environmental Philosophy and Knowledge

~~NREM 306-3 Society, Policy and Administration~~  
~~ORTM 300-3 Recreation and Tourism Impacts~~  
~~ORTM 301-3 Environmental Interpretation~~  
ORTM 305-3 Protected Area Planning and Management  
ORTM 310-3 Research Methods and Analysis  
~~ORTM 332-3 Outdoor, Environmental, and Experiential Education~~  
ORTM 333-3 Field School

One of:

~~BIOL 301-3 Systematic Botany~~  
or ~~FSTY 201-4 Plant Systems~~  
~~BIOL 307-3 Ichthyology and Herpetology~~  
~~BIOL 308-3 Ornithology and Mammalogy~~  
~~GEOG 300-3 Geographic Information Systems~~

#### **400 Level**

NREM 400-4 Natural Resources Planning  
NREM 411-3 Environmental and Professional Ethics  
ORTM 400-3 Conservation Area Design and Management  
~~ORTM 410-3 Research Methods and Analysis~~  
ORTM 412-3 Issues and Trends in Recreation and Tourism

One of:

~~BIOL 404-3 Plant Ecology~~  
~~BIOL 411-3 Conservation Biology~~  
~~BIOL 412-3 Wildlife Ecology~~  
~~BIOL 420-3 Animal Behaviour~~  
~~ENVS 325-3 Global Environmental Change: Science and Policy~~  
~~NREM 410-3 Watershed Management~~  
~~GEOG 432-3 Remote Sensing~~

Two of: Six credit hours from the following:

~~ORTM 306-3\* Indigenous Tourism and Recreation~~  
~~ORTM 332-3 Outdoor Education and Leadership~~  
~~ORTM 403-3\* International Dimensions in Recreation and Tourism~~  
~~ORTM 407-3\* Recreation, Tourism and Communities~~  
~~ORTM 408-3\* The Psychology of Recreation and Tourism~~  
~~ORTM 409-3\* Critical Approaches to Outdoor Recreation Activities~~  
~~ORTM 414-3\* Polar Tourism and Recreation~~  
~~ORTM 433 (1-6) Field School II~~  
~~ORTM 440 (2-6) Internship~~  
~~ORTM 498 (1-3) Special Topics~~  
~~ORTM 499 (1-6) Independent Study~~  
~~NOLS 300-2 Environmental Ethics, Leave No Trace and Leadership~~  
~~NOLS 301-2 Group Leadership Techniques~~  
~~NOLS 302 (2-6) Wilderness Skills Practicum~~  
~~NOLS 303-2 Risk Management, Assessment and Decision Making~~

Only 3 credit hours of any combination of ORTM 332, ORTM 433, ORTM 440, ORTM 498, ORTM 499 and NOLS prefixed courses can count towards this category. Any additional credit can be used as elective credit.

\*Note: Students should note that some senior-level ORTM classes are offered in alternating years.

#### **Area of Specialization**

Students must choose one of the following Areas of Specialization. Courses used to fulfill common degree requirements above may not be used to satisfy an Area of Specialization requirement.

1. Environmental Design and Planning
2. Conservation Education
3. Natural Science
4. Applications of Recreation and Tourism

#### **Environmental Design and Planning**

ENPL 104-3 Introduction to Planning  
ENPL 204-3 Principles and Practices of Planning

BIOL 411-3 Conservation Biology

DELETE

**\*\*Electives and Academic Breadth**

Elective credit hours as necessary to ensure completion of a minimum of 120 credit hours including any additional credits necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

**\*\*NOTE:** The text proposed for this section was the following; however, by motion of Senate (motion S-201301.17A), it will not be revised until an associated motion to change the breadth requirement is approved by Senate:

~~Electives and Academic Breadth Requirements~~

~~Electives at any level in any subject sufficient to ensure completion of a minimum of 120 credit hours including any additional credits necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).~~

~~**Optional Stream**~~

~~The following stream in the Outdoor Recreation and Conservation major provides students with the opportunity to focus course selections towards a leadership and outdoor education career path. Courses with NOLS prefixes are taught through a partnership agreement with the National Outdoor Leadership School (NOLS). Students must enrol in a NOLS field-based program in order to access these courses, and there are additional tuition costs for such a program. Students are not required to follow this particular stream.~~

~~**Outdoor Education and Leadership Stream**~~

~~ENVS 101-3 Introduction to Environmental Citizenship~~  
~~EDUC 101-3 Introduction to Education~~  
~~EDUC 201-3 Education Theory and Practice~~  
~~ORTM 202-3 Ecotourism and Adventure Tourism~~  
~~ORTM 301-3 Environmental Interpretation~~  
~~ORTM 332-3 Outdoor Education and Leadership~~  
~~ORTM 333-3 Field School~~  
~~ORTM 433 (1-6) Field School II~~  
~~NOLS 100-4 Natural History of Regional Ecosystems~~  
~~NOLS 300-2 Environmental Ethics, Leave No Trace and Leadership~~  
~~NOLS 301-2 Group Leadership Techniques~~  
~~NOLS 302 (2-6) Wilderness Skills Practicum~~  
~~NOLS 303-2 Risk Management, Assessment and Decision Making~~

**BSc Honours – Outdoor Recreation and Conservation**

The Honours in Natural Resource Management (Outdoor Recreation and Conservation) offers students a higher level of education and substantial research experience for proceeding to postgraduate studies.

To be admitted to enter the Honours degree program, students must have completed 60 credit hours and obtained a minimum Cumulative GPA of 3.33. Attaining the minimum requirement will not guarantee admission entry into the Honours program, which will be at the discretion of the Outdoor Recreation and Tourism Management Program. Maintenance of a Cumulative GPA of 3.33 is required to remain in the Honours program.

Honours students are required to complete the degree requirements for the BSc in NRM (Outdoor Recreation and Conservation). In addition, each student must also complete an additional 6 credit hours in the form of an undergraduate thesis (NRES 430-6) under the supervision of a faculty member.

Note: Students are responsible to find their own undergraduate thesis research supervisor. Faculty members are under no obligation to supervise Honours students.

[ENTRY for Major in Wildlife and Fisheries and Minor in Earth Sciences OMITTED]

### **Minor in Forest Recreation**

The Minor in Forest Recreation provides natural resource management students and others with an opportunity to gain a foundation and expertise in the specialized aspects of forest recreation while pursuing another major. The minor requires students to take a total of 18 credit hours. The minor has three required courses basic to the field of Forest Recreation (nine 9 credit hours) and a set of elective courses (minimum of nine 9 credit hours).

#### **Required Courses**

ORTM 100-3 ~~Leisure in Life~~ Foundations of Outdoor Recreation and Tourism  
ORTM 200-3 Sustainable Recreation and Tourism  
ORTM 300-3 Recreation and Tourism Impacts

#### **Elective Courses**

Nine credit hours from the following list with a minimum of ~~three~~ 3 credit hours at the 400 level:

~~ORTM 301-3 Environmental Interpretation~~  
ORTM 202-3 Ecotourism and Adventure Tourism  
ORTM 305-3 Protected Area Planning and Management  
ORTM 306-3 Indigenous Tourism and Recreation  
~~ORTM 332-3 Outdoor Education and Leadership~~  
ORTM 400-3 Recreation and Tourism Ecology, Management and Design  
ORTM 407-3 Recreation, Tourism and Communities  
ORTM 412-3 Issues and Trends in Outdoor Recreation and Tourism  
ORTM 409-3 Critical Approaches to Outdoor Recreation Activities  
ORTM 498-(1-3) Special Topics  
ORTM 499-(1-6) Independent Study

A maximum of two courses (~~six~~ 6 credit hours) used to fulfill program requirements for a major (or another minor) may also be used to fulfill requirements for this minor.

#### **S-201301.18**

##### **Course Deletion — ORTM 204-3**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the course ORTM 204-3 Visitor Behaviour, on page 265 of the 2012/2013 undergraduate calendar, be deleted as proposed.

Effective date: September 2013

CARRIED (consent agenda).

#### **S-201301.19**

##### **Course Deletion — ORTM 301-3**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the course ORTM 301-3 Environmental Interpretation, on page 265 of the 2012/2013 undergraduate calendar, be deleted as proposed.

Effective date: September 2013

CARRIED (consent agenda).

#### **S-201301.20**

##### **New Course Approval — ORTM 205-3**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course ORTM 205-3 Outdoor Skills and Leadership be approved as proposed.

Proposed semester of first offering: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course focuses on the development of outdoor skills and leadership used in providing travel and recreation experiences in natural settings. Students develop skills in planning and managing outdoor activities. Typical topics include communication, risk management, group dynamics, coaching, leadership styles, and environmental ethics. Students are expected to come with basic personal equipment and outdoor clothing suitable to the season.

#### **S-201301.21**

##### **New Course Approval — ORTM 409-3**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course ORTM 409-3 Critical Approaches to Outdoor Recreation Activities be approved as proposed.

Proposed semester of first offering: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This seminar course critically questions and creatively reconsiders the nature of outdoor recreation activities as related to contemporary, and interrelated, social and environmental issues. The course is firmly grounded in recreation and leisure studies literature offering anthropological, critical, historical, and socio-ecological interpretations of particular activities (e.g., canoeing, rock climbing, mountaineering), and involving concepts such as identity, place, skill, and community. The course may involve practical experiences and field trips to inform academic content, but these are not the focus.

Prerequisites: ORTM 100-3 and any 300-level ORTM course, or permission of the instructor.

#### **S-201301.22**

##### **Changes to Degree Requirements — Bachelor of Health Sciences**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the degree requirements for the Bachelor of Health Sciences (removal of BCMB 307-3 and move POLS 403-3 from a required course to credit option) be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Page 147, 2012/2013 Calendar 1<sup>st</sup> Column**

### **General Requirements**

To be awarded the BHSc degree, students are required to complete 122 credit hours of University-level courses. This consists of ~~59~~ 56 credit hours of common requirements for all BHSc students, with the remainder coming from the following Majors, and electives:

**Biomedical Studies:** Students take ~~48~~ 45 credit hours of courses from the Biomedical Studies major and ~~45~~ 21 elective credit hours.

**Community and Population Health - Aboriginal and Rural Health:** Students take ~~33~~ 30 credit hours from the common course requirements for both Community and Population Health Majors, as well as a minimum of 12 credit hours (6 specified, 6 with some choice) in Aboriginal and Rural Health-related courses. The remaining ~~48~~ 21 credit hours are obtained from elective credit hours.

**Community and Population Health - Environmental Health:** Students take ~~33~~ 30 credit hours from the common course requirements for both Community and Population Health Majors, as well as a minimum of 12 credit hours (6 specified, 6 with some choice) in Environmental Health-related courses. The remaining ~~48~~ 21 credit hours are obtained from elective credit hours.

**Page 148 2012/2013 Calendar

**Major in Community and Population Health-Aboriginal and Rural Health**

Students must take:

ENPL 313-3	Rural Community Economic Development
FNST 315-3	Aboriginal Health Management

Students must take an additional 6 credit hours from the following list (please note that some of these courses may require additional prerequisites):

ANTH 200-3	Biological Anthropology
ANTH 201-3	Medical Anthropology
ECON 410-3	Health Economics
<del>POLS 403-3</del>	<del>Social and Health Policy and Administration</del>
PSYC 417-3	Behaviour Modification
SOCW 440-3	Social Work and Mental Health
SOCW 441-3	Social Work and Substance Abuse
SOCW 443-3	Medical Social Work

## Major in Community and Population Health-Environmental Health

Students must take:

ENPL 205-3 Environment and Society  
ENSC 308-3 Northern Contaminated Environments

Students must take an additional 6 credit hours from the following list (please note that some of these courses may require additional prerequisites):

ECON 410-3 Health Economics  
ENPL 208-3 First Nations Community and Environmental Planning  
ENPL 304-3 Mediation, Negotiation and Public Participation  
ENVS 306-3 Human Ecology  
HIST 360-3 An Introduction to Environmental History  
HHSC 430-3 Toxicology and Environmental Health  
INTS 470-3 International Environmental Policy

##### **Major in Community and Population Health – Environmental Health**

Students must take:

ENPL 205-3 Environment and Society  
ENSC 308-3 Northern Contaminated Environments

Students must take an additional 6 credit hours from the following list (please note that some of these courses may require additional prerequisites):

ECON 410-3 Health Economics  
ENPL 208-3 First Nations Community and Environmental Planning  
ENPL 304-3 Mediation, Negotiation and Public Participation  
~~ENVS 306-3 Human Ecology~~  
HIST 360-3 An Introduction to Environmental History

#### **S-201301.24**

#### **Changes to Calendar Description — Northern Collaborative Baccalaureate Nursing Program (Immunization Recommendations)**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the calendar description for the Northern Collaborative Baccalaureate Nursing Program (Immunization recommendations), on page 172 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **Immunization and CPR Certification**

All students accepted into the NCBNP are sent documentation and information regarding immunization policies. Once accepted into ~~to~~ the Program, all students must submit:

- ~~record of immunization status. Current status for the following immunizations is strongly recommended: diphtheria, tetanus, poliomyelitis, measles, mumps, rubella, hepatitis B and varicella. A Mantoux test (PPD) for tuberculosis is also strongly recommended. Completed immunization forms must be submitted to the Admissions Office at the institution the student is currently attending prior to Sept 30 in the first year of attendance. Failure to do so may result in the student not being allowed to practice in the clinical setting.~~
- A record of immunization status. The following immunizations are strongly recommended and the current status of each is to be submitted:
  - Diphtheria, tetanus, poliomyelitis, measles, mumps, rubella, hepatitis B and varicella.
  - A Mantoux test (PPD) for tuberculosis
  - Meningococcal C conjugate for those born on or after January 1, 1988
  - Yearly Influenza vaccine. Submission deadline to be announced annually based on release date of vaccine.

Completed immunization forms must be submitted to the Admissions Office at the institution the student is currently attending prior to Sept 30 in the first year of attendance. Failure to do so may result in the student not being allowed to practice in the clinical setting.

- Documentation of CPR certification, level C, which must be successfully maintained throughout the program. Proof of CPR certification (and re-certification, as needed) must be submitted prior to commencement of classes.
- CPR must be recertified every two years regardless of expiry date on the card.

#### **S-201301.25**

#### **Changes to Calendar Description — BSc Honours – Psychology**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the calendar description for BSc Honours – Psychology, on page 181 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

A Senator asked whether the CASHS honours programs met the requirements of the CSAM policy on honours degree requirements. The Chair of the Department of Psychology responded that she did not know, as she was unfamiliar with the CSAM honours degree policy requirements. It was suggested that the matter of an institution-wide policy regarding honours degree requirements be discussed at the next meeting of SCAPP. Dr. Dale agreed to add this matter as an agenda item for the next meeting of SCAPP.

CARRIED.

**Action:** Ms. Myers to add this item to the agenda for the next meeting of SCAPP.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Each student must complete a thesis ~~project~~ (PSYC 490-3 (Honours Thesis I), and PSYC 495-3 (Honours Thesis II)) under the supervision of a faculty member. ~~Admission Entry~~ to the Honours Program takes place after the end of the second year (i.e., upon completion of at least 60 credit hours) and requires a minimum ~~Cumulative~~ GPA of 3.33 calculated on the last 60 credit hours completed at the time of declaration to the Honours Program. Attaining the minimum requirement does not guarantee ~~admission entry~~ to the Honours Program, which will be at the discretion of the Department. To remain in the Honours Program students must maintain a minimum ~~Semester Cumulative~~ GPA of 3.33 to be calculated at the end of each semester as well as receive no grade lower than a C+ in any course after ~~admittance entry~~ to the Honours Program.

#### **S-201301.26**

#### **Renewal of Exchange Agreement — University of Dundee and the University of Northern British Columbia**

Hutchings

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the renewal of Memorandum of Agreement between the University of Dundee and the University of Northern British Columbia be approved as proposed.

Effective date: January 2013

A Senator noted that, in this agreement (on page 167 of 225 of the Senate meeting package), there was a phrase which read “examination of issues related to XXXXXX” and that this should be amended before the agreement goes forward.

CARRIED.

#### **“For Information” Items:**

#### **SCAPP201301.12**

#### **Changes to Calendar Course Description and Prerequisites — BCMB 401-3**

Whitcombe

That the changes to the calendar course description and prerequisites for BCMB 401-3 Oncology, on page 194 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

BCMB 401-3 Basic Science of Oncology This is a lecture-based course designed to provide insight into ~~our basic understanding of~~ the biological chemistry of cancer. Major topics include chemical carcinogenesis, genomic instability, oncogenes and tumor suppressor genes, cell growth, apoptosis, tumor progression and metastasis, tumor angiogenesis, hormones, viruses, and drug resistance. This course also provides an in-depth look at the advanced technology used in controlling the disease, including immunotherapy and therapeutic approaches ~~in for~~ controlling gene expression.  
~~Prerequisites: BCMB 330-3 or CHEM 330-3 BIOL 311-3 with a minimum grade of C in all prerequisite courses~~  
Prerequisites: BCMB 330-3 or CHEM 330-3 BIOL 311-3 with a minimum grade of C in all prerequisite courses  
~~Precluded: CHEM 405-3~~

#### **SCAPP201301.13**

#### **Changes to Course Prerequisites — BCMB 402-3**

Whitcombe

That the change(s) to the course prerequisite for BCMB 402-3 Macromolecular Structure, on page 195 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### BCMB 402-3 Macromolecular Structure

This is a lecture-based course designed to provide students with an understanding of the theory behind structural techniques used in biochemical laboratories. Topics include X-ray crystallography, nuclear magnetic resonance spectroscopy and electron microscopy. Students are expected to develop an understanding of the theory and application of these techniques and technical considerations. Students also learn how to judge the quality of data.

#### Prerequisites:

~~(CHEM 307 Minimum Grade of C or BCMB 307 Minimum Grade of C ) and (CHEM 330 Minimum Grade of C or BCMB 330 Minimum Grade of C )~~

CHEM 204-3 with a minimum grade of C

#### **SCAPP201301.14**

#### **Changes to Calendar Course Description and Prerequisites — BCMB 403-3**

Whitcombe

That the changes to the calendar course description and prerequisites for BCMB 403-3 Advanced Nucleic Acids, on page 195 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

BCMB 403-3 Advanced Nucleic Acids This is a lecture-based course designed to provide in-depth knowledge on advanced topics in nucleic acid biochemistry. Topics include mechanistic analysis of nucleic acid metabolism; the RNA world hypothesis and theories of the origin of life; epigenetics; specificity and role of polymerases and repair pathways; replication and recombination mechanisms; RNA structural motifs and physical processing in gene expression; structure and function of non-coding RNA; silencing and micro RNA; catalytic RNA molecules; and ~~technological~~ applications of RNA ~~molecules~~.

~~Prerequisites: BCMB 330-3 or CHEM 330-3~~ CHEM 204-3 with a minimum grade of C  
in all prerequisite courses

~~Precluded: CHEM 405-3~~

#### **SCAPP201301.16**

#### **Changes to Course Title and Calendar Course Description — ENSC 302-3**

Whitcombe

That the change(s) to the course title and calendar course description for ENSC 302-3 Energy Development, on page 228 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### ENSC 302-3 Low Carbon Energy Development

~~This course provides aAn overview of different types low-carbon energy sources uses and the environmental consequences of development. The course will covers global resources, with a focus on energy development in Western Canada British Columbia with respect to oil, gas, hydro, and coal. Alternative energy futures will also be examined. Topics include environmental, economic and social aspects of nuclear, bioenergy, solar, geothermal, wind, hydro, and ocean energy.~~

Prerequisites: 30 credit hours  
Precluded: ENPL 302-3

### **SCAPP201301.17**

#### **Changes to Calendar Course Description and Prerequisites — ENSC 418-3**

Whitcombe

That the change(s) to the course description and prerequisites for ENSC 418-3 Environmental Measurement and Analysis, on page 229 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **ENSC 418-3 Environmental Measurement and Analysis**

This is a capstone course for Environmental Science and Environmental Engineering Majors. It is a quantitative laboratory and field-based course focusing on advanced environmental measurement and analysis of atmospheric, aquatic, and terrestrial systems. The approach is integrative and problem-oriented; students may examine natural and/or managed systems, including engineered systems (e.g., waste management) and systems impacted by anthropogenic activity (e.g., contamination-).

*Prerequisites:* STAT 240-3 or STAT 371-3, ~~ENSC 308-3 or ENSC 200-3~~, 200 level 3 credit Chemistry, FSTY 205-3 or GEOG 210-3, and 90 credit hours or permission of the instructor

*Strongly recommended:* BIOL 203-3, ENSC 201-3, ENSC 202-3, ENSC 308-3

*Precluded:* ENV 418-3

### **SCAPP201301.18**

#### **Changes to Calendar Course Description and Prerequisites — ENSC 452-3**

Whitcombe

That the change(s) to the calendar course description and prerequisites for ENSC 452-3 Reclamation and Remediation of Disturbed Environments, on page 229 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **ENSC 452-3 Reclamation and Remediation of Disturbed Environments**

This course takes an integrative, scientific approach to the remediation and reclamation of drastically disturbed environments. Industrial activity and chemical spills can result in the contamination of soil, surface water, and groundwater. In addition, some industrial activities such as mining can cause large scale disturbances to the landscape, potentially impacting both terrestrial and aquatic systems. The focus is on the remediation and reclamation of terrestrial systems, but aquatic systems ~~will be~~ are also included.

*Prerequisites:* ~~a~~Any second-year 200-level 3-credit hour Chemistry course, FSTY 205-3, and 60 credit hours

*Recommended:* ENSC 308-3 ~~and FSTY 455-3~~

### **SCAPP201301.26**

#### **Changes to Course Title — ORTM 100-3**

Whitcombe

That the change(s) to the course title for ORTM 100-3 Leisure in Life, on page 265 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

ORTM 100-3 Leisure in Life Foundations of Outdoor Recreation and Tourism

This course introduces the foundations of outdoor recreation and tourism from the perspective of both the natural and social sciences. Content includes the history and philosophy of the concept of leisure, the role of leisure, recreation and tourism in students' lives and Western culture, outdoor recreation and tourism in integrated resource management, and current delivery systems.

Precluded: RRT 201-3 or RRT 203-3

**SCAPP201301.27**

**Changes to Course Title and Calendar Course Description — ORTM 332-3**

Whitcombe

That the changes to the course title and calendar course description for ORTM 332-3 Outdoor Education and Leadership, on page 266 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

ORTM 332-3 Outdoor, ~~Education and Leadership~~ Environmental, and Experiential Education

~~This course explores theory and practice of pedagogy and leadership used in providing travel and recreation experiences in outdoor settings~~ the historical, theoretical, and practical foundations of outdoor, environmental, and experiential education. It focuses on conventional and innovative applications and models of these techniques and philosophies for personal, social, and environmental learning. It bridges theory and practice in safe field-based learning environments. The physical setting as well as the semester in which the course is offered may alter course content from year to year. The course may be repeated when a substantial difference in curriculum exists.

Prerequisites: Upper-division standing

**SCAPP201301.28**

**Changes to Prerequisites — ORTM 407-3**

Whitcombe

That the change(s) to the prerequisites for ORTM 407-3 Recreation, Tourism and Communities, on page 266 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

ORTM 407-3 Recreation, Tourism and Communities

This course assesses the relationship between tourism and recreation and local communities as well as collaborative techniques for involving communities in tourism consultation processes. It covers topics such as the concepts of communities and stakeholders, hosts and guests, the relationship between community involvement and tourism, community attitudes towards tourism development and emerging approaches ~~towards~~ collaboration and partnerships.

Prerequisites: ~~ORTM 204-3 and a~~ Any 300-level ORTM course or any 200-level ENPL course

Precluded: ORTM 498-3 (2005-2007) Recreation, Tourism and Communities

**SCAPP201301.29**

**Changes to Course Number (Year Level) and Prerequisites — ORTM 410-3**

Whitcombe

That the change(s) to the course number (year level) and prerequisites for ORTM 410-3 Research Methods and Analysis, on page 266 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

ORTM 440310-3 Research Methods and Analysis

This course examines contemporary research approaches and methods using a variety of examples from the natural and social sciences focusing on outdoor recreation and tourism ~~examples~~. Topics include the research process and quantitative and qualitative approaches to research. The class incorporates an applied project or projects for which data will be collected and analyzed in a mix of lab and lecture formats.

Prerequisites: ~~ORTM 300-3~~ and ECON 205-3 or STAT 240-3 or permission of the instructor  
Precluded: ORTM 410-3

**SCAPP201301.33**

**Changes to Calendar Course Description / Prerequisites — NURS 329-1**

Whitcombe

That the changes to the calendar course description / prerequisites for NURS 329-1 Third Year Objective Structured Clinical Examination be approved as proposed.

Effective date: May 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 329-1 Third Year Objective Structured Clinical Examination** This course requires students to successfully complete a number of Objective Structured Clinical Examination (OSCE) scenarios as a prerequisite to commencing NURS 330-4 Extended Clinical Practicum II. An OSCE is a method of evaluation used to measure whether specific practice performance expectations are met, and to evaluate students' clinical judgment and integration of theory and practice in standardized situations of simulated patient care. Thirty-six hours of structured nursing laboratory practice must be successfully completed no more than ~~within~~ eight months before the student of undertaking undertakes the OSCE. Lab hours must be approved by a lab an instructor.  
*Prerequisites:* ~~a~~All required 300-level ~~n~~Nursing courses in the NCBNP

**SCAPP201301.34**

**Changes to Calendar Course Description / Prerequisites — NURS 330-4**

Whitcombe

That the changes to the calendar course description / prerequisites for NURS 330-4 Extended Clinical Practicum II, on page 261 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: May 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 330-4 Extended Clinical Practicum II** This course provides the opportunity for consolidated clinical nursing practice with clients who have multiple health care needs. Previous clinical practice experience is considered when determining placement. The practicum occurs in various health care settings in northern BC. Thirty-six hours of structured nursing laboratory practice and NURS 329-1 must be successfully completed no more than eight months before the student undertakes NURS 330-4. Lab hours must be approved by a lab instructor.  
*Prerequisites:* NURS 329-1  
*Precluded:* NURS 320-5

9.1.1 **S-201301.05**  
**Approval of Motions on the Consent Agenda**

Whitcombe

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

9.2 **Senate Committee on Research and Graduate Studies**

The Master of Arts in Natural Resources and Environmental Studies [MA(NRES)] offers students the opportunity to pursue studies of the social dimensions of human-environment interactions from a community-based or regional perspective. The degree is distinguished by its focus on human perspectives on historical and contemporary resource and environmental issues. It encourages the study of the social, cultural, ethical, economic and political dynamics of resource and land use, and environmental change in northern ecosystems.

Students must choose from the following areas of study:

Environmental Studies

Geography

~~Tourism~~—Outdoor Recreation, Conservation and Tourism

## 9.4 Steering Committee of Senate

Iwama

**S-201301.32****Change to Senate Handbook — Membership for Senate Committee on First Nations and Aboriginal Peoples**

Whitcombe

That the Senate Committee on First Nations and Aboriginal Peoples membership be expanded to include a School District 57 Aboriginal Education Board Committee member; and that this be done by amending the membership section of the committee’s Terms of Reference to include such a member under the heading “Seven [now Eight] Representatives”.

Effective date: January 2013

CARRIED.

## 9.5 Senate Committee on Nominations

Zahir

## 9.5.1 Senate Committee Vacancies

The list of vacancies was provided to Senate for information.

**“For Approval” Items:****S-201301.33****Membership Changes to Senate Committees (no material)**

Whitcombe

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate committees as indicated, be appointed as proposed.

Effective date: Immediately upon approval by Senate

**SENATE OR SENATE COMMITTEE POSITION TO BE FILLED**  
**(except as otherwise noted, all terms begin immediately)****CANDIDATE**Senate Committee on Academic Policy and Planning

Undergraduate Student (until March 31, 2013)

Robin Currie-Wood

The Chair of the Senate Committee on Nominations called for further nominations, and there being none, the motion was CARRIED and the candidate was appointed as proposed.

## 10.0 Other Business

No other business was identified.

**11.0 Information**

There were no items for information.

**12.0 S-201301.34**

**Move to In Camera Session**

Dale

That the meeting move In Camera.

CARRIED.

**13.0 S-201301.38**

**Adjournment**

Whitcombe

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 5:40 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

February 27, 2013  
3:30 – 5:30 PM

Senate Chambers (Room 1079 Administration Building)

---

**Present:**

E. Annis, R. Brouwer, C. Carriere, D. Casperson, R. Currie-Wood, B. Deo, S. Green, K. Guest, L. Handfield, T. Hanschen (Secretary of Senate), K. Hutchings, E. Korkmaz, D. McDonald, B. McGill (Acting Dean, Graduate Programs), C. Myers (Recording), K. Mytting, M. Nitz, C. Nolin (Vice Chair), D. Ryan, J. Safaei Boroojeny, P. Sanborn, C. Silva, R. Tait (Acting Dean, CASHS), R. Tallman, B. Wang, T. Whitcombe, S. Zahir

**Regrets:**

R. Bird, L. Copeland (Acting University Librarian), J. Crosina, M. Dale, M. Green, G. Iwama Chair), D. Leighton-Stephens, B. Murray, D. Nyce, R. Robinson, A. Stroet, S. Wagner

**Absent:**

M. Archie, F. Islam, K. Kuo, D. Macknak, W. Younas

---

The meeting commenced at 3:30 p.m. In the absence of President Iwama, the meeting was chaired by the Vice Chair of Senate, Senator Nolin. Dr. Nolin welcomed Dr. McGill to Senate as the Acting Dean of Graduate Programs. Senator Nolin also reminded Senators that a memorial gathering for faculty member Hiroe Wood was being held this afternoon at 4:00 p.m. in the Bentley Centre.

- 1.0**      **S-201302.01**  
**Approval of the Agenda**  
Ryan  
That the agenda for the February 27, 2013 Public Session of Senate be approved as presented.  
CARRIED.
- 2.0**      **S-201302.02**  
**Approval of Senate Minutes**  
Tait  
That the minutes of the January 23, 2013 Public Session of Senate be approved as presented.  
CARRIED.
- 3.0**      **Business Arising from Previous Minutes of Senate**  
  
No business arising was identified.

**4.0 President's Report** **Iwama**

As Dr. Iwama was unable to attend the meeting, no report was provided.

**5.0 Report of the Provost** **Dale**

No report was provided by Dr. Dale as he was unable to attend the meeting.

**6.0 Report of the Registrar** **Hanschen**

The Registrar indicated that he had nothing to report.

**7.0 Question Period**

A Senator asked about the status of the Mathematical, Computer, and Physical Sciences degree changes and the Chair of the Graduate Program, Dr. Margot Mandy, responded from the gallery. The Senator asked whether Senate could receive a copy of the correspondence with the Ministry's Degree Quality Assessment Board (DQAB) and the Registrar replied that the previous correspondence had already been provided to Senate. He added that DQAB had approved the five areas of study, but were currently considering the combinations that were requested in the motion.

**8.0 S-201302.03  
Approval of Motions on the Consent Agenda**

Ryan

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

It was requested that motions S-201202.06 and S-201202.11 be removed from the consent agenda.

CARRIED.

**9.0 Committee Reports**

**9.1 Senate Committee on Academic Policy and Planning** **Dale**

In Dr. Dale's absence, the report from this committee was presented by Dean Ryan.

**"For Approval" Items:**

**S-201302.04  
Changes to Academic Regulation 15 (Academic Breadth)**

Zahir

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the changes to the regulation on Academic Breadth (Academic Regulation 15 of the undergraduate calendar), be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**15. Academic Breadth**

Students pursuing the degrees of BA, BComm, BHSc, and BSc are required to meet the University's Academic Breadth requirement as a condition of graduation. Each graduate is required to have completed successfully at least 3 credit hours

from each of the following four areas, or to have transferred to UNBC from another institution acceptable course(s) such that the requirement is met:

**Arts and Humanities:** At least 3 credit hours with the prefix ENGL, HIST, PHIL, WMST.

**Social Science:** At least 3 credit hours with the prefix ANTH, COMM, ECON, EDUC, ENPL, FNST, INTS, NORS, ORTM, POLS, PSYC, RRT.

**Natural Science:** At least 3 credit hours with the prefix BIOL, GEOG, ENSC, ENVS, FSTY, HHSC, NREM.

**Physical Science:** At least 3 credit hours with the prefix CHEM, CPSC, MATH, PHYS, STAT.

This requirement applies to all students admitted or readmitted to UNBC for studies beginning with the September 2010 Semester or later.

Students pursuing the degrees of BA Nature Based Tourism Management, BSc Biology and BSc Natural Resources Management (majors in Forest Ecology and Management, Outdoor Recreation and Conservation, and Wildlife and Fisheries) are exempt from this regulation because academic breadth has been incorporated within the curricula.

#### **S-201302.05**

#### **Revisions to Undergraduate Academic Regulation 24 (Minors)**

Tait

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to Undergraduate Academic Regulation 24 (Minors) on page 58 of the 2012/2013 Undergraduate Academic Calendar be approved as proposed, including administrative changes to the programs affected by the changes.

Effective date: September 2013

The Registrar requested that, as revisions to the major in Nature-Based Tourism Management were approved by Senate in January 2013, the information related to that major be removed from the appendix attached to this motion. There were no objections to this request and the following motion was proposed:

#### **Motion:**

Tait / Zahir

That the calendar text related to the major in Nature-Based Tourism Management be removed from the appendix associated with motion S-201302.05.

CARRIED.

The main motion was also CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **24. Minors, Areas of Specialization, and Areas of Focus**

UNBC offers Minors in a number of subject areas, as outlined in the Undergraduate Calendar. A Minor requires a minimum of 18 credit hours and, in most cases, a maximum of 27 credit hours. At least 12 credit hours of any Minor must be completed at the upper-division level. A maximum of two courses (6 to 8 credit hours) used to fulfill the requirements for a Mmajor (or another Minor) may also be used to fulfill the requirements for a Minor, except when specified in program regulations for individual Minors. Students are not permitted to include more than two Minors in the same degree program. Some degree programs require the mandatory completion of a Minor in order to meet degree completion requirements. Please refer to the Undergraduate Programs pages for specific details. Minors are recorded on a student's official transcript.

An Area of Specialization is a set of courses required or expected to be completed within the context of a Major. Areas of Specialization require at least 12 credit hours, and are recorded on a student's official transcript.

An Area of Focus is a set of courses recommended to students who may wish to concentrate their studies within their Major. Areas of Focus are not required for the major, and are not recorded on the transcript.

## BA (General)

...

### Minor Recommendation

Majors are not a component of the BA (General); however, students are strongly urged to include in their degree a completed minor or a minimum of 18 credit hours from any of those programs within Arts or Social Sciences which offers a BA, or from the Philosophy or Russian Studies minor; i.e., from the following list:

- Anthropology (BA program)
- Economics (BA program)
- English (BA program)
- Environmental Studies (BA program)
- First Nations Studies (BA program)
- History (BA program)
- Geography (BA program)
- International Studies (BA program)
- Northern Studies (BA program)
- Outdoor Recreation and Tourism Management (BA program)
- Philosophy (Minor program)
- Political Science (BA program)
- Russian Studies (Minor program)
- Women's Studies (BA program)

Alternatively, students may complete a minimum of 18 credit hours from any of these programs.

---

## BSc (Integrated)

The Bachelor of Science (Integrated) provides a broad science base and integrates more than one area of study. The program is built upon a foundation of Biology, Chemistry, Mathematics and Physics. The program allows students to transfer into single-discipline science majors built on a foundation of Biology, Chemistry, Mathematics and Physics, or alternatively to switch from them to the BSc (Integrated). This program may be useful to students planning to pursue studies in various post-baccalaureate professional areas. Students should consult with the appropriate professional school(s) to ensure inclusion of all the required courses to be eligible for entry into programs in the desired professional area. Prior to starting the first year of study, students are strongly encouraged to consult with an appropriate ~~Program~~ Student Advisor for their anticipated ~~Area of concentration~~ Specialization.

~~Areas of upper-division concentration~~ Specialization are:

1. Biology, Ecology and Biochemistry & Molecular Biology
2. Chemistry, Biochemistry and Molecular Biology
3. Computer Science
4. Environmental and Earth Sciences
5. Geography (Science) and GIS
6. Mathematics and Statistics
7. Natural Resources and Forestry
8. Physics

Students enrolled in the ~~Integrated major of the~~ Bachelor of Science (Integrated) must successfully complete a total of 120 credit hours including a minimum of 45 credit hours from upper-division (300- or 400-level) courses, and not less than 15 credit hours, at any level, of Humanities

and Social Science courses. Humanities and Social Science courses may be selected from among the areas that are considered Humanities and Social Science for purposes of the BA (General). Students must complete two Areas of ~~upper-division concentration~~ Specialization listed above. Students must ensure completion of course prerequisites before registering in any course.

## Program Requirements

### Lower-Division Requirement

BIOL 101-4 Introductory Biology I  
BIOL 102-4 Introductory Biology II  
CHEM 100-3 General Chemistry I  
CHEM 101-3 General Chemistry II  
CHEM 120-1 General Chemistry Lab I  
CHEM 121-1 General Chemistry Lab II  
MATH 100-3 Calculus  
or  
MATH 105-3 Enriched Calculus  
and MATH 101-3 Calculus II  
or  
MATH 152-3 Calculus for Non-majors  
and STAT 240-3 Basic Statistics  
PHYS 100-4 Introduction to Physics I  
or  
PHYS 110-4 Introductory Physics I: Mechanics  
PHYS 101-4 Introduction to Physics II  
or  
PHYS 111-4 Introductory Physics II: Waves & Electricity

### Upper-Division Requirement

Students must complete 18 upper-division credit hours within each of two Areas of ~~concentration~~ Specialization for a minimum of 36 credit hours. *Note that if a course falls into more than one Area of ~~concentration~~ Specialization, it may be counted in only one Area of ~~concentration~~ Specialization.*

1. Eligible courses for the Biology, Ecology, and Biochemistry & Molecular Biology ~~concentration~~ Area of Specialization

~~All Upper-Division BIOL courses.~~

BCMB 306-3 Intermediary Metabolism  
BCMB 307-3 Proteins  
BCMB 308-3 Biochemistry Lab II  
BCMB 330-3 Nucleic Acids  
BCMB 340-3 Physical Biochemistry  
BCMB 405-3 Topics in Biochemistry  
BCMB 409-3 Enzymology  
All upper-division BIOL courses

2. Eligible courses for the Chemistry, Biochemistry & Molecular Biology ~~concentration~~ Area of Specialization

~~All Upper-Division BCMB and CHEM courses.~~

BIOL 423-3 Molecular Evolution and Ecology  
BIOL 424-3 Molecular Cell Physiology  
BIOL 425-3 Applied Genetics and Biotechnology  
All upper-division BCMB and CHEM courses

3. Eligible courses for the Computer Science ~~concentration~~ Area of Specialization

~~All Upper-Division CPSC courses except CPSC 311-3.~~

Students considering this a ~~concentration~~ Specialization should include in the first year:

CPSC 100-4 Computer Programming I  
CPSC 141-3 Discrete Computational Mathematics  
CPSC 101-4 Computer Programming II  
All upper-division CPSC courses except CPSC 311-3

4. Eligible courses for the Environmental and Earth Sciences

~~Concentration~~ Area of Specialization

ENPL 305-3 Environmental Impact Assessment  
ENPL 402-3 Terrain Assessment  
~~All Upper-Division ENSC courses except ENSC 417-6 Designing  
Solutions in Environmental Engineering~~  
FSTY 315-3 Forest Soil Management  
FSTY 425-3 Soil Formation and Classification  
FSTY 455-3 Biogeochemical Processes in Soil Systems  
GEOG 310-3 Hydrology  
GEOG 311-3 Concepts in Geomorphology  
GEOG 405-3 Fluvial Geomorphology  
GEOG 411-3 Advanced Elements in Geomorphology  
GEOG 412-3 Geomorphology of Cold Regions  
GEOG 414-3 Weathering Processes  
NREM 410-3 Watershed Management  
PHYS 307-3 Selected Topics in Environmental Physics  
~~All upper-division ENSC courses except ENSC 417-6 Designing  
Solutions in Environmental Engineering~~

5. Eligible courses for the Geography (Science) and GIS

~~Concentration~~ Area of Specialization

GEOG 300-3 Geographic Information Systems  
GEOG 310-3 Hydrology  
GEOG 311-3 Concepts in Geomorphology  
GEOG 405-3 Fluvial Geomorphology  
GEOG 411-3 Advanced Elements in Geomorphology  
GEOG 412-3 Geomorphology of Cold Regions  
GEOG 413-3 Advanced GIS  
GEOG 414-3 Weathering Processes  
GEOG 432-3 Remote Sensing  
GEOG 457-3 Advanced Remote Sensing

6. Eligible courses for the Mathematics & Statistics ~~concentration~~ Area of Specialization

All ~~Upper-Division~~ MATH courses except MATH 342-3 Biostatistics.

7. Eligible courses for the Natural Resources and Forestry

~~Concentration~~ Area of Specialization

All ~~Upper-Division~~ FSTY courses except FSTY 310-3 Forest Economics.  
All ~~Upper-Division~~ NREM courses except NREM 306-3 Society, Policy  
and Administration.  
All ~~Upper-Division~~ NRES courses.

8. Eligible courses for the Physics ~~concentration~~ Area of Specialization

All ~~Upper-Division~~ PHYS courses except PHYS 307-3 Selected Topics  
in Environmental Physics.

## Elective and Academic Breadth

Elective credit hours as necessary to ensure completion of a minimum  
of 120 credit hours including additional credit hours necessary to meet the  
Academic Breadth requirement of the University (see Academic Regulation 15).

---

# BSc (Integrated) Northwest Community College Degree Completion Program

This 60 credit-hour program of study is available only to students who have completed an Associate of Science Degree – Environmental  
Geosciences Specialization from Northwest Community College.

## Degree Requirements

1. Northwest Community College Associate of Science Degree – Environmental Geosciences Specialization (minimum Cumulative GPA of 2.0)
2. Nine credit hours of required courses, as follows:
 

GEOG 300-3	Geographic Information Systems
ENVS 414-3	Environmental and Professional Ethics
NRES 421-1	Professional Writing
NRES 422-2	Undergraduate Report

Total: 9 credit hours

3. Three credit hours of any level Humanities and Social Sciences
4. Eighteen credit hours in each of two ~~a~~Areas of ~~concentration~~ Specialization (~~Concentration~~ Specialization in Biology, Ecology, and Biochemistry & Molecular Biology and ~~Concentration~~ Specialization in Environmental and Earth Sciences):

### Required courses for the Biology, Ecology and Biochemistry & Molecular Biology ~~a~~Area of concentration Specialization

#### 300 Level

BIOL 301-3	Systematic Botany
BIOL 307-3	Ichthyology and Herpetology

#### 400 Level

BIOL 402-3	Aquatic Plants
BIOL 406-3	Fish Ecology
BIOL 411-3	Conservation Biology
BIOL 414-3	Fisheries Management

Total: 18 credit hours

### Required courses for the Environmental and Earth Sciences ~~a~~Area of ~~concentration~~ Specialization

Select ~~six~~ 18 credit hours of the following eight courses:

ENPL 305-3	Environmental Impact Assessment
ENSC 308-3	Northern Contaminated Environments
ENSC 404-3	Waste Management
ENSC 451-3	Groundwater Hydrology
FSTY 425-3	Soil Formation and Classification
GEOG 312-3	Geomorphology of Cold Regions
GEOG 320-3	Sedimentology
GEOG 411-3	Quaternary and Surficial Geology

Total: 18 credit hours

5. Elective credit hours in any subject as necessary to ensure completion of a minimum of 60 credit hours.

[Instead of referring to "Streams" in the Minors in anthropology - this is a term we want to remove from the Calendar - instead it is proposed that the Minors be renamed as indicated below.]

## Minor in Anthropology: Archaeological ~~Stream~~ Anthropology

The minor in ~~Anthropology~~ Archaeological Anthropology ~~Stream~~ requires completion of a total of seven courses (21 credit hours), consisting of four lower-division courses (12 credit hours) and three upper-division courses (9 credit hours). A maximum of two courses (6 credit hours) used to fulfill program requirements for a major (or another minor) may also be used to fulfill requirements for a minor in Archaeological Anthropology ~~Archaeological Stream~~.

## Requirements & Recommendations

### Recommended

ANTH 102-3 Anthropology: A World of Discovery

### Requirements

ANTH 203-3 Archaeology of the Americas

ANTH 205-3 Introduction to Archaeology

ANTH 212-3 Archaeology of the Old World

Select 9 credit hours from:

ANTH 301-3 Archaeological Lab Methods

ANTH 325-3 Archaeological Theory

ANTH 335-3 Archaeological Heritage Management

ANTH 380-(3-6) Special Topics in Archaeology

ANTH 409-3 Topics in British Columbia Archaeology

ANTH 425-3 Introduction to Zooarchaeology

ANTH 430-3 Stone Tools in Archaeology

ANTH 440-(3-6) Internship

ANTH 460-3 Anthropology Capstone

ANTH 498-(3-6) Special Topics in Anthropology

ANTH 499-(3-6) Independent Study

## Minor in Anthropology: Biological Stream Anthropology

The minor requires completion of a total of six courses (18 credit hours), consisting of two lower-division courses (6 credit hours) and four upper-division courses (12 credit hours). With approval of the Chair, a maximum of one course (3 credit hours) used to fulfill requirements for a non-Anthropology major (or another minor) may also be used to fulfill program requirements for the minor in Biological Anthropology-Biological Stream.

### Recommendations

ANTH 102-3 Anthropology: A World of Discovery

### Requirements

ANTH 200-3 Biological Anthropology

ANTH 312-3 Human Adaptability

Select 9 credit hours from:

ANTH 311-3 Nutritional Anthropology

ANTH 320-3 Biology of Circumpolar Peoples

ANTH 411-(3-6) Topics in Biological Anthropology

ANTH 420-3 Races, Racism, and Human Biology ANTH 460-3

ANTH 499-(3-6) Independent Study

Anthropology Capstone

## Minor in Anthropology: General Stream Anthropology

The minor requires completion of a total of six courses (18 credit hours), consisting of two lower-division courses (6 credit hours) and four upper-division Anthropology courses (12 credit hours) no more than two of which may be chosen from any single existing Anthropology Minor ~~stream~~ Area of Focus.

## Recommendations

ANTH 102-3 Anthropology: A World of Discovery

### Requirements

One of:

- ANTH 200-3 Biological Anthropology
- ANTH 205-3 Introduction to Archaeology
- ANTH 213-3 Peoples and Cultures

### Upper-Division Requirement

ANTH 315-3 Understanding Theory

Four additional courses, three of which must be upper-division courses.

## Minor in Anthropology: Sociocultural ~~Stream~~ Anthropology

The minor requires completion of a total of six courses (18 credit hours), consisting of two lower-division courses (6 credit hours) and four upper-division courses (12 credit hours).

### Requirements

Select 6 credit hours from:

- ANTH 211-3 Anthropology Through Film
- or ANTH 213-3 Peoples and Cultures
  
- ANTH 315-3 Understanding Theory

Select 12 credit hours from:

- ANTH 300-3 Methods in Social Anthropology
- ANTH 303-3 Archives/Texts/Museums
- ANTH 304-3 Kinship and Social Organization
- ANTH 305-3 Circumpolar Ethnography
- ANTH 306-3 Culture and Communication
- ANTH 310-3 Applied Anthropology
- ANTH 400-3 Topics in Anthropological Theory
- ANTH 401-3 Anthropological Perspectives on Inequality
- ANTH 404-3 Indigenous Peoples of the World
- ANTH 405-3 Landscape, Place and Culture
- ANTH 406-3 Feminist Perspectives
- ANTH 407-3 Topics in BC Ethnography
- ANTH 410-3 Theory of Nation and State
- ANTH 413-(3-6) Environmental Anthropology
- ANTH 414-3 Religion, Ideology, and Belief Systems
- ANTH 415-3 Economic Anthropology
- ANTH 419-3 Political and Legal Anthropology
- ANTH 421-3 Ethnographic Field Methods
- ANTH 422-3 Ethnographic Research Project
- ANTH 423-3 Urban Anthropology
- ANTH 460-3 Anthropology Capstone

---

## School of Education (BEd Program)

...

Subject to the admission requirements for Elementary (Grades K-7), students may apply to enter the BEd Elementary program with, as described in the Admission Requirements, one of the following: (a) an acceptable three- or four-year bachelor's degree or (b) a minimum 90 credit hours of undergraduate course work or (c) a UNBC Education Diploma in a First Nations Language and Culture (minimum 92 credit hours). Students applying for admission under item (c) will be admitted to the BEd Elementary degree completion program and must complete, prior to graduation, the required Education courses not taken as part of the Education Diploma program and sufficient additional credit hours in a teachable field to attain a minimum 150 credit hours of combined academic, Education Diploma and BEd course work. Upon completion of the two-year BEd program or the two-year BEd degree completion program, students graduate with a Bachelor of Education degree.

Subject to the admission requirements for Secondary (Grades 8-12), students may apply to enter the Secondary program after having completed a four-year Bachelor of Arts, Bachelor of Science, or Bachelor of Commerce degree (120 credit hours) or the equivalent as described in the Admission Requirements. Upon completion of the two-year BEd program, students will graduate with a BEd degree.

UNBC's BEd program provides students with the course work and classroom experience to prepare them to be qualified teachers. Upon successful completion of the program, graduates are recommended to the British Columbia College of Teachers (BCCT) Ministry of Education Teacher Regulation Branch (TRB) for professional certification. Certification by the BCCT TRB is required for employment in the British Columbia public school system.

The Elementary and Secondary programs in Prince George begin in September of each year. The Elementary program in Terrace begins in September of each odd-numbered year. The application deadline for all Education programs is March 15 of the year in which students intend to begin their program. Students needing advice about the application process or about admission requirements are encouraged to contact either the Student Recruitment and Advising Centre or the School Experience Office in the School of Education. Students who are interested in applying to the BEd program at the Terrace campus may also contact the Northwest Regional campus for information.

## Elementary (Grades K-7)

[To this point, the Calendar entry for Education has referred to Elementary and Secondary "programs." It is proposed here that this nomenclature be applied throughout the entry for consistency and to avoid the use of the term "stream," which elsewhere is being discontinued. The programs/streams might be referred-to as "Areas of Specialization" but, since there is not a major in Education, this would be an inappropriate use of that designation.]

The Elementary stream program prepares teacher candidates to work with the unique learning needs of children who are beginning their school years. This model reflects current thinking about optimizing the match between educational theory and children's levels of cognitive and social development. The Elementary stream program is designed to educate teachers to combine pedagogical excellence across disciplinary areas with a learner-centered approach to practice. Philosophically,

the program is designed around constructivist principles, and it emphasizes approaches to practice such as inquiry-based learning, strategies for instruction, integration of language across the curriculum, inclusion of diverse learners and perspectives, the development of caring and respectful communities of learners, and reflective practice. Successful applicants to the Elementary ~~stream~~ stream program are assigned to a cohort group of students and normally take their Education courses with that cohort group over the two years.

## Admission Requirements

Applicants to the BEd degree Elementary ~~stream~~ stream program must have completed (with a minimum grade point average of C+ on the most recent 60 credit hours of university credit hours completed), one of the following:

...

## Secondary (Grades 8-12)

The Secondary program is a two-year after-degree program that prepares individuals to teach in grades 8 through 12 in specialty areas. This model reflects current thinking about optimizing the match between educational theory and children's levels of cognitive and social development. The Secondary ~~Stream~~ Stream program is designed to educate teachers to combine pedagogical excellence across disciplinary areas with a learner-centered approach to practice. Philosophically, the program is designed around constructivist principles, and it emphasizes approaches to practice such as inquiry-based learning, strategies for instruction, integration of language across the curriculum, inclusion of diverse learners and perspectives, the development of caring and respectful communities of learners, and reflective practice. Successful applicants to the Secondary ~~Stream~~ Stream program will be assigned to a cohort group of approximately 35 students and will take all of their courses with that cohort group.

## Admission Requirements

Applicants to the Secondary ~~stream~~ stream program must have completed, with a minimum grade point average of C+ on the most recent 60 credit hours of university credit hours completed, a four-year Bachelor of Arts, Bachelor of Science, or Bachelor of Commerce degree (120 credit hours) or the equivalent (i.e., a three-year Bachelor's degree with a teachable major plus 30 additional university credit hours) with a minimum of ~~ninety (90)~~ ninety (90) credit hours in Arts, Science, or Business Administration or in other teachable fields relevant to teaching in the BC School system. The remaining credit hours may come from any discipline.

In addition to the entry requirements described above, the following requirements must be met (see note following):

...

## Secondary Teachable Major and Minor Requirements

The following is a list of teachable majors and minors that have been approved by the ~~British Columbia College of Teachers~~ British Columbia Ministry of Education Teacher Regulation Branch (TRB), are widely taught in British Columbia secondary schools, and that can be completed at the University of Northern British Columbia (graduates of equivalent programs at other recognized universities are also eligible for consideration to the program). In order for applicants to be eligible for the Secondary ~~Stream~~ Stream program Bachelor of Education program, they must meet the requirements for one teachable major, a teachable major and minor, or two teachable minors from the following list:

...

## Biology Major and Minor

Bachelor of Education applicants to the Secondary Stream program planning to meet the Biology teachable minor requirement must have completed a minimum of ~~six (6)~~ credit hours of introductory (100-level) course work in each of ~~b~~Biology, ~~e~~Chemistry (at least one course with a lab component), ~~m~~Mathematics (at ~~least~~ least one course, but preferably two courses, in calculus), and ~~p~~Physics (at least one course with a lab component). Applicants must also complete an additional ~~six (6)~~ to ~~twelve (12)~~ credit hours of study in ~~b~~Biology at the lower division, and ~~eighteen (18)~~ credit hours of upper-division course work in ~~b~~Biology. The course work must ~~demonstrate~~ include both lecture and laboratory studies.

Applicants planning to meet the Biology teachable major requirement must complete an additional ~~twelve (12)~~ credit hours of upper-division course work in ~~b~~Biology.

## Business Education Major and Minor

Bachelor of Education applicants to the Secondary Stream program planning to meet the Business Education teachable minor requirement must complete a minimum of ~~eighteen (18)~~ upper-division credit hours of specialized courses in accounting, marketing, commercial law, and management information systems in addition to introductory (100-level) courses in ~~e~~Computer science, ~~e~~Economics, and ~~m~~Mathematics.

Applicants planning to meet the Business Education teachable major requirement must complete an additional ~~twelve (12)~~ credit hours of upper-division course work in accounting, finance, marketing, and management information systems.

## Chemistry Major and Minor

Bachelor of Education applicants to the Secondary Stream program planning to meet the Chemistry teachable minor requirement must have completed a minimum of ~~six (6)~~ credit hours of introductory (100-level) course work in each of ~~b~~Biology, ~~e~~Chemistry (at least one course with a lab component), ~~m~~Mathematics (at least one course, but preferably two courses, in calculus), and ~~p~~Physics (at least one course with a lab component). Applicants must also complete an additional ~~six (6)~~ to ~~twelve (12)~~ credit hours of study in ~~e~~Chemistry at the lower division, and ~~eighteen (18)~~ credit hours of upper-division course work in ~~e~~Chemistry. The course work must ~~demonstrate~~ include both lecture and laboratory studies.

Applicants planning to meet the Chemistry teachable major requirement must complete an additional ~~twelve (12)~~ credit hours of upper-division course work in ~~e~~Chemistry.

## Computer Science Major and Minor

Bachelor of Education applicants to the Secondary Stream program planning to meet the Computer Science teachable minor requirement must complete a basic lower-division course load in computer programming, computer structures, and mathematics in addition to ~~eighteen (18)~~ credit hours of upper-division Computer Science course work covering advanced programming, systems design, and programming languages.

Applicants planning to meet the Computer Science teachable major requirement must complete an additional ~~twelve (12)~~ credit hours of study in upper-division Computer Science course work.

## English Major and Minor

Bachelor of Education applicants to the Secondary Stream program planning to meet the English teachable minor requirement must complete a basic lower-division course load that focuses on English literature

and composition in addition to ~~twenty-four (24)~~ credit hours of upper-division English courses including ~~six (6)~~ credit hours from each of the following: English literature, pre-twentieth century literature, and contemporary literature. Applicants are also strongly encouraged to complete courses both in Canadian literature and Shakespeare.

Applicants planning to meet the English teachable major requirement must complete an additional ~~six (6)~~ credit hours of upper-division course work in English.

## First Nations Minor

Bachelor of Education applicants to the Secondary ~~Stream program~~ planning to meet the First Nations teachable minor requirement must complete a basic lower-division course load that focuses on general First Nations studies, First Nations language, and First Nations culture courses in addition to ~~eighteen (18)~~ credit hours of upper-division First Nations Studies or related approved courses (related course work may come from Anthropology or History).

## General Science Majors and Minors

Teachable areas that can be included within the General Sciences ~~M~~major and ~~M~~minor include Biology, Chemistry, Environmental Sciences, and Physics.

Bachelor of Education applicants to the Secondary ~~Stream program~~ planning to meet the General Sciences teachable minor requirement must complete ~~six (6)~~ credit hours of study in introductory (100-level) course work in each of ~~b~~Biology, ~~e~~Chemistry (at least one course with a lab component), ~~m~~Mathematics (at least one course, but preferably two courses, in calculus), and ~~p~~Physics (at least one course with a lab component). Applicants must also complete a minimum of ~~six (6)~~ credit hours of upper-division study in three of the four teachable areas: Biology, Chemistry, Environmental Sciences, and Physics.

Applicants planning to meet the teachable major requirement in General Sciences must complete an additional ~~twelve (12)~~ upper-division credit hours or course work from the four teachable areas: Biology, Chemistry, Environmental Sciences, and Physics.

## Geography Major and Minor

Applicants to the Geography ~~M~~major or ~~M~~minor programs must include courses from both cultural and physical geography within their program, as well as course work in regional and environmental studies.

Bachelor of Education applicants to the Secondary ~~Stream program~~ planning to meet the Geography teachable minor requirement must complete a minimum of ~~six (6)~~ credit hours of introductory (100-level) or survey courses in each of ~~g~~Geography, ~~h~~History, and a social science.

Applicants must also complete a minimum of an additional ~~six (6)~~ credit hours of lower-division ~~g~~Geography course work and ~~eighteen (18)~~ credit hours of upper-division ~~g~~Geography. A minimum of ~~six (6)~~ credit hours must have significant Canadian content.

Applicants planning to meet the Geography teachable major requirement must complete an additional ~~twelve (12)~~ credit hours of upper-division course work in ~~g~~Geography.

## History Major and Minor

Applicants to the History ~~M~~major or ~~M~~minor programs must include both Canadian and European history course work within their program, as well as the history of any region other than Canada or Europe.

Bachelor of Education applicants to the Secondary Stream program planning to meet the History teachable minor requirement must complete a minimum of ~~six (6)~~ credit hours of introductory (100-level) or survey courses in each of gGeography, hHistory, and a social science.

Applicants must also complete a minimum of an additional ~~six (6)~~ credit hours of lower-division hHistory course work and ~~eighteen (18)~~ credit hours of upper-division hHistory. A minimum of ~~six (6)~~ credit hours must have a significant Canadian content.

Applicants planning to meet the History teachable major requirement must complete an additional ~~twelve (12)~~ credit hours of upper-division work in hHistory.

## Mathematics Major and Minor

Bachelor of Education applicants to the Secondary Stream program planning to meet the Mathematics teachable minor requirement must complete a minimum of ~~thirty (30)~~ credit hours of study of which at least ~~eighteen (18)~~ credit hours must be at the upper-division level. The upper-division credit hours must include at least one course in three of the following areas: algebra, calculus, probability and statistics, geometry, and number theory.

Applicants planning to meet the Mathematics teachable major requirement must complete an additional ~~twelve (12)~~ credit hours of upper-division Mathematics course work in the above listed disciplines.

## Physics Major and Minor

Bachelor of Education applicants to the Secondary Stream program planning to meet the Physics teachable minor requirement must have completed a minimum of ~~six (6)~~ credit hours of introductory (100-level) course work in each of bBiology, eChemistry (at least one course with a lab component), mMathematics (at least one course, but preferably two courses, in calculus), and pPhysics (at least one course with a lab component). Applicants must also complete an additional ~~six (6)~~ to ~~twelve (12)~~ credit hours of study in pPhysics at the lower division, and 18 credit hours of upper-division course work in pPhysics. The course work must demonstrate include both lecture and laboratory studies.

Applicants planning to meet the Physics teachable major requirement must complete an additional ~~twelve (12)~~ credit hours of upper-division course work in pPhysics.

## Social Studies Majors and Minors

Teachable areas that can be included within the Social Studies Mmajor and Mminor include Geography, History and acceptable Social Sciences (Anthropology, Economics, Environmental Studies, First Nations Studies, International Studies, Northern Studies, Political Science, Sociology, and Women's Studies).

Bachelor of Education applicants to the Secondary Stream program planning to meet the Social Studies teachable minor requirement must have completed a minimum of ~~twelve (12)~~ upper-division credit hours in a social science teaching area (including: Anthropology, Economics, Environmental Studies, First Nations Studies, International Studies, Northern Studies, Political Science, Sociology, and Women's Studies) acceptable in British Columbia secondary schools.

---

## Major in Environmental Studies

...

## Areas of Focus Specialization

Students must choose one of the following ~~a~~Areas of focus Specialization. Courses used to fulfill major requirements above may not be used to satisfy an ~~area of focus~~ Area of Specialization requirement.

1. Global Environmental Studies
  2. Communities and Environmental Citizenship
  3. Natural Resource Management
  4. Science, Technology and Society
  5. First Nations
- 

## Major in Public Administration and Community Development

The Public Administration and Community Development major gives students the skills required to function within a range of groups, organizations, and offices. The graduate is able to interact with appropriate professionals, receive their input and reports, and collate a wide range of information and material in service of their group/organization/office. Skills in analysis and synthesis are complemented by an ability to work cooperatively and effectively, and an ability to communicate clearly through written, oral, and graphic mediums.

The Public Administration and Community Development major requires completion of 120 credit hours, 48 of which must be at the upper-division level. At the first- and second-year level (lower-division level), students must take the seven required courses and a minimum of one course from each of the seven ~~focus~~ categories. At the third- and fourth-year level (upper-division level), students must take the four required courses and a minimum of one course from each of the seven ~~focus~~ categories. To complete the 120 credit hours, students must take 45 credit hours of electives, of which 18 credit hours must be at the upper-division level.

It is possible for students to organize their course choices (~~focus~~ categories and electives) to achieve a 'specialization' of course work. An Area of Specialization ~~will~~ requires 24 credit hours of courses (eight courses) from one of the specialization lists:

- Specialization in Local Public Administration
- Specialization in Aboriginal Community Development
- Specialization in Planning

## Program Requirements

### Lower-Division Requirements

COMM 100-3 Introduction to Canadian Business  
ECON 100-3 Microeconomics  
ECON 101-3 Macroeconomics  
ENPL 104-3 Introduction to Planning  
FNST 100-3 Aboriginal Peoples of Canada  
GEOG 101-3 Human Geographies of Global Change  
POLS 100-3 Contemporary Political Issues

Select ONE course from each ~~Focus-area~~ category below:

Community ~~Focus~~

GEOG 206-3 Society and Space

## GEOG 209-3 Migration and Settlement

### Public Administration ~~Focus~~

ECON 210-3 Introduction to Health Economics and Policy  
POLS 251-3 Local Services and Public Policy  
POLS 260-3 Politics of Public Finance

### Governance ~~Focus~~

POLS 200-3 Canadian Government and Politics  
POLS 250-3 Law and Municipal Government

### First Nations ~~Focus~~

ENPL 208-3 First Nations Community and Environmental Planning  
FNST 217-3 Contemporary Challenges Facing Aboriginal  
Communities  
FNST 249-3 Aboriginal Resource Planning  
POLS 220-3 Canadian Law and Aboriginal People

### Methods ~~Focus~~

ECON 205-3 Statistics for the Social and Management Sciences  
ENPL 204-3 Principles and Practices of Planning  
ENPL 206-3 Planning Analysis and Techniques  
FNST 200-3 Methods and Perspectives in First Nations Studies  
FNST 203-3 Introduction to Traditional Environmental Knowledge  
GEOG 204-3 Introduction to GIS for the Social Sciences  
GEOG 205-3 Cartography and Geomatics

### Economic ~~Focus~~

COMM 230-3 Organizational Behaviour  
ECON 203-3 Canadian Economic History  
GEOG 202-3 Economic Geography of Resources and Sustainability  
ORTM 200-3 Sustainable Resource Recreation and Tourism

### General ~~Focus~~

ANTH 101-3 People and Cultures  
ARTS 102-3 Research Writing  
COMM 240-3 Introduction to Marketing  
POLS 290-3 Research and Writing in Political Science  
ORTM 100-3 Leisure in Life

## Upper-Division Requirements

ENPL 313-3 Rural Community Economic Development  
POLS 302-3 Canadian Public Administration  
POLS 332-3 Community Development  
GEOG 424-3 Social Geography of Northern Communities

Select ONE course from each ~~Focus-area~~ category below:

### Community ~~Focus~~

ANTH 316-3 The Social Theory and Structure of Contemporary  
Canadian Society  
COMM 302-3 Entrepreneurship  
ENPL 301-3 Sustainable Communities: Structure and Sociology  
ORTM 407-3 Recreation, Tourism, and Communities  
SOCW 437-3 Social Work with Groups and Communities

### Public Administration ~~Focus~~

ENPL 304-3 Mediation, Negotiation, Public Participation  
POLS 340-3 First Nations Self-Government and Administration  
POLS 403-3 Social and Health Policy and Administration  
SOCW 435-3 Community Social Policy

### Governance ~~Focus~~

ANTH 410-3 Theory of Nation and State  
GEOG 305-3 Political Ecology  
POLS 316-3 Municipal Government and Politics

POLS 320-3 Canadian Politics and Policy  
POLS 333-3 Politics and Government of BC

#### First Nations ~~Focus~~

ANTH 404-3 Comparative Study of Indigenous Peoples of the World  
ENPL 409-3 Advanced First Nations Community and Environmental Planning  
FNST 304-3 First Nations Environmental Philosophy and Knowledge  
GEOG 403-3 First Nations and Indigenous Geography  
NREM 303-3 First Nations Approaches to Resource Management  
ORTM 306-3 Indigenous Tourism and Recreation  
POLS 415-3 Comparative Northern Development  
SOCW 455-3 First Nations Governance and Social Policy

#### Methods ~~Focus~~

ENPL 419-3 Social Research Methods  
FNST 300-3 Research Methods in First Nations Studies  
ORTM 410-3 Research Methods and Analysis

#### Economic ~~Focus~~

COMM 303-3 Introduction to International Business  
ECON 305-3 Environmental Economics  
ECON 401-3 Global Economy  
ECON 407-3 The Economy of Northern BC  
GEOG 401-3 Resource Geography

#### General ~~Focus~~

COMM 332-3 Business and Professional Ethics  
COMM 340-3 Marketing Communications  
COMM 342-3 Services Marketing  
ENVS 414-3 Environmental and Professional Ethics  
FNST 440-(3-6) Internship in First Nations Studies  
FNST 498-3 Special Topics in First Nations Studies  
GEOG 308-3 Introduction to Medical Geography  
GEOG 420-3 Environmental Justice  
POLS 317-3 Ethics

## Specializations Areas of Specialization

It is possible for students to organize their course choices (~~focus categories areas~~ and electives) to achieve an Area of Specialization of course work. For the PACD major, completion of a specialization requires 24 credit hours ~~of courses~~ (8 courses) from one of the specialization lists:

- Specialization in Local Public Administration
- Specialization in Aboriginal Community Development
- Specialization in Planning

### Area of Specialization in Local Public Administration

\* Students choosing this Area of Specialization should be aware that UNBC also offers a Public Administration Certificate through the Department of Political Science, as well as a First Nations Public Administration Certificate through the Department of First Nations Studies.

Lower-Division (1st- and 2nd-year) course choices  
COMM 100-3 Introduction to Canadian Business  
COMM 230-3 Organizational Behaviour  
POLS 220-3 Canadian Law and Aboriginal People  
POLS 250-3 Law and Municipal Government  
POLS 251-3 Local Services and Public Policy  
POLS 260-3 Politics of Public Finance  
POLS 290-3 Research and Writing in Political Science

Upper-Division (3rd- and 4th-year) course choices  
POLS 316-3 Municipal Government and Politics

POLS 317-3 Ethics  
POLS 320-3 Canadian Politics and Policy  
POLS 333-3 Politics and Government of BC  
POLS 335-3 Community Politics  
POLS 340-3 First Nations Self-Government and Administration  
POLS 403-3 Social and Health Policy and Administration

### Area of Specialization in Aboriginal Community Development

Lower-Division (1st- and 2nd-year) course choices  
ENPL 208-3 First Nations Community and Environmental Planning  
FNST 200-3 Methods and Perspectives in First Nations Studies  
FNST 203-3 Introduction to Traditional Environmental Knowledge  
FNST 217-3 Contemporary Challenges Facing Aboriginal Communities  
FNST 249-3 Aboriginal Resource Planning  
POLS 220-3 Canadian Law and Aboriginal People

Upper-Division (3rd- and 4th-year) course choices  
ANTH 404-3 Comparative Study of Indigenous Peoples of the World  
COMM 302-3 Entrepreneurship  
ENPL 409-3 Advanced First Nations Community and Environmental Planning  
FNST 300-3 Research Methods in First Nations Studies  
FNST 304-3 First Nations Environmental Philosophy and Knowledge  
FNST 416-3 International Perspective  
FNST 440-(3-6) Internship in First Nations Studies  
FNST 498-3 Special Topics in First Nations Studies  
GEOG 403-3 First Nations and Indigenous Geography  
NREM 303-3 First Nations Approaches to Resource Management  
ORTM 306-3 Indigenous Tourism and Recreation  
POLS 340-3 First Nations Self-Government and Administration

### Area of Specialization in Planning

\* It should be noted that the 'Area of Specialization in Planning' does not lead to an accredited planning degree. The School of Environmental Planning offers a A-professional accredited Canadian Institute of Planner degree is through the School of Environmental Planning. Refer to the calendar for further information.

Required courses  
ENPL 104-3 Introduction to Planning  
ENPL 204-3 Principles and Practices of Planning  
ENPL 301-3 Sustainable Communities: Structure and Sociology  
ENPL 304-3 Mediation, Negotiation, Public Participation

~~Complete~~ Four of the following:  
ENPL 206-3 Planning Analysis and Techniques  
ENPL 208-3 First Nations Community and Environmental Planning  
ENPL 313-3 Rural Community Economic Development  
ENPL 409-3 Advanced First Nations Community and Environmental Planning  
ENPL 419-3 Social Research Methods

---

## Social Work (BSW Program)

- Child Welfare Specialization
- First Nations Specialization

...

Qualification for Degree

It is the responsibility of the student to ensure that his/her degree requirements are met. Graduation requirements are found in the Regulations and Policies section of this Calendar. To fulfill the requirements of graduation, the student must also:

- attain a minimum cumulative GPA of 2.33 (C+) on courses for credit towards the Social Work degree.
- obtain a minimum passing grade of 2.00 (C) in every Social Work course for credit towards the degree (note: Students enrolling in any required course must have completed all prerequisites with a grade of C or better); and
- complete all requirements for the BSW program within eight years of admission into the program or from the first Social Work course used for credit towards the degree.

In addition, BSW students may choose to meet the requirements for one of the Areas of Specialization described in this degree program. The Specialization will be recorded on the student's transcript.

...

## BSW: Child Welfare Specialization

The Child Welfare Specialization provides a program of studies that prepares students for practice in child welfare, while also satisfying the general practice criteria required for BSW accreditation and for designation as a Registered Social Worker (RSW).

Students must meet all prerequisites for entry into the BSW program at UNBC and be accepted into the ~~school program~~. The fourth-year practicum takes place in a child welfare setting or a First Nations child welfare agency. Completion of the specialization is noted on the student's graduating transcript. Note: This Specialization is distinct from "Areas of Specialization" within a major as set out in Academic Regulation 24 (Minors, Areas of Specialization and Areas of Focus).

The Child Welfare Specialization is designed to provide a ~~sSocial wW~~ork degree that prepares students for social work practice in all child and family serving agencies.

...

## BSW: First Nations Specialization

The First Nations Specialization provides a program of study that prepares students for practice with First Nations people, while also satisfying the general practice criteria required for BSW accreditation and for designation as a Registered Social Worker (RSW).

Students must meet all prerequisites for entry into the UNBC BSW program and must be accepted into the program. The fourth-year practicum takes place in a First Nations setting.

Completion of the specialization is noted on the student's transcript. Note: This Specialization is distinct from "Areas of Specialization" within a major as set out in Academic Regulation 24 (Minors, Areas of Specialization and Areas of Focus)

### **S-201302.06**

#### **New Course Approval — FNST 145-3**

Tait

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNST 145-3 Tsilhqot'in Language: Level 1 be approved as proposed.

Proposed semester of first offering: September 2013

A Senator asked whether course offerings for other languages were going to be forthcoming and Dr. Blanca Schorcht, representative of the Department of First Nations Studies, responded that there were already several First Nations languages offered by UNBC.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course provides an introduction to the conversational and written elements of the Tsilhqot'in language.

**S-201302.07**

**New Course Approval — FNST 146-3**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNST 146-3 Tsilhqot'in Language: Level 2 be approved as proposed.

Proposed semester of first offering: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course develops reading, writing, and speaking skills in the Tsilhqot'in language.

Prerequisites: FNST 145-3 or permission of the Program Chair

**S-201302.08**

**New Course Approval — FNST 147-3**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNST 147-3 Tsilhqot'in Culture: Level 1 be approved as proposed.

Proposed semester of first offering: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course provides an introduction to Tsilhqot'in culture.

**S-201302.09**

**New Course Approval — FNST 148-3**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNST 148-3 Tsilhqot'in Culture: Level 2 be approved as proposed.

Proposed semester of first offering: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course provides advanced study of Tsilhqot'in culture.

Prerequisites: FNST 147 or permission of the Program Chair

**S-201302.10**

**New Course Approval — FNST 245-3**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNST 245-3 Tsilhqot'in Language: Level 3 be approved as proposed.

Proposed semester of first offering: September 2013  
CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course focuses on the development of speaking and understanding the Tsilhqot'in language, including reading and writing skills, at the Intermediate level.  
Prerequisites: FNST 146 or permission of the Program Chair

#### **S-201302.11**

##### **New Course Approval — FNST 246-3**

Tait

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the new course FNST 246-3 Tsilhqot'in Language: Level 4 be approved as proposed.

Proposed semester of first offering: September 2013

A Senator raised a question about the content of this course in the calendar course description, noting that it would be clearer if the the words "advanced intermediate" were added in brackets after the phrase "level 4." Senator Hutchings replied that the SCAPP and SCRGS Subcommittee on Curriculum and Calendar had brought this matter to the attention of the Department of First Nations Studies, and they had indicated that they planned to bring a number of changes to their language courses forward to Senate in the near future to address this issue.

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course focuses on the development of speaking and understanding the Tsilhqot'in language, including reading and writing skills at level 4.  
Prerequisites: FNST 245 or permission of the Program Chair

#### **S-201302.12**

##### **Approval of Memorandum of Agreement Between Coquitlam College and the University of Northern British Columbia**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the Memorandum of Agreement between Coquitlam College and the University of Northern British Columbia be approved as proposed.

Effective date: September 2013

CARRIED.

#### **S-201302.13**

##### **Revisions to Undergraduate Academic Regulation 16 (Official and Unofficial Transcripts)**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to Undergraduate Academic Regulation 16 (Official and Unofficial Transcripts), on page 56 of the 2012/2013 Undergraduate Academic Calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **16. Official and Unofficial Transcripts**

Official transcripts are confidential and are only released on ~~written request from~~ authority of the student. Transcripts issued to an institution, company, or agency are mailed directly to their address, or held for pick-up at the Office of the Registrar in confidential envelopes marked 'Official Transcript'. In extenuating circumstances, official transcripts may be issued to a student. Third-party requests must be accompanied by a signed authorization from the student.

Each transcript will include the student's complete record at the University. Since credit earned is determined on the results of final examinations, a transcript will not include results of mid-term examinations.

Transcripts will not be released without payment of the required transcript fee, and/or if there is an outstanding financial obligation to the University.

Requests for transcripts can be made online through UNBC Student Online Services <https://www.unbc.ca> or by completing a Transcript Request Form available in the Office of the Registrar. ~~There is a 10-day turnaround for transcript requests.~~

Unofficial transcripts are available to students directly through UNBC Student Online Services at <https://www.unbc.ca-Web-for-Students>.

#### **S-201302.14**

##### **Revisions to Undergraduate Academic Regulation 18 (Time Limit for Transfer Credit)**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to Undergraduate Academic Regulation 18 (Time Limit for Transfer Credit), on page 57 of the 2012/2013 Undergraduate Academic Calendar be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **18. Time Limit for Transfer Credit**

Transfer credit ~~normally will~~ is not normally be awarded for courses completed in excess of ~~ten~~ 10 academic years prior to the date of first UNBC registration at UNBC. Courses more than ~~ten~~ 10 years old ~~normally will~~ are normally be-assigned unspecified credit. Once transfer credit has been ~~allowed granted~~, in order for transfer credit to be retained a student must maintain their continuing student status (Undergraduate Academic Regulation 4. Continuing/Returning Students) in order for transfer credit to be retained. ~~may not be absent from the University for more than three consecutive semesters for transfer credit to be retained.~~ Otherwise, transfer credit will be re-evaluated as though this were the student's first UNBC admission and registration.

#### **S-201302.15**

##### **Revisions to Undergraduate Academic Regulation 19 (Letters of Permission)**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to Undergraduate Academic Regulation 19 (Letters of Permission), on page 57 of the 2012/2013 Undergraduate Academic Calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **19. Letters of Permission**

A Letter of Permission ensures that courses successfully completed at another institution will be transferred to UNBC for consideration as credit toward the student's degree program. Before taking courses from other post-secondary institutions for credit on a Letter of Permission towards a UNBC credential, a student must:

- a. have completed at least ~~nine semester~~ 9 credit hours of study at UNBC
- b. ~~be in good academic standing not be on academic probation or in arrears on account with the University~~
- c. ~~not have any outstanding obligation to the University, which may include, but is not limited to the following:~~
  - tuition fees owing
  - library or other fines owing
  - outstanding library loans
  - outstanding equipment or other loans

Course work taken on a Letter of Permission is considered to be transfer credit, and therefore subject to all policies and practices related to transfer credit.

Students who complete courses without having first obtained a Letter of Permission risk not having those courses accepted for transfer credit.

#### **S-201302.16**

#### **Revisions to Undergraduate Academic Regulation 30 (Change of Grade after Submission of Final Grades)**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to Undergraduate Academic Regulation 30 (Change of Grade after Submission of Final Grades), on page 58 of the 2012/2013 Undergraduate Academic Calendar, be approved as proposed, including administrative changes to the programs affected by the changes.

Effective date: May 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **30. Change of Grade after Submission of Final Grades**

Except for grade changes resulting from formal Academic Appeal, any changes in final grade after the initial grade submission must be transmitted to the Office of the Registrar through the appropriate Dean Chair, except in cases when a Chair's grades must be approved by the appropriate College Dean.

#### **S-201302.17**

#### **Revisions to Undergraduate Academic Regulation 40 (Conduct in Examinations)**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to Undergraduate Academic Regulation 40 (Conduct in Examinations), on page 60 of the 2012/2013 Undergraduate Academic Calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **40. Conduct in Examinations**

Students must present appropriate identification upon entering the examination room. Appropriate identification is defined as a UNBC student card and/or some other form of photo identification acceptable to the proctor. The following regulations apply to the conduct of examinations:

- a. Books, papers, or other materials or devices must not be in the possession of the student during an exam except by the express permission of the examiner. Specifically, without such permission, no laptop computers, mobile phone sets, handheld electronic devices or the like may be in possession of the student in the examination room (see Undergraduate Academic Regulation 43 45.b. (b)).
- b. No candidate is permitted to enter the examination room more than 30 minutes after the beginning of the examination, or permitted to leave within 30 minutes after the examination has started.
- c. Candidates must not communicate in any way with other candidates in the examination room.
- d. Candidates must not leave their seats, except when granted permission by the proctor.
- e. Candidates must turn in all materials, including rough work, upon leaving the examination room.
- f. Food and beverages other than water are not permitted in the examination room.

#### **S-201302.18**

#### **Revisions to Undergraduate Academic Regulation 43 (Final Examinations Missed)**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to Undergraduate Academic Regulation 43 (Final Examinations Missed), on page 61 of the 2012/2013 Undergraduate Academic Calendar be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### 43. Final Examinations Missed

Satisfactory explanation, with supporting documentation as appropriate, for any final examination missed must be made by the student or designate to the Office of the Registrar within 48 hours from the time the examination was written.

Within 48 hours of receiving a submission, the Registrar or designate may ~~direct~~ advise the Program under which the course is offered to arrange the writing of a special examination in the case of an examination which was missed.

Normally, for explanations of sickness, a doctor's certification is required.

#### **S-201302.19**

#### **Revisions to Undergraduate Academic Regulation 44 (Deferred Examinations and Grades)**

Ryan

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to Undergraduate Academic Regulation 44 (Deferred Examinations and Grades), on page 61 of the 2012/2013 Undergraduate Academic Calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### 44. Deferred Examinations and Grades

- a. Students may ~~apply for request~~ request a deferred examination or a deferred status to complete required term work if medical or compassionate reasons prevent attendance at an examination or completion of assignments. ~~Submission of a deferred (DEF) grade by Written application for a deferral, along with supporting documentation and written approval from the Instructor and Program Chair, should be received by the Office of the Registrar without exception before the date of the final examination; after that date, the Undergraduate Academic Regulation 44 "43. Final Examinations Missed" applies. Forms for deferred status are available to Faculty from the Office of the Registrar.~~ If a student is granted a deferral, the exam must be written or the assignment(s) completed and graded before the last day of classes in the following semester, unless prior arrangements have been made with the Instructor and notification has been submitted to the Office of the Registrar. If a student is granted a deferral but does not complete the required work, or does not appear for the examination, a grade of F will be assigned. If a student's request for deferred status is refused, the instructor will submit a final grade.
- b. Effective September 2004, students are not permitted to graduate with deferred grades (DEF) remaining on their transcript (See Academic Regulation ~~34~~ 33. Graduation Constraints).

### 9.2 Senate Committee on Scholarships and Bursaries

Owen

#### **"For Information" Items:**

**Move to In Camera Session**

That the meeting move In Camera.

**13.0 S-201301.25**

**Adjournment**

That the Senate meeting be adjourned.

The meeting ended at 5:10 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

April 24, 2013  
3:30 – 5:30 PM

Senate Chambers (Room 1079 Administration Building)

---

**Present:**

R. Bird, J. Brown, D. Casperson, L. Copeland (Acting University Librarian), M. Dale, A. Daniele, D. de Vries, B. Deo, M. Green, S. Green, K. Guest, L. Handfield, T. Hanschen (Secretary of Senate), K. Hutchings, E. Korkmaz, J. Kormos, I. Legault, B. Murray, C. Myers (Recording), K. Reimer, R. Robinson, D. Ryan, J. Safaei Boroojeny, P. Sanborn, P. Siakaluk, R. Tait (Acting Dean, CASHS), R. Tallman, S. Wagner, K. Walker, B. Wang, T. Whitcombe, S. Zahir

**Regrets:**

E. Annis, M. Archie, R. Brouwer, D. Burke, G. Iwama (Chair), D. Leighton-Stephens, B. McGill (Acting Dean, Graduate Programs), C. Nolin (Vice Chair), M. Nitz, A. Stroet

**Absent:**

K. Kuo, D. Macknak, D. Nyce, C. Silva

---

The meeting commenced at 3:30 p.m. In the absence of the Chair and Vice-Chair of Senate, the meeting was chaired by the Provost, Dr. Dale. New student Senators were introduced by Dr. Dale.

- 1.0**      **S-201304.01**  
**Approval of the Agenda**  
Whitcombe  
That the agenda for the April 24, 2013 Public Session of Senate be approved as presented.  
CARRIED.

**2.0**      **Approval of Senate Minutes**

Motions S-201304.02 and S-201304.03 were dealt with as an omnibus motion.

- S-201304.02**  
**Revised Senate Minutes of January 23, 2013**  
Whitcombe  
That the revised minutes of the January 23, 2013 Public Session of Senate be approved as presented.  
CARRIED.

- S-201304.03**  
**Revised Senate Minutes of February 20, 2013**  
Whitcombe  
That the revised minutes of the February 20, 2013 Public Session of Senate be approved as presented.  
CARRIED.

**To Senate for Information:**

**2.1** Senate Public Session Meeting Notes of March 20, 2013

The meeting notes from the meeting of March 20, at which no quorum was obtained, were provided for information.

**3.0 Business Arising from Previous Minutes of Senate**

No business arising was identified.

**4.0 President's Report**

**Iwama**

As Dr. Iwama was absent, there was no report from the President.

**5.0 Report of the Provost**

**Dale**

Dr. Dale reported on the status of recruitment for several vacant positions, as follows:

- Dean of Graduate Programs — the committee will be holding videoconference interviews in May
- Dean of CASHS — a candidate has been recommended to the Board of Governors for approval
- Sustainability Manager — a shortlist has been determined
- University Librarian — a shortlist has been created and interviews will take place in May
- Vice-Provost Student Engagement — a shortlist has been established and interviews will be conducted in May
- Athletics Director — a shortlist has been created and interviews will take place May 13-15

**6.0 Report of the Registrar**

**Hanschen**

Mr. Hanschen delivered a presentation, attached to these minutes as "Appendix I."

**7.0 Question Period**

Some questions were raised about the information in Mr. Hanschen's presentation, such as the recruitment of transfer students, declaration of majors, and UNBC's recruitment strategy, to which Mr. Hanschen responded. A Senator asked about the recent increase in parking fees and commented that it was unfair to expect these fees to pay for maintenance of roads and sidewalks. Vice President Bray replied that no money is used from the operating budget to cover the costs of roads and that the money needs to come from fees that are charged and approved by the Board of Governors. A Senator asked about the Request for Proposals (RFP) for the new travel agency and whether parameters could be divulged regarding research grants and the requirement to use a travel agency. Ms. Bray also responded to this question, stating that the RFP had not yet been written. Concern was expressed about the fact that the elevators on campus are often out of service, and Vice President Bray replied that the University has a service provider for the elevators who are called when necessary and that is all that can be done.

**8.0 S-201304.04**

**Approval of Motions on the Consent Agenda**

Casperson

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

9.0 Committee Reports

9.1 Senate Committee on Academic Affairs

Dale

“For Approval” Items:

Motions S-201304.05 and S-201304.06 were dealt with as an omnibus motion.

**S-201304.05**

**Changes to Degree Requirements and Calendar Description — MSc in Business Administration**  
Hutchings

That, on the recommendation of the Senate Committee on Academic Affairs, the change(s) to the degree requirements and calendar description for the MSc in Business Administration, in the 2012/2013 Graduate Calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

**Changes to Course List for First Nations Studies Minor in Indigenous Ecological Knowledge**  
Hutchings

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the course list for FNST "Minor in Indigenous Ecological Knowledge" on page 134 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strikethrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Minor in Indigenous Ecological Knowledge**

The minor in Indigenous Ecological Knowledge assists students to gain an understanding of the unique ways that Indigenous Peoples know and understand the world. This minor prepares students to engage First Nations in collaborative processes that include traditional ways of living and knowing, environmental philosophies, and aboriginal governance.

The minor in Indigenous Ecological Knowledge requires the completion of a minimum of 21 credit hours of study, of which 12 must be at the upper division. A maximum of two courses (6 credit hours) used to fulfil the requirements for a major, or another minor, may also be used to fulfil requirements for this minor. It is the student's responsibility to ensure that they have the required prerequisites.

**Required**

FNST 100-3 The Aboriginal Peoples of Canada

FNST 203-3 Introduction to Traditional Environmental Knowledge

FNST 217-3 Contemporary Challenges Facing Aboriginal Communities

Four of:

FNST 301-3 Art and Material Culture of BC First Nations

FNST 302-3 First Nations Health and Healing

FNST 303-3 First Nations Religion and Philosophy

FNST 304-3 First Nations ~~Environmental~~ Ecological Philosophy and Knowledge

FNST 350-3 Canadian Law and Aboriginal Peoples

FNST 416-3 International Perspective

FNST 440-3 Internship in First Nations Studies

FNST 451-3 Traditional Use Studies

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Page 149, 2012/2013 Calendar 2nd column**

To be awarded the BHSc Honours degree, students are required to complete 128 credit hours. This consists of ~~59~~ 56 credit hours of common requirements for all BHSc students, with the remainder coming from the following Majors, and electives, as follows:

### **Biomedical Studies:**

~~48~~ 45 credit hours of courses from the Biomedical Studies major; ~~42~~ 18 elective credit hours of which at least 3 credit hours must be at the Health Sciences upper level; and the following 9 Honours credit hours:

HHSC 490-6 Honours Thesis  
HHSC 497-3 Senior Seminar

### **Community and Population Health - Aboriginal and Rural Health:**

33 credit hours from the common course requirements for both Community and Population Health Majors, as well as a minimum of 12 credit hours (6 specified, 6 chosen) in Aboriginal and Rural Health-related courses; ~~45~~ 18 credit hours ~~are~~ obtained from elective credit hours; and the following 9 Honours credit hours:

HHSC 490-6 Honours Thesis  
HHSC 497-3 Senior Seminar

### **Community and Population Health - Environmental Health:**

Students take 33 credit hours from the common course requirements for both Community and Population Health Majors, as well as a minimum of 12 credit hours (6 specified, 6 chosen) in Environmental Health-related courses; ~~45~~ 18 credit hours ~~are~~ obtained from elective credit hours; and the following 9 Honours credit hours:

### **S-201304.15**

#### **Changes to Calendar Description — Mathematics and Statistics (BSc Program)**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the calendar description for Mathematics and Statistics (BSc Program), on pages 155, 254 and 281 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## **Page 155**

### **Mathematics and Statistics (BSc Program)**

Website: [www.unbc.ca/math](http://www.unbc.ca/math)

The Department of Mathematics and Statistics provides undergraduate and postgraduate instruction and training in pure mathematics, applied mathematics, and statistics. A Bachelor of Science degree is available in Mathematics, as well as joint BSc degrees in Mathematics and Physics, Economics and Mathematics, Chemistry and Mathematics, and Computer Science and Mathematics.

In addition, there is a minor in Mathematics and a minor in Statistics. A graduate degree (MSc—~~Mathematical, Computer, Physical, and Molecular Sciences Mathematics~~) is also supported by the Department of Mathematics and Statistics. Students interested in graduate studies are advised to consult the UNBC Graduate Calendar for further information.

The Department of Mathematics and Statistics offers Mathematics and Statistics service courses to students in the biological sciences, health sciences, management, economics, social sciences, and other areas.

Some sections of introductory calculus are enhanced through the use of computer software which provides exceptional computational power and high-quality graphical display. Introductory statistics courses teach the use of statistical analysis software to analyze data.

An important feature of the Mathematics degree program is the early emphasis on the development of abstract reasoning and the relation of the abstract to the concrete. The degree requirements have been chosen so as to provide students with a broad background in Mathematics while still leaving them room to pursue individual interests.

For more information please visit our website at [www.unbc.ca/math](http://www.unbc.ca/math).

### Major in Mathematics (~~BSc Program~~)

A major in Mathematics requires 17 ~~mathematics~~ MATH or STAT courses (51 credit hours), at least 30 credit hours of which must be upper-division courses: and, of those upper-division credit hours, at least 12 must be taken at the 400 level.

MATH 342-3 (Biostatistics) may not be used for credit towards any Mathematics major, minor, or joint major.

MATH 150-3 (Finite Mathematics for Business and Economics) may not be used for credit towards any Mathematics major or joint major.

The minimum requirement for completion of a Bachelor of Science with a major in Mathematics is 120 credit hours.

### Program Requirements

Note: Unless otherwise stated, students enrolling in any ~~Mathematics~~ MATH or STAT courses with prerequisites are required to have completed all prerequisite courses for that course with a C- or better, or have permission to enroll from the Department Chair.

#### Literacy Requirement

One of:  
ENGL 170-3 Writing and Communication Skills  
ENGL 270-3 Expository Writing

#### Lower-Division Requirement

100 Level  
CPSC 100-4 Computer Programming I

CPSC 141-3 Discrete Computational Mathematics  
MATH 100-3 Calculus I  
or MATH 105-3 Enriched Calculus  
MATH 101-3 Calculus II

200 Level  
MATH 200-3 Calculus III  
MATH 201-3 Introduction to Complex Analysis  
MATH 220-3 Linear Algebra  
MATH 224-3 Foundations of Modern Mathematics  
MATH 230-3 Linear Differential Equations and Boundary Value Problems

### Recommended

CPSC 101-4 Computer Programming II  
CPSC 242-3 Mathematical Topics for Computer Science

### General Science Requirement

Two of:  
BIOL 101-4 Introductory Biology I  
BIOL 102-4 Introductory Biology II  
CHEM 100-3 General Chemistry I  
and CHEM 120-1 General Chemistry Lab I  
CHEM 101-3 General Chemistry II  
and CHEM 121-1 General Chemistry Lab II  
PHYS 100-4 Introduction to Physics I  
or PHYS 110-4\* Introductory Physics I:  
PHYS 111-4\* Introductory Physics II: Waves and Electricity

\*Note: PHYS 110-4 (Introductory Physics I: Mechanics)  
and PHYS 111-4 (Introductory Physics II: Waves and Electricity) are strongly  
recommended for all majors.

### Upper-Division Requirement

300 Level  
MATH 302-3 Theory of Metric Spaces  
MATH 320-3 Survey of Algebra  
MATH 336-3 Intermediate Differential Equations  
or MATH 335-3 Numerical Analysis I  
STAT 371-3 Probability and Statistics for Scientists and Engineers  
STAT 372-3 Mathematical Statistics

300 or 400 Level  
MATH 326-3 Advanced Linear Algebra  
or MATH 405-3 Topology

400 Level  
Twelve additional credit hours of 400-level MATH or STAT courses.

### Elective and Academic Breadth

Elective credit hours as necessary to ensure completion of a minimum  
of 120 credit hours including any additional credit hours necessary to meet  
the Academic Breadth requirement of the University (see Academic  
Regulation 15).

## Page 254

### Mathematics

*Note that BC Introductory Mathematics 11, Applications of  
Mathematics 11, Essentials of Mathematics 11, Applications  
of Mathematics 12, and Essentials of Mathematics 12 are not  
considered prerequisites for any ~~Mathematics~~ MATH courses as currently  
taught.*

*A student may enroll in any ~~Mathematics~~ MATH course with permission of the Department Chair. Unless otherwise stated, students enrolling in any ~~Mathematics~~ MATH courses with prerequisites are required to have completed all prerequisite courses for that course with a C- or better, or have permission to enroll from the Department Chair.*

Page 281

## Statistics

*A student may enroll in any STAT course with permission of the Department Chair. Unless otherwise stated, students enrolling in any STAT courses with prerequisites are required to have completed all prerequisite courses for that course with a C- or better, or have permission to enroll from the Department Chair.*

Motions S-201304.16 and S-201304.17 were dealt with as an omnibus motion.

### **S-201304.16**

#### **Revision to Calendar Description — Northern Collaborative Baccalaureate Nursing Program (Addition of the “Time Lapse Between Clinical Practica” Paragraph)**

Tait

That, on the recommendation of the Senate Committee on Academic Affairs, the addition of the “Time Lapse Between Clinical Practica” paragraph after the “Leave of Absence” paragraph in the Northern Collaborative Baccalaureate Nursing Program, on page 171 of the 2012-2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

### **Leave of Absence**

Students wanting to take a Leave of Absence must apply, in writing, to the Nursing Advisor at the institution that the student is currently attending. Upon approval, students are eligible for up to a one-year Leave of Absence. Students who do not apply for a Leave of Absence will be considered to be out-of-sequence and will lose their priority for registration.

### **Time Lapse Between Clinical Practica**

Students who are out of clinical practice in a Nursing education program for more than 18 months will be assessed to determine what clinical practice remediation is needed. This may include repeating clinical courses taken previously, regardless of whether the student successfully completed the course.

Students reapplying to the program after a leave of over 18 months will need to be re-evaluated as to the level at which they will need to re-enter the program.

### **S-201304.17**

#### **Revision to Calendar Description — Northern Collaborative Baccalaureate Nursing Program Section Under the “Undergraduate Programs of Study”**

Tait

That, on the recommendation of the Senate Committee on Academic Affairs, the change to the calendar description for the Northern Collaborative Baccalaureate Nursing Program section under the “Undergraduate Programs of Study,” on page 169 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: May 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Undergraduate Programs of Study

UNBC offers the following programs:

- **Northern Collaborative Baccalaureate Nursing Program** (NCBNP) is offered collaboratively between UNBC, the College of New Caledonia (CNC), and Northwest Community College (NWCC), providing entry into the nursing profession. The integrated program of studies leads to a Bachelor of Science in Nursing (BScN), awarded by UNBC. Graduates are eligible to write the ~~Canadian Registered Nurse Examination~~ National Council Licensure Examination (NCLEX-RN) and to apply for registration with the College of Registered Nurses of British Columbia (CRNBC) after passing the exam.
- **Post-Diploma Baccalaureate Nursing Program** for registered nurses is offered by UNBC. Acknowledging the previous learning of post-RNs, the program is organized to expand and update knowledge and skills for nursing practice. Students have the opportunity to focus in one area of practice. Successful completion of the program leads to a BScN.

### **S-201304.18**

#### **Changes to Program Requirements — BSc Honours - Psychology**

Tait

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the change(s) to the BSc Honours - Psychology requirements, on page 181 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: May 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## BSc Honours – Psychology

Honours students are required to complete 122 credit hours. Students must successfully complete the ~~56~~ **53** credit hours for the Psychology BSc program, ~~54~~ **57** credit hours of electives and 12 credit hours from the courses listed below.

PSYC 490-3 Honours Thesis I

PSYC 495-3 Honours Thesis II

PSYC 497-3 Senior Seminar

and one additional 400-level Psychology course.

Each student must complete a thesis ~~project~~ [PSYC 490-3 (Honours Thesis I), PSYC 495-3 (Honours Thesis II)] under the supervision of a faculty member. ~~Admission Entry~~ to the Honours Program takes place after the end of the second year (i.e., upon completion of 60 credit hours) and requires a minimum Cumulative GPA of 3.33. Attaining the minimum requirement does not guarantee ~~admission entry~~ to the Honours Program, which will be at the discretion of the Department.

To remain in the Honours Program students must maintain a minimum Cumulative GPA of 3.33 to be calculated at the end of each semester as well as receive no grade lower than a C+ in any course after ~~admittance~~ entry to the Honours Program.

The minimum requirement for completion of a BSc Honours - Psychology is 122 credit hours.

**S-201304.19**

**Approval of Memorandum of Agreement Between North Island College and the University of Northern British Columbia**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Policy and Planning, the Memorandum of Agreement between North Island College and the University of Northern British Columbia be approved as proposed.

Effective date: September 2013

CARRIED.

**“For Information” Items:**

**SCAAF201304.04**

**Changes to Course Prerequisite — ANTH 213-3**

Casperson

That the change to the course prerequisite for ANTH 213-3 Peoples and Cultures, on page 189 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: May 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This course examines the diversity of human cultures and languages through the comparison of contemporary societies, and patterns of social organization.

Precluded: ANTH-101

Students cannot receive credit for the course being described and the course(s) listed as Precluded

Restrictions: ~~May not be enrolled as the following Classifications: First year~~

**SCAAF201304.19**

**Changes to Calendar Description — COMM 763-12**

Casperson

That the change(s) to the calendar description for COMM 763-12 Master's Thesis, on page 107 of the 2012/2013 Graduate Calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**COMM 763 – 12 Master's Thesis**

Designed and executed by the student, the MSc thesis involves an original empirical investigation in the chosen specialized area of business administration.

*Prerequisites:* ~~COMM 661, COMM 662, and COMM 760~~

**SCAAF201304.05**

**Changes to Course Title and Calendar Description — FNST 203-3**

Casperson

That the change(s) to the course title and calendar description for FNST 203-3 Introduction to Traditional Environmental Knowledge, on page 233 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

FNST 203-3 Introduction to Traditional ~~Environmental~~ Ecological Knowledge

Designed for students with an interest in ~~First Nations~~ traditional ~~environmental~~ ecological knowledge, (TEK). ~~Students will develop research, writing and communication skills. The interdisciplinary course combines theory and practices from TEK literature, cultural ecology, ethnoscience and international development literature. Students will learn a particular TEK of particular interest to First Nations in Northern British Columbia. This course takes an experiential approach to Indigenous ecological practices in British Columbia and beyond. Students explore and apply Indigenous ecological knowledge introduced through literature, discussion, and visits by local knowledge holders.~~

**SCAAF201304.06**

**Changes to Course Title and Calendar Description — FNST 233-3**

Casperson

That the change(s) to the course title and calendar description for FNST 233-3 Carrier Language: Level 3, on page 233 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

FNST 233 – Carrier Dakelh Language: Level 3

This course focuses on the development of speaking and understanding ~~of the Carrier Dakelh~~ language, and including reading and writing skills, at the ~~Intermediate~~ level.

**SCAAF201304.07**

**Changes to Course Title and Calendar Description — FNST 234-3**

Casperson

That the change(s) to the course title and calendar description for FNST 234-3 Carrier Language: Level 4 (Advanced Intermediate), on page 233 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

FNST 234 – Carrier Dakelh Language: Level 4 (Advanced Intermediate)

This course focuses on the development of speaking and understanding ~~of the Carrier Dakelh~~ language, including and reading and writing skills, at the ~~Intermediate level 4 (advanced intermediate)~~.

**SCAAF201304.08**

**Changes to Calendar Description — FNST 235-3**

Casperson

That the change(s) to the calendar description for FNST 235-3 Haisla Language (X\_a'islak'ala): Level 3, on page 233 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

FNST 235 - Haisla Language (X\_a'islak'ala): Level 3

This course focuses on the development of speaking and understanding of the X\_a'islak'ala language, including ~~and~~ reading and writing skills, at the intermediate level.

**SCAAF201304.09**

**Changes to Calendar Description — FNST 236-3**

Casperson

That the change(s) to the calendar description for FNST 236-3 Haisla Language (X\_a'islak'ala): Level 4 (Advanced Intermediate), on page 233 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

FNST 236 - Haisla Language (X\_a'islak'ala): Level 4 (Advanced Intermediate)

This course focuses on the development of speaking and understanding of the X\_a'islak'ala language, including ~~and~~ reading and writing skills, at the intermediate level 4 (advanced Intermediate).

**SCAAF201304.10**

**Changes to Calendar Description — FNST 237-3**

Casperson

That the change(s) to the calendar description for FNST 237-3 Ts'msyen Language (Sm'algyax): Level 3, on page 234 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

FNST 237 – ~~Ts'mshian~~ Ts'msyen Language (Sm'algyax): Level 3

This course focuses on the development of speaking and understanding of Sm'algyax, including ~~and~~ reading and writing skills, at the intermediate level.

**SCAAF201304.11**

**Changes to Calendar Description — FNST 238-3**

Casperson

That the change(s) to the calendar description for FNST 238-3 Ts'msyen Language (Sm'algyax): Level 4 (Advanced Intermediate), on page 234 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

FNST 238 - ~~Tsimshian~~ Ts'msyen Language: Level 4 (Advanced Intermediate)  
This course focuses on the development of speaking and understanding of Sm'algyax, including and-reading and writing skills, at the-Intermediate level 4 (advanced intermediate).

#### **SCAAF201304.12**

##### **Changes to Course Title and Calendar Description — FNST 304-3**

Casperson

That the change(s) to the the course title and calendar description for FNST 304-3 First Nations Environmental Philosophy and Knowledge, on page 235 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

FNST 304 - ~~First Nations~~ Indigenous Environmental Philosophy ~~and Knowledge~~

~~A seminar on the knowledge and attitudes about the environment in First Nations cultures. First Nations representatives will participate in the seminar, exploring Indigenous philosophy, knowledge, contemporary issues and perspectives, this interdisciplinary course draws on literature from fields such as traditional ecological knowledge (TEK), cultural ecology, ethnoscience, and international development. Students develop research, writing and communication skills.~~

#### **SCAAF201304.21**

##### **Changes to Calendar Descriptions — FNST 240-3, FNST 244-3, FNST 246-3**

Casperson

That the change(s) to the calendar descriptions for Level 4 language courses FNST 240-3, 244-3, and 246-3, on pages 232 and 233 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

FNST 240 - Nisga'a Language: Level 4

This course focuses on the development of speaking and understanding ~~of~~ the Nisga'a language, including reading and writing skills, at level 4 (advanced intermediate). Materials studied ~~will~~ include modern texts as well as tapes of Elders.

FNST 244

This course provides advanced study of the conversational and written elements of Gitksanimx, at level 4 (advanced intermediate).

FNST 246

This course focuses on the development of speaking and understanding the Tsilhqot'in language, including reading and writing skills at level 4 (advanced intermediate).

### **SCAPP201303.09**

#### **Changes to Course Prerequisite — STAT 471-3**

Casperson

That the changes to the course prerequisite for STAT 471-3 Linear Models, on page 281 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **STAT 471 - Linear Models**

This course discusses the estimation of parameters in the multiple linear regression model by the least-squares method. Topics covered include the statistical properties of the least-squares estimators, the Gauss-Markov theorem, estimates of residual and regression sums of squares, distribution theory under normality of the observations, assessment of normality, variance stabilizing transformations, examination of multicollinearity, variable selection methods, logistic regression for a binary response-, log-linear models for count data, and generalized linear models.

#### **Prerequisites:**

One of ~~the following~~: MATH 150-3 or MATH 220-3; and one of ECON 205-3, MATH 240-3, MATH 371-3, PSYC 315-4, STAT 240-3 or STAT 371-3

**Precluded:** MATH 671-3, MATH 499-3 Regression

### **SCAPP201303.10**

#### **Changes to Course Prerequisite — STAT 473-3**

Casperson

That the changes to the course prerequisite for STAT 473-3 Experimental Design and Analysis, on page 281 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

#### **STAT 473 - Experimental Design and Analysis**

This course discusses experimental designs and analyses. Topics covered include basic principles and guidelines for designing experiments, simple comparative designs, single factor, analysis of variance, block designs, factorial designs, response surface methods and designs, nested and split plot designs, and the analysis of covariance.

#### **Prerequisites:**

One of ~~the following~~: MATH 150-3 or MATH 220-3; and one of MATH 240-3, MATH 371-3, ECON 205-3, PSYC 315-4, STAT 240-3, or STAT 371-3

#### **Precluded:**

MATH 473-3, MATH 499-3 Design of Experiments

**S-201304.20****Changes to the Admissions Section in the Northern Collaborative Baccalaureate Nursing Program**

Zahir

That, on the recommendation of the Senate Committee on Admissions and Degrees, the changes to the Admissions section in the Northern Collaborative Baccalaureate Nursing Program, on page 172 of the 2012-2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~Applicants from BC and Yukon secondary schools must:~~

- ~~• meet UNBC admission requirements, and~~
- ~~• have completed the following courses with a minimum C+ (65%) in each course:~~
  - ~~— one of Foundations of Mathematics 11, Pre-calculus 11, or Principles of Math 11~~
  - ~~— Chemistry 11~~
  - ~~— English 12~~
- ~~• have completed Biology 12 with a minimum B (73%) within 5 years prior to the semester of admission to the NCBNP~~

~~Other a~~Applicants must:

- meet UNBC admission requirements, and
- have completed the equivalent of the following BC secondary school courses with a minimum C+ (67%) (~~65%~~) in each course:
  - one of Foundations of Mathematics 11, Pre-calculus 11, or Principles of Math 11
  - Chemistry 11
  - English 12
- have completed the equivalent of Biology 12 with a minimum B (73%) within 5 years prior to the semester of admission to the NCBNP

**S-201304.21****Changes to the Section “Admission from Secondary Schools and CEGEP in Other Canadian Provinces”**

Zahir

That, on the recommendation of the Senate Committee on Admissions and Degrees, the change(s) to the section “Admission from Secondary Schools and CEGEP in Other Canadian Provinces” be approved as proposed.

Effective date: January 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Alberta, the Northwest Territories and Nunavut

Successful completion of an academic grade 12 program that leads to graduation and

includes at least five courses with an overall 65% average selected from:

English Language Arts 30-1

at least three additional courses selected from the following: Aboriginal Studies 30, Biology 30, Blackfoot Language and Culture 30, Chemistry 30, Chinese Language and Culture 30, Cree 30, Cree Language and Culture 30, English 35, Experiential Science 30, Français 30-1 or 30-2, French 30, French 31A/B/C, French Language Arts 30-1 or 30-2, German 30/30S, German 31, German Language and Culture 30, German Language Arts 30, Gonawo K'e 35, Inuktitut 35, Inuktitut Studies 35, Italian Language and Culture 30, Japanese Language and Culture 30, Latin 30, Mathematics 30-1, Mathematics 31, Physics 30, Pure Mathematics 30, Science 30, Social Studies 30-1 or 30-2, South Slavey 35, Spanish Language and Culture 30, ~~Tilcho Yatı 25~~, Ukrainian Language and Culture 30/30S, Ukrainian Language Arts 30

additional level 30 or level 31 courses necessary for the successful completion of grade 12. The fifth course subject must be distinct from the four academic courses (e.g., English Language Arts 30-1 and English Language Arts 30-2 cannot both be used).

Saskatchewan

Successful completion of an academic level three (grade 12) program that leads to graduation and includes at least seven academic courses with an overall 65% average (five of which are at the 30 level) selected from:

English A30 and B30

Math A30, or B30, or C30 or Pre-Calculus 30

at least three additional courses numbered 30 selected from the following subjects: Biology 30, Calculus 30, Chemistry 30, Computer Science 30, Economics 30, Français A30 or B30, French 30, Geography 30, Geology 30, German 30, History 30, Latin 30, Law 30, Mandarin 30, Mathematics 30, Native Studies 30, Physics 30, Psychology 30, Social Studies 30, Spanish 30, Ukrainian 30, Ukrainian Language Arts 30

additional acceptable courses necessary to graduate

Manitoba

Successful completion of an academic Sr 4 level (grade 12) program that leads to graduation and includes at least five courses with an overall average of 65% selected from:

- English 40S or 40U (One of Comprehensive Focus, Literary Focus or Transactional Focus)

- three or more of the additional courses should be selected from the following: Biology 40S, Chemistry 40S, Computer Science 40S, Français 40S, Geography 40S, History 40S, Language 40S,

Law 40S, Mathematics 40S, Native Canadian Languages 40S, Physics 40S, Pre Calculus 40S, Social Science 40S/World Issues 40S, Western Civilization 40S

- one additional course from above or another area at the 40A (advanced), 40G (general), or 40S (specialized) level and any further work necessary to graduate

## Ontario

Successful completion of the Ontario Secondary School Diploma (OSSD), or equivalent, including five Grade 12 U or 4U/4M U/C courses with an overall 65% average including:

- ~~Grade 12 U English~~ 4U
- four additional ~~Grade 12 4U/4M or U/C~~ courses

All high school courses applied as prerequisites for UNBC courses must be drawn from the “University” designation. Not more than one course proposed for admission may be drawn from the “Arts” category.

**Senate Committee on the University Budget**

Faculty Member — Professional Program (until March 31, 2015)	Dr. John Curry
Graduate Student (until March 31, 2014)	Kirk Walker
Undergraduate Student (until March 31, 2014)	Julian Brown
Student Senator (until March 31, 2014)	Daniel Burke

**Senate Committee on Student Discipline Appeals**

Faculty Senator — CSAM (until March 31, 2016)	Rick Tallman
Graduate Student (until March 31, 2014)	Jeff Kormos
Undergraduate Student (until March 31, 2014)	Kirsten Reimer
First Nations Student (until March 31, 2014)	Julian Brown
Administrative Staff Member (to March 31, 2016)	Robert Giardino

Senator Zahir called for further nominations from the floor, and there were none. The motion was CARRIED.

**“For Information” Items:**

**Student Senators elected to Senate for positions beginning April 1, 2013:**

Undergraduate Student Senator	Julian Brown
Undergraduate Student Senator	Daniel Burke
Undergraduate Student Senator	Darren deVries
Undergraduate Student Senator	Isabelle Legault
Undergraduate Student Senator	Melissa Nitz
Undergraduate Student Senator	Kirsten Reimer
Graduate Student Senator	Anthony Daniele

**10.0 Other Business**

A Senator commented that there are University policies calling for action by Senate committees in which the committees are referred to by their old names, and asked whether the policies would be revised to reflect the current Senate committee names. Dr. Dale and Mr. Hanschen responded in the affirmative and added that these policies are slowly being updated.

**11.0 Information**

There were no items for information.

**12.0 S-201304.26  
Move to In Camera Session**

Tait  
That the meeting move In Camera.  
CARRIED.

**13.0 S-201304.30  
Adjournment**

Whitcombe  
That the Senate meeting be adjourned.  
CARRIED.

The meeting ended at 4:45 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

May 22, 2013

3:30 – 5:30 PM

Senate Chambers (Room 1079 Administration Building)

---

**Present:**

E. Annis (Acting University Librarian), R. Bird, R. Brouwer, D. Casperson, M. Dale, A. Daniele, B. Deo, K. Guest, T. Hanschen (Secretary of Senate), K. Hutchings, G. Iwama (Chair), E. Korkmaz, J. Kormos, K. Kuo, D. Leighton-Stephens, B. McGill (Acting Dean, Graduate Programs), B. Murray, C. Myers (Recording), M. Nitz, C. Nolin (Vice Chair), D. Nyce, K. Reimer, D. Ryan, J. Safaei Boroojeny, P. Sanborn, P. Siakaluk, A. Stroet, R. Tait (Acting Dean, CASHS), S. Wagner, K. Walker, B. Wang, T. Whitcombe, S. Zahir

**Regrets:**

M. Archie, J. Brown, D. Burke, D. de Vries, M. Green, S. Green, L. Handfield, I. Legault, R. Tallman, R. Robinson, C. Silva

**Absent:**

D. Macknak

---

The meeting commenced at 3:30 p.m. Dr. Iwama welcomed Senator Annis as the Acting University Librarian.

**1.0**      **S-201305.01**  
**Approval of the Agenda**  
Zahir

That the agenda for the May 22, 2013 Public Session of Senate be approved as presented.

Mr. Hanschen asked that agenda item 10.0 (Approval of Motions from the Consent Agenda) be removed from the agenda as there were no items on the consent agenda.

**Motion:**

Kuo

That the agenda be amended to remove agenda item 10.0.

CARRIED.

The motion to approve the agenda, as amended, was also CARRIED.

**2.0**      **S-201305.02**  
**Approval of Senate Minutes**  
Hutchings

That the minutes of the April 24, 2013 Public Session of Senate be approved as presented.

CARRIED.

### **3.0 Business Arising from Previous Minutes of Senate** *(no material)*

No business arising was identified.

### **4.0 President's Report** **Iwama**

Dr. Iwama reported on several items, and his report is attached to these minutes as "Appendix I."

### **5.0 Report of the Provost** **Dale**

Dr. Dale thanked all those involved in the creation of the Engineering Master's degree. He also reported on the status of recruitment for several vacant positions, as follows:

- Dean of Graduate Programs — the committee is holding videoconference interviews
- Dean of CASHS — Dr. Blanca Schorcht has been announced as the successful candidate
- Sustainability Manager — interviews will begin early in June
- University Librarian — selection of a candidate has taken place, with an announcement expected in the very near future
- Vice-Provost Student Engagement — a candidate has been selected, which will hopefully be announced in the very near future
- Athletics Director — selection of a candidate has taken place, and an announcement is expected in the very near future

### **6.0 Report of the Registrar** **Hanschen**

The Registrar provided a brief report about Convocation, noting the number of graduands for Prince George and other locations. Mr. Hanschen also stated that, weather permitting, there would be an outdoor procession to the Northern Sport Centre this year. He also encouraged Senators to please volunteer at the ceremonies.

### **7.0 Question Period**

A Senator asked about the status of the quality assurance act expected to come into effect in the fall. Dr. Iwama reported that the Research Universities' Council of British Columbia had prepared a position paper on this matter. Dr. Dale added that, although he did not think this matter would be abandoned by the government, he also did not think anything would happen quickly.

A Senator asked whether the position of Director of Regional Operations had been posted. Dr. Dale replied that it had not yet been posted because discussions were ongoing about the numerous recommendations arising from the external review and how the structure might be improved.

A question was raised about whether the Director of Continuing Studies position on Senate would be filled. Mr. Hanschen responded that the Steering Committee of Senate would be addressing this matter, as the Director of Continuing Studies falls under the purview of the Director of Ancillary Services.

A Senator asked about the status of the proposals with regard to the engineering degrees. Dr. Dale replied that Senate had approved, in principle, the proposals for the Bachelor of Science for Engineering, but not the Master of Science. Thus, the proposals would need to be considered by College Council, the Senate Committee on Academic Affairs, and then Senate.

### **8.0 Removal of Motions from the Consent Agenda**

There were no items on the consent agenda.

**9.0 Committee Reports**

**9.1 Steering Committee of Senate**

**Iwama**

**9.1.1 July Senate meeting**

Dr. Iwama noted that, consistent with past practice, the Steering Committee of Senate decided to cancel the July Senate meeting.

**9.2 Senate Committee on Nominations**

**Zahir**

**“For Approval” Items:**

**S-201305.03**

**Membership Changes to Senate Committees (no material)**

Deo

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate committees as indicated, be appointed as proposed.

Effective date: Immediately upon approval by Senate

Committee Chair, Senator Zahir, asked that the position on the Senate Committee on Academic Affairs be removed from this list when considering the motion.

**SENATE COMMITTEE POSITION TO BE FILLED**  
***(except as otherwise noted, all terms begin immediately)***

**CANDIDATE**

**Senate Committee on Academic Appeals**

Faculty Member — Professional Program (until March 31, 2016)

Catharine Schiller

**Senate Committee on Academic Affairs**

Faculty Member — Professional Program (until March 31, 2016)

Catharine Schiller

**SCAAF Continuing Studies Credit Committee**

Faculty Member — Professional Program (until March 31, 2014)

Lantana Usman

**Senate Committee on the University Budget**

Faculty Member (until March 31, 2015)

Wendy Fellers

Senator Zahir called for further nominations three times, and there being none, the motion was CARRIED, with the removal of the following position on the Senate Committee on Academic Affairs:

**Senate Committee on Academic Affairs**

Faculty Member — Professional Program (until March 31, 2016)

Catharine Schiller

**10.0 S-201305.04**

**Approval of Motions on the Consent Agenda**

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

This motion was removed from the agenda.

**11.0 Other Business**

**11.1 Presentation — UNBC at 25 years old: Identifying and Realizing Opportunities**

**van Adrichem**

Vice President van Adrichem delivered a presentation, attached to these minutes as Appendix II. He also responded to questions from Senators.

In response to a Senator's question about whether UNBC's fundraising approach was integrated, Dr. Iwama noted that UNBC had hired some fundraising consultants, who had been on campus recently. Furthermore, several matters have been introduced, such as the conversations regarding priorities, the Wood Innovation and Design Centre, the Canada Winter Games, and the upcoming anniversaries of UNBC and the City of Prince George. Dr. Iwama indicated that people need to work diligently to ensure synergy between these initiatives.

A Senator suggested that Alumni be provided with ample notice of the UNBC 25<sup>th</sup> anniversary celebrations to take place in 2015. Mr. van Adrichem responded that Alumni will be involved with the University planning committee, which he suggested should be created this fall. The fall issue of "Update" will be the first major announcement of the 25<sup>th</sup> anniversary. The possibility of receiving capital projects or a physical education program, for instance, as a result of the Winter Games was questioned. Mr. van Adrichem replied that those types of projects were really legacy projects, and that influencing those conversations is challenging. He added that he would like to see the establishment of endowed scholarship funds in relation to the Games.

Senators discussed the acronym "Green," noting perceived positive and negative issues associated with it. Dr. Dale explained how the acronym came into existence and opined that "Green" has to mean more than sustainability but that the acronym also needs to be treated with caution.

#### **11.1.1 Discussion of Academic Priorities for Fundraising**

**Iwama**

A Senator asked how Senators' vision of academic priorities for fundraising could be determined. Dr. Iwama asked what had been conveyed to the fundraising consultants when they were on campus last week. Dr. Iwama added that this consultation was only the beginning of the conversation and that the consultants are working on a draft plan on which feedback will be sought. A Senator said he would be curious to see what Senior Administrators see as academic priorities and whether Senate agrees.

Many Senators were not aware of with whom the consultants had met, and asked how to engage with them. Dr. Iwama replied that the consultants had been invited from the east coast and Vancouver on the recommendation of the Webster Foundation, and it happened that they worked well together so have been working as a team. The consultants will be working over the summer to develop a plan. Dr. Iwama asked Ms. Scouten, Development Manager, to comment on the set priorities, and she responded that a beginning list of priorities was presented to the consultants as background information. After considering the input of donors and people external to the University, the consultants will be looking at how fundraising fits in with the stated priorities and will then produce a list of fundraising initiatives donors will support. The University is currently waiting to hear back from the consultants in this regard. Dr. Iwama asked Ms. Scouten whether it would be helpful for Senators to see the list of priorities and the people the consultants met with. Ms. Scouten responded that the consultants met with the Deans, Directors, Chairs, some staff members, and Athletics, and that they probably met with 20 to 25 people. Dr. Iwama asked if the list and upcoming report could be shared with Senate, stating that he was open to supporting Senate involvement in this process.

A Senator expressed that funding scholarships and bursaries is important, and that Senate may wish to think about which is more important, scholarships or bursaries. Dr. Iwama added that the UNBC community has also been discussing what kind of a university we want to be and what types of students we want to attract. Scholarships and bursaries will definitely be one of the categories for which the University will be asking for help from donors. When the President was asked whether he had an amount in mind for fundraising, he replied that it had not yet been set but that we need to enable ourselves and think large. When asked whether the consultants were here to help UNBC target donors or set priorities, Dr. Iwama responded that the consultants have stated that they need to talk to the community, because without support, this process will stall. Dr. Iwama added that it is important to him to know what the community wants.

#### **12.0 Information**

##### **12.1 Report of the Harassment and Discrimination Advisor (May 1, 2012 – April 30, 2013)**

Dr. Iwama expressed his thanks to Senator Wagner for her report.

13.0 **S-201305.05**  
**Move to In Camera Session**  
Casperson  
That the meeting move In Camera.  
CARRIED.

**Adjournment**  
Whitcombe  
That the Senate meeting be adjourned.  
CARRIED.

The meeting ended at 5:10 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

June 26, 2013  
3:30 – 5:30 PM

Senate Chambers (Room 1079 Administration Building)

---

**Present:**

E. Annis (Acting University Librarian), D. Casperson, M. Dale, B. Deo, M. Green, S. Green, K. Guest, T. Hanschen (Secretary of Senate), K. Hutchings, E. Korkmaz, J. Kormos, I. Legault, D. Leighton-Stephens, B. Murray, C. Myers (Recording), M. Nitz, C. Nolin (Vice Chair), K. Reimer, R. Robinson, D. Ryan, P. Siakaluk, R. Tait (Acting Dean, CASHS), R. Tallman, S. Wagner, K. Walker, T. Whitcombe, S. Zahir

**Regrets:**

R. Bird, R. Brouwer, J. Brown, D. Burke, A. Daniele, D. de Vries, L. Handfield, G. Iwama (Chair), K. Kuo, A. LeBlanc, B. McGill (Acting Dean, Graduate Programs), D. Nyce, P. Sanborn, C. Silva, A. Stroet

**Absent:**

M. Archie, J. Safaei Boroojeny, B. Wang

---

The meeting commenced at 3:35 p.m. In the absence of Dr. Iwama, the meeting was chaired by Senator Nolin.

**1.0 S-201306.01**

**Approval of the Agenda**

Zahir

That the agenda for the June 26, 2013 Public Session of Senate be approved as presented.  
CARRIED.

**2.0 S-201306.02**

**Approval of Senate Minutes**

Zahir

That the minutes of the May 22, 2013 Public Session of Senate be approved as presented.  
CARRIED.

**3.0 Business Arising from Previous Minutes of Senate (no material)**

No business arising was identified.

**4.0 President's Report**

**Iwama**

As Dr. Iwama was not in attendance, there was no report from the President.

- 5.0 Report of the Provost** **Dale**
- Dr. Dale reported that the positions of University Librarian and Dean of Graduate Programs had been filled effective September 1 and subject to approval by the Board of Governors. Negotiations were currently underway to fill the position of Sustainability Manager, also effective September 1 pending approval by the Board.
- With regard to the UNBC regions, Dr. Dale indicated that there were vacancies for Regional Coordinators in the South-Central and Northwest regions, and that the Director of Regional Operations had retired. Thus, ways in which improvements might be made with regard to operations in the regions was currently under review and Senate would be provided with an update in the near future.
- 6.0 Report of the Registrar** **Hanschen**
- The Registrar had nothing to report.
- 7.0 Question Period**
- A Senator asked who would be the Acting Dean of Graduate Programs after July 1, and Dr. Dale responded that Dr. McGill would continue in the role until the new Dean takes office.
- 8.0 Removal of Motions from the Consent Agenda**
- No requests were made to remove motions from the Consent Agenda.
- 9.0 Committee Reports**
- 9.1 Senate Committee on Academic Affairs** **Dale**

#### **Changes to Calendar Description — Education Program**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the changes the Education Program calendar description, on pages 100-108 of the 2013-2014 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

UNBC's BEd program provides students with the course work and classroom experience to prepare them to be qualified teachers. Upon successful completion of the program, graduates are recommended to the BC Ministry of Education – Teacher Regulation Branch (TRB) for professional certification. Certification by the TRB is required for employment in the British Columbia public school system.

The Elementary and Secondary programs in Prince George begin in September of each year. The Elementary program in Terrace begins in September of each odd-numbered year. The application deadline for all Education programs is March 15 of the year in which students intend to begin their program. Students needing advice about the application process or about admission requirements are encouraged to contact either the Student Recruitment and Advising Centre or ~~the School Experience Office~~ in the School of Education. Students who are interested in applying to the BEd program at the Terrace campus may also contact the Northwest Regional campus for information.

## Elementary (Grades K-7)

The Elementary stream prepares teacher candidates to work with the unique learning needs of children who are beginning their school years. This model reflects current thinking about optimizing the match between educational theory and children's levels of cognitive and social development. The Elementary stream is designed to educate teachers to combine pedagogical excellence across disciplinary areas with a learner-centered approach to practice. Philosophically, the program is designed around constructivist principles, and it emphasizes approaches to practice such as inquiry-based learning, strategies for instruction, integration of language across the curriculum, inclusion of diverse learners and perspectives, the development of caring and respectful communities of learners, and reflective practice. Successful applicants to the Elementary stream are assigned to a cohort group of students and normally take their Education courses with that cohort group over the two years.

### Admission Requirements

Applicants to the BEd degree Elementary stream must have completed (with a minimum ~~grade point average~~ GPA of 2.33 (C+) on the most recent 60 credit hours of university credit hours completed), one of the following:

- an acceptable three- or four-year ~~Bachelor's degree~~ of which sixty (60) credit hours, including 30 senior level credit hours, must be in Arts, Science, or other teachable fields relevant to the BC School system, or
- a minimum of ninety (90) credit hours of undergraduate course work, of which sixty (60) credit hours, including 30 senior level credit hours, must be in Arts, Science, or other teachable fields relevant to the BC School system.

Applicants to the BEd degree completion program must have completed a UNBC Education Diploma in a First Nations Language and Culture (minimum 92 credit hours).

Transfer credit for course work relating to the ~~ninety (90)~~ credit hours that ~~has have~~ been completed prior to UNBC registration shall not be subject to the ten-year provision in the ~~u~~University ~~e~~Calendar regulation regarding Time Limit for Transfer Credit but shall be determined by the School of Education. In addition to the admission requirements described above, the following requirements must be met (see note following):

1. Successful completion, with a C+ average, of six (6) credit hours of acceptable English literature and composition at any level (one of the following: (a) three (3) credit hours of English literature and three (3) credit hours of English composition or (b) six (6) credit hours of acceptable English literature). Courses in linguistics, language study, grammar, technical or business writing, communication, or English as a ~~Second Language~~ are not acceptable to meet the English requirement.
2. Three (3) credit hours in ~~Mathematics~~ Mathematics (not including Statistics).
3. Three (3) credit hours in a laboratory science. Laboratory science credit hours are normally selected from Biology, Chemistry, Physical Geography, or Physics.
4. ~~Six (6) credit hours of approved Canadian Studies, at any level, applicable to teaching in the British Columbia school curriculum.~~ **3 credit hours of Canadian History or 3 credit hours of Canadian Geography plus 3 credit hours of Canadian Studies (this course must contain significant Canadian content).** Credit hours will normally be selected from Anthropology, First Nations Studies, Geography, History, Northern Studies, or Political Science courses that contain significant Canadian content (upon review, credit hours from other disciplines may be recognized as meeting the Canadian content requirement).
5. Submission of the completed application forms including the Experience with Children and Youth statement (résumé format), three (3) Confidential Reference Forms, and the Personal Statement.

Note: Applicants who do not meet the requirements in items 1-4 above but who otherwise meet the admission requirements may be admitted provisionally to the BEd program with the approval of the Chair if they have completed a minimum of 12 credit hours of the required course work. Applicants admitted provisionally to the program under this section will not be recommended to the ~~British Columbia College of Teachers~~ **BC Ministry of Education – Teacher Regulation Branch** for certification until they successfully complete the course work requirements.

## Program Requirements

### Elementary (K-7)

Entry route, with 60 credit hours of acceptable undergraduate course work in a teachable field, via one of (a) an acceptable three- or four year Bachelor's degree or (b) a minimum 90 credit hours of acceptable course work:

#### Year 1: First Semester

EDUC 313-1 Interpersonal Communication  
 EDUC 333-2 Learning Development & Motivation  
 EDUC 340-2 Curriculum Development Models  
 EDUC 346-2 Introduction to Aboriginal Education  
 EDUC 356-2 Language & Literacy: Development (EY)  
 EDUC 376-2 Numeracy: Math Concepts (EY)  
 EDUC 380-3 Foundations of Education  
 EDUC 395-1 Professional Issues: Legal & Ethical  
 EDUC 390-3 Classroom Practice & Seminar I

#### Year 1: Second Semester

EDUC 341-2 Principles of Instruction  
 EDUC 342-2 Social Dynamics of Classrooms  
 EDUC 351-2 Curriculum & Instruction: Second Language  
 EDUC 357-3 Language & Literacy: Reading & Writing (EY)  
 EDUC 366-2 Curriculum & Instruction: Social Studies (EY)  
 EDUC 377-2 Numeracy: Instructional Strategies (EY)  
 EDUC 387-2 Curriculum & Instruction: Science (EY)  
 EDUC 391-3 Classroom Practice & Seminar II

#### Year 2: First Semester

EDUC 406-3 Curriculum & Instruction: Fine Arts (EY)  
 EDUC 421-3 Classroom Assessment Practices  
 EDUC 431-3 Educational Technology  
 EDUC 435-2 Learning & Diversity: Inclusive Classrooms  
 EDUC 446-2 Aboriginal Education: Epistemology  
 EDUC 456-2 Language & Literacy Across the Curriculum (EY)  
 EDUC 490-4 Classroom Practice & Seminar III

#### Year 2: Second Semester

EDUC 413-1 Counselling Skills (EY)  
 EDUC 436-2 Learning & Diversity: Learning Disabilities  
 EDUC 457-2 Language & Literacy: Oral & Written Genres (EY)  
 EDUC 489-2 Curriculum & Instruction: Physical Education (EY)  
 EDUC 495-1 Professional Issues: Portfolios  
 EDUC 491-10 Classroom Practice & Seminar IV

## Entry Route Via a UNBC Education Diploma in a First Nations Language and Culture

Note: Students entering via this route must have completed, prior to graduation, sufficient additional elective credit hours in a teachable field to attain a minimum 150 credit hours of combined academic, Education Diploma and BEd course work.

### Year 1: First Semester

EDUC 313-1 Interpersonal Communication  
EDUC 340-2 Curriculum Development Models  
EDUC 376-2 Numeracy: Math Concepts (EY)  
EDUC 395-1 Professional Issues: Legal & Ethical  
EDUC 396-2 Reflective Seminar  
ELECTIVE 1-3 Academic course in a teachable area  
ELECTIVE 2-3 Academic course in a teachable area

### Year 1: Second Semester

EDUC 357-3 Language & Literacy: Reading & Writing (EY)  
EDUC 366-2 Curriculum & Instruction: Social Studies (EY)  
EDUC 377-2 Numeracy: Instructional Strategies (EY)  
EDUC 387-2 Curriculum & Instruction: Science (EY)  
EDUC 391-3 Classroom Practice & Seminar II  
ELECTIVE 3-3 Academic course in a teachable area  
\* The EDUC 391-3 practicum is required only if it has not been taken previously as a component of the Education Diploma in a First Nations Language and Culture.

### Year 2: First Semester

EDUC 406-3 Curriculum & Instruction: Fine Arts (EY)  
EDUC 421-3 Classroom Assessment Practices  
EDUC 431-3 Educational Technology  
EDUC 456-2 Language & Literacy Across the Curriculum (EY)  
EDUC 490-4 Classroom Practice & Seminar III

### Year 2: Second Semester

EDUC 413-1 Counselling Skills (EY)  
EDUC 436-2 Learning & Diversity: Learning Disabilities  
EDUC 457-2 Language & Literacy: Oral & Written Genres (EY)  
EDUC 489-2 Curriculum & Instruction: Physical Education (EY)  
EDUC 495-1 Professional Issues: Portfolios  
EDUC 491-10 Classroom Practice & Seminar IV

## Secondary (Grades 8-12)

The Secondary program is a two-year after-degree program that prepares individuals to teach in grades 8 through 12 in specialty areas. This model reflects current thinking about optimizing the match between educational theory and children's levels of cognitive and social development. The Secondary Stream is designed to educate teachers to combine pedagogical excellence across disciplinary areas with a learner-centered approach to practice. Philosophically, the program is designed around constructivist principles, and it emphasizes approaches to practice such as inquiry-based learning, strategies for instruction, integration of language across the curriculum, inclusion of diverse learners and perspectives, the development of caring and respectful communities of learners, and reflective practice. Successful applicants to the Secondary Stream will be assigned to a cohort group of approximately 35 students and will take all of their courses with that cohort group.

## Admission Requirements

Applicants to the Secondary stream must have completed, (with a minimum ~~grade point average~~ **GPA of 2.33 (C+)** on the most recent 60 credit hours of university credit hours completed), a four-year Bachelor of Arts, Bachelor of Science, or Bachelor of Commerce degree (120 credit hours) or the equivalent (i.e., a three-year Bachelor's degree with a teachable major plus 30 additional **approved** university credits **hours**) with a minimum of ninety (90) credit hours in Arts, Science, or Business Administration or in other teachable fields relevant to teaching in the BC School system. The remaining credit hours may come from any discipline.

In addition to the entry requirements described above, the following requirements must be met (see note following):

1. Successful completion, with a C+ average, of six (6) credit hours of acceptable English literature and composition at any level (one of the following: (a) three (3) credit hours of English literature and three (3) credit hours of English composition or (b) six (6) credit hours of acceptable English literature). Courses in linguistics, language study, grammar, technical or business writing, communication, or English as a second language are not acceptable to meet the English requirement.
2. One of the following:
  - a. One teachable major and one teachable minor, or
  - b. Two (2) teachable minors, or

c. One teachable major.

3. Submission of the completed application forms that include the Experience with Children and Youth statement (resumé format), three (3) Confidential Reference Forms, and the Personal Statement.

Note: Applicants who do not meet the English requirement in item 1 above but who otherwise meet the admission requirements may be admitted provisionally to the BEd program with the approval of the Chair. Applicants admitted provisionally to the program under this section will not be recommended to the ~~British Columbia College of Teachers~~ **BC Ministry of Education – Teacher Regulation Branch** for certification until they successfully complete the English requirements.

## Program Requirements

### Secondary (Grades 8-12)

#### Year 1: First Semester

EDUC 313-1 Interpersonal Communication  
EDUC 333-2 Learning Development and Motivation  
EDUC 340-2 Curriculum Development Models  
EDUC 346-2 Introduction to Aboriginal Education  
EDUC 380-3 Foundations of Education  
EDUC 395-1 Professional Issues: Legal & Ethical  
EDUC 360-4 Curriculum & Instruction: Introduction (SY)  
EDUC 390-3 Classroom Practice & Seminar I

#### Year 1: Second Semester

EDUC 342-2 Social Dynamics of Classrooms  
EDUC 341-2 Principles of Instruction  
EDUC 345-4 Language & Literacy Across the Curriculum  
EDUC 370-3 Numeracy Across the Curriculum  
EDUC 361-4 Curriculum & Instruction II: Humanities & Social Sciences  
or EDUC 372-4 Curriculum & Instruction II: Math, Computer & Sciences  
or EDUC 315-4 Curriculum & Instruction II: Business & Career Education  
EDUC 391-3 Classroom Practice & Seminar II

#### Year 2: First Semester

EDUC 421-3 Classroom Assessment Practices  
EDUC 431-3 Educational Technology  
EDUC 435-2 Language & Diversity: Inclusive Classrooms  
EDUC 446-2 Aboriginal Education: Epistemology II  
EDUC 460-5 Curriculum & Instruction III: Humanities & Social Sciences  
or EDUC 471-5 Curriculum & Instruction III: Math, Computer & Sciences  
or EDUC 414-5 Curriculum & Instruction III: Business & Career Education  
EDUC 490-4 Classroom Practice & Seminar III

#### Year 2: Second Semester

EDUC 434-3 Counselling Skills  
EDUC 436-2 Learning & Diversity: Learning Disabilities  
EDUC 495-1 Professional Issues: Portfolios  
EDUC 461-2 Curriculum & Instruction IV: Humanities & Social Sciences  
or EDUC 472-3 Curriculum & Instruction IV: Math, Computer & Sciences  
or EDUC 415-3 Curriculum & Instruction IV: Business & Career Education  
EDUC 491-10 Classroom Practice & Seminar IV

### Secondary Teachable Major and Minor Requirements

The following is a list of teachable majors and minors that have been approved by the ~~British Columbia College of Teachers~~ **BC Ministry of Education – Teacher Regulation Branch**, are widely taught in British Columbia secondary schools, and that can be completed at the University of Northern British Columbia (graduates of equivalent programs at other recognized universities are also eligible for consideration to the program). In order for applicants to be eligible for the Secondary Stream Bachelor of Education program, they must meet the requirements for one teachable major, a teachable major and minor, or two teachable minors from the following list:

Subject area	Major	Minor
Biology	x	x
Business Education	x	x
Chemistry	x	x
Computer Science	x	x
English	x	x
First Nations Studies		x
General Science	x	x
Geography	x	x
History	x	x
Mathematics	x	x
Physics	x	x
Social Studies	x	x

Applicants to the Bachelor of Education program should recognize that the credit levels for the teachable majors and minors meet the ~~British Columbia College of Teachers~~ **BC Ministry of Education – Teacher Regulation Branch** accreditation requirements, and may not be equivalent to the formal requirements for a UNBC major or minor. Applicants should refer to the appropriate section of the UNBC Calendar in order to ensure that they are meeting all of the course work required to successfully complete UNBC degree requirements.

A teachable minor normally consists of eighteen (18) credit hours of upper-division courses (numbered 300 or 400 and taken in the third and fourth year of study), in addition to required lower-division courses.

A teachable major normally consists of thirty (30) credit hours of upper-division courses (numbered 300 or 400 and taken in the third and fourth year of study), in addition to required lower-division courses.

### **Biology Major and Minor**

Bachelor of Education applicants to the Secondary Stream planning to meet the Biology teachable minor requirement must have completed a minimum of six (6) credit hours of introductory (100 level) course work in each of biology, chemistry (at least one course with a lab component), mathematics (at least one course, but preferably two courses, in calculus), and physics (at least one course with a lab component). Applicants must also complete an additional six (6) to twelve (12) credit hours of study in biology at the lower division, and eighteen (18) credit hours of upper-division course work in biology. The course work must demonstrate both lecture and laboratory studies.

Applicants planning to meet the Biology teachable major requirement must complete an additional twelve (12) credit hours of upper-division course work in biology.

### **Business Education Major and Minor – subject to enrollment**

Bachelor of Education applicants to the Secondary Stream planning to meet the Business Education teachable minor requirement must complete a minimum of eighteen (18) upper-division credit hours of specialized courses in accounting, marketing, commercial law, and management information systems in addition to introductory (100 level) courses in computer science, economics, and mathematics.

Applicants planning to meet the Business Education teachable major requirement must complete an additional twelve (12) credit hours of upper-division course work in accounting, finance, marketing, and management information systems.

### **Chemistry Major and Minor**

Bachelor of Education applicants to the Secondary Stream planning to meet the Chemistry teachable minor requirement must have completed a minimum of six (6) credit hours of introductory (100 level) course work in each of biology, chemistry (at least one course with a lab component), mathematics (at least one course, but preferably two courses, in calculus), and physics (at least one course with a lab component). Applicants must also complete an additional six (6) to twelve (12) credit hours of study in chemistry at the lower division, and eighteen (18) credit hours of upper-division course work in chemistry. The course work must demonstrate both lecture and laboratory studies.

Applicants planning to meet the Chemistry teachable major requirement must complete an additional twelve (12) credit hours of upper-division course work in chemistry.

### **Computer Science Major and Minor**

Bachelor of Education applicants to the Secondary Stream planning to meet the Computer Science teachable minor requirement must complete a basic lower-division course load in computer programming, computer structures, and mathematics in addition to eighteen (18) credit hours of upper-division Computer Science course work covering advanced programming, systems design, and programming languages.

Applicants planning to meet the Computer Science teachable major requirement must complete an additional twelve (12) credit hours of study in upper-division Computer Science course work.

## English Major and Minor

Bachelor of Education applicants to the Secondary Stream planning to meet the English teachable minor requirement must complete a basic lower-division course load that focuses on English literature and composition in addition to twenty-four (24) credit hours of upper-division English courses including six (6) **credits hours** from each of the following: English literature, pre-twentieth century literature, and contemporary literature. Applicants are also strongly encouraged to complete courses both in Canadian literature and Shakespeare.

Applicants planning to meet the English teachable major requirement must complete an additional six (6) credit hours of upper-division course work in English.

## First Nations Minor

Bachelor of Education applicants to the Secondary Stream planning to meet the First Nations teachable minor requirement must complete a basic lower-division course load that focuses on general First Nations studies, First Nations language, and First Nations culture courses in addition to eighteen (18) credit hours of upper-division First Nations Studies or related approved courses (related course work may come from Anthropology or History).

## General Science Majors and Minors

Teachable areas that can be included within the General Sciences Major and Minor include Biology, Chemistry, Environmental Sciences, and Physics.

Bachelor of Education applicants to the Secondary Stream planning to meet the General Sciences teachable minor requirement must complete six (6) credit hours of study in introductory (100 level) course work in each of biology, chemistry (at least one course with a lab component), mathematics (at least one course, but preferably two courses, in calculus), and physics (at least one course with a lab component). Applicants must also complete a minimum of six (6) credit hours of upper-division study in three of the four teachable areas: Biology, Chemistry, Environmental Sciences, and Physics.

Applicants planning to meet the teachable major requirement in General Sciences must complete an additional twelve (12) upper division credit hours or course work from the four teachable areas: Biology, Chemistry, Environmental Sciences, and Physics.

## Geography Major and Minor

Applicants to the Geography Major or Minor programs must include courses from both cultural and physical geography within their program, as well as course work in regional and environmental studies.

Bachelor of Education applicants to the Secondary Stream planning to meet the Geography teachable minor requirement must complete a minimum of six (6) credit hours of introductory (100 level) or survey courses in each of geography, history, and a social science.

Applicants must also complete a minimum of an additional six (6) credit hours lower-division geography course work and eighteen (18) credit hours of upper-division geography. A minimum of six (6) **credits hours** must have a significant Canadian content.

Applicants planning to meet the Geography teachable major requirement must complete an additional twelve (12) credit hours of upper-division course work in geography.

## History Major and Minor

Applicants to the History Major or Minor programs must include both Canadian and European history course work within their program, as well as the history of any region other than Canada or Europe.

Bachelor of Education applicants to the Secondary Stream planning to meet the History teachable minor requirement must complete a minimum of six (6) credit hours of introductory (100 level) or survey courses in each of geography, history, and a social science.

Applicants must also complete a minimum of an additional six (6) credit hours of lower-division history course work and eighteen (18) credit hours of upper-division history. A minimum of six (6) credit hours must have a significant Canadian content.

Applicants planning to meet the History teachable major requirement must complete an additional twelve (12) credit hours of upper-division work in history.

## Mathematics Major and Minor

Bachelor of Education applicants to the Secondary Stream planning to meet the Mathematics teachable minor requirement must complete a minimum of thirty (30) credit hours of study of which at least eighteen (18) credit hours must be at the upper-division level. The upper-division credits **hours** must include at least one course in three of the following areas: algebra, calculus, probability and statistics, geometry, and number theory.

Applicants planning to meet the Mathematics teachable major requirement must complete an additional twelve (12) credit hours of upper-division Mathematics course work in the above-listed disciplines.

## Physics Major and Minor

Bachelor of Education applicants to the Secondary Stream planning to meet the Physics teachable minor requirement must have completed a minimum of six (6) credit hours of introductory (100 level) course work in each of biology, chemistry (at least one course with a lab component), mathematics (at least one course, but preferably two courses, in calculus), and physics (at least one course with a lab component). Applicants must also complete an additional six (6) to twelve (12) credit hours of study in physics at the lower division, and 18 credit hours of upper-division course work in physics. The course work must demonstrate both lecture and laboratory studies.

Applicants planning to meet the Physics teachable major requirement must complete an additional twelve (12) credit hours of upper-division course work in physics.

## Social Studies Majors and Minors

Teachable areas that can be included within the Social Studies Major and Minor include Geography, History and acceptable Social Sciences (Anthropology, Economics, Environmental Studies, First Nations Studies, International Studies, Northern Studies, Political Science, Sociology, and Women's Studies).

Bachelor of Education applicants to the Secondary Stream planning to meet the Social Studies teachable minor requirement must have completed a minimum of twelve (12) upper-division credit hours in a social science teaching area (~~including~~ including Anthropology, Economics, Environmental Studies, First Nations Studies, International Studies, Northern Studies, Political Science, Sociology, and Women's Studies) acceptable in British Columbia secondary schools.

In addition, applicants must meet the minimum requirements for Geography (nine (9) credit hours of which three (3) credit hours must be at the upper-division level, three (3) credit hours must be Canadian Geography, and three (3) credit hours can be at any level), and History (eighteen (18) credit hours of which six (6) credit hours must be at the upper-division level, three (3) credit hours must be in Canadian history, three (3) credit hours must be in European history, three (3) credit hours must be in a region other than Canada or Europe, and three (3) credit hours can be at any level).

Applicants planning to meet the Social Studies teachable major requirements must complete an additional fifteen (15) credit hours at the upper-division level course work (three (3) credit hours must be in geography, three (3) credit hours must be in history, and six (6) credit hours must be in the social sciences, and three (3) credit hours can be in history, geography, or the social sciences).

## Access Initiative

The Education Program at UNBC has initiated a program designed to give access to individuals who are members of groups in our ~~society, society~~ society which have historically been ~~under-represented, under-represented~~ under-represented in the teaching profession in British Columbia. In order to achieve this objective, we encourage applicants who have confronted identifiable barriers to post-secondary education to apply under the Access Initiative. All applicants for UNBC's teacher education program must submit a Personal Statement. Applicants who wish to apply under the Access Initiative may identify themselves in their Personal Statement Form to be considered under the Access Initiative.

## Criminal Records Review

In addition to the admission application requirements outlined above, applications are required to undergo a criminal record review and provide evidence of this prior to being considered for admission. Refer to Undergraduate Regulations and Policies (Academic Regulation 20) in this Calendar.

## Admission Decisions

Applications for admission can be obtained from either the Office of the Registrar, or from the School ~~Experience Office of~~ Education. For further information concerning the application process, please contact either the Office of the Registrar or the School of Education ~~Experience Office or the Office of the Registrar~~.

Admissions rankings are determined by a combination of GPA, experience with children, a personal statement, and letters of reference.

### **Notes on Certification**

~~Applicants who are otherwise eligible for British Columbia College of Teachers Certification, but who are not Canadian citizens, are required to provide evidence of landed immigrant status or hold a valid work authorization to teach in Canada before they may be issued a British Columbia teaching credential.~~

## **Education Diploma in a First Nations Language and Culture (Elementary Years)**

The Education Diploma in a First Nations Language and Culture is a minimum 92 credit hour teacher education program that prepares individuals to teach an approved First Nations language and culture at the Elementary Years level.

This program of study has been developed in partnership with the Language Authority for each First Nation. This model reflects the current thinking about building on the rich linguistic and cultural heritage of students to optimize the match between educational theory, children's level of cognitive and social development, and the particular First Nations language and culture. Successful completion of this program of study will lead to a recommendation to the ~~British Columbia College of Teachers~~ **BC Ministry of Education – Teacher Regulation Branch** that a Developmental Standard Term Certificate in the specific First Nations Language and Culture be granted. The Education Diploma in a First Nations Language and Culture is designed to educate teachers to combine pedagogical excellence across disciplinary areas with a learner-centered approach to practice. Philosophically, the program is designed around constructivist principles, and it emphasizes approaches to practice such as inquiry-based learning, strategies for instruction, integration of language and culture across the curriculum, inclusion of diverse learners and perspectives, and the development of caring and respectful practice.

Programs of study leading to recommendation for this teaching credential are available for Gitksan Language and Culture, Nisga'a Language and Culture, Ts'msyen Language and Culture, and Carrier Language and Culture. The Education Diploma in a First Nations Language and Culture (Gitksan) has been developed in partnership with the Siwiixo'osxwim Wilnatahl Gitksanimx Society. The Education Diploma in a First Nations Language and Culture (Nisga'a) has been developed in partnership with the Nisga'a Language Authority of Wiilp Wilxo'oskwhl Nisga'a (WWN), and is offered at the WWN campus. The Education Diploma in a First Nations Language and Culture (Ts'msyen Sm'algyax) has been developed in partnership with the Ts'msyen Sm'algyax Language Authority and is offered at the Prince Rupert campus. The Education Diploma in a First Nations Language and Culture (Carrier) has been developed in partnership with the College of New Caledonia and with the Carrier Linguistic Society (~~at~~ Fort St. James) and the Lake Babine Education Authority (Burns Lake) and is offered in ~~at~~ Fort St. James and Burns Lake respectively.

### **Admission Requirements**

Students selected for this program of study will be admitted according to the "Undergraduate Admissions" categories, criteria, and processes established by UNBC and specified in the early sections of this Undergraduate Calendar. In addition to the specified entrance requirements, applicants are encouraged to identify their fluency in the specific language (Gitksanimx, Nisga'a, Ts'msyen Sm'algyax, or Carrier language) and their knowledge of Gitksan culture and history, Nisga'a culture and history, Ts'msyen culture and history, or Carrier culture and history. Advanced placement in language courses may be considered for speakers who are able to demonstrate their fluency in the language.

There are two points of entry to this program of study: following the completion of the Diploma in First Nations Language, or concurrently while completing the required First Nations Studies and general academic coursework. Students must be admitted to this program of study prior to beginning their professional education courses. The Certificate in First Nations Language and the Diploma in First Nations Language are described in the First Nations Studies section of the ~~e~~Calendar.

### **Criminal Records Review**

In addition to the admission application requirements outlined for admission to UNBC, applicants are required to undergo a criminal record review and provide evidence of this prior to being considered for admission to the Education Diploma in a First Nations Language and Culture (Elementary Years). Refer to Undergraduate Regulations and Policies (Academic Regulation 20) in this Calendar.

### **Program Requirements**

#### **First Nations Studies Credits Hours**

The required First Nations Studies credits hours can be met by completing a Diploma in First Nations Language. Students will need to include the following First Nations Studies language, linguistics and culture courses in their program of study:

Language (33 credits **hours**):

A First Nations Language: Levels 1-4 in Gitksanimx or Nisga'a (FNST 131-3, FNST 132-3, FNST 231-3, FNST 232-3);

or Gitksanimx (FNST 143-3, FNST 144-3, FNST 243-3, FNST 244-3);

or Nisga'a: (FNST 139-3, FNST 140-3, FNST 239-3, FNST 240-3);

or Levels 1-4 in Sm'algyax (FNST 137-3, FNST 138-3,

FNST 237-3, FNST 238-3);

or Levels 1-4 in Carrier (FNST 133-3, FNST 134-3, FNST 233-3, FNST 234-3); and FNST 223-3, FNST 321-3, FNST 322-3, FNST 324-3, FNST 325-3, FNST 421-3, FNST 422-3 (Gitksanimx, Nisga'a, Sm'algyax or Carrier)

Linguistics (9 credits **hours**):

FNST 220-3, FNST 320-3, FNST 420-3

Culture Studies (9 credits **hours**):

FNST 161-3 (or Gitksan: FNST 173-3 or

Nisga'a: FNST 169-3 or Sm'algyax: FNST 167-3 or Carrier: FNST 164-3)

FNST 162-3 (or Gitksan: FNST 174-3 or Nisga'a: FNST 170-3 or Ts'msyen: FNST 168-3  
or Carrier: FNST 164-3)

FNST 217-3

## General Academic Coursework

The required general academic coursework of 18 credit hours can be met with the following courses (some of these credit hours may be completed as part of the Diploma in First Nations Language):

3 credit hours English Composition-Suggested: ENGL 170-3 or equivalent

3 credit hours English Literature-Suggested: ENGL 103-3, ENG 120-3, ENGL 210-3, ENGL 260-3 or equivalent

3 credit hours Mathematics-Suggested: MATH 190-4 or equivalent

3 credit hours Lab Sciences-Suggested: BIOL 101-4, BIOL 110-3 and BIOL 111-1, or equivalent

6 credit hours of Canadian Studies (3 credit hours History and 3 credit hours Geography recommended) Suggested:  
FNST 100-3, FNST 350-3, GEOG 203-3, HIST 210-3, HIST 302-3 or equivalent

## Professional Education Coursework (Gitksanimx and Nisga'a)

EDUC 380-3 Foundations of Education

EDUC 333-2 Learning, Development and Motivation

EDUC 341-2 Principles of Instruction

## Diploma and BEd Academic Regulations

For the purpose of determining eligibility for recommending a teacher candidate for certification by the **BCCT Teacher Regulation Branch**, the minimum requirements include successful completion of the **eEducation** program with a C+ on each **eEducation** course taken while enrolled in the Program. Courses for which a grade of lower than a C+ was received must be repeated.

The Education Program reserves the right at any time to require any teacher candidate to withdraw from UNBC if it believes on consideration of academic, professional fitness or professional conduct that the student is unsuitable for the teaching profession. Unsatisfactory performance in any aspect of the program may be considered reason to require a teacher candidate to withdraw from the program.

Regular attendance is expected of all teacher candidates in all courses. An instructor can initiate procedures to debar a teacher candidate from attending classes and from final examinations where unexcused absences exceed three hours of scheduled classes in one term.

If re-admission is approved following required or voluntary withdrawal from a practicum and/or program, the teacher candidate will normally be re-admitted on probationary status.

Appeals should first be submitted to the BEd Admissions and Standards Committee **Chair**. If a teacher candidate is not satisfied with the outcome of that process, he/she may then file an appeal with UNBC's Senate Committee on Academic Appeals (see "Appeals Process" Academic Regulation 50 under Regulations and Policies). Teacher candidates are not allowed to use 600, 500, or higher, level courses from the Education Program, or any other program to meet degree requirements.

Students who plan to undertake work at other institutions are required to seek prior approval from the Office of the Registrar and the Chair of Education if they wish such courses to be credited toward a BEd degree at UNBC.

## Diploma and BEd Teaching Practicum Regulations

All arrangements for school placements are made through the School ~~Experience Office~~ **of Education**.

Teacher candidates taking the Classroom Practice & Seminar courses must be prepared to travel to any regional school district. In order to do this, teacher candidates should budget for transportation. Practica may be arranged in other selected districts. Extra expenses will be involved and teacher candidates should budget accordingly.

Teacher candidates must successfully complete all ~~first-year~~ **first-year** courses before they will be allowed to proceed to ~~second-year~~ **second-year** courses and commence their ~~second-year~~ **second-year** field placements. These requirements include the completion of core assignments designed to link theory and practice.

UNBC's Education Program reserves the right to approve or disapprove any school placement for teacher candidates, to place teacher candidates in schools, and to change any placement assigned to a teacher candidate. The teacher candidate must be informed in writing of the reasons for any required change in placement. UNBC bears no responsibility for the costs associated with a change in placement.

~~The~~ **The** Education Program is responsible for seeking a sufficient number of school placements to serve the needs of all enrolled teacher candidates. A teacher candidate may be required to withdraw from a Classroom Practice & Seminar course if ~~none~~ **none** of the available schools will accept that particular teacher candidate.

UNBC's Education Program reserves the right to provide information to the principal of a school for a practicum placement for a particular teacher candidate where it is deemed necessary for the principal to have the information in order to carry out his/her duties as a principal. The School ~~Experience Office~~ **of Education** must inform the principal if concerns have been raised within the Education Program or in a previous practicum placement about a more than usual potential for a negative impact on the quality of the learning and/or working in the classroom and/or school as a result of the presence of the candidate teacher. ~~The Practicum Placement Co-ordinator and/or the Stream BEd Co-ordinator~~ **The Chair or designate** must inform the teacher candidate in writing of the reasons for the concerns giving rise to such notification to the principal.

The dates of the practica will be made known to the teacher candidates at the beginning of each term. Placement locations will be made available as soon as possible after classes have begun.

The expectations of teacher candidates during the practica will be published and distributed to all teacher candidates, Faculty Advisors/**Practicum Supervisors**, and Co-operating Teachers at the start of each year in the course outlines for the Classroom Practice & Seminar courses. Regular attendance during the practica is required. Teacher candidates are required to notify the school whenever classroom experience appointments cannot be kept and also inform their Faculty Advisor/**Practicum Supervisor**. Teacher candidates will be disbarred from the Classroom Practice & Seminar course if they have more than three unexcused absences.

All teacher candidates in the program placed in schools for classroom experience are subject to the provisions of the Schools Act, School Regulations, the British Columbia Teachers' Federation (BCTF) Code of Ethics, and any regulation and/or code of behaviour applicable to teachers and staff in the school. Any teacher candidate may be required to withdraw from a classroom experience for violation of any part of the School Act, School Regulations, the BCTF Code of Ethics, or upon written notice from the school principal or the superintendent in the district where the teacher candidate is placed.

Faculty Advisors/**Practicum Supervisors** or Co-operation Teachers who refuse teacher candidates' continued participation in a practicum experience for misconduct or repeated absence must immediately discuss the matter with the Practicum Placement Co-ordinator, who shall then either inform the teacher candidate of the conditions under which they may resume participation in the practica or inform the teacher candidate that the Chair of Education or ~~Chair's~~ designate is being advised that the teacher candidate's performance in the classroom experience is considered unsatisfactory by those responsible for supervision of the practicum experience.

## Denial and Withdrawal

Teacher candidates will be denied the practica placement if their preparatory course work is considered to be unsatisfactory (e.g., below C+ work, or incomplete work) by the ~~Stream~~ **BEd** Co-ordinator.

Teacher candidates may be required to withdraw from a practicum experience if their performance in their school placement is considered to be unsatisfactory by the ~~Stream~~ **BEd** Co-ordinator (based on written assessments by Faculty Advisor/**Practicum Supervisor** and/or Co-operating Teacher).

Teacher candidates seeking voluntary withdrawal from a practicum placement, whether permanent or temporary, must receive permission to do so from the Chair of Education. Teacher candidates should make this decision only after careful consideration of the possible impact on their practicum experience-based assignments.

Failure to give appropriate notice of withdrawal during a practicum placement, without consultation and approval of the Practicum Placement Co-ordinator, and/or ~~Stream~~ **BEd** Co-ordinator, will result in withdrawal from UNBC's Education Program. Teacher candidates who withdraw voluntarily from a practicum placement must notify the Practicum Placement Co-ordinator in writing at least one week in advance of the commencement of the classroom placement. Teacher candidates who are required to withdraw from a practicum placement must make an appointment to see the Practicum Placement Co-ordinator and the Chair of Education.

Teacher candidates who have withdrawn for any reason from a Classroom Practice & Seminar course, or who wish to re-enter, or re-take, the course must apply to the BEd Admissions and Standards Committee **Chair** for re-admission to the course. Teacher candidates should not assume that re-admission would automatically be granted. The number of times a teacher candidate can be re-admitted to Classroom Practice & Seminar courses is limited to once except in cases where there are dire circumstances beyond the teacher candidates' control as set out in the UNBC "Conditions of Academic Standing" (Academic Regulation 49). Teacher candidates will only be re-admitted to a Classroom Practice & Seminar course when, in the opinion of those responsible for the supervision of the previous attempt, there was evidence of significant progress toward meeting the outcomes for the practicum placement. Teacher candidates will not be re-admitted to any single Classroom Practice & Seminar more than once. Teacher candidates will not be re-admitted to a Classroom Practice & Seminar course if they have previously been re-admitted to any other Classroom Practice & Seminar course in any of UNBC's BEd programs.

## Part-Time Students in the BEd Program

The Bachelor of Education program at UNBC is a full-time study program ~~with a program fee~~. It is expected that all students registered in this program will be enrolled on a full-time basis. However, under exceptional circumstances, where students are unable to fulfill fulltime study for family, personal, or health reasons, students may be allowed to continue the program on a part-time basis. Application to continue on a part-time basis must be ~~made~~ **submitted** in writing to the Program Chair of Education and approved by the Dean of the College of Arts, Social and Health Sciences. ~~Where this is approved, the student's fees will be assessed on a pro-rated basis using the Current Bachelor of Education program fee for the semester.~~

## BEd Graduation Requirements

To be eligible for a Bachelor of Education degree the candidate must normally have earned:

- a passing grade in each of the courses comprising the degree program, and no lower than a C+ grade on **a grade of C+ or better in** all Education courses; and,
- a minimum **GPA of 2.33 (C+) GPA**.
- ~~The British Columbia College of Teachers: Current legislation requires that every person appointed or retrained as a teacher in a public school be a member of the British Columbia College of Teachers and hold a valid certificate of qualification issued by the BCCT. It is the responsibility of the individual to make an application to the Registrar of the British Columbia College of Teachers for initial certification, or for a change in certification, and to provide all documentation.~~
- **All teachers, administrators and superintendents employed in the province's Kindergarten to Grade 12 public school system must have a valid Ministry of Education teaching certificate. This includes full time, part time and teacher-on-call positions. If you would like to work in a BC public school, you must apply and provide all documentation to the Ministry of Education – Teacher Regulation Branch for a certificate and you must pay an annual practice fee to maintain your certificate.**
- The Teacher Qualification Service: Salary categories for teachers are established by the Teacher Qualification Service upon application, and only when a British Columbia teaching credential has already been granted by the ~~British Columbia College of Teachers~~ **BC Ministry of Education – Teacher Regulation Branch**. Categories are

assigned on the basis of completed years of academic and professional preparation. ~~Partial years are not considered.~~

- Procedure and Documentation: Application forms for the ~~British Columbia College of Teachers~~ **BC Ministry of Education – Teacher Regulation Branch** and the Teacher Qualification Service are available from the School Experience Office of Education, as well as directly from the agencies or their respective websites (<http://www.bcteacherregulation.ca> and <http://www.tqs.bc.ca>).

##### **Changes to Calendar Description — Psychology (BSc Program)**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the change(s) to the calendar entry for the Psychology (BSc Program), on page 180 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Psychology is the study of behaviour, feelings and thinking and mental processes. ~~It focuses on fundamental mechanisms and processes that regulate the behaviour of organisms.~~ **Psychologists study the biopsychosocial and developmental mechanisms and processes that regulate the behaviour of individuals.** The goal of the Department of Psychology is to provide advanced knowledge in the substantive areas of ~~p~~Psychology. ~~to students in the north, with special emphasis on areas of particular need and relevance to the region, especially applications of psychology to the understanding of human social and health problems.~~ In addition, the Department will provide **s excellent** training adequate to ensure **that enhances** students' competitiveness for advanced graduate study in ~~p~~Psychology **and related areas.**

#### **S-201306.07**

##### **Changes to Degree Requirements — Major in Biology**

McGill

That, on the recommendation of the Senate Committee on Academic Affairs, the change(s) to the degree for the Major in Biology, on page 80 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

##### **Subject Requirements**

Fifteen additional credit hours chosen from the following, of which at least six 6 credit hours must be at the 400 level:

Any 300 or 400 level BIOL courses

ENSC 406-3      Environmental Modelling

FSTY 307-3      Disturbance Ecology and Forest Health

##### **Additional Requirement**

At least one course with Social Sciences content must be taken from the following list of ~~Biology~~ courses:

BIOL 304, BIOL 350, BIOL 420, or BIOL 421 (these may also count as Subject Requirements); or any course with ~~one of~~ the following prefixes: ANTH, COMM, ECON, EDUC, ENPL, ENVS, FNST, INTS, NORS, ORTM, POLS, PSYC

### **S-201306.08**

#### **Changes to Calendar Description — Joint Major in Mathematics and Physics**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the change(s) to the calendar description of the degree requirements for the Joint Major in Mathematics and Physics, in the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## Joint Major in Mathematics/Physics

The minimum requirement for completion of a Bachelor of Science with a Joint Major in Mathematics and Physics is 125 credit hours.

~~MATH 342-3 (Biostatistics) may not be used for credit towards any Mathematics major, minor, or joint major.~~

MATH 150-3 (Finite Mathematics for Business and Economics) may not be used for credit towards any Mathematics major or joint major.

PHYS 307-3 (Selected Topics in Environmental Physics) may not be used as Physics credit toward any Physics major, minor, or joint major.

## Program Requirements

### Lower-Division Requirement

CPSC 100-4 Computer Programming I

MATH 100-3 Calculus I

or MATH 105-3 Enriched Calculus

MATH 101-3 Calculus II

MATH 200-3 Calculus III

MATH 201-3 Introduction to Complex Analysis

MATH 220-3 Linear Algebra

MATH 230-3 Linear Differential Equations and Boundary Value Problems

PHYS 110-4 Introductory Physics I: Mechanics

PHYS 111-4 Introductory Physics II: Waves and Electricity

PHYS 200-3 Thermal Physics

PHYS 202-4 Electromagnetism and Optics

PHYS 205-3 Modern Physics I

PHYS 206-4 Modern Physics II

### Upper-Division Requirement

MATH 320-3 Survey of Algebra

MATH 326-3 Advanced Linear Algebra  
MATH 335-3 Numerical Analysis I  
MATH 336-3 Intermediate Differential Equations  
STAT 371-3 Probability and Statistics for Scientists and Engineers

~~\*Three credit hours of 300 or 400 level Mathematics.~~

~~Six credit hours of 400 level Mathematics.~~

PHYS 300-3 Classical Mechanics  
PHYS 302-3 Quantum Mechanics I  
PHYS 310-3 Classical Electromagnetism I  
PHYS 400-3 Quantum Mechanics II  
PHYS 407-3 Statistical Mechanics

~~\*Six credit hours of 300 or 400 level Physics.~~

~~Note: Three of these 9 credit hours must be at the 400 level so that a minimum of 15 credit hours of 400 level Mathematics and Physics are completed.~~

Subject Upper-Division Requirements: 9 additional upper-division credit hours are required from MATH or STAT courses, of which at least 6 must be at the 400 level. An additional 6 credit hours of 300- or 400-level PHYS courses are required. Of these combined Subject Upper-Division Requirements, at least 9 credit hours must be at the 400 level.

## Elective and Academic Breadth

Elective credit hours as necessary to ensure completion of a minimum of 125 credit hours including any additional credits necessary to meet the Academic Breadth requirement of the University (see Academic Regulation 15).

### **S-201306.09**

#### **Changes to Calendar Description — Psychology (MSc Program)**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the change(s) to the calendar entry for the Psychology (MSc Program), on page 94 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The MSc in Psychology at UNBC provides breadth in the substantive and methodological areas of ~~p~~Psychology, with a focus on applied psychology health and human psychology and human development. The MSc ~~will provides~~ sufficient general advanced research and experiential training so that graduates will have gain skills which make them competitive in the job market beneficial to academic and related areas.

### **S-201306.10**

#### **Changes to Calendar Description — Psychology (PhD Program)**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the change(s) to the calendar entry for the Psychology (PhD Program), on page 95 and 96 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

The PhD in Psychology at UNBC provides breadth in the substantive and methodological areas of Psychology, with a focus on health and human psychology. The PhD provides advanced research and experiential training so that graduates gain skills beneficial to academic and related areas.

~~Graduate training in psychology is in high demand, partly because of the high natural interests in the discipline, and partly because such training leads to a variety of desirable educational and career options in applied psychology, human development, and health. Graduates of the PhD program will be able to fulfill both traditional and emerging roles in psychology. Such options include the opportunity to teach and conduct research in post-secondary institutions, perform consultations in business and industry, do program planning and evaluation, and apply skills to a variety of social problems such as neuropsychiatric disorder, alcohol and drug abuse, aggression, health-risk behaviours, and developmental difficulties across the lifespan. Increasing connections with other disciplines and increasing recognition that the subject matter of psychology is central to the understanding of many social issues (e.g., health promotion, human development, high quality of life) have broadened psychology's roles in society. Consequently, psychology has been evolving rapidly, and some of its new roles reflect the fact that the fundamental tools of psychologists—observation, measurement, and analysis—provide powerful means of assessing and remediating pressing social problems. At UNBC, Psychology is located in the College of Arts, Social and Health Sciences, which facilitates interaction with colleagues from related disciplines.~~

~~More specifically, the objectives of the PhD program in Psychology is include the following:~~

- ~~• to develop scholars and researchers who have an advanced level of understanding of the psychological sciences, (including comprehensive knowledge of contemporary data and theory and evidence in pPsychology, and a high level of methodological expertise) and can ;~~
- ~~• to contribute to the larger body of scientific knowledge of psychology through research;~~
- ~~• to prepare graduates who possess the understanding and skills necessary to deal with problems of relevance in northern British Columbia and other regions, and who are able to work toward achieving better health, and more stable and harmonious living and working conditions for individuals and groups;~~
- ~~• to prepare graduates with an understanding of the linkages between psychological, biological, social, cultural, and ethical dimensions of human functioning; and~~
- ~~• to communicate the results of research in order to contribute to the enhancement of northern British Columbia and other regions by developing sound psychological strategies, appropriate assessment tools, and program planning and evaluation methods.~~

An Executive Summary of the proposed changes to the Social Work curriculum was included for information.

### **S-201306.11**

#### **Changes to Calendar Description — MSW Foundation Year**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the change to the calendar description for the MSW Foundation Year, on page 98 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

## MSW Foundation Year

For those with baccalaureate degrees in related areas and two years of full-time previous human service experience, the MSW ~~will~~ normally consists of 66 credit hours (two years) of study. The foundation year ~~will~~ consists of six 600-level courses, two 600-level social work electives, plus a ~~Practicum (SOCW 632-9 (MSW Practicum I))~~.

### **S-201306.12**

#### **Changes to Requirements — Taking a MSW at UNBC**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the change to the requirements for Taking a MSW at UNBC, on page 97 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

There are two entry routes into the MSW.

**Entry from a Bachelor of Social Work, ~~and one year (12 months full-time equivalent) post-BSW human service experience~~ leads into the Advanced Year of the MSW program.**

~~Entry at this level leads directly into the MSW Program~~

For full-time students entering from a BSW, this MSW program ~~will~~ consists of 33 credit hours, including completion of a thesis or practicum report.

This program requires the successful completion of a minimum course work of ~~27 credit hours for practicum students, and 21 credit hours for thesis students~~ and 27 credit hours for practicum students. The program comprises an integrated core of five required courses, two elective courses, and a thesis; ~~OR five required courses, four~~ three electives, and a practicum.

**Entry with a Bachelor's degree in a related field or discipline, and two years (24 months full-time equivalent) human service experience. Entry at this level begins with an MSW Foundation Year of studies.**

For full-time students entering from a Bachelor's degree in a related field, this MSW program ~~will~~ consists of a minimum two-years (24-months) program of courses and practica. A thesis or practicum report is required following completion of course work. An oral defense is required for the thesis. This route normally includes 66 credit hours, consisting of 33 credit hours in each of the two years.

**S-201306.13**

**Changes to Course Credit Hours — SOCW 732-6 AND Change to Electives Requirement for Students Taking SOCW 732-6**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the change to the course credit hours for SOCW 732-6 MSW Practicum II, on page 98 and page 140 of the 2012/2013 graduate calendar, **and** that the change to the number of electives for students taking SOCW 732-6 MSW Practicum II, on page 98 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

From Page 98:

**SOCW 732-9 MSW Practicum II**

**From Page 98:**

Practicum students are required to take a total of ~~four~~ three electives, ~~two~~ one of which must come from the two lists of courses immediately above.

The two other electives may come from the above lists and/or be taken from other UNBC graduate programs and/or from other accredited Canadian universities via approved transfer agreements (e.g., the Western Deans' Agreement).

From Page 140:

**SOCW 732-9 MSW Practicum II** This field placement requires students to perform in a social work role or organizational setting. Field education provides students with an opportunity to enhance and refine their social work skills and focus on an area of particular interest. Students normally are placed in an agency or organizational setting that matches their specific learning needs.

Prerequisites: Admission to the MSW program

**S-201306.14**

**New Course Approval — ORTM 609-3**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the new course ORTM 609-3 Critical Approaches to Outdoor Recreation Activities be approved as proposed.

Proposed semester of first offering: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This seminar course critically questions and creatively reconsiders the nature of outdoor recreation activities as related to contemporary, and interrelated, social and environmental issues. The course is firmly grounded in recreation and leisure studies literature offering anthropological, critical, historical, and socio-ecological interpretations of particular activities (e.g., canoeing, rock climbing, mountaineering).

and involving concepts such as identity, place, skill, and community. The course may involve practical experiences and field trips to inform academic content, but these are not the focus.

**Prerequisites:** None

**Co-requisites:** None

**Preclusions:** ORTM 409

**S-201306.15**

**New Course Approval — ORTM 633-3**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the new course ORTM 633-3 Graduate Field School be approved as proposed.

Proposed semester of first offering: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

This graduate level experiential course provides a combination of theoretical and practical skills in the field. The course integrates outdoor recreation, conservation and nature-based tourism perspectives, and may be based in various locations in BC or worldwide. This course may be repeated to a maximum of 6 credit hours.

**Prerequisites:** none

**Co-requisites:** none

**Preclusions:** none

**S-201306.16**

**Course Deletion — ORTM 610-3**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the course ORTM 610-3 Research and Analysis in Recreation and Tourism be deleted and removed from page 132 of the 2012/2013 graduate calendar, as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~**ORTM 610-3 Research and Analysis in Recreation and Tourism**—This course examines contemporary research in recreation and tourism, with special emphasis on the critical review of methodologies, adaptive techniques and theoretical foundations and models.~~

**S-201306.17**

**Changes to “Graduate Programs Admissions and Regulations” Section 4.5.4 (Results of Oral Examinations)**

Tait

That, on the recommendation of the Senate Committee on Academic Affairs, the changes to the “Graduate Programs Admissions and Regulations” Section 4.5.4 (Results of Oral Examinations), on page 43 of the 2012-13 Graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**4.5.4 Results of Oral Examinations** The decision of the examining committee shall be based on the content of the scholarly work or thesis, as well as the candidate's ability to defend it. After the examination, the committee shall recommend to the Dean of Graduate Programs one of the following results:

**a. Clear Pass**

That the thesis, project or practicum is acceptable as presented, and the oral defence is acceptable.

In this case, all members of the examining committee shall sign the approval pages. A “pass” grade is submitted to the Office of the Registrar for the student's thesis, project or practicum.

**b. Pass with Minor Revision**

That the thesis, project or practicum is acceptable subject to minor revision, and the oral defence is acceptable.

In this case, all members of the examining committee, except the supervisor, shall sign the approval pages.

The supervisor shall sign the approval pages when the thesis, project or practicum has been amended to include the changes that were requested by the examining committee. A “pass” grade is submitted to the Office of the Registrar for the student's thesis, project or practicum.

The Office of Graduate Programs must receive confirmation that the thesis, project or practicum has been amended to include the changes that were requested by the examining committee by the last day of the semester in which the oral examination took place. If this deadline is not met, registration for the subsequent semester is required In order to maintain continuous registration (See 2.2.1).

**c. Pass with Major Revision**

That the thesis, project or practicum is acceptable subject to major revision, and the oral defence is acceptable.

In this case, none of the members of the examining committee shall sign the approval pages. The supervisor shall supervise the revision of the thesis, project or practicum. When the revisions have been completed and have been approved by the supervisor, the supervisor shall distribute the revised thesis, project or practicum to the rest of the examining committee. If it is acceptable to the examining committee, the supervisor shall ensure that the approval pages are signed by each member of the examining committee. A “pass” grade is submitted to the Office of the Registrar for the student's thesis, project or practicum.

The Office of Graduate Programs must receive confirmation that the thesis, project or practicum has been amended to include the changes that were requested by the examining committee by the last day of the semester in which the oral examination took place. If this deadline is not met, registration for the subsequent semester is required In order to maintain continuous registration (See 2.2.1).

**d. Adjournment of the Examination**

That the examination be adjourned.

Reasons to adjourn the examination include, but are not limited to, further research or experimentation is required; the thesis is acceptable but the student has failed the oral defence; the external examiner casts the lone dissenting vote. In the case of an adjourned examination, the candidate shall not be passed and no member shall sign the approval pages.

When an examination is adjourned, each member of the examining committee shall make a written report to the Dean of Graduate Programs within 14 calendar days of the date of the oral examination. After reviewing these reports the Dean sets a date for reconvening the examination. The Dean shall also determine whether or not the composition of the original committee is appropriate for the reconvened examination. The date for reconvening shall be no later than six months from the date of the first examination. If the date for reconvening falls outside the last day of the semester in which the adjourned oral

examination took place, registration for the subsequent semester is required in order to maintain continuous registration (See 2.2.1).

**S-201306.18**

**Renewal of Agreement of Cooperation Between La Fundación Antropología Forense de Guatemala (FAFG) and the University of Northern British Columbia**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the renewal of an Agreement of Cooperation between La Fundación Antropología Forense de Guatemala (FAFG) and the University of Northern British Columbia be approved as proposed.

Effective date: July 1, 2013

CARRIED.

**S-201306.19**

**Renewal of Agreement of Cooperation Between Equipo Peruano de Antropología Forense (EPAF) and the University of Northern British Columbia**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the renewal of an Agreement of Cooperation between Equipo Peruano de Antropología Forense (EPAF) and the University of Northern British Columbia be approved as proposed.

Effective date: July 1, 2013

CARRIED.

**“For Information” Items:**

**SCAAF201305.06**

**Changes to Course Prerequisite — NURS 497-(6, 8)**

Whitcombe

That the change to the course prerequisite for NURS 497-(6, 8) Specialty Focus in Nursing, on page 265 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**NURS 497-(6, 8) Specialty Focus in Nursing** This course comprises both theory and clinical practicum experience in a particular specialty area of nursing practice. The specialty area varies depending on the students' interests and the opportunities for specialty education available.

*Prerequisites:* NURS 330-~~54~~, or and permission of the Chair, School of Nursing for 8 credit hour course

*Major Restriction:* Post-Diploma BScN students, and permission of the Chair, School of Nursing for 6 credit hour course

**SCAAF201305.14**

**Changes to Course Description — SOCW 632-9**

Whitcombe

That the change to the course description for SOCW 632-9 MSW Practicum I, on page 139 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

SOCW 632-9 MSW Practicum I This field placement introduces MSW requires students who do not have a BSW to perform in a the social work role or and

organizational settings. The field placement consists of 546 hours and three days per week through the September and January terms. Field education provides students with an opportunity to enhance and refine their generalist social work skills. The focus of the placement is on the development of generalist skills, however, where As much as possible, students are matched to a placement that broadly meets their area of interest. ~~the assigned field education setting will broadly match the particular type of social work experience that the student wishes to pursue.~~

Prerequisites: Admission to the MSW Program Foundation Year

Co-requisites: SOCW 637-3

#### **SCAAF201305.19**

##### **Changes to Course Title and Preclusion — ORTM 600-3**

Whitcombe

That the change(s) to the course title and preclusion for ORTM 600-3 Recreation and Tourism Ecology, on page 132 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

##### **ORTM 600-3 Recreation and Tourism Ecology, Management and Design Conservation Area Design and Management**

This course focuses on the theories, processes and techniques involved in ecological management and design of conservation and protected areas. Students develop skills in community-based involvement in conservation area design, GIS approaches and techniques for analysis, the concept of naturalness, capacity and suitability of the natural resource base for tourism and recreation such as commercial backcountry recreation, and the evaluation of ecological values. Specific focus is given to policies, procedures and practices to protect and manage resource and tourism resources within an integrated management context.

Precluded: ORTM 400

#### **SCAAF201305.20**

##### **Changes to Course Preclusion — ORTM 603-3**

Whitcombe

That the change(s) to the course preclusion for ORTM 603-3 International Dimensions of Recreation and Tourism, on page 132 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~striketrough~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**ORTM 603-3 International Dimensions of Recreation and Tourism** The course discusses global dimensions and forces in recreation and tourism, particularly those in developing nations. Typical topics include the role of the United Nations in protected area planning and management, poverty and protected areas, the effects of globalization on ORTM, the impact of the concepts of sustainable development and biodiversity in ORTM, the risk society, the changing role of local communities in conservation, sex tourism, and enforcement issues in the developing world.

Preclusion: ORTM 403

**SCAAF201305.21**

**Changes to Course Preclusion and Prerequisites — ORTM 607-3**

Whitcombe

That the change(s) to the course preclusion and prerequisites for ORTM 607-3 Recreation, Tourism and Communities, on page 132 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**ORTM 607-3 Recreation, Tourism and Communities** This course assesses the relationship between tourism and recreation and local communities as well as collaborative techniques for involving communities in tourism consultation processes. It covers topics such as the concepts of communities and stakeholders, hosts and guests, the relationship between community involvement and tourism, community attitudes towards tourism development, and emerging approaches towards collaboration and partnerships.

~~Prerequisites: RRT 204-3 and any 300 level RRT course or any 200 level ENPL course.~~

Precluded: ORTM 407

**SCAAF201305.22**

**Changes to Course Title and Preclusion — ORTM 608-3**

Whitcombe

That the change(s) to the course title and preclusion for ORTM 608-3 Social and Behavioural Dimensions of Recreation and Tourism, on page 132 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

~~**ORTM 608-3 Social and Behavioural Dimensions of Recreation and Tourism**~~  
**The Psychology of Recreation and Tourism**

This course examines the factors that shape individual and societal perceptions, experiences, and behaviours in resource recreation and tourism experiences and settings. Current psychological theory and research are employed to examine how the individual transects both social and natural environment settings in the pursuit of ~~resource-based~~ resource-based recreation and tourism ~~activities-activities~~. Concepts used in ~~ORTM~~ ORTM are viewed through the lens provided by research in social and environmental psychology, environmental society and perceptual geography.

Preclusion: ORTM 408

**SCAAF201305.23**

**Changes to Course Description and Preclusion — ORTM 612-3**

Whitcombe

That the change(s) to the course description and preclusion for ORTM 612-3 Issues and Trends in Recreation and Tourism, on page 132 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**ORTM 612-3 Issues and Trends in Recreation and Tourism** This seminar examines current issues and problems in recreation and tourism, and explores philosophical historical and contemporary trends and issues in recreation, parks and tourism. The future outlook for management, administration and utilization of recreation and tourism resources in BC will be examined. This seminar-based course examines current issues and trends facing the outdoor recreation, conservation and nature-based tourism study areas. Topics normally change each year, based on recent issues and trends in the broad ORTM discipline, and cover content not traditionally included in any meaningful way in other ORTM courses.  
Precluded: ORTM 412

**SCAAF201305.24**

**Changes to Course Preclusion and Prerequisite — ORTM 614-3**

Whitcombe

That the change(s) to the course preclusion and prerequisite for ORTM 614-3 Polar Tourism and Recreation, on page 132 of the 2012/2013 graduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**ORTM 614-3 Polar Tourism and Recreation** This course focuses on the unique aspects of tourism and recreation in the Polar Regions. Topics covered include issues of shared management, sovereignty, tensions between science and tourism, adventure and expeditionary tourism and recreation, the logistical challenges of operating in such remote environments, and the impacts tourism and recreation have in the Polar Regions.

Prerequisite: 90 credit hours

Precluded: ORTM 414

**9.2 Senate Committee on Nominations**

**Zahir**

**“For Approval” Items:**

Motions S-201306.20 and S-201306.21 were dealt with as an omnibus motion.

**S-201306.20**

**Membership Changes to Senate (no material)**

Tait

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate, be elected to Senate in accordance with Section 3(q)(i) of the Senate Handbook.

Effective date: Immediately upon approval by Senate

**SENATE POSITION TO BE FILLED**

***(except as otherwise noted, all terms begin April 1, 2013)***

**CANDIDATE**

Faculty Member — CASHS (July 1, 2013 - March 31, 2015)

Lisa Dickson

CARRIED.

**S-201306.21**

**Membership Changes to Senate Committees** *(no material)*

Tait

That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate committees as indicated, be appointed as proposed.

Effective date: Immediately upon approval by Senate

**SENATE COMMITTEE POSITION TO BE FILLED**  
*(except as otherwise noted, all terms begin immediately)*

**CANDIDATE**

**SCAAF Continuing Studies Credit Committee**

Graduate student (until March 31, 2014)

Peace Osinike

Further nominations were sought from the floor, and there being none, the motion was CARRIED.

10.0

**S-201306.22**

**Approval of Motions on the Consent Agenda** *(no material)*

Whitcombe

That the motions on the consent agenda, except for those removed for placement on the regular agenda, be approved as presented.

CARRIED.

**S-201306.27**

**Adjournment**

Whitcombe

That the Senate meeting be adjourned.

CARRIED.

The meeting ended at 3:55 p.m.

**SENATE MEETING  
PUBLIC SESSION  
MINUTES**

August 28, 2013  
3:30 – 5:30 PM

Senate Chambers (Room 1079 Administration Building)

---

**Present:**

E. Annis (Acting University Librarian), M. Archie, R. Brouwer, D. Casperson, M. Dale, A. Daniele, B. Deo, L. Dickson, M. Green, S. Green, L. Handfield, T. Hanschen (Secretary of Senate), G. Iwama (Chair), E. Korkmaz, J. Kormos, B. Murray, C. Myers (Recording), M. Nitz, C. Nolin (Vice Chair), D. Nyce, K. Reimer, J. Safaei Boroojeny, P. Sanborn, B. Schorcht, P. Siakaluk, A. Stroet, R. Tallman, S. Wagner, T. Whitcombe

**Regrets:**

R. Bird, J. Brown, D. Burke, D. de Vries, K. Guest, A. LeBlanc, I. Legault, D. Leighton-Stephens, B. McGill (Acting Dean, Graduate Programs), R. Robinson, D. Ryan, C. Silva, K. Walker, S. Zahir

**Absent:**

K. Kuo, B. Wang

---

The meeting commenced at 3:30 p.m. Dr. Iwama welcomed new Senators, Dr. Lisa Dickson and Dean Blanca Schorcht. He also thanked Senator Cristian Silva for his service to Senate, as Mr. Silva had resigned his position.

**1.0 S-201308.01**

**Approval of the Agenda**

Deo

That the agenda for the August 28, 2013 Public Session of Senate be approved as presented.

CARRIED.

**2.0 S-201308.02**

**Approval of Senate Minutes**

Nitz

That the minutes of the June 26, 2013 Public Session of Senate be approved as presented.

CARRIED.

**3.0 Business Arising from Previous Minutes of Senate**

No business arising was identified.

**4.0 President's Report**

**Iwama**

Dr. Iwama reported on UNBC Engineering programs and an award received in relation to the UNBC Bioenergy Plant (report attached to these minutes as "Appendix I").

## **5.0 Report of the Provost**

**Dale**

Dr. Dale reported on several matters (report attached to these minutes as "Appendix II").

## **6.0 Report of the Registrar**

**Hanschen**

Mr. Hanschen provided a presentation to Senators, which included some enrolment data and information regarding course offerings (report attached to these minutes as "Appendix III").

## **7.0 Question Period**

Several questions were raised regarding the Registrar's report and he indicated that the data was unverified and, for now, had only been presented to encourage discussion.

A Senator imparted some concerns with regard to hiring post-doctoral fellows and asked if there was any way the process could be streamlined. He added that the manner in which research space is assigned should be reviewed and that because of these processes UNBC's ability to secure grant funding is undermined. Dr. Dale replied that, with regard to space, Vice President Bird should be consulted. In relation to the processes, Dr. Dale agreed with the Senator's suggestion that a template for job postings would be useful in streamlining the hiring process. Dr. Iwama indicated he would bring the matter of streamlining hiring processes to Dr. Bird's attention.

A Senator asked whether experiential learning, as referred to in the Provost's report, was a shift away from Co-operative Education or whether Co-op would continue and experiential learning would be provided as an alternative. Dr. Dale replied that it was an alternative to Co-op. The Senator asked how many students were currently undertaking the Co-op option and the response was that the uptake is low and there is a shift away from Co-op toward internships. Dr. Owen indicated he would provide the number of students enrolled in Co-op to Senators at the next meeting of Senate.

A Senator expressed thanks to Information Technology Services for providing Eduroam.

It was questioned, in relation to Dr. Dale's statement in his presentation that there is a need for UNBC to do less with less, how it can be determined what the principles and priorities will be in that regard since the UNBC "Conversations" are incomplete. Dr. Iwama replied that he viewed the Conversations as ongoing and informative rather than decisive in this regard. He added that Dr. Theresa Healy has now joined the Conversations to facilitate and shape the discussions. She conducted an exercise at one of the recent Conversations on identifying barriers to the situations we want to realize at UNBC, such as governance transparency and resources, for instance. Her presentation will be uploaded to the blog and will be repeated with focus groups to ensure that the University is moving in the intended direction.

It was noted by a Senator that the YouTube video about the Wood Innovation and Design Centre appeared to indicate that the Engineering programs were "a done deal" and asked whether that was intended. Dr. Dale replied that it had been emphasized with the Ministry from the earliest discussions that these degrees would require the approval of Senate. The Senator also asked about the approval process for the Engineering degrees, including whether the intended start date is September 2014 and if these degrees would be approved in principle initially. Dr. Dale responded that he believed the degrees would be approved in principle to begin with as UNBC does not have the expertise to design the final details about how the program should look. With regard to the start date, Dr. Dale replied that the course-based degree would not be in place by September 2014 but that the other degree may be.

As a result of a radio program he listened to on which bamboo was being discussed, a Senator suggested that perhaps fibres other than wood should be considered in the new Engineering programs.

In relation to an earlier conversation about the hiring process for post-doctoral fellows, another Senator indicated that there is a committee headed by Dr. Bird to which these concerns could be forwarded.

With regard to Dr. Dale's report, a Senator asked whether the decrease in funding also applies to the Canada Foundation for Innovation. Dr. Dale said he believed there was no decrease in this area but that Vice President Bird would need to address this question.

In Dr. Dale's report he referred to a "10+3, 3+10" semester and a Senator asked whether there were other institutions using this model so it could be examined in greater depth. Dr. Dale replied that he didn't think there were other institutions doing something identical but that Middlebury College in Vermont was doing something similar.

## 8.0 Removal of Motions from the Consent Agenda

There were no requests to remove motions from the Consent Agenda.

## 9.0 Committee Reports

### 9.1 Senate Committee on Academic Affairs

Dale

#### "For Approval" Items:

An Executive Summary of the proposed revisions to the First Nations Studies Department curriculum was included for information.

**Changes to Certificate Title and Course requirements for FNST “Traditional Environmental Knowledge”**

Whitcombe

That, on the recommendation of the Senate Committee on Academic Affairs, the change(s) to the Certificate Title and course requirements for FNST “Traditional Environmental Knowledge” on page 138 and 139 of the 2012/2013 undergraduate calendar, be approved as proposed.

Effective date: September 2013

CARRIED (consent agenda).

Details of the approved calendar text are as follows (for revisions, deleted text indicated by ~~strike through~~, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Traditional ~~Environmental~~ Ecological  
Knowledge

The Certificate in Traditional ~~Environmental~~ Ecological Knowledge (TEK) is a multidisciplinary program allowing individuals to pursue their interests in TEK through a concentrated program of courses on First Nations and Environmental subjects.

This program ladders well into a major in First Nations Studies, Anthropology, Biology, History, Education, English, Environmental Studies, Forestry, Geography, Nursing and Community Health, Political Science, Psychology, Social Work and Women’s Studies as well as leading into majors in Physics and Chemistry.

The Certificate requires successful completion of 10 courses (minimum 30 credit hours). Eighteen of these hours are earned by

completing six required First Nations courses. Options for a writing course include one additional First Nations Studies course. The remaining ~~four~~three courses (minimum ~~42~~9 credit hours) ~~consist of options from four different streams: Non-Science must be selected from the approved list for Ecology, Biology, and Chemistry or Physics. Chemistry, Geography, Physics and Natural Resources.~~ Students must establish their course of study with approval from the Chair of First Nations Studies.

#### Certificate Requirements

FNST 100-3 The Aboriginal Peoples of Canada

MINE 486-3 Mining and the Environment

**Semester 7 and 8 completed at UBC**

~~CHBE 346-3 Chemical and Biological Engineering Thermodynamics~~  
CHBE 351-3 Transport Phenomena II  
CHBE 459-3 Chemical and Biological Engineering Economics  
CIVL 311-4 Soil Mechanics II  
CIVL 402-2 Engineering Law and Contracts in Civil Engineering  
CIVL 408-3 Geoenvironmental Engineering  
CIVL 416-3 Environmental Hydraulics  
CIVL 418-3 Engineering Hydrology

Twelve credit hours of technical electives chosen from a constrained list.

**Semester 9 completed at UNBC**

ENPL 401-3 Environmental Law  
ENSC 417-6 Designing Solutions in Environmental Engineering  
ENSC 418-3 Environmental Measurement and Analysis

Three credit hours of Social Science or Humanities elective.  
Three credit hours of elective.

**Technical electives available at UNBC for the UBC portion of the curriculum in the UBC/UNBC Joint Environmental Engineering Program**
